Explores the political, economic, cultural, and social engagement of Africans, Europeans, and Native Americans across the Atlantic from 1400 to 1850. It uses a comparative lens to understand how interactions between Europe, Africa, and the Americas created enduring ties throughout the Atlantic Basin. (Typically offered: Irregular)

HIST 4243. Germany, 1789-1918. 3 Hours.

Study of German history from the Age of Absolutism to the collapse of the German Empire at the end of the First World War. Special attention is paid to the Enlightenment and Romantic movements; nationalism and the unification of Germany; and evolving conflicts over the political and social order. (Typically offered: Irregular)

HIST 4253. Germany, 1918-1945. 3 Hours.

Study of German history from advent of the Weimar Republic to the end of the Third Reich with emphasis upon the failure of democratic government in the 1920s and the rise and fall of the National Socialist dictatorship. (Typically offered: Irregular)

HIST 4263. Modern Africa. 3 Hours.

Examines the last half-century of Africa's history, focusing on the last few decades. Introduction of Africa's colonial past, revolutions and struggles for independence. Review of African development in the post-colonial and contemporary era, successes and failures of independent Africa, and the challenges the continent faces today. (Typically offered: Irregular)

This course is cross-listed with AAST 4263.

HIST 4273. Comparative Slavery. 3 Hours.

Explores the meaning of slavery around the world, both in ancient and modern times. This examination of how slavery differed in various cultures over time will allow students to explore the complexity of this labor relationship and gain a better understanding of how slavery was an integral part of world history. (Typically offered: Irregular)

This course is cross-listed with AAST 4273.

HIST 4273H. Honors Comparative Slavery. 3 Hours.

Explores the meaning of slavery around the world, both in ancient and modern times. This examination of how slavery differed in various cultures over time will allow students to explore the complexity of this labor relationship and gain a better understanding of how slavery was an integral part of world history. (Typically offered: Irregular)

This course is cross-listed with HIST 4273, AAST 4273.

HIST 4293. Latin American Environmental History. 3 Hours.

Explores the challenges, debates, and ecologies of Latin America in order to understand the historical roots of current environmental crises. It engages a historiography on ecosystems found in the region. Uses environmental history texts and scholarly articles to build a layered and transnational approach. (Typically offered: Irregular)

HIST 4303. Transatlantic Relations, 1919-Present. 3 Hours.

US-Western European Relations, from the Wilsonian era to the present, covering strategic, economic, and cultural aspects. (Typically offered: Irregular)

HIST 4323. Wars of Religion: From the Crusades to 9/11. 3 Hours.

Examines the place of religion in combat across the centuries. A case study approach is used to explore different conflicts from the twelfth century crusades against Muslim forces to 9/11. Investigates how religious motivations may or may not be related to other political, social, cultural, economic concerns. (Typically offered: Fall Even Years)

HIST 4333. Modern Islamic Thought. 3 Hours.

Main currents in Islamic theology and political philosophy from the Ottoman Empire to the end of the twentieth century. (Typically offered: Irregular)

HIST 4343. Golden Age Portugal and Spain. 3 Hours.

This course will examine the diverging and converging paths of Portugal and Spain during the early modern period (15th-17th centuries). We will chart their rise as global imperial powers and their initial declines. We'll explore the political, social, and religious contexts in which Golden Age Iberia flourished. (Typically offered: Spring Even Years)

HIST 4363. The Middle East since 1914. 3 Hours.

Middle East since 1914 addresses European colonialism, the rise of new social elites, independence, revolution, globalization, economic self-determination, persistent regional conflicts and ongoing battles over "cultural authenticity". (Typically offered: Irregular)

HIST 4383. The American Civil Rights Movement. 3 Hours.

Introduction to the history and development of the civil rights movement in the United States. (Typically offered: Irregular)
This course is cross-listed with AAST 4383.

HIST 4393. Early Modern Islamic Empires, 1300-1750. 3 Hours.

An examination of the historical development of the three great Islamic empires in the early modern period- the Ottomans, the Safavids of Iran, and the Mughals of India. Special attention given to imperial expansion, administrative structures, religious-legal establishment, and the formation of distinct traditions in political ideology, historiography, and the arts and sciences. (Typically offered: Spring Even Years)

HIST 4403. Islam in Asia. 3 Hours.

Introduces students to the history of Islam in East and Southeast Asia over the past 1,200 years. It focuses on the 18th-21st centuries when Muslims were part of everyday life in Asia and participated in the formation of majority and minority identities in the region. (Typically offered: Irregular)

HIST 4413. New Women in the Middle East. 3 Hours.

This course covers the transformation of social and cultural roles of women in the Middle East since the 19th Century. Emphases include political emancipation, religious reformation, artistic representation, and gendered re-definition. (Typically offered: Irregular)

HIST 4433. Social and Cultural History of the Modern Middle East. 3 Hours.

An analysis of Middle East history in the 17th-20th centuries which focuses on the social transformation of urban and rural life. Particular emphasis is given to the roles of economics, genealogy, art, and popular culture. (Typically offered: Irregular)

HIST 4443. Frontiers and Borderlands in Colonial Latin America. 3 Hours.

This course examines frontiers and borderlands in colonial Latin America and focuses on the regions of California, New Mexico, Texas, Brazil, and the Río de la Plata. It demonstrates that frontiers and borderlands are defined by the absence of a hegemonic European power and associated with the prevalence of Indigenous norms. (Typically offered: Irregular)

HIST 4463. The American Frontier. 3 Hours.

American westward expansion and its influence on national institutions and character. Emphasis on the pioneer family and the frontier's role in shaping American society, culture, economy, and politics. Topics include exploration, the fur trade, the cattle kingdom and the mining, farming, and military frontiers. (Typically offered: Fall Odd Years)

HIST 4473. Environmental History. 3 Hours.

Examines the interactions between human culture and the natural environments: Concepts of nature in the West and elsewhere, dynamics of the Physical Environment, case studies in Regional Environmental History and the Politics of Environmental movements. (Typically offered: Irregular)

HIST 4483. African American Biographies. 3 Hours.

Introduction to the history and intellectual development of famous and not-so-famous African Americans. (Typically offered: Irregular)
This course is cross-listed with AAST 4483.

HIST 4493. Religion in America to 1860. 3 Hours.

History of religion in early America, primarily from a social and cultural perspective. Topics will include region, social class, growth of institutions, slavery, print culture, and social reform in traditions including Protestantism, West African religion, Catholicism, Native American religion, and Judaism. (Typically offered: Irregular)

HIST 4503. History of Political Parties in the United States, 1789-1896. 3 Hours.

Origin and development of the American party system from the implementation of the constitution to the election of McKinley. (Typically offered: Fall Even Years)
This course is cross-listed with PLSC 4303.

HIST 4513. History of Political Parties in the United States Since 1896. 3 Hours.

Response of the party system to America's emergence as an industrial nation and world power from the election of 1896 to present. (Typically offered: Spring Odd Years)
This course is cross-listed with PLSC 4313.

HIST 4543. American Social and Intellectual History Since 1865. 3 Hours.

Survey of thought and society since the Civil War. (Typically offered: Spring Odd Years)

HIST 4553. The Recluse in Early East Asia. 3 Hours.

A cross-cultural study of those who chose or needed to leave the world of officialdom for the world of nature in early East Asia. (Typically offered: Fall Even Years)

HIST 4563. The Old South, 1607-1865. 3 Hours.

Survey of the political, social, and economic development of the antebellum South. (Typically offered: Irregular)
This course is cross-listed with AAST 4563.

HIST 4573. The New South, 1860 to the Present. 3 Hours.

Survey of the development of the Civil War and postwar South to the present. (Typically offered: Irregular)
This course is cross-listed with AAST 4573.

HIST 4583. Arkansas in the Nation. 3 Hours.

Designed to provide advanced undergraduate and graduate students with a comprehensive understanding of the full sweep of Arkansas history. The focus will be on social, economic and political history, and historiography. (Typically offered: Irregular)

HIST 4593. The Colonial French in the Mississippi Valley. 3 Hours.

This course focuses on the French Colonial Mississippi Valley from 1698 until 1763. Activities for both French and non-French speaking students provide a rich environment to discuss encounters, subsistence strategies, and warfare faced by native peoples, missionaries, explorers, and colonists alike. Students will examine primary handwritten, transcribed, or translated sources. (Typically offered: Spring)
This course is cross-listed with WLLC 4053, WLLC 4053H.

HIST 4603. U.S. Labor History to 1877. 3 Hours.

Examines the changing nature of work in U.S. history from 1607 until 1877 including the ways that workers--individually and collectively-- understand the meanings of their labor and to the ways that notions of class, gender, ethnicity, and race inform these understandings. (Typically offered: Irregular)

HIST 4613. Colonial America 1600-1763. 3 Hours.

History of colonial America from 1600 to the end of the Seven Years War emphasizing economic, social, and cultural perspectives. Topics include Native American, French, Spanish, English, Dutch, and Russian interactions in North America and the larger Atlantic World. (Typically offered: Irregular)

HIST 4623. Revolutionary America, 1763 to 1789. 3 Hours.

History of revolutionary America emphasizing economic, social, and cultural perspectives. Topics include historical interpretations of the causes of the war, the impact of war on African Americans, women, loyalists, elite, and poor Americans. The course also examines the formation of the new national government. (Typically offered: Irregular)

HIST 4633. Heian Japan (794-1192). 3 Hours.

A study of courtly culture and the religious world of Heian Japan. (Typically offered: Irregular)

HIST 4633H. Honors Heian Japan (794-1192). 3 Hours.

A study of courtly culture and the religious world of Heian Japan. (Typically offered: Irregular)

This course is equivalent to HIST 4633.

HIST 4643. Early American Republic, 1789-1828. 3 Hours.

History of the early United States emphasizing social and cultural perspectives. Topics addressed will include westward expansion, slavery, religion, and economic change. (Typically offered: Irregular)

HIST 4653. Antebellum America, 1828-1850. 3 Hours.

History of antebellum U.S. emphasizing social and cultural perspectives. Topics addressed will include slavery, religion, gender, the market economy, regionalism, and political developments. (Typically offered: Irregular)

HIST 4663. Rebellion to Reconstruction, 1850-1877. 3 Hours.

A survey of political, social, and economic issues from the late antebellum period through Reconstruction. Emphasis is placed on the causes of the Civil War and the problems of postwar America. A brief examination of the Civil War is included. (Typically offered: Irregular)

HIST 4673. The American Civil War. 3 Hours.

An intensive study of the political, social, military, and economic aspects of the American Civil War period. (Typically offered: Fall)

HIST 4693. Approaching Global History. 3 Hours.

Explores theoretical perspectives on global history through a treatment of the historiographical development of the field, readings of landmark texts, and selected case studies of global themes. (Typically offered: Irregular)

This course is cross-listed with INST 4693.

HIST 4703. Emergence of Modern America, 1876-1917. 3 Hours.

A survey of the impact of the Industrial Revolution, Imperialism, and progressivism upon American life and institutions. (Typically offered: Fall Odd Years)

HIST 4723. America Between the Wars, 1917-1941. 3 Hours.

The impact of World War I, the 1920s, and the Great Depression upon American society and culture. (Typically offered: Spring Even Years)

HIST 4733. Recent America, 1941 to the Present. 3 Hours.

A general survey of American history since World War II with emphasis upon the presidency, reform movements, the Cold War, and cultural developments. (Typically offered: Irregular)

HIST 4743. The Cold War in Latin America: Revolutions, Violence, and Politics. 3 Hours.

This course will trace the rise of the ideological and political struggles over social and economic development and the security regimes designed to thwart socialist revolution and political mobilization. The influence of the United States in Latin American security regimes and "containment" activities will receive special attention. (Typically offered: Irregular)

HIST 4753. Diplomatic History of the United States, 1776-1900. 3 Hours.

Survey of American foreign relations from the American Revolution through the Spanish-American War. Principal topics include isolationism, freedom of the seas, manifest destiny and continental expansion, overseas expansion, and the diplomacy of war and peace. Emphasis on the relationship between domestic politics and foreign affairs. Prerequisite: HIST 2003. (Typically offered: Fall Even Years)

HIST 4763. Diplomatic History of the United States, 1900-1945. 3 Hours.

America's development as a world power. The course examines U.S. relations with Europe, Latin America, and East Asia, plus America's first approach to the Middle East. Particular emphasis is placed on America's involvement in World War I and World War II. Prerequisite: HIST 2013. (Typically offered: Spring Odd Years)

HIST 4773. Diplomatic History of the US, 1945 to Present. 3 Hours.

U.S. involvement in world affairs since WWII. The Cold War from an international perspective, including strategies, nuclear deterrence, conflicts, economic developments, cultural relations among allies and adversaries. Post-Cold War scenarios, including war on terrorism. (Typically offered: Irregular)

HIST 4783. History of Modern Mexico. 3 Hours.

This course examines the history of Mexico from the wars of independence to the present. Emphasis will be placed on the turbulent nineteenth century and the Mexican Revolution. Themes covered include colonial legacies, national identities, popular culture, emigration, and relations with the United States. (Typically offered: Spring Odd Years)

HIST 4793. Colonial India, 1758-1948. 3 Hours.

Examines the course of Indian history from the 1758 Battle of Plassey to eventual independence from Great Britain in 1948. Special attention is given to India's place within the British Empire, particularly the East India Company, the Indian Mutiny, the Raj, the rise of Gandhi, and India's independence movement. (Typically offered: Irregular)

HIST 4803. Modern Scandinavia. 3 Hours.

Examines the history of the Nordic lands, including Denmark, Finland, Iceland, Norway, and Sweden, from 1500 to the present. (Typically offered: Irregular)

HIST 4813. Africans and Slavery in Colonial Latin America. 3 Hours.

Explores the diverse experiences of slaves and free Blacks in colonial Spanish and Portuguese America from 1500 to around 1888, demonstrating that bondage and the practice of African slavery was a pillar of political authority in colonial Latin America. (Typically offered: Irregular)

This course is cross-listed with AAST 4813.

HIST 4823. Black Freedom in the Age of Emancipation. 3 Hours.

This course centers on the comparative study of Atlantic World freedom movements from the perspective of the African Diaspora. It focuses on the histories, meanings, legacies of the various types of black emancipation in the Atlantic World and the cultural technologies that enabled them. (Typically offered: Spring)

HIST 4843. Global History of Soccer. 3 Hours.

Prompts students to explore the various historical processes related to the global diffusion of and engagement with soccer. Examines the ways soccer has reflected the broader, ongoing process of globalization, with players, ideas, tactics, and wealth circulating throughout the globe. (Typically offered: Irregular)

HIST 4853. Early Chinese Empires: Mythology, Archeology, and Historiography. 3 Hours.

A critical introduction to the most important sources and major themes, both textual and archeological, for the study of early China. (Typically offered: Spring)

HIST 4853H. Honors Early Chinese Empires: Mythology, Archeology, and Historiography. 3 Hours.

A critical introduction to the most important sources and major themes, both textual and archeological, for the study of early China. (Typically offered: Spring)

This course is equivalent to HIST 4853.

HIST 4863. Classical Thought in East Asia. 3 Hours.

Introduces the major East Asian philosophical and religious traditions including Confucianism, Daoism, Buddhism, and Shintoism. Read original sources in translation, such as Analects, and explore perspectives that stem from the traditions as they bear on contemporary global issues. (Typically offered: Fall)

HIST 4863H. Honors Classical Thought in East Asia. 3 Hours.

Introduces the major East Asian philosophical and religious traditions including Confucianism, Daoism, Buddhism, and Shintoism. Read original sources in translation, such as Analects, and explore perspectives that stem from the traditions as they bear on contemporary global issues. (Typically offered: Fall)
This course is equivalent to HIST 4863.

HIST 4873. Germany since 1945. 3 Hours.

Examines the history of Germany since the end of the Second World War including political division and economic recovery, dissident movements in East Germany and alternative cultures in West Germany, reunification in 1990, and the legacy of Nazism and the Holocaust. (Typically offered: Irregular)

HIST 4883. Health and Disease: 1500 to the Present. 3 Hours.

Explores the emergence of epidemics against the backdrop of the nation state and anxieties over women, the lower classes, and other marginalized groups. The rise of modern health programs illuminates the cultural construction of medicine, the biases of scientific inquiry, and the tensions among paternalism, liberty, and prejudice. (Typically offered: Irregular)

HIST 4893. Senior Capstone Seminar. 3 Hours.

Required for all history majors. Examines research methods and current theories of interpreting and evaluating the past. Emphasizes skills of analysis, synthesis, and integration. Students produce a primary source-based research paper. A grade of a B or better will satisfy the Fulbright senior writing requirement. Prerequisite: History major; senior standing. (Typically offered: Fall and Spring)

HIST 4903. Music and the Arts of Edo Japan 1600-1868. 3 Hours.

A music and arts view of urban and popular culture of the Edo period of Japan (1600-1868). Readings drawn from history, literature, aesthetics, religion and science. (Typically offered: Irregular)

HIST 4913. Reading Japanese Noh as Cultural History. 3 Hours.

A historical, sociocultural, and inter-arts approach to the medieval lyric-drama Japanese Noh, a form of masked theater with roots reaching beyond the 14th century. (Typically offered: Irregular)

HIST 4913H. Honors Reading Japanese Noh as Cultural History. 3 Hours.

A historical, sociocultural, and inter-arts approach to the medieval lyric-drama Japanese Noh, a form of masked theater with roots reaching beyond the 14th century. (Typically offered: Irregular)
This course is equivalent to HIST 4913.

HIST 4923. Song China 960-1279. 3 Hours.

Examination of the Song dynasty (960-1279) concentrating on the education and role of the scholar-official and the literatus. Readings drawn from history, literature, personal diaries, travel accounts, political memoranda, and scientific writings. (Typically offered: Irregular)

HIST 4923H. Honors Song China (960-1279). 3 Hours.

Examination of the Song dynasty (960-1279) concentrating on the education and role of the scholar-official and the literatus. Readings drawn from history, literature, personal diaries, travel accounts, political memoranda, and scientific writings. (Typically offered: Irregular)
This course is equivalent to HIST 4923.

HIST 4933. Ad Paradisum: Utopias, imaginary places, and the afterlife in East Asia. 3 Hours.

Confucian, Daoist, and Buddhist ideas of ideal communities ('utopias'), of imaginary places ('paradise islands'), and of the afterlife ('heaven and hell') in East Asia will be traced in a broad sweep across literature, painting, and the performing arts. (Typically offered: Irregular)

HIST 4943. U.S. Labor History, from 1877-present. 3 Hours.

This course will examine the changing nature of work in U.S. history from 1877 until the present. It will pay particular attention to the ways that workers--individually and collectively--understand the meanings of their labor and to the ways that notions of class, gender, ethnicity, and race inform these understandings. (Typically offered: Irregular)

HIST 4953. The History of Sub-Saharan African Women. 3 Hours.

Introduction to the history of women in Sub-Saharan Africa, starting in the early 18th century through the 20th century. Focus on women and the transatlantic slave trade, women's influence in pre-colonial religious, political, and cultural institutions, and women's experiences under colonial rule and in post-colonial Africa. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
This course is cross-listed with AAST 4953.

HIST 4953H. Honors The History of Sub-Saharan African Women. 3 Hours.

Introduction to the history of women in Sub-Saharan Africa, starting in the early 18th century through the 20th century. Focus on women and the transatlantic slave trade, women's influence in pre-colonial religious, political, and cultural institutions, and women's experiences under colonial rule and in post-colonial Africa. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
This course is cross-listed with HIST 4953, AAST 4953.

HIST 4963. Third World Underdevelopment and Modernization. 3 Hours.

Examines key issues related to societal change in the Third World, including various views and theories of international development and modernization. Other major issues explored include social inequalities, food and hunger, population, environment, trade and globalization, international aid, and the roles of state, market, and civil society. (Typically offered: Irregular)
This course is cross-listed with AAST 4963.

HIST 4973. The Civilization of the Renaissance in Italy. 3 Hours.

Important trends in Italian culture between the 14th and 16th centuries, including the birth of humanism, new understandings of the past, "new" political ideologies, scientific innovation, and famous art produced in the Western tradition. (Typically offered: Irregular)

HIST 498V. Senior Thesis. 1-6 Hour.

Senior thesis. (Typically offered: Irregular)

HIST 4993. History of the Ottoman Empire, 1300-1923. 3 Hours.

History of the Ottoman Empire from its emergence as frontier principality in Anatolia ca. 1300, through its heyday as a major imperial power on three continents in the fifteenth through the eighteenth centuries, ending with its encounter with western imperialism and nationalism in the nineteenth and early twentieth centuries. (Typically offered: Irregular)

HIST 5003. Democratic Athens. 3 Hours.

(Formerly HIST 4003.) History of the Athens from the sixth century BCE to the end of the fourth. Topics include origins and evolution of democracy, the Persian wars, the rise and fall of the Athenian Empire, and the development of historiography, literature, art, and philosophy during the period. Graduate degree credit will not be given for both HIST 4003 and HIST 5003. (Typically offered: Irregular)

HIST 5013. Alexander the Great and the Hellenistic World. 3 Hours.

(Formerly HIST 4013.) A survey of the achievements of Alexander and the culture of the new world he created. The personality and career of Alexander are examined as well as the rich diversity of the Hellenistic world: trade with India, religious syncretism, and the development of Hellenistic science and philosophy. Graduate degree credit will not be given for both HIST 4013 and HIST 5013. (Typically offered: Irregular)

HIST 5033. Roman Empire. 3 Hours.

(Formerly HIST 4033.) History of Rome from the Emperor Augustus to Constantine, ca. 30 BCE - 337 CE. Topics include the sources for imperial Rome, the organization of imperial government, the provinces of Rome and provincial government, art and literature under the empire, the rise of Christianity, and the conversion of the Empire. Graduate degree credit will not be given for both HIST 4033 and HIST 5033. (Typically offered: Irregular)

HIST 506V. Readings in European History. 1-6 Hour.

Directed readings in the field of European history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 507V. Readings in American History. 1-6 Hour.

Readings. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HIST 508V. Research Problems in European History. 1-6 Hour.

Research problems. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

HIST 509V. Research Problems in American History. 1-6 Hour.

Research problems. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

HIST 511V. Research Problems in Latin American History. 1-6 Hour.

Research problems in Latin American history. (Typically offered: Irregular)

HIST 517V. Readings in Asian History. 1-6 Hour.

Readings. Prerequisite: Graduate standing. (Typically offered: Irregular)

HIST 518V. Research Problems in Asian History. 1-18 Hour.

Research problems in Asian history. Prerequisite: Graduate standing. (Typically offered: Irregular)

HIST 5193. Great Britain, 1901-2001. 3 Hours.

(Formerly HIST 4193.) Examines the history of the British Isles from the death of Queen Victoria in 1901 to the reelection of Prime Minister Tony Blair in 2001. Special attention is given to the collapse of the British Empire, the birth of the welfare state, and the challenges inherent in the decline of British world power. Graduate degree credit will not be given for both HIST 4193 and HIST 5193. (Typically offered: Spring Odd Years)

HIST 5203. History of the Holocaust. 3 Hours.

(Formerly HIST 4203.) Examines the origins, history, and legacies of the European Holocaust. Traces the origins of anti-Semitism in Europe, the rise of Nazism in Germany, the path to genocide during World War II, and the role of victims, perpetrators, rescuers, and bystanders. Considers issues of memory and justice in the postwar era. Graduate degree credit will not be given for both HIST 4203 and HIST 5203. (Typically offered: Irregular)

HIST 522V. Readings in Latin America History. 1-6 Hour.

Readings in Latin American history. (Typically offered: Irregular)

HIST 524V. Readings in African History. 1-6 Hour.

Readings in African history. (Typically offered: Irregular)

HIST 525V. Research Problems in African History. 1-6 Hour.

Research problems in African history. (Typically offered: Irregular)

HIST 526V. Readings in Middle Eastern History. 1-6 Hour.

Readings in Middle Eastern history. (Typically offered: Irregular)

HIST 527V. Readings in Medieval History. 1-6 Hour.

Readings in Medieval history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HIST 528V. Research Problems in Middle Eastern History. 1-6 Hour.

Research problems in Middle Eastern history. (Typically offered: Irregular)

HIST 529V. Research Problems in Medieval History. 1-6 Hour.

Research problems in Medieval history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HIST 530V. Readings in British History. 1-6 Hour.

Directed readings in the field of British history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 533V. Readings in Ancient History. 1-6 Hour.

Readings in Ancient history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HIST 534V. Research Problems in Ancient History. 1-6 Hour.

Research problems in Ancient history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HIST 5393. Early Modern Islamic Empires, 1300-1750. 3 Hours.

(Formerly HIST 4393.) An examination of the historical development of the three great Islamic empires in the early modern period- the Ottomans, the Safavids of Iran, and the Mughals of India. Special attention given to imperial expansion, administrative structures, religious-legal establishment, and the formation of distinct traditions in political ideology, historiography, and the arts and sciences. Graduate degree credit will not be given for both HIST 4393 and HIST 5393. (Typically offered: Spring Odd Years)

HIST 5403. Islam in Asia. 3 Hours.

(Formerly HIST 4403.) Introduces students to the history of Islam in East and Southeast Asia over the past 1,200 years. It focuses on the 18th-21st centuries when Muslims were part of everyday life in Asia and participated in the formation of majority and minority identities in the region. Graduate degree credit will not be given for both HIST 4403 and HIST 5403. (Typically offered: Irregular)

HIST 545V. Readings in Caribbean History. 1-6 Hour.

Graduate readings in Caribbean history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HIST 546V. Research Problems in Caribbean History. 1-6 Hour.

Independent research in Caribbean history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HIST 547V. Readings in Atlantic History. 1-6 Hour.

Graduate readings in Atlantic world history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HIST 5483. African American Biographies. 3 Hours.

(Formerly HIST 4483.) Introduction to the history and intellectual development of famous and not-so-famous African Americans. Graduate degree credit will not be given for both HIST 4483 and HIST 5483. (Typically offered: Irregular)

HIST 5493. Religion in America to 1860. 3 Hours.

(Formerly HIST 4493.) History of religion in early America, primarily from a social and cultural perspective. Topics will include region, social class, growth of institutions, slavery, print culture, and social reform in traditions including Protestantism, West African religion, Catholicism, Native American religion, and Judaism. Graduate degree credit will not be given for both HIST 4493 and HIST 5493. (Typically offered: Irregular)

HIST 5503. History of Political Parties in the United States, 1789-1896. 3 Hours.

(Formerly HIST 4503.) Origin and development of the American party system from the implementation of the constitution to the election of McKinley. Graduate degree credit will not be given for both HIST 4503 and HIST 5503. (Typically offered: Fall Even Years)

HIST 5513. History of Political Parties in the United States Since 1896. 3 Hours.

(Formerly HIST 4513.) Response of the party system to America's emergence as an industrial nation and world power from the election of 1896 to present. Graduate degree credit will not be given for both HIST 4513 and HIST 5513. (Typically offered: Spring Odd Years)

HIST 5523. Roman Republic. 3 Hours.

(Formerly HIST 4023.) History of Rome from its origins in the eighth century BCE to the fall of the Republic in the first century BCE. Topics include the sources for Roman history, the development, functioning, and ultimate failure of republican government, the Roman army, and Roman imperialism in Italy and the Mediterranean. Graduate degree credit will not be given for both HIST 4023 and HIST 5523. (Typically offered: Irregular)

HIST 5543. American Social and Intellectual History Since 1865. 3 Hours.

(Formerly HIST 4543.) Survey of thought and society since the Civil War. Graduate degree credit will not be given for both HIST 4543 and HIST 5543. (Typically offered: Spring Odd Years)

HIST 5553. The Recluse in Early East Asia. 3 Hours.

(Formerly HIST 4553.) A cross-cultural study of those who chose or needed to leave the world of officialdom for the world of nature in early East Asia. Graduate degree credit will not be given for both HIST 4553 and HIST 5553. (Typically offered: Fall Even Years)

HIST 5563. The Old South, 1607-1865. 3 Hours.

(Formerly HIST 4563.) Survey of the political, social, and economic development of the antebellum South. Graduate degree credit will not be given for both HIST 4563 and HIST 5563. (Typically offered: Fall Odd Years)

HIST 5573. The New South, 1860 to the Present. 3 Hours.

(Formerly HIST 4573.) Survey of the development of the Civil War and postwar South to the present. Graduate degree credit will not be given for both HIST 4573 and HIST 5573. (Typically offered: Fall Even Years)

HIST 5583. Arkansas in the Nation. 3 Hours.

(Formerly HIST 4583.) Designed to provide advanced undergraduate and graduate students with a comprehensive understanding of the full sweep of Arkansas history. The focus will be on social, economic and political history, and historiography. Graduate degree credit will not be given for both HIST 4583 and HIST 5583. (Typically offered: Irregular)

HIST 5593. The Colonial French in the Mississippi Valley. 3 Hours.

(Formerly HIST 4593.) This course focuses on the French Colonial Mississippi Valley from 1698 until 1763. Activities for both French and non-French speaking students provide a rich environment to discuss encounters, subsistence strategies, and warfare faced by native peoples, missionaries, explorers, and colonists alike. Students will examine primary handwritten, transcribed, or translated sources. Graduate degree credit will not be given for both HIST 4593 and HIST 5593. (Typically offered: Spring)

HIST 5603. U.S. Labor History to 1877. 3 Hours.

(Formerly HIST 4603.) Examines the changing nature of work in U.S. history from 1607 until 1877 including the ways that workers--individually and collectively--understand the meanings of their labor and to the ways that notions of class, gender, ethnicity, and race inform these understandings. Graduate degree credit will not be given for both HIST 4603 and HIST 5603. (Typically offered: Fall Odd Years)

HIST 5613. Colonial America 1600-1763. 3 Hours.

(Formerly HIST 4613.) History of colonial America from 1600 to the end of the Seven Years War emphasizing economic, social, and cultural perspectives. Topics include Native American, French, Spanish, English, Dutch, and Russian interactions in North America and the larger Atlantic World. Graduate degree credit will not be given for both HIST 4613 and HIST 5613. (Typically offered: Irregular)

HIST 5623. Revolutionary America, 1763 to 1789. 3 Hours.

(Formerly HIST 4623.) History of revolutionary America emphasizing economic, social, and cultural perspectives. Topics include historical interpretations of the causes of the war, the impact of war on African Americans, women, loyalists, elite, and poor Americans. The course also examines the formation of the new national government. Graduate degree credit will not be given for both HIST 4623 and HIST 5623. (Typically offered: Irregular)

HIST 5633. Heian Japan 794-1192. 3 Hours.

(Formerly HIST 4633.) A study of courtly culture and the religious world of Heian Japan. Graduate degree credit will not be given for both HIST 4633 and HIST 5633. (Typically offered: Irregular)

HIST 5643. Early American Republic, 1789-1828. 3 Hours.

(Formerly HIST 4643.) History of the early United States emphasizing social and cultural perspectives. Topics addressed will include westward expansion, slavery, religion, and economic change. Graduate degree credit will not be given for both HIST 4643 and HIST 5643. (Typically offered: Irregular)

HIST 5653. Antebellum America, 1828-1850. 3 Hours.

(Formerly HIST 4653.) History of antebellum U.S. emphasizing social and cultural perspectives. Topics addressed will include slavery, religion, gender, the market economy, regionalism, and political developments. Graduate degree credit will not be given for both HIST 4653 and HIST 5653. (Typically offered: Irregular)

HIST 5663. Rebellion to Reconstruction, 1850-1877. 3 Hours.

(Formerly HIST 4663.) A survey of political, social, and economic issues from the late antebellum period through Reconstruction. Emphasis is placed on the causes of the Civil War and the problems of postwar America. A brief examination of the Civil War is included. Graduate degree credit will not be given for both HIST 4663 and HIST 5663. (Typically offered: Irregular)

HIST 5673. The American Civil War. 3 Hours.

(Formerly HIST 4673.) An intensive study of the political, social, military, and economic aspects of the American Civil War period. Graduate degree credit will not be given for both HIST 4673 and HIST 5673. (Typically offered: Fall)

HIST 5683. The American Civil Rights Movement. 3 Hours.

(Formerly HIST 4383.) Introduction to the history and development of the civil rights movement in the United States. Graduate degree credit will not be given for both HIST 4383 and HIST 5683. (Typically offered: Irregular)

HIST 5693. Late Middle Ages. 3 Hours.

(Formerly HIST 4053.) This course examines the political, social-economic, intellectual, and spiritual developments of European history, c. 1000-1400 CE. Special topics include monasticism, sacral kingship, the crusades, and the medieval university. Graduate degree credit will not be given for both HIST 4053 and HIST 5693. (Typically offered: Spring Odd Years)

HIST 570V. Special Topics. 1-6 Hour.

Special topics. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

HIST 5723. America Between the Wars, 1917-1941. 3 Hours.

(Formerly HIST 4723.) The impact of World War I, the 1920s, and the Great Depression upon American society and culture. Graduate degree credit will not be given for both HIST 4723 and HIST 5723. (Typically offered: Irregular)

HIST 573V. Readings in Global History. 1-6 Hour.

Directed readings in the field of Global history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HIST 5753. Diplomatic History of the United States, 1776-1900. 3 Hours.

(Formerly HIST 4753.) Survey of American foreign relations from the American Revolution through the Spanish-American War. Principal topics include isolationism, freedom of the seas, manifest destiny and continental expansion, overseas expansion, and the diplomacy of war and peace. Emphasis on the relationship between domestic politics and foreign affairs. Graduate degree credit will not be given for both HIST 4753 and HIST 5753. Prerequisite: HIST 2003. (Typically offered: Fall Even Years)

HIST 5763. Diplomatic History of the United States, 1900-1945. 3 Hours.

(Formerly HIST 4763.) America's development as a world power. The course examines U.S. relations with Europe, Latin America, and East Asia, plus America's first approach to the Middle East. Particular emphasis is placed on America's involvement in World War I and World War II. Graduate degree credit will not be given for both HIST 4763 and HIST 5763. Prerequisite: HIST 2013. (Typically offered: Spring Odd Years)

HIST 5773. Diplomatic History of the US, 1945 to Present. 3 Hours.

(Formerly HIST 4773.) U.S. involvement in world affairs since WWII. The Cold War from an international perspective, including strategies, nuclear deterrence, conflicts, economic developments, cultural relations among allies and adversaries. Post-Cold War scenarios, including war on terrorism. Graduate degree credit will not be given for both HIST 4773 and HIST 5773. (Typically offered: Fall Odd Years)

HIST 5783. History of Modern Mexico. 3 Hours.

(Formerly HIST 4783.) This course examines the history of Mexico from the wars of independence to the present. Emphasis will be placed on the turbulent nineteenth century and the Mexican Revolution. Themes covered include colonial legacies, national identities, popular culture, emigration, and relations with the United States. Graduate degree credit will not be given for both HIST 4783 and HIST 5783. (Typically offered: Spring Odd Years)

HIST 5793. Colonial India, 1758-1948. 3 Hours.

(Formerly HIST 4793.) Examines the course of Indian history from the 1758 Battle of Plassey to eventual independence from Great Britain in 1948. Special attention is given to India's place within the British Empire, particularly the East Indian Company, the Indian Mutiny, the Raj, the rise of Gandhi, and India's independence movement. Graduate degree credit will not be given for both HIST 4793 and HIST 5793. (Typically offered: Irregular)

HIST 5803. Modern Scandinavia. 3 Hours.

(Formerly HIST 4803.) Examines the history of the Nordic lands, including Denmark, Finland, Iceland, Norway, and Sweden, from 1500 to the present. Graduate degree credit will not be given for both HIST 4803 and HIST 5803. (Typically offered: Irregular)

HIST 5813. Africans and Slavery in Colonial Latin America. 3 Hours.

(Formerly HIST 4813.) Explores the diverse experiences of slaves and free Blacks in colonial Spanish and Portuguese America from 1500 to around 1888, demonstrating that bondage and the practice of African slavery was a pillar of political authority in colonial Latin America. Graduate degree credit will not be given for both HIST 4813 and HIST 5813. (Typically offered: Irregular)

HIST 5823. Black Freedom in the Age of Emancipation. 3 Hours.

(Formerly HIST 4823.) This course centers on the comparative study of Atlantic World freedom movements from the perspective of the African Diaspora. It focuses on the histories, meanings, legacies of the various types of black emancipation in the Atlantic World and the cultural technologies that enabled them. Graduate degree credit will not be given for both HIST 4823 and HIST 5823. (Typically offered: Spring)

HIST 5833. Social and Cultural History of the Modern Middle East. 3 Hours.

(Formerly HIST 4433.) An analysis of Middle East history in the 17th-20th centuries which focuses on the social transformation of urban and rural life. Particular emphasis is given to the roles of economics, genealogy, art, and popular culture. Graduate degree credit will not be given for both HIST 4433 and HIST 5833. (Typically offered: Irregular)

HIST 5843. The Atlantic World, 1400-1850. 3 Hours.

(Formerly HIST 4233.) Explores the political, economic, cultural, and social engagement of Africans, Europeans, and Native Americans across the Atlantic from 1400 to 1850. It uses a comparative lens to understand how interactions between Europe, Africa, and the Americas created enduring ties throughout the Atlantic Basin. Graduate degree credit will not be given for both HIST 4233 and HIST 5843. (Typically offered: Irregular)

HIST 5853. Early Chinese Empires: Mythology, Archeology, and Historiography. 3 Hours.

(Formerly HIST 4853.) A critical introduction to the most important sources and major themes, both textual and archeological, for the study of early China. Graduate degree credit will not be given for both HIST 4853 and HIST 5853. (Typically offered: Spring)

HIST 5863. Classical Thought in East Asia. 3 Hours.

(Formerly HIST 4863.) Introduces the major East Asian philosophical and religious traditions including Confucianism, Daoism, Buddhism, and Shintoism. Read original sources in translation, such as Analects, and explore perspectives that stem from the traditions as they bear on contemporary global issues. Graduate degree credit will not be given for both HIST 4863 and HIST 5863. (Typically offered: Fall)

HIST 5873. Germany since 1945. 3 Hours.

(Formerly HIST 4873.) Examines the history of Germany since the end of the Second World War including political division and economic recovery, dissident movements in East Germany and alternative cultures in West Germany, reunification in 1990, and the legacy of Nazism and the Holocaust. Graduate degree credit will not be given for both HIST 4873 and HIST 5873. (Typically offered: Irregular)

HIST 5883. Health and Disease: 1500 to the Present. 3 Hours.

(Formerly HIST 4883.) Explores the emergence of epidemics against the backdrop of the nation state and anxieties over women, the lower classes, and other marginalized groups. The rise of modern health programs illuminates the cultural construction of medicine, the biases of scientific inquiry, and the tensions among paternalism, liberty, and prejudice. Graduate degree credit will not be given for both HIST 4883 and HIST 5883. (Typically offered: Irregular)

HIST 5893. Germany, 1918-1945. 3 Hours.

(Formerly HIST 4253.) Study of German history from advent of the Weimar Republic to the end of the Third Reich with emphasis upon the failure of democratic government in the 1920s and the rise and fall of the National Socialist dictatorship. Graduate degree credit will not be given for both HIST 4253 and HIST 5893. (Typically offered: Irregular)

HIST 5903. Music and the Arts of Edo Japan 1600-1868. 3 Hours.

(Formerly HIST 4903.) A music and arts view of urban and popular culture of the Edo period of Japan (1600-1868). Readings drawn from history, literature, aesthetics, religion and science. Graduate degree credit will not be given for both HIST 4903 and HIST 5903. (Typically offered: Irregular)

HIST 5913. Reading Japanese Noh as Cultural History. 3 Hours.

(Formerly HIST 4913.) A historical, sociocultural, and inter-arts approach to the medieval lyric-drama Japanese Noh, a form of masked theater with roots reaching beyond the 14th century. Graduate degree credit will not be given for both HIST 4913 and HIST 5913. (Typically offered: Irregular)

HIST 5923. Song China 960-1279. 3 Hours.

(Formerly HIST 4923.) Examination of the Song dynasty (960-1279) concentrating on the education and role of the scholar-official and the literatus. Readings drawn from history, literature, personal diaries, travel accounts, political memoranda, and scientific writings. Graduate degree credit will not be given for both HIST 4923 and HIST 5923. (Typically offered: Irregular)

HIST 5933. Ad Paradisum: Utopias, imaginary places, and the afterlife in East Asia. 3 Hours.

(Formerly HIST 4933.) Confucian, Daoist, and Buddhist ideas of ideal communities ('utopias'), of imaginary places ('paradise islands'), and of the afterlife ('heaven and hell') in East Asia will be traced in a broad sweep across literature, painting, and the performing arts. Graduate degree credit will not be given for both HIST 4933 and HIST 5933. (Typically offered: Irregular)

HIST 5943. U.S. Labor History, from 1877-present. 3 Hours.

(Formerly HIST 4943.) This course will examine the changing nature of work in U.S. history from 1877 until the present. It will pay particular attention to the ways that workers--individually and collectively--understand the meanings of their labor and to the ways that notions of class, gender, ethnicity, and race inform these understandings. Graduate degree credit will not be given for both HIST 4943 and HIST 5943. (Typically offered: Spring Even Years)

HIST 5953. The History of Sub-Saharan African Women. 3 Hours.

(Formerly HIST 4953.) Introduction to the history of women in Sub-Saharan Africa, starting in the early 18th century through the 20th century. Focus on women and the transatlantic slave trade, women's influence in pre-colonial religious, political, and cultural institutions, and women's experiences under colonial rule and in post-colonial Africa. Graduate degree credit will not be given for both HIST 4953 and HIST 5953. (Typically offered: Irregular)

HIST 5963. Third World Underdevelopment and Modernization. 3 Hours.

(Formerly HIST 4963.) Examines key issues related to societal change in the Third World, including various views and theories of international development and modernization. Other major issues explored include social inequalities, food and hunger, population, environment, trade and globalization, international aid, and the roles of state, market, and civil society. Graduate degree credit will not be given for both HIST 4963 and HIST 5963. (Typically offered: Irregular)

HIST 5973. The Civilization of the Renaissance in Italy. 3 Hours.

Important trends in Italian culture between the 14th and 16th centuries, including the birth of humanism, new understandings of the past, "new" political ideologies, scientific innovation, and famous art produced in the Western tradition. (Typically offered: Irregular)

HIST 5983. Intellectual History of Europe Since the Enlightenment. 3 Hours.

(Formerly HIST 4143.) A survey of the major developments in European thought and culture since the emergence of Romanticism. Topics include Romanticism, Darwinism, Marxism, and Modernism. Graduate degree credit will not be given for both HIST 4143 and HIST 5983. (Typically offered: Fall Even Years)

HIST 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

HIST 6013. The Era of the French Revolution. 3 Hours.

(Formerly HIST 4213.) France from the salons of the Enlightenment to the Napoleonic Wars. The French Revolution will be explored in terms of politics and personalities, ideas and symbols, class and gender relations, and violence and terror. Graduate degree credit will not be given for both HIST 4213 and HIST 6013. (Typically offered: Fall Odd Years)

HIST 6033. Society and Gender in Modern Europe. 3 Hours.

(Formerly HIST 4133.) Changing values and attitudes toward childhood, family life, sexuality, and gender roles in Europe from the Renaissance to the present. The social impact of the Industrial Revolution, urbanization, demographic change, and the two world wars. Graduate degree credit will not be given for both HIST 4133 and HIST 6033. (Typically offered: Spring Odd Years)

HIST 6063. Tudor-Stuart England, 1485-1714. 3 Hours.

(Formerly HIST 4163.) Examines the history of the British Isles from the ascension of Henry VII and the Tudor dynasty until the close of the Stuart Era in 1714. Special attention is given to the English Reformation, the Elizabethan years, the 17th Century Revolutions, and the birth of an overseas Empire. Graduate degree credit will not be given for both HIST 4163 and HIST 6063. (Typically offered: Spring Even Years)

HIST 6073. Renaissance and Reformation, 1300-1600. 3 Hours.

(Formerly HIST 4073.) Examines the history of Europe from the end of the Middle Ages through the Renaissance to the Reformation and Counter-Reformation. Special attention is paid to changes in popular piety, political thought, religious representation, and the discovery of the New World. Graduate degree credit will not be given for both HIST 4073 and HIST 6073. (Typically offered: Fall Even Years)

HIST 6083. Early Modern Europe, 1600-1800. 3 Hours.

(Formerly HIST 4083.) Begins with the upheaval of the reformation, moves through the crisis of the 17th century and culminates with the democratic revolution of the 18th century. Examines the consolidation of the European state system, the propagation of modern science, discovery of overseas worlds, and the advent of the Industrial Revolution. Graduate degree credit will not be given for both HIST 4083 and HIST 6083. (Typically offered: Spring Odd Years)

HIST 6093. The History of African Americans and Social Justice. 3 Hours.

(Formerly HIST 4093.) Explores how the United States has extended social justice to African Americans during the nation's history. Examines social justice for blacks and the impact of historic policies and practices on black life today. Graduate degree credit will not be given for both HIST 4093 and HIST 6093. (Typically offered: Irregular)

HIST 6113. Archaic Greece. 3 Hours.

(Formerly HIST 4113.) History of Greece from the late Bronze Age to the end of the Persian Wars. This class will focus particularly on the sources involved with reconstructing early Greek history, especially Herodotus and Homer, on the development of the Greek city-state or polis, and on the interaction between the Greeks and Near-eastern civilizations during this period, culminating in the wars between the Greeks and the Persian Empire. Graduate degree credit will not be given for both HIST 4113 and HIST 6113. (Typically offered: Irregular)

HIST 6173. The Latin American City. 3 Hours.

(Formerly HIST 4173.) This course examines the social, political, and cultural aspects of the modern Latin American city from an interdisciplinary perspective. The course includes an introduction to urban studies concepts, and each semester is organized around a specific set of case studies. Graduate degree credit will not be given for both HIST 4173 and HIST 6173. (Typically offered: Irregular)

HIST 6183. Great Britain 1707-1901. 3 Hours.

(Formerly HIST 4183.) Examines the history of the British Isles from the 1707 Act of Union between Scotland and England until the death of Queen Victoria in 1901. Special attention is given to the spread of Empire, industrialization, and the political, social, and cultural aspects of the Georgian and Victorian Eras. Graduate degree credit will not be given for both HIST 4183 and HIST 6183. (Typically offered: Fall Even Years)

HIST 6203. Byzantine Empire. 3 Hours.

(Formerly HIST 4103.) Examines the history and culture of the Byzantine Empire from the reign of Constantine I to the fall of Constantinople in 1453. Topics include the development of Christianity and the schism with the western church, the crusades, and Byzantine influence on Islam, Russia, the Ottomans, and the Renaissance. Graduate degree credit will not be given for both HIST 4103 and HIST 6203. (Typically offered: Irregular)

HIST 6223. France Since 1815. 3 Hours.

(Formerly HIST 4223.) Survey of French history from the overthrow of Napoleon to the 5th Republic, with emphasis on French politics, society, and culture. Graduate degree credit will not be given for both HIST 4223 and HIST 6223. (Typically offered: Spring Even Years)

HIST 6243. Germany, 1789-1918. 3 Hours.

(Formerly HIST 4243.) Study of German history from the Age of Absolutism to the collapse of the German Empire at the end of the First World War. Special attention is paid to the Enlightenment and Romantic movements; nationalism and the unification of Germany; and evolving conflicts over the political and social order. Graduate degree credit will not be given for both HIST 4243 and HIST 6243. (Typically offered: Irregular)

HIST 6263. Independence and Africa Today. 3 Hours.

(Formerly HIST 4263.) Examines the last half-century of Africa's history, focusing on the last few decades. Introduction of Africa's colonial past, revolutions and struggles for independence. Review of African development in the post-colonial and contemporary era, successes and failures of independent Africa, and the challenges the continent faces today. Graduate degree credit will not be given for both HIST 4263 and HIST 6263. (Typically offered: Spring)

HIST 6273. Comparative Slavery. 3 Hours.

(Formerly HIST 4273.) Explores the meaning of slavery around the world, both in ancient and modern times. This examination of how slavery differed in various cultures over time will allow students to explore the complexity of this labor relationship and gain a better understanding of how slavery was an integral part of world history. Graduate degree credit will not be given for both HIST 4273 and HIST 6273. (Typically offered: Irregular)

HIST 6293. Latin American Environmental History. 3 Hours.

Explores the challenges, debates, and ecologies of Latin America in order to understand the historical roots of current environmental crises. It engages a historiography on ecosystems found in the region. Uses environmental history texts and scholarly articles to build a layered and transnational approach. (Typically offered: Irregular)

HIST 6303. Transatlantic Relations, 1919-Present. 3 Hours.

(Formerly HIST 4303.) US-Western European Relations, from the Wilsonian era to the present, covering strategic, economic, and cultural aspects. Graduate degree credit will not be given for both HIST 4303 and HIST 6303. (Typically offered: Irregular)

HIST 6333. Modern Islamic Thought. 3 Hours.

(Formerly HIST 4333.) Main currents in Islamic theology and political philosophy from the Ottoman Empire to the end of the twentieth century. Graduate degree credit will not be given for both HIST 4333 and HIST 6333. (Typically offered: Irregular)

HIST 6343. Golden Age Portugal and Spain. 3 Hours.

(Formerly HIST 4343.) This course will examine the diverging and converging paths of Portugal and Spain during the early modern period (15th-17th centuries). We will chart their rise as global imperial powers and their initial declines. We'll explore the political, social, and religious contexts in which Golden Age Iberia flourished. Graduate degree credit will not be given for both HIST 4343 and HIST 6343. (Typically offered: Irregular)

HIST 6463. The American Frontier. 3 Hours.

(Formerly HIST 4463.) American westward expansion and its influence on national institutions and character. Emphasis on the pioneer family and the frontier's role in shaping American society, culture, economy, and politics. Topics include exploration, the fur trade, the cattle kingdom and the mining, farming, and military frontiers. Graduate degree credit will not be given for both HIST 4463 and HIST 6463. (Typically offered: Fall Odd Years)

HIST 6473. Environmental History. 3 Hours.

(Formerly HIST 4473.) Examines the interactions between human culture and the natural environments: Concepts of nature in the West and elsewhere, dynamics of the Physical Environment, case studies in Regional Environmental History and the Politics of Environmental movements. Graduate degree credit will not be given for both HIST 4473 and HIST 6473. (Typically offered: Irregular)

HIST 6513. New Women in the Middle East. 3 Hours.

(Formerly HIST 4413.) This course covers the transformation of social and cultural roles of women in the Middle East since the 19th Century. Emphases include political emancipation, religious reformation, artistic representation, and gendered re-definition. Graduate degree credit will not be given for both HIST 4413 and HIST 6513. (Typically offered: Irregular)

HIST 6523. Wars of Religion: From the Crusades to 9/11. 3 Hours.

(Formerly HIST 4323.) Examines the place of religion in combat across the centuries. A case study approach is used to explore different conflicts from the twelfth century crusades against Muslim forces to 9/11. Investigates how religious motivations may or may not be related to other political, social, cultural, economic concerns. Graduate degree credit will not be given for both HIST 4323 and HIST 6523. (Typically offered: Irregular)

HIST 6543. Late Antiquity and the Early Middle Ages. 3 Hours.

(Formerly HIST 4043.) This course examines the political, spiritual, intellectual, and social-economic developments of European history, c. 300-1000 CE. Special topics include the Christianization of the late Roman Empire and Byzantium, as well as the formation of Celtic and Germanic Kingdoms in the West. Graduate degree credit will not be given for both HIST 4043 and HIST 6543. (Typically offered: Fall Even Years)

HIST 6563. The Middle East since 1914. 3 Hours.

(Formerly HIST 4363.) Middle East since 1914 addresses European colonialism, the rise of new social elites, independence, revolution, globalization, economic self-determination, persistent regional conflicts and ongoing battles over "cultural authenticity". Graduate degree credit will not be given for both HIST 4363 and HIST 6563. (Typically offered: Irregular)

HIST 6623. Africa and the Trans-Atlantic Slave Trade. 3 Hours.

(Formerly HIST 4123.) Examines the trans-Atlantic slave trade with a primary focus on the role of Africa and Africans in creating the unique economy and culture of the trans-Atlantic world. Graduate degree credit will not be given for both HIST 4123 and HIST 6623. (Typically offered: Irregular)

HIST 6643. Frontiers and Borderlands in Colonial Latin America. 3 Hours.

(Formerly HIST 4443.) This course examines frontiers and borderlands in colonial Latin America and focuses on the regions of California, New Mexico, Texas, Brazil, and the Río de la Plata. It demonstrates that frontiers and borderlands are defined by the absence of a hegemonic European power and associated with the prevalence of Indigenous norms. Graduate degree credit will not be given for both HIST 4443 and HIST 6643. (Typically offered: Irregular)

HIST 6703. Emergence of Modern America, 1876-1917. 3 Hours.

(Formerly HIST 4703.) A survey of the impact of the Industrial Revolution, Imperialism, and progressivism upon American life and institutions. Graduate degree credit will not be given for both HIST 4703 and HIST 6703. (Typically offered: Fall Odd Years)

HIST 6733. Recent America, 1941 to the Present. 3 Hours.

(Formerly HIST 4733.) A general survey of American history since World War II with emphasis upon the presidency, reform movements, the Cold War, and cultural developments. Graduate degree credit will not be given for both HIST 4733 and HIST 6733. (Typically offered: Irregular)

HIST 6743. The Cold War in Latin America: Revolutions, Violence, and Politics. 3 Hours.

(Formerly HIST 4743.) This course will trace the rise of the ideological and political struggles over social and economic development and the security regimes designed to thwart socialist revolution and political mobilization. The influence of the United States in Latin American security regimes and "containment" activities will receive special attention. Graduate degree credit will not be given for both HIST 4743 and HIST 6743. (Typically offered: Irregular)

HIST 6843. Global History of Soccer. 3 Hours.

Prompts students to explore the various historical processes related to the global diffusion of and engagement with soccer. Examines the ways soccer has reflected the broader, ongoing process of globalization, with players, ideas, tactics, and wealth circulating throughout the globe. (Typically offered: Irregular)

HIST 6993. History of the Ottoman Empire, 1300-1923. 3 Hours.

History of the Ottoman Empire from its emergence as frontier principality in Anatolia ca. 1300, through its heyday as a major imperial power on three continents in the fifteenth through the eighteenth centuries, ending with its encounter with western imperialism and nationalism in the nineteenth and early twentieth centuries. (Typically offered: Irregular)

HIST 700V. Doctoral Dissertation. 1-18 Hour.

Independent research and writing leading to the completion of a doctoral dissertation. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

HIST 7023. Historical Methods. 3 Hours.

(Formerly HIST 5023.) Practical introduction to historical research and writing. Consists of lecture, library reading, and class criticism of research papers. Prerequisite: Graduate standing. (Typically offered: Fall)

HIST 7043. Historiography. 3 Hours.

(Formerly HIST 5043.) Survey of the history of historical writing and a study of the important schools and historical interpretation. Prerequisite: Graduate standing. (Typically offered: Irregular)

HIST 7053. Reading Seminar in Asian History. 3 Hours.

(Formerly HIST 5053.) Concentrated reading in selected specialized areas of Asian history. Prerequisite: Advanced graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7103. Reading Seminar in American History. 3 Hours.

(Formerly HIST 5103.) Historiographical and bibliographical study of special areas of U.S. history, such as Antebellum America, the Civil War, etc. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7123. Research Seminar in American History. 3 Hours.

(Formerly HIST 5123.) Research projects in selected fields of American history, such as the Civil War, Antebellum America, etc. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7133. Reading Seminar in European History. 3 Hours.

(Formerly HIST 5133.) Historiographical and bibliographical study of special periods in European history, such as the Roman Empire, the late Middle Ages, the French Revolution, etc. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7143. Research Seminar in European History. 3 Hours.

(Formerly HIST 5143.) Research projects in selected fields of European history, such as the French Revolution, humanism, etc. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7153. Reading Seminar in British History. 3 Hours.

(Formerly HIST 5153.) Historiographical and bibliographical study of selected periods of British history. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7163. Research Seminar in British History. 3 Hours.

(Formerly HIST 5163.) Research projects in selected fields of British history. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7213. Reading Seminar in Middle Eastern History. 3 Hours.

(Formerly HIST 5213.) Historiographical and bibliographical study of special areas of Middle Eastern history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7233. Research Seminar in Middle Eastern History. 3 Hours.

(Formerly HIST 5233.) Research projects in selected fields of Middle Eastern history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7313. Reading Seminar in Latin American History. 3 Hours.

(Formerly HIST 5313.) Historiographical and bibliographical study of special areas in Latin American history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7323. Research Seminar in Latin American History. 3 Hours.

(Formerly HIST 5323.) A research seminar for the production of a major research project in Latin American history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7353. Reading Seminar in Medieval History. 3 Hours.

(Formerly HIST 5353.) Historiographical and bibliographical study of special areas in medieval history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7363. Research Seminar in Medieval History. 3 Hours.

(Formerly HIST 5363.) A research seminar for the production of a major research project in medieval history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7373. Reading Seminar in Ancient History. 3 Hours.

(Formerly HIST 5373.) Historiographical and bibliographical study of special areas in ancient history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7383. Research Seminar in Ancient History. 3 Hours.

(Formerly HIST 5383.) A research seminar for the production of a major research project in ancient history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7413. Reading Seminar in African History. 3 Hours.

(Formerly HIST 5413.) Historiographical and bibliographical study of selected periods and/or topics in African history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7423. Research Seminar in African History. 3 Hours.

(Formerly HIST 5423.) A seminar for the production of a major research project in selected fields of African history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7433. Reading Seminar in Caribbean History. 3 Hours.

(Formerly HIST 5433.) Historiographical and bibliographical study of special areas in Caribbean history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7443. Research Seminar in Caribbean History. 3 Hours.

(Formerly HIST 5443.) A research seminar for the production of a major research project in Caribbean history. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 30 hours of degree credit.

HIST 7453. Reading Seminar in Global History. 3 Hours.

Graduate seminar adopting global perspectives on Europe, US, Asia, Africa, Latin America. Decentering narratives focusing on regional approaches, the course examines the global implications of various historical developments. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Horticulture (HORT)

Courses

HORT 1103. Plants, People and You. 3 Hours.

Plants, People and You is a course designed to introduce students to the world of horticulture, with an emphasis on how plants can be used for food, fun, health, economic value or environmental contribution. (Typically offered: Fall)

HORT 1303. Introduction to Floral Design. 3 Hours.

Students in this introductory class in Floral Design will learn basic design elements such as line, form, mass, balance, texture and color as used in floral art. Students will gain an appreciation of the various types and species of flowers and foliage used in various floral arrangements such as bouquets and centerpieces. In addition, students will learn common post-harvest handling techniques of fresh cut floral plant material to prolong vase-life from the purchasing stage to the final design. (Typically offered: Spring)

HORT 2003. Principles of Horticulture. 3 Hours.

A course introducing students to the biological and technologies underlying the propagation, production, handling and use of horticultural crops, turf and landscape plants. Students will be introduced to the various disciplines and commodities of horticulture. The use of plants for the benefit of humankind because of their aesthetic and nutritional value will be explored. Previous instruction in Plant Science, Plant Biology, or general Botany is strongly encouraged. Corequisite: Lab component. (Typically offered: Spring)

HORT 2101. Horticultural Career Development. 1 Hour.

A course which presents concepts necessary for developing a career and becoming a professional in horticulture industries or businesses. Concepts of goal setting, effective communication and interpersonal skills, behaviors and performance, portfolio and resume, development and job hunting skills will be presented. (Typically offered: Spring)

HORT 2303. Introduction to Turfgrass Management. 3 Hours.

An introductory course in turfgrass management emphasizing turfgrass growth, adaptation, and management. Methods for establishment, fertilization, mowing, cultivation, irrigation, and pest management are presented, and their impact on culture of lawns, golf courses, athletic fields, and other managed turf areas discussed. (Typically offered: Fall)

HORT 3103. Woody Landscape Plants. 3 Hours.

Identification, climatic adaptation and landscape design values of woody ornamental trees, shrubs and vines. Lecture 2 hours per week. Corequisite: Lab component. (Typically offered: Fall)

HORT 3113. Herbaceous and Indoor Plant Materials. 3 Hours.

Identification, culture, and use of annuals, perennials in landscapes and foliage plants in interiors. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. (Typically offered: Spring Odd Years)

HORT 3123. International Horticulture. 3 Hours.

Considerable globalization of agriculture has occurred over the past several decades, especially in the area of horticultural crops. This course provides a base of knowledge of the international horticulture industry focusing on principles and practices of development and trade of horticultural crops. (Typically offered: Spring)

HORT 3203. Sustainable Landscape Practices. 3 Hours.

New methods of landscape management are required to restore or protect the ecological services provided by developed landscapes. This course is focused on methods for sustainable land management. Included as part of the curriculum is a survey of sustainable management as it applies to site resources, including water, nutrients, energy and biodiversity. Retrofitting existing development, organic lawn, tree, and shrub care, successional landscapes, permaculture, sustainable material selection, and best available equipment will be covered in depth. Prerequisite: HORT 2003. (Typically offered: Fall)

HORT 3303. Vegetable Crops. 3 Hours.

General course in vegetable crops with attention to the principles underlying methods of production and handling related to yields and quality of the products. Lecture 2 hours, laboratory 2 hours per week. Prerequisite: HORT 2003 and CSES 2203. (Typically offered: Irregular)

HORT 3403. Turfgrass Management. 3 Hours.

Cultural and management practices of commercial and residential lawns. Principles and practices of mowing, fertilizing, irrigating, and control of weed, disease, and insects. Identification of turfgrass; equipment selection. Corequisite: Lab component. Prerequisite: HORT 2303. (Typically offered: Spring Even Years)

HORT 3503. Sustainable and Organic Horticulture. 3 Hours.

This course will provide a base of knowledge of the principles and practices of sustainable, organic, and alternative horticulture management systems. The class will review and evaluate topics including soil biological processes (compost, humus and fertility), pest management, alternative farming systems, and organic agriculture. After this foundation information is studied, the class will study applications of sustainable agriculture principles to production systems such as greenhouse vegetable production, ornamental production, fruit production, and landscape and turf management. (Typically offered: Fall Even Years)

HORT 400V. Special Problems. 1-6 Hour.

Original investigations on assigned problems in horticulture. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HORT 401V. Special Topics in Horticulture, Turf or Landscape. 1-6 Hour.

Topics related to horticulture, turfgrass or landscape science or management not covered in other courses or a more intensive study of a specific topic. (Typically offered: Irregular) May be repeated for degree credit.

HORT 402V. Horticulture Judging and Competition Activity. 1-6 Hour.

Training for and participation on horticultural identification, judging and competitive teams. Prerequisite: HORT 2003. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HORT 4033. Professional Landscape Installation and Construction. 3 Hours.

Principles and practices involved in landscape installation and construction. Topics covered include sequencing construction activities, protecting existing trees, landscape soils, selecting plants, planting and transplanting plant materials, wood construction, cement and masonry construction, and low-voltage lighting. Lecture 3 hours per week. Preparatory training in agribusiness or business is suggested. Prerequisite: HORT 2003. (Typically offered: Fall Even Years)

HORT 4043. Professional Landscape Management. 3 Hours.

Principles and practices of landscape management and maintenance. Topics include low maintenance and seasonal color design, pruning and hazard tree management, water and fertilizer management, pesticide use, and other maintenance activities. Basic elements of marketing, specifications and contracts, estimating, personnel management, and equipment selection and acquisition relevant for landscape services will be introduced. Preparatory training in agribusiness or business is suggested. Prerequisite: HORT 2003 and HORT 3103. (Typically offered: Fall Odd Years)

HORT 4103. Fruit Production Science and Technology. 3 Hours.

The management technologies and cultural practices of fruit crops including (but not limited to) blueberries, blackberries, raspberries, strawberries, grapes, peaches, and apples will be presented. The underlying scientific principles of crop genetics, nutrition, and physiology will be presented as a basis for making management decisions in fruit crop productions. Corequisite: Lab component. Prerequisite: HORT 2003. (Typically offered: Spring Odd Years)

HORT 4403. Plant Propagation. 3 Hours.

Principles of plant propagation using seeds, cuttings, grafting, budding, layering, and tissue culture. The physiological basis of propagation is described. Knowledge of plant growth and physiology is needed. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: HORT 2003. (Typically offered: Spring)

HORT 4413. Horticulture Physiology. 3 Hours.

This course provides students with a background into the physiological processes of plants with an emphasis on horticultural crops and how the processes relate to horticultural crop production practices. Among the topics covered are photosynthesis, respiration, water relations and morphogenesis. Prerequisite: HORT 2003 and CHEM 1073. (Typically offered: Spring)

HORT 4503. Sustainable Nursery Production. 3 Hours.

This course addresses issues and practices involved in production of quality woody nursery crops (e.g. trees and shrubs produced in open filed and containerized systems). (Typically offered: Spring Even Years)

HORT 4603. Practical Landscape Planning. 3 Hours.

Ornamental planting design and landscape planning concepts. Preparing planting plans, materials sheets, and cost estimates for residential properties. Prerequisite: HORT 3103. (Typically offered: Spring Even Years)

HORT 462V. Horticulture, Landscape, Turf Sciences Internship Experience. 1-6 Hour.

A supervised practical work experience in a horticulture, landscape design, or turf business or research program to gain professional competence and insight into employment opportunities. Prerequisite: COMM 1313 and HORT 2101. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HORT 4701L. Greenhouse Management and Controlled Environment Horticulture Laboratory. 1 Hour.

Laboratory involving hands-on experiments designed to demonstrate principles discussed in the lecture section. Includes field trips. Corequisite: HORT 4703. (Typically offered: Fall Odd Years)

HORT 4703. Greenhouse Management and Controlled Environment Horticulture. 3 Hours.

Operation and management of greenhouses and other controlled environments used in horticultural production. Emphasis on system design and construction, control of light intensity and photoperiod, heating and cooling systems, substrates, mineral nutrition, water quality and irrigation systems. Prerequisite: HORT 2003 and CHEM 1073. (Typically offered: Fall)

HORT 472V. Horticulture, Landscape, Turf Sciences Internship Assessment. 1-6 Hour.

The objective of the HORT 472V Internship Assessment is for the student to gain mastery in written and oral communication skills and critical thinking skills by reflection and analysis of ideas, artifacts, and events gained from a prior internship experience. The student is expected to master specific skills in the context, content development, syntax and mechanics and purpose of writing in a visual presentation relating to the internship experience. The student will also master skills in the organization, central message, language, and delivery of an oral presentation related to the internship experience. The student will master critical thinking skills through the explanation of issues, personal perspective, evidence presentation, and conclusions and outcomes related to the internship experience. Prerequisite: HORT 462V. (Typically offered: Fall, Spring and Summer)

HORT 4801L. Greenhouse Crops Production Laboratory. 1 Hour.

Laboratory involving hands-on experiments designed to demonstrate principles discussed in the lecture section. Includes field trips. Corequisite: HORT 4803. (Typically offered: Spring Even Years)

HORT 4803. Greenhouse Crops Production. 3 Hours.

Principles and practices of production and marketing of crops commonly grown in controlled environments including flowering containerized herbaceous species, geophytes, annual and perennial bedding plants, hydroponic vegetables and herbs. Prerequisite: HORT 4703. (Typically offered: Spring Even Years)

HORT 4903. Golf and Sports Turf Management. 3 Hours.

Turf management techniques for golf courses, and athletic fields including species selection, root-zone construction and modification, fertilization, mowing, irrigation and pest control. Corequisite: Lab component. Prerequisite: CSES 2203 and CSES 2201L and (HORT 2303 or HORT 3403). (Typically offered: Fall Odd Years)

HORT 4913. Rootzone Management for Golf and Sports Turf. 3 Hours.

An overview of the fundamental concepts of the physical and chemical properties of rootzones as related to construction and turfgrass management. Prerequisite: HORT 2303 and CSES 2203. (Typically offered: Spring Odd Years)

HORT 4921. Golf Course Operations. 1 Hour.

This course is designed to cover specific aspects of golf course operations that would not be included in traditional turfgrass management courses. Topics will include budgeting, personnel management, tournament setup and operation, dealing with golf club committees, communication, and other relevant topics related to managing a golf course maintenance operation. Prerequisite: HORT 4903. (Typically offered: Fall Even Years)

HORT 4932. Turf Best Management Practices. 2 Hours.

The course covers the impacts of turfgrass management practices on turf quality and the environment. In addition, the identification, biology, and control practices for the major insects, diseases, and weeds that infest turf will be covered. Emphasis will be placed on management strategies that include both chemical and non- chemical approaches to the prevention and control of common turfgrass pests. Prerequisite: HORT 4903. (Typically offered: Spring Odd Years)

HORT 5001. Seminar. 1 Hour.

Review of scientific literature and oral reports on current research in horticulture. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

HORT 501V. Special Topics in Horticulture, Turf or Landscape. 1-6 Hour.

(Formerly HORT 401V.) Topics related to horticulture, turfgrass or landscape science or management not covered in other courses or a more intensive study of a specific topic. Graduate degree credit will not be given for both HORT 401V and HORT 501V. (Typically offered: Irregular) May be repeated for degree credit.

HORT 502V. Horticulture Judging and Competition Activity. 1-6 Hour.

(Formerly HORT 402V.) Training for and participation on horticultural identification, judging and competitive teams. Graduate degree credit will not be given for both HORT 402V and HORT 502V. Prerequisite: HORT 2003. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HORT 503V. Special Problems Research. 1-6 Hour.

Original investigations on assigned problems in horticulture. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HORT 5043. Advanced Plant Breeding. 3 Hours.

Application of genetic principles to the improvement of crop plants. Presentation of conventional plant breeding methods and special techniques such as polyploidy, interspecific hybridization and induced mutation. Lecture 3 hours per week. Prerequisite: BIOL 2323 and BIOL 2321L or (ANSC 3123 and CSES 4103). (Typically offered: Spring Odd Years)

HORT 5103. Plant Growth and Development. 3 Hours.

This course will focus on environmental and developmental processes of plant growth and development. A student completing this course should have an understanding of the developmental processes of plant growth and how environmental factors interact to affect and control plant growth and development. (Typically offered: Fall)

HORT 5113. Fruit Production Science and Technology. 3 Hours.

(Formerly HORT 4103.) The management technologies and cultural practices of fruit crops including (but not limited to) blueberries, blackberries, raspberries, strawberries, grapes, peaches, and apples will be presented. The underlying scientific principles of crop genetics, nutrition, and physiology will be presented as a basis for making management decisions in fruit crop productions. Graduate degree credit will not be given for both HORT 4103 and HORT 5113. Corequisite: Lab component. Prerequisite: HORT 2003. (Typically offered: Spring Odd Years)

HORT 5143. Professional Landscape Management. 3 Hours.

Principles and practices of landscape management and maintenance. Topics include low maintenance and seasonal color design, pruning and hazard tree management, water and fertilizer management, pesticide use, and other maintenance activities. Basic elements of marketing, specifications and contracts, estimating, personnel management, and equipment selection and acquisition relevant for landscape services will be introduced. Preparatory training in agribusiness or business is suggested. Prerequisite: HORT 2003 and HORT 3103. (Typically offered: Fall Odd Years)

HORT 5203. Temperature Stress Physiology. 3 Hours.

This course will teach students how to apply biological, chemical and physical principles to models of how plants are damaged by temperature extremes and how they change to increase resistance. Student will apply these principles to better understand plant responses to other environmental challenges, including both biotic and abiotic stresses. (Typically offered: Spring)

HORT 530V. Special Problems. 1-6 Hour.

(Formerly HORT 400V.) Original investigations on assigned problems in horticulture. Graduate degree credit will not be given for both HORT 400V and HORT 530V. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HORT 5333. Professional Landscape Installation and Construction. 3 Hours.

(Formerly HORT 4033.) Principles and practices involved in landscape installation and construction. Topics covered include sequencing construction activities, protecting existing trees, landscape soils, selecting plants, planting and transplanting plant materials, wood construction, cement and masonry construction, and low-voltage lighting. Lecture 3 hours per week. Preparatory training in agribusiness or business is suggested. Graduate degree credit will not be given for both HORT 4033 and HORT 5333. Prerequisite: HORT 2003. (Typically offered: Fall Even Years)

HORT 5403. Plant Propagation. 3 Hours.

(Formerly HORT 4403.) Principles of plant propagation using seeds, cuttings, grafting, budding, layering, and tissue culture. The physiological basis of propagation is described. Knowledge of plant growth and physiology is needed. Lecture 2 hours, laboratory 2 hours per week. Graduate degree credit will not be given for both HORT 4403 and HORT 5403. Corequisite: Lab component. Prerequisite: BIOL 1613 and BIOL 1611L. (Typically offered: Spring)

HORT 5413. Horticulture Physiology. 3 Hours.

(Formerly HORT 4413.) This course provides students with a background into the physiological processes of plants with an emphasis on horticultural crops and how the processes relate to horticultural crop production practices. Among the topics covered are photosynthesis, respiration, water relations and morphogenesis. Graduate degree credit will not be given for both HORT 4413 and HORT 5413. Prerequisite: HORT 2003 and CHEM 1073. (Typically offered: Spring)

HORT 5503. Sustainable Nursery Production. 3 Hours.

(Formerly HORT 4503.) This course addresses issues and practices involved in production of quality woody nursery crops (e.g. trees and shrubs produced in open filed and containerized systems). Graduate degree credit will not be given for both HORT 4503 and HORT 5503. (Typically offered: Spring Even Years)

HORT 5701L. Greenhouse Management and Controlled Environment**Horticulture Laboratory. 1 Hour.**

(Formerly HORT 4701L.) Laboratory involving hands-on experiments designed to demonstrate principles discussed in the lecture section. Includes field trips. Graduate degree credit will not be given for both HORT 4701L and HORT 5701L. Corequisite: HORT 5703. (Typically offered: Fall Odd Years)

HORT 5703. Greenhouse Management and Controlled Environment**Horticulture. 3 Hours.**

(Formerly HORT 4703.) Operation and management of greenhouses and other controlled environments used in horticultural production. Emphasis on system design and construction, control of light intensity and photoperiod, heating and cooling systems, substrates, mineral nutrition, water quality and irrigation systems. Graduate degree credit will not be given for both HORT 4703 and HORT 5703. Prerequisite: HORT 2003 and CHEM 1073. (Typically offered: Fall)

HORT 5801L. Greenhouse Crops Production Laboratory. 1 Hour.

(Formerly HORT 4801L.) Laboratory involving hands-on experiments designed to demonstrate principles discussed in the lecture section. Includes field trips. Graduate degree credit will not be given for both HORT 4801L and HORT 5801L. Corequisite: HORT 5803. (Typically offered: Spring Even Years)

HORT 5803. Greenhouse Crops Production. 3 Hours.

(Formerly HORT 4803.) Principles and practices of production and marketing of crops commonly grown in controlled environments including flowering containerized herbaceous species, geophytes, annual and perennial bedding plants, hydroponic vegetables and herbs. Graduate degree credit will not be given for both HORT 4803 and HORT 5803. Prerequisite: HORT 4703 or HORT 5703 (formerly HORT 4703). (Typically offered: Spring Even Years)

HORT 5903. Golf and Sports Turf Management. 3 Hours.

(Formerly HORT 4903.) Turf management techniques for golf courses, and athletic fields including species selection, root-zone construction and modification, fertilization, mowing, irrigation and pest control. Graduate degree credit will not be given for both HORT 4903 and HORT 5903. Corequisite: Lab component. Prerequisite: CSES 2203 and CSES 2201L and (HORT 2303 or HORT 3403). (Typically offered: Fall Odd Years)

HORT 5913. Rootzone Management for Golf and Sports Turf. 3 Hours.

(Formerly HORT 4913.) An overview of the fundamental concepts of the physical and chemical properties of rootzones as related to construction and turfgrass management. Graduate degree credit will not be given for both HORT 4913 and HORT 5913. Prerequisite: HORT 2303. (Typically offered: Spring Odd Years)

HORT 5921. Golf Course Operations. 1 Hour.

(Formerly HORT 4921.) This course is designed to cover specific aspects of golf course operations that would not be included in traditional turfgrass management courses. Topics will include budgeting, personnel management, tournament setup and operation, dealing with golf club committees, communication, and other relevant topics related to managing a golf course maintenance operation. Graduate degree credit will not be given for both HORT 4921 and HORT 5921. Prerequisite: HORT 4903 or HORT 5903 (formerly HORT 4903). (Typically offered: Fall Even Years)

HORT 5932. Turf Best Management Practices. 2 Hours.

(Formerly HORT 4932.) The course covers the impacts of turfgrass management practices on turf quality and the environment. In addition, the identification, biology, and control practices for the major insects, diseases, and weeds that infest turf will be covered. Emphasis will be placed on management strategies that include both chemical and non-chemical approaches to the prevention and control of common turfgrass pests. Graduate degree credit will not be given for both HORT 4932 and HORT 5932. Prerequisite: HORT 2303 and 6 hours selected from CSES 2003, PLPA 3004, and ENTO 3013. (Typically offered: Spring Odd Years)

HORT 5993. Global Horticulture and Human Nutrition to Enhance Community Resilience and Food Security. 3 Hours.

This course covers three broad areas (Global Horticulture, Sustainable International Development, Human Health and Nutrition) and experts on three campuses created the instruction. The course is intended to be multi-disciplinary, and students should use their contextual knowledge to add to weekly discussions. Prerequisite: Graduate standing. (Typically offered: Spring)

This course is cross-listed with AGED 5993, FDSC 5993.

HORT 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

HORT 602V. Special Topics in Horticulture. 1-3 Hour.

Discussion and advanced studies on selected topics in genetics, plant breeding, physiology and culture of horticultural crops. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for degree credit.

HORT 6033. Molecular Plant Breeding. 3 Hours.

In-depth study of genetic improvement and techniques. Covers both current and classical literature. Topics to be discussed: haploidy, genetic control of pairing, somatic instability, tissue culture and protoplast fusion, and male sterility. Lecture discussion 3 hours per week. Prerequisite: BIOL 2323 and BIOL 2321L (or ANSC 3123 and CSES 4103 or equivalent). (Typically offered: Fall)

Hospitality Management (HOSP) Courses

HOSP 1301. Hospitality Pre-Internship. 1 Hour.

A study of job descriptions, responsibilities at the management level, structural operations, work procedures, job performance evaluations, job application, the resume and portfolio development in preparation for HOSP 4693 Hospitality Management Internship. Lecture 1 hour per week. Prerequisite: HOSP 1603, HOSP majors only, and sophomore standing. (Typically offered: Fall and Spring)

HOSP 1603. Introduction to Hospitality Management. 3 Hours.

Study of the hospitality industry from a global perspective. Emphasizes an introduction to the different sectors of the hospitality industry: food service, lodging, travel & tourism, and marketing of the sectors. Exposes students to experienced practitioners who provide real life case studies and perspectives on management in the hospitality environment. Provides career development perspectives and instruction as well as management roles and techniques. (Typically offered: Fall and Spring)

HOSP 2603. Purchasing and Cost Control. 3 Hours.

Food purchasing with emphasis on specifications. Relationship of food purchasing to available equipment. Receiving, storage, distribution, and inventory control. Meal quality control and costing. Food and nonfood materials, management of the purchasing process, and communication. Specification writing, menu analysis, and costing. Prerequisite: Must be a HESC, HNAD, FNAH or HOSP major or a EVMG-M student. (Typically offered: Fall and Spring)

HOSP 2611. Foodservice Sanitation. 1 Hour.

Principles and theory of food safety and sanitation in the hospitality and foodservice industries, focused on prevention of food borne illnesses and ensuring public health and consumer safety. Prerequisite: HNAD, FNAH, or HOSP major or NUTR-M student. (Typically offered: Fall and Spring)

HOSP 2633. Lodging Property Management. 3 Hours.

Examines the organization, duties and administration of the hotel. Includes: the rooms division, convention/meeting spaces, and general business operations. Pre- or Corequisite: HOSP 1603. (Typically offered: Fall and Spring)

HOSP 2653. Introduction to Hospitality Finance. 3 Hours.

Accounting principles, procedures and transactions used for the compilation of financial reports in hospitality industries. Prerequisite: HOSP 1603. (Typically offered: Fall and Spring)

HOSP 3601L. Culture and Cuisines of the World Practicum. 1 Hour.

Development of service management skills for the hospitality industry through preparation and service of food, staffing, professionalism, recipe standardization, menu planning, cost control, sanitation, safety, and overall quality assurance. Instruction for planning food flow from receiving to service of meals, including choosing proper equipment for the flow plan and service items. Student must have a current Food Managers Certificate which is achieved upon successful completion of HOSP 2611. Laboratory 7 hrs per week. Pre- or Corequisite: HOSP 3603. Prerequisite: NUTR 1213, HOSP 2603, HOSP 2611, Junior standing and HOSP majors only. (Typically offered: Fall and Spring)

HOSP 3603. Cultures and Cuisines of the World. 3 Hours.

Explores foods and food ways of various cultural/ethnic groups. Considers origin and migration of foods and customs throughout the world. Studies food's relationship to cultural groups, geographical location, social practices and economic well-being. Analyzes impact of multiple cultures on foods, food preparation, and food ways in the U.S. Students must have a current Food Managers Certification, which is achieved upon successful completion of HOSP 2611. Pre- or corequisite: HOSP 3601L. Prerequisite: HOSP 1603, HOSP 2603, HOSP 2611, junior standing and HOSP majors only. (Typically offered: Fall and Spring)

HOSP 3623. Introduction to Meetings and Events Management. 3 Hours.

Focuses on the planning and management of meetings and events in the hospitality industry. Includes developing event goals and objectives, site planning and management, event set up, risk management, food and beverage planning and management, budgeting, working with event services vendors, and marketing and promotion of events and meetings. Prerequisite: HOSP 1603, HOSP 2603, and HOSP 2633, or EVMG-M students. (Typically offered: Fall)

HOSP 3653. Hospitality, Dietetic Management and Human Resources. 3 Hours.

Function and methods of management as related to the hospitality, nutrition and dietetic industries. Topics include: recruitment, placement, talent management, training and development, and compensation. Prerequisite: HOSP 1603 or NUTR 1201, and junior standing. (Typically offered: Fall and Summer)

HOSP 3673. Event Safety and Venue Management. 3 Hours.

This course will provide students with the information, skills, and tools necessary to help provide a safe environment, reduce liability, and guide individual and group behavior at events. Students will learn how to develop a risk management and safety plan for an event and/or venue, how to identify and plan to avoid potential problems, and how to implement safety and crowd management plans to ensure a safe event. The primary focus of the course will be on live event and venue safety planning. Prerequisite: HOSP 1603 and HOSP 2603, or EVMG-M students. (Typically offered: Fall)

HOSP 4643. Special Events Management. 3 Hours.

Hands-on study of special events. Planning activities include conception, planning, implementation, execution of the hospitality program's annual fundraising event and evaluation. The interaction between staff, customers, guests, vendors, and others necessary to implement a successful special event. Topics including marketing, public relations and volunteer coordination are implemented. Additional focus on catering through, hotels, restaurants, and private companies. Prerequisite: HOSP 1603, HOSP 2603, HOSP 3623 and HOSP majors only. (Typically offered: Spring)

HOSP 4653. Global Travel and Tourism Management. 3 Hours.

Course recounts the history of travel, explores the future, and discusses the components of tourism from a global perspective. An overview of tourism planning at the global level will be presented. A variety of planning theories, procedures and tourism guidelines to meet the diverse needs of travelers, destination communities, hospitality organizations, public, non-governmental organizations, and the private sector will be introduced in this class. Prerequisite: HOSP 1603 and PSYC 2003 or SOCI 2013, or EVMG-M students. (Typically offered: Spring)

HOSP 4663. Hospitality Management Capstone. 3 Hours.

Integration of previous classroom, laboratory, and practical experiences through development of a comprehensive project. Additional focus on application of critical thinking, demonstration of leadership principles, interaction with industry professionals and development of an awareness of societal and ethical issues and their application to the hospitality industries. Prerequisite: HOSP 3603, HOSP 3601L, HOSP 2653, HOSP 3653 and Junior standing. (Typically offered: Spring) May be repeated for up to 6 hours of degree credit.

HOSP 4673. Destination Marketing & Operations. 3 Hours.

This course is designed to provide students with a basic understanding of the tasks and processes involved in running a successful destination management organization (DMO). The course places heavy emphasis on destination marketing. Prerequisite: HOSP 1603 and junior standing. (Typically offered: Fall)

HOSP 4683. Food and Wine Management, Service and Evaluation. 3 Hours.

This course provides students with knowledge of the sensory relationship of wine and food and the important role this process has on gastronomic satisfaction and gastronomic tourism. Course topics will include developing and marketing the wine/food tourism product, wine and food pairing as a hierarchical process, gastronomic identity, Old and New World traditions, managing a food and wine program, trends in food and wine, and promoting Arkansas food and wine. Students must have Junior standing and be at least 21 years old. Students who may not imbibe for any reason should speak with the instructor about an accommodation and alternative assignments. Prerequisite: Junior standing and HOSP majors only and instructor consent required. (Typically offered: Fall)

HOSP 4693. Hospitality Management Internship. 3 Hours.

Supervised experience in an instructor approved work/learning situation relating to the hospitality industry in multiple aspects of a hospitality organization. Emphasis on application of knowledge and skills to actual job roles and responsibilities related to a future career in the hospitality industry. Requires employment in a hospitality setting for a minimum of 250 clock hours that must be completed in the semester of enrollment. Prerequisite: HOSP 1301, HOSP 2611, HOSP 2633, HOSP 2653, HOSP 3623, HOSP 3653, Junior standing, restricted to HOSP students, 500 hours of documented work-related hospitality industry experience and instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HOSP 5633. Hospitality Operations and Financial Analysis. 3 Hours.

In-depth comprehensive study, strategic planning and analysis of the manager's role in successful hotel operations including application of human resource management skills. Emphasis will be placed on strategic decision making, operating procedures, budgeting, financial analysis, problem solving skills, and the technical skills necessary for effective hospitality operations. (Typically offered: Spring)

HOSP 5643. Meetings and Convention Management. 3 Hours.

Focuses on the planning and management of meetings and conventions in the hospitality industry. (Typically offered: Fall)

HOSP 5653. Global Travel and Tourism Management. 3 Hours.

The course recounts the history of travel, explores the future, and discusses the components of tourism from a global perspective. (Typically offered: Spring)

HOSP 5663. Critical Issues and Trends in Hospitality and Tourism. 3 Hours.

The hospitality industry is arguably one of the most important sources of income and foreign exchange and is growing rapidly. However, national and international crises have huge negative economic consequences. This course explores change in the world and applies this to forecasting change in the hospitality and tourism industries. This course examines the current state of the industry and makes educated predictions to the future of the lodging, cruise, restaurant, technology, and travel and tourism industries. (Typically offered: Spring)

HOSP 5673. Destination Marketing and Operations. 3 Hours.

This course is designed to provide students with a basic understanding of the tasks and processes involved in running a successful destination of management organization (DMO). This course places heavy emphasis on destination marketing. Prerequisite: HOSP 1603. (Typically offered: Spring)

HOSP 5683. Food and Wine Management, Service and Evaluation. 3 Hours.

This course provides students with knowledge of the sensory relationship of wine and food and the important role this process has on gastronomic satisfaction and gastronomic tourism. Course topics will include developing and marketing the wine/food tourism product, wine and food pairing as a hierarchical process, gastronomic identity, Old and New World traditions, managing a food and wine program, trends in food and wine, and promoting Arkansas food and wine. Students must be at least 21 years old. Students are required to complete an alcohol compliance education program prior to taking course. Students who may not imbibe for any reason should speak with the instructor about an accommodation and alternative assignments. Prerequisite: HOSP graduate students only and instructor consent required. (Typically offered: Fall)

HOSP 5693. Hospitality Management Internship. 3 Hours.

Supervised experience in an instructor approved work/learning situation relating to the hospitality industry in multiple aspects of a hospitality organization. Emphasis on application of knowledge and skills to actual job roles and responsibilities. Requires employment in a hospitality setting for a minimum of 250 clock hours. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer)

Human Development and Family Sciences (HDFS)

Human Environmental Sciences (HESC)

Courses

HESC 1501. Issues and Trends in Human Environmental Sciences. 1 Hour.

History of human environmental sciences and breadth of its professional opportunities. Prerequisite: AMPD, HESC, HOSP, NUTR, HDFS majors only or departmental consent. (Typically offered: Fall and Spring)

HESC 255V. Special Topics. 1-6 Hour.

Topics not covered in other courses or a more intensive study of specific topics in the specializations of human environmental sciences. (Typically offered: Irregular) May be repeated for degree credit.

HESC 400V. Special Problems. 1-6 Hour.

Special problems. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HESC 4233. Childhood Obesity: Context and Preventions. 3 Hours.

A multidisciplinary course that focuses on the context and prevention of childhood obesity. Directed readings and discussion will center on an ecological approach: identifying the problem(s) and behavioral and environmental factors and their interactions, as well as predisposing, enabling, and reinforcing factors, and action plan(s). The issue is addressed from a multidisciplinary perspective, including economics, marketing, child development, nutrition, and health behavior. (Typically offered: Summer)

HESC 4233H. Honors Childhood Obesity: Context and Preventions. 3 Hours.

A multidisciplinary course that focuses on the context and prevention of childhood obesity. Directed readings and discussion will center on an ecological approach: identifying the problem(s) and behavioral and environmental factors and their interactions, as well as predisposing, enabling, and reinforcing factors, and action plan(s). The issue is addressed from a multidisciplinary perspective, including economics, marketing, child development, nutrition, and health behavior. (Typically offered: Summer)

This course is equivalent to HESC 4233.

HESC 455V. Special Topics. 1-6 Hour.

Topics not covered in other courses, a focused study of specific topics in the students' areas of concentration. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HESC 455VH. Honors Special Topics. 1-6 Hour.

Topics not covered in other courses, a focused study of specific topics in the students' areas of concentration. Prerequisite: Honors standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HESC 500V. Special Problems. 1-6 Hour.

(Formerly HESC 400V.) Special problems. Graduate degree credit will not be given for both HESC 400V and HESC 500V. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

HESC 502V. Special Problems Research. 1-6 Hour.

Individual study or research for graduates in the field of human environmental sciences. (Typically offered: Fall, Spring and Summer)

HESC 5111. Introduction to Graduate Program. 1 Hour.

Overview of graduate program in the School of Human Environmental Sciences. 1 hour. Topics include master's program requirements; graduate student responsibilities; timetable for academic year; forms and deadlines; scheduling and time management; library searches; fundamentals of writing literature reviews; quantitative, qualitative, and mixed research methods; secondary data analyses; and tips for research presentations. Prerequisite: Departmental Consent. (Typically offered: Fall)

HESC 5211. Professional Development. 1 Hour.

Discussion of current literature and research. 1 hour. Topics include diverse research topics and methods in Human Environmental Sciences, professional development, and career opportunities in academia and industry. Prerequisite: HESC 5111 or Departmental Consent. (Typically offered: Fall)

HESC 5233. Childhood Obesity: Context and Preventions. 3 Hours.

A multidisciplinary course that focuses on the context and prevention of childhood obesity. Directed readings and discussion will center on an ecological approach: identifying the problem(s) and behavioral and environmental factors and their interactions, as well as predisposing, enabling, and reinforcing factors, and action plan(s). The issue is addressed from a multidisciplinary perspective, including economics, marketing, child development, nutrition, and health behavior. (Typically offered: Summer)

HESC 5463. Research Methodology in Social Sciences. 3 Hours.

Logical structure and the method of science. Basic elements of research design; observation, measurement, analytic method, interpretation, verification, presentation of results. Applications to research in the economic and sociological problems of agriculture and Human Environmental Sciences. Prerequisite: Graduate standing. (Typically offered: Fall)

This course is cross-listed with AGED 5463.

HESC 555V. Special Topics in Human Environmental Sciences. 1-3 Hour.

Topics not covered in other courses or a more intensive study of specific topics in the specializations of human environmental sciences. (Typically offered: Irregular)

HESC 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

HESC 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Human Resource and Workforce Development Education (HRWD) Courses

HRWD 200V. Work Knowledge. 1-19 Hour.

Credit by advanced standing examination for job knowledge as measured by program approved National Occupational Competency Testing Institute (NOCTI) assessments. (Typically offered: Irregular) May be repeated for up to 19 hours of degree credit.

HRWD 3113. Foundations of Human Resource Development. 3 Hours.

Presents the theory and processes associated with human resource development (HRD) used to design and measure interventions in the areas of organization development, personnel training and development, and career development. Students will analyze organizations and study global implications of HRD, and survey topics in human resource management (HRM) that distinguish HRM from HRD. Prerequisite: Students must be admitted to the University of Arkansas and to the HRWD program. (Typically offered: Fall, Spring and Summer)

HRWD 3123. Career Development. 3 Hours.

This course introduces the concepts of career development and career theories. Career development in both the private and public sectors will be explored. Students will gain knowledge that should enable them to be effective in developing their careers and those of others. (Typically offered: Fall and Summer)

HRWD 3133. Writing for Human Resource and Workforce Development Professionals. 3 Hours.

This course focuses on the types of formal reports typically prepared by Human Resource Development professionals with an emphasis on preparation, data collection and research, organization, style, format, graphics, and technical descriptions. (Typically offered: Spring)

HRWD 3213. Organization Development. 3 Hours.

This undergraduate-level course presents the theory and practice of organization development (OD) as a means for performance improvement at various levels, including organization, departmental unit, work group, and individual. The course covers the processes of OD, interventions, theories, and practice of OD life goals. (Typically offered: Spring and Summer)

HRWD 3223. Managing Human Resource Development Programs. 3 Hours.

The basic aim of this course is to equip the students to examine the essential aspects of the theory and practice of managing human resource development programs. Employees require higher level of analytical, problem solving and creative skills. This course aims to help students develop the skills of employee through better understanding of mechanisms for employment equity, transparency, intellectual capital, e-learning, and career development. This course is designed to guide students through an in depth process of identifying, analyzing, and synthesizing elements related to developing, articulating, and implementing an organizational vision, mission, and strategic plan for HRD programs. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

HRWD 3313. Training and Development. 3 Hours.

This course addresses the acquisition of professional skills and strategies associated with creating and maintaining training and development activities in the workplace. It involves a regular class/workshop situation where training and development skills are practiced and encouraged and a work-based situation where skills are tried and implemented as well as assessed. (Typically offered: Fall and Spring)

HRWD 3323. Designing and Developing Human Resource Development Programs. 3 Hours.

Students will learn to design and develop training programs. The focus is on need for training, application of learning principles, writing instructional objectives and plans, designing active training methods, using visual aids, working with groups, and evaluating training. Pre- or Corequisite: HRWD 3113 and HRWD 3313. Prerequisite: Junior standing. (Typically offered: Spring and Summer)

HRWD 3333. Communication in Human Resource and Workforce Development. 3 Hours.

This course offers instruction on types of communication commonly encountered by Human Resource Development professionals. Emphasis is on audience and purpose analysis, topic research, visual aids, and delivery methods. Activities include preparation and delivery of extemporaneous speeches, team communication, communication with clients, and preparation and delivery of training sessions. (Typically offered: Fall and Summer)

HRWD 4113. The Generational Dynamics in the Workplace. 3 Hours.

Focus of study on the concepts of individual and generational differences among employees in the workplace; what they are and how they affect workplace teaching and learning. Prerequisite: Senior standing. (Typically offered: Fall and Spring)

HRWD 4123. Strategic Human Resource Development. 3 Hours.

This course introduces students to the theories and principles of Strategic HRD. Methods of aligning HRD strategy with the business strategy of the organization are discussed. Prerequisite: Junior standing. (Typically offered: Fall and Summer)

HRWD 4133. International Human Resource Development and Cultural Differentiation. 3 Hours.

This course is designed to introduce students to concepts of international HRD and cultural differentiation that must be acknowledged when developing programs for all employees in the workplace. Prerequisite: Senior standing. (Typically offered: Fall and Summer)

HRWD 4213. Workplace Diversity and Human Resource Development. 3 Hours.

Students will study workplace diversity and the role of HRD in implementing workplace diversity strategies and programs. Prerequisite: Senior standing. (Typically offered: Spring and Summer)

HRWD 4223. Professional and Leadership Development. 3 Hours.

Students are introduced to professional and leadership development theories and principles. Methods and strategies for succession planning, self-development, and change are discussed. Prerequisite: Junior standing. (Typically offered: Fall and Summer)

HRWD 4233. HRD Legal and Ethical Issues. 3 Hours.

This course covers the major employment law facts and concepts used in human resource development. Applications of the key concepts and facts are emphasized in the class. Knowledge of the employment law facts and concepts and their applications at the workplace is vital for the human resource development professional. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

HRWD 4313. Human Resource Development Program and Product Evaluation. 3 Hours.

This course covers the evaluation of HRD programs and products used in the workplace. Students will develop methods of assessing the viability of programs and products to best meet the needs of the organization. Prerequisite: Senior standing. (Typically offered: Spring and Summer)

HRWD 4323. Instructional Technology and Design. 3 Hours.

This course addresses the application of instructional technology and design associated with the needs assessment and design of course materials in human resource development. The emphasis is on the learner in workplace situations. The course will cover the history of the field and its current status. Prerequisite: Junior standing. (Typically offered: Fall and Summer)

HRWD 4333. Human Resource Development Capstone. 3 Hours.

This course will serve as the assessment course for students in the HRWD program. The course work will evaluate all aspects of the HRD curriculum, specifically the three pillars of HRD: career development, organization development, and training and development. Prerequisite: HRWD 3113, HRWD 3213, HRWD 3313 and senior standing. (Typically offered: Fall and Spring)

HRWD 440V. Human Resource Development Practicum/Internship. 1-6 Hour.

The purpose of this course is to apply the HRD theories and best practices studied in the program curriculum with the workplace. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

HRWD 450V. Experiential Learning. 1-19 Hour.

This course is limited to persons qualifying for experiential credit to be applied to the Human Resource Development Concentration only. Credit is awarded for documented experiential or occupational learning based on a standardized format as suggested by the Council for the Advancement of Experiential Learning (CAEL). Credit for certain occupational training or professional certifications may also be earned using the American Council on Education (ACE) guidelines. (Typically offered: Irregular) May be repeated for up to 19 hours of degree credit.

HRWD 5113. Foundations of Human Resource & Workforce Development. 3 Hours.

An overview of human resource and workforce development (HRWD) in organizations. Focus on the integration of training and development, career development, and organization development. Topics include strategic planning for human resource and workforce development, needs assessment, program development, application of workplace learning theories, career development theories and methods, and application of organization learning theories. (Typically offered: Fall, Spring and Summer)

HRWD 5123. Career Transitions. 3 Hours.

This advanced level course is intended for career development professionals and/or subject-matter experts interested in improving their career development skills within a structured or unstructured learning environment. The emphasis in this course is on gaining career development techniques and planning formal and informal career development strategies for the individual or the organization. (Typically offered: Spring)

HRWD 5133. HRWD Diversity Issues. 3 Hours.

This course emphasis is on current trends and case studies of diversity in the workplace. Prerequisite: Graduate standing. (Typically offered: Fall)

HRWD 5213. Organizational Analysis. 3 Hours.

This course introduces the analysis process in organizations. The instruction and activities will enable students to develop skills in conducting organizational needs analysis (OA) as a basis for performance improvement in the workplace. (Typically offered: Spring and Summer)

HRWD 5223. Strategic Human Resource and Workforce Development Education. 3 Hours.

A comprehensive examination of the issues, topics, principles, theories, philosophies and concepts facing tomorrow's HRD professionals. Includes the transformation of strategic HRD; the role of strategic HRD leaders as change agents; the principles of strategic HRD; professional practice domains of strategic HRD; organizational learning, performance, and change; and analysis, design, and evaluation of HPI interventions. Students will identify practices for informing decisions related to the formation of strategic HRD planning and implementation efforts. (Typically offered: Fall)

HRWD 5233. HRWD Employment, Legal, and Ethical Issues. 3 Hours.

This course focuses on employment, legal and ethical issues within the workplace. Students will gain knowledge that should enable them to be effective in understanding current employment concerns, equal employment opportunity (EEO) laws, and ethical practices within the workplace and how these employment concerns, laws, and practices impact society. (Typically offered: Spring)

HRWD 5313. Facilitating Learning in the Workplace. 3 Hours.

Facilitation of learning and performance improvement in the workplace. Application of instructional methods, formal and informal learning strategies, coaching, team building, and formal and informal on-the-job learning tactics. Focus on facilitating individual and group learning to affect organizational change. (Typically offered: Spring)

HRWD 5323. International HRWD. 3 Hours.

Exploration of how globalization and culture affect the workplace and the human resource development profession. Difference between global HRD and HRD practiced in a single country. Impact of culture on every aspect of HRD implementation and practice. Examination of HRD practices in different regions of the world. (Typically offered: Fall)

HRWD 5333. HRWD Technological Resources. 3 Hours.

This course provides students with the tools and abilities to evaluate and understand technology resources used in HRWD. Primary course elements are instructional design characteristics of technology, theoretical and practical uses of technology resources to facilitate and manage learning, and selecting the best or most appropriate technological resources. The course uses online technologies and learning experiences. (Typically offered: Fall)

HRWD 5433. HRWD Capstone. 3 Hours.

This course is the final course for the degree in Human Resource and Workforce Development. Students will be assessed on their overall knowledge and understanding of the field. The focus of this course will be research and analysis of classic works and current trends. Pre- or Corequisite: 27 MED credit hours completed. (Typically offered: Fall, Spring and Summer)

HRWD 571V. Independent Study. 1-3 Hour.

Independent study. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

HRWD 572V. Workshop. 1-3 Hour.

Workshop. Prerequisite: Advanced graduate standing. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

HRWD 573V. Experiential Learning. 1-18 Hour.

This course is designed for the student to attain paid or unpaid experiential development. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

HRWD 6313. Project and Program Evaluation. 3 Hours.

This course is a doctoral level course designed as an introduction to project and program evaluation in human resource and workforce development. Emphasis is on (a) project design and development, (b) program development and improvement, and (c) the integration of evaluation with strategic planning and performance improvement. (Typically offered: Spring Even Years)

HRWD 6323. Qualitative Research Design and Analysis. 3 Hours.

This course is designed to introduce HRWD students to qualitative research design, data collection and data analysis. Course content includes data collection through interviews, field observation, records research, ethical issues associated with conducting research in organizational settings, and internal and external validity problems. Prerequisite: ESRM 5013 and ESRM 6403. (Typically offered: Spring Even Years)

HRWD 6333. Quantitative Research Design and Analysis. 3 Hours.

This course provides HRWD students with the tools and abilities to design and implement an original research project using quantitative measures. Primary course elements are research design application, theoretical settings of research, and nesting research within an appropriate literature base. The course uses online technologies and on-campus learning experiences. Prerequisite: ESRM 5013 and ESRM 6403. (Typically offered: Fall Even Years)

HRWD 6343. Principles and Techniques of Research in HRWD. 3 Hours.

This course addresses the principles and techniques underlying organizational research, both experimental and non-experimental. It covers the basic philosophy of science and research methods and gives attention to the practical problems of design, data collection sampling, and data analysis. Prerequisite: ESRM 5013 and ESRM 6403. (Typically offered: Fall Even Years)

HRWD 6413. Career Theory and Decision Making. 3 Hours.

This course focuses on comprehensive understanding of career theory and decision making to enhance career development that emphasizes technology, cross-cultural issues, practical application, and the global economy. Career development in both the private and public sectors will be explored. Students will gain knowledge that should enable them to be effective in developing their careers and those of others using multicultural considerations and a global perspective. (Typically offered: Fall)

HRWD 6423. Practicum. 3 Hours.

Practicum is designed to allow doctoral students in workforce development education an opportunity to apply the theoretical knowledge, skills and abilities to training, teaching, or research projects. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HRWD 6513. Organization Development. 3 Hours.

This course teaches development of organization activities that intervene in the interaction of people systems to increase the effectiveness of using a variety of applied behavioral sciences. It includes the dynamics of organizations, the genesis of organizational theory and evolution of organizational dynamics, including examination of system structure, chaos theory, group dynamics and interaction, leadership theories, diversity issues impacting organizations, and techniques of change agent intervention. (Typically offered: Summer Odd Years)

HRWD 6523. Leadership Models and Concepts. 3 Hours.

This doctoral course concentrates on using commonly accepted principles of leadership to develop skills needed in workforce development education settings. (Typically offered: Fall Odd Years)

HRWD 6533. HRWD Ethical and Legal Issues. 3 Hours.

Focuses on ethical and legal issues within the workplace and behavioral science research. Students gain knowledge that should enable them to be effective in understanding ethical and legal issues within their workplace and how they can impact society. (Typically offered: Fall)

HRWD 6613. Learning and Teaching Theories. 3 Hours.

Models and philosophies of important theorists in the field of teaching and learning. (Typically offered: Spring Odd Years)

HRWD 6633. Technology Systems in Human Resource and Workforce Development. 3 Hours.

This course provides students with the tools and abilities to evaluate and understand technology systems in HRWD. Primary course elements are instructional design characteristics of technology systems, theoretical and practical settings that use technology systems to facilitate and manage learning, and selecting the best or most appropriate system for organizational use. The course uses online technologies and learning experiences. (Typically offered: Fall Odd Years)

HRWD 6643. History and Foundations of HRWD. 3 Hours.

This course focuses on the history of human resource development as a practice and a profession. Particular emphasis in this course is placed on the influence of philosophy on developing HRD theory and practice. As students progress through this course they can expect to gain greater understanding of how HRD developed as a profession, the historical root of its theory and practice, and an understanding of how to evaluate the philosophical assumptions of current HRD theory and practice. (Typically offered: Fall Even Years)

HRWD 6713. HRWD Curriculum Design. 3 Hours.

Determining principles of curriculum development, implementation, and evaluation with emphasis in human resource development education. (Typically offered: Summer)

HRWD 6723. Entrepreneurial Development. 3 Hours.

An advanced graduate-level course examining the history, economics, theory and practice of developing Entrepreneurial enterprises. This course presents an overview of the business and organizational systems with which an entrepreneur should be familiar. (Typically offered: Irregular)

HRWD 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Humanities (HUMN) Courses

HUMN 1114H. Honors Roots of Culture to 500 C.E.. 4 Hours.

This course constitutes the first segment of a four-semester interdisciplinary study of the Egyptian Book of the Dead, the Torah, the Roman Colosseum, Hinduism, and Confucianism. Open to first-year Honors students by invitation only. Corequisite: Drill component. (Typically offered: Fall)

HUMN 1124H. Honors Equilibrium of Cultures 500-1600. 4 Hours.

This course constitutes the second segment of a four-semester sequence focusing on world cultures. Semester 2 may include the interdisciplinary study of Islam, early Byzantium, Gothic architecture, Heian Japan, and the ancient Maya. Open to first-year Honors students by invitation only. Corequisite: Drill component. (Typically offered: Spring)

HUMN 2013. Introduction to Buddhism. 3 Hours.

Beginning with an analysis of the fundamental principles that underlie all Buddhist thought and practice, students will proceed through the major precepts that have historically distinguished the traditions of Southern and Northern Asia. Attention will also be given to Buddhism's spread through Europe and North America in the twentieth century. (Typically offered: Fall)

HUMN 2114H. Honors Birth of Modern Culture 1600-1900. 4 Hours.

This course constitutes the third segment of a four-semester sequence focusing on world cultures. Semester 3 may include the interdisciplinary study of Renaissance Venice, feudal Japan, Moghul India, Jefferson's Monticello, and Darwinism. Open to second-year Honors students by invitation only. Corequisite: Drill component. (Typically offered: Fall)

HUMN 2124H. Honors Twentieth Century Global Culture. 4 Hours.

This course constitutes the fourth segment of a four-semester sequence focusing on world cultures. Semester 4 may include the interdisciplinary study of the Brooklyn Bridge, the Mexican Revolution, African literature, the Vietnam Memorial, and the atomic age. Open to second-year Honors students by invitation only. Corequisite: Lab component. (Typically offered: Spring)

HUMN 2203H. Honors Humanities Abroad. 3 Hours.

This course is intended as a companion to the Honors Humanities Project (H2P). Students participate in faculty-led site visits to selected countries to facilitate an interdisciplinary exploration of global humanities topics covered in the H2P sequence (HUMN 1114H, HUMN 1124H, and HUMN 2114H). Prerequisite: HUMN 1114H or HUMN 1124H or HUMN 2114H or HUMN 2124H and honors standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HUMN 2213. Introduction to World Religions. 3 Hours.

A survey of the major religions, including--but not limited to--Hinduism, Buddhism, Judaism, Islam, and Christianity. (Typically offered: Spring)

HUMN 3003. Religions of Asia. 3 Hours.

This course explores the narrative, ritual, and communal practices of Hinduism, Jainism, Buddhism, Taoism, Confucianism, Shinto, Islam, and Sikhism. (Typically offered: Spring)

HUMN 3163. On Death and Dying. 3 Hours.

Reviews the theory and humanistic importance of the concepts of death and dying in society. An experimental option and interdisciplinary faculty presenters will be part of the format. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer)

This course is cross-listed with SCWK 3163.

HUMN 3923H. Honors Colloquium. 3 Hours.

Treats a special topic or issue offered as a part of the Honors Program. Prerequisite: Honors candidacy. (Typically offered: Irregular) May be repeated for degree credit.

HUMN 425V. Colloquium. 1-6 Hour.

An interdisciplinary, value-oriented discussion course. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

HUMN 425VH. Honors Colloquium. 1-6 Hour.

An interdisciplinary, value-oriented discussion course. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
This course is equivalent to HUMN 425V.

Industrial Engineering (INEG) Courses

INEG 2001. Industrial Engineering Seminar. 1 Hour.

Overview of the Department of Industrial Engineering: faculty and their backgrounds and interests, staff and the services they provide, facilities, curricular requirements, extracurricular opportunities, post-graduate opportunities. (Typically offered: Fall)

INEG 2103. Introduction to Industrial Engineering. 3 Hours.

Introduction to the technical content of industrial engineering and the use of computing in the solution of traditional industrial engineering problems. Computer tools include spreadsheets, programming, and mathematical analysis software. Corequisite: Lab component. (Typically offered: Fall)

INEG 2313. Applied Probability and Statistics for Engineers I. 3 Hours.

Applications to engineering problems of probability theory, discrete and continuous random variables, descriptive statistics, single-population point and interval estimation, single-population hypothesis testing, goodness-of-fit testing, and contingency table testing. Corequisite: Drill component. Prerequisite: MATH 2564. (Typically offered: Fall and Spring)

INEG 2313H. Honors Applied Probability and Statistics for Engineers I. 3 Hours.

Applications to engineering problems of probability theory, discrete and continuous random variables, descriptive statistics, single-population point and interval estimation, single-population hypothesis testing, goodness-of-fit testing, and contingency table testing. Corequisite: Drill component. Prerequisite: MATH 2564. (Typically offered: Fall and Spring)
This course is equivalent to INEG 2313.

INEG 2333. Applied Probability and Statistics for Engineers II. 3 Hours.

Applications to engineering problems of two-population point and interval estimation, two-population hypothesis testing, linear regression, correlation, design of experiments, analysis of variance, and nonparametric statistics. Introduction to statistical quality control. Corequisite: Drill component. Prerequisite: INEG 2313. (Typically offered: Fall and Spring)

INEG 2403. Industrial Cost Analysis. 3 Hours.

Use of accounting information for planning and control with emphasis on the engineering viewpoint; introduction to general accounting procedures; principles of cost accounting and other aspects of production costs; budgeting, depreciation, taxes, distribution of profits, securities, sources of corporate capital, interpretation of financial statements, and other related topics. Laboratory required. Corequisite: Lab component. (Typically offered: Spring)

INEG 2413. Engineering Economic Analysis. 3 Hours.

Economic aspects of engineering, including current economic problems and the treatment of estimates when evaluating alternative courses of action. Methods of selection and replacement of equipment and break-even points of operation; desirability of new processes or projects where asset life, rate of return on investment, and first, fixed, differential, marginal, and sunk costs must be considered. Corequisite: Drill component. Prerequisite: MATH 2554. (Typically offered: Fall and Spring)

INEG 2812H. Honors Industrial Engineering Research Experience I. 2 Hours.

Introduction to the research of the faculty of the Department of Industrial Engineering for the purpose of matching students with an undergraduate research advisor. Development of skills in using electronic resources to conduct background research on individuals and topics in the industrial engineering academic community. Prerequisite: Instructor consent and honors standing. (Typically offered: Spring)

INEG 3513. Manufacturing Processes. 3 Hours.

This course focuses on the manufacturing processes that impart geometry and properties to engineering materials including casting, metalworking, machining, joining, heat treatment, and polymer processes. Process selection and analysis, design-for-manufacturing principles, cost estimation, and selection of process parameters are covered. Lab component covers communication of manufacturing specifications via engineering drawings. Prerequisite: MEEG 2303. Corequisite: Lab component. (Typically offered: Spring)

INEG 3613. Introduction to Operations Research. 3 Hours.

Introduction to modeling and analysis of deterministic operations design and planning problems using formal optimization algorithms and software. Identification and formulation of appropriate applications, linear programming, sensitivity, network flows/transportation/assignment problems, shortest paths, and integer linear programming. Prerequisite: INEG 2103 and MATH 2574. (Typically offered: Spring)

INEG 3623. Simulation. 3 Hours.

The development and use of discrete-event simulation models for the analysis and design of systems found in manufacturing, distribution, and service contexts. Coverage includes conceptual modeling, model translation to computer form, statistical input models, random number generation and Monte Carlo methods, experimentation and statistical output analysis, and queuing analysis. Includes the use of modern computer simulation languages. Prerequisite: INEG 2413 and CSCE 2004. Pre- or Corequisite: INEG 2333. (Typically offered: Fall)

INEG 3623H. Honors Simulation. 3 Hours.

The development and use of discrete-event simulation models for the analysis and design of systems found in manufacturing, distribution, and service contexts. Coverage includes conceptual modeling, model translation to computer form, statistical input models, random number generation and Monte Carlo methods, experimentation and statistical output analysis, and queuing analysis. Includes the use of modern computer simulation languages. Corequisite: INEG 2333 and drill component. Prerequisite: INEG 2413 and CSCE 2004. (Typically offered: Fall)
This course is equivalent to INEG 3623.

INEG 3714. Work Methods and Ergonomics. 4 Hours.

Ways of designing jobs, machines, operations and work environments so they are compatible with human capacities and limitations. Work methods topics include methods analysis, time studies, work sampling and learning curves. Cognitive and physical capabilities and limitations of humans are addressed through the study of human information processing, motor control theory, anthropometry, biomechanics, work physiology and manual material handling. Design of controls and displays, hand tools and workstations, along with work related musculoskeletal disorders. Laboratory required. Corequisite: Lab component. Pre- or Corequisite: INEG 2333. (Typically offered: Fall and Spring)

INEG 3812H. Honors Industrial Engineering Research Experience II. 2 Hours.

Development of an undergraduate research proposal. Introduction to the peer review process. Examination of conference travel, nationally-competitive award, and graduate fellowships. Emphasis on technical communication skills. Prerequisite: INEG 2812H and honors standing. (Typically offered: Fall)

INEG 400VH. Honors Thesis. 1-3 Hour.

For Honors College students majoring in Industrial Engineering only. Prerequisite: Honors college students only and instructor consent. (Typically offered: Fall, Spring and Summer)

INEG 410V. Special Topics in Industrial Engineering. 1-3 Hour.

Consideration of current industrial engineering topics not covered in other courses. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

INEG 410VH. Honors Special Topics in Industrial Engineering. 1-3 Hour.

Consideration of current industrial engineering topics not covered in other courses. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.
This course is equivalent to INEG 410V.

INEG 411V. Individual Study in Industrial Engineering. 1-3 Hour.

Individual study and research on a topic mutually agreeable to the student and a faculty member. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer)

INEG 411VH. Honors Individual Study in Industrial Engineering. 1-3 Hour.

Individual study and research on a topic mutually agreeable to the student and a faculty member. Prerequisite: Instructor consent and honors candidacy. (Typically offered: Fall, Spring and Summer)
This course is equivalent to INEG 411V.

INEG 4123. Global Engineering and Innovation. 3 Hours.

This course provides engineering students a global perspective for design and innovation. Students explore various design thinking tools and techniques. Students apply engineering design and innovation techniques to create solutions that meet specified markets with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors. Students also have the opportunity to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which considers the impact of the engineering solution in the global, economic, environmental, and social contexts. Prerequisite: Senior standing or instructor consent. (Typically offered: Irregular)

INEG 4163. Introduction to Modern Statistical Techniques for Industrial Applications. 3 Hours.

This application-oriented course is driven by real problems arising from industry and focuses on problem solving using both modern and classic statistical methods. For both senior undergraduate and graduate students, the main goal of this course is to provide a comprehensive introduction to those most popular statistical learning methods and tools (such as R and Apache Spark) which are widely used in industry today. Prerequisite: INEG 2333. (Typically offered: Spring)

INEG 4223. Occupational Safety and Health Standards. 3 Hours.

Survey of existing and proposed standards by examining fundamental physical, economic, and legal bases. Performance vs. specific standards. Enforceability and data collection. National consensus and promulgation process. Includes a computer-based design project. Prerequisite: INEG 2313. (Typically offered: Irregular)

INEG 4223H. Honors Occupational Safety and Health Standards. 3 Hours.

Survey of existing and proposed standards by examining fundamental physical, economic, and legal bases. Performance vs. specific standards. Enforceability and data collection. National consensus and promulgation process. Includes a computer-based design project. Prerequisite: INEG 2313. (Typically offered: Irregular)
This course is equivalent to INEG 4223.

INEG 4253. Leadership Principles and Practices. 3 Hours.

The course is designed to expose students to multiple approaches to leadership in a wide variety of settings. Leadership styles, the knowledge areas and competencies expected of today's leaders, the challenges leaders face, the historical and philosophical foundations of leadership, the relationships among leadership theory, leadership practice, and the moral-ethical aspects of leadership are among the topics covered in the course. A number of respected regional, national, and international leaders share "lessons learned" in their leadership journeys. Plus, a number of highly regarded leadership books and case studies on leadership are read and discussed. Students may not receive credit for INEG 4253 and INEG 5253/OMGT 5253. Prerequisite: Senior standing. (Typically offered: Fall)

INEG 4253H. Honors Leadership Principles and Practices. 3 Hours.

The course is designed to expose students to multiple approaches to leadership in a wide variety of settings. Leadership styles, the knowledge areas and competencies expected of today's leaders, the challenges leaders face, the historical and philosophical foundations of leadership, the relationships among leadership theory, leadership practice, and the moral-ethical aspects of leadership are among the topics covered in the course. A number of respected regional, national, and international leaders share "lessons learned" in their leadership journeys. Plus, a number of highly regarded leadership books and case studies on leadership are read and discussed. Students may not receive credit for INEG 4253 and INEG 5253/OMGT 5253. Prerequisite: Honors standing and instructor consent. (Typically offered: Fall)

This course is equivalent to INEG 4253.

INEG 4323. Quality Engineering and Management. 3 Hours.

Provides the student with complete coverage of the functional area of "Quality Assurance" ranging from the need for such a function, how it works, techniques utilized, and managerial approaches for insuring its effectiveness. Prerequisite: INEG 2333. (Typically offered: Irregular)

INEG 4343. Cognitive Ergonomics. 3 Hours.

Studies of human cognition in work settings in order to enhance performance of cognitive tasks through an understanding of cognitive processes (e.g., attention, perception errors, decision making, workload) required of operators in modern industries. Emphasis lies on how to (re)design human-machine interfaces and cognitive artifacts so that human well-being and system performance are optimized in work environments. Prerequisite: CSCE 2004 (Typically offered: Irregular)

INEG 4383. Risk Analysis for Transportation and Logistics Systems. 3 Hours.

Fundamentals of modeling risk, analyzing risk, and managing risk in a variety of industrial and government decision-making settings. Risk measurement and model building, uncertainty quantification, and multi-objective trade-offs. Prerequisite: INEG 2313 and INEG 4553. (Typically offered: Irregular)

INEG 4423. Advanced Engineering Economy. 3 Hours.

Preparation of feasibility studies, including cost estimation, risk and uncertainty, sensitivity analysis and decision making. Effects of taxes, depreciation and financing costs on cash flows. Prerequisite: INEG 2313 and INEG 2413. (Typically offered: Irregular)

INEG 4423H. Honors Advanced Engineering Economy. 3 Hours.

Preparation of feasibility studies, including cost estimation, risk and uncertainty, sensitivity analysis and decision making. Effects of taxes, depreciation and financing costs on cash flows. Prerequisite: INEG 2413. (Typically offered: Irregular)
This course is equivalent to INEG 4423.

INEG 4433. Systems Engineering and Management. 3 Hours.

Overview of the fundamental concepts underlying the management of engineering. Reviews the engineering decision process within the life cycle. Examines implementation of basic management functions in technical organizations and development of strategy tools within a complex organization. Prerequisite: INEG 2403. (Typically offered: Fall)

INEG 4433H. Honors Systems Engineering and Management. 3 Hours.

Overview of the fundamental concepts underlying the management of engineering. Reviews the engineering decision process within the life cycle. Examines implementation of basic management functions in technical organizations and development of strategy tools within a complex organization. Prerequisite: INEG 2403 (Typically offered: Fall)
This course is equivalent to INEG 4433.

INEG 4443. Project Management. 3 Hours.

Analysis of the strategic level of project management including planning, organizing, and staffing for successful project execution. Professional creativity, motivation, leadership, and ethics are also explored. At the tactical level, project selection, control, and systems management are analyzed. Systems development and decision support tools for project management are studied. Prerequisite: Senior standing. (Typically offered: Irregular)

INEG 4443H. Honors Project Management. 3 Hours.

Analysis of the strategic level of project management including planning, organizing, and staffing for successful project execution. Professional creativity, motivation, leadership, and ethics are also explored. At the tactical level, project selection, control, and systems management are analyzed. Systems development and decision support tools for project management are studied. Prerequisite: Senior standing. (Typically offered: Irregular)
This course is equivalent to INEG 4443.

INEG 4453. Productivity Improvement. 3 Hours.

Analysis of common productivity problems. Development of skills required to diagnose problems; measure productivity; develop improvement strategies; and provide for the implementation and maintenance of productivity measurement and improvement systems. Prerequisite: Senior standing. (Typically offered: Irregular)

INEG 4533. Application of Machine Vision. 3 Hours.

Automated machine vision applied to assembly and inspection tasks traditionally performed by human operators; development of application by acquiring image, processing image data, analyzing image and transmitting results; application analysis, selection and economics. Laboratory required. Corequisite: Lab component. Prerequisite: Senior standing. (Typically offered: Spring)

INEG 4543. Facility Logistics. 3 Hours.

The design and analysis of efficient logistics systems at the facility level, with an emphasis on distribution facilities. Unit load, break bulk, crossdock and order fulfillment centers and their component systems and software. Automated and manual systems. Corequisite: Lab component. Prerequisite: INEG 2413 and INEG 3613. (Typically offered: Irregular)

INEG 4553. Production Planning and Control. 3 Hours.

Strategy and competition, forecasting, aggregate planning, inventory control subject to known demand, inventory control subject to uncertain demand, supply chain management, push and pull production control systems, and operations scheduling. Pre or Corequisite: INEG 3613. Prerequisite: INEG 2333. (Typically offered: Fall)

INEG 4563. Industrial Robotics. 3 Hours.

An interdisciplinary treatment of: industrial robotics; manipulator anatomy, control, and programming; end-of arm tooling; sensors & sensing; system integration and safety; future trends. Significant out-of-class programming assignments to solve common industrial automation problems. Corequisite: Lab component. Prerequisite: Senior standing. (Typically offered: Fall)

INEG 4593. Manufacturing Systems. 3 Hours.

This course is designed to highlight the major topics in manufacturing systems. Different manufacturing models and metrics are emphasized. This course also introduces classification, general terminology, technical aspects, economics, and analysis of manufacturing systems. Corequisite: Lab component. Prerequisite: INEG 3513 or graduate standing. (Typically offered: Irregular)

INEG 4633. Transportation Logistics. 3 Hours.

Quantitative aspects of transportation and logistics involving analysis and optimization. Topics include: facility location analysis, network design, network flow and transportation modeling, vehicle routing, fleet sizing, driver assignment, and supply chain issues (logistics demand, role of inventory in the network, role of technology, etc.). Prerequisite: INEG 2333 and INEG 3613. (Typically offered: Irregular)

INEG 4683. Decision Support in Industrial Engineering. 3 Hours.

Reinforcing important computer programming methods using industrial engineering-based applications. Students will utilize Microsoft Excel and Visual Basic for Applications to develop custom solutions to challenging industrial engineering problems. Emphasis on computational proficiency and computing productivity in a spreadsheet-based setting. Prerequisite: CSCE 2004 and INEG 2313. (Typically offered: Fall)

INEG 4733. Industrial Ergonomics. 3 Hours.

Gives background and experience in measurement and evaluation of human performance as it pertains to the working environment. The physical, physiological and psychological capabilities of the tasks they are to perform. Laboratory projects required. Prerequisite: INEG 2333. (Typically offered: Irregular)

INEG 4812H. Honors Industrial Engineering Research Experience III. 2 Hours.

Completion of an undergraduate research thesis. Introduction to the identification of outlets for dissemination of industrial engineering research. Introduction to the process of identifying opportunities for future extensions of completed research. Prerequisite: INEG 3812H and honors standing. (Typically offered: Fall)

INEG 4833. Introduction to Database Concepts for Industrial Engineers. 3 Hours.

An introduction to the basic principles of database modeling and technologies for industrial engineers. Coverage includes analyzing user requirements, representing data using conceptual modeling techniques (e.g. UML, ERD), converting conceptual models to relational implementations via database design methodologies, extracting data via structured query language processing, and understanding the role of database technology in industrial engineering application areas such as inventory systems, manufacturing control, etc. The application of a desktop database application such as Access will be emphasized. Prerequisite: CSCE 2004. (Typically offered: Irregular)

INEG 4911. Industrial Engineering Capstone Experience I. 1 Hour.

Develop a written and oral proposal for a comprehensive project for an industrial sponsor. Conduct background research, data collection, and preliminary analysis using industrial engineering tools; define objectives, performance measures, and deliverables; identify and schedule required tasks. Pre- or Corequisite: INEG 2001, INEG 3613, INEG 3623, INEG 3714 or INEG 4433 and INEG 4553. (Typically offered: Fall)

INEG 4923. Industrial Engineering Capstone Experience II. 3 Hours.

Develop a written and oral report for a comprehensive project for an industrial sponsor. Complete identified tasks and measure success in achieving defined objectives using industrial engineering tools; create and document deliverables. Students must have successfully completed INEG 4911 in the immediately prior semester. Two hours lecture, One, three hour lab. Corequisite: Lab component. Pre- or Corequisite: INEG 3513. Prerequisite: INEG 3613, INEG 3623, and INEG 4911. (Typically offered: Spring)

INEG 5123. Industrial Engineering in the Service Sector. 3 Hours.

Review of the development of industrial engineering into the service sector, e.g., health care systems, banking, municipal services, utilities, and postal service. Emphasizes those principles and methodologies applicable to the solutions of problems within the service industries. Prerequisite: Graduate standing. (Typically offered: Irregular)

This course is cross-listed with OMGT 5133.

INEG 513V. Master's Research Project and Report. 1-6 Hour.

Required course for students electing the report option. (Typically offered: Fall, Spring and Summer)

INEG 514V. Special Topics in Industrial Engineering. 1-3 Hour.

Consideration of current industrial engineering topics not covered in other courses. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

INEG 515V. Individual Study in Industrial Engineering. 1-3 Hour.

Opportunity for individual study of advanced subjects related to a graduate industrial engineering program to suit individual requirements. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

INEG 5163. Introduction to Modern Statistical Techniques for Industrial Applications. 3 Hours.

This application-oriented course is driven by real problems arising from industry and focuses on problem solving using both modern and classic statistical methods. For both senior undergraduate and graduate students, the main goal of this course is to provide a comprehensive introduction to those most popular statistical learning methods and tools (such as R and Apache Spark) which are widely used in industry today. For graduate students, this course will also cover the fundamental theory behind some of the methodologies. Students will not receive credit for both INEG 4103 and INEG 5103. Prerequisite: INEG 2333. (Typically offered: Spring)

INEG 5243. Automated Manufacturing. 3 Hours.

Introduction to manufacturing processes and concurrent engineering in the electronics industry. Survey of electronics components and products and the processes of fabrication and assembly. Principles of design, productivity, quality, and economics. Emphasis on manufacturability. (Typically offered: Irregular)

INEG 5253. Leadership Principles and Practices. 3 Hours.

The course is designed to expose students to multiple approaches to leadership in a wide variety of settings. Leadership styles, the knowledge areas and competencies expected of today's leaders, the challenges leaders face, the historical and philosophical foundations of leadership, the relationships among leadership theory, leadership practice, and the moral-ethical aspects of leadership are among the topics covered in the course. A number of respected regional, national, and international leaders share "lessons learned" in their leadership journeys. Plus, a number of highly regarded leadership books and case studies on leadership are read and discussed. Students may not receive credit for INEG 4253 and INEG 5253/OMGT 5253. (Typically offered: Fall)

This course is cross-listed with OMGT 5253.

INEG 5263. Engineering Statistics. 3 Hours.

A graduate level engineering statistics course covering functions of random variables, properties and distributions of random samples, theory of statistical inference, and rationales of testing hypotheses and constructing confidence intervals. Prerequisite: MATH 2574 and INEG 2313. (Typically offered: Fall)

INEG 5313. Engineering Applications of Probability Theory. 3 Hours.

Introduction to probability, discrete random variables, continuous random variables, multiple random variables, sequences of Bernoulli trials. Applications of these topics from inventory, reliability, quality control. (Typically offered: Fall)

INEG 5323. Engineering Applications of Stochastic Processes. 3 Hours.

Renewal processes, Poisson processes, discrete-time Markov chains, continuous-time Markov chains. Applications of these topics from inventory, reliability, quality control, queueing. (Typically offered: Spring)

INEG 5333. Design of Industrial Experiments. 3 Hours.

Statistical analysis as applied to problems and experiments in engineering and industrial research; experiment design and analysis; probability; and response surface analysis. Prerequisite: INEG 2313 or equivalent. (Typically offered: Irregular)

INEG 5343. Advanced Quality Control Methods. 3 Hours.

Acceptance sampling by attributes; single, double, sequential, and multiple sampling plans; sampling plans of Department of Defense; acceptance sampling by variables; Bayesian acceptance sampling; rectifying inspection for lot-by-lot sampling; control charts; special devices; and procedures. Prerequisite: INEG 2313. (Typically offered: Irregular)

INEG 5373. Repairable Systems Modeling. 3 Hours.

Applications of probability, statistics, simulation and optimization to problems related to 1) modeling the performance of repairable equipment; 2) designing optimal inspection and maintenance policies for repairable equipment; and 3) optimizing the allocation of maintenance resources. (Typically offered: Irregular)

INEG 5383. Risk Analysis for Transportation and Logistics Systems. 3 Hours.

Fundamentals of modeling risk, analyzing risk, and managing risk in a variety of industrial and government decision-making settings. Risk measurement and model building, uncertainty quantification, and multi-objective trade-offs. Credit cannot be earned for both INEG 4383 and INEG 5383. (Typically offered: Irregular)

INEG 5393. Applied Regression Analysis for Engineers. 3 Hours.

Present concepts and applications to introduce statistical tools for discovering relationships among variables. Focus on fitting and checking linear and nonlinear regression models. Practical tools for engineers. (Typically offered: Irregular)

INEG 5423. Advanced Engineering Economy. 3 Hours.

(Formerly INEG 4423.) Preparation of feasibility studies, including cost estimation, risk and uncertainty, sensitivity analysis and decision making. Effects of taxes, depreciation and financing costs on cash flows. Graduate degree credit will not be given for both INEG 4423 and INEG 5423. Prerequisite: INEG 2313 and INEG 2413. (Typically offered: Irregular)

INEG 5433. Cost Estimation Models. 3 Hours.

Overview of cost estimation techniques and methodologies applied to manufacturing and service organizations. Accomplished through detailed analysis of the cost estimation development process and various cost estimation models. Topics include data collection and management, learning curves, activity based costing, detailed and parametric estimation models, and handling risk and uncertainty. Prerequisite: INEG 2313. (Typically offered: Irregular)

This course is cross-listed with OMT 5433.

INEG 5443. Decision Models. 3 Hours.

Focus on quantitative decision models for technical and managerial problems for private and public organizations. Topics include shareholder value, stakeholder value, Value-Focused Thinking, axioms of decision analysis, decision making challenges, decision traps, cognitive biases, decision processes, decision framing, influence diagrams, value hierarchy structuring, designing creative alternatives, single objective models, multiobjective additive value model, swing weights, sensitivity analysis, portfolio decision models with binary linear programming, probability elicitation, Bayes Law, decision trees, Monte Carlo simulation, expected value, dominance (deterministic and stochastic), tornado diagrams, value of information, risk preference, utility models, expected utility, and communicating analysis insights. Prerequisite: INEG 2313. (Typically offered: Irregular)

This course is cross-listed with OMT 5443.

INEG 5453. Systems Engineering and Management. 3 Hours.

(Formerly INEG 4433.) Overview of the fundamental concepts underlying the management of engineering. Reviews the engineering decision process within the life cycle. Examines implementation of basic management functions in technical organizations and development of strategy tools within a complex organization. Graduate degree credit will not be given for both INEG 4433 and INEG 5453. Prerequisite: INEG 2403. (Typically offered: Fall)

INEG 5463. Project Management. 3 Hours.

(Formerly INEG 4443.) Analysis of the strategic level of project management including planning, organizing, and staffing for successful project execution. Professional creativity, motivation, leadership, and ethics are also explored. At the tactical level, project selection, control, and systems management are analyzed. Systems development and decision support tools for project management are studied. Graduate degree credit will not be given for both INEG 4443 and INEG 5463. (Typically offered: Irregular)

INEG 5523. Topics in Automated Systems. 3 Hours.

To understand current developments in applications of flexible automation to industrial processes. Robotics, machine vision and other sensors, human machine interface, AML/2 and V+ programming languages. (Typically offered: Irregular)

INEG 5533. Network Optimization in Transportation Logistics. 3 Hours.

Focus on quantitative modeling and analysis of network optimization problems and their application in logistics system design and operation. Topics include network design and routing and location analysis, with emphasis on the application of both exact and heuristic solution techniques for large-scale instances of such problems. Prerequisite: INEG 5613. (Typically offered: Spring)

INEG 5543. Distribution Center Design & Operations. 3 Hours.

To introduce the student to the field of facility logistics, as applied to distribution centers (DCs). The fundamental areas of facility design and operations (material handling systems) will be covered. Prerequisite: INEG 5613. (Typically offered: Irregular)

INEG 5563. Industrial Robotics. 3 Hours.

An interdisciplinary treatment of industrial robotics; manipulator anatomy, control, and programming; end-of arm tooling; sensors & sensing; system integration and safety; current research topics. Graduate-level lab assignments and examinations. Significant literature review and writing assignments. Not open to students with credit for INEG 4563. Prerequisite: Graduate standing or instructor consent. (Typically offered: Fall)

INEG 5613. Introduction to Optimization Theory. 3 Hours.

A graduate level introduction to the foundational rationales of numerical optimization methods including linear programming, integer programming, network flows, and discrete dynamic programming. Model formulation and tractability, search strategies, characterization of optimal solutions, duality and sensitivity, outcome justification. Prerequisite: Graduate standing. (Typically offered: Fall)

INEG 5623. Analysis of Inventory Systems. 3 Hours.

Elements of production and inventory control, economic lot size models, price breaks models using Lagrangian method, deterministic dynamic inventory model, probabilistic one-period and multi-period models, zero and positive lead time models, and continuous review models. Prerequisite: INEG 5313. (Typically offered: Irregular)

INEG 5643. Optimization Theory II. 3 Hours.

Classical optimization theory, Lagrangian and Jacobian methods, Kuhn-Tucker theory and constraint qualification, duality in nonlinear problems; separable programming, quadratic programming, geometric programming, stochastic programming, steepest ascent method, convex combinations method, SUMT, Fibonacci search, and golden section method. Prerequisite: INEG 5613. (Typically offered: Irregular)

INEG 5653. Modeling and Analysis of Semiconductor Manufacturing. 3 Hours.

Introduction to front end of semiconductor manufacturing process, wafer processing. Topics include an introduction to wafer processing, factory and equipment capacity modeling, automated material handling, simulation, cost modeling, and production scheduling. Prerequisite: INEG 2313. (Typically offered: Irregular)

INEG 5663. Analysis of Queuing Systems. 3 Hours.

Poisson axioms, pure birth and death model, queue disciplines (M/M/1) and (M/M/c) models, machine servicing model, Pollazek-Khintchine formula, priority queues, and queues in series. Markovian analysis of (GI/M/K) (M/G/1) models, and bulk queues. Reneging, balking, and jockeying phenomena. Transient behavior. Prerequisite: INEG 5313. (Typically offered: Irregular)

INEG 5683. Nonlinear Programming. 3 Hours.

An introduction to the theory and methodology of nonlinear programming. Focus on engineering and management science applications of nonlinear optimization. Both single and multi-variable as well as unconstrained and constrained problems are addressed. (Typically offered: Irregular)

INEG 5693. Heuristic Optimization. 3 Hours.

Theory and applications of methodological approaches explicitly addressed to heuristic or approximate optimization of integer and combinatorial models. Prerequisite: INEG 5613. (Typically offered: Irregular)

INEG 5803. Simulation. 3 Hours.

The development and use of discrete-event simulation models for the analysis and design of systems found in manufacturing, distribution, and service contexts. Coverage includes conceptual modeling, model translation to computer form, statistical input models, random number generation and Monte Carlo methods, experimentation and statistical output analysis, and queuing analysis. Includes the use of modern computer simulation languages. Cannot receive credit for both INEG 3623 and INEG 5803. Corequisite: Drill component. (Typically offered: Irregular)

INEG 5813. Introduction to Simulation. 3 Hours.

Development and use of discrete-event simulation models for the analysis and design of systems found in manufacturing, distribution, and service contexts. Coverage includes conceptual modeling, model translation to computer form, statistical input models, random number generation and Monte Carlo methods, experimentation and statistical output analysis, and queuing analysis. For off-campus, distance education students only. (Typically offered: Irregular)

INEG 5823. Systems Simulation I. 3 Hours.

Random number generation, random variate generation, timekeeping in simulations, discrete event modeling, construction of digital simulation models, statistical analysis of simulation results, and analysis of simulation experiments utilizing a computer programming language. (Typically offered: Irregular)

INEG 5833. Introduction to Database Concepts for Industrial Engineers. 3 Hours.

(Formerly INEG 4833.) An introduction to the basic principles of database modeling and technologies for industrial engineers. Coverage includes analyzing user requirements, representing data using conceptual modeling techniques (e.g. UML, ERD), converting conceptual models to relational implementations via database design methodologies, extracting data via structured query language processing, and understanding the role of database technology in industrial engineering application areas such as inventory systems, manufacturing control, etc. The application of a desktop database application such as Access will be emphasized. Graduate degree credit will not be given for both INEG 4833 and INEG 5833. (Typically offered: Irregular)

INEG 5843. Scheduling and Sequencing I. 3 Hours.

An introduction to constructive algorithms and various operations research approaches for solving sequencing and scheduling problems. The NP-completeness of most scheduling problems leads to a discussion of computational complexity, the use of heuristic solution methods, and the development of worst case bounds. Prerequisite: INEG 3613 and computer programming proficiency. (Typically offered: Irregular)

INEG 600V. Master's Thesis. 1-9 Hour.

Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

INEG 6113. Linear Optimization. 3 Hours.

A precise treatment of linear programming. Theory of convex sets, linear inequalities; development of the simplex method; duality theory; post optimality application and interpretation. Variants of the simplex methods and interior-point algorithms are discussed. Prerequisite: INEG 5613. (Typically offered: Fall)

INEG 614V. Special Topics for Doctoral Students in Industrial Engineering. 1-3 Hour.

Consideration of current industrial engineering topics at the doctoral level that are not covered in other courses. Prerequisite: PhD student in Industrial Engineering or consent of the instructor. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

INEG 6213. Integer Programming. 3 Hours.

This course offers the theory needed to model and efficiently solve large-scale binary, mixed and general integer programs. The tools needed to assess the computational complexity of these problems will be fully studied. Additional topics include the conceptual foundation required for the development of cutting plane, branch-and-price, Lagrange relaxation and constraint programming approaches. Implementation considerations specific to preprocessing, valid inequality generation and solution methodology convergence will be emphasized. Prerequisite: INEG 6113. (Typically offered: Spring)

INEG 6313. Network Optimization. 3 Hours.

A theorem/proof based advanced study providing rigorous exposition of foundational network optimization concepts including relevant optimization theory, algorithm development techniques, complexity analysis, data structures, and important applications. Prerequisite: INEG 6113. (Typically offered: Fall)

INEG 6363. Generalized Linear Models. 3 Hours.

Introduce the generalized linear model (GLM), inference, likelihood and diagnostics. Apply log linear and logistic models. Develop techniques for growth curves, and longitudinal and survival data. Cover spatial and normal linear models, and dynamic GLM for dependent data. (Typically offered: Irregular)

INEG 6443. Advanced Decision Analysis. 3 Hours.

The purpose of this course is to prepare the student to perform PhD and MS level research and analysis using advanced decision analysis concepts and techniques. The course topics include the history of decision analysis, foundations of decision analysis, structuring decision problems, assessing probabilities, probability management, Bayesian networks, utility, risk preference, risk analysis for engineering applications, intelligent adversary risk analysis, behavioral and organizational context for decision analysis, and major decision analysis applications. Prerequisite: INEG 5443. (Typically offered: Spring)

INEG 6823. Systems Simulation II. 3 Hours.

Advanced topics in computer simulation including experimental design, simulation optimization, variance reduction, and statistical output analysis techniques applied to discrete event simulation. Prerequisite: INEG 5823. (Typically offered: Irregular)

INEG 6843. Scheduling Theory and Algorithms. 3 Hours.

The course will cover the theory and solution methods for scheduling several tasks over time. Topics include terminology, measures of performance, single machine sequencing, flow shop scheduling, the job shop problem, and priority dispatching. Side constraints within scheduling, such as precedence, release dates, and due dates are addressed. Integer programming, dynamic programming, and heuristic approaches to various problems are also presented. Prerequisite: INEG 5613 or equivalent, computer programming proficiency, and exposure to proofs. (Typically offered: Irregular)

INEG 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Information Systems (ISYS)

Courses

ISYS 1120. Computer Competency Requirement. 0 Hours.

Students entering the Walton College are expected to possess basic competencies in MS Windows, Word, Excel, and PowerPoint. The requirement is expected to be completed in an 8-week session. Deficiencies may be remedied through appropriate self-paced, computer-based instruction and/or alternative courses. Prerequisite: Students must earn a pre-assessment score of 70 or higher and department consent. (Typically offered: Fall, Spring and Summer)

ISYS 1123. Business Application Knowledge - Computer Competency. 3 Hours.

An introduction to computer literacy using information business application software; email/Internet; word processing; spreadsheets; presentation; database; collaborative/groupware; and integration of computer applications. Introduces the student to computer Concepts and Microsoft Office (Word, Excel, Windows, and PowerPoint) to manage finances, work with formulas, charts and graphics, and the development of professional worksheets and presentations. Students learn business computing through appropriate self-paced, computer-based instruction. Non-degree credit for business students; may be used to fulfill ISYS 1120 degree requirement if student earns a grade of C or better. (Typically offered: Fall, Spring and Summer)

ISYS 2103. Business Information Systems. 3 Hours.

This course presents the fundamentals of business information systems (IS) topics essential to today's business graduate. Applied areas of business will be used to provide the context for the IS topics, business applications, and management challenges. The broad objective of this course is to present students with a business and information systems framework that will allow them to envision how business decisions are enabled and empowered by information systems and technology. Corequisite: MGMT 2053 or ACCT 2023. Prerequisite: WCOB 1033 with a grade of C or better and (ISYS 1120 or (ISYS 1123 with a grade of C or better)). (Typically offered: Fall, Spring and Summer)

ISYS 2103H. Honors Business Information Systems. 3 Hours.

This course presents the fundamentals of business information systems (IS) topics essential to today's business graduate. Applied areas of business will be used to provide the context for the IS topics, business applications, and management challenges. The broad objective of this course is to present students with a business and information systems framework that will allow them to envision how business decisions are enabled and empowered by information systems and technology. Corequisite: MGMT 2053 or ACCT 2023. Prerequisite: WCOB 1033 with a grade of C or better and (ISYS 1120 or (ISYS 1123 with a grade of C or better)). (Typically offered: Fall, Spring and Summer)

This course is equivalent to ISYS 2103.

ISYS 2263. Principles of Information Systems. 3 Hours.

This course presents the fundamental concepts used in developing information systems. It provides a framework for students to use throughout their software development coursework. Also includes management of information systems concepts. This course requires extensive use of computer systems. Prerequisite: ACCT 2013 or WCOB 1023, and MATH 2053 each with a grade of C or better. (Typically offered: Fall and Spring)

ISYS 3293. Systems Analysis and Design. 3 Hours.

Practice and application of one structured analysis methodology; development of structured analysis specification; exposure to other methodologies; quality assurance and walkthroughs; survey of real systems and their components. Prerequisite: ISYS 2263 or CSCE 2014 with a grade of C or better. (Typically offered: Fall and Spring)

ISYS 3393. Business Application Development Fundamentals. 3 Hours.

Principles of design and development of windows and web applications using cutting edge visual development tools. The programming language will be a modern language used widely in industry, and the focus will be on its use in client-server, web, and/or mobile applications. Pre- or Corequisite: ISYS 3293. Prerequisite: ISYS 2263 or CSCE 2014 with a grade of "C" or better. (Typically offered: Fall and Spring)

ISYS 4003H. Honors Information Systems Colloquium. 3 Hours.

Explores events, concepts and/or new developments in the field of Computer Information Systems and Quantitative Analysis. Prerequisite: Senior standing. (Typically offered: Fall)

ISYS 4173. Blockchain Fundamentals. 3 Hours.

This course provides the fundamental concepts underpinning blockchain technologies. This course focuses on blockchain applications for business. Students will learn about the overall blockchain landscape, including the investments, the size of markets, major players and the global reach, as well as the potential business value of blockchain applications and the challenges that must be overcome to achieve that value. Students will learn enough about the underlying technologies to be well-prepared to develop blockchain applications in future courses. Prerequisite: ((WCOB 2023 or ISYS 2103) and ACCT 2013, each with a grade of C or better) or (CSCE 2004 with a grade of C or better). (Typically offered: Fall and Spring)

ISYS 4193. Business Analytics and Visualization. 3 Hours.

Introductory study of business analytics, visualization, and systems to provide analytics-based information derived from data within and/or external to the organization. Business analytics used to support management in the decision making. Application of tools in business analytics, problem solving, visualization, and decision making. Prerequisite: WCOB 1033 with a grade of C or better. (Typically offered: Fall)

ISYS 4213. ERP Fundamentals. 3 Hours.

An introduction to enterprise resource planning systems. Students should gain an understanding of the scope of these integrated systems that reach across organizational boundaries and can change how a company does business. Implementation issues are covered, including the importance of change management. Prerequisite: (WCOB 2023 or ISYS 2103) and (ACCT 2013 with a grade of C or better) or CSCE 2004 each with a grade of C or better. (Typically offered: Fall and Spring)

ISYS 4223. ERP Configuration and Implementation. 3 Hours.

The process of configuring and implementing an enterprise resource planning system. Business process analysis and integration. Students will develop a company and set up several modules in SAP R/3 for use. Develop understanding of how the business processes work and integrate. Prerequisite: ISYS 4213 with a grade of "C" or better. (Typically offered: Fall)

ISYS 4233. Seminar in ERP Development. 3 Hours.

ERP administration and system development practices. Advanced system support issues related to Enterprise Resource Planning systems that are used in global organizations. Basic ABAP programming. In addition, students will learn how to provide basic systems administration support of the operating system, database, and application systems software levels or ERP systems. Pre- or Corequisite: ISYS 4223 with a grade of "C" or better. (Typically offered: Spring)

ISYS 4243. Current Topics in Computer Information. 3 Hours.

Intensive investigation of selected developments in computer information systems hardware, software, and organization having current impact on computer information systems design and application. Offering an extension of lower-level CIS courses through individual student research and faculty team-teaching of advanced topics. Topical selection made with each course offering. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ISYS 4283. Business Database Systems. 3 Hours.

Introduces student to centralized information system design and implementation for business applications. In-depth study of logical systems modeling; physical file management; and software requirements. Pre- or Corequisite: ISYS 3393.

Prerequisite: ISYS 3293 with a grade of C or better. (Typically offered: Fall)

ISYS 4293. Business Intelligence. 3 Hours.

Business intelligence focuses on creating, developing and storing information and knowledge from internal and external sources to better support business decisions. We will consider techniques from machine learning, data mining, and information retrieval to extract useful knowledge from data, which could be used for business intelligence, personalization or user profiling. Prerequisite: ISYS 4193 with a grade of "C" or better. (Typically offered: Spring)

ISYS 4363. Business Project Development. 3 Hours.

Review of fundamentals of application processing systems design and development; implementation of such a system by class. Prerequisite: ISYS 3393 and ISYS 4283 each with a grade of C or better. (Typically offered: Spring)

ISYS 4373. Application Development with Java. 3 Hours.

This course covers object-oriented programming concepts and illustrates them via an appropriate object-oriented programming language. Students will be exposed to the design of software objects, creation of software objects, and the use of objects in constructing an information system. Prerequisite: ISYS 3293 with a grade of C or better. (Typically offered: Fall)

ISYS 4393. Seminar in Applied Business Analytics. 3 Hours.

Application of business analytics, business intelligence, data mining, and data visualization to business problem solving. Business Analytics techniques using current and relevant software are applied to current business problems for presentation to management. Prerequisite: ISYS 4293. (Typically offered: Fall and Spring)

ISYS 4453. Introduction to Blockchain Applications. 3 Hours.

The focus of this course is to expose students to working with mainframe computer systems, large-scale data, and blockchain software & technologies. This course provides the opportunity for students to gain valuable insight into mainframe coding concepts, SQL, and data in a mainframe operating environment. Pre- or corequisite: ISYS 4173. (Typically offered: Fall)

ISYS 4463. Blockchain Enterprise Systems Development. 3 Hours.

Accurately capturing and storing business transactions is an important processing function in many businesses. This course provides students with the necessary understanding and skills to develop blockchain and other large-scale data applications in a mainframe environment with high volume. Prerequisite: ISYS 4453 with a grade of "C" or better. (Typically offered: Spring)

ISYS 450V. Independent Study. 1-3 Hour.

Permits students on individual basis to explore selected topics in data processing and/or Quantitative Analysis. (Typically offered: Fall and Spring)

ISYS 5103. Data Analytics Fundamentals. 3 Hours.

Fundamental knowledge and skills in several major areas of business data analytics. Emphasis on the management and use of data in modern organizations, intermediate & advanced spreadsheet topics; relational databases & SQL; and programming (such as Python). Prerequisite: MIS Director approval. (Typically offered: Fall)

ISYS 511V. IT Toolkit & Skills Seminar. 1-3 Hour.

Seminar in Information Systems solutions and concepts (such as applications development, VB.NET, analysis of problems and design of solutions via application systems, etc.) designed for students entering the MIS program--may not be used for MIS degree credit. Prerequisite: MIS Director approval. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

ISYS 5133. Blockchain and E Business Development. 3 Hours.

This course explores various blockchain and e-business development technologies and then utilizes these technologies for developing a realistic application. Students will also learn strategies and use a varied web stack to build web pages that interact with blockchain platforms. Pre- or corequisite: ISYS 5173. (Typically offered: Fall)

ISYS 516V. Independent Study. 1-3 Hour.

(Formerly ISYS 450V.) Permits students on individual basis to explore selected topics in data processing and/or Quantitative Analysis. Graduate degree credit will not be given for both ISYS 450V and ISYS 516V. (Typically offered: Fall and Spring)

ISYS 5173. Blockchain Fundamentals. 3 Hours.

This course provides the fundamental concepts underpinning blockchain technologies. The focus is on blockchain applications for business. Students will learn about the overall blockchain landscape, including investments, the size of markets, major players and the global reach, as well as the potential business value of blockchain applications and the challenges that must be overcome to achieve that value. Students will learn enough about the underlying technologies to speak intelligently to technology experts and will be well-prepared to develop blockchain applications in future courses. Prerequisite: Graduate standing and departmental consent. (Typically offered: Fall and Spring)

ISYS 5203. Experimental Design. 3 Hours.

ANOVA, experimental design, introduction to basis of statistics. Prerequisite: Graduate standing and WCOB 1033 or equivalent. (Typically offered: Fall)

ISYS 5213. ERP Fundamentals. 3 Hours.

An introduction to enterprise resource planning systems. Students should gain an understanding of the scope of these integrated systems that reach across organizational boundaries and can change how a company does business. Implementation issues are covered, including the importance of change management. Prerequisite: Graduate standing. (Typically offered: Fall and Summer)

ISYS 5223. ERP Configuration and Implementation. 3 Hours.

The process of configuring and implementing an enterprise resource planning system. Business process analysis and integration. Students will develop a company and set up several modules in SAP for use. Develop understanding of how the business processes work and integrate. Prerequisite: ISYS 5213 or equivalent. (Typically offered: Fall and Spring)

ISYS 5233. Seminar in ERP Development. 3 Hours.

ERP administration and system development practices. Advanced system support issues related to Enterprise Resource Planning systems that are used in global organizations. Basic ABAP programming. In addition, students will learn how to provide basic systems administration support of the operating system, database, and application systems software levels of ERP systems. Pre- or Corequisite: ISYS 5223. Prerequisite: ISYS 5213. (Typically offered: Spring) May be repeated for up to 6 hours of degree credit.

ISYS 5243. Current Topics in Computer Information. 3 Hours.

(Formerly ISYS 4243.) Intensive investigation of selected developments in computer information systems hardware, software, and organization having current impact on computer information systems design and application. Offering an extension of lower-level CIS courses through individual student research and faculty team-teaching of advanced topics. Topical selection made with each course offering. Graduate degree credit will not be given for both ISYS 4243 and ISYS 5243. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ISYS 535V. Internship Experience. 1-6 Hour.

This course allows a student to experience an internship within a business and benefit from the work experience. The internship focuses on applications and business problems and is supervised by a faculty member as well as a member of the company/firm. Prerequisite: MIS Director approval is required. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ISYS 5363. Business Analytics. 3 Hours.

This course in managerial business analytics provides future managers with the key concepts of decision modeling and information technology management concepts. Students will learn to utilize real time operational business data, as well as quickly process and effectively leverage information. In addition, students will exercise strategic IT deployment skills for supply chain and marketing processes as well as develop strong decision modeling abilities. (Typically offered: Spring)

ISYS 5373. Application Development with Java. 3 Hours.

(Formerly ISYS 4373.) This course covers object-oriented programming concepts and illustrates them via an appropriate object-oriented programming language. Students will be exposed to the design of software objects, creation of software objects, and the use of objects in constructing an information system. Graduate degree credit will not be given for both ISYS 4373 and ISYS 5373. Prerequisite: ISYS 3293 with a grade of C or better. (Typically offered: Fall)

ISYS 5403. Quantitative Methods and Decision Making. 3 Hours.

Utilization of information, quantitative techniques, and computer application in decision making and problem solving for managers. (Typically offered: Irregular)
This course is cross-listed with SCMT 5133.

ISYS 5423. Seminar in Systems Development. 3 Hours.

Advanced study of structured systems development. Emphasis on strategies and techniques of structured analysis and structured design for producing logical systems specifications and for deriving physical systems designs. Coverage of methodologies for dealing with complexity in the development of information systems. Prerequisite: ISYS 511V. (Typically offered: Fall)

ISYS 5433. Enterprise Systems. 3 Hours.

Enterprise Systems comprises the entire class of information technology and systems that support the mission of the company including decision support and business processes. This managerial enterprise systems course focuses on strategic issues of information technology. Students study the various elements and integration of an organization's business processes; as a result, students gain an understanding and working knowledge of systems used to support these business processes and their use in decision making. In addition, students will study concepts and develop skills needed to utilize decision-centric business intelligence and knowledge management applications. (Typically offered: Spring)

ISYS 5453. Blockchain and Enterprise Data. 3 Hours.

The focus of this course is to expose students to working with distributed and service oriented architectures for different applications as well as the IT infrastructure needed. The course provides the opportunity for students to gain valuable insight into blockchain as a distributed system and cloud architecture platforms with the goal of developing enterprise applications. Prerequisite: ISYS 5133. (Typically offered: Spring)

ISYS 5463. Enterprise Transaction Systems. 3 Hours.

Being able to accurately capture and store business transactions is an important processing function in many businesses. For many large companies with high volume processing, the tools of choice for transaction processing are applied. This course provides students with the necessary understanding and skills to develop advanced applications in mainframe environment. Pre- or Corequisite: ISYS 5453 or equivalent or MIS Director approval. (Typically offered: Irregular)

ISYS 5503. Decision Support and Analytics. 3 Hours.

Analysis of the highest level of information support for the manager-user. A study of systems providing analytics-based information derived from databases within and/or external to the organization and used to support management in the decision making. Application of tools in business analytics, problem solving, and decision making. Prerequisite: MIS Director approval. (Typically offered: Fall)

ISYS 5603. Analytics and Visualization. 3 Hours.

This course focuses on how to discern and tell your story visually using data based on traditional graphical data representation as well as the latest data and information technologies. Coverage includes both visualization theory and hands-on exercises using appropriate computing tools. The course will also include visualization of predictive, clustering, and association models. The opportunities and challenges of Big Data visualization will be explored. Prerequisite: (ISYS 5503) or (ISYS 5133 and departmental consent). (Typically offered: Fall)

ISYS 5613. Business Applications of Nonparametric Techniques. 3 Hours.

Consideration of business and economic research related to sampling and experimental design, testing of hypothesis, and using nonparametric tests. Prerequisite: ISYS 5203 or equivalent. (Typically offered: Spring)

ISYS 5623. Multivariate Analysis. 3 Hours.

Principal component analysis, regression analyses. Prerequisite: ISYS 5203. (Typically offered: Spring)

ISYS 5713. Seminar in IS Topics. 3 Hours.

Intensive seminar in selected information systems topics. Topical selection made with each course offering. Prerequisite: ISYS 511V or MIS Director approval. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

ISYS 5723. Advanced Multivariate Analysis. 3 Hours.

Factor analysis and other advanced techniques. Prerequisite: ISYS 5623. (Typically offered: Irregular)

ISYS 5833. Data Management Systems. 3 Hours.

Investigation and application of advanced database concepts include database administration, database technology, and selection and acquisition of database management systems. Data modeling and system development in a database environment. Prerequisite: ISYS 5103. (Typically offered: Spring)

ISYS 5843. Seminar in Business Intelligence and Knowledge Management. 3 Hours.

Business intelligence focuses on assessing and creating information and knowledge from internal and external sources to support business decision making process. In this seminar, data mining and information retrieval techniques will be used to extract useful knowledge from data, which could be used for business intelligence, and knowledge management. Pre- or Corequisite: ISYS 5833 or equivalent. Prerequisite: ISYS 5503 or equivalent. (Typically offered: Spring)

ISYS 5933. Global Technology and Analytics Seminar. 3 Hours.

This course is designed to provide an updated, comprehensive, and rigorous treatment of emerging global topics. Includes, but is not limited to, global study experiences, business insights, and foundational perspectives; examines significant issues from global perspectives. Prerequisite: Graduate standing and MIS Director approval. (Typically offered: Summer)

ISYS 5943. Management of Information Technology Seminar. 3 Hours.

Presented in a way that allows you to play an active role in the design, use, and management of information technology. Using IT to transform the organization, as competitive strategy, and creating new relationship with other firms is included. Pre- or Corequisite: ISYS 5833. Prerequisite: ISYS 5423. (Typically offered: Spring)

ISYS 599V. Practicum Seminar. 3-6 Hour.

This course is designed to introduce and engage the student in the practice, application, and problem solving in the business environment. Hands-on application of a business problem. Students will gain experience working on, making decisions about, and developing solutions for business applications. Topics include but not limited to analytics, data, and information technology. Prerequisite: Graduate standing and MIS Director approval. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

ISYS 601V. Graduate Colloquium. 1-6 Hour.

Presentation and critique of research papers and proposals. (Typically offered: Fall and Spring)

ISYS 6133. Survey of IS Research. 3 Hours.

This is an introductory seminar in information systems research for doctoral students. Its objective is to introduce participants to major streams of IS research and discuss many of the important roles and responsibilities of an IS researcher. Also, this course will play the important role of introducing participants to the research of the current IS faculty. (Typically offered: Fall)

ISYS 6233. IS Research Projects. 3 Hours.

The students will understand the ideas underlying a scientific contribution; understand the practical challenges in designing and executing a study; Design and execute a study; Write an empirical journal article. (Typically offered: Irregular)

ISYS 6333. Individual-level Research in IS. 3 Hours.

This course aims to expose students to individual-level research in IS. It provides a window into major streams of individual-level research in IS and reference disciplines. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

ISYS 636V. Special Problems. 1-6 Hour.

Independent reading and research under supervision of senior staff member. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ISYS 6423. Structural Equation Modeling. 3 Hours.

Structural equation modeling using current tools, such as AMOS. (Typically offered: Irregular)

This course is cross-listed with SCMT 6423.

ISYS 6433. Team-level Research in IS. 3 Hours.

This course aims to expose students to team-level research in IS. It provides a window into major streams of team-level research in IS and reference disciplines. (Typically offered: Irregular)

ISYS 6533. Macro- and Meso-level IS Research. 3 Hours.

This course aims to expose students to research at the macro- and meso-levels. For example, it could provide a window into major streams of organizational-level research in IS and reference disciplines. Topics could also include: change management, ERP research models, implementation, applications, and successes/failures, and ERP simulation models. Other topics that fall within the purview of the course are: large-scale technology and process innovations in organizations--e.g., software development process innovations and RFID will be examined at various levels (e.g., organizational). (Typically offered: Irregular)

ISYS 6633. Systems Development. 3 Hours.

The course provides an in-depth study of systems development as an area of research, understanding of the theoretical and conceptual foundations, insight into the current state of the research area, utilizes both IS and reference discipline literature as appropriate, guidance for conducting research projects and producing publishable research, an opportunity to work on cutting-edge research. (Typically offered: Irregular)

ISYS 6733. Emerging Topics. 3 Hours.

Various emerging topics, such as RFID applications and RFID supply chain, ethical decision models, behavioral modeling, piracy and privacy issues, and virtual worlds. (Typically offered: Irregular) May be repeated for up to 15 hours of degree credit.

ISYS 6833. Theory Development. 3 Hours.

To acquire theory development and writing skills, to understand challenges in developing and writing theory sections of papers, and to discuss approaches to writing good empirical journal articles. This course is suited for all social sciences students and is particularly appropriate for students conducting behavioral research in the business disciplines. (Typically offered: Irregular)

ISYS 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Interdisciplinary Studies (IDST) Courses

IDST 2003. Introduction to Interdisciplinary Studies. 3 Hours.

Introduces students to the concept of interdisciplinary studies. May be taken by students considering pursuit of an Interdisciplinary Studies major or by students in their first semester following acceptance into the program. Required of all Interdisciplinary Studies majors. (Typically offered: Fall)

Interior Design (IDES) Courses

IDES 1003. Basic Course in the Arts: Interior Design Lecture. 3 Hours.

A general introduction to the field and the profession of interior design, as well as increasing the student's appreciation of the relationship between the enclosing architecture of the space and the interior environment. (Typically offered: Fall and Summer)

IDES 1003H. Honors Basic Course in the Arts: Interior Design Lecture. 3 Hours.

A general introduction to the field and the profession of interior design, as well as increasing the student's appreciation of the relationship between the enclosing architecture of the space and the interior environment. (Typically offered: Fall and Summer)

This course is equivalent to IDES 1003.

IDES 1035. Fundamental Design Skills. 5 Hours.

Fundamental design skills; development of visual and verbal communication skills including observation skills, design technologies, analysis and representation in both 2-dimensions and 3-dimensions through analog and digital tools; creative and critical thinking skills. (Typically offered: Fall and Summer)

IDES 1045. Fundamental Design Methodology. 5 Hours.

Fundamental design skills; use of precedents for understanding principles of design and natural and formal ordering systems; design development using both iterative and alternative methods of exploration in 2-dimensions and 3-dimensions using analog and digital tools; continued development of visual and verbal communication skills. Prerequisite: IDES 1035. (Typically offered: Spring and Summer)

IDES 2723. Digital Media in Design. 3 Hours.

Develops conceptual and practical knowledge of digital techniques on architectural and interior design production. The aim is to provide a foundation in digital modeling, drawings, renderings, and an introduction to digital fabrication. Prerequisite: Interior Design majors only. (Typically offered: Fall)

IDES 2804. Interior Design Studio III. 4 Hours.

An introduction to interior space articulation and the creation of small scale spaces. Components of various presentation methods and formats. Overnight travel requires additional fees. Prerequisite: IDES 1045. (Typically offered: Fall)

IDES 2814. Interior Design Studio IV. 4 Hours.

Studio activities with emphasis on conceptualization, design theory and applications, ideation, programming and computer application. Overnight travel required. Prerequisite: IDES 2804. (Typically offered: Spring)

IDES 2823. Interior Design Materials and Assemblies. 3 Hours.

A study of materials, resources and assemblies used in interior spaces. (Typically offered: Fall)

IDES 2823H. Honors Interior Design Materials and Assemblies. 3 Hours.

A study of materials, resources and assemblies used in designing interior spaces. (Typically offered: Fall)

This course is equivalent to IDES 2823.

IDES 2883. History of Interior Design. 3 Hours.

Study of historic interiors and furniture from antiquity through the present day. Identification of interior styles and furniture of these eras is emphasized. (Typically offered: Spring)

IDES 2883H. Honors History of Interior Design. 3 Hours.

Study of historic interiors and furniture from antiquity through the present day. Identification of interior styles and furniture of these eras is emphasized. (Typically offered: Spring)

This course is equivalent to IDES 2883.

IDES 3805. Interior Design Studio V. 5 Hours.

Emphasis on residential and/or commercial building systems. Continued development of presentation skills including hand and computer-based techniques. Prerequisite: IDES 2814. (Typically offered: Fall)

IDES 3815. Interior Design Studio VI. 5 Hours.

Advanced studio problems involving larger-scale interior spaces and contract documents for public use. Overnight field trip requires additional fees. Prerequisite: IDES 3805. (Typically offered: Spring)

IDES 3833. Building Systems for Interior Design. 3 Hours.

A survey course of building systems that addresses the design implications of heating/air conditioning/ventilation, plumbing, power, data/voice/and telecommunications, fire protection, security, and acoustical systems on building interiors. Performance characteristics and sustainable technologies will be addressed. Prerequisite: IDES 2814 and IDES 2823. (Typically offered: Spring)

IDES 3833H. Honors Building Systems for Interior Design. 3 Hours.

A survey course of building systems that addresses the design implications of heating/air conditioning/ventilation, plumbing, power, data/voice/and telecommunications, fire protection, security, and acoustical systems on building interiors. Performance characteristics and sustainable technologies will be addressed. Prerequisite: IDES 2814 and IDES 2823. (Typically offered: Spring)

This course is equivalent to IDES 3833.

IDES 3843. Lighting Systems. 3 Hours.

Exploration of interior design applications of lighting systems. (Typically offered: Spring)

IDES 3843H. Honors Lighting Systems. 3 Hours.

Exploration of interior design applications of lighting systems. Prerequisite: Honors standing. (Typically offered: Spring)

This course is equivalent to IDES 3843.

IDES 465V. Special Topics. 1-6 Hour.

A focused study of specialized topics in interior design. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

IDES 4805. Interior Design Studio VII. 5 Hours.

Comprehensive design studio synthesizing design skills, knowledge and critical thinking skills with emphasis on research, programming and process. Prerequisite: IDES 3815 and IDES 4823. (Typically offered: Fall)

IDES 4811. Internship for Interior Design. 1 Hour.

Supervised work experience and observation of operations/management procedures in approved design, government or service business. Prerequisite: IDES 3815. (Typically offered: Summer)

IDES 4813. Human Factors for Design. 3 Hours.

Emphasis is given to human behavior as applied to the design disciplines. Types of interior spaces, environmental effects on behavior, ergonomics, and design needs of special groups, and human factors programs are studied. Lecture 3 hours per week. Prerequisite: Completion of any two of the following: ANTH 1023, SOCI 2013, PSYC 2003, HDFS 1403 or GEOS 1123. (Typically offered: Fall)

IDES 4813H. Honors Human Factors for Design. 3 Hours.

Emphasis is given to human behavior as applied to interior design. Types of interior spaces, environmental effects on behavior, ergonomics, interior design needs of special groups, and human factors programs are studied. Lecture 3 hours per week. Prerequisite: Completion of any two of the following: ANTH 1023, SOCI 2013, PSYC 2003, HDFS 1403 or GEOS 1123. (Typically offered: Spring)

This course is equivalent to IDES 4813.

IDES 4815. Interior Design Studio VIII. 5 Hours.

Comprehensive design studio synthesizing design skills, knowledge, and critical thinking skills developed in previous design studios, including ideation, programming, construction, and human factors. Prerequisite: IDES 4805. (Typically offered: Spring)

IDES 4815H. Honors Interior Design Studio VIII. 5 Hours.

Comprehensive design studio synthesizing design skills, knowledge, and critical thinking skills developed in previous design studios, including ideation, programming, construction, and human factors. Prerequisite: IDES 4805. (Typically offered: Spring)

This course is equivalent to IDES 4815.

IDES 4823. Professional Practice for Interior Design. 3 Hours.

General procedures for operating and maintaining an interior design business. Business documentation, communication, professional responsibilities and ethics. Corequisite: IDES 3805. (Typically offered: Fall)

IDES 4823H. Honors Professional Practice for Interior Design. 3 Hours.

General procedures for operating and maintaining an interior design business. Business documentation, communication, professional responsibilities and ethics. Corequisite: IDES 3805. (Typically offered: Fall)

This course is equivalent to IDES 4823.

IDES 485V. Design Tours. 1-3 Hour.

Domestic and international study tours of a variety of design locations that contribute to the body of knowledge. Prerequisite: IDES 2814. (Typically offered: Irregular)

IDES 4943. Perspectives on Historic Preservation. 3 Hours.

Introduction of history, theory, and praxis of preservation design, emphasizing development and implementation of preservation projects in the practices of architecture, landscape architecture and interior design. Central themes include: preservation as a form of design; principles, rationales, and ideologies associated with preservation practice; and sustainable strategies for preservation design. Prerequisite: ARCH 2233 and ARCH 2243 or LARC 3413 and LARC 4413 or IDES 2883. (Typically offered: Fall)

This course is cross-listed with LARC 4943, ARCH 4943.

International Studies (INST)

Courses

INST 2013. Introduction to International and Global Studies. 3 Hours.

A historical and contemporary overview of the relations and interactions between peoples across borders, between cultures and societies, states and non-state actors, governments and non-governmental organizations, and economies, both local and global. Focus on differing disciplinary approaches to international and global studies, the transformations caused by the process of globalization, and a survey of current global issues and problems. (Typically offered: Fall and Spring)

INST 300V. Internship in International Studies. 1-6 Hour.

Internship in international studies-related agency or organization, arranged by the student and/or faculty member, under the guidance of a faculty member. (Typically offered: Summer) May be repeated for up to 6 hours of degree credit.

INST 3303. European Integration and Globalization. 3 Hours.

Interdisciplinary study of the cultural, economic, and political processes of modern European integration in the context of a changing relationship between Europe and the wider world during the 20th and 21st centuries. (Typically offered: Fall Even Years)

INST 3503. Issues in the Global South. 3 Hours.

Interdisciplinary study of salient historical and contemporary issues of the Global South, including the cultural, economic, and political forces that shape and/or emerge from societies or political subjects that historically experienced underdevelopment and colonialism. (Typically offered: Fall Odd Years)

INST 3603. Universal Human Rights: History and Practice since 1945. 3 Hours.

Study of the development and growth of the universal human rights movement since the end of the Second World War. Emphasis on using human rights as a lens to understand and assess global affairs in the late 20th and early 21st centuries. (Typically offered: Spring Even Years)

INST 3673. Social Entrepreneurship. 3 Hours.

Explores notions of social entrepreneurship at both the global and local levels. Multiple case studies are analyzed to show the possibilities of participating in a market economy while promoting sustainable development. Students will undertake projects combining sound business practices with sustainable approaches to social challenges. Prerequisite: Junior standing. (Typically offered: Fall and Spring)
This course is cross-listed with MGMT 3673.

INST 399VH. Honors Thesis. 1-6 Hour.

To be used for completing an International Studies Honors Thesis. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

INST 4003. International Studies Seminar. 3 Hours.

The capstone course in international studies involves intensive study of major global trends and issues. Students choose a research project culminating in a senior thesis to meet the College writing requirement. Prerequisite: PLSC 2813 or INST 2013 or equivalent. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

INST 4003H. Honors International Studies Seminar. 3 Hours.

The capstone course in international studies involves intensive study of major global trends and issues. Students choose a research project culminating in a senior thesis to meet the College writing requirement. Prerequisite: PLSC 2813 or INST 2013 or equivalent. (Typically offered: Fall and Summer) May be repeated for up to 6 hours of degree credit.

This course is equivalent to INST 4003.

INST 406V. Independent Study in International Studies. 1-6 Hour.

Independent study in international studies. Arranged in agreement and under the guidance of a faculty member. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

INST 4103. Geography of Political Violence. 3 Hours.

This seminar focuses on the rise of civil conflict in the post-World War II world. We are particularly interested in understanding the institutional challenges facing countries that experience such conflict. The class will develop a contextually-informed understanding of the international system and how it is shaped by civil war. Pre- or Corequisite: INST 2013. Prerequisite: Junior or senior standing. (Typically offered: Fall Even Years)
This course is cross-listed with GEOS 4493.

INST 4103H. Honors Geography of Political Violence. 3 Hours.

This seminar focuses on the rise of civil conflict in the post-World War II world. We are particularly interested in understanding the institutional challenges facing countries that experience such conflict. The class will develop a contextually-informed understanding of the international system and how it is shaped by civil war. Pre- or Corequisite: INST 2013. Prerequisite: Junior or senior standing and honors standing. (Typically offered: Fall Even Years)
This course is cross-listed with GEOS 4493, INST 4103.

INST 4603. Peace Studies: Approaches and Theory. 3 Hours.

Exploration of key theories, concepts, and methodological approaches within the interdisciplinary field of peace studies. Emphasis on historical and contemporary concepts of peace, conflict, violence, and justice; the institutions, legal frameworks, and intercultural norms facilitating peace; and the practical application of theory to strategic peace building. (Typically offered: Spring Odd Years)

INST 4653. International Food Security and Food Sovereignty. 3 Hours.

Explores the concepts of food security and food sovereignty and the ways in which humans have addressed issues related to hunger. Focus on the contemporary international cultural, social, and political discussion of future problems and solutions. (Typically offered: Irregular)

INST 4693. Approaching Global History. 3 Hours.

Explores theoretical perspectives on global history through a treatment of the historiographical development of the field, readings of landmark texts, and selected case studies of global themes. (Typically offered: Irregular)
This course is cross-listed with HIST 4693.

INST 4873. International Communication and Globalization. 3 Hours.

Examines aspects of international communication and the impact of globalization on the production, dissemination, and consumption of media technology and messages. (Typically offered: Irregular)

INST 4893. International Negotiation and Mediation. 3 Hours.

This course examines international negotiations and mediation. International negotiation refers to the processes and methods by which state and non-state actors reach agreements through persuasion and similar non-violent means. This course analyzes the processes, methods, and mechanisms, and challenges of international negotiations and the growing use of mediation. (Typically offered: Irregular)
This course is cross-listed with PLSC 4893.

Italian (ITAL)

Courses

ITAL 1003. Elementary Italian I. 3 Hours.

Elementary Italian I. (Typically offered: Fall)

ITAL 1013. Elementary Italian II. 3 Hours.

Elementary courses stress correct pronunciation, aural comprehension, and simple speaking ability, and lead to active mastery of basic grammar and limited reading ability. (Typically offered: Spring)

ITAL 2003. Intermediate Italian I. 3 Hours.

Intermediate courses lead to greater facility in spoken language and to more advanced reading skills. (Typically offered: Fall)

ITAL 2013. Intermediate Italian II. 3 Hours.

Continued development of basic speaking comprehension, and writing skills and intensive development of reading skills. (Typically offered: Spring)

ITAL 3033. Italian Conversation. 3 Hours.

Three hours per week of guided conversation practice for the post-intermediate student. Prerequisite: ITAL 2013. (Typically offered: Fall)

ITAL 3103. Italian Cinema. 3 Hours.

Examines Italian culture (history, language, politics, religion, and society) through the lens of the camera. Content begins with the 1860's, covers the Unification of Italy, and continues to contemporary Italy. Students will analyze and examine diverse cultural themes within films. (Typically offered: Fall)

ITAL 3113. Introduction to Literature. 3 Hours.

Development of reading skills and introduction to literary analysis. Prerequisite: ITAL 2013 or equivalent. (Typically offered: Spring) May be repeated for up to 3 hours of degree credit.

ITAL 3123. Advanced Italian. 3 Hours.

Further intensive development of writing, listening and speaking skills. It will include a review of the essentials of Italian grammar. Prerequisite: ITAL 2013 or equivalent. (Typically offered: Spring)

ITAL 3983. Special Studies. 3 Hours.

May be offered in a subject not specifically covered by courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

ITAL 4033. Advanced Italian Conversation. 3 Hours.

Conversation practice for advanced undergraduates. Intended to refine language comprehension while providing in-depth understanding of Italian life and culture. Prerequisite: ITAL 3033 or ITAL 3113 or instructor consent. (Typically offered: Fall)

ITAL 475V. Special Investigations. 1-6 Hour.

Special investigation of one or more topics related to the Italian language. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Japanese (JAPN) Courses

JAPN 1003. Elementary Japanese I. 3 Hours.

Designed for true beginners of Japanese, this course aims to introduce general concepts of the Japanese language: the writing system, basic conversational expressions, vocabulary, and sentence patterns. (Typically offered: Fall)

JAPN 1013. Elementary Japanese II. 3 Hours.

Elementary courses stress correct pronunciation, aural comprehension, and simple speaking ability, and lead to active mastery of basic grammar and limited reading ability. (Typically offered: Spring)

JAPN 1116. Intensive Elementary Japanese. 6 Hours.

Equivalent to JAPN 1003 and JAPN 1013. Intended for true beginners of Japanese who have never learned or spoken the language before. Emphasis on all skill areas: correct pronunciation, aural comprehension, speaking ability, reading, and writing. Focuses on developing the students' command of Japanese sentence patterns and vocabulary. (Typically offered: Spring)

JAPN 2003. Intermediate Japanese I. 3 Hours.

Intermediate courses lead to greater facility in spoken language and to more advanced reading skills. (Typically offered: Fall)

JAPN 2013. Intermediate Japanese II. 3 Hours.

Continued development of basic reading comprehension and writing skills and intensive development of reading skills. Prerequisite: JAPN 2003 or equivalent. (Typically offered: Spring)

JAPN 2013H. Honors Intermediate Japanese II. 3 Hours.

Continued development of basic reading comprehension and writing skills and intensive development of reading skills. Prerequisite: JAPN 2003 or equivalent. (Typically offered: Spring)
This course is equivalent to JAPN 2013.

JAPN 2022. Intermediate Conversation I. 2 Hours.

Supplemental to JAPN 2003. Provides 2 hours of guided conversation per week with the objective of building the listening/speaking skills. (Typically offered: Irregular)

JAPN 2032. Intermediate Conversation II. 2 Hours.

Supplemental to JAPN 2013. Provides 2 hours of guided conversation per week with the objective of building the listening/speaking skills. (Typically offered: Fall and Spring)

JAPN 2116. Intensive Intermediate Japanese. 6 Hours.

Equivalent to JAPN 2003 and JAPN 2013. Emphasizes intensive oral/aural drills and reading/speaking exercises and intensive grammar drills. Prerequisite: JAPN 1013 or equivalent. (Typically offered: Irregular)

JAPN 3003. Advanced Japanese I. 3 Hours.

Introduces more complex forms and structures of the language as well as more Kanji (Chinese Characters) aiming at the improvement of all the skills: speaking, listening, writing and reading. Prerequisite: JAPN 2013. (Typically offered: Irregular)

JAPN 3003H. Honors Advanced Japanese I. 3 Hours.

Introduces more complex forms and structures of the language as well as more Kanji (Chinese Characters) aiming at the improvement of all the skills: speaking, listening, writing and reading. Prerequisite: JAPN 2013. (Typically offered: Irregular)
This course is equivalent to JAPN 3003.

JAPN 3013. Advanced Japanese II. 3 Hours.

Continuation of JAPN 3003 with more complex forms and structures of the language as well as more Kanji (Chinese Characters) aiming at the improvement of all the skills: speaking, listening, writing and reading. Prerequisite: JAPN 3003. (Typically offered: Irregular)

JAPN 3013H. Honors Advanced Japanese II. 3 Hours.

Continuation of JAPN 3003 with more complex forms and structures of the language as well as more Kanji (Chinese Characters) aiming at the improvement of all the skills: speaking, listening, writing and reading. Prerequisite: JAPN 3003. (Typically offered: Irregular)
This course is equivalent to JAPN 3013.

JAPN 3033. Advanced Japanese Conversation. 3 Hours.

Conversational practice for advanced learners of Japanese. Designed primarily for students who intend to use Japanese in business and other formal settings. Honorific and humble expressions will be emphasized. Prerequisite: JAPN 2013. (Typically offered: Spring)

JAPN 3033H. Honors Advanced Japanese Conversation. 3 Hours.

Conversational practice for advanced learners of Japanese. Designed primarily for students who intend to use Japanese in business and other formal settings. Honorific and humble expressions will be emphasized. Prerequisite: JAPN 2013. (Typically offered: Fall)
This course is equivalent to JAPN 3033.

JAPN 3103. Advanced Reading in Japanese. 3 Hours.

Designed to build vocabulary and to strengthen students' Japanese reading skills through extensive practice with authentic materials such as readings of on-line newspapers, advertisements, Web pages, and excerpts from Japanese Haiku poetry and literature. Prerequisite: JAPN 3013 or JAPN 3116, or equivalent Japanese proficiency. (Typically offered: Fall)

JAPN 3103H. Honors Advanced Reading in Japanese. 3 Hours.

Designed to build vocabulary and to strengthen students' Japanese reading skills through extensive practice with authentic materials such as readings of on-line newspapers, advertisements, Web pages, and excerpts from Japanese Haiku poetry and literature. Prerequisite: JAPN 3013 or JAPN 3116, or equivalent Japanese proficiency. (Typically offered: Fall)
This course is equivalent to JAPN 3103.

JAPN 3116. Intensive Advanced Japanese. 6 Hours.

This course aims to improve students' Japanese proficiency further in all skill areas through intensive practice. Prerequisite: JAPN 2013 or equivalent Japanese proficiency. (Typically offered: Fall)

JAPN 3116H. Honors Intensive Advanced Japanese. 6 Hours.

This course aims to improve students' Japanese proficiency further in all skill areas through intensive practice. Prerequisite: JAPN 2013 or equivalent Japanese proficiency. (Typically offered: Fall)

This course is equivalent to JAPN 3116.

JAPN 3983. Special Studies. 3 Hours.

May be offered in a subject not specifically covered by courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

JAPN 3983H. Honors Special Studies. 3 Hours.

May be offered in a subject not specifically covered by courses otherwise listed. Prerequisite: Honors candidacy. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

This course is equivalent to JAPN 3983.

JAPN 4033. Oral Communication & Composition in Japanese. 3 Hours.

Designed to strengthen Japanese language skills in oral communication and writing. Consists of conversational activities, presentations and debates, and composition in settings such as business, school, and everyday life. Prerequisite: JAPN 3013 or JAPN 3116, or equivalent Japanese proficiency. (Typically offered: Fall)

JAPN 4033H. Honors Oral Communication & Composition in Japanese. 3 Hours.

Designed to strengthen Japanese language skills in oral communication and writing. Consists of conversational activities, presentations and debates, and composition in settings such as business, school, and everyday life. Prerequisite: JAPN 3013 or JAPN 3116, or equivalent Japanese proficiency. (Typically offered: Fall)

This course is equivalent to JAPN 4033.

JAPN 4213. Japanese Culture. 3 Hours.

Insight into Japanese civilization and culture with special emphasis on the areas such as social life and environment, education, religion and customs, and visual and performing arts. This course also discusses western influence on Japanese society, culture and language and how traditional and modern values are manifested in Japanese society. Prerequisite: JAPN 2013. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

JAPN 4313. Language and Society of Japan. 3 Hours.

The primary objective of this course is to investigate the way the Japanese language reflects the beliefs and custom of the Japanese people as a social group. For comparison purposes, this course makes reference to studies in American language and culture. Proficiency in Japanese not required. Prerequisite: Junior standing. (Typically offered: Fall)

JAPN 4313H. Honors Language and Society of Japan. 3 Hours.

The primary objective of this course is to investigate the way the Japanese language reflects the beliefs and custom of the Japanese people as a social group. For comparison purposes, this course makes reference to studies in American language and culture. Proficiency in Japanese not required. Prerequisite: Junior standing. (Typically offered: Fall)

This course is equivalent to JAPN 4313.

JAPN 4333. Professional Japanese I: Business Writing. 3 Hours.

This course aims to familiarize the students with formats, vocabulary, and expressions in Japanese business correspondence. Emphasizes career-ready Japanese language proficiency. Prerequisite: JAPN 3116 or equivalent Japanese proficiency. (Typically offered: Spring)

JAPN 4333H. Honors Business Writing in Japanese. 3 Hours.

This course aims to familiarize the students with formats, vocabulary, and situationally specific expressions in Japanese business correspondence. Prerequisite: JAPN 2013 or equivalent Japanese proficiency. (Typically offered: Spring)

This course is equivalent to JAPN 4333.

JAPN 4343. Professional Japanese II: Translation. 3 Hours.

Continuation of Professional Japanese I. Emphasizes translation, career-ready Japanese language proficiency, and further advancement of Japanese language proficiency in all skill areas. Completion of a professional translation project based on contemporary material is required. Prerequisite: JAPN 4333 or equivalent. (Typically offered: Fall)

JAPN 4343H. Honors Professional Japanese II: Translation. 3 Hours.

Continuation of Professional Japanese I. Emphasizes translation, career-ready Japanese language proficiency, and further advancement of Japanese language proficiency in all skill areas. Completion of a professional translation project based on contemporary material is required. Prerequisite: JAPN 4333 or equivalent. (Typically offered: Fall)

This course is equivalent to JAPN 4343.

JAPN 5313. Language and Society of Japan. 3 Hours.

(Formerly JAPN 4313.) The primary objective of this course is to investigate the way the Japanese language reflects the beliefs and custom of the Japanese people as a social group. For comparison purposes, this course makes reference to studies in American language and culture. Proficiency in Japanese not required. Graduate degree credit will not be given for both JAPN 4313 and JAPN 5313. (Typically offered: Fall)

JAPN 5333. Professional Japanese I: Business Writing. 3 Hours.

(Formerly JAPN 4333.) This course aims to familiarize the students with formats, vocabulary, and expressions in Japanese business correspondence. Emphasizes career-ready Japanese language proficiency. Graduate degree credit will not be given for both JAPN 4333 and JAPN 5333. Prerequisite: JAPN 3116 or equivalent Japanese proficiency. (Typically offered: Spring)

Jewish Studies (JWST) Courses

JWST 2003. Introduction to Judaism. 3 Hours.

An introduction to the practices, teachings, and scriptures of Judaism, focusing on the post-Biblical period up to the present. (Typically offered: Fall Odd Years)

JWST 3103. Introduction to Jewish Languages. 3 Hours.

An introduction to the alphabet, grammar, syntax, and basic vocabulary of Hebrew, Jewish Aramaic and Yiddish. (Typically offered: Fall Even Years)

JWST 4003. Modern Jewish Thought. 3 Hours.

A survey of the main trends in Jewish thought from the seventeenth through the nineteenth century. (Typically offered: Irregular)

This course is cross-listed with PHIL 4103.

JWST 4013. Contemporary Jewish Thought. 3 Hours.

A survey of trends in Jewish thought in the twentieth and twenty-first centuries, focusing on the ways in which Jewish thinkers have responded to the events affecting Jews and the conditions of Jewish life in from approximately 1900 to the present. (Typically offered: Spring Odd Years)

This course is cross-listed with PHIL 4313.

JWST 470V. Special Topics in Jewish Studies. 1-3 Hour.

Irregular course offerings that focus on a specialized area of Jewish Studies not covered in depth in regular JWST or affiliated courses. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

JWST 475V. Independent Investigations in Jewish Studies. 1-3 Hour.

This course can be offered to allow a student to pursue reading and research on a topic of interest not covered in regular JWST courses. Prerequisite: Instructor consent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Journalism (JOUR)

Courses

JOUR 1003. Journalistic Writing Skills. 3 Hours.

Provides a functional approach to improving language and writing skills specific to journalistic writing. Covers introductory journalistic writing and correct grammar usage, the logic governing syntax and punctuation use, analysis of grammar and syntax, sentence structure, word selection to convey proper meaning, memory aids, and other language topics relevant to journalistic writing. (Typically offered: Fall and Spring)

JOUR 1023. Media and Society. 3 Hours.

A survey of mass media (newspaper, radio, TV, magazine, advertising, public relations, photography, etc.) which stresses their importance in today's society and introduces the student to the various areas in journalism. Recommended for students considering journalism as a major. Prerequisite: Journalism major, Journalism minor, or department consent. (Typically offered: Fall and Spring)

JOUR 1033. Fundamentals of Journalism. 3 Hours.

Introduces students to the skills of observation, critical thinking and concise writing required in all aspects of journalism, as well as to the technology needed in upper-level courses. Practice using references for grammar and journalistic style. A prerequisite to JOUR 2013, JOUR 2032, JOUR 2063 and JOUR 4143. Corequisite: Lab component. Prerequisite: Journalism major, Journalism minor, or department consent. (Typically offered: Fall, Spring and Summer)

JOUR 2003. Writing for Today's Media. 3 Hours.

Writing preparation for newspaper, broadcast, online, public relations and social media. Emphasizes clear writing, prioritizing and synthesizing information, performance on deadline pressure, and writing style differences among media. Focuses on reporting, research, interviewing, grammar, Associated Press style, and concise writing. Explores news bias, fairness, multi-platform journalism and ethics. Prerequisite: JOUR 1023 and JOUR 1033 with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 2013. News Reporting I. 3 Hours.

Intensive training in the methods of gathering and writing news. Lecture 2 hours, laboratory 2 hours per week. Prerequisite: JOUR 1023 and JOUR 1033, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 2013H. Honors News Reporting I. 3 Hours.

Intensive training in the methods of gathering and writing news. Lecture 2 hours, laboratory 2 hours per week. Prerequisite: Honors standing, JOUR 1023 and JOUR 1033, each with a grade of C or better. (Typically offered: Fall and Spring)
This course is equivalent to JOUR 2013.

JOUR 2031L. Broadcast News Reporting I Laboratory. 1 Hour.

Provides experience in basic broadcast news reporting techniques. Laboratory 3 hours per week. Corequisite: JOUR 2032. Prerequisite: JOUR 1033 with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 2032. Broadcast News Reporting I. 2 Hours.

Intensive training in the methods of gathering and writing broadcast news. Lecture 2 hours per week. Corequisite: JOUR 2031L. Prerequisite: Sophomore standing and JOUR 1033 with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 2053. Multimedia Journalism. 3 Hours.

Provides students with the skills of visual literacy, photo editing, audio processing, video editing and web publishing. Good writing will be emphasized. The course examines basic aesthetic principles in visual composition and techniques applicable to audio, video and web production. Prerequisite: JOUR 1023 and JOUR 1033, each with a grade of C or better, and completion of the GSP requirement. (Typically offered: Fall and Spring)

JOUR 2063. Media Technology. 3 Hours.

Introduction to computer skills required in journalism; focus is training in the major computer software used in the profession. Prerequisite: JOUR 1023 and JOUR 1033, each with a grade of C or better. (Typically offered: Fall and Summer)

JOUR 2331L. Photojournalism I Laboratory. 1 Hour.

Photojournalism 1 Lab involves the transfer of images from a digital camera to a computer, and involves the use of image editing and enhancing software as well as layout and design software. Corequisite: JOUR 2332. (Typically offered: Fall)

JOUR 2332. Photo Journalism I. 2 Hours.

Beginning course in the fundamentals of photography, including digital photography, composition, file transfer and management, image enhancement, and layout and design. Corequisite: JOUR 2331L. (Typically offered: Fall)

JOUR 2453. Introduction to Sports Television Production I. 3 Hours.

Introduction to the specialized field of sports television production. Focuses on multi-camera, single-camera and studio production. Studio lab and field work outside of regularly scheduled class time required. (Typically offered: Fall)

JOUR 3013. Editing. 3 Hours.

Theories and practices in newspaper editing, copyreading, headline writing, page layout and the gathering and publication of written and pictorial information. Prerequisite: JOUR 1023 and JOUR 2013, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 3023. News Reporting II. 3 Hours.

Continuation of JOUR 2013. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: JOUR 2013 with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 3071L. Broadcast News Reporting II Laboratory. 1 Hour.

Continuation of JOUR 2031L. Including advanced skills in broadcast news techniques. Corequisite: JOUR 3072. Prerequisite: JOUR 2032 and JOUR 2031L, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 3072. Broadcast News Reporting II. 2 Hours.

Continuation of JOUR 2032. Including advanced methods of gathering and writing broadcast news. Corequisite: JOUR 3071L. Prerequisite: JOUR 2032 and JOUR 2031L, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 3083. Photojournalism II. 3 Hours.

Study of news and feature photography. Includes planning and shooting photographs for newspapers and magazines, and instills in the student photojournalistic techniques, and ethical considerations of photographing for publication. Includes producing multimedia presentations and working with audio as well as still images. Lecture 3 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: JOUR 2332 and JOUR 2331L, each with a grade of C or better. (Typically offered: Spring)

JOUR 3093. Presentation Design for Journalism, Advertising and Public Relations. 3 Hours.

Covers presenting stories, campaigns and other ideas via traditional and new media. Covers web and paper presentations using leading design software. (Typically offered: Spring)

JOUR 3123. Feature Writing. 3 Hours.

Study of non-fiction newspaper and magazine feature articles with emphasis on locating subjects, and on writing techniques and practice in article writing. Prerequisite: JOUR 2013 with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 3163. Sports Journalism. 3 Hours.

Emphasis on techniques and principles of coverage of sports and sports-related subjects on and off the field, and on the relationship between sports and the mass media. (Typically offered: Fall)

JOUR 3263. African Americans in Film. 3 Hours.

A survey of the history of images of African Americans in film, especially as these images are examined in the context of stereotypical renditions and/or realistic representations of African American experiences. Issues of African American history, culture, and socio-political context will be addressed in the analyses of these films. Prerequisite: ENGL 1023 and junior or senior standing. (Typically offered: Irregular) This course is cross-listed with AAST 3263, ENGL 3263, COMM 3263.

JOUR 3273. African Americans in Documentary Film. 3 Hours.

Exploration of the African-American image and experience in the context of time, historical record and varying production viewpoints from diverse documentarians. African-American history, culture and socio-political context are addressed in the analyses of these documentary films from the perspectives of mainstream media, independent filmmakers and minority documentarians. Prerequisite: Junior or senior standing. (Typically offered: Spring)

This course is cross-listed with AAST 3273, COMM 3273.

JOUR 3453. Sports Television Production II. 3 Hours.

Advanced production techniques in the specialized field of sports television production. Focuses on multi-camera, single-camera and studio production. Studio lab and field work outside of regularly scheduled class time required. Prerequisite: JOUR 2453 with a grade of C or better, or instructor consent. (Typically offered: Irregular)

JOUR 3633. Media Law. 3 Hours.

Constitutional guarantees, statutory laws and court cases applicable to mass communications. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

JOUR 3723. Advertising Principles. 3 Hours.

Introductory course to the broad field of advertising. The course includes a study of the role of advertising in modern society with emphasis being given to the extent and manner of use of advertising in newspapers, magazines, radio, television, and other media. Prerequisite: Minimum of 60 hours completed, 2.5 overall grade point average, and completion of JOUR 1033 with a grade of C or better; no in-progress hours or coursework accepted. (Typically offered: Fall and Spring)

JOUR 3733. Covering the Courts. 3 Hours.

Explores the mechanics of covering trials and other aspects of legal affairs reporting. Prerequisite: JOUR 3633 with a grade of C or better. (Typically offered: Spring)

JOUR 3743. Public Relations Principles. 3 Hours.

Study of theory, methods, and ethics of public relations in modern society, business, and communications. Influencing opinion through acceptable performance and 2-way communication. Recommended for students in many fields. Prerequisite: Minimum of 60 hours completed, 2.5 overall grade point average, and completion of JOUR 1033 with a grade of C or better; no in-progress hours or coursework accepted. (Typically offered: Fall and Spring)

JOUR 3923H. Honors Colloquium. 3 Hours.

Covers a special topic or issue, offered as a part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in journalism). (Typically offered: Fall and Spring) May be repeated for degree credit.

JOUR 401V. Advanced Journalistic Practices. 1-4 Hour.

Study of advanced journalistic practices and methods, individual or group projects. Prerequisite: Junior standing and 10 hours of journalism and a 2.5 cumulative grade average. (Typically offered: Fall and Spring)

JOUR 402V. Internship in Journalism. 1-3 Hour.

Credit for practical experience gained through a journalistic internship. Report required on significant aspect of internship experience. Prerequisite: JOUR major and junior standing and 10 hours JOUR and 2.50 cumulative grade point average. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

JOUR 4033. Advanced Radio News Reporting. 3 Hours.

Intensive training in the production of in-depth, public radio style news stories. Prerequisite: JOUR 2032 and JOUR 2031L, each with a grade of C or better. (Typically offered: Spring)

JOUR 4043. Government and the Media. 3 Hours.

Focuses on the links between mass media and government and the increasingly significant role of media in politics and government. Examines the power, responsibility, and performance of the press and public officials/government agencies in their relationship with each other. Prerequisite: Junior standing. (Typically offered: Fall)

JOUR 405V. Specialized Journalism Seminar. 1-3 Hour.

Primary purpose of course is to enlarge the journalistic skills of students interested in advanced forms of mass communication. Students undertake projects related to particular aspects or problems of journalism. Content varies. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

JOUR 4063. Computer-Assisted Publishing. 3 Hours.

In-depth, hands-on exploration of computer hardware and software in the design and production of media messages. Examination of developing media technologies and the computer's influence on design and conceptualization. (Typically offered: Irregular)

JOUR 4073. Social Media and Journalism. 3 Hours.

Social Media and Journalism teaches conceptual knowledge and skills to develop news judgment and use changing technological tools to disseminate news quickly and to different audiences. The value of interacting with sources and the audience is stressed as are ethical, legal and accuracy issues. Prerequisite: JOUR 2013 or JOUR 2032 with a grade of C or better. (Typically offered: Fall)

JOUR 4093. Business Journalism. 3 Hours.

Examines how the U.S. economy works and how to find news in business, market and government data sources. Focuses on the role of corporations, financial markets, and regulators, and benefiting students interested in sports, entertainment, political and investigative journalism. (Typically offered: Spring)

JOUR 4143. Public Relations Writing. 3 Hours.

Instructional and writing practice to develop the professional-level writing skills required of public relations practitioners. Emphasizes different approaches required for different audiences and media. Prerequisite: Minimum of 90 hours completed, 2.5 overall grade point average, Journalism major in the AD/PR sequence, completion of JOUR 1033 with a grade of C or better, and completion of JOUR 3723 and JOUR 3743, each with a grade of B or better; no in-progress hours or coursework accepted. (Typically offered: Fall and Spring)

JOUR 4333. Ethics in Journalism. 3 Hours.

Critical examination of specific ethical problems confronting professionals in all areas of mass communications. Reading and writing assignments are aimed at familiarizing students with the nature of the mass media and their social responsibilities. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

JOUR 4413. Broadcast Advertising and Sales. 3 Hours.

The creation of advertising campaigns for the broadcast media and techniques involved in the presentation of these campaigns to prospective media buyers. Emphasis is also placed on the gathering and use of rating systems for broadcasting. Prerequisite: JOUR 3723 with a grade of B or better. (Typically offered: Fall)

JOUR 4423. Creative Strategy and Execution. 3 Hours.

The creation of advertising copy and layout for the mass media with emphasis on strategy, the written message, and the physical appearance for the advertisement. Includes laboratory component. Prerequisite: Min. 90 hrs. completed, 2.5 overall GPA, JOUR major with AD/PR sequence, completion of JOUR 1033 with a grade of C or better, and completion of JOUR 3723 and JOUR 3743, with a grade of B or better; no in-progress hours or coursework accepted. (Typically offered: Fall and Spring)

JOUR 443V. Event Promotion and Execution. 1-3 Hour.

Practicum for students to plan, design, promote and execute several Journalism Days events, to include the Roy Reed Lecture, a scholarship reception, a job fair, Senior Salute and a fundraiser. Prerequisite: Junior standing. (Typically offered: Spring)

JOUR 4453. Media Planning & Strategy. 3 Hours.

Includes the study of media characteristics, market research, media strategies, media analysis, media-market measurements and the development of media plans. Emphasis is placed on the analysis of major mass media strategies, tactics, and planning. Prerequisite: Min. 90 hrs. completed, 2.5 overall GPA, JOUR major with AD/PR sequence, completion of JOUR 1033 with a grade of C or better, and completion of JOUR 3723 and JOUR 3743, with a grade of B or better; no in-progress hours or coursework accepted. (Typically offered: Fall and Spring)

JOUR 4463. Campaigns. 3 Hours.

Applying advertising principles and techniques to preparation of a complete campaign; determining agency responsibilities, marketing objectives and research, media mix, and creative strategy. Emphasis also given to campaign presentation delivery, utilizing audio and visual techniques. Prerequisite: JOUR 3723 and JOUR 3743, each with a grade of B or better, and 2.5 overall GPA. (Typically offered: Fall, Spring and Summer)

JOUR 4473. Account Planning. 3 Hours.

An introduction to applied advertising research and account planning. Integrate consumers' perspectives into creative strategy to developing brand stories for clients. Write creative briefs, positioning statements and prepare copy-testing research instruments to evaluate messages. Utilize consumer research for creating messages for diverse cultures. Prerequisite: Minimum 90 hours completed, no in-progress hours or coursework accepted, 2.5 overall GPA, JOUR 1033 with a grade of C or better, and JOUR 3723 and JOUR 3743, with a grade of B or better. (Typically offered: Fall and Spring)

JOUR 4483. Issues in Advertising and Public Relations. 3 Hours.

Seminar course involving the critical examination of the major cultural, social, political, economic, ethical and persuasion theories and/or issues relevant to advertising and public relations affecting individuals, organizations and societies. Prerequisite: Completion of both JOUR 3723 and JOUR 3743 with a grade of B or better, and 2.5 overall GPA. (Typically offered: Fall)

JOUR 4503. Magazine Writing. 3 Hours.

This intensive writing and reporting course is for students with proven feature-writing skills and an interest in the human-interest stories found in such leading magazines as *The New Yorker*, *Esquire*, *Harper's*, *the Atlantic*, and others. Students will compose magazine-length nonfiction stories on timely subjects under deadline. Stories are submitted for contests and publication, when possible. Prerequisite: JOUR 2013 with a grade of C or better. (Typically offered: Spring)

JOUR 4553. Magazine Editing and Production I. 3 Hours.

Instruction with lab work in editing and producing various types of magazines. Course includes magazine design, selecting and editing stories and photographs, laying out the story and photo pages, and other mechanical processes. Lecture 2 hours, laboratory 2 hours per week. (Typically offered: Spring)

JOUR 4863. Television News Reporting I. 3 Hours.

Continuation of JOUR 3072 and JOUR 3071L. Includes the specialized knowledge and skills needed in field reporting, anchoring, writing, and producing news for commercial television. Lab component arranged. Corequisite: Lab component. Prerequisite: JOUR 3072 and JOUR 3071L, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 4873. Television News Reporting II. 3 Hours.

Continuation of JOUR 4863. Laboratory component arranged. Prerequisite: JOUR 4863 with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 4883. Advanced Television News Production. 3 Hours.

Continuation of JOUR 4873. Students prepare and present television newscasts for air. Laboratory component arranged. Corequisite: Lab component. Prerequisite: JOUR 4873 with a grade of C or better. (Typically offered: Irregular)

JOUR 4893. Television News Producing. 3 Hours.

Intensive training in methods of producing a live television news broadcast, including news gathering, writing broadcast copy and production strategies. Lab 6 hours. Corequisite: Lab component. Prerequisite: JOUR 3072 and JOUR 3071L, each with a grade of C or better. (Typically offered: Fall and Spring)

JOUR 4903. Community Journalism. 3 Hours.

This three-hour course will blend student reporting and editing skills with instruction on how regional newspapers select and present news to a local audience. This course will instruct students in deciding news stories for regional readers, how those stories can best be written and displayed. The semester goal is to publish a paper. Prerequisite: Junior standing. (Typically offered: Spring)

JOUR 4923. History of the Black Press. 3 Hours.

Covers the historic context of contributions and innovations to U.S. newspapers by African Americans. Also investigates the role of the black press from its beginnings in 1827 through the civil rights movement. Prerequisite: Junior standing. (Typically offered: Spring Even Years)

This course is cross-listed with AAST 4923.

JOUR 4943H. Honors Research Methods in Journalism. 3 Hours.

Emphasis on the major types of qualitative and quantitative research, electronic data base searching, and traditional library research. Prerequisite: Journalism honors major. (Typically offered: Spring)

JOUR 4981. Journalism Writing Requirement. 1 Hour.

Directed study in conceptualizing, researching, and writing a major paper to meet the college writing requirement; includes presentations and discussions on current issues in journalism news and strategic communication. Students must make a C in order to satisfy the college writing requirement. Prerequisite: 90 hours. (Typically offered: Fall, Spring and Summer)

JOUR 498VH. Honors Journalism Writing Requirement. 1-6 Hour.

Honors journalism writing requirement. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

This course is equivalent to JOUR 4981.

JOUR 5003. Advanced Reporting. 3 Hours.

Stresses public affairs coverage, interpretive, investigative, and analytic journalism, involving research, work with documents, public records, and budgets and specialized reporting. (Typically offered: Irregular)

JOUR 5013. Advanced Radio News Reporting. 3 Hours.

(Formerly JOUR 4033.) Intensive training in the production of in-depth, public radio style news stories. Graduate degree credit will not be given for both JOUR 4033 and JOUR 5013. Prerequisite: JOUR 2032 and JOUR 2031L, each with a grade of C or better. (Typically offered: Spring)

JOUR 5023. Journalism Theory. 3 Hours.

Examination of the major journalism and mass media theories and conceptual perspectives regarding journalism, news, mass media, advertising and public relations relevant to industry and academic researchers and professionals. (Typically offered: Fall)

JOUR 5033. Critical and Opinion Writing and Commentary. 3 Hours.

Experience in writing and analyzing columns, editorials, criticism, and other forms of opinion and commentary in the media and in examining the media's role as a forum for opinion and commentary and its impact and influence. (Typically offered: Irregular)

JOUR 5043. Research Methods in Journalism. 3 Hours.

Research methods of utility in journalism. Emphasis on survey research, electronic data base searching, and traditional library research. Prerequisite: Graduate standing or honors program standing. (Typically offered: Spring)

JOUR 5063. Issues in Advertising and Public Relations. 3 Hours.

Seminar course involving the critical examination of the major cultural, social, political, economic, ethical, and persuasion theories and/or issues relevant to advertising and public relations affecting individuals, organizations, societies. Prerequisite: Graduate standing. (Typically offered: Fall)

JOUR 5073. Propaganda and Public Opinion. 3 Hours.

Examines and analyzes the means of influencing and measuring public opinion, with an emphasis on survey research and polling. (Typically offered: Irregular)

JOUR 508V. Graduate Journalism Internship. 1-3 Hour.

Credit for practical experience gained through a journalistic internship. Must have completed 6 hours of graduate course credit. May be repeated for up to 3 hours of degree credit. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

JOUR 5093. Business Journalism. 3 Hours.

Examines how the U.S. economy works and how to find news in business, market and government data sources. Focuses on the role of corporations, financial markets, and regulators, and benefiting students interested in sports, entertainment, political and investigative journalism. (Typically offered: Spring)

JOUR 5133. Ethics in Journalism. 3 Hours.

A seminar examining the professional ethical principles and ethical performance in the journalism field. The ethical performance of the mass media dedicated to news, public relations and advertising is evaluated based on ethical theories and industry standards. Prerequisite: Graduate standing. (Typically offered: Fall)

JOUR 5163. Computer-Assisted Publishing. 3 Hours.

(Formerly JOUR 4063.) In-depth, hands-on exploration of computer hardware and software in the design and production of media messages. Examination of developing media technologies and the computer's influence on design and conceptualization. Graduate degree credit will not be given for both JOUR 4063 and JOUR 5163. (Typically offered: Irregular)

JOUR 5173. Social Media and Journalism. 3 Hours.

(Formerly JOUR 4073.) Social Media and Journalism teaches conceptual knowledge and skills to develop news judgment and use changing technological tools to disseminate news quickly and to different audiences. The value of interacting with sources and the audience is stressed as are ethical, legal and accuracy issues. Graduate degree credit will not be given for both JOUR 4073 and JOUR 5173. Prerequisite: JOUR 2013 or JOUR 2032 with a grade of C or better. (Typically offered: Fall)

JOUR 5183. International Mass Communications. 3 Hours.

Examination of national media systems, issues in international communications, the role of the media in coverage of international affairs, and the impact of new technologies on mass communications. (Typically offered: Irregular)

JOUR 5193. Professional Journalism Seminar. 3 Hours.

Examination of complex problems encountered by professional journalists with focus on research and analysis of the role of journalism in major social, economic, and political developments. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

JOUR 5233. Media and Public Policy. 3 Hours.

Focuses on the interaction between media, politics, government, and public policy, particularly on the impact and influence of the media on the public policy agenda. (Typically offered: Irregular)

JOUR 5283. Data Journalism. 3 Hours.

Provides an in-depth experience of combining street reporting and data analysis to tell a story of significant societal importance. Students are introduced to techniques in data analysis, management, visualization and production of data-driven articles and and multimedia presentations. Prerequisite: Instructor permission. (Typically offered: Fall)

JOUR 5313. Literature of Journalism. 3 Hours.

A study of superior works of non-fiction journalism, past and present. Includes authors from Daniel Defoe to John McPhee. (Typically offered: Irregular)

JOUR 5323. Documentary Production I. 3 Hours.

In-depth study of documentary film as non-fiction, long form journalism. Covers subject, funding, research and development, pre-production planning, field production, talent, music, post production, promotion, broadcast and distribution. Required trip to Hot Springs Documentary Film Festival. (Typically offered: Fall)

JOUR 5333. Documentary Production II. 3 Hours.

A continuation of JOUR 5323, Documentary Production I. Students photograph, write, and edit a documentary begun in the fall semester. Prerequisite: JOUR 5323. (Typically offered: Spring)

JOUR 5463. Campaigns. 3 Hours.

(Formerly JOUR 4463.) Applying advertising principles and techniques to preparation of a complete campaign; determining agency responsibilities, marketing objectives and research, media mix, and creative strategy. Emphasis also given to campaign presentation delivery, utilizing audio and visual techniques. Graduate degree credit will not be given for both JOUR 4463 and JOUR 5463. Prerequisite: JOUR 3723 and JOUR 3743, each with a grade of B or better, and 2.5 overall GPA. (Typically offered: Fall, Spring and Summer)

JOUR 5473. Account Planning. 3 Hours.

An introduction to applied advertising research and account planning. Integrate consumers' perspectives into creative strategy to developing brand stories for clients. Write creative briefs, positioning statements and prepare copy-testing research instruments to evaluate messages. Utilize consumer research for creating messages for diverse cultures. Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

JOUR 5503. Magazine Writing. 3 Hours.

(Formerly JOUR 4503.) This intensive writing and reporting course is for students with proven feature-writing skills and an interest in the human-interest stories found in such leading magazines as The New Yorker, Esquire, Harper's, the Atlantic, and others. Students will compose magazine-length nonfiction stories on timely subjects under deadline. Stories are submitted for contests and publication, when possible. Graduate degree credit will not be given for both JOUR 4503 and JOUR 5503. Prerequisite: JOUR 2013 with a grade of C or better. (Typically offered: Spring)

JOUR 5883. Advanced Television News Production. 3 Hours.

(Formerly JOUR 4883.) Continuation of JOUR 4873. Students prepare and present television newscasts for air. Laboratory component arranged. Graduate degree credit will not be given for both JOUR 4883 and JOUR 5883. Corequisite: Lab component. Prerequisite: JOUR 4873 with a grade of C or better. (Typically offered: Irregular)

JOUR 5903. Community Journalism. 3 Hours.

(Formerly JOUR 4903.) This three-hour course will blend student reporting and editing skills with instruction on how regional newspapers select and present news to a local audience. This course will instruct students in deciding news stories for regional readers, how those stories can best be written and displayed. The semester goal is to publish a paper. Graduate degree credit will not be given for both JOUR 4903 and JOUR 5903. (Typically offered: Spring)

JOUR 5923. History of the Black Press. 3 Hours.

Covers the historic context of contributions and innovations to U.S. newspapers by African Americans. Also investigates the role of the black press from its beginnings in 1827 through the civil rights movement. (Typically offered: Spring Even Years)

JOUR 600V. Master's Thesis. 1-6 Hour.

Required of all M.A. journalism students. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Kinesiology (KINS) Courses

KINS 3901H. Kinesiology Honors Thesis Tutorial. 1 Hour.

Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work "one-on-one" exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and EXSCBS, KINSBS, or PHEDBS major. (Typically offered: Fall, Spring and Summer)

KINS 405V. Independent Study. 1-3 Hour.

Provides students an opportunity to pursue special study of research problems. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

KINS 405VH. Honors Independent Study. 1-3 Hour.

Provides students an opportunity to pursue special study of research problems. Prerequisite: Honors candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit. This course is equivalent to KINS 405V.

KINS 498VH. Kinesiology Honors Thesis/Project. 1-3 Hour.

Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work "one-on-one" to complete the honors thesis/project. Prerequisite: Honors candidacy, EXSCBS, KINSBS, or PHEDBS major, and KINS 3901H or EXSC 3723H. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

KINS 5413. Adapted Movement Science. 3 Hours.

Methods and techniques for working with individuals with disabilities in an adapted movement science. (Typically offered: Fall Even Years)

KINS 5423. Assessment and Prescriptive Programming in Adapted Movement Science. 3 Hours.

Instruction in the assessment, prescription, and use of instruction methods, materials, and equipment relevant to working with people with disabilities. (Typically offered: Spring Odd Years)

KINS 5493. Practicum in Adapted Physical Education. 3 Hours.

Deals with the application of skills, knowledge and concepts necessary for planning, organizing and conducting adapted physical education programs through supervised field experiences. (Typically offered: Irregular)

KINS 574V. Internship. 1-6 Hour.

Internship. (Typically offered: Spring) May be repeated for up to 6 hours of degree credit.

KINS 589V. Independent Research. 1-3 Hour.

Development, implementation, and completion of basic or applied research project. Prerequisite: Admission to the master's program in kinesiology or admission to the master's program in athletic training. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

KINS 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

KINS 605V. Independent Study. 1-3 Hour.

Provides students with an opportunity to pursue special study of educational problems. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

KINS 674V. Internship. 1-3 Hour.

Internship. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

Landscape Architecture (LARC) Courses

LARC 1003. Basic Course in the Arts: The American Landscape. 3 Hours.

Mankind's changing attitudes toward urban and rural outdoor spaces and their aesthetic and cultural values. The origins of the environmental/conservation movement and the development of an American land ethic. Appreciation of the relationship of the natural and historic landscape to the arts and the aesthetic importance of open space. (Typically offered: Fall and Spring)

LARC 1003H. Honors Basic Course in the Arts: The American Landscape. 3 Hours.

Mankind's changing attitudes toward urban and rural outdoor spaces and their aesthetic and cultural values. The origins of the environmental/conservation movement and the development of an American land ethic. Appreciation of the relationship of the natural and historic landscape to the arts and the aesthetic importance of open space. (Typically offered: Fall and Spring)

LARC 1315. Fundamental Design Skills. 5 Hours.

Fundamental design skills; development of visual and verbal communication skills including observation skills, design technologies, analysis and representation in both 2-dimensions and 3-dimensions through analog and digital tools; creative and critical thinking skills. (Typically offered: Fall and Summer)

LARC 1325. Fundamental Design Methodology. 5 Hours.

Fundamental design skills; use of precedents for understanding principles of design and natural and formal ordering systems; design development using both iterative and alternative methods of exploration in 2-dimensions and 3-dimensions using analog and digital tools; continued development of visual and verbal communication skills. Prerequisite: LARC 1315. (Typically offered: Spring and Summer)

LARC 2113. Design Visualization, Inquiry and Communications. 3 Hours.

Investigation and application of foundational, current and innovative techniques and technologies used in landscape architecture. Field work and other modes of inquiry and seeing are used to study sites. Processes and workflow are learned. Students learn inquiry through technologies, site context investigation, and how to communicate to stakeholders. (Typically offered: Fall)

LARC 2335. Landscape Architecture Design III: Engaging Site, Engaging Place. 5 Hours.

Fundamentals of site inventory, analysis, and assessment. Through measurement, observation, and documentation, students engage with the design of local and regional sites, synthesizing place-based inventorial understanding and experiential response. Students gain an appreciation for both quantifiable and qualitative measurement and observation as creative tools for design development. Corequisite: LARC 2351. Prerequisite: LARC 1325. (Typically offered: Fall)

LARC 2345. Landscape Architecture IV: Collaborating with Site. 5 Hours.

Students consider an increased complexity of landscape issues and multi-purpose design strategies within a local or regional context, while simultaneously responding to external programmatic requirements. Instructor-guided design projects reinforce the value of site exploration and enumeration. The design process is enriched through programmatic and service requirements, stakeholder collaboration, and reflection on design implication. Corequisite: LARC 2351. Prerequisite: LARC 2335. (Typically offered: Spring)

LARC 2346H. Honors Landscape Architecture Design IV. 6 Hours.

(Formerly LARC 3345) Expansion of abilities to analyze existing conditions of site and develop methods for interpreting and synthesizing information and perceptions into spatial design proposals. Emphasis on design form and the use of meaning and landscape narrative applied to increased scale projects within a larger or more complex context. Studio and lecture. Prerequisite: LARC 2336 and LARC 3413 and Honors candidacy. (Typically offered: Spring)

This course is equivalent to LARC 2345.

LARC 2351. Advocacy and Theory Module: Engaging Site, Engaging Place. 1 Hour.

Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 2335. (Typically offered: Fall)

LARC 2361. Advocacy and Theory Module: Collaborating with Site. 1 Hour.

Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 2345. (Typically offered: Spring)

LARC 2371. Advocacy and Theory Module: International Urban Place. 1 Hour.

Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 3355. (Typically offered: Summer)

LARC 2714. Ecological Design and Construction: Terrain. 4 Hours.

Introduces students to fundamental principles of reading and understanding geomorphology, site systems, and site design. Design tools include grading techniques, earthwork computations, and site-related documentation of natural and built structures. Site-related principles of sustainability are introduced as a framework for solving contemporary site issues. (Typically offered: Fall)

LARC 2914. Sustainable Design and Construction: Plant Communities. 4 Hours.

Introduces plants as components of healthy ecosystems, to innovative and sustainable plants and planting strategies as design frameworks, and to planting as powerful design tool. Soils as building block of healthy designs, foundation identification of woody plants and plant taxonomy, and fundamental concepts of time--ephemerality, phenology, and phenomenology. (Typically offered: Spring)

LARC 302V. Special Studies. 1-6 Hour.

Individual or group study and practicum and travel involving landscape design, history, and environmental analysis. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

LARC 302VH. Honors Special Studies. 1-6 Hour.

Individual or group study and practicum and travel involving landscape design, history and environmental analysis. Prerequisite: Honors candidacy. (Typically offered: Irregular)

This course is equivalent to LARC 302V.

LARC 303V. Special Projects. 1-6 Hour.

Design implementation, study, practicum, and preparation of working drawings. (Typically offered: Irregular) May be repeated for degree credit.

LARC 303VH. Honors Special Projects. 1-6 Hour.

Design implementation, study, practicum, and preparation of working drawings. Prerequisite: Honors candidacy. (Typically offered: Irregular)

This course is equivalent to LARC 303V.

LARC 3123. Advanced Design Visualization, Inquiry and Communications. 3 Hours.

Students learn the applications of current communication techniques and technologies in landscape architecture to discover implications through inquiry. Field work and other modes of investigation and seeing are used around urbanization and large scale landscapes in design inquiry. Students learn how to communicate the implications of design to broad stakeholders. (Typically offered: Spring)

LARC 3355. Landscape Architecture Design V: International Urban Place. 5 Hours.

Investigation of social behavior as applied to program and design that serves human needs. Projects reflect increased scope, scale, and resolution with a detailed design component. Studio and lecture. Corequisite: LARC 2371. Prerequisite: LARC 2345. (Typically offered: Summer)

LARC 3365. Landscape Architecture Design VI: Engaging Communities; Understanding Culture. 5 Hours.

Students engage in design projects working for and/or with a particular population, including forming partnerships with a variety of stakeholders. The studio emphasizes empathy and understanding of competing value systems. Students apply a new cultural understanding to design projects. Corequisite: LARC 3381. Prerequisite: LARC 3355. (Typically offered: Fall)

LARC 3375. Landscape Architecture Design VII: Collaborating with Communities. 5 Hours.

Investigation and application of an issues-based, service-learning, community design project, focusing on resiliency and forming partnerships with a variety of stakeholders. Students engage in design as a means for influencing and negotiating on behalf of a community partner. Corequisite: LARC 3391. (Typically offered: Spring)

LARC 3381. Advocacy and Theory Module: Engaging Communities; Understanding Culture. 1 Hour.

Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 3365. (Typically offered: Fall)

LARC 3391. Advocacy and Theory Module: Collaborating with Communities. 1 Hour.

Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 3375. (Typically offered: Spring)

LARC 3413. History of Landscape Architecture I. 3 Hours.

Analysis of the interaction between landscapes and human cultural development as reflected in the meaning, organization, and impact of design and planning at garden and community scales from the Neolithic period through the eighteenth century. (Typically offered: Fall)

LARC 3413H. Honors History of Landscape Architecture I. 3 Hours.

Analysis of the interaction between landscapes and human cultural development as reflected in the meaning, organization, and impact of design and planning at garden and community scales from the Neolithic period through the eighteenth century. Prerequisite: Honors candidacy. (Typically offered: Fall)

This course is equivalent to LARC 3413.

LARC 3724. Ecological Design and Construction: Water and Drainage. 4 Hours.

Introduces water-related issues as encountered and addressed by landscape architects. Students will understand, apply, and design infrastructure such as retention/detention ponds, bioswales, and constructed wetlands. Technical documentation methods as a means of conveying design intent are included. Prerequisite: LARC 2714. (Typically offered: Fall)

LARC 3724H. Honors Landscape Construction II. 4 Hours.

Introduction to landscape architectural materials and methods of construction and assembly. Emphasis on material properties and how those properties affect the materials use in the landscape and interactions with other materials. Introduction to dimensioning and layout systems and parking requirements with increased complexity of construction documents. Lecture and laboratory. Prerequisite: Honors candidacy. (Typically offered: Fall)

This course is equivalent to LARC 3724.

LARC 3734. Sustainable Design and Construction: Material and Methods of Assembly. 4 Hours.

Introduces students to issues in material selection including properties, construction techniques, practical considerations in material use and subsequent implications and effects on the built environment. Material use and human experience are also explored. Technical documentation methods as a means of conveying design intent are included. Prerequisite: LARC 3724. (Typically offered: Spring)

LARC 3734H. Honors Landscape Architecture Construction III. 4 Hours.

(Structures) Introduction into the design and fabrication methods of structures in the landscape. Emphasis on statics in calculating sizes and selection of materials for free-standing and retaining walls, and wooden structures. Advanced technical drawing component and computer integration of drawing production. Lecture and laboratory. Prerequisite: LARC 3724 and Honors candidacy. (Typically offered: Spring)

This course is equivalent to LARC 3734.

LARC 3914. Sustainable Design and Construction: Remediation and Plants on Structure. 4 Hours.

Introduces particular strategies and techniques of plant use in the built environment. Potential topics include green infrastructure, site, soil, and water remediation techniques, and structural considerations of planting on structure. (Typically offered: Fall)

LARC 3914H. Honors Planting Design I. 4 Hours.

Introduction to small scale projects involving use of plant materials in relation to other landscape elements, formulation of a vocabulary of plant materials and preparation of integrated planting plans and applicable specifications. Includes laboratory. Prerequisite: HORT 3103 and Honors candidacy. (Typically offered: Fall)

This course is equivalent to LARC 3914.

LARC 3933. Cultural Landscape Studies. 3 Hours.

The examination of landscape forms, and their historic and evolutionary development. Includes study of cultural, political, and site context influences. Required field trip component of study abroad. Prerequisite: LARC 3413. (Typically offered: Summer)

LARC 402V. Special Studies. 1-6 Hour.

Individual or group study and practicum involving landscape design, planning and management, history and environmental analysis. (Typically offered: Irregular) May be repeated for degree credit.

LARC 402VH. Honors Special Studies. 1-6 Hour.

Individual or group study and practicum involving landscape design, planning and management, history and environmental analysis. (Typically offered: Irregular) May be repeated for degree credit.

This course is equivalent to LARC 402V.

LARC 4033. Landscape Architecture Theory. 3 Hours.

Examination of historic and current theories in landscape architecture and planning to develop critical judgement. Seminar format includes readings and case studies in issues such as social and environmental justice. Prerequisite: LARC 3413 and LARC 4413 or instructor consent. (Typically offered: Summer)

LARC 4033H. Honors Theory. 3 Hours.

Introduction to seminal theories in landscape architecture, environmental design and planning. Readings and case studies will be utilized to explore interaction and connection across a range of disciplinary theoretical intersections. Prerequisite: LARC 3413 and LARC 4413 or instructor consent. (Typically offered: Fall)

This course is equivalent to LARC 4033.

LARC 4123. Urban Form Studies. 3 Hours.

The examination of urban, village, and suburban form and its influencing forces. Includes study of cultural forces, technological developments, and physical shape, scale, and materials that define urban areas. Required field trip component of study abroad. Prerequisite: LARC 3413. (Typically offered: Summer)

LARC 4311. Advocacy and Theory Module: Capstone. 1 Hour.

Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 4385. (Typically offered: Fall)

LARC 4321. Advocacy and Theory Module: Comprehensive. 1 Hour.

Students explore theories and history and their implementation to increase understanding of concurrent design studio topics. Students develop advocacy capacities through communication, collaboration and skills through workshops, readings, stakeholder engagement and discussions. Students form rationales for design and personal disposition, while gaining knowledge to advocate for the profession and discipline. Corequisite: LARC 4395. (Typically offered: Spring)

LARC 4376. Landscape Architecture Design VII. 6 Hours.

(Formerly LARC 4375) Synthesis of all previous course work; an introduction to the theory and practice of larger scale planning with an emphasis on design of systems in urbanizing environments. Studio and lecture. Prerequisite: LARC 3366 and LARC 4413. (Typically offered: Fall)

LARC 4385. Landscape Architecture Design VIII: Capstone. 5 Hours.

Topic based, service learning studio that blends faculty research interests with student initiative and the potential for collaboration. This studio builds on the broad foundation of previous coursework while developing a design specialization through which students can advocate for both the profession and the communities they serve. Corequisite: LARC 4311. (Typically offered: Fall)

LARC 4395. Landscape Architecture Design IX: Comprehensive. 5 Hours.

Summative studio that requires the student to demonstrate landscape architectural design competency through a multiscale approach that utilizes various resolutions to address critical, multidimensional problems. Corequisite: LARC 4321. (Typically offered: Spring)

LARC 4413. History of Landscape Architecture II. 3 Hours.

Critical study and analysis of landscape architecture from nineteenth century to the present, with an emphasis on the philosophies, design and planning theories, and social conditions that have influenced the form of gardens, parks, and cities. (Typically offered: Spring)

LARC 4413H. Honors History of Landscape Architecture II. 3 Hours.

Critical study and analysis of landscape architecture from nineteenth century to the present, with an emphasis on the philosophies, design and planning theories, and social conditions that have influenced the form of gardens, parks, and cities. Prerequisite: Honors candidacy. (Typically offered: Spring)

This course is equivalent to LARC 4413.

LARC 4523H. Landscape Architecture Honors Thesis. 3 Hours.

Development and production of an honors thesis proposal and thesis. Required for all landscape architecture honors students. Prerequisite: Honors standing. (Typically offered: Irregular)

LARC 4714. Landscape Architecture Construction IV. 4 Hours.

(Systems) Introduction to systems of landscape architectural construction including stormwater management, lighting, irrigation, water features, and erosion control. Emphasis on an advanced grading and landform manipulation skills, and stormwater system design and calculations. Significant integration of computer generated drawings. Lecture and laboratory. Prerequisite: LARC 2714. (Typically offered: Fall)

LARC 4743. Public Participation in Design and Planning. 3 Hours.

The course analyzes the role and participation of multiple stakeholders in planning, design and development scenarios. Public participation techniques covered include questionnaire design, charrettes, grassroots organizing, stakeholder identification and analysis, and other strategies for involving the public, including engaging underrepresented groups. (Typically offered: Irregular)

LARC 4743H. Honors Public Participation in Design and Planning. 3 Hours.

The course analyzes the role and participation of multiple stakeholders in planning, design and development scenarios. Public participation techniques covered include questionnaire design, charrettes, grassroots organizing, stakeholder identification and analysis, and other strategies for involving the public, including engaging underrepresented groups. (Typically offered: Irregular)

This course is equivalent to LARC 4743.

LARC 4753. Incremental Sprawl Repair. 3 Hours.

Exploration of the causes, manifestation and results of suburban sprawl on the built environment. Design and planning strategies linked to landscape, urbanism, policy, transportation, resource-conservation, ecology, and social structures are proposed. Emphasis is placed on combining traditional and cutting edge methods for repairing sprawled cities and regions. Prerequisite: 4th or 5th year student or instructor approval. (Typically offered: Irregular)

LARC 4753H. Honors Incremental Sprawl Repair. 3 Hours.

Exploration of the causes, manifestation and results of suburban sprawl on the built environment. Design and planning strategies linked to landscape, urbanism, policy, transportation, resource-conservation, ecology, and social structures are proposed. Emphasis is placed on combining traditional and cutting edge methods for repairing sprawled cities and regions. Prerequisite: 4th or 5th year student or instructor approval. (Typically offered: Irregular)

This course is equivalent to LARC 4753.

LARC 4811. Landscape Architecture Interns. 1 Hour.

Supervised work experience and observation of operations and management procedures in approved design, government, or non-profit organization. Exposure to a wide range of job tasks and project types. Students apply what they learn to their studies. Summative outcomes include reflection. Prerequisite: LARC 3375 and LARC 3371. (Typically offered: Summer)

LARC 4943. Perspectives on Historic Preservation. 3 Hours.

Introduction of history, theory, and praxis of preservation design, emphasizing development and implementation of preservation projects in the practices of architecture, landscape architecture and interior design. Central themes include: preservation as a form of design; principles, rationales, and ideologies associated with preservation practice; and sustainable strategies for preservation design. Prerequisite: ARCH 2233 and ARCH 2243 or LARC 3413 and LARC 4413 or IDES 2883. (Typically offered: Fall)

This course is cross-listed with IDES 4943, ARCH 4943.

LARC 4943H. Honors Perspectives on Historic Preservation. 3 Hours.

Introduction of history, theory, and praxis of preservation design, emphasizing development and implementation of preservation projects in the practices of architecture, landscape architecture and interior design. Central themes include: preservation as a form of design; principles, rationales, and ideologies associated with preservation practice; and sustainable strategies for preservation design. Prerequisite: ARCH 2233 and ARCH 2243 or LARC 3413 and LARC 4413 or IDES 2883. (Typically offered: Fall)

This course is cross-listed with LARC 4943, IDES 4943, ARCH 4943.

LARC 5053. Historic Landscape Preservation. 3 Hours.

Survey of historic preservation as a profession and the emerging cultural landscape preservation movement. Introduction to preservation principles as described by the Secretary of the Interiors Standards and Guidelines. Analysis of case studies will reinforce basic philosophies and introduce preservation approaches. Prerequisite: LARC 3413 and LARC 4413. (Typically offered: Irregular)

LARC 5053H. Honors Historic Landscape Preservation. 3 Hours.

Survey of historic preservation as a profession and the emerging cultural landscape preservation movement. Introduction to preservation principles as described by the Secretary of the Interiors Standards and Guidelines. Analysis of case studies will reinforce basic philosophies and introduce preservation approaches. Prerequisite: LARC 3413 and LARC 4413 and Honors candidacy. (Typically offered: Irregular)

This course is equivalent to LARC 5053.

LARC 5063. Alternative Stormwater Management. 3 Hours.

Introduction to the role of alternative stormwater management techniques toward a more sustainable development to include constructed wetlands, bioswales, rain water harvesting, green roofs, and other stormwater reduction techniques. Emphasis on multidisciplinary team approach to problem solving. This course is open to non-majors and includes both lecture and laboratory time. (Typically offered: Irregular)

LARC 5386. Landscape Architecture Design VIII. 6 Hours.

Investigation of the relationship between development, stewardship and land use of the regional scale. Natural resource systems, public policies, regional economics, and social contexts inform environmental land use planning and design decisions. Geographic information systems (GIS) used as an analysis tool. Lecture and GIS lab. Prerequisite: LARC 4376 or instructor approval. (Typically offered: Spring)

LARC 5396. Landscape Architecture Design IX. 6 Hours.

Advanced design studio with an emphasis on individual or team research and design resolution. Includes all aspects of design process: inventory, programming, graphic documentation, formal oral presentation, and a written report. Prerequisite: LARC 5386. (Typically offered: Fall)

LARC 5493. Environmental Land Use Planning. 3 Hours.

Investigation of the relationship between development, stewardship and land use on the city and regional scales. Natural resource systems, public policies, regional economics, and social contexts are investigated as informers of environmental planning and design decisions. Prerequisite: Junior standing or instructor approval. (Typically offered: Spring)

LARC 5493H. Honors Environmental Land Use Planning. 3 Hours.

Investigation of the relationship between development, stewardship and land use on the city and regional scales. Natural resource systems, public policies, regional economics, and social contexts are investigated as informers of environmental planning and design decisions. Prerequisite: Junior standing or instructor approval. (Typically offered: Spring)

This course is equivalent to LARC 5493.

LARC 5613. Landscape Architectural Professional Practice. 3 Hours.

Review of professional and disciplinary responsibilities and related aspects (including health, safety, and welfare issues) of private, public and non-profit landscape architectural practice. (Typically offered: Fall)

Latin (LATN) Courses

LATN 1003. Elementary Latin I. 3 Hours.

The rudiments of classical Latin, with concentration on grammar, vocabulary, and syntax. Short selections from ancient authors lead to basic reading ability. (Typically offered: Fall)

LATN 1013. Elementary Latin II. 3 Hours.

A continuation of the rudiments of classical Latin, with concentration on grammar, vocabulary, and syntax. Short selections from ancient authors lead to basic reading ability. (Typically offered: Spring)

LATN 2003. Petronius' Satyricon. 3 Hours.

Development of reading skills through selections from Satyricon, and an introduction to imperial history and culture through critical study of the novel in translation.

Prerequisite: LATN 1013 or equivalent. (Typically offered: Fall)

LATN 2013. Catullus. 3 Hours.

Development of reading skills through selections from Catullus' poems, and an introduction to the culture and history of the late republic through critical study of Catullus in translation and secondary works. Prerequisite: LATN 2003 or equivalent. (Typically offered: Spring)

LATN 3003. Virgil and Ovid. 3 Hours.

Selections from the Aeneid and/or the Metamorphoses, and an introduction to Roman literary history through the critical study of these works in translation.

Prerequisite: LATN 2013 or equivalent. (Typically offered: Fall)

LATN 3013. Caesar. 3 Hours.

Selected readings from Caesar's commentaries on Gallic or Civil Wars, and an overview of Republican political and military history through the critical study of the commentaries in translation and secondary works. Prerequisite: LATN 3003 or equivalent. (Typically offered: Spring)

LATN 3063. Intensive Elementary Latin Reading. 3 Hours.

Overview of Latin grammar, vocabulary and syntax, leading to reading prose texts. For undergraduates who want short, intensive introduction to Latin and graduate students working towards reading proficiency. Successful completion fulfills graduate student research reading proficiency requirement. LATN 3063 alone cannot fulfill the Foreign Language requirement in Fulbright College. No credit for this course and LATN 1003 and/or LATN 1013. (Typically offered: Summer)

LATN 4003. Roman History. 3 Hours.

Selections from Sallust, Livy, Tacitus, or Suetonius. An overview of Roman Historiography through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 4013. Roman Satire. 3 Hours.

Selections from the satires of Horace, Juvenal, Persius, or Seneca. An overview of Roman humor and the genre of satire through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 4023. Roman Didactic Epic. 3 Hours.

Selections from Virgil's Georgics, Lucretius' De Rerum Natura, or Manilius' Astronomica. An overview of Roman philosophical poetry through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 4033. Roman Drama. 3 Hours.

Selections from Plautus, Terence, or Seneca. An overview of Roman theater through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 4043. Roman Elegy. 3 Hours.

Selections from Propertius, Tibullus, or Ovid. An overview of the genre through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 4073. Roman Novel. 3 Hours.

Selections from Petronius or Apuleius. An overview of the genre through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 4083. Roman Oratory. 3 Hours.

Selections from the orations and theoretical works of Cicero, Seneca the Elder, or Quintilian. An overview of the genre through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

LATN 4093. Roman Philosophy. 3 Hours.

Selections from the philosophical works of Cicero or Seneca. An overview of Roman philosophy through the critical study of complete works in translation and secondary works. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

LATN 475V. Special Investigations. 1-6 Hour.

Special investigations. (Typically offered: Irregular) May be repeated for degree credit.

LATN 5003. Roman History. 3 Hours.

(Formerly LATN 4003.) Selections from Sallust, Livy, Tacitus, or Suetonius. An overview of Roman Historiography through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4003 and LATN 5003. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 5013. Roman Satire. 3 Hours.

(Formerly LATN 4013.) Selections from the satires of Horace, Juvenal, Persius, or Seneca. An overview of Roman humor and the genre of satire through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4013 and LATN 5013. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 5023. Roman Didactic Epic. 3 Hours.

(Formerly LATN 4023.) Selections from Virgil's Georgics, Lucretius' De Rerum Natura, or Manilius' Astronomica. An overview of Roman philosophical poetry through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4023 and LATN 5023. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 5033. Roman Drama. 3 Hours.

(Formerly LATN 5033.) Selections from Plautus, Terence, or Seneca. An overview of Roman theater through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4033 and LATN 5033. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 5043. Roman Elegy. 3 Hours.

(Formerly LATN 4043.) Selections from Propertius, Tibullus, or Ovid. An overview of the genre through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4043 and LATN 5043. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular)

LATN 5063. Roman Pastoral and Lyric. 3 Hours.

(Formerly LATN 4063.) Selections from Catullus, Virgil's Eclogues, Horace's Odes, or Calpurnius Siculus. An overview of the two genres through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4063 and LATN 5063. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

LATN 5073. Roman Novel. 3 Hours.

(Formerly LATN 4073.) Selections from Petronius or Apuleius. An overview of the genre through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4073 and LATN 5073. (Typically offered: Irregular)

LATN 5083. Roman Oratory. 3 Hours.

(Formerly LATN 4083.) Selections from the orations and theoretical works of Cicero, Seneca the Elder, or Quintilian. An overview of the genre through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4083 or LATN 5083. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

LATN 5093. Roman Philosophy. 3 Hours.

(Formerly LATN 4093.) Selections from the philosophical works of Cicero or Seneca. An overview of Roman philosophy through the critical study of complete works in translation and secondary works. Graduate degree credit will not be given for both LATN 4093 and LATN 5093. Prerequisite: LATN 3013 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

LATN 5633. Medieval Latin. 3 Hours.

Selections from medieval writers from the 4th to the 17th century. Prerequisite: LATN 3003 or equivalent. (Typically offered: Irregular)

LATN 575V. Special Investigations. 1-6 Hour.

Special investigations. (Typically offered: Irregular) May be repeated for degree credit.

Latin American and Latino Studies (LAST)

Law (LAWW)

Courses

LAWW 400V. Entertainment Law. 1-6 Hour.

Examines the legal principles and relationships of the entertainment industry, with a primary emphasis on the music industry; provides an introduction to the practice of entertainment law and the negotiation of entertainment contracts; highlights a variety of legal and practical issues that arise when representing clients in the entertainment industry. (Typically offered: Irregular)

LAWW 4013. Legal Research & Writing I. 3 Hours.

An introduction to the special problems posed by the legal analysis and the expression of the results of that process. The primary emphasis will be on basic legal analysis techniques, basic legal writing skills, and proper citation form. Students will complete a series of writing assignments. (Typically offered: Fall)

LAWW 4024. Contracts. 4 Hours.

Formation and enforcement by litigation and commercial arbitration of commercial and family agreements. Mutual assent or consideration; third-party beneficiaries; assignments; joint obligation; performance; anticipatory breach; discharge of contractual duties; and the Statute of Frauds. (Typically offered: Irregular)

LAWW 4054. Property. 4 Hours.

This course deals with the creation and transfer of rights over property. The primary emphasis will be on entitlements in land. Subject to variations among professors, topics will include the rights of landowners to exclude others, estates in land, co-ownership, landlord-tenant law, real estate and personal property transactions, and servitudes. (Typically offered: Irregular)

LAWW 406V. Upper Level Writing. 1-3 Hour.

Second year students must take at least one 2 or 3-hour course in upper level research and writing which has been certified by the faculty as an Upper Level Writing course. The course, which is constructed around a special topic or specific area of the law, focuses on writing or drafting. Writing component accounts for at least 2/3 of the final grade. Prerequisite: LAWW 4013 and LAWW 4113. (Typically offered: Fall, Spring and Summer) May be repeated for up to 10 hours of degree credit.

LAWW 4074. Criminal Law. 4 Hours.

Deals with the questions of what conduct society punishes through a criminal code and of the appropriate punishment for the forbidden conduct. In this context the course includes an analysis of the theories of punishment, the definitions of various crimes, the defenses available to one charged with criminal conduct, and the limitations placed by the Constitution on governmental power in the criminal law area. Throughout the course, special emphasis is placed on the legislature's role in creating statutes alongside the judiciary's corresponding role in interpreting those statutes. (Typically offered: Irregular)

LAWW 4104. Civil Procedure. 4 Hours.

Study of the process of civil litigation from preliminary matters such as court selection and jurisdiction, through joinder of parties and discovery techniques, to disposition of cases and finality of judgments. Some attempt is made to cover the antecedents of modern procedure; where appropriate, suggestions for reform are developed in class discussion. Emphasis is on the Federal Rules of Civil Procedure. (Typically offered: Fall)

LAWW 4113. Legal Research & Writing II. 3 Hours.

An introduction to persuasive writing techniques and intermediate computer research. Student will write a full appellate brief and deliver an oral argument. Prerequisite: LAWW 4013. (Typically offered: Spring)

LAWW 413V. ULW: Gender-Based Violence & Human Rights Policies & Procedures. 2-3 Hour.

The course explores various forms of gender-based violence in public and private spheres and the relationship between this violence and discourse on human rights in both the legal and policy arenas. Also considers additional solutions to the prevention of sexual violence including the economic empowerment of women, the education of girls, and others. Meets the Upper Level Writing Requirement. (Typically offered: Irregular)

LAWW 4144. Torts. 4 Hours.

An introduction to basic principles of liability for harm to persons and property. The course analyzes various categories of tortious conduct, defenses and immunities, damages, and underlying principles and policies justifying liability. (Typically offered: Irregular)

LAWW 4173. Criminal Procedure I. 3 Hours.

Generally this course focuses on: (1) criminal investigation practices, more precisely, contacts between the police and persons suspected or accused of crime, at the time of or shortly before and after arrest; (2) the federal constitutional rights of suspects in their contacts with the police or, stated another way, the federal constitutional restrictions (or lack of restrictions) on the police, based on the 4th, 5th, 6th, and 14th amendments; (3) the exclusionary rule, which limits the admissibility of evidence obtained by the police from suspects in violation of their federal constitutional rights; and (4) United States Supreme Court jurisprudence. (Typically offered: Irregular)

LAWW 4182. Upper Level Writing - Business Drafting. 2 Hours.

ULW-Business Drafting is an advanced writing course that takes students through a number of writing assignments. It is geared at teaching students to produce prescriptive writing, as oppose to predicting how the law would apply or persuading a reader about how the law should apply. This class therefore requires students to use information that they have gained in other classes, notably Business Organizations, and use it in drafting appropriate documents ranging from organizational forms, to documents describing how a business is to be operated, to commercial contracts. Students will also work on professionally communicating with various constituents such as clients and other attorneys about the contents of and rationale behind drafting choices in these documents. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 4212. Upper Level Writing: Police Discretion. 2 Hours.

This course will analyze the role of police discretion in the criminal justice system particularly in the context of traffic stops, interrogations, and suppression hearings. Although there are no prerequisites, students have ideally already taken Criminal Procedure and Criminal Procedure II. (Typically offered: Irregular)

LAWW 4233. Upper Level Writing: Crime and the Supreme Court. 3 Hours.

This course critically examines criminal law and procedure cases currently pending before the Supreme Court. Students will construct hypothetical Supreme Court, argue selected cases, take a vote, and then produce an actual series of judicial opinions, and make an appellate argument. Prerequisite: LAWW 4013 and LAWW 4113. (Typically offered: Irregular)

LAWW 4294. Business Organizations. 4 Hours.

This is an introductory, survey course focusing primarily on the law applicable to closely held businesses, including agency rules and the law applicable to general and limited partnerships, LLPs and LLLPs, limited liability companies, and corporations. (Typically offered: Irregular)

LAWW 4442. Law & Accounting. 2 Hours.

Study of basic accounting principles and their importance to attorneys engaged in business related activities. Topics covered include the fundamental accounting equation, the nature of accrual accounting, understanding financial statements, and accounting for assets and liabilities. Also a review of basic principles associated with financial statement analysis and valuation principles, including the time value of money. Intended for students with little or no business training, and may not be taken for credit by students who have previously earned 3 or more hours of undergraduate or graduate credit in accounting courses. (Typically offered: Irregular)

LAWW 445V. Mastering Legal Analysis. 1-2 Hour.

In this course students will revisit and expand upon the core principles of legal analysis. This course will be based on an active-learning model with a focus on practicing legal analysis under time-pressured conditions. The professor will provide extensive individualized feedback on exercises. The materials for this course will largely be drawn from the written portions of the bar exam (both Arkansas and UBE). (Typically offered: Irregular)

LAWW 500V. Special Topics. 1-18 Hour.

Included under this heading will be a variety of variable credit law courses taught by law faculty on topics that are not included elsewhere in the curriculum. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

LAWW 5013. Professional Responsibility. 3 Hours.

Role of the lawyer as counselor, advocate, and public servant; obligation to society of the individual lawyer and the profession as a whole; ethical problems of the profession; representation of the unpopular cause and the desirable client, lawyers' obligation to law reform; lawyer and the press; the lawyer in public service; the aspects of law office management. (Typically offered: Irregular)

LAWW 502V. Remedies. 3-4 Hour.

Covers equity (jurisdiction and powers of courts of equity, injunctions, including adequacy of legal remedies, balancing of equities, interests protected, and defenses), damages (compensatory, exemplary, and nominal damages; direct and consequential damages; mitigation; special application in contract and tort actions) and restitution (relief afforded by the judicial process, to prevent unjust retention of benefits). (Typically offered: Irregular)

LAWW 5031. Basic Title Examination. 1 Hour.

Basic Title Examination is a course designed to teach students how to examine abstracts of title and other compilations of public real estate records to determine ownership and marketability of surface title. The course utilizes the theoretical understanding gained from traditional substantive law courses including Property and Decedents? Estates but teaches applied practical skills not usually taught in those courses. (Typically offered: Fall)

LAWW 5041. Oil and Gas Title Examination. 1 Hour.

Oil and Gas Title Examination is a course designed to teach students who have successfully completed Basic Title Examination how to use abstracts of title and other compilations of public real estate records to determine ownership and marketability of minerals, including oil and gas, and oil and gas leasehold, royalty, overriding royalty and other similar interests. The course utilizes the theoretical understanding gained from traditional real property and oil and gas law courses, but teach practical skills not currently taught in the usual classroom setting. Pre- or Corequisite: LAWW 5031. (Typically offered: Fall)

LAWW 5053. Energy Law. 3 Hours.

Energy law governs the life cycle of energy resources, from resource development and generation of electricity to the end use in homes, businesses, and cars. In this growing area of practice, energy lawyers represent energy companies, public utilities, government agencies, and non-profit organizations. The course provides a survey of how different sources of energy - hydropower, oil and natural gas, coal, nuclear energy, and renewables - are regulated. Through this survey, we will consider important policy issues such as public utility regulation and the role of markets; the federal-state balance; and environmental impacts and the future of clean energy. (Typically offered: Irregular)

LAWW 5073. Family Law. 3 Hours.

Devoted primarily to the problems generated by family relationships. There is a large section on formation and dissolution of marriage. Substantial time is also given to paternity and legitimacy, obligations toward and of children, custody, adoption, guardianship, general property law as it is affected by family relationships, and divorce and custody in the federal system (focusing primarily on enforceability of decrees in one state by courts sitting in another state). (Typically offered: Irregular)

LAWW 5083. First Amendment. 3 Hours.

An intensive examination of the legal issues arising under the First Amendment to the United States Constitution, with an emphasis on basic free speech doctrines and the dilemmas posed by interplay between the free exercise and establishment clauses. Prerequisite: LAWW 5114. (Typically offered: Irregular)

LAWW 510V. Law: Study Abroad. 1-6 Hour.

Open to law students studying abroad in officially sanctioned programs. (Typically offered: Irregular)

LAWW 5114. Constitutional Law. 4 Hours.

An introduction to the basic principles of constitutional law and to current constitutional doctrines and problems. The primary focus will be on the structure of the federal system and on the rights of individuals under the Due Process and Equal Protection clauses of the Fifth and Fourteenth Amendments. (Typically offered: Spring)

LAWW 5122. ABOTA Trial Practice Lecture Series. 2 Hours.

Lecture series by experienced and prominent Arkansas trial attorneys, lecturing on case evaluation, jury instructions, witness preparation, scheduling orders, courtroom civility, voir dire, opening statement, direct and cross-examination, objections, and closing arguments. (Typically offered: Spring)

LAWW 5133. Real Estate Transactions. 3 Hours.

Focuses on real estate transfer, real estate finance and real estate development. Issues relating to the sale of land and conveyances of real property, mortgages and the planning, financing, constructing and marketing of modern real estate developments are treated. (Typically offered: Irregular)

LAWW 5163. Administrative Law. 3 Hours.

Course is constructed around Federal materials, but with some state references. Considers the origin and constitutional basis for the administrative process; executive and legislative controls with particular emphasis upon the judicial "control" of the administrative process (delegations, procedural and substantive due process, judicial assistance and enforcement and review of administrative decisions). (Typically offered: Irregular)

LAWW 5191. Deposition Practice. 1 Hour.

The focus of this class is to teach how to take, defend and use depositions in civil cases. There will be extensive study of Rules 28-32 of the Arkansas and Federal Rules of Civil Procedure. Additionally, the State and Federal cases applicable to depositions will be discussed and reviewed. Discussion on the practicality of a deposition such as the timing, scheduling and expenses in depositions. Students will observe parts of several video depositions followed by a discussion. (Typically offered: Irregular)

LAWW 520V. Employment Discrimination. 2-3 Hour.

The study of the significant cases and statutes that protect employees from discrimination based on race, color, religion, sex, national origin, age, and disability, with emphasis on Title VII of the Civil Rights Act of 1964, the Age Discrimination in Employment Act, and the Americans with Disabilities Act. (Typically offered: Irregular)

LAWW 5213. Business Lawyering Skills. 3 Hours.

Provides practical skills instruction through exercises that simulate business client interviews, negotiations, mediation, and arbitration. Multiple written projects are also involved. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 5252. International Commercial Arbitration. 2 Hours.

This course will survey the history, purposes, and processes of international commercial arbitration. (Typically offered: Irregular)

LAWW 527V. Law and Economics. 2-3 Hour.

Law and Economics examines legal and policy issues by critically analyzing whether legal rules provide the greatest good to the greatest number of people. The class offers an introduction to basic economic principles, while providing a useful review of many core law school and bar exam subjects. (Typically offered: Irregular)

LAWW 5293. Cyber Crime. 3 Hours.

This course examines the law governing computer crime and the limits on law enforcement surveillance. We consider substantive crimes such as hacking, identity theft, economic espionage, and online threats before we examine the Fourth Amendment, the Wiretap Act, and other limits on law enforcement. (Typically offered: Irregular)

LAWW 5303. International and Domestic Sales and Leasing. 3 Hours.

Study of Articles 2 and 2A of the Uniform Commercial Code and the United Nations Convention on Contracts for the International Sale of Goods" (Typically offered: Irregular)

LAWW 5313. Payment Systems. 3 Hours.

This course summarizes and explains the fundamental law applicable to a broad variety of current payment systems. Coverage includes issues of liability, transfer, holder in due course status, and check collection applicable to negotiable instruments (checks, notes, drafts) governed by UCC Articles 3 and 4, as well as letters of credit and documents of title governed by UCC Articles 5 and 7. The course further examines the rights, obligations, and federal protection applicable to credit and debit cards. Finally, it addresses recent legal developments in regard to a variety of electronic fund transfers, prepaid cards and digital currencies. (Typically offered: Irregular)

LAWW 5351. Arkansas Constitutional Law. 1 Hour.

This course covers provisions of the Arkansas Constitution, including the Declaration of Rights, the separation of powers, the power of the executive and legislative branches, sovereign immunity, independent commissions, gambling and morality provisions, elections and term limits, taxation and exemptions, taxpayer lawsuits, and other topics. (Typically offered: Irregular)

LAWW 536V. Securities Regulation. 2-3 Hour.

This course explores the federal regulation of securities, with emphasis on the Securities Act of 1933 and the Securities Exchange Act of 1934. Topics examined include: the definition of a securities, public company disclosures, enforcement issues, antifraud rules, and insider trading liability, public offering mechanics, and exempt offerings. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 5382. Employment Discrimination. 2 Hours.

This course focuses on the study of the significant cases and statutes that protect employees from discrimination based on race, color, religion, sex, national origin, age, and disability, with emphasis on Title VII of the Civil Rights Act of 1964, the Age Discrimination in Employment Act, and the Americans with Disabilities Act. Final exam will be a take-home exam. (Typically offered: Irregular)

LAWW 5391. Effective Corporate Compliance Program. 1 Hour.

This course will provide a high-level overview of the importance and structure of an effective compliance program within a business, with the purpose of mitigating legal risk. The Federal Sentencing Guidelines specify the elements of an effective compliance program, and federal agencies like the Office of Inspector General for the Department of Health and Human Services, as well as some state agencies (New York Office of Medicaid Inspector General) have interpreted these or implemented them through regulation. Students who choose to work for a corporation (even in the legal department) will need to be familiar with how that corporation implements the elements of an effective compliance program, so as to effectively defend or advise the corporation. (Typically offered: Irregular)

LAWW 5451. Environmental Torts. 1 Hour.

The focus of this class is common law environmental torts resulting in property damage, including negligence, trespass, strict liability, and nuisance. Presented are the elements of those causes of action and a review of common environmental tort fact patterns. Also discussed are issues associated with environmental torts, such as imputed liability, and defenses. Review remedies for damage to property and individuals. (Typically offered: Irregular)

LAWW 547V. State and Local Government. 2-3 Hour.

As citizens, much of our interaction with the law is local. Local governments determine the location of our nearest grocery store, how high (or low) property taxes will be, whether to maintain a public library, how late bars can serve alcohol, and even whether it is lawful to keep a pet python. Local government activity is significant, immediate, and pervasive. Despite the importance of local government law and institutions, most law school courses focus only on federal and state sources of law with little or no mention of local government. This course aims to address this void by providing a useful overview of core legal doctrines affecting the structure, authority, financing, and liabilities of local government in the United States. The course also covers the theoretical and empirical research underlying those doctrines, and is structured to provide a broad understanding of local government relevant to most United States jurisdictions. (Typically offered: Irregular)

LAWW 5481. Privacy Law. 1 Hour.

Information Privacy and Security Law will explore arguments regarding the importance of informational privacy and provide a high level overview of U.S. laws and regulations including those protecting the privacy of children, students, employees, patients, customers, and citizens. Special attention will be given to the expanding role of the FTC as well as the importance of risk management. Additional issues include government surveillance, drones, mobile device tracking, facial recognition technology, data breach response, online behavioral advertising, and use of "big data". Some international privacy laws as well. (Typically offered: Irregular)

LAWW 550V. Wills, Trusts, and Estates. 1-4 Hour.

This is the study of the traditional areas of wills and trusts (intestate and testate succession). The trusts area includes both the private trust and the charitable trust. Taxation problems are not covered in depth but are instead reserved for the Federal Estate & Gift Taxation course. (Typically offered: Irregular)

LAWW 5513. Labor Law. 3 Hours.

The right to organize; organization of labor unions; strikes; picketing; boycotts; collective bargaining; collective labor agreements and their enforcement; unfair labor practices by employers and by unions; the union member and his union; state labor relations legislation; the National Labor Relations Act and the Labor Management Relations Act. Not offered every year. (Typically offered: Irregular)

LAWW 5523. General Practice Capstone I. 3 Hours.

General Practice Capstone I is designed to provide students with practical information to help them transition from law school to a general practice. Experienced practitioners will present a series of workshops on discrete practice areas like criminal defense, family law, personal injury, depositions, estate planning and probate, legal ethics, and small business advisement. Includes access to practice checklists, pleadings, forms, and law practice aids. (Typically offered: Fall)

LAWW 5533. General Practice Capstone II. 3 Hours.

General Practice Capstone II complements Capstone I, and moves the focus topically to practical lawyering in common administrative law areas. The spring workshop series focuses on administrative proceedings in criminal law (probation, parole, drug court, habeas corpus); in-house details on employment law (employee manuals and termination policies); termination and unemployment including Workers Compensation, Social Security Disability, Veterans Benefits, Nursing Home Administration, Medicare and Medicaid. (Typically offered: Spring)

LAWW 5543. International Business Transactions. 3 Hours.

Course is designed to provide students with a general knowledge of the kinds of laws applicable to international business issues, and increased expertise in problem-solving. (Typically offered: Irregular)

LAWW 5600. Law Research Assistant. 0 Hours.

Law Research Assistant is a zero-credit course available to students who work with or under the supervision of a faculty member on a research project that contributes significantly to faculty research, course preparation or presentation, or other scholarly work for or under the direction of a faculty member. Except as otherwise approved by the supervising faculty member with the concurrence of the Associate Dean for Academic Affairs, only students who have successfully completed or are currently registered for Law 5622 Essential Legal Research may enroll. Students who are working on research with or under the direction of a faculty member must have the written pre-approval of the supervising faculty to be registered and must obtain from the Law School Registrar and complete and submit to the Registrar the course request form. (Typically offered: Fall, Spring and Summer)

LAWW 5613. Capital Punishment. 3 Hours.

This course examines the death penalty in America. It considers whether we can ever justify imposing the death penalty and whether we can do so fairly. But we will focus on Supreme Court cases to understand how the death penalty works in practice. (Typically offered: Irregular)

LAWW 5622. Essential Legal Research. 2 Hours.

This course covers the strategies, techniques, books, and databases essential to perform cost-effective legal research necessary for the practice of law and to assist faculty members as research assistants. (Typically offered: Fall and Spring)

LAWW 5643. International Criminal Law. 3 Hours.

This course will survey important topics in international criminal law such as genocide, war crimes, and crimes against humanity. It will trace the use of international tribunals from the Nuremberg and Tokyo tribunals to the International Criminal Court to enforce these international criminal laws. (Typically offered: Irregular)

LAWW 5662. Mergers and Acquisitions. 2 Hours.

This course examines the legal and business considerations involved in the purchase and sale of a business, including an in-depth look at various transactional structures and the implications for shareholder voting, appraisal rights, along with an extensive review of director duties at all stages of the deal. Pre- or Corequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 567V. Nonprofit Organizations. 2-3 Hour.

This course examines issues relating to the organization, operation, governance, and dissolution of various nonprofit entities, including charitable and public benefit corporations. Topics covered include the regulation of charitable contributions and their solicitation, obtaining and protecting tax-exempt status, and political and business activities of nonprofit organizations. (Typically offered: Irregular)

LAWW 5692. Rule of Law Colloquium. 2 Hours.

Course is about inquiry and exploration. Course covers the Foreign Corrupt Practices Act, the UK Bribery Act, and other anti-corruption initiatives. The context of why corruption exists and ways to address it, including through means other than legal prohibitions. (Typically offered: Irregular)

LAWW 5701. Baseball and the Law. 1 Hour.

This course includes cases on the power of the commissioner; the taxes of a Dodger shortstop; antitrust law and Curt Flood; ownership of Barry Bond's home run ball #73; negligence at Wrigley Field; removal jurisdiction and Pete Rose; publicity rights to the Babe; criminal law and the Black Sox; trademark law. (Typically offered: Irregular)

LAWW 5771. Mergers and Acquisitions Drafting Lab. 1 Hour.

This course exposes students to an array of documents used accomplish mergers and acquisitions of companies. Throughout the semester, students draft a series of agreements, which parallel the development of a typical acquisition, including confidentiality agreements, letters of intent, purchase agreements, and opinion letters. Pre- or Corequisite: LAWW 5662. (Typically offered: Irregular)

LAWW 5881. Arkansas Landlord Tenant Law. 1 Hour.

The course will explore Arkansas landlord tenant law along with proposals for revision of the law. Topics covered will be the forcible entry and detainer statute, the security deposit statute, the failure to vacate statute, the residential landlord tenant act, and Arkansas's limitation on tort liability for landlords. Discussion on the federal laws governing HUD tenancies and the greater rights afforded in those tenancies. The course will discuss both theory and practice. (Typically offered: Irregular)

LAWW 599V. Debtor-Creditor Relations. 3-4 Hour.

Study of Article 9 of the Uniform Commercial Code and of the remedies of unsecured creditors. (Typically offered: Irregular)

LAWW 602V. Independent Legal Research. 1-3 Hour.

Independent legal research conducted under the supervision of faculty members. Ordinarily a student may not accumulate more than two semester hours of credit for Independent Legal Research. This cumulative maximum may be exceeded only by special permission of the dean, who in exceptional circumstances may approve a cumulative maximum credit of three semester hours of credit for Independent Legal Research. (Typically offered: Fall, Spring and Summer)

LAWW 603V. Federal Courts. 1-3 Hour.

Focus is on essential aspects of federal court procedure, the scope and limits of federal judicial power, and the underlying principles of federalism and separation of powers. Topics will include federal court jurisdiction, the power of Congress to limit that jurisdiction, Supreme Court review of state court judgments, and abstention and justiciability doctrines. (Typically offered: Irregular)

LAWW 6063. Advanced Evidence. 3 Hours.

Deals with the use of expert witnesses, forensic sciences and scientific evidence, organization of proof, burden of proof, presumptions, and the law of privileges. (Typically offered: Irregular)

LAWW 607V. Conflict of Laws. 2-3 Hour.

Study of the legal principles involved in problems which have connections with two or more states requiring a choice-of-law, choice-of-law in federal courts, and jurisdiction in multi-state situations. (Typically offered: Irregular)

LAWW 6093. Basic Evidence. 3 Hours.

Study of the rules of evidence under which trials are conducted; the methods by which items of evidence are admitted or excluded; relevancy, real evidence, testimonial proof, and hearsay and its exceptions. (Typically offered: Irregular)

LAWW 611V. Interschool Competition Team. 1-2 Hour.

Interschool Competition Team provides an avenue for outstanding student advocates to register their completion of a rigorous interschool competition for purposes of academic credit. Students may register for this credit after satisfying the standards for approval of non-graded credit for Interschool Competition Credit, as outlined in the University of Arkansas School of Law Board of Advocates Bylaws and relevant Bylaw and Academic Standards provisions, as promulgated by the Faculty. (Typically offered: Fall and Spring)

LAWW 6133. Antitrust Law. 3 Hours.

Federal anti-trust laws and their relationship to concentrations of economic power in the contexts of monopoly mergers, price fixing, economic boycotts and discrimination, re-sale price maintenance, dealer franchises, and exclusive dealing. Comparative analysis of free enterprise market and government regulated industries. Recommended for second- and third-year students interested in business practice or government service, as well as social welfare, or students with an interest in the subject. (Typically offered: Irregular)

LAWW 6143. Oil and Gas. 3 Hours.

Study of the law of oil and gas with emphasis on the interests that may be created in oil and gas, the rights of the landowner, provisions in the oil and gas lease, the rights of assignees, and legislation dealing with production and conservation. (Typically offered: Irregular)

LAWW 614V. Board of Advocates Credit. 1-4 Hour.

Members of the Board of Advocates may receive ungraded academic credit, to be awarded in the spring semester of the member's third year in law school, upon completion of duties for the fall and spring semesters. (Typically offered: Fall, Spring and Summer)

LAWW 615V. Elder Law. 1-2 Hour.

Course covers the unique legal issues of the elderly including physical and mental characteristics of the elderly and how to adequately represent their needs; unique housing issues that progress from help at home to nursing home placement and how to pay for services with Medicaid and VA benefits; Medicaid and VA rules and planning for benefits; and the need for specific documents dealing with their impending incapacity, eventual death and passing with dignity. (Typically offered: Irregular)

LAWW 616V. Law Review Credit. 1-4 Hour.

Law review credit. (Typically offered: Fall, Spring and Summer)

LAWW 6173. Introduction to Intellectual Property Law. 3 Hours.

This is an overview course covering the basics of intellectual property law (IP law). Thus, this course focuses on the protection of proprietary rights in inventions, writings, creative expression, software, trade secrets, trade designations, and other intangible intellectual products by federal patent, copyright, trademark and unfair competition law, and by state trade secrecy and unfair competition law. The course aims to give students entering a general business or civil litigation practice an overview of the various intellectual property doctrines. The course is designed both for those who are interested in pursuing IP as a career, and those who are looking only for a basic knowledge of the subject. There are no prerequisites, and a scientific background is not required. J.D. students and non-law students are welcomed. (Typically offered: Irregular)

LAWW 6182. Advanced Torts: Dignitary and Economic Harm. 2 Hours.

Course will cover defamation, the rights of privacy (including information privacy) and publicity, harm to family relationships, malicious prosecution and interference with common law civil rights. (Typically offered: Irregular)

LAWW 618V. Journal of Food Law & Policy Credit. 1-5 Hour.

Students receive credit for completion of duties on the Law School's publication of The Journal of Food Law & Policy. (Typically offered: Spring)

LAWW 6192. Workers' Compensation. 2 Hours.

Study of state legislation providing remedies for workers injured in the course of their employment. Not offered every year. (Typically offered: Irregular)

LAWW 6193. Workplace Legislation. 3 Hours.

An in-depth look at workplace statutes and the interpretive regulations along with significant and recent case law. Emphasis on wage and hour law, the Family Medical Leave Act, Occupational Safety and Health law and Arkansas Unemployment Compensation law. (Typically offered: Irregular)

LAWW 6203. Trial Advocacy. 3 Hours.

An introduction to actual trial work and trial techniques through simulated exercises and the conduct of a mock trial. This course will satisfy the skills requirement. Pre- or Corequisite: LAWW 6093. (Typically offered: Fall and Spring)

LAWW 621V. Products Liability. 2-3 Hour.

An intensive study of the area including a review of the theories of liability; the concepts of product and defect; potential defendants; defenses; problems of proof and causation. (Typically offered: Irregular)

LAWW 6223. Oil & Gas Regulation and Agreements. 3 Hours.

Oil and gas exploration and production is an important component of the economy of Arkansas and neighboring states. Out of necessity, this industry is highly regulated in every jurisdiction, but the manner of regulation varies widely from state to state. This course examines the rationale for such regulation, while comparing the regulatory approach of three neighboring states, Arkansas, Texas and Oklahoma which are typical examples of varying types of regulation. This course is designed to complement, rather than duplicate the basic Oil and Gas course, and will normally use the same casebook. A primary goal of this course is to learn how this regulation both shapes and constrains the ways that oil and gas industry operates. We also examine forms of agreement commonly used in oil and gas transactions to help students understand the functions of those, as well as their typical provisions. The course should be helpful to anyone whose practice may involve representing those who interact with the oil and gas industry, such as landowners, as well as those students considering an oil and gas related career. The guiding approach to the class is to provide the student with familiarity and understanding of the law that is involved in the real-world drilling, completing, and selling production from oil and gas operations, including today's unconventional plays, such as the Fayetteville Shale Play in Central Arkansas. (Typically offered: Irregular)

LAWW 6233. Federal Income Tax of Individuals. 3 Hours.

Fundamentals of the federal income taxation of individuals. Topics covered include gross income, deductions, assignments of income, basis, taxation of property transactions, and tax accounting. (Typically offered: Irregular)

LAWW 6243. Federal Estate and Gift Taxation. 3 Hours.

Fundamentals of the federal estate and gift transfer tax system. Topics covered include the determination of gifts for tax purposes, amounts included in decedents' gross estates, valuation, deductions and credits. (Typically offered: Irregular)

LAWW 6253. Federal Income Taxation of Business Entities. 3 Hours.

Focus on tax issues in business formation, operation, distributions, and liquidations. Prerequisite: LAWW 6233. (Typically offered: Irregular)

LAWW 6262. Estate Planning. 2 Hours.

Study of the role of lawyers (including ethical considerations) in fact gathering and analysis of data; testamentary and nonprobate transfers; planning for incapacity; Medicaid, income tax, and transfer tax considerations in small and large estates; gift techniques; planning for the surviving spouse; revocable and irrevocable trusts; life insurance; disposition of business interests; and post-mortem tax planning. Students are strongly encouraged to take either Wills, Trust and Estates or Federal Estate and Gift Taxation prior to taking the course. (Typically offered: Irregular)

LAWW 629V. Public Corporations. 2-3 Hour.

A survey of topics applicable to publicly owned corporations, including: corporate governance; shareholder communication and proxy regulation; introduction to corporate finance and dividend policies; mergers and acquisitions; tender offer regulation; aspects of securities regulation; and insider trading. Prerequisite: LAWW 4294. (Typically offered: Irregular)

LAWW 631V. Interschool Competition Team. 1-2 Hour.

Interschool Competition Team provides an avenue for outstanding student advocates to register their completion of a rigorous interschool competition for purposes of academic credit. Students may register for this credit after satisfying the standards for approval of non-graded credit for Interschool Competition Credit, as outlined in the University of Arkansas School of Law Board of Advocates Bylaws and relevant Bylaw and Academic Standards provisions, as promulgated by the Faculty. (Typically offered: Fall and Spring)

LAWW 6323. Poverty Law: Theory and Practice. 3 Hours.

Considers the implications of statutory and constitutional provisions that relate to several substantive areas of poverty law practice including public benefits, employment, consumer, health and family law. Prerequisite: LAWW 5114. (Typically offered: Irregular)

LAWW 633V. Intellectual Property. 2-3 Hour.

This course involves an introductory survey of topics in intellectual property, including copyright, trademark, patent, and unfair competition issues. If time permits, the course may also cover certain aspects of e-commerce. (Typically offered: Irregular)

LAWW 6343. Conflict Resolution. 3 Hours.

Explores methods utilized in the legal profession for resolving disputes. Students develop skills by participating in simulation exercises designed to identify and apply processes. Class readings/discussion on theory and practice will be followed by student simulations. (Typically offered: Irregular)

LAWW 635V. Arkansas Law Notes Credit. 1-4 Hour.

Arkansas Law Notes is published online as a student-run law journal by the University of Arkansas School of Law to members of the bar and the law school community at arkansaslawnotes.com. The publication features articles and current research, including student works. Law Notes is a tradition of the School of Law, dedicated to providing timely and insightful research on a variety of subjects to members of the bar. Law Notes is produced under the guidance of Professors Lonnie Beard, Uche Ewelukwa, and Brian Gallini. A mark of "CR" will be given. (Typically offered: Irregular)

LAWW 6364. Legal Clinic: Immigration. 4 Hours.

Immigration Clinic will provide opportunities for students preparing for a career in immigration law or general practice by developing skills that are critical in legal practice through an experiential learning model. Working under the supervision of a clinical faculty member, students will represent sectors of the immigrant population for graded credit. Criminal Procedure and Professional Responsibility are prerequisites, as well as the completion of at least forty-eight credit hours prior to enrollment. Prerequisite: LAWW 5013. (Typically offered: Irregular)

LAWW 6374. Legal Clinic: Federal Practice. 4 Hours.

In this experiential course students are closely supervised in the preparation and filing of consumer Chapter 7 bankruptcy cases for individuals and spouses from intake interview through discharge. The skill set taught includes information and fact gathering during a series of taped interviews, ethically handling trust account monies, drafting and filing the bankruptcy petition using document assembly software, appearance before the U.S. Trustee at the First Meeting of Creditors, and negotiating with bankruptcy trustees, creditors and other interested parties. The basic course is for 4 credit hours, and the Advanced course is available for an additional 2 credit hours. The expected learning outcome is to have students gain competence in providing representation in Chapter 7 consumer bankruptcies. (Typically offered: Irregular)

LAWW 6393. Legal Clinic: Transactional. 3 Hours.

Rule 15 certification requires completion of 48 hours, including all first year classes and Professional Responsibility. Students receive clinical legal experience counseling and representing non-profit organizations serving Northwest Arkansas in a wide range of non-litigation business law matters. Services include startup, incorporation, obtaining federal and state tax exemptions, change of business form, purchase and lease of real and personal property, employment and labor law issues, and general contract negotiation, drafting and execution. In addition, students prepare and participate as presenters in a workshop on matters of general interest to non-profit organizations. Legal Clinic Faculty supervise and review the student attorney's work, and provide personal feedback to the individual student attorneys. Prerequisite: LAWW 5013. (Typically offered: Irregular)

LAWW 6403. Land Use. 3 Hours.

Covers public land use controls such as zoning, subdivision regulations, and eminent domain (including private property rights, takings, and inverse condemnation). Heavy emphasis is placed on planning at state and local levels. (Typically offered: Irregular)

LAWW 6413. Legal Clinic: Advanced Criminal Practice. 3 Hours.

The Advanced Criminal Practice Clinic is a 3-credit course offered after a student has successfully completed Criminal Practice Clinic. Students who wish to continue work on existing cases or work on more complicated criminal matters, may apply to enroll in the Advanced Criminal Practice Clinic. Professor approval is required for enrollment. Prerequisite: LAWW 6424. (Typically offered: Irregular)

LAWW 6424. Legal Clinic: Criminal Practice Clinic. 4 Hours.

The Criminal Practice Clinic represents clients charged with misdemeanor and simple felony charges primarily in Washington County. Under close faculty supervision, students develop their ability to effectively and ethically practice law while providing much-needed legal assistance. In addition to client representation, and court appearances, students participate in a weekly seminar. Qualification for Rule XV practice. Prerequisite: LAWW 6093, LAWW 4173, and LAWW 5013. (Typically offered: Irregular)

LAWW 6453. American Legal History. 3 Hours.

An examination of major themes in American legal history, with an emphasis on the origins and meaning of the United States Constitution. Various topics will be explored in the light of the original understandings, developments over time, and current interpretations by the courts and the body politic. (Typically offered: Irregular)

LAWW 646V. Student Coordinating Attorney. 1-3 Hour.

The School of Law recognizes the educational value of placements under the supervision of licensed, experienced attorneys, and offers students the possibility of public service learning opportunity serving as a student coordinating attorney for 2-3 credits of ungraded credit if approved by the designated Faculty Supervisor. This option shall be available only to a student with a cumulative GPA of at least 2.0 who has successfully completed 30 hours of Law School classes including Professional Responsibility, and who has obtained and submitted at least one recommendation from a faculty member who has had that student in at least one class in the past 12 months. A student coordinating attorney is a pro-bono position involving exposure to real world situations, involving some aspect of public service, where a lawyer's expertise and insights will be called for and can be observed. Placement is restricted to the courses offered in all of the clinics offered at the law school. This position covers an entire semester (15 weeks during the spring and fall, and 10-12 weeks during the summer). For a two-credit student coordinating attorney position, the average work load must be no less than 8 hours per week in the fall and spring, or 10 hours per week in the summer. For a three-credit student coordinating attorney position, the average work load would be no less than 12 hours per week in the fall and spring, or 15 hours per week in the summer. Application required and must be completed in writing and delivered to the Faculty Supervisor no later than October 15 of the preceding semester for a spring semester student coordinating attorney position, no later than March 15 for a summer or fall semester student coordinating attorney position. (Typically offered: Fall and Spring)

LAWW 648V. Special Topics (Skills). 1-3 Hour.

Special Topics (Skills) is a course where "class names" allow for a menu of course titles that provide substantial instruction in professional skills related to the responsibilities which lawyers are called upon to meet such as trial and appellate advocacy, alternative methods of dispute resolution, counseling, interviewing, negotiating, problem solving, factual investigation, organization and management of legal work, drafting, and analytical processes for applying those skills in ethical fashion. (Typically offered: Fall, Spring and Summer) May be repeated for up to 15 hours of degree credit.

LAWW 6493. Law and Psychology. 3 Hours.

This course covers key aspects of the relationship between law and psychology. Examples include: the regulatory effect on clinical practice of statutes, administrative regulations, and court decisions; and the influence of psychological expertise on legal decision-making through expert testimony in trial courts and amici briefs in appellate courts, testimony before legislative and administrative bodies, publication of research results, and provision of clinical services to correctional populations and public service occupations. (Typically offered: Irregular)

LAWW 650V. International Externship. 1-5 Hour.

International Externships are experiences available in the summer to students having completed 30 hours toward the JD degree. Students work variable hours and weeks, in law offices, non-profit/ public interest/government agencies dealing with international matters. By participating in/observing various tasks, students are exposed to international legal practice and issues of professional responsibility in an international context. There is a Field and an Academic Component to this course. (Typically offered: Irregular) May be repeated for up to 10 hours of degree credit.

LAWW 6513. Immigration Law and Policy. 3 Hours.

Study of immigration and nationality, including exclusion and deportation; political asylum and refugee status; visa allocation and distribution; labor certification; and naturalization and citizenship. It is recommended that Administrative Law be taken first. (Typically offered: Irregular)

LAWW 6523. Employment Law. 3 Hours.

An overview of the law governing various aspects of the employment relationship, both statutory and common law. Covers the establishment and parameters of employment, the security of the worker, employer's rights, and terminations. (Typically offered: Irregular)

LAWW 654V. Public Interest Externship. 1-3 Hour.

Public Interest Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/week over 14 weeks (variable in summer) -- serving an underprivileged population in traditional and non-traditional public service and public interest sectors. By participating in/ observing various tasks, students develop legal and professional skills appropriate to various areas and types of law. There is a Field and an Academic Component to this course. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

LAWW 6553. Arbitration Skills. 3 Hours.

This course explores the practical as well as the legal problems presented by the use of alternative dispute resolution (ADR) to resolve disputes, with an emphasis on employment. While other areas of ADR will be touched upon, such as mediation and peer-review, the primary focus of the course will be on arbitration as the means to resolve problems in the workplace and commercial context generally. The course provides instruction and practice (through a variety of simulations) assessing all aspects of arbitration, including when/whether to arbitrate, selecting the arbitrator, conducting an arbitration, and post-hearing issues. Students will become familiar with the most common techniques and strategies that lawyers use in employment arbitration, and should be better prepared to represent your client's interests in that proceeding. (Typically offered: Irregular)

LAWW 6562. Legal Clinic: Advanced Immigration. 2 Hours.

The Advanced Immigration Law Clinic allows students to obtain an additional 2 credits of experience. Only students who have completed the Immigration Law Clinic may take the Advanced course in a subsequent semester. The Clinic provides opportunities for students preparing for a career in immigration law by developing skills that are critical in legal practice through an experiential learning model. The Clinic allows for continuity in cases, as well as opportunities to handle more advanced and diverse cases. The Clinic is offered to 2-3 students per semester. Each will receive 2 credits. Students are expected to work approximately 4 hours per credit hour, per week, including work done for class preparation, group work, individual meetings, and representation. Students are chosen through an application process including a brief statement on interest in Immigration Law and goals for study in the Advanced Clinic. Prerequisite: LAWW 6364. (Typically offered: Fall and Spring)

LAWW 660V. Government Externship. 1-3 Hour.

Government Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/week over 14 weeks (variable in summer) -- alongside government attorneys, exposing students to legal issues and practice in government agencies. By participating in/ observing various tasks, students develop legal and professional skills appropriate to government work. There is a Field and an Academic Component to this course. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

LAWW 661V. Bankruptcy. 2-3 Hour.

Study of insolvency law, with particular emphasis on federal bankruptcy law. (Typically offered: Irregular)

LAWW 6633. Criminal Procedure II. 3 Hours.

This course focuses on prosecuting crime. Principal topics include: the prosecutor's decision to charge, the role of defense counsel, initial appearance, bail and pretrial release, grand juries and preliminary hearings, discovery, guilty pleas and plea bargaining, speedy trial, double jeopardy, trials and pretrial motions, sentencing and post-conviction remedies. (Typically offered: Irregular)

LAWW 6702. Copyright Law. 2 Hours.

The nature of the rights, acquisition and enforcement, and property and contract interests in copyrights. (Typically offered: Fall, Spring and Summer)

LAWW 671V. Judicial Externship. 1-3 Hour.

Judicial Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time - 12 hours/week over 14 weeks (variable in summer) - in judicial chambers, exposing students to the court system and the adjudication of cases from the judge's perspective. By observing proceedings/engaging in research/judicial writing, students develop legal and professional skills appropriate to litigation. There is a Field and an Academic Component to this course. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

LAWW 673V. Criminal Defense Externship. 1-3 Hour.

Criminal Defense Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/ week over 14 weeks (variable in summer) -- alongside Public Defenders, exposing students to criminal law and strategy from the defense perspective. By participating in/observing various tasks, students develop legal and professional skills appropriate to criminal defense world. There is a Field and an Academic Component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 676V. Capstone Externship. 1-12 Hour.

Capstone Externships are experiences available to students having completed 60 hours toward the JD degree. These full-time externships place students alongside working attorneys in any one of the externships below -- 35-40 hours/week over 15 weeks (10-12 weeks in summer) -- exposing students to greater responsibility and more in-depth projects. There is a Field and an Academic Component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 681V. Legislative Externship. 1-2 Hour.

The Legislative Externship exposes students to the role of the legislator and the legislative process. It is available for three credits (at least 168 hours on-site) to students who have completed 30 hours of law school credits, and who will serve the externship in a legislative office in Washington D.C., or in a state capital during a legislative session. By observing/participating in various tasks, students develop legal and professional skills necessary to both the legislative and general practice of law. The course has a field and an academic component. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 6822. Patent Law. 2 Hours.

Study of the patent system of the United States, including conditions for a valid patent, procedures of the patent office, and litigation relating to patents. Not offered every year. (Typically offered: Irregular)

LAWW 683V. Criminal Prosecution Externship. 1-3 Hour.

Criminal Prosecution Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 12 hours/week over 14 weeks (variable in summer) -- alongside prosecutors, exposing students to criminal law and strategy from the prosecutorial perspective. By participating in/observing various tasks, students develop legal and professional skills appropriate to criminal prosecution. There is a Field and an Academic Component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 6843. Legal Clinic: Advanced Civil Litigation and Advocacy Clinic. 3 Hours.

The advanced clinic is a 3-credit course offered after a student has successfully completed the Civil Litigation and Advocacy Clinic. Students who wish to continue work on existing cases or work on more complex clinic matters, may apply to enroll. Prerequisite: LAWW 6924. (Typically offered: Irregular)

LAWW 686V. Corporate Counsel Externships. 1-4 Hour.

Corporate Counsel Externships are experiences available to students having completed 30 hours toward the JD degree. Students work part-time -- 16 hours/week over 14 weeks (variable in summer) -- alongside attorneys in traditional legal departments/non-traditional business-compliance areas, exposing students to legal issues facing these attorneys daily. By observing/participating in various tasks, students develop legal and professional skills appropriate to corporations. There is a Field and an Academic component to this course. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

LAWW 6873. Legal Clinic: Advanced Transactional Clinic. 3 Hours.

Students who have successfully completed the Transactional Clinic in the fall or spring semester may enroll for 3 hours of graded credit in the Advanced Transactional Clinic in any subsequent semester. Students will be assigned a normal client load during both semesters. In the summer students may enroll in Transactional Clinic and Advanced Transactional Clinic during the same term. Students will be assigned to provide legal representation to qualified nonprofit organizations under the supervision of a faculty member. Students will have the opportunity interview and counsel nonprofit entities and perform a number of transactional legal services for corporate clients including: drafting bylaws, preparing and filing articles of incorporation, completing and submitting applications for tax exempt status with state and federal tax agencies; and preparing and filing articles of dissolution. Admission to Advanced Clinic in connection with any of the eligible clinic courses is limited and by approval of the faculty member. Prerequisite: Qualification for Rule XV practice. (Typically offered: Irregular)

LAWW 6913. Environmental Law. 3 Hours.

Devoted primarily to the legal problems related to the environment. Included is consideration of environmental impact in public and private decision making. (Typically offered: Irregular)

LAWW 6924. Legal Clinic: Civil Litigation and Advocacy Clinic. 4 Hours.

Students will represent low-income clients seeking to enforce their rights in civil matters. Under close faculty supervision, students will develop and refine their ability to effectively and ethically practice law. Students will handle all aspects of client representation, including interviewing and counseling, fact investigation and discovery, negotiation, and court appearances. Students will also participate in a weekly seminar and may have the opportunity to engage in other forms of advocacy. Cumulative GPA of 2.00, successful completion of 48 semester hours, including Civil Procedure I and II, Criminal Procedure, Evidence, and Professional Responsibility, and qualifying for Rule XV practice. Prerequisite: LAWW 4173, LAWW 5013 and LAWW 6093. (Typically offered: Fall and Spring)

LAWW 6943. Public International Law. 3 Hours.

Principles of international law involving relations among government. The function of international tribunals and organizations. (Typically offered: Irregular)

LAWW 697V. Legal Clinic: Advanced Federal Practice. 2-3 Hour.

Legal Clinic: Advanced Federal Practice provides opportunities for students preparing for a career in consumer bankruptcy law by developing skills that are critical in legal practice through an experiential learning model. The Advanced Federal Practice Clinic will allow for continuity in cases, as well as opportunities to handle more advanced and diverse cases. Offered to 2-3 students each semester, students enrolled in this course must have taken Federal Practice Clinic, gaining basic knowledge of bankruptcy law and procedure. Students are expected to work approximately 4 hours per credit hour, per week, including work done for class preparation, group work, individual meetings, and representation. Students are chosen through the application process. Prerequisite: LAWW 6374. (Typically offered: Fall and Spring)

LAWW 7012. Juvenile Justice Seminar. 2 Hours.

Examines procedural and substantive law in the context of the distinctive goals, structure, and procedure of the Juvenile Court. Special attention is given to alternative ways of dealing with two categories of juveniles, i.e., status offenders who are within the jurisdiction of the court although not accused of criminal conduct, and youthful offenders who commit serious crimes. (Typically offered: Irregular)

LAWW 7031. Regulation of Livestock Marketing and Sales. 1 Hour.

Study of the regulation of livestock and poultry sales under the Packers and Stockyards Act, with a particular focus on production contracting, mandatory price reporting, industry concentration, and antitrust issues. (Typically offered: Spring)

LAWW 7042. Federal Regulation of Food Labeling. 2 Hours.

Study of the federal laws regarding the labeling of food, considering both FDA and USDA regulation. The course includes the study of nutrition labeling, health claims, advertising issues, and efforts to curb the obesity epidemic through educational labeling. (Typically offered: Fall)

LAWW 706V. Sports Law. 2-3 Hour.

The major topics covered include significant contract issues, tort liability involving participants, institutions, physicians and equipment manufacturers, criminal liability, drug testing, constitutional and related issues dealing with sports associations and Title 9 and gender equity issues. Other relevant topics may also be covered if possible. (Typically offered: Irregular)

LAWW 7071. Agricultural Cooperatives and Local Food Systems. 1 Hour.

Introduction to the legal structure of a cooperative and examination of the recent use of the cooperative model in encouraging local and regional food systems. (Typically offered: Irregular)

LAWW 7073. Mediation in Practice. 3 Hours.

This three credit course is an introduction to the process of mediation and focuses on mediation theory and practice. The course provides a comprehensive overview of the mediation process, including the role of the mediator, litigants, attorneys, the courts and other relevant participants. Students are taught the basic skills needed to participate in a mediation as a mediator or as an advocate, and introduced to the ways in which mediation is used in various settings such as state and federal courts, and government agencies. Because this is a skills class, it includes a lot of interactive work, including simulated mediations. All students are required to actively participate in the simulated mediations. (Typically offered: Irregular)

LAWW 708V. Selected Issues in Agricultural and Food Law. 1-3 Hour.

Specialized study of one or more current issues in agricultural and food law, regulation, and policy. (Typically offered: Spring)

LAWW 709V. Agricultural Bankruptcy. 1-2 Hour.

Examination of bankruptcy law as applied to agricultural operations, including Chapter 12 - Family Farmer Reorganization. No prior knowledge of bankruptcy is required. (Typically offered: Spring Even Years)

LAWW 710V. Agricultural Biotechnology. 1-2 Hour.

Study of the regulation of agricultural biotechnology, including the approval process for new technologies, the patenting of new products and technologies, and the restrictions associated with their use. (Typically offered: Irregular)

LAWW 7111. Introduction to Agricultural Taxation. 1 Hour.

Overview of federal income tax law as applied to agricultural operations. (Typically offered: Irregular)

LAWW 713V. Agricultural Water Law. 1-2 Hour.

Study of the basic legal principles applicable to water rights through consideration of water rights for agricultural use. (Typically offered: Spring)

LAWW 714V. The Right to Food. 1-3 Hour.

Is the right to adequate food recognized as a human right under international law? Should the right to adequate food be recognized as a human right? How is the human right to adequate food defined & implemented? What are the core elements of the right to adequate food? What is the scope of this right? What are the present and future threats to the right to food? How are individuals & communities whose right to food are compromised fighting back? This course introduces the principle & concept of the human right to adequate food and its practical application and implications. (Typically offered: Irregular)

LAWW 7211. Energy Policy and Agriculture. 1 Hour.

Survey of the legal dimensions of various energy issues occurring on agricultural lands and in rural areas, including wind power, solar power, ethanol production, power line transmission, and fracking. (Typically offered: Irregular)

LAWW 7231. Specialized Legal Research and Writing. 1 Hour.

Legal writing skill development, including training in plain-English legal writing, electronic research training, and publication strategies. (Typically offered: Fall)

LAWW 7243. Health Law. 3 Hours.

An examination of the role of the law in determining access to and regulation of the quality of services provided by the health care industry. (Typically offered: Irregular)

LAWW 726V. Farmed Animal Welfare Law and Policy. 1-2 Hour.

Examination of the legal issues involved in determining welfare standards for animals raised for food. In addition to introducing federal animal welfare and humane slaughter laws, state referenda, state law standards, and so-called "ag gag" laws are studied. (Typically offered: Irregular)

LAWW 727V. Food Safety Litigation. 1-2 Hour.

Examination of food borne illness litigation with an initial introduction to food product liability followed by the study of actual cases brought against food manufacturers. (Typically offered: Fall)

LAWW 7302. International Business Transactions. 2 Hours.

International business transactions. (Typically offered: Irregular)
This course is equivalent to LAWW 5543.

LAWW 7312. Agricultural Perspectives. 2 Hours.

Agriculture has a rich and varied history, and today's issues are often best understood in the context of this history. This course examines a wide range of social and economic issues, considering their origin and how history is reflected in today's policies. The course includes a series of documentaries. (Typically offered: Spring)

LAWW 7321. Agricultural Policy and the Federal Budget. 1 Hour.

Study of the impact of the Office of Management and Budget and the cost scoring system on federal agricultural policy making in Washington, D.C. Current farm policy issues are discussed within the context of budgetary constraints and pressures. (Typically offered: Fall)

LAWW 740V. Federal Farm Programs and Crop Insurance. 1-2 Hour.

Survey of the complex network of federal farm programs and federal crop insurance programs that are available to U.S. producers. (Typically offered: Fall)

LAWW 741V. Food, Farming and Sustainability. 1-3 Hour.

Survey of the complex legal topics that make up the body of agricultural and food law focusing on current issues of significance. (Typically offered: Fall)

LAWW 742V. Global Food Security. 1-2 Hour.

Survey of the role of law and policy in affecting problems of global food security in the face of increasing population, changing diets, environmental pressures, and climate change. (Typically offered: Irregular)

LAWW 744V. Selected Issues in International Food and Agriculture. 1-3 Hour.

Specialized study of one or more selected legal/policy issues related to international agriculture and food systems. (Typically offered: Spring)

LAWW 7511. Introduction to the Law of Food and Agriculture. 1 Hour.

Orientation course that provides an overview of the legal and policy issues presented by the production of food and fiber, including a discussion of structural changes in agriculture, sustainability issues, and trends in consumer interest. (Typically offered: Fall)

LAWW 760V. Bankruptcy - Business Reorganizations. 2-3 Hour.

Examines the rules and tactics governing the reorganization of a struggling business or farm under Chapter 11 of the Bankruptcy Code. Students will reorganize a hypothetical failing business as a part of the course. (Typically offered: Irregular)

LAWW 7612. Advanced Consumer Bankruptcy. 2 Hours.

Study of recent developments in the law of bankruptcy as it applies to consumer and non-consumer transactions. (Typically offered: Irregular)

LAWW 762V. Legal Issues: Indigenous Food and Agriculture. 1-2 Hour.

Overview of the legal, historic, social, and economic issues important to sustainable food and agriculture development in Indian Country. It features in-depth discussion of historic and emerging issues including land use challenges, tribal food and agriculture code development, and barriers to effective agriculture development. (Typically offered: Irregular)

LAWW 763V. Regulated Markets in Agriculture. 1-2 Hour.

Study of the economic regulation of specific sectors of the agricultural industry focusing on perishable agricultural commodities (fruits and vegetables), and dairy products. Included is the study of formal and informal administrative review. (Typically offered: Spring)

LAWW 764V. Practicum in Agricultural & Food Law. 1-4 Hour.

This experiential course provides LL.M. candidates with an opportunity to work with agencies, advocacy organizations, businesses, and others engaged in agricultural & food law practice and policy throughout the country. Work can be performed on-site or via distance. Prerequisite: Only available to students admitted to the LL.M. Program. (Typically offered: Fall, Spring and Summer)

LAWW 765V. Intellectual Property Issues in the Food & Agricultural Sector. 1-3 Hour.

This course offers an overview of the key IP issues in food and agriculture. The focus is on five types of IP - Trademarks, Trade Secrets, Geographical Indicators (GIs), Copyrights, and Patents. The course will introduce students to IP law (domestic, regional and global) and will look at the expansion of IPRs in food and agriculture. (Typically offered: Irregular)

LAWW 7662. American Indian Law. 2 Hours.

Study of the domestic federal law of the United States as it applies to Native Americans and their tribes. The general concept of tribal self-determination is the unifying theme of the course. Particular topics include tribal sovereignty and government; American Indian civil rights; administration of justice on and off the reservation; American Indian land claims; land, hunting, and fishing rights; water rights; American Indian health, education, and welfare; Bureau of Indian Affairs; state taxation; individual and tribal treaty rights; federal Indian policy; and zoning and environmental controls. (Typically offered: Irregular)

LAWW 770V. Advanced Writing in Agricultural and Food Law. 1-4 Hour.

Research in a specialized area of agricultural or food law and development of a paper that demonstrates rigorous legal analysis and quality legal writing. (Typically offered: Spring) May be repeated for degree credit.

LAWW 771V. Independent Research in Agricultural and Food Law. 1-2 Hour.

Independent research in agricultural and food law conducted under the supervision of a faculty member. (Typically offered: Fall, Spring and Summer)

LAWW 7721. Administrative Process and Practice in Agricultural and Food Law. 1 Hour.

Study of administrative law and practice in the specialized areas of agricultural and food law. Relevant regulatory agencies are introduced. Rulemaking, adjudication, and judicial review are covered. (Typically offered: Fall)

LAWW 7741. Urban Agriculture: Law and Policy. 1 Hour.

Study of the legal issues raised by the rising interest in urban agricultural activities. Topics of study include land use and zoning issues, farmers market issues, and legal issues associated with community sponsored agriculture. (Typically offered: Irregular)

LAWW 776V. Agricultural Finance and Credit. 1-3 Hour.

Study of the legal issues surrounding the financing of agricultural operations, including credit availability, agricultural security issues under the Uniform Commercial Code, and debt restructuring opportunities. Special focus is on lending options offered by the Farm Service Agency and the Farm Credit System. (Typically offered: Irregular)

LAWW 7773. Water Law. 3 Hours.

Study of real property principles governing ownership rights in water and the federal and state statutes controlling the use of water. (Typically offered: Irregular)

LAWW 778V. Agricultural Labor Law. 1-2 Hour.

Study of the legal, social, and economic issues that arise from the extensive use of migrant labor in U.S. agricultural operations. Topics include agricultural exemptions from labor laws, the Migrant & Seasonal Agricultural Worker Protection Act, and agriculture's reliance on undocumented alien workers. (Typically offered: Spring)

LAWW 781V. Local-Regional Food Systems and the Law. 1-2 Hour.

This course examines recent efforts to re-establish local and regional food systems and explores the attendant legal and policy issues. (Typically offered: Irregular)

LAWW 782V. Food Justice: Law and Policy. 1-2 Hour.

Survey of the legal and policy issues raised by the food justice movement. Topics covered include food insecurity and poverty, public health concerns such as obesity, the economics of healthy eating, food deserts, and food waste. Each will be considered in light of the legal and governmental policy issues raised. (Typically offered: Fall Odd Years)

LAWW 785V. Federal Nutrition Law and Policy. 1-2 Hour.

Study of federal nutrition policy, including the development of the federal nutrition standards, the framework for the food assistance programs, the federal school lunch program, and the government's efforts to encourage healthy eating. Prerequisite: LAWW 786V. (Typically offered: Irregular)

LAWW 786V. Food Law and Policy. 1-3 Hour.

An introduction to the network of laws that govern our food system. An overview of regulation by both the Food & Drug Administration and the USDA is provided. Policy considerations are discussed in light of current issues. (Typically offered: Irregular)

LAWW 7872. Federal Regulation of Food Safety. 2 Hours.

Study of the federal laws that regulate food safety, considering the FDA authority under the Food, Drug and Cosmetic Act, as expanded by the Food Safety Modernization Act and USDA authority to regulate meat and poultry safety. Current issues and concerns are addressed. (Typically offered: Fall)

LAWW 7932. Environmental Regulation of Agriculture. 2 Hours.

This course examines the major federal environmental statutes applicable to agricultural operations with attention to current cases and controversies under those laws. It also explores the regulatory authority and enforcement practices of the EPA and other agencies. (Typically offered: Spring)

LAWW 794V. Business, Human Rights, & Corporate Social Responsibility. 1-3 Hour.

Business has helped lift people around the world out of poverty. However, businesses can have a serious impact on human rights. This is true for businesses in the food and agricultural sector. Around the globe companies in all sectors are contributing to human rights abuses. With globalization, the proliferation of multinational corporations, and increase in the scale and volume of foreign direct investment, the situation appears to be getting worse. The course explores the business-human rights nexus with a particular focus on the food and agricultural sector and on case studies from around the world. (Typically offered: Irregular)

LAWW 796V. Agriculture and the Environment. 1-3 Hour.

Agriculture is increasingly criticized for its impact on the environment. This course examines the tensions between the desire to produce food and fiber efficiently and concern for sustainability and the protection of natural resources. (Typically offered: Fall)

Management (MGMT)

Courses

MGMT 2053. Business Foundations. 3 Hours.

This course surveys the areas of business and presents business processes that are common to most enterprises through a hands-on, interactive business experience. It reinforces the use of financial accounting for reporting the results of business operations, and introduces managerial accounting concepts and techniques for improving the quality business decisions. Prerequisite: ISYS 1120 or ISYS 1123 and ACCT 2013 each with a grade of "C" or better. (Typically offered: Fall, Spring and Summer)

MGMT 2103. Managing People and Organizations. 3 Hours.

Study of the process of acquiring and managing Human Capital, focusing on the organizational behavior, legal, economic, and technical issues concerned with business decisions about acquiring, motivating, and retaining employees; emphasis given to the development, implementation, and assessment of policies and practices consistent with legal, social, human, and environmental dynamics. Prerequisite: MGMT 2053 or ACCT 2023 and WCOB 1033 each with a grade of C or better. (Typically offered: Fall, Spring and Summer)

MGMT 2103H. Honors Managing People and Organizations. 3 Hours.

Study of the process of acquiring and managing Human Capital, focusing on the organizational behavior, legal, economic, and technical issues concerned with business decisions about acquiring, motivating, and retaining employees; emphasis given to the development, implementation, and assessment of policies and practices consistent with legal, social, human, and environmental dynamics. Prerequisite: MGMT 2053 or ACCT 2023 and WCOB 1033 with a grade of C or better. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MGMT 2103.

MGMT 3013. Strategic Management. 3 Hours.

Integrative study of managerial decisions; introduces students to an understanding of strategic competitiveness and the way in which business strategy is formulated and implemented; uses a combination of theoretical and applied approaches to analyzing key business decisions, implementing these decisions, and monitoring their effects. Corequisite: Drill component. Prerequisite: ACCT 2013, (ACCT 2023 or MGMT 2053), WCOB 1033, ECON 2013, ECON 2023, (MATH 2053 or MATH 2564), (MATH 2043 or MATH 2554), COMM 1313, BLAW 2013, ISYS 2103, SCMT 2103, MGMT 2103, FINN 3043 and MKTG 3433, all with a grade of C or better, and (ISYS 1120 or (ISYS 1123 with a grade of C or better)). (Typically offered: Fall, Spring and Summer)

MGMT 3013H. Honors Strategic Management. 3 Hours.

Integrative study of managerial decisions; introduces students to an understanding of strategic competitiveness and the way in which business strategy is formulated and implemented; uses a combination of theoretical and applied approaches to analyzing key business decisions, implementing these decisions, and monitoring their effects. Prerequisite: ACCT 2013, (ACCT 2023 or MGMT 2053), WCOB 1033, ECON 2013, ECON 2023, (MATH 2053 or MATH 2564), (MATH 2043 or MATH 2554), COMM 1313, BLAW 2013, ISYS 2103, SCMT 2103, MGMT 2103, FINN 3043 and MKTG 3433, all with a grade of C or better, and (ISYS 1120 or (ISYS 1123 with a grade of C or better)). (Typically offered: Fall, Spring and Summer)

This course is equivalent to MGMT 3013.

MGMT 3533. Alternative Dispute Resolution. 3 Hours.

This immersion into the divergent forms of conflict/dispute resolution will expose students to the dynamics of one of the leading disciplines in the workplace and society as a whole. Students will be presented with a comprehensive analysis of divergent aspects of conflict resolution strategies such as negotiation, mediation, arbitration, neutral fact finding, settlement conferences, summary trials, conciliation and facilitation. Confrontational negotiating styles and illustrations will be contrasted with topical strategies such as mutual gains. Prerequisite: Junior standing. (Typically offered: Irregular)

MGMT 3563. Management Concepts and Organizational Behavior. 3 Hours.

Business students may not receive credit for this course. Course introduces students to fundamental concepts of management practice with particular emphasis on managing human behavior in organizations. Addresses the planning, organizing, directing, and controlling functions performed by managers as these functions relate to managing human resources. Provides survey of critical management concepts; enables students to develop analytical and problem solving skills through case studies and experimental exercises. Students may not receive credit for both WCOB 2033 or MGMT 2103 and MGMT 3563. Walton College majors are not eligible to register for the course. No degree credit for Walton College majors. (Typically offered: Irregular)

MGMT 3653. A Competitive Advantage: Creating and Leading a Diverse Workforce. 3 Hours.

Study of the process of creating and leading a diverse workforce, focusing on the knowledge and skills necessary for creating a culture that embraces and makes diversity work; examines the many dimensions of diversity with emphasis on understanding the range of cultural behaviors and expectations, cultural communication, and building diverse work teams. Special attention will be given to developing talent management competencies, such as recruiting, coaching, mentoring, career development, and evaluating and measuring the effects of diversity initiatives. Prerequisite: Junior standing. (Typically offered: Irregular)

MGMT 3673. Social Entrepreneurship. 3 Hours.

The course explores the notion of social entrepreneurship both, as a movement and as an alternative to engage with the market economy. Students will explore the possibility of opening their own business with a strong social mission; adopting some sustainable practices to advance their social or environmental causes; advocating for new ways of measuring impact and returns to investment; or simply by becoming responsible consumers, conscious about the consequences of their decision making power. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

This course is cross-listed with INST 3673.

MGMT 3933. Entrepreneurship and New Venture Development. 3 Hours.

The role of the entrepreneur in starting up new businesses. Identification of new venture opportunities and the evaluation of their feasibility. (Typically offered: Fall and Spring)

MGMT 4003H. Honors Management Colloquium. 3 Hours.

Explores events, concepts and/or new developments in the field of Management. Prerequisite: Senior standing. (Typically offered: Fall) May be repeated for degree credit.

MGMT 4103. Special Topics in Management. 3 Hours.

Explores trends, concepts, and important developments in management as they impact on organizational performance. Topics are selected by the Management Department faculty for each semester the course is offered. (Typically offered: Irregular) May be repeated for degree credit.

MGMT 4103H. Honors Special Topics in Management. 3 Hours.

Explores trends, concepts, and important developments in management as they impact on organizational performance. Topics are selected by the Management Department faculty for each semester the course is offered. (Typically offered: Irregular) May be repeated for degree credit.

This course is equivalent to MGMT 4103.

MGMT 4243. Ethics and Corporate Responsibility. 3 Hours.

A comprehensive and critical examination of traditional and current ethical theories and approaches that guide business decision-making, ethical issues that affect business decisions, and ethics related to the various business disciplines. (Typically offered: Fall and Spring)

MGMT 4253. Leadership. 3 Hours.

This course offers a foundation for understanding and evaluating organizational leadership. It is designed to assist students in developing frameworks for understanding and enacting leadership. This course examines topics such as the nature and foundation of the leader-follower relationship, models that explain effective leadership, and the interface of leadership with gender, ethics, and culture. Prerequisite: WCOB 2033 or MGMT 2103 or MGMT 3563. (Typically offered: Fall and Spring)

MGMT 4263. Organizational Change and Development. 3 Hours.

This course will develop diagnostic and intervention skills that can be applied to identifying and overcoming problems of morale and productivity in organizations. A variety of behavioral methods will be covered. Prerequisite: WCOB 2033 or MGMT 2103 or MGMT 3563. (Typically offered: Fall and Spring)

MGMT 4433. Small Enterprise Management. 3 Hours.

Small enterprise opportunities and problems emphasizing innovation, management planning and control, financing, marketing and legal requirements. Emphasis on application of management knowledge to small enterprise management.

Prerequisite: MGMT 3933. (Typically offered: Spring)

MGMT 450V. Independent Study. 1-3 Hour.

Permits students on individual basis to explore selected topics in management.

(Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

MGMT 4543. Students Acquiring Knowledge Through Enterprise (S.A.K.E.) Product Innovation Lab. 3 Hours.

Provides a structured stage-gate framework for new product development through a hands-on, interactive product innovation experience. Students will learn and apply skills related to the development and testing of new concepts and products including: ideation techniques; concept writing; designing and implementing effective qualitative and quantitative consumer research; prototyping; financial profile development; and developing impactful presentations. Prerequisite: Junior standing. (Typically offered: Fall and Spring)

MGMT 4583. International Management. 3 Hours.

Develops an understanding of international business management and the cultural environments in which IB exists today. Students examine international business practices and learn about unique elements of business as it practiced in selected nations and diverse cultures. (Typically offered: Fall and Spring)

MGMT 4633. Faith, Spirituality, and the Workplace. 3 Hours.

An in-depth and interactive survey of faith and spirituality in the workplace. Provides students with a foundational knowledge of various faith traditions and forms of spirituality, including non-theist perspectives. Highlights the interconnections between faith traditions. Encourages exploration and identification of personal value systems and their origins. Develops skills that enable meaningful interaction with individuals from diverse faith and spiritual backgrounds. Examines the growing body of academic research on faith and spirituality in the workplace. Studies the management challenges and opportunities inherent in developing faith-friendly workplaces. Examines the different ways modern organizations are approaching faith and spirituality in the workplace. Offers perspectives from, and provides the opportunity to engage with, multiple religious, spiritual, and business leaders. Prerequisite: Junior Standing. (Typically offered: Irregular)

MGMT 4943. Organizational Staffing. 3 Hours.

In-depth study of theoretical, legal, methodological, and substantive issues related to selection, performance appraisal, and development of employees. Students participate in individual and group projects designed to provide theoretical and practical skills related to staffing. Prerequisite: WCOB 1033. (Typically offered: Fall and Spring)

MGMT 4953. Organizational Rewards and Compensation. 3 Hours.

Develops an understanding of reward systems theory and its application to the design of compensation systems. Provides theoretical and legal background and practical applications for the use of reward systems in attracting, motivating, and retaining employees. Prerequisite: WCOB 1033. (Typically offered: Fall and Spring)

MGMT 4993. Entrepreneurship Practicum. 3 Hours.

Hands-on management of an actual on-going business. Students will gain experience working in, making decisions about, and managing a business. Topics covered include accounting, economics, finance, information systems, law, logistics, management, and marketing. Entrance by application only. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MGMT 5213. Business Foundations for Entrepreneurs. 3 Hours.

Introduction to the fundamental business concepts an entrepreneur needs to know to evaluate and launch a successful new venture. Topic areas include recruitment, selection, motivation and management of employees, market analysis and the marketing mix, financial strategies and accounting for funds, economic considerations, and the management of operations. Prerequisite: Graduate standing. (Typically offered: Spring)

MGMT 5223. Business Leadership and Ethics. 3 Hours.

Management for a global environment. The class will cover interpersonal workplace skills such as leadership and motivation, along with the management of human capital through well designed recruitment, selection, performance evaluation, compensation, and quality control systems. (Typically offered: Fall) May be repeated for degree credit.

MGMT 5313. Strategic Management. 3 Hours.

Strategy formulation, strategy implementation, and other topics related to the long-term success of the firm. Includes role of the general manager, international issues, and the impact of management fads on decision making. (Typically offered: Summer)

MGMT 5323. New Venture Development. 3 Hours.

Focuses on the identification and analysis of new venture opportunities and how entrepreneurs acquire the human and financial resources needed to develop successful businesses. Topics include market analysis, development of products and services, negotiation, developing and executing business plans, and new venture financing. Students are required to complete summer assignments before the course begins in the fall semester. Prerequisite: MGMT 5213 or an undergraduate degree in business or permission of the instructor. (Typically offered: Fall)

MGMT 5363. Innovation & Creativity. 3 Hours.

This class will provide a framework for developing, assessing and implementing innovations in start-ups and established businesses. Focus is on creative decision making, managing for innovation, strategic analysis of innovations, and implementation of innovations. Aimed at entrepreneurs, brand managers, and managers in industries where innovation is a key strategic capability. (Typically offered: Spring)

MGMT 537V. Global Business. 1-3 Hour.

Integrated overview of the global business environment and the organizational challenges of a multinational firm. To enhance understanding of the business and cultural environment of prominent emerging markets, the course includes a 2-3 week overseas immersion project to fulfill a predefined goal. Project is integrated with global content upon return. (Typically offered: Summer)
This course is cross-listed with ECON 537V.

MGMT 5391. Business History and Practice. 1 Hour.

This course provides students with an overview of how businesses evolve over the years, and how they are run today. Using examples from research and practitioner articles, it allows students to learn about hands on concepts such as business models, Integrative Performance, Organization Structure, Competitive Advantage, Value Networks, and Business Obligations in an experiential manner. (Typically offered: Fall and Spring)

MGMT 5413. New Venture Development II. 3 Hours.

A large-scale, real world, 10 week project involving hands-on work addressing issues faced by managers in partnering firms. Corequisite: Instructor consent. Prerequisite: MGMT 5323. (Typically offered: Spring)

MGMT 5602. Introduction to Strategy. 2 Hours.

An introduction to the value chain concept, the underlying framework of the Managerial MBA program. Topics include the primary value chain activities of inbound logistics, operations, outbound logistics, marketing and sales, and service, as well as the support activities of procurement, technology development, human resource management and firm infrastructure. (Typically offered: Fall)

MGMT 5613. Leadership and Organizational Behavior. 3 Hours.

Managing in a global workforce, including human resource issues, motivation, performance evaluation, quality concepts, transformational leadership, and selection/recruitment/ development of employees. (Typically offered: Summer)

MGMT 5993. Entrepreneurship Practicum. 3 Hours.

Hands-on management of an actual on-going business. Students will gain experience working in, making decisions about, and managing a competitive business. Students will be required to analyze the business in a term paper or other integrative assignment. Entrance by application only. (Typically offered: Fall, Spring and Summer)

MGMT 6011. Graduate Colloquium. 1 Hour.

Presentation and critique of research papers and proposals. (Typically offered: Fall and Spring) May be repeated for degree credit.

MGMT 6113. Seminar in Organizational Behavior. 3 Hours.

Survey of theoretical and empirical literature in organizational behavior. Stresses critical evaluation of current writing in the field and its integration with prior research. Covers topics relating to motivation, individual differences, job attitudes, social influence processes, and group dynamics. Prerequisite: Admission to a Ph.D. program. (Typically offered: Irregular)

MGMT 6123. Seminar in Organization Theory. 3 Hours.

This Ph.D.-level seminar presents an overview and introduction into organization theory literature. Emphasis on the development of relevant schools of thought, changes in the content of the traditional or 'mainstream' themes, current topics, schools of thought, and future directions are examined. Prerequisite: Admission to a Ph.D. program. (Typically offered: Irregular)

MGMT 6133. Seminar in Strategy Research. 3 Hours.

This Ph.D.-level seminar presents an overview and introduction into the strategic management literature. Emphasis on both the content and process of the extant research. Relevant theory, methods, 'mainstream' themes, current topics, schools of thought, and future directions are examined. Prerequisite: Admission to a Ph.D. program. (Typically offered: Irregular)

MGMT 6213. Seminar in Research Methods. 3 Hours.

Familiarizes students with the principles and techniques underlying research in management and organizations. Issues of basic philosophy of science and research methods are covered. Special attention given to the practical problems of research design, measurement, data collection, sampling, and interpretation in conducting research in management and in organizations. Prerequisite: Admission to a Ph.D. program. (Typically offered: Irregular)

MGMT 6223. Seminar in Management Topics. 3 Hours.

Seminar in special research topics in management. Topics vary depending upon instructor. Prerequisite: Admission to a Ph.D. program. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

MGMT 6233. Seminar in Human Resource Management. 3 Hours.

Provides an overview of major issues in human resource management. Designed to familiarize students with the seminal research in human resource management, and to provide them with the conceptual and methodological tools necessary to do research in the area. Prerequisite: Admission to a Ph.D. program. (Typically offered: Irregular)

MGMT 636V. Special Problems in Management. 1-12 Hour.

Individual reading and research. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

MGMT 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall and Spring) May be repeated for degree credit.

Marketing (MKTG) Courses

MKTG 3433. Introduction to Marketing. 3 Hours.

Examines strategies, tactical, and operational decisions related to contemporary marketing activities. Topics covered include product, services and international strategies in consumer and business markets. Prerequisite: (ECON 2013 and ECON 2023) or (ECON 2143) and WCOB 1033, each with a grade of C or better. (Typically offered: Fall, Spring and Summer)

MKTG 3433H. Honors Introduction to Marketing. 3 Hours.

Examines strategies, tactical, and operational decisions related to contemporary marketing activities. Topics covered include product, services and international strategies in consumer and business markets. Prerequisite: (ECON 2013 and ECON 2023) or (ECON 2143) and WCOB 1033 each with a grade of C or better. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MKTG 3433.

MKTG 3553. Consumer Behavior. 3 Hours.

Analyzes consumer motivation, buying behavior, market adjustment, product innovation and adaptation; consumer market measurement, including survey of economic, behavioral science theories of consumer market behavior, producer and intermediary reactions. Consumer decision making is evaluated as to psychological drives, sociological concepts used by producers, channel intermediaries, consumers; considers methods, techniques for measuring consumer behavior, and analyzing consumer markets. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 3633. Marketing Research. 3 Hours.

Research designs, techniques, and analyses of primary and secondary data for the purposes of (1) developing market forecasts and segmentation analyses; (2) strategy implementation determining product development, pricing, distribution, and promotion decisions; and (3) monitoring customer attitudes, motivations and satisfaction. Prerequisite: MKTG 3433. (Typically offered: Fall, Spring and Summer)

MKTG 3653. Category Management Topics. 3 Hours.

This course exposes new majors in Marketing and Supply Chain Management to the current thinking of management and supply chain professionals in consumer packaged goods (CPG) and the tools to determine consumer demand in the CPG industry. Corequisite: MKTG 3433. Prerequisite: SCMT 2103. (Typically offered: Irregular)

MKTG 4003H. Honors Marketing and Transportation Colloquium. 3 Hours.

Explores events, concepts and/or new developments in the field of Marketing and/or Transportation. Prerequisite: Senior standing. (Typically offered: Irregular)

MKTG 4103. Marketing Topics. 3 Hours.

Special topics in marketing not available in other courses. Topics are selected by the Marketing faculty for each semester each course is offered. Prerequisite: MKTG 3433. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MKTG 4233. Integrated Marketing Communications. 3 Hours.

The theory, knowledge, and application relevant to the coordination of marketing communications including advertising, personal selling, sales promotion, public relations, and publicity. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 4343. Selling and Sales Management. 3 Hours.

Examines how organizations and individuals communicate value and obtain desired results through the process of personal selling and customer relationship management, along with the role of sales management in the development of people and resource utilization within the firm. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 4433. Retail Strategy. 3 Hours.

Concentrates on planning to meet the objectives and satisfy the retail marketing concept. Attention is devoted to retail format, competition among retail institutions, determination of store location, merchandise lines, atmospherics, and levels of customer service provided with the sale of consumer products. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 4443. Retail Buying and Merchandise. 3 Hours.

Examination of supplier and buyer responsibilities and decisions associated with product assortment depth, budgets, promotions, inventory investment and control, and gross margin management for consumer goods including apparel, food, and durables. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 4453. New Product Development. 3 Hours.

The course is structured along the three main dimensions of new product development: designing, manufacturing, and marketing of new products. An analytical approach is taken consistent with current thinking and practice of the industry. Students learn the best approaches from a marketing manager's perspective to effectively manage the NPD process. Prerequisite: MKTG 3433. (Typically offered: Fall)

MKTG 450V. Independent Study. 1-3 Hour.

The Marketing Independent Study course permits students on an individual basis to explore select topics in Marketing and Retail. Independent study projects will explore topics relevant for marketing and retail that typically are not covered in the existing curriculum. Prerequisite: Junior standing. (Typically offered: Irregular)

MKTG 4513. Nonprofit Marketing. 3 Hours.

This course is designed to give students a deeper understanding of marketing in the nonprofit sector, how it functions and how nonprofit marketing differs from traditional for profit marketing through leadership opportunities. Students will work with local nonprofits on various marketing projects throughout the semester. The class will use a service learning model of instruction where students take a leadership role in project development and execution. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 4633. Global Marketing. 3 Hours.

Examines differences in global environment; how cultural considerations, political, legal, and economic conditions affect market entry strategies and marketing mix decisions; development of marketing plan for global environments. Prerequisite: MKTG 3433. (Typically offered: Fall and Spring)

MKTG 4853. Marketing Management. 3 Hours.

Strategic planning and management of the marketing function within the firm from a managerial viewpoint. Focus on the development and management of marketing strategies and tactics related to product, pricing, promotion, and distribution decisions. Prerequisite: MKTG 3633 and MKTG 3553. (Typically offered: Fall and Spring)

MKTG 5103. Introduction to Marketing. 3 Hours.

Introduction to marketing concepts and practices as applied to the retail consumer environment. Focuses on the strategic development, positioning, and management of products, promotion, distribution, pricing, and store environments in building customer relationships from retailer and supplier perspectives. (Core) (Typically offered: Fall and Spring) May be repeated for degree credit.

MKTG 5223. Marketing. 3 Hours.

Product management, market research, marketing communications, retailing and distribution, consumer behavior, and social and ethical implications of marketing. (Typically offered: Fall)

MKTG 5333. Retailing Strategy and Processes. 3 Hours.

Strategic planning and operation of retailing organizations. Investigation of the various types of retailing with emphasis on both the strategic and functional aspects in retail processes. (Typically offered: Spring)

MKTG 5433. Consumer and Market Research. 3 Hours.

Modern marketing research methods and analyses applied to consumers, shoppers, and buyers of goods and services sold in competitive retail environments. Attention is given to both quantitative and qualitative methods, analyses, interpretation, and decision making. Prerequisite: MKTG 5103. (Typically offered: Fall)

MKTG 5523. Marketing Analytics. 3 Hours.

This course is intended to teach students how to use data analytics to improve marketing decision making at every stage of the Strategic Marketing Process. The focus will be on the skills and tools needed to obtain, process, and analyze data to formulate and answer critical marketing questions and make managerial recommendations. This is a hands-on course that employs real-world databases, lectures, cases, and exercises. Prerequisite: MKTG 5103. (Typically offered: Spring)

MKTG 5533. Strategic Category Management. 3 Hours.

Strategic planning and management of brands and product categories from both manufacturing and retailing perspectives. Focus is on the product brand development, pricing, distribution, and promotion of brands and their strategic and functional roles in the product mix. (Typically offered: Summer)

MKTG 5543. Category Analysis and Management. 3 Hours.

Analysis and management of brands and product categories from supplier and retailing strategic perspectives. Focus is on brand and category strategic and functional roles in the merchandising mix as well as their development, pricing, distribution, promotion, and in-store placement. (Typically offered: Irregular) May be repeated for degree credit.

MKTG 5553. New Product Development and Strategy. 3 Hours.

Behavioral and social science concepts applied to retail shoppers, buyers, and consumers of products and services. Attention is given to research on the cognitive, affective, and experiential aspects involved in the acquisition, consumption, and disposal of products and services by individuals and households. Prerequisite: MKTG 5103. (Typically offered: Fall and Spring)

MKTG 5563. Retail Strategy. 3 Hours.

The purpose of this course is to investigate the changing landscape of the retail industry. It should be noted that "retail" is an incredibly broad topic covering everything from consumer insights to supply chain to sales management. Retail is currently experiencing somewhat of a revolution as companies experiment with new technology, innovative ways to make shopping more enjoyable, or ways of engaging the customer in a way they are not likely to forget. This course will be based on identification and discussion of new trends that emerge in the retail environment. Prerequisite: MKTG 5223. (Typically offered: Spring)

MKTG 636V. Special Problems in Marketing. 1-6 Hour.

Individual research problems. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MKTG 6413. Special Topics in Marketing. 3 Hours.

Seminar in special topics in marketing. Topics vary depending upon the instructor. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

MKTG 6433. Seminar in Research Methods. 3 Hours.

Extensive review of literature illustrative of marketing research studies. Focuses upon theoretical foundations of research design, methodology, and analysis as well as interpretation of univariate, bivariate, and multivariate data in marketing theory exploration. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

MKTG 6443. Seminar in Marketing Theory. 3 Hours.

Comprehensive survey and critical review of the history of marketing thought and contemporary schools of thought in marketing discipline. In-depth research, review, synthesis, and a research proposal will be required in a selected topic from the perspectives of advancing marketing theory. (Typically offered: Irregular)

MKTG 6453. Seminar in Transportation and Business Logistics. 3 Hours.

Underlying theories and problems related to the development of logistical systems in the U.S. Attention focused on transport economics, the role of government in providing transportation facilities, and managerial issues related to integrating transportation, inventory control, warehousing, customer service levels, and facility location. (Typically offered: Irregular)

MKTG 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall and Spring) May be repeated for degree credit.

Master of Business Administration (MBAD)

Courses

MBAD 5241. Ethical Decision Making. 1 Hour.

Business Ethics will address business ethics issues from a personal, professional, and organizational perspective. We will cover basic ethical decision-making frameworks to help inform students' personal moral frameworks, ethical issues that are most relevant to managers of modern organizations, and the role of business in society (Typically offered: Fall)

MBAD 535V. MBA Internship. 1-3 Hour.

This course allows a student to experience an internship within a business and benefit from the applied experience. The internship may be designed to offer a wide range of business experiences. The internship must be supervised by a faculty member as well as a member of the firm. MBA Director approval required. (Typically offered: Summer) May be repeated for up to 3 hours of degree credit.

MBAD 536V. Study Abroad-Special Problems. 1-3 Hour.

Provides MBA students with the opportunity to explore a business problem in depth under the guidance of a graduate faculty member. MBA Director approval required. (Typically offered: Summer) May be repeated for degree credit.

MBAD 5433. Capstone Project. 3 Hours.

A large-scale project integrating various business topics. Prerequisite: MGMT 5313. (Typically offered: Summer)

MBAD 5511. Professional Development -- Special Topics In Business. 1 Hour.

A concentrated emphasis on one business topic. Corequisite: MBAD 5212, MBAD 5122 and MBAD 5232. (Typically offered: Fall and Spring) May be repeated for up to 5 hours of degree credit.

MBAD 5773. China Business Law, Regulations, and Ethics. 3 Hours.

Business law in China that is relevant to managers; Chinese regulations particularly relevant to consumer products and retail; business ethics in China. (Typically offered: Irregular)

MBAD 591V. Capstone Project Definition. 1-3 Hour.

Identification of business processes for capstone project, including: estimation of the size of the opportunity, identification of key decisions, and proposal write up. (Typically offered: Irregular)

MBAD 592V. Capstone Project Plan. 1-3 Hour.

Second estimation of the size of the project benefit, identification of how the current process operates, assumptions identified, literature investigated, performance metrics, and Gantt chart for project. (Typically offered: Irregular)

MBAD 593V. Capstone Project Management. 1-3 Hour.

Management of the project, including frequent updates, milestone accomplishment, strategies to overcome challenges, and creation of an implementation plan. (Typically offered: Irregular)

MBAD 594V. Capstone Project Final Deliverables. 1-3 Hour.

Write up of entire capstone project, presentation of project, estimates of value, implementation plan, performance metrics, and change management plan. (Typically offered: Irregular)

Mathematics (MATH)

Courses

MATH 0001L. College Algebra Laboratory I. 1 Hour.

This course provides additional support and instruction for students enrolled in MATH 1203 who are required to take it based on the placement requirements stipulated for that course. Credit earned in this course will not be applied to the total hours required for a degree. One lab hour. (Typically offered: Fall, Spring and Summer)

MATH 0002L. College Algebra Laboratory II. 2 Hours.

This course provides additional support and instruction for students enrolled in MATH 1203 who are required to take it based on the placement requirements stipulated for that course. Credit earned in this course will not be applied to the total hours required for a degree. Two lab hours. (Typically offered: Fall, Spring and Summer)

MATH 0131L. Quantitative Reasoning Laboratory. 1 Hour.

This course provides additional support and instruction for students enrolled in MATH 1313 who are required to take it based on the placement requirements stipulated for that course. Credit earned in this course will not be applied to the total hours required for a degree. One lab hour. (Typically offered: Fall, Spring and Summer)

MATH 1203. College Algebra (ACTS Equivalency = MATH 1103). 3 Hours.

Topics include the solution and application of linear and quadratic equations and inequalities; functions, graphs, and theory of equations; matrix solutions of systems of equations and basic properties of matrices. Prerequisite: a score of at least 46 on the Math Placement Test, or a score of at least 23 on the math component of the ACT exam, or a score of at least 570 on the math component of the new SAT or 540 on the math component of the old SAT. Students who score at least 30 on the Math Placement Test, or at least 19 on the math component of the ACT exam, or at least 510 on the math component of the new SAT or 460 on the math component of the old SAT must also register for MATH 0001L as a corequisite. Students who score below 30 on the Math Placement Test, or below 19 on the math component of the ACT exam, or below 510 on the math component of the new SAT or below 460 on the math component of the old SAT must also register for MATH 0002L as a corequisite. (Typically offered: Fall, Spring and Summer)

MATH 1204. College Algebra with Review (ACTS Equivalency = MATH 1103). 4 Hours.

Same as MATH 1203 with additional support, increased class time, additional review, and computerized lab component. Prerequisite: MATH 0003 with a grade of D or better, or a score of at least 70% on the University of Arkansas Preparedness for Algebra Exam, or a score of at least 19 on the math component of the ACT exam, or a score of at least 460 on the math component of the old SAT or 500 on the math component of the new SAT. (Typically offered: Irregular)
This course is equivalent to MATH 1203.

MATH 1213. Plane Trigonometry (ACTS Equivalency = MATH 1203). 3 Hours.

Basic topics in trigonometry including identities, formulas, and polar coordinate system. Credit will be allowed for only one of either MATH 1213 or MATH 1284C. Prerequisite: MATH 1203 or MATH 1204 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 1284C. Precalculus Mathematics (ACTS Equivalency = MATH 1305). 4 Hours.

Topics in algebra and trigonometry. To be taken by students who expect to take MATH 2554. Corequisite: Drill component. Prerequisite: MATH 1203 or MATH 1204 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 1313. Quantitative Reasoning (ACTS Equivalency = MATH 1113). 3 Hours.

Reasoning about quantitative information, and the use of mathematical tools and models as citizens, consumers, entrepreneurs and employees in today's complex technological society. Topics include modeling with functions; quantity, measurement and indices; finance; counting, probability, odds and risk. Prerequisite: a score of at least 40 on the Math Placement Test, or a score of at least 19 on the math component of the ACT exam, or a score of at least 510 on the math component of the new SAT or 460 on the math component of the old SAT. Students who score below 40 on the Math Placement Test, or below 19 on the math component of the ACT exam, or below 510 on the math component of the new SAT or below 460 on the math component of the old SAT must also register for MATH 0131L as a corequisite. (Typically offered: Fall and Spring)

MATH 1514. Calculus with Algebra and Trigonometry I. 4 Hours.

Topics in algebra, trigonometry and precalculus are integrated with elementary differential calculus. Part of a two semester sequence with MATH 2514; these two courses together are equivalent to MATH 1284C and MATH 2554C. MATH 1514 BY ITSELF NOT EQUIVALENT TO EITHER MATH 1284C OR MATH 2554C. This course must be taken with MATH 2514. Intended for students who place into MATH 1284C, but who would profit from an earlier exposure to calculus concepts. Closed to students with credit for MATH 2554C. Prerequisite: MATH 1203 or MATH 1204 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall)

MATH 2031M. Honors Mathematical Thought Lab. 1 Hour.

Supplemental honors laboratory for MATH 2033, Mathematical Thought. Pre- or Corequisite: MATH 2033. Prerequisite: Honors standing or departmental consent. (Typically offered: Fall and Spring)

MATH 2033. Mathematical Thought. 3 Hours.

This course introduces students to a variety of topics in modern mathematics. Topics vary and can include graph theory, game theory, voting systems, foundations of logic, cardinality, discrete geometry combinatorics, geometry of surfaces, topology and symmetry. Prerequisite: MATH 1203 or MATH 1204 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 2043. Survey of Calculus (ACTS Equivalency = MATH 2203). 3 Hours.

Selected topics in elementary calculus and analytic geometry for students in business, agriculture, and social sciences. Credit will be allowed for only one of MATH 2043 and MATH 2554. Prerequisite: MATH 1203 or MATH 1204 or MATH 1213 or MATH 1284C or MATH 2053 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 2043C. Survey of Calculus. 3 Hours.

Selected topics in elementary calculus and analytic geometry for students in business, agriculture, and social sciences. Credit will be allowed for only one of MATH 2043 and MATH 2554. Corequisite: Drill component. Prerequisite: MATH 1203 or MATH 1204 or MATH 1213 or MATH 1284C or MATH 2053 with a grade of C or better, or a score of at least 80% on the University of Arkansas Mastery of Algebra Exam, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MATH 2043.

MATH 2053. Finite Mathematics. 3 Hours.

Selected topics in probability and statistics, review of algebraic matrices, and graphic analysis of linear programming for students in business, agriculture, and social sciences. Prerequisite: MATH 1203 or MATH 1204 or MATH 1213 or MATH 1284C or MATH 2043 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 2053C. Finite Mathematics. 3 Hours.

Selected topics in probability and statistics, review of algebraic matrices, and graphic analysis of linear programming for students in business, agriculture, and social sciences. Taught with a two-day-per-week lecture and one-day-per-week drill. Corequisite: Drill component. Prerequisite: MATH 1203 or MATH 1204 or MATH 1213 or MATH 1284C or MATH 2043 with a grade of C or better, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall and Spring)

This course is equivalent to MATH 2053.

MATH 2183. Mathematical Reasoning in a Quantitative World. 3 Hours.

Mathematical and statistical reasoning are required in contexts of growing complexity and sophistication. The purpose of this course is to cause students to possess the power and habit of mind to search out quantitative information, critique it, reflect upon it, and apply it in their public, personal and professional lives. Prerequisite: MATH 1203, MATH 1204, or MATH 1313, or a score of at least 60 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall and Spring)

MATH 2213. Survey of Mathematical Structures I. 3 Hours.

Sets and logic, systems of numerations, number systems and operations, and elementary number theory. Prerequisite: A grade of C or better in any of MATH 1203, MATH 1204, MATH 1213, MATH 1284C, MATH 1313, MATH 2033, MATH 2043, MATH 2053, MATH 2183 or MATH 2554, or a score of at least 80% on the University of Arkansas Mastery of Algebra Exam, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

MATH 2223. Survey of Mathematical Structures II. 3 Hours.

Geometry and measurement, and statistics and probability. Prerequisite: A grade of C or better in MATH 2213. (Typically offered: Fall, Spring and Summer)

MATH 2445. Calculus I with Review (ACTS Equivalency = MATH 2405). 5 Hours.

Derivative of functions of one variable, applications of the derivative, introduction of the integral, and applications. Credit will be allowed for only one of MATH 2445, MATH 2554 or MATH 2043. Prerequisite: MATH 1213 with a grade of C or better, or MATH 1284C with a grade of C or better, or a score of at least 70 on the Math Placement Test, or a score of at least 28 on the math component of the ACT exam, or a score of at least 640 on the math component of the old SAT or 660 on the math component of the new SAT, or a score of at least 2 on the Calculus AB or BC Advanced Placement Exam. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MATH 2554.

MATH 2514. Calculus with Algebra and Trigonometry II. 4 Hours.

Continuation of MATH 1514. Topics in algebra, trigonometry and precalculus are integrated with elementary differential and integral calculus. Completion of MATH 1514 and MATH 2514 is equivalent to completion of MATH 1284C and MATH 2554C. This course is meant exclusively for students who have previously taken MATH 1514. MATH 2514 BY ITSELF NOT EQUIVALENT TO EITHER MATH 1284C OR MATH 2554C. Closed to students with credit for MATH 2554C. Prerequisite: MATH 1514 with a grade of C or better. (Typically offered: Spring)

MATH 2554. Calculus I (ACTS Equivalency = MATH 2405). 4 Hours.

Derivative of functions of one variable, applications of the derivative, introduction of the integral, and applications. Credit will be allowed for only one of MATH 2554 and MATH 2043. Prerequisite: MATH 1213 with a grade of C or better, or MATH 1284C with a grade of C or better, or a score of at least 76 on the Math Placement Test, or a score of at least 28 on the math component of the ACT exam, or a score of at least 640 on the math component of the old SAT or 660 on the math component of the new SAT, or a score of at least 2 on the Calculus AB or BC Advanced Placement Exam. (Typically offered: Fall, Spring and Summer)

MATH 2554C. Calculus I (ACTS Equivalency = MATH 2405). 4 Hours.

Derivative of functions of one variable, applications of the derivative, introduction of the integral, and applications. Credit will be allowed for only one of MATH 2554 and MATH 2043. Corequisite: Drill component. Prerequisite: MATH 1213 with a grade of C or better, or MATH 1284C with a grade of C or better, or a score of at least 76 on the Math Placement Test, or a score of at least 28 on the math component of the ACT exam, or a score of at least 640 on the math component of the old SAT or 660 on the math component of the new SAT, or a score of at least 2 on the Calculus AB or BC Advanced Placement Exam. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MATH 2554.

MATH 2554H. Honors Calculus I. 4 Hours.

Topics in analytic geometry and calculus presented in a rigorous manner suitable for an honors student. Students may not receive credit for both MATH 2043 and MATH 2554. Prerequisite: Honors standing or departmental consent; and a score of at least 30 on the math component of the ACT exam, or a score of at least 680 on the math component of the old SAT or 710 on the math component of the new SAT. (Typically offered: Fall and Spring)
This course is equivalent to MATH 2554.

MATH 2564. Calculus II (ACTS Equivalency = MATH 2505). 4 Hours.

Integral calculus of one variable and infinite series. Prerequisite: MATH 2554 with a grade of C or better. (Typically offered: Fall, Spring and Summer)

MATH 2564C. Calculus II. 4 Hours.

Integral calculus of one variable and infinite series. Three hours of lecture and two hours of drill (recitation) per week. Corequisite: Drill component. Prerequisite: MATH 2554 with a grade of C or better. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MATH 2564.

MATH 2564H. Honors Calculus II. 4 Hours.

Integral calculus of one variable and infinite series. Prerequisite: MATH 2554 with a grade of A, or MATH 2554H with a grade of A or B, or a score of 5 on the AP AB Calculus Exam. (Typically offered: Spring)
This course is equivalent to MATH 2564.

MATH 2574. Calculus III (ACTS Equivalency = MATH 2603). 4 Hours.

Differential and integral calculus of several variables, and vector calculus. Prerequisite: MATH 2564 with a grade of C or better. (Typically offered: Fall, Spring and Summer)

MATH 2574C. Calculus III. 4 Hours.

Differential and integral calculus of several variables, and vector calculus. Three hours of lecture and two hours of drill (recitation) per week. Corequisite: Drill component. Prerequisite: MATH 2564 with a grade of C or better. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MATH 2574.

MATH 2574H. Honors Calculus III. 4 Hours.

Differential and integral calculus of several variables, and vector calculus. Prerequisite: MATH 2564 with a grade of A, or MATH 2564H with a grade of A or B, or a score of 5 on the AP BC Calculus exam. (Typically offered: Fall and Spring)
This course is equivalent to MATH 2574.

MATH 2584. Elementary Differential Equations. 4 Hours.

First and second order ordinary differential equations, the Laplace transform, and matrix systems of ordinary differential equations. Prerequisite: MATH 2564 or MATH 2564C with a grade of C or better. (Typically offered: Fall, Spring and Summer)

MATH 2584C. Elementary Differential Equations. 4 Hours.

First and second order ordinary differential equations, the Laplace transform, and matrix systems of ordinary differential equations. Three hours of lecture and two hours of drill (recitation) per week. Corequisite: Drill component. Prerequisite: MATH 2564 or MATH 2564C with a grade of C or better. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MATH 2584.

MATH 2584H. Honors Elementary Differential Equations. 4 Hours.

Topics in ordinary differential equations, systems of differential equations and the Laplace transform presented with an emphasis on modeling. Prerequisite: MATH 2564 with a grade of A, or MATH 2564H with a grade of A or B, or a score of 5 on the AP BC Calculus exam. (Typically offered: Irregular)
This course is equivalent to MATH 2584.

MATH 2603. Discrete Mathematics. 3 Hours.

Introductory study of sets, relations, logic, proofs, algorithms, counting methods, graph theory, trees, and Boolean algebras. Prerequisite: MATH 2554 with a grade of C or better or the equivalent. (Typically offered: Fall, Spring and Summer)

MATH 2603C. Discrete Mathematics. 3 Hours.

Introductory study of sets, relations, logic, proofs, algorithms, counting methods, graph theory, trees, and Boolean algebras. Corequisite: Drill component. Prerequisite: MATH 2554 with a grade of C or better or the equivalent. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MATH 2603.

MATH 2701. Survey of Higher Math. 1 Hour.

This course overviews the landscape of higher mathematics, touching on many of the themes of modern mathematics: proof, logic, cardinality, analysis, modeling, abstract algebra, number theory, topology and geometry. Pre- or Corequisite: MATH 2564. (Typically offered: Spring)

MATH 2803. Transition to Advanced Mathematics. 3 Hours.

An introduction to concepts encountered in advanced mathematics. Emphasis is placed on developing the student's problem solving skills and ability to correctly communicate abstract concepts. Topics to include set theory, logic, relations, functions and mathematical induction presented in the context of intriguing mathematical problems. Pre- or Corequisite: MATH 2554 or MATH 2554C. (Typically offered: Fall and Spring)

MATH 2903. Functions, Foundations and Models. 3 Hours.

An in-depth study of topics from secondary school mathematics, emphasizing the development of the concept function, function patterns in data sets, connections among the main topics associated with a secondary school curriculum, and the appropriate use of technology. Pre- or Corequisite: MATH 2564 or MATH 2564C. (Typically offered: Fall and Spring)

MATH 3013. Introduction to Probability. 3 Hours.

A calculus-based introduction to probability. Discrete probability spaces and counting techniques, discrete and continuous probability distributions, random variables, random samples, law of large numbers, central limit theorem. Prerequisite: MATH 2564 or MATH 2564C. (Typically offered: Fall, Spring and Summer) This course is cross-listed with STAT 3013.

MATH 3083. Linear Algebra. 3 Hours.

Systems of linear equations, vector spaces, linear transformations, matrices, and determinants. Only one of MATH 3083 and MATH 3093 will count for credit. Prerequisite: MATH 2554 or MATH 2043, with a grade of C or better. (Typically offered: Fall, Spring and Summer)

MATH 3093. Abstract Linear Algebra. 3 Hours.

A proof-based course on vector spaces, linear transformations, matrices, determinants, eigenspaces and eigenvalues, with applications. Recommended for mathematics majors. Only one of MATH 3083 and MATH 3093 may be counted for credit. Pre- or Corequisite: MATH 2564 with a C or better. Prerequisite: MATH 2803 with a C or better. (Typically offered: Fall and Spring)

MATH 3103. Combinatorial and Discrete Mathematics. 3 Hours.

Basic combinatorial techniques including the study of networks, generating functions, principles of inclusion/ exclusion, Zn, Hamming coding theory, graph theory, and block designs. Prerequisite: MATH 2603 or MATH 2803. (Typically offered: Fall and Spring)

MATH 3113. Introduction to Abstract Algebra I. 3 Hours.

Introduction to algebraic structures with emphasis on rigorous justification of results. Prerequisite: MATH 2803 with a grade of C or better; and MATH 3083 or MATH 3093 with a grade of C or better. (Typically offered: Fall and Spring)

MATH 3133. History of Mathematics. 3 Hours.

Survey of the development of mathematical ideas from the ancient to the modern times. Prerequisite: MATH 2554, and MATH 2603 or MATH 2803, both with a grade of C or better. (Typically offered: Spring)

MATH 3203. Number Theory. 3 Hours.

Topics in elementary number theory. Prerequisite: MATH 2554, and MATH 2603 or MATH 2803, both with a grade of C or better. (Typically offered: Irregular)

MATH 3513. Elementary Analysis. 3 Hours.

A first rigorous course in analysis. The formal basis of the real number system, sequences and series, the Bolzano-Weierstrass Theorem, limits and continuity, the Intermediate Value Theorem, Rolle's Theorem, differentiation, the Mean Value Theorem and its consequences, Taylor's Theorem, L'Hopital's rules, convexity, Riemann integration, the Fundamental Theorem of Calculus. Only one of MATH 3513 and MATH 4513 may be counted for credit toward the major. Prerequisite: A grade of C or better in each of MATH 2554 or MATH 2554C, MATH 2564 or MATH 2564C, MATH 2574 or MATH 2574C, MATH 3083 or MATH 3093, and MATH 2803. (Typically offered: Fall)

MATH 3583. Foundations of Applied Mathematics. 3 Hours.

Introduction to the derivation and analysis of physical models. Topics include dimensional analysis, perturbation methods, the method of characteristics, continuum mechanics, and elastic, material and fluid equations. Case studies come from biology, fluid dynamics, engineering, chemistry and other areas. Prerequisite: MATH 2574 and MATH 2584. (Typically offered: Fall)

MATH 3773. Foundations of Geometry I. 3 Hours.

Axiomatic method; Euclidean geometry; non-Euclidean geometry. Prerequisite: MATH 2554, and MATH 2603 or MATH 2803, each with a grade of C or better. (Typically offered: Fall)

MATH 3923H. Honors Colloquium. 3 Hours.

Covers a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in mathematics). (Typically offered: Irregular) May be repeated for degree credit.

MATH 399VH. Honors Mathematics Course. 1-6 Hour.

Honors mathematics course. Prerequisite: Departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

MATH 400V. Directed Readings. 1-7 Hour.

Directed readings. Prerequisite: Departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 7 hours of degree credit.

MATH 404V. Classroom Practices in Mathematics. 1-3 Hour.

The pedagogy of curricular materials in mathematics acquired through participation in the classroom as an apprentice teacher. Non-major elective credit only. Prerequisite: MATH 2574 and departmental approval. (Typically offered: Fall and Spring)

MATH 405V. Internship in Professional Practice. 1-3 Hour.

Professional work experience involving significant use of mathematics or statistics in business, industry or government. Prerequisite: Departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

MATH 4103. Advanced Linear Algebra. 3 Hours.

Linear functionals, matrix representation of linear transformations, scalar product, and spectral representation of linear transformations. Prerequisite: MATH 3083 or MATH 3093. (Typically offered: Irregular)

MATH 4113. Introduction to Abstract Algebra II. 3 Hours.

Topics in abstract algebra including finite abelian groups, linear groups, factorization in commutative rings and Galois theory. Prerequisite: MATH 3113. (Typically offered: Spring)

This course is equivalent to MATH 4153.

MATH 4153. Mathematical Modeling. 3 Hours.

Mathematical techniques for formulating, analyzing, and criticizing deterministic models taken from the biological, social, and physical sciences. Techniques include graphical methods, stability, optimization, and phase plane analysis. Prerequisite: MATH 2584. (Typically offered: Irregular)

MATH 4163. Dynamic Models in Biology. 3 Hours.

Mathematical and computational techniques for developing, executing, and analyzing dynamic models arising in the biological sciences. Both discrete and continuous time models are studied. Applications include population dynamics, cellular dynamics, and the spread of infectious diseases. Prerequisite: MATH 2554. (Typically offered: Irregular) This course is cross-listed with BIOL 4163.

MATH 4173. Mathematical CAM Design. 3 Hours.

Mathematical and computational techniques for Computer aided manufacturing. Applying linear algebra to model 3d space, representation of curves and surfaces in 3d models, converting between smooth and discrete approximations of curves, algorithms to create surfaces from machine toolpaths, inverse kinematics, basic G-Code programming. Prerequisite: MATH 2574 or MATH 2574C. (Typically offered: Irregular)

MATH 4253. Symbolic Logic I. 3 Hours.

Rigorous analyses of the concepts of proof, consistency, equivalence, validity, implication, and truth. Full coverage of truth-functional logic and quantification theory (predicate calculus). Discussion of the nature and limits of mechanical procedures (algorithms) for proving theorems in logic and mathematics. Informal accounts of the basic facts about infinite sets. Prerequisite: MATH 2603, MATH 2803, or PHIL 2203. (Typically offered: Fall)

This course is cross-listed with PHIL 4253.

MATH 4303. Ordinary Differential Equations. 3 Hours.

Existence, uniqueness, stability, qualitative behavior, and numerical solutions. Prerequisite: MATH 2584 and (MATH 4513 or MATH 3513). (Typically offered: Fall)

MATH 4343. Introduction to Scientific Computing. 3 Hours.

Provides an understanding of a diverse set of problems, as well as algorithms for solving them and implementing the algorithms using high performance computing resources and environments. The emphasis is on problem solving and offers multiple projects concerning applications in science and engineering. Prerequisite: MATH 3083. (Typically offered: Spring)

MATH 4353. Numerical Linear Algebra. 3 Hours.

Numerical methods for problems of linear algebra, including the solution of very large systems, eigenvalues, and eigenvectors. Prerequisite: MATH 3083 or MATH 3093. (Typically offered: Spring)

MATH 4363. Numerical Analysis. 3 Hours.

General iterative techniques, error analysis, root finding, interpolation, approximation, numerical integration, and numerical solution of differential equations. Prerequisite: MATH 2584. (Typically offered: Fall)

MATH 4373. Finite Element Methods and Solution of Sparse Linear. 3 Hours.

Provides an in-depth understanding of numerical methods for the solution of partial differential equations using Finite Element Methods, Direct and Iterative Methods for the Sparse Linear Systems. Prerequisite: MATH 4353. (Typically offered: Spring)

MATH 4403. Numerical Linear Algebra II. 3 Hours.

Provides an in-depth understanding of numerical methods for the solution of large scale eigenvalue problems arising in science and engineering applications including theory, implementation and applications. Prerequisite: MATH 4353. (Typically offered: Fall)

MATH 4423. Introduction to Partial Differential Equations. 3 Hours.

Matrices, Fourier analysis, and partial differential equations. Prerequisite: MATH 2584 or MATH 2584C with a grade of C or better. (Typically offered: Fall, Spring and Summer)

MATH 4443. Complex Variables. 3 Hours.

Complex analysis, series, and conformal mapping. Additional applications for graduate credit. Prerequisite: MATH 2603 or MATH 2803, and MATH 2584 or MATH 2584C. (Typically offered: Fall)

MATH 4503. Differential Geometry. 3 Hours.

Topics include: classical differential geometry of curves and surfaces in 3-space, differential forms and vector fields. Prerequisite: MATH 2574 or MATH 2574C. (Typically offered: Irregular)

MATH 4513. Advanced Calculus I. 3 Hours.

The real and complex number systems, basic set theory and topology, sequences and series, continuity, differentiation, and Taylor's theorem. Emphasis is placed on careful mathematical reasoning. Only one of MATH 3513 and MATH 4513 may be counted for credit toward the major. Prerequisite: MATH 2574, MATH 2803 and MATH 3083 or MATH 3093. (Typically offered: Fall and Spring)

MATH 4523. Advanced Calculus II. 3 Hours.

The Riemann-Stieltjes integral, uniform convergence of functions, Fourier series, implicit function theorem, Jacobians, and derivatives of higher order. Prerequisite: MATH 4513. (Typically offered: Spring)

MATH 4703. Introduction to Point-Set Topology. 3 Hours.

A study of topological spaces including continuous transformations, connectedness and compactness. Prerequisite: MATH 4513. (Typically offered: Irregular)

MATH 4933. Mathematics Major Seminar. 3 Hours.

Weekly seminars on topics of historical or cross-disciplinary interest, designed to address students' mathematical knowledge, problem-solving and communication skills, in which student presentations play a part. Also serves as a forum for sharing information about career opportunities and preparation for employment. Prerequisite: Senior standing and a mathematics major, or departmental consent. (Typically offered: Spring)

MATH 498V. Senior Thesis. 1-6 Hour.

Senior thesis. (Typically offered: Fall, Spring and Summer)

MATH 499V. Research Topics in Mathematics. 1-3 Hour.

Current research interests in mathematics, at an advanced undergraduate or beginning graduate level. Prerequisite: Departmental consent. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MATH 499VH. Honors Research Topics in Mathematics. 1-3 Hour.

Current research interests in mathematics, at an advanced undergraduate or beginning graduate level. Prerequisite: Departmental consent. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

This course is equivalent to MATH 499V.

MATH 5013. Abstract Algebra with Connections to School Mathematics. 3 Hours.

Basic structures of abstract algebra (rings, fields, groups, modules and vector spaces) with emphasis on rings and fields as generalizations of the ring of integers and field of rational numbers. Degree credit will not be awarded for both MATH 4113 (or MATH 5123) plus MATH 5001 and for MATH 5013. Prerequisite: Graduate standing or departmental consent. (Typically offered: Irregular)

MATH 5023. Geometry with Connections to School Mathematics. 3 Hours.

School geometry from an advanced perspective including conformity to the Common Core State Standards for Mathematics. Study will include historical developments and geometry based on transformations of two- and three-dimensional space. Prerequisite: Graduate standing. (Typically offered: Fall Odd Years)

MATH 5033. Advanced Calculus with Connections to School Mathematics Teaching. 3 Hours.

Rigorous development of the real numbers, continuity, differentiation, and integration. Degree credit will not be awarded for both MATH 4513 (or MATH 5503) plus MATH 5001 and for MATH 5033. Prerequisite: Departmental consent. (Typically offered: Irregular)

MATH 504V. Special Topics for Teachers. 1-6 Hour.

Current topics in mathematics of interest to secondary school teachers. Prerequisite: Graduate standing or departmental consent. (Typically offered: Irregular) May be repeated for degree credit.

MATH 5053. Probability & Statistics with Connections to School Mathematics. 3 Hours.

An advanced perspective of probability and statistics as contained in the high school mathematics curriculum with connections to other components of school mathematics. The content is guided by the content of the high school probability and statistics of the Common Core State Standards for Mathematics. Prerequisite: Graduate standing. (Typically offered: Spring)

MATH 507V. Professional Development for Secondary Mathematics Teaching. 1-6 Hour.

Validated participation in professional development mathematics workshops or institutes sanctioned by national or international educational organizations such as the College Board, International Baccalaureate Program, and the National Board for Professional Teaching Standards. Prerequisite: Enrollment in Secondary Mathematics Teaching, MA degree program or departmental consent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MATH 510V. Mathematical Seminar. 1-3 Hour.

Members of the faculty and advanced students meet for presentation and discussion of topics. Prerequisite: Graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

MATH 5113. Introduction to Abstract Algebra II. 3 Hours.

(Formerly MATH 4113.) Topics in abstract algebra including finite abelian groups, linear groups, factorization in commutative rings and Galois theory. Graduate degree credit will not be given for both MATH 4113 and MATH 5113. Prerequisite: MATH 3113. (Typically offered: Spring)

MATH 5123. Algebra I. 3 Hours.

What the beginning graduate student should know about algebra: groups, rings, fields, modules, algebras, categories, homological algebra, and Galois Theory. Prerequisite: MATH 3113, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)

MATH 5133. Algebra II. 3 Hours.

Continuation of MATH 5123. Prerequisite: MATH 5123, and graduate standing in mathematics or statistics. (Typically offered: Spring)

MATH 5153. Advanced Linear Algebra. 3 Hours.

(Formerly MATH 4103.) Linear functionals, matrix representation of linear transformations, scalar product, and spectral representation of linear transformations. Graduate degree credit will not be given for both MATH 4103 and MATH 5153. Prerequisite: Graduate standing. (Typically offered: Fall)

MATH 5163. Dynamic Models in Biology. 3 Hours.

(Formerly MATH 4163.) Mathematical and computational techniques for developing, executing, and analyzing dynamic models arising in the biological sciences. Both discrete and continuous time models are studied. Applications include population dynamics, cellular dynamics, and the spread of infectious diseases. Graduate degree credit will not be given for both MATH 4163 and MATH 5163. Prerequisite: MATH 2554. (Typically offered: Irregular)

MATH 5213. Advanced Calculus I. 3 Hours.

(Formerly MATH 4513.) The real and complex number systems, basic set theory and topology, sequences and series, continuity, differentiation, and Taylor's theorem. Emphasis is placed on careful mathematical reasoning. Graduate degree credit will not be given for both MATH 4513 and MATH 5213. Prerequisite: Graduate standing. (Typically offered: Fall)

MATH 5223. Advanced Calculus II. 3 Hours.

(Formerly MATH 4523.) The Riemann-Stieltjes integral, uniform convergence of functions, Fourier series, implicit function theorem, Jacobians, and derivatives of higher order. Graduate degree credit will not be given for both MATH 4523 and MATH 5223. Prerequisite: MATH 4513 or MATH 5213 (formerly MATH 4513). (Typically offered: Spring)

MATH 525V. Internship in Professional Practice. 1-3 Hour.

(Formerly MATH 405V.) Professional work experience involving significant use of mathematics or statistics in business, industry or government. Graduate degree credit will not be given for both MATH 405V and MATH 525V. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

MATH 5263. Symbolic Logic I. 3 Hours.

(Formerly MATH 4253.) Rigorous analyses of the concepts of proof, consistency, equivalence, validity, implication, and truth. Full coverage of truth-functional logic and quantification theory (predicate calculus). Discussion of the nature and limits of mechanical procedures (algorithms) for proving theorems in logic and mathematics. Informal accounts of the basic facts about infinite sets. Graduate degree credit will not be given for both MATH 4253 and MATH 5263. Prerequisite: MATH 2603, MATH 2803, or PHIL 2203. (Typically offered: Fall)
This course is cross-listed with PHIL 5253.

MATH 5303. Ordinary Differential Equations. 3 Hours.

Existence, uniqueness, stability, qualitative behavior, and numerical solutions. Prerequisite: MATH 2584 and MATH 4513, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)

MATH 5313. Partial Differential Equations. 3 Hours.

Laplace's equation, Heat equation, Wave Equation, Method of Characteristics. Prerequisite: MATH 4423, MATH 4513, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)

MATH 5323. Partial Differential Equations II. 3 Hours.

Fourier Transforms, Sobolev Spaces, Elliptic Regularity. Prerequisite: MATH 5313 and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring)

MATH 5353. Mathematical Modeling. 3 Hours.

(Formerly MATH 4153.) Mathematical techniques for formulating, analyzing, and criticizing deterministic models taken from the biological, social, and physical sciences. Techniques include graphical methods, stability, optimization, and phase plane analysis. Graduate degree credit will not be given for both MATH 4153 and MATH 5353. Prerequisite: MATH 2584. (Typically offered: Irregular)

MATH 5363. Scientific Computation and Numerical Methods. 3 Hours.

An introduction to numerical methods used in solving various problems in engineering and the sciences. May not earn credit for this course and MATH 4353 or MATH 4363. Prerequisite: Graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)
This course is cross-listed with PHYS 5363.

MATH 5373. Finite Element Methods and Solution of Sparse Linear. 3 Hours.

Provides an in-depth understanding of numerical methods for the solution of partial differential equations using Finite Element Methods, Direct and Iterative Methods for the Sparse Linear Systems. Prerequisite: MATH 4353. (Typically offered: Spring)

MATH 5383. Numerical Analysis. 3 Hours.

(Formerly MATH 4363.) General iterative techniques, error analysis, root finding, interpolation, approximation, numerical integration, and numerical solution of differential equations. Graduate degree credit will not be given for both MATH 4363 and MATH 5383. Prerequisite: Graduate standing. (Typically offered: Fall)

MATH 5393. Numerical Linear Algebra. 3 Hours.

(Formerly MATH 4353.) Numerical methods for problems of linear algebra, including the solution of very large systems, eigenvalues, and eigenvectors. Graduate degree credit will not be given for both MATH 4353 and MATH 5393. Prerequisite: Graduate standing. (Typically offered: Spring)

MATH 5403. Numerical Linear Algebra II. 3 Hours.

Provides an in-depth understanding of numerical methods for the solution of large scale eigenvalue problems arising in science and engineering applications including theory, implementation and applications. Prerequisite: MATH 5393. (Typically offered: Fall)

MATH 5423. Introduction to Partial Differential Equations. 3 Hours.

Matrices, Fourier analysis, and partial differential equations. Does not count towards degree credit in MATH. Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

MATH 5443. Complex Variables. 3 Hours.

(Formerly MATH 4443.) Complex analysis, series, and conformal mapping. Graduate degree credit will not be given for both MATH 4443 and MATH 5443. Prerequisite: MATH 2603 or MATH 2803, and MATH 2584 or MATH 2584C. (Typically offered: Fall)

MATH 5453. Functional Analysis I. 3 Hours.

Banach Spaces, Hilbert Spaces, operator theory, compact operators, dual spaces and adjoints, spectral theory, Hahn-Banach, open mapping and closed graph theorems, uniform boundedness principle, weak topologies. Prerequisite: MATH 5513, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring Odd Years)

MATH 5503. Theory of Functions of a Real Variable I. 3 Hours.

Real number system, Lebesgue measure, Lebesgue integral, convergence theorems, differentiation of monotone functions, absolute continuity and the fundamental theorem of calculus L^p spaces, Holder and Minkowski inequalities, and bounded linear functionals on the L^p spaces. Prerequisite: MATH 4523 or MATH 5223 (formerly MATH 4523), and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)

MATH 5513. Theory of Functions of a Real Variable II. 3 Hours.

Measure and integration on abstract measure spaces, signed measures, Hahn decomposition, Radon-Nikodym theorem, Lebesgue decomposition, measures on algebras and their extensions, product measures, and Fubini's theorem. Prerequisite: MATH 5503, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring)

MATH 5523. Theory of Functions of a Complex Variable I. 3 Hours.

Complex numbers, analytic functions, power series, complex integration, Cauchy's Theorem and integral formula, maximum principle, singularities, Laurent series, and Mobius maps. Prerequisite: MATH 4513 or MATH 5213 (formerly MATH 4513). (Typically offered: Fall)

MATH 5533. Theory of Functions of a Complex Variable II. 3 Hours.

Riemann Mapping Theorem, analytic continuation, harmonic functions, and entire functions. Prerequisite: MATH 5523, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring)

MATH 5603. Differential Geometry. 3 Hours.

(Formerly MATH 4503.) Topics include: classical differential geometry of curves and surfaces in 3-space, differential forms and vector fields. Graduate degree credit will not be given for both MATH 4503 and MATH 5603. Prerequisite: MATH 2574 or MATH 2574C. (Typically offered: Irregular)

MATH 5703. Topology I. 3 Hours.

An introduction to topology. Topics include metric spaces, topological spaces and general point-set topology, homotopy and the fundamental group, covering spaces, the classification of surfaces. Prerequisite: MATH 4513 or MATH 5213 (formerly MATH 4513), and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall Even Years)

MATH 5713. Topology II. 3 Hours.

The continuation of Topology I. Topics include: advanced homotopy and covering spaces, the Seifert-van Kampen theorem, homology and the Mayer-Vietoris sequence. Prerequisite: MATH 5703, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring Odd Years)

MATH 5723. Differential Topology I. 3 Hours.

An introduction to the topology of smooth manifolds: applications of the inverse function theorem to smooth maps, Sard's theorem, transversality, intersection theory, degrees of maps, vector fields and differential forms on manifolds, integration on manifolds. Prerequisite: MATH 4513 or MATH 5213 (formerly MATH 4513) and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall Odd Years)

MATH 5733. Differential Topology II. 3 Hours.

The continuation of Differential Topology I, with additional advanced topics. Possible advanced topics may include: Morse theory, de Rham cohomology theory, Poincare duality, Riemannian geometry, and Lie groups and Lie algebras. Prerequisite: MATH 5723 and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring Even Years)

MATH 5803. Introduction to Point-Set Topology. 3 Hours.

(Formerly MATH 4703.) A study of topological spaces including continuous transformations, connectedness and compactness. Graduate degree credit will not be given for both MATH 4703 and MATH 5803. Prerequisite: MATH 4513 or MATH 5213 (formerly MATH 4513). (Typically offered: Irregular)

MATH 599V. Research Topics in Mathematics. 1-3 Hour.

(Formerly MATH 499V.) Current research interests in mathematics. Graduate degree credit will not be given for both MATH 499V and MATH 599V. Prerequisite: Departmental consent. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MATH 609V. Topics in Math Education. 1-6 Hour.

Topics in mathematics education research including curriculum, teacher education, learning theory, and assessment. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

MATH 610V. Directed Readings. 1-6 Hour.

Directed readings. Prerequisite: Departmental consent. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

MATH 619V. Topics in Algebra. 1-6 Hour.

Current research interests in algebra. Prerequisite: Graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

MATH 6203. Theory of Probability. 3 Hours.

A rigorous mathematical treatment based on measure theory of the fundamental notions and results of the theory of probability. Topics covered include laws of large numbers, central limit theorems, conditional expectations. Additional topics that may be covered include martingales, Markov chains, Brownian motion and stochastic integration. Prerequisite: MATH 5513. (Typically offered: Fall)

MATH 6213. Mathematical Statistics. 3 Hours.

A rigorous mathematical treatment of the fundamental principles and results in the theory of Statistics. Topics include exponential families of distributions, estimation of unknown parameters, the classical theory of theory of hypothesis testing, Large sample approximations, large sample properties of estimators. Prerequisite: MATH 6203. (Typically offered: Spring)

MATH 659V. Topics in Analysis. 1-6 Hour.

Current research interests in analysis. Prerequisite: Graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

MATH 679V. Topics in Topology. 1-6 Hour.

Current research interest in topology. Prerequisite: Graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

MATH 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Doctoral candidacy in mathematics. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Mechanical Engineering (MEEG) Courses

MEEG 2003. Statics. 3 Hours.

Equilibrium and resultants of force systems in a plane and in space; analysis of structures, friction, centroids, moments of inertia, and virtual work method. Methods of analysis are emphasized. Corequisite: Drill component. Pre- or Corequisite: MATH 2574 or MATH 2574C. Prerequisite: PHYS 2054. (Typically offered: Fall, Spring and Summer)

MEEG 2003H. Honors Statics. 3 Hours.

Equilibrium and resultants of force systems in a plane and in space; analysis of structures, friction, centroids, moments of inertia, and virtual work method. Methods of analysis are emphasized. Corequisite: Drill component. Pre- or Corequisite: MATH 2574 or MATH 2574C. Prerequisite: PHYS 2054 and honors standing. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MEEG 2003.

MEEG 2013. Dynamics. 3 Hours.

Kinematics and kinetics of particle and of rigid bodies; work and energy; impulse and momentum, and special topics. Corequisite: Drill component. Prerequisite: (MEEG 2003 or CVEG 2015) and MATH 2574. (Typically offered: Fall, Spring and Summer)

MEEG 2101. Computer-aided Design. 1 Hour.

The concept and application of solid-modeling, based on SolidWorks Computer-Aided Design (CAD) software suite, are introduced in this course. They include sketches, parts modeling, assembly of parts, and drawing documentation. Prerequisite: GNEG 1121 or GNEG 1121H or GNEG 1103. (Typically offered: Fall and Spring)

MEEG 2103. Introduction to Machine Analysis. 3 Hours.

Introduction to kinematics and kinetics of mechanisms, static and dynamic forces, gears and cam design and analysis. Recitation three hours per week and drill one hour per week. Corequisite: Drill component. Pre- or Corequisite: MEEG 2013. Prerequisite: PHYS 2054 and MEEG 2101. (Typically offered: Spring and Summer)

MEEG 2303. Introduction to Materials. 3 Hours.

A study of chemical, physical, and electrical properties of materials using fundamental atomistic approach. The materials of interest are: metals, polymers, ceramics, and composites. The interactive relationship between structure, properties, and processing of materials will be emphasized. For various engineering applications. Corequisite: Drill component. Prerequisite: MATH 2554, PHYS 2054 and CHEM 1103. (Typically offered: Fall and Spring)

MEEG 2403. Thermodynamics. 3 Hours.

A study of the 1st and 2nd laws of thermodynamics. Availability of energy, properties of liquids, gases, and vapors; nonflow and flow processes. Recitation 3 hours, drill 2 hours per week. Corequisite: Drill component. Prerequisite: PHYS 2054 and MATH 2564. (Typically offered: Fall, Spring and Summer)

MEEG 2703. Computer Methods in Mechanical Engineering. 3 Hours.

Use of computers and programming for solving engineering problems. Basic numerical methods including errors, equation solution, matrices, optimization, regression, integration, and differential equations. Corequisite: Drill component. Pre- or Corequisite: MATH 2584. (Typically offered: Spring and Summer)

MEEG 3013. Mechanics of Materials. 3 Hours.

Stress and deformation of members in tension, compression, torsion, and bending, and the design of these members. Columns, statically indeterminate beams, and simple connections. Corequisite: Drill component. Prerequisite: MEEG 2003. (Typically offered: Fall, Spring and Summer)

MEEG 3013H. Honors Mechanics of Materials. 3 Hours.

Stress and deformation of members in tension, compression, torsion, and bending, and the design of these members. Columns, statically indeterminate beams, and simple connections. Corequisite: Drill component. Prerequisite: MEEG 2003 and honors standing. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MEEG 3013.

MEEG 3113. Fundamentals of Vibrations. 3 Hours.

Time and frequency domain mathematical techniques for linear system vibrations are reviewed. Undamped system and viscously damped systems are analyzed. Equations of motion of single and multiple degrees-of-freedom systems are studied. Vibration of multi-degree-of-freedom systems are analyzed using modal analysis and modal summation methods. Eigenvalue problems as related vibrations are studied. Corequisite: Drill component. Prerequisite: MEEG 2103, MATH 2584 or MATH 2584C, MEEG 2703, and MEEG 2013. (Typically offered: Fall and Spring)

MEEG 3202L. Mechanical Engineering Laboratory I. 2 Hours.

Introduction to measurement, uncertainty, data acquisition, and instrumentation with an emphasis in materials and manufacturing. Corequisite: Drill component. Pre- or Corequisite: MEEG 3013 and ELEG 3903. Prerequisite: MEEG 2303 and PHYS 2074. (Typically offered: Fall and Spring)

MEEG 3212L. Mechanical Engineering Laboratory II. 2 Hours.

Design and implementation of measurements, fabrication processes, data acquisition, and data analysis with emphasis in mechanical and fluid systems. Corequisite: Drill component. Prerequisite: MEEG 3202L, MEEG 3503 and MEEG 3113. (Typically offered: Fall and Spring)

MEEG 3503. Mechanics of Fluids. 3 Hours.

A study of fluids including properties, pressure forces, and field flow utilizing conservation of mass, conservation of energy, and momentum principles. Pre- or Corequisite: MATH 2584. Prerequisite: MEEG 2403. (Typically offered: Fall and Summer)

MEEG 4003. Intermediate Dynamics. 3 Hours.

Review of central-force motion of spacecraft, use of rotating reference frames, Coriolis acceleration. Kinematics of rigid bodies in 3-D space: velocities and accelerations in different moving reference frames, addition theorem of angular accelerations. Kinetics of rigid bodies in 3-D space: eigenvalues and eigenvectors of inertia matrices, momentum and kinetic energy of a rigid body in 3-D motion, Euler's equations of motion; precession, nutation, and spin of a gyroscope; forced steady precession, torque free steady precession, space cone, and body cone. Prerequisite: MEEG 2013. (Typically offered: Irregular)

MEEG 4023. Composite Materials: Analysis and Design. 3 Hours.

A study of fibrous composite materials with emphasis on mechanical behavior, synthesis, and application. Topics include macro- and micromechanical analysis lamina, lamina theory, failure analysis in design, and manufacturing techniques. Prerequisite: MEEG 3013. (Typically offered: Irregular)

MEEG 4103. Machine Element Design. 3 Hours.

This course introduces the static failure theories and fatigue failure theories, and how each of the theories can be applied in practical engineering problems in supporting the selection and design of machine elements. This course also introduces key design concepts, design principles, design process, and design guidelines for four commonly-used machine elements: spring, gear, bearing and shaft. Pre- or Corequisite: MEEG 3113. Prerequisite: MEEG 3013. (Typically offered: Fall, Spring and Summer)

MEEG 4103H. Honors Machine Element Design. 3 Hours.

This course introduces the static failure theories and fatigue failure theories, and how each of the theories can be applied in practical engineering problems in supporting the selection and design of machine elements. This course also introduces key design concepts, design principles, design process, and design guidelines for four commonly-used machine elements: spring, gear, bearing and shaft. Advanced project required of honors students. Advanced project required. (Typically offered: Fall, Spring and Summer)
This course is equivalent to MEEG 4103.

MEEG 4123. Finite Element Methods I. 3 Hours.

Introduction to the use of the finite element method in mechanical engineering analysis and design. Use of commercial software to solve thermal and mechanical problems. Pre- or Corequisite: MEEG 3013 and MEEG 4413. (Typically offered: Irregular)

MEEG 4132. Professional Engineering Practices. 2 Hours.

Design proposal preparation, design codes, professional ethics, engineering economics, and the role of the engineer in society. Pre- or Corequisite: MEEG 4103 or MEEG 4483. (Typically offered: Fall and Spring)

MEEG 4143. Design for Safety. 3 Hours.

This course provides an overview of safety engineering and a framework from which the students can evaluate and develop mechanical and thermal systems from a safety perspective. Pre- or Corequisite: MEEG 4413. Prerequisite: MEEG 3013. (Typically offered: Irregular)

MEEG 4153. Fundamentals of Mechanical Design. 3 Hours.

This class is designed to provide engineering students with a head start in industry as design engineers or working in an engineering related function. The course contents cover machine design and analysis experiences as related to working in industry and performing consulting work. Major topics include the design process, design procedures, fasteners, general design and numerous consulting experiences. A concept design exercise and two special design projects will be assigned to the students as homework. Prerequisite: MEEG 4103. (Typically offered: Fall)

MEEG 4182. Creative Project Design I. 2 Hours.

Students will select a capstone design project, and each student group will prepare a formal written proposal on their project for presentation to a panel of judges. This group project will be carried to completion in MEEG 4192. Pre- or Corequisite: MEEG 4103 or MEEG 4483. (Typically offered: Fall and Spring)

MEEG 4192. Creative Project Design II. 2 Hours.

Student groups will present their final capstone design proposal to a faculty panel and then carry out their project to completion. Each student group will make timely progress reports, complete their design project, and present their final report to a panel of judges. Prerequisite: MEEG 4182. (Typically offered: Fall and Spring)

MEEG 4202L. Mechanical Engineering Laboratory III. 2 Hours.

Application of measurement techniques to mechanical engineering problems which emphasize mechanical and thermal systems. Corequisite: Drill component. Pre- or corequisite: MEEG 4483. Prerequisite: MEEG 3212L and MEEG 4103. (Typically offered: Fall, Spring and Summer)

MEEG 4213. Control of Mechanical Systems. 3 Hours.

Mathematical modeling for feedback control of dynamic mechanical systems with design techniques using LaPlace transforms, state variables, root locus, frequency analysis, and criteria for performance and stability. Prerequisite: MEEG 3113. (Typically offered: Irregular)

MEEG 4233. Microprocessors in Mechanical Engineering I: Electromechanical Systems. 3 Hours.

Microcomputer architectural, programming, and interfacing. Smart product design (microprocessor-based design). Control of DC and stepper motors and interfacing to sensors. Applications to robotics and real-time control. Mobile robot project. Digital and analog electronics are reviewed where required. Prerequisite: ELEG 3903. (Typically offered: Irregular)

MEEG 4253. Introduction to Robotics. 3 Hours.

This course serves as an introduction to robotics. The course covers the historical development of robotics as a field, and as mechatronic systems, the importance of integrating sensors, actuators and end-effectors. Topics covered in this course will include but not limited to the following: mathematical modeling of robots, rigid motions and homogeneous transformation, forward/inverse kinematics, and velocity kinematics. Prerequisite: MEEG 2703, MEEG 3113 and instructor consent. (Typically offered: Fall)

MEEG 4303. Materials Laboratory. 3 Hours.

A study of properties, uses, testing, and heat treatment of basic engineering materials and related analytical techniques. Corequisite: Lab component. Prerequisite: MEEG 2303. (Typically offered: Irregular)

MEEG 4303H. Honors Materials Laboratory. 3 Hours.

A study of properties, uses, testing, and heat treatment of basic engineering materials. Corequisite: Lab component. Prerequisite: MEEG 2303 and MEEG 3013. (Typically offered: Irregular)
This course is equivalent to MEEG 4303.

MEEG 4313. Introduction to Tribology. 3 Hours.

A study of science and technology of interacting surfaces in relative motion. Topics include solid surface characterization, contact between solid surfaces, adhesion, friction, wear, lubrication, micro/nanotribology, friction and wear screening test methods, and tribological components and applications. Prerequisite: MEEG 3013 and MEEG 3503 or graduate standing. (Typically offered: Irregular)

MEEG 4323L. Nanotechnology Laboratory. 3 Hours.

Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564 and PHYS 2074. (Typically offered: Fall)
This course is cross-listed with CHEM 4153L, PHYS 4793L.

MEEG 4323M. Honors Nanotechnology Laboratory. 3 Hours.

Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564 and PHYS 2074. (Typically offered: Fall)

MEEG 4333. Hybrid Electric Vehicles. 3 Hours.

This course is intended to provide an introduction to basics of hybrid and pure electrical vehicles (mainly passenger cars), covering history, architecture, constituents, working mechanisms, and key technologies. The course focuses on fundamental concepts of different hybrid electrical vehicles (HEVs) and their technical features and highlights the successes of the state-of-the-art pure electrical vehicles (EVs). In addition, this course will introduce various battery technologies used for electrical vehicles, covering traditional batteries, lithium-ion batteries, and batteries beyond lithium-ions. It is appropriate for engineering and natural science students interested in obtaining basic knowledge of hybrid and pure electrical vehicles to prepare for a career in developing alternate energy sources. Prerequisite: CHEM 1113, ELEG 3903 or BENG 3113, and senior standing. (Typically offered: Spring)

MEEG 4413. Heat Transfer. 3 Hours.

Basic thermal energy transport processes; conduction, convection, and radiation; and the mathematical analysis of systems involving these processes in both steady and time-dependent cases. Prerequisite: MEEG 3503. (Typically offered: Spring and Summer)

MEEG 4423. Power Generation. 3 Hours.

Study of design and operational aspects of steam, gas, and combined cycle power plants. Brief study of Nuclear and Alternative energy systems. Prerequisite: MEEG 3503. (Typically offered: Irregular)

MEEG 4433. Aerospace Propulsion. 3 Hours.

Principles, operation, and characteristics of gas turbine and rocket engines. Brief study of novel spacecraft propulsion systems. Prerequisite: MEEG 3503. (Typically offered: Irregular)

MEEG 4453. Industrial Waste and Energy Management. 3 Hours.

Applications of thermodynamics, heat transfer, fluid mechanics, and electric machinery to the analysis of waste streams and energy consumption for industrial facilities. Current techniques and technologies for waste minimization and energy conservation including energy-consuming systems and processes, utility rate analysis, economic analysis and auditing are taught. Prerequisite: MEEG 4413. (Typically offered: Irregular)

MEEG 4473. Indoor Environmental Control. 3 Hours.

Gives student a thorough understanding of the fundamental theory of air conditioning design for commercial buildings, including calculating heating and cooling loads along with the proper selection and sizing of air conditioning equipment. Prerequisite: MEEG 4413. (Typically offered: Irregular)

MEEG 4483. Thermal Systems Analysis and Design. 3 Hours.

Analysis design and optimization of thermal systems and components with examples from such areas as power generation, refrigeration, and propulsion. Availability loss characteristics of energy systems and availability conservation methods. Prerequisite: MEEG 4413. (Typically offered: Fall and Summer)

MEEG 4483H. Honors Thermal Systems Analysis and Design. 3 Hours.

Analysis design and optimization of thermal systems and components with examples from such areas as power generation, refrigeration, and propulsion. Availability loss characteristics of energy systems and availability conservation methods. Additional topics, with an additional design project and /or more rigorous approach to design projects for honors course. Advanced project required. Prerequisite: MEEG 4413 (Typically offered: Fall and Summer)

This course is equivalent to MEEG 4483.

MEEG 4493. Internal Combustion Engines. 3 Hours.

Study of the design of internal combustion engines, including emissions and performance issues. Pre- or Corequisite: MEEG 3503. (Typically offered: Irregular)

MEEG 4503. Introduction to Flight. 3 Hours.

The course will provide understanding in basic aerodynamics, airfoil design and characteristics, and flight control surfaces. Prerequisite: MATH 2584, MEEG 3503. (Typically offered: Fall)

MEEG 4503H. Honors Introduction to Flight. 3 Hours.

The course will provide understanding in basic aerodynamics, airfoil design and characteristics, and flight control surfaces. Prerequisite: MATH 2584 and MEEG 3503. (Typically offered: Fall)

This course is equivalent to MEEG 4503.

MEEG 4523. Astronautics. 3 Hours.

Study of spacecraft design and operations. Prerequisite: MEEG 2013 and MEEG 2403 or consent of instructor. (Typically offered: Irregular)

MEEG 4633. Additive Manufacturing. 3 Hours.

This course provides an overview of developing opportunities and critical challenges of additive manufacturing (AM, also known as 3-D printing). It covers existing and emerging additive manufacturing processes in the context of product design, materials selection and processing, and industrial and consumer applications. Students will learn to take advantage of the new capabilities of additive manufacturing technologies (e.g., design freedom) for existing and new applications and the implementation of their designs in a laboratory through project-based learning. Students may not receive credit for both MEEG 4633 and MEEG 5633. Prerequisite: MEEG 2101, MEEG 2303, MEEG 3013, and MEEG 3503 or instructor consent. (Typically offered: Spring)

MEEG 4703. Mathematical Methods in Engineering. 3 Hours.

Determinants, matrices, inverse of a matrix, simultaneous equations, eigenvalues, eigenvectors, coordinate transformations for matrices, diagonalization, square roots of a matrix, cryptography, and method of least squares. Vector algebra and calculus, Green's theorem, Stokes' theorem, and Gauss' divergence theorem. Index notation, epsilon-delta identity, and Cartesian tensors. Curvilinear coordinates, base vectors, and covariant and contravariant tensors. Applications to mechanics. Prerequisite: MATH 2574. (Typically offered: Irregular)

MEEG 4903H. Honors Mechanical Engineering Research. 3 Hours.

Independent research for mechanical engineering honors students. Prerequisite: Honors standing and instructor consent. (Typically offered: Fall and Spring)

MEEG 491V. Special Topics in Mechanical Engineering. 1-6 Hour.

Consideration of current mechanical engineering topics not covered in other courses. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEEG 491VH. Honors Special Topics in Mechanical Engineering. 1-6 Hour.

Consideration of current mechanical engineering topics not covered in other courses. Prerequisite: Honors standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEEG 492V. Individual Study in Mechanical Engineering. 1-3 Hour.

Individual study and research on a topic of mutually agreeable interest to the student and a faculty member. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer)

MEEG 492VH. Honors Individual Study in Mechanical Engineering. 1-3 Hour.

Individual study and research on a topic of mutually agreeable interest to the student and a faculty member. Prerequisite: Senior standing. (Typically offered: Fall, Spring and Summer)

This course is equivalent to MEEG 492V.

MEEG 5033. Advanced Mechanics of Materials I. 3 Hours.

Combined stress, theories of failure, thick-walled cylinders, bending of unsymmetrical sections, torsion in noncircular section, plate stresses, and strain energy analysis. Prerequisite: MEEG 2013 and MEEG 3013. (Typically offered: Irregular)

MEEG 5123. Finite Elements Methods II. 3 Hours.

Development and application of finite element (FE) methods used to solve transient and two-dimensional boundary value problems. Applications are taken from solid and fluid mechanics, heat transfer, and acoustics. Emphasis is placed on the FE methodology in order to make accessible the research literature and commercial software manuals, and to encourage responsible use and interpretation of FE analysis. Prerequisite: MEEG 4123 and graduate standing or consent. (Typically offered: Irregular)

MEEG 5143. Advanced Machine Design. 3 Hours.

Application of advanced topics such as probability theory, fracture mechanics, and computer methods to the design and analysis of complex mechanical systems. Prerequisite: MEEG 4103 and graduate standing. (Typically offered: Irregular)

MEEG 5153. Fundamentals of Mechanical Design. 3 Hours.

(Formerly MEEG 4153.) This class is designed to provide engineering students with a head start in industry as design engineers or working in an engineering related function. The course contents cover machine design and analysis experiences as related to working in industry and performing consulting work. Major topics include the design process, design procedures, fasteners, general design and numerous consulting experiences. A concept design exercise and two special design projects will be assigned to the students as homework. Graduate degree credit will not be given for both MEEG 4153 and MEEG 5153. Prerequisite: MEEG 4103. (Typically offered: Fall)

MEEG 5163. Advanced Product Design. 3 Hours.

This course provides an in-depth and comparative study on the theories of engineering design and equips students to understand and utilize the tools and methodologies founded on those theories. (Typically offered: Fall)

MEEG 5203. Robot Modeling and Simulation. 3 Hours.

This is a graduate level course in Robotics dealing with the behavioral study of robots. Topics covered in this course will include but not limited to the following: mathematical modeling of robots, rigid motions and homogeneous transformation, forward/inverse kinematics of robots, velocity kinematics, path and trajectory planning, robot dynamics, joint control, PD/PID control, and multivariable control. Advanced topics may include passivity-based motion control, geometric nonlinear control, computer vision, vision-based control, and sensor fusion. Prerequisite: Graduate standing in MEEG or ELEG and consent of the instructor. (Typically offered: Spring)

MEEG 5253. Bio-Mems. 3 Hours.

Topics include the fundamental principles of microfluidics, Navier-Stokes Equation, bio/abio interfacing technology, bio/abio hybrid integration of microfabrication technology, and various biomedical and biological problems that can be addressed with microfabrication technology and the engineering challenges associated with it. Lecture 3 hours per week. Prerequisite: MEEG 3503 or CVEG 3213 or CHEG 2133. (Typically offered: Spring)

This course is cross-listed with BENG 5253.

MEEG 5263. Introduction to Micro Electro Mechanical Systems. 3 Hours.

A study of mechanics and devices on the micro scale. Course topics will include: introduction to micro scales, fundamentals of microfabrication, surface and bulk micromachining, device packaging, device reliability, examples of micro sensors and actuators. Recitation three hours per week. (Typically offered: Fall)

MEEG 5273. Electronic Packaging. 3 Hours.

An introductory treatment of electronic packaging from single chip to multichip including materials, electrical design, thermal design, mechanical design, package modeling and simulation, processing considerations, reliability, and testing. Credit cannot be earned for both MEEG 5273 and ELEG 5273. Prerequisite: (ELEG 3214 or ELEG 3933) and MATH 2584. (Typically offered: Irregular)

This course is cross-listed with ELEG 5273.

MEEG 5303. Physical Metallurgy. 3 Hours.

Physical and chemical properties of solids and the application of materials in commerce. Prerequisite: MEEG 2303. (Typically offered: Irregular)

MEEG 5323. Physical and Chemical Vapor Deposition Processes. 3 Hours.

Fundamental principles of materials behavior in the deposition of films by PVD/CVD. Topics include kinetic theory of gases, statistical mechanics, plasmas, diagnostics, reaction rate theory, nucleation and growth, crystal structures and defects in thin films, advanced characterization techniques for thin films, and applications in microelectronics, tribology, corrosion, bio- and nano-materials. Prerequisite: Graduate standing in Engineering or consent of instructor. (Typically offered: Irregular)

MEEG 5333. Introduction to Tribology. 3 Hours.

A study of science and technology of interacting surfaces in relative motion. Topics include solid surface characterization, contact between solid surfaces, adhesion, friction, wear, lubrication, micro/nanotribology, friction and wear screening test methods, and tribological components and applications. Students may not earn credit for both MEEG 5333 and MEEG 4313. Prerequisite: Graduate standing. (Typically offered: Irregular)

MEEG 5343. Computational Material Science. 3 Hours.

This course provides students with an overview of different modeling techniques in material science. Applications will be presented on a broad range of modeling techniques including atomistic simulation methods, Monte Carlo techniques, molecular mechanics, and molecular dynamics. Prerequisite: Graduate standing. (Typically offered: Irregular)

MEEG 5403. Advanced Thermodynamics. 3 Hours.

An in-depth review of classical thermodynamics, including availability analysis, combustion, and equilibrium, with an introduction to quantum mechanics and statistical thermodynamics. Prerequisite: Graduate standing in Engineering or consent of instructor. (Typically offered: Spring)

MEEG 5423. Statistical Thermodynamics. 3 Hours.

Concepts and techniques for describing high temperature and chemically reactive gases from a molecular point of view. Introductory kinetic theory, chemical thermodynamics, and statistical mechanics applied. Prerequisite: MEEG 2403 and MATH 2574. (Typically offered: Irregular)

MEEG 5433. Combustion. 3 Hours.

Introduction to combustion of solid, liquid, and gaseous fuels. Equilibrium and kinetics of hydrocarbon oxidation, laminar and turbulent flames, premixed and non-premixed combustion processes, ignition, quenching, stability, emissions and diagnostics. Prerequisite: Graduate standing in Engineering or consent of instructor. (Typically offered: Irregular)

MEEG 5453. Advanced Heat Transfer. 3 Hours.

More in-depth study of topics covered in MEEG 4413, Heat Transfer, and coverage of some additional topics. Prerequisite: MEEG 4413 or equivalent. (Typically offered: Fall)

MEEG 5473. Radiation Heat Transfer. 3 Hours.

Spectral analysis, radiant exchange in gray and non-gray enclosures, gas radiation, and multi-mode heat transfer. Prerequisite: MEEG 5453 or equivalent. (Typically offered: Summer Even Years)

MEEG 5483. Thermal Systems Analysis and Design. 3 Hours.

(Formerly MEEG 4483.) Analysis design and optimization of thermal systems and components with examples from such areas as power generation, refrigeration, and propulsion. Availability loss characteristics of energy systems and availability conservation methods. Graduate degree credit will not be given for both MEEG 4483 and MEEG 5483. Prerequisite: MEEG 4413. (Typically offered: Fall and Summer)

MEEG 5503. Advanced Fluid Dynamics I. 3 Hours.

A basic survey of the characteristics of fluid flow under a variety of conditions with examples. Begins with a derivation of the Navier-Stokes equations and an evaluation of the dimensionless groups found from these equations. Topics to be covered include viscous laminar and turbulent boundary layers, jets and wakes, Stokes flow, inviscid flows with and without free surfaces and turbulence. Prerequisite: MEEG 3503 and MATH 2584. (Typically offered: Spring)

MEEG 5513. Introduction to Flight. 3 Hours.

(Formerly MEEG 4503.) The course will provide understanding in basic aerodynamics, airfoil design and characteristics, and flight control surfaces. Graduate degree credit will not be given for both MEEG 4503 and MEEG 5513. Prerequisite: MATH 2584, MEEG 3503. (Typically offered: Fall)

MEEG 5523. Astronautics. 3 Hours.

(Formerly MEEG 4523.) Study of spacecraft design and operations. Graduate degree credit will not be give for both MEEG 4523 and MEEG 5523. Prerequisite: MEEG 2013 and MEEG 2403 or consent of instructor. (Typically offered: Irregular)

MEEG 5533. Fundamentals of Aerodynamics. 3 Hours.

A study of external-flow fluid mechanics applied to Aerodynamics. Topics include integral and differential forms of the basic fluid equations (continuity, momentum, and energy), potential flow, and supersonic flow. Prerequisite: MEEG 3503. (Typically offered: Spring)

MEEG 5633. Additive Manufacturing. 3 Hours.

This course provides an overview of developing opportunities and critical challenges of additive manufacturing (AM, also known as 3-D printing). It covers existing and emerging additive manufacturing processes in the context of product design, materials selection and processing, and industrial and consumer applications. Students may not receive credit for both MEEG 4633 and MEEG 5633. Prerequisite: MEEG 2101, MEEG 2303, MEEG 3013, and MEEG 3503 or instructor consent. (Typically offered: Spring)

MEEG 5733. Advanced Numerical Methods. 3 Hours.

Numerical methods for the solution of linear and non-linear ordinary and partial differential equations; initial and boundary value problems; one-step and multi-step methods; predominantly finite difference but also finite element and control volume techniques; and computer applications. Graduate standing in Engineering or consent of instructor. (Typically offered: Irregular)

MEEG 5833. Aerospace Propulsion. 3 Hours.

(Formerly MEEG 4433.) Principles, operation, and characteristics of gas turbine and rocket engines. Brief study of novel spacecraft propulsion systems. Graduate degree credit will not be given for both MEEG 4433 and MEEG 5833. Prerequisite: MEEG 3503. (Typically offered: Irregular)

MEEG 5853. Industrial Waste and Energy Management. 3 Hours.

(Formerly MEEG 4453.) Applications of thermodynamics, heat transfer, fluid mechanics, and electric machinery to the analysis of waste streams and energy consumption for industrial facilities. Current techniques and technologies for waste minimization and energy conservation including energy-consuming systems and processes, utility rate analysis, economic analysis and auditing are taught. Graduate degree credit will not be given for both MEEG 4453 and MEEG 5853. Prerequisite: MEEG 4413. (Typically offered: Irregular)

MEEG 5873. Indoor Environmental Control. 3 Hours.

(Formerly MEEG 4473.) Gives student a thorough understanding of the fundamental theory of air conditioning design for commercial buildings, including calculating heating and cooling loads along with the proper selection and sizing of air conditioning equipment. Graduate degree credit will not be given for both MEEG 4473 and MEEG 5873. Prerequisite: MEEG 4413. (Typically offered: Irregular)

MEEG 591V. Special Topics in Mechanical Engineering. 1-6 Hour.

Consideration of current advanced mechanical engineering topics not covered in other courses. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEEG 592V. Individual Study in Mechanical Engineering. 1-3 Hour.

Opportunity for individual study of advanced subjects related to a graduate mechanical engineering program to suit individual requirements. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEEG 5953. Fundamentals of Fracture and Fatigue in Structures. 3 Hours.

The course will cover the concepts of linear-elastic, elastic-plastic and time-dependent Fracture Mechanics as applied to fracture in a variety of materials, structures, and operating conditions. The examples will include fracture in large components such as aircraft, bridges and pressure vessels and also in bones and in soft materials and human tissue. Prerequisite: Graduate standing in Civil, Mechanical or Biomedical Engineering or consent of the instructor. (Typically offered: Fall and Spring)

This course is cross-listed with BMEG 5953, CVEG 5953.

MEEG 5963. Advanced Fracture Mechanics and Structural Integrity. 3 Hours.

This course provides an in-depth treatment of advanced topics in fracture mechanics such as stress analysis of cracks under elastic-plastic loading, crack initiation and growth under elastic-plastic and time-dependent creep and creep-fatigue conditions. The course emphasizes fundamental underpinnings of nonlinear fracture mechanics and its use in material evaluation and life prediction methodology for structural components. Micro-mechanics of fracture and crack growth processes are also covered. Prerequisite: MEEG 5953, or BMEG 5953, or CVEG 5953 or equivalent, or instructor consent. (Typically offered: Fall and Spring)

MEEG 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

MEEG 6800. Graduate Seminar. 0 Hours.

A periodic seminar devoted to mechanical engineering research topics. Course includes letter grades A, B, C, D, and F as well as CR. (Typically offered: Fall and Spring)

MEEG 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Medieval and Renaissance Studies (MRST)

Courses

MRST 2013. Introduction to Medieval and Renaissance Studies. 3 Hours.

An interdisciplinary introduction to the major historical and cultural developments in northern Europe and the Mediterranean basin from approximately 500 to 1600 C.E. (Typically offered: Fall Even Years)

MRST 2013H. Honors Introduction to Medieval and Renaissance Studies. 3 Hours.

An interdisciplinary introduction to the major historical and cultural developments in northern Europe and the Mediterranean basin from approximately 500 to 1600 C.E. (Typically offered: Fall Even Years) May be repeated for up to 6 hours of degree credit.

This course is equivalent to MRST 2013.

MRST 3013. Special Topics in Medieval Studies. 3 Hours.

In-depth study of some topic or period of medieval literature, art, history and philosophy. Prerequisite: Sophomore standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MRST 3013H. Honors Special Topics in Medieval Studies. 3 Hours.

In-depth study of some topic or period of medieval literature, art, history and philosophy. Prerequisite: Sophomore standing. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

This course is equivalent to MRST 3013.

MRST 3023. Special Topics in Early Modern Studies. 3 Hours.

In-depth study of some topic or period of Early Modern literature, art, history and philosophy. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MRST 3023H. Honors Special Topics in Early Modern Studies. 3 Hours.

In-depth study of some topic or period of Early Modern literature, art, history and philosophy. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

This course is equivalent to MRST 3023.

MRST 4003. Medieval and Renaissance Studies Colloquium. 3 Hours.

Advanced study of some more narrowly focused aspect of medieval and/or Renaissance studies. Prerequisite: Sophomore standing. (Typically offered: Spring Odd Years) May be repeated for up to 6 hours of degree credit.

MRST 4003H. Honors Medieval and Renaissance Studies Colloquium. 3 Hours.

Advanced study of some more narrowly focused aspect of medieval and/or Renaissance studies. Prerequisite: Sophomore standing. (Typically offered: Spring Odd Years) May be repeated for up to 6 hours of degree credit.

This course is equivalent to MRST 4003.

MRST 470V. Special Topics in Medieval and Renaissance Studies. 1-6 Hour.

An examination of pertinent issues in medieval and/or Renaissance studies.

Prerequisite: Sophomore standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MRST 470VH. Honors Special Topics in Medieval and Renaissance Studies. 1-6 Hour.

An examination of pertinent issues in medieval and/or Renaissance studies.

Prerequisite: Sophomore standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

This course is equivalent to MRST 470V.

Microelectronics-Photonics (MEPH)

Courses

MEPH 488V. MicroEP Undergraduate Research. 1-3 Hour.

Special research topics associated with undergraduates enrolled in the Microelectronics-Photonics minor program, or by special permission of the microEP Director to undergraduate students engaged in research with microEP faculty members. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

MEPH 5253. Emerging Technologies in Industry. 3 Hours.

Business leaders present technologies used by their companies. Focusing on Arkansas-based companies, technology needs for the industry and innovative ideas for solutions or advancements are discussed. Students work to develop solutions to address company needs or further develop a company's current technology. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

MEPH 5383. Research Commercialization and Product Development. 3 Hours.

This survey course examines research commercialization through analysis of IP, technology space, market space, manufacturability, financials, and business plans. Entrepreneurial behaviors and product development within large companies are also discussed. A case study using a current UA faculty member's research commercialization effort will be developed. Prerequisite: Graduate Standing. (Typically offered: Spring)

MEPH 5393. Product Development Process. 3 Hours.

Demonstration of a student's technical and management knowledge integration by creating a commercially viable product development process to meet a new societal need, with the technical solution based on micro to nanoscale technology. Final grade based on a detailed written report and oral presentation to a panel. Non-thesis students only. Pre- or Corequisite: MEPH 5383. Prerequisite: Instructor permission. (Typically offered: Spring)

MEPH 5513. Applied Research in External Technical Organizations. 3 Hours.

A one semester narrow focus graduate level research effort while working at an external technical organization's site. Requires a final report of style and quality suitable for journal submission. This course available only to Professional Path M.S. microEP students, and may substitute for an MEPH 588V External Internship. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEPH 5523. Applied On-Campus Collaborative Research with External Technical Organizations. 3 Hours.

A one semester narrow focus graduate level on-campus research effort performed in collaboration with an external technical organization. Requires a final report of style and quality suitable for journal submission. This course available only to Professional Path M.S. microEP students. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEPH 555V. Internship in External Technical Organization. 1-3 Hour.

Used to document a microEP grad student internship experience in an external technical organization for a minimum duration of six weeks (6-9 weeks=one hour, 10-12 weeks=two hours, and 13-15 weeks=three hours). It may not be used to meet the research requirements of a M.S. degree. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

MEPH 5611. Research Communication Seminar of MS Students. 1 Hour.

This course serves as a forum for MS students to develop oral presentation skills and to exchange research ideas. Research presentations will be on various topics in the area of micro to nanoscale materials, processing, and devices, with research management and planning also being addressed. Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

MEPH 5713. Advanced Nanomaterials Chemistry. 3 Hours.

Science and engineering graduates are using more nanomaterials, and modern industry demands that its scientists and engineers have materials chemistry knowledge. Materials from the micro to nanoscale will be examined in this course from the perspective of fundamental chemistry principles to build a picture of tomorrow's materials. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

MEPH 5733L. Fabrication at the Nanoscale. 3 Hours.

This hands-on lab course will cover the disciplines needed to make active electronic and photonic devices utilizing nanoscale structures and fabrication techniques presently used in research and industry. Prerequisite: Graduate standing and permission of the instructor. (Typically offered: Spring)

MEPH 5742. Transmission Electron Microscopy Theory and Operation. 2 Hours.

This new laboratory course will introduce students to practical electron microscopy and to the operation of the Titan S/TEM for examination of sub-angstrom examination of materials. Students will learn how to conduct a TEM study, how to operate the TEM, and how to extract and interpret useful information. Prerequisite: Graduate standing. (Typically offered: Irregular)

MEPH 5811. 1st Year Operations Seminar - Infrastructure Management. 1 Hour.

Weekly seminar for 1st year Microelectronics-Photonics graduate students to discuss issues that increase professional performance in technology-centered organizations. The discussions will focus on issues that affect organizational infrastructure, career planning, organizational structures, and may include examples from current events. Prerequisite: Graduate standing. (Typically offered: Fall)

MEPH 5821. Ethics for Scientists and Engineers. 1 Hour.

This course will introduce methods useful in the practice of ethical decision making in the high technology academic and industrial work place. An emphasis will be placed on applying the methods discussed in the text to student and instructor past professional experiences. Prerequisite: graduate standing. (Typically offered: Summer)

MEPH 5832. Proposal Writing and Management. 2 Hours.

This course introduces factors that affect proposal success in both the academic and industrial arenas; demonstrates different approaches to writing successful proposals; and introduces students to the legal responsibilities and ramifications of proposal management. Students will write two proposals for peer review and formal evaluation. Prerequisite: Graduate standing. (Typically offered: Summer)

MEPH 587V. Special Topics in Microelectronics-Photonics. 1-4 Hour.

Consideration of current microelectronic-photonics topics not covered in other courses. One section will be created for each topic only after a syllabus is submitted to the microEP office by the faculty member teaching the course. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

MEPH 588V. Special Problems in Microelectronics-Photonics. 1-3 Hour.

Opportunity for individual study of advanced subjects related to a graduate degree in Microelectronics-Photonics to suit individual requirements. One section will be created for each student only after a syllabus is submitted to the microEP office by the supervising faculty member. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

MEPH 5911. 1st Year Operations Seminar - Personnel Management. 1 Hour.

Weekly seminar for 1st year Microelectronics-Photonics graduate students to discuss issues that increase professional performance in technology-centered organizations. The discussions will focus on issues that affect personnel management, team building and structures, and may include examples from current events. Prerequisite: Graduate standing. (Typically offered: Spring)

MEPH 626V. Emerging Technologies in Industry Practicum. 1-3 Hour.

Students engage in demand-driven research projects inspired by Arkansas companies as part of the interdisciplinary IGNITE (Industry Generating New Ideas and Technology through Education) program. These projects, which often result from interactions with companies during MEPH 5253, include visiting company locations; developing project goals, budgets, and timelines; and performing research. (Typically offered: Fall, Spring and Summer) May be repeated for up to 9 hours of degree credit.

MEPH 6611. Research Communication Seminar of PhD Students. 1 Hour.

This course serves as a forum for Ph.D. students to develop oral presentation skills and to exchange research ideas. Research presentations will be on various topics in the area of micro to nanoscale materials, processing and devices, with research management and planning also being addressed. Prerequisite: Graduate standing. (Typically offered: Fall and Spring)

MEPH 6811. 2nd Year Operations Seminar - Management and Leadership. 1 Hour.

Weekly seminar for 2nd year Microelectronics-Photonics graduate students to discuss issues that increase professional performance in technology-centered organizations. The discussions will focus on issues that affect management and leadership effectiveness and efficiency, and may include examples from current events. Prerequisite: Graduate standing. (Typically offered: Fall)

MEPH 6911. 2nd Year Operations Seminar - Advanced Management and Leadership. 1 Hour.

Weekly seminar for 2nd year Microelectronics-Photonics graduate students to discuss advanced issues that increase professional performance in technology-centered organizations. The discussions will focus on the complex issues that affect management and leadership effectiveness and efficiency, and may include examples from current events. Prerequisite: Graduate standing. (Typically offered: Spring)

Middle East Studies (MEST)

Courses

MEST 2003. Introduction to Islam. 3 Hours.

This course introduces Islam as a global religion and world civilization, including study of the Qur'an, prophet Muhammad, ritual and community practices, metaphysics, mysticism, art, literature, and sacred and critical history. (Typically offered: Irregular)

MEST 2003H. Honors Introduction to Islam. 3 Hours.

This course introduces Islam as a global religion and world civilization, including study of the Qur'an, prophet Muhammad, ritual and community practices, metaphysics, mysticism, art, literature, and sacred and critical history. (Typically offered: Irregular)

This course is equivalent to MEST 2003.

MEST 2013. Introduction to Middle East Studies. 3 Hours.

This course is designed to provide students with fundamental building blocks for understanding the contemporary Middle East/Islamic World. Students will be introduced to a variety of disciplinary approaches to the study of the geo-cultural region, including history, politics, arts and literature, religions and cultures, social geography, and economics. (Typically offered: Fall)

MEST 3003. Islam: Beliefs and Practices. 3 Hours.

Explores the relationship between teachings, norms, customary practices and Muslim perception of Islam. Examines theoretical concepts and practices, such as war and peace, democracy, pluralism, modernity, human rights, environment, gender, Islamic law, nation-state, and citizenship in addition to the basic tenets of Islam. (Typically offered: Spring)

MEST 3003H. Honors Islam: Beliefs and Practices. 3 Hours.

Explores the relationship between teachings, norms, customary practices and Muslim perception of Islam. Examines theoretical concepts and practices, such as war and peace, democracy, pluralism, modernity, human rights, environment, gender, Islamic law, nation-state, and citizenship in addition to the basic tenets of Islam. Prerequisite: Honors standing. (Typically offered: Spring)

This course is equivalent to MEST 3003.

MEST 340V. MEST Independent Study. 1-3 Hour.

An exploration of varied topics related to the Middle East and North Africa studied independently with the supervision of a faculty member. Credit arranged with instructor. Prerequisite: Instructor consent and junior standing (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

MEST 340VH. Honors MEST Independent Study. 1-3 Hour.

An exploration of varied topics related to the Middle East and North Africa studied independently with the supervision of a faculty member. Credit arranged with instructor. Prerequisite: Instructor consent, junior standing and honors standing. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

This course is equivalent to MEST 340V.

MEST 399V. MEST: Honors Thesis. 1-3 Hour.

Middle East Studies Honors research, readings and thesis. Prerequisite: Junior standing. (Typically offered: Irregular)

MEST 4003. Middle East Studies Colloquium. 3 Hours.

An interdepartmental colloquium with an annual change in subject required of all students in the Middle East studies program. Prerequisite: Sophomore standing. (Typically offered: Spring) May be repeated for up to 6 hours of degree credit.

MEST 4003H. Honors Middle East Studies Colloquium. 3 Hours.

Honors colloquium. (Typically offered: Spring) May be repeated for up to 3 hours of degree credit.

This course is equivalent to MEST 4003.

MEST 4103. Special Topics in Middle East Studies. 3 Hours.

Courses in lecture or seminar format to be offered in a variety of disciplines relating to the history, culture, politics, geography, languages, literature, arts, and religions of the Middle East, North Africa, and/or Islamic world. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MEST 4103H. Honors Special Topics in Middle East Studies. 3 Hours.

Courses in lecture or seminar format to be offered in a variety of disciplines relating to the history, culture, politics, geography, languages, literature, arts, and religions of the Middle East, North Africa, and/or Islamic world. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MEST 420V. Internship. 3-6 Hour.

Internship experience with a group, firm, agency, or non-profit organization related to the Middle East and/or North Africa (MENA). Local, regional, and international internships (paid and unpaid) may take place with various NGOs, related corporations, and US Agencies and Departments. Prerequisite: Junior or senior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

MEST 420VH. Honors Internship. 3-6 Hour.

Internship experience with a group, firm, agency, or non-profit organization related to the Middle East and/or North Africa (MENA). Local, regional, and international internships (paid and unpaid) may take place with various NGOs, related corporations, and US Agencies and Departments. Prerequisite: Junior or senior standing and honors standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

This course is equivalent to MEST 420V.

Music (MUSC)

Courses

MUSC 3923H. Honors Colloquium in Music. 3 Hours.

Covers a special topic or issue offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in Music). (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

MUSC 490VH. Honors Essay. 1-6 Hour.

An honors research paper in Music History or literature, Ethnomusicology, Music Theory, or Music Education. Open to seniors in honors. (Typically offered: Irregular)

Music Education (MUED)

Courses

MUED 1371. Teaching the Beginning Percussionist. 1 Hour.

A study of the pedagogy and techniques needed to instruct middle school and junior high percussionists. Emphasis on elementary snare drum and marimba performance. Study of junior high band and orchestra methods, solos and ensemble music. Prerequisite: Music education major pursuing a degree in Piano Education, Voice Education, String Education or Woodwind Brass Percussion Education; or instructor's consent. (Typically offered: Fall and Spring)

MUED 2012. Introduction to Music Education. 2 Hours.

A course designed to provide early experiences for the prospective music teacher. Students will become familiar with professional trends, music classroom organizational and management issues, and principles of effective education. Emphases will include basic psychological and philosophical orientation, as well as observations in public school classrooms. Required of all prospective Music Education majors. (Typically offered: Spring)

MUED 2532. Class Instruction in Woodwind Instruments. 2 Hours.

Familiarizes students with elementary and intermediate skills, techniques and pedagogy needed to teach woodwind instruments--flute, clarinet, saxophone, oboe, and bassoon--in a class setting. Corequisite: Lab component. Prerequisite: MUED major and sophomore standing. (Typically offered: Spring)

MUED 2542. Class Instruction in Brass Instruments. 2 Hours.

Familiarizes students with elementary and intermediate skills, techniques and pedagogy needed to teach brass instruments--trumpet, French horn, trombone, euphonium, and tuba--in a class setting. Corequisite: Lab component. Prerequisite: MUED major and sophomore standing. (Typically offered: Spring)

MUED 2552. Class Instruction in Orchestral String Instruments. 2 Hours.

Familiarizes students with elementary and intermediate skills, techniques and pedagogy needed to teach orchestral stringed instruments in a class setting. Includes a lab that specifically focuses on peer teaching of concepts and skills related to teaching stringed instruments. Prerequisite: Bachelor of Music Major with an emphasis in PIAN, VOCE, STRG, or WWBP and sophomore standing. (Typically offered: Fall)

MUED 3021. Supervised Practicum in Teaching Musical Skills. 1 Hour.

Provides for supervised teaching opportunities with public school students in instrumental, choral, and elementary classes. Prerequisite: All Emphases: MUED 2012. (Typically offered: Spring)

MUED 3833. Music Education in the Elementary School. 3 Hours.

Concepts of elementary music education; methods, materials, curriculum design, and supervision in elementary school music. Prerequisite: MUED 2012. (Typically offered: Fall and Spring)

MUED 3911. Classroom Instruments in Music Education. 1 Hour.

The study of instruments utilized in the general music classroom, including but not limited to the Orff Instrumentarium, pitched and unpitched hand-held percussion, frame and various ethnic drums, guitar, and recorder. Elementary and secondary general music classroom preparation with an emphasis on orchestration, composition, and improvisation with instruments commonly utilized in required music classes in public schools. Open to music education majors or with instructor's consent. Pre- or Corequisite: MUED 3833. Prerequisite: MUED 2012. (Typically offered: Fall)

MUED 4031. Seminar for Professional Entry into Music Education. 1 Hour.

A seminar offered during student teaching semester to prepare the student for the role of a professional educator. Content includes professional ethics and conduct, classroom management, evaluation and grading, and application for employment. (Typically offered: Fall and Spring)

MUED 4112. Pedagogy in Music Education. 2 Hours.

A course presenting broad music teaching concepts and specific teaching behaviors. Students will experience the pedagogical teaching situation through the construct of effective communication practice. Emphases will be on providing a laboratory environment representative of public school classrooms. Required of all Music Education majors. Prerequisite: MUED 3833. (Typically offered: Fall)

MUED 4273. Methods for Teaching String Instruments. 3 Hours.

Methods and materials for students preparing to teach orchestral instruments and ensembles in the public schools. Prerequisite: MUED 1371, MUED 2012, MUED 2532, MUED 2542, MUED 2552, and MUED 3021. (Typically offered: Fall Odd Years)

MUED 4283. Teaching Vocal Music. 3 Hours.

Methods and materials used in teaching high school music. Prerequisite: MUED 2012. (Typically offered: Fall Even Years)

MUED 4293. Instrumental Methods. 3 Hours.

Problems of teaching instrumental music in the public schools. Prerequisite: MUED 1371, MUED 2012, MUED 2532, MUED 2542, MUED 2552, and MUED 3021. (Typically offered: Fall)

MUED 451V. Student Teaching: Elementary Music. 4-8 Hour.

A minimum of five weeks and a maximum of ten weeks will be spent in an off-campus school, where the student will teach under supervision in the elementary classroom and will participate in other activities involving the school and community. Enrollment requirement is for a total of 12 hours and 15 weeks involvement in MUED 452V and MUED 451V. Successful completion of a criminal background check is required prior to beginning student teaching. Corequisite: MUED 452V. Prerequisite: Bachelor of Music degree in Music Education. (Typically offered: Fall and Spring)

MUED 452V. Student Teaching: Secondary Music. 4-8 Hour.

A minimum of five weeks and a maximum of ten weeks will be spent in an off-campus school, where the student will teach under supervision in the elementary classroom and will participate in other activities involving the school and community. Enrollment requirement is for a total of 12 hours and 15 weeks involvement in MUED 452V and MUED 451V. Successful completion of a criminal background check is required before beginning student teaching. Corequisite: MUED 451V. Prerequisite: Bachelor of Music degree in Music Education. (Typically offered: Fall and Spring)

MUED 477V. Special Topics in Music Education. 1-4 Hour.

Subject matter not covered in other sources. With permission, may be repeated for credit if topics are different. (Typically offered: Irregular) May be repeated for degree credit.

MUED 5513. Seminar: Resources in Music Education. 3 Hours.

Study of the analytical and writing skills necessary for academic research in music education. Each student identifies one problem specific to music education, finds and reviews related literature and sources, develops a comprehensive bibliography, and writes a paper which synthesizes the research. Open to graduate students and undergraduates in honors in music education. (Typically offered: Irregular)

MUED 5653. Seminar: Issues in Music Education. 3 Hours.

A seminar exploring the relationships between the profession of teaching music and selected views about learning theories, teaching methods, philosophy, psychology, and other selected topics relevant to contemporary music education. (Typically offered: Irregular)

MUED 5733. Music Education in the Elementary School. 3 Hours.

Concepts of elementary music education; methods, materials, curriculum design, and supervision in elementary school music. (Typically offered: Irregular)

MUED 5743. Characteristics of Special Needs Students in the Music Classroom. 3 Hours.

A review of characteristics and behaviors of students in the music classroom that have identified or unidentified disabilities in learning. Prerequisite: Admittance into Music Education for Special Needs Students Graduate Certificate. (Typically offered: Fall)

MUED 5753. Teaching Music to Students with Special Needs. 3 Hours.

Instructs students how to construct and implement curriculum and assessments for students with special needs in a music classroom. Prerequisite: MUED 5743. (Typically offered: Spring)

MUED 5763. Practicum in Teaching Music to Students with Special Needs. 3 Hours.

Students will utilize and evaluate designed curriculum and assessment from MUED 5753 in a music classroom. Prerequisite: MUED 5743. Corequisite: MUED 5753. (Typically offered: Spring)

MUED 577V. Special Topics in Music Education. 1-4 Hour.

(Formerly MUED 477V.) Subject matter not covered in other sources. With permission, may be repeated for credit if topics are different. Graduate degree credit will not be given for both MUED 477V and MUED 577V. (Typically offered: Irregular) May be repeated for degree credit.

MUED 5811. Curriculum Design in Music. 1 Hour.

Goals and objectives in music education. Student will develop a curriculum for an actual or hypothetical music education program. (Typically offered: Irregular)

MUED 583V. Workshop: Music in the Elementary School. 1-18 Hour.

An in-service training workshop for elementary music teachers. (Typically offered: Irregular)

MUED 5862. Marching Band Techniques. 2 Hours.

Includes the place of the marching band in the school program, types of formations used, and selecting, arranging or writing the musical score. (Typically offered: Irregular)

MUED 5973. Tests and Measurement in Music. 3 Hours.

This course will address the psychometric concepts of tests and measurement of music achievement, aptitude, attitude, and self-assessment. The course will focus on the teaching and assessment of musical skills, musical responses, and will critically examine existing aptitude tests (Seashore, Watkins Farnum, Gordon, etc.). Basic statistical concepts and data analysis used in common testing scenarios will be introduced. Prerequisite: Graduate standing in music. (Typically offered: Irregular)

MUED 5983. Psychology of Music Behavior. 3 Hours.

This course is an introduction to the psychology of music, and will adopt an interdisciplinary view toward the field, covering such topics as philosophical and sociological questions about the nature and function of music, the physiology of the ear, the physical and perceptual properties of sounds (acoustics), performance anxiety, preference and taste research, social and pedagogical attributes of performance, and behavioral musical responses. Prerequisite: Graduate standing. (Typically offered: Irregular)

MUED 600V. Master's Thesis. 1-6 Hour.

Preparation of a master's thesis as partial fulfillment of the requirement for the master's degree. (Typically offered: Irregular) May be repeated for degree credit.

MUED 605V. Independent Study. 1-6 Hour.

Provides students with an opportunity to pursue special study of problems in music education. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Music Ensemble (MUEN)

Courses

MUEN 1341. Collegium Musicum I. 1 Hour.

Performance of early music; various combinations of instruments and/or voices. Two hours rehearsal weekly. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 1401. Opera Theatre I. 1 Hour.

Study of opera through performances of scenes, chamber and major operatic production. Admission with director's approval. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1411. Men's Chorus I. 1 Hour.

Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater men's chorus canon. Admission is open to any male student on campus. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1421. Inspirational Chorale I. 1 Hour.

Performance of African American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music, and sacred world music. Rehearsal 3 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1431. Symphony Orchestra I. 1 Hour.

Large, select orchestral ensemble setting with a focus on the study and performance of a range of symphonic literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced players; by audition only. Prerequisite: Director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1441. Marching Band I. 1 Hour.

Large ensemble performs at football games. Emphasis on high performance standards and a variety of performing styles. Rehearsal 8 hours per week. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 1451. Schola Cantorum I. 1 Hour.

Large, select choral ensemble with focus on the study and performance of a range of choral literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced singers; by audition only. Prerequisite: Director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1461. Wind Symphony I. 1 Hour.

Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission by audition. Prerequisite: Director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1471. Jazz Performance Laboratory I. 1 Hour.

Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1481. Campus Band I. 1 Hour.

Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Corequisite: Lab component. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1491. Concert Band I. 1 Hour.

Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1501. Chamber Music I. 1 Hour.

Performance of small ensemble music for any combination of instruments and/or voice. Rehearsal 3 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1511. Symphonic Band I. 1 Hour.

Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public are required. Admission is by audition or special approval. Prerequisite: Director's consent. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1521. Woodwind Quintet I. 1 Hour.

Study and performance of music for woodwind quintet. Weekly coaching will emphasize intonation, blend, stylistic awareness, and ensemble precision. Repertoire ranges from the 18th to the 20th centuries. 3 hours of rehearsals weekly. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1541. Accompanying I. 1 Hour.

Piano accompanying of vocal and instrumental soloists. Rehearsal 2 hours per week. Pre- or Corequisite: MUAP 110V. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1551. Percussion Ensemble I. 1 Hour.

Study and performance of ensemble music for multiple percussion instruments. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1561. Musical Theater Orchestra I. 1 Hour.

Instrumental ensemble with focus on the preparation and performance of musical theater pit orchestra music, in conjunction with UA Theater's mainstage musical. Admission by audition or director's approval. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 1581. Chamber Choir I. 1 Hour.

Study and performance of vocal chamber music. Rehearsal 2 hours per week for 1 hour of credit. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1591. Women's Chorus I. 1 Hour.

Select performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater treble chorus canon. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1691. Wind Ensemble I. 1 Hour.

Large ensemble setting performing orchestral wind and symphonic band literature with emphasis on high performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1711. Flute Ensemble I. 1 Hour.

Study and performance of music for multiple flutes, including trios, quartets, quintets, and flute choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1721. Clarinet Ensemble I. 1 Hour.

Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1731. Saxophone Ensemble I. 1 Hour.

Study and performance of music for multiple saxophones, including trios, quartets, quintets, and saxophone choir. Rehearsal 3 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1751. Trumpet Ensemble I. 1 Hour.

Study and performance of music for multiple trumpets, including trios, quartets, quintets, and trumpet choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1761. New Music Ensemble I. 1 Hour.

Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1771. Trombone Ensemble I. 1 Hour.

Study and performance of music for multiple trombones, including trios, quartets, quintets, and trombone choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 1781. Tuba Ensemble. 1 Hour.

Study and performance of music for multiple combinations of tuba and euphonium, including trios, quartets, quintets, and low brass choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2341. Collegium Musicum II. 1 Hour.

Continuation of Collegium Musicum I. Performance of early music various combinations of instruments and/or voices. Two hours rehearsal weekly. Prerequisite: Sophomore standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 2401. Opera Theatre II. 1 Hour.

Continuation of Opera Theatre I. Study of opera through performances of scenes, chamber and major operatic production. Admission with director's approval. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2411. Men's Chorus II. 1 Hour.

Continuation of Men's Chorus I. Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater men's chorus canon. Admission is open to any male student on campus. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2421. Inspirational Chorale II. 1 Hour.

Continuation of Inspirational Chorale I. Performance of African American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music, and sacred world music. Rehearsal 3 hours per week. Admission with director's approval. Prerequisite: Sophomore standing, audition and approval of director. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2431. Symphony Orchestra II. 1 Hour.

Continuation of Symphony Orchestra I. Large, select orchestral ensemble setting with a focus on the study and performance of a range of symphonic literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced players; by audition only. Prerequisite: Sophomore standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2441. Marching Band II. 1 Hour.

Continuation of Marching Band I. Large ensemble performs at football games. Emphasis on high performance standards and a variety of performing styles. Rehearsal 8 hours per week. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 2451. Schola Cantorum II. 1 Hour.

Continuation of Schola Cantorum I. Large, select choral ensemble with focus on the study and performance of a range of choral literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced singers; by audition only. Prerequisite: Sophomore standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2461. Wind Symphony II. 1 Hour.

Continuation of Wind Symphony I. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission by audition. Prerequisite: Sophomore standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2471. Jazz Performance Laboratory II. 1 Hour.

Continuation of Jazz Performance Laboratory I. Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2481. Campus Band II. 1 Hour.

Continuation of Campus Band I. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Corequisite: Lab component. Prerequisite: Sophomore standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2491. Concert Band II. 1 Hour.

Continuation of Concert Band I. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Prerequisite: Sophomore standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2501. Chamber Music II. 1 Hour.

Continuation of Chamber Music I. Performance of small ensemble music for any combination of instruments and/or voice. Rehearsal 3 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2511. Symphonic Band II. 1 Hour.

Continuation of Symphonic Band I. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public are required. Admission is by audition or special approval. Prerequisite: Sophomore standing; director's consent. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2521. Woodwind Quintet II. 1 Hour.

Continuation of Woodwind Quintet I. Study and performance of music for woodwind quintet. Weekly coaching will emphasize intonation, blend, stylistic awareness, and ensemble precision. Repertoire ranges from the 18th to the 20th centuries. 3 hours of rehearsals weekly. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2541. Accompanying II. 1 Hour.

Continuation of Accompanying I. Piano accompanying of vocal and instrumental soloists. Rehearsal 2 hours per week. Pre- or Corequisite: Sophomore standing and MUAP 210V. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2551. Percussion Ensemble II. 1 Hour.

Continuation of Percussion Ensemble I. Study and performance of ensemble music for multiple percussion instruments. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Spring and Summer) May be repeated for up to 2 hours of degree credit.

MUEN 2561. Musical Theater Orchestra II. 1 Hour.

Instrumental ensemble with focus on the preparation and performance of musical theater pit orchestra music, in conjunction with UA Theater's mainstage musical. Admission by audition or director's approval. Prerequisite: Sophomore standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 2581. Chamber Choir II. 1 Hour.

Continuation of Chamber Choir I. Study and performance of vocal chamber music. Rehearsal 2 hours per week for 1 hour of credit. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2591. Women's Chorus II. 1 Hour.

Continuation of Women's Chorus I. Select performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater treble chorus canon. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2691. Wind Ensemble II. 1 Hour.

Large ensemble setting performing orchestral wind and symphonic band literature with emphasis on high performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2711. Flute Ensemble II. 1 Hour.

Continuation of Flute Ensemble I. Study and performance of music for multiple flutes, including trios, quartets, quintets, and flute choir. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2721. Clarinet Ensemble II. 1 Hour.

Continuation of Clarinet Ensemble I. Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2731. Saxophone Ensemble II. 1 Hour.

Continuation of Saxophone Ensemble I. Study and performance of music for multiple saxophones, including trios, quartets, quintets, and saxophone choir. Rehearsal 3 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2751. Trumpet Ensemble II. 1 Hour.

Continuation of Trumpet Ensemble I. Study and performance of music for multiple trumpets, including trios, quartets, quintets, and trumpet choir. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2761. New Music Ensemble II. 1 Hour.

Continuation of New Music Ensemble I. Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2771. Trombone Ensemble II. 1 Hour.

Continuation of Trombone Ensemble I. Study and performance of music for multiple trombones, including trios, quartets, quintets, and trombone choir. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 2781. Tuba Ensemble II. 1 Hour.

Continuation of Tuba Ensemble I. Study and performance of music for multiple combinations of tuba and euphonium, including trios, quartets, quintets, and low brass choir. Rehearsal 2 hours per week. Prerequisite: Sophomore standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3341. Collegium Musicum III. 1 Hour.

Continuation of Collegium Musicum II. Performance of early music various combinations of instruments and/or voices. Two hours rehearsal weekly. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 3401. Opera Theatre III. 1 Hour.

Continuation of Opera Theatre II. Study of opera through performances of scenes, chamber and major operatic production. Admission with director's approval. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3411. Men's Chorus III. 1 Hour.

Continuation of Men's Chorus II. Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater men's chorus canon. Admission is open to any male student on campus. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3421. Inspirational Chorale III. 1 Hour.

Continuation of Inspirational Chorale II. Performance of African American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music, and sacred world music. Rehearsal 3 hours per week. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3431. Symphony Orchestra III. 1 Hour.

Continuation of Symphony Orchestra II. Large, select orchestral ensemble setting with a focus on the study and performance of a range of symphonic literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced players; by audition only. Prerequisite: Junior standing; director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3441. Marching Band III. 1 Hour.

Continuation of Marching Band II. Large ensemble performs at football games. Emphasis on high performance standards and a variety of performing styles. Rehearsal 8 hours per week. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 3451. Schola Cantorum III. 1 Hour.

Continuation of Schola Cantorum II. Large, select choral ensemble with focus on the study and performance of a range of choral literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced singers; by audition only. Prerequisite: Junior standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3461. Wind Symphony III. 1 Hour.

Continuation of Wind Symphony II. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission by audition. Prerequisite: Junior standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3471. Jazz Performance Laboratory III. 1 Hour.

Continuation of Jazz Performance Lab II. Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3481. Campus Band III. 1 Hour.

Continuation of Campus Band II. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Corequisite: Lab component. Prerequisite: Junior standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3491. Concert Band III. 1 Hour.

Continuation of Concert Band II. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Prerequisite: Junior standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3501. Chamber Music III. 1 Hour.

Continuation of Chamber Music II. Performance of small ensemble music for any combination of instruments and/or voice. Rehearsal 3 hours per week. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3511. Symphonic Band III. 1 Hour.

Continuation of Symphonic Band II. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public are required. Admission is by audition or special approval. Prerequisite: Junior standing and director's consent. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3521. Woodwind Quintet III. 1 Hour.

Continuation of Woodwind Quintet II. Study and performance of music for woodwind quintet. Weekly coaching will emphasize intonation, blend, stylistic awareness, and ensemble precision. Repertoire ranges from the 18th to the 20th centuries. 3 hours of rehearsals weekly. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3541. Accompanying III. 1 Hour.

Continuation of Accompanying II. Piano accompanying of vocal and instrumental soloists. Rehearsal 2 hours per week. Pre- or Corequisite: Junior standing and MUAP 310V. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3551. Percussion Ensemble III. 1 Hour.

Continuation of Percussion Ensemble II. Study and performance of ensemble music for multiple percussion instruments. Rehearsal 2 hours per week. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3561. Musical Theater Orchestra III. 1 Hour.

Instrumental ensemble with focus on the preparation and performance of musical theater pit orchestra music, in conjunction with UA Theater's mainstage musical. Admission by audition or director's approval. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 3581. Chamber Choir III. 1 Hour.

Continuation of Chamber Choir II. Study and performance of vocal chamber music. Rehearsal 2 hours per week for 1 hour of credit. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3591. Women's Chorus III. 1 Hour.

Continuation of Women's Chorus II. Select performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater treble chorus canon. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3691. Wind Ensemble III. 1 Hour.

Continuation of Wind Ensemble II. Large ensemble setting performing orchestral wind and symphonic band literature with emphasis on high performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3711. Flute Ensemble III. 1 Hour.

Continuation of Flute Ensemble II. Study and performance of music for multiple flutes, including trios, quartets, quintets, and flute choir. Rehearsal 2 hours per week. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3721. Clarinet Ensemble III. 1 Hour.

Continuation of Clarinet Ensemble II. Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3731. Saxophone Ensemble III. 1 Hour.

Continuation of Saxophone Ensemble II. Study and performance of music for multiple saxophones, including trios, quartets, quintets, and saxophone choir. Rehearsal 3 hours per week. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3751. Trumpet Ensemble III. 1 Hour.

Continuation of Trumpet Ensemble II. Study and performance of music for multiple trumpets, including trios, quartets, and trumpet choir. Rehearsal 2 hours per week. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3761. New Music Ensemble III. 1 Hour.

Continuation of New Music Ensemble II. Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3771. Trombone Ensemble III. 1 Hour.

Continuation of Trombone Ensemble II. Study and performance of music for multiple trombones, including trios, quartets, quintets, and trombone choir. Rehearsal 2 hours per week. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 3781. Tuba Ensemble III. 1 Hour.

Continuation of Tuba Ensemble II. Study and performance of music for multiple combinations of tuba and euphonium, including trios, quartets, quintets, and low brass choir. Rehearsal 2 hours per week. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4341. Collegium Musicum IV. 1 Hour.

Continuation of Collegium Musicum III. Performance of early music various combinations of instruments and/or voices. Two hours rehearsal weekly. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 4401. Opera Theatre IV. 1 Hour.

Continuation of Opera Theatre III. Study of opera through performances of scenes, chamber and major operatic production. Admission with director's approval. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4411. Men's Chorus IV. 1 Hour.

Continuation of Men's Chorus III. Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater men's chorus canon. Admission is open to any male student on campus. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4421. Inspirational Chorale IV. 1 Hour.

Continuation of Inspirational Chorale III. Performance of African American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music, and sacred world music. Rehearsal 3 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4431. Symphony Orchestra IV. 1 Hour.

Continuation of Symphony Orchestra III. Large, select orchestral ensemble setting with a focus on the study and performance of a range of symphonic literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced players; by audition only. Prerequisite: Senior standing; director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4441. Marching Band IV. 1 Hour.

Continuation of Marching Band III. Large ensemble performs at football games. Emphasis on high performance standards and a variety of performing styles. Rehearsal 8 hours per week. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 4451. Schola Cantorum IV. 1 Hour.

Continuation of Schola Cantorum III. Large, select choral ensemble with focus on the study and performance of a range of choral literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced singers; by audition only. Prerequisite: Senior standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4461. Wind Symphony IV. 1 Hour.

Continuation of Wind Symphony III. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission by audition. Prerequisite: Senior standing and director's consent. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4471. Jazz Performance Laboratory IV. 1 Hour.

Continuation of Jazz Performance Lab III. Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4481. Campus Band IV. 1 Hour.

Continuation of Campus Band III. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Corequisite: lab component. Prerequisite: Senior standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4491. Concert Band IV. 1 Hour.

Continuation of Concert Band III. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Prerequisite: Senior standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4501. Chamber Music IV. 1 Hour.

Continuation of Chamber Music III. Performance of small ensemble music for any combination of instruments and/or voice. Rehearsal 3 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4511. Symphonic Band IV. 1 Hour.

Continuation of Symphonic Band III. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public are required. Admission is by audition or special approval. Prerequisite: Senior standing and director's consent. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4521. Woodwind Quintet IV. 1 Hour.

Continuation of Woodwind Quintet III. Study and performance of music for woodwind quintet. Weekly coaching will emphasize intonation, blend, stylistic awareness, and ensemble precision. Repertoire ranges from the 18th to the 20th centuries. 3 hours of rehearsals weekly. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4541. Accompanying IV. 1 Hour.

Continuation of Accompanying III. Piano accompanying of vocal and instrumental soloists. Rehearsal 2 hours per week. Pre-or Corequisite: Senior standing and MUAP 410V. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4551. Percussion Ensemble IV. 1 Hour.

Continuation of Percussion Ensemble III. Study and performance of ensemble music for multiple percussion instruments. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4561. Musical Theater Orchestra IV. 1 Hour.

Instrumental ensemble with focus on the preparation and performance of musical theater pit orchestra music, in conjunction with UA Theater's mainstage musical. Admission by audition or director's approval. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 4581. Chamber Choir IV. 1 Hour.

Continuation of Chamber Choir III. Study and performance of vocal chamber music. Rehearsal 2 hours per week for 1 hour of credit. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4591. Women's Chorus IV. 1 Hour.

Continuation of Women's Chorus III. Select performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater treble chorus canon. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4601. Opera Theatre V. 1 Hour.

Continuation of Opera Theatre IV. Study of opera through performances of scenes, chamber and major operatic production. Admission with director's approval. Prerequisite: Two semesters of MUEN 4401. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4611. Men's Chorus V. 1 Hour.

Continuation of Men's Chorus IV. Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater men's chorus canon. Admission is open to any male student on campus. Prerequisite: Two credit hours of MUEN 4411. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4621. Inspirational Chorale V. 1 Hour.

Continuation of Inspirational Chorale IV. Performance of African American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music, and sacred world music. Rehearsal 3 hours per week. Admission with director's approval. Prerequisite: Two semesters of MUEN 4421. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4631. Symphony Orchestra V. 1 Hour.

Continuation of Symphony Orchestra IV. Large, select orchestral ensemble setting with a focus on the study and performance of a range of symphonic literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced players; by audition only. Prerequisite: Two semesters of MUEN 4431. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4641. Collegium Musicum V. 1 Hour.

Continuation of Collegium Musicum IV. Performance of early music various combinations of instruments and/or voices. Two hours rehearsal weekly. Prerequisite: Two semesters of MUEN 4341. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 4651. Schola Cantorum V. 1 Hour.

Continuation of Schola Cantorum IV. Large, select choral ensemble with focus on the study and performance of a range of choral literature. Emphasis on high artistic standards through style and interpretation. Enrollment limited to more experienced singers; by audition only. Prerequisite: Two semesters of MUEN 4451. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4661. Wind Symphony V. 1 Hour.

Continuation of Wind Symphony IV. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission by audition. Prerequisite: Two semesters of MUEN 4461. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4671. Jazz Performance Laboratory V. 1 Hour.

Continuation of Jazz Performance Laboratory IV. Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. Prerequisite: Two semesters of MUEN 4471. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4681. Campus Band V. 1 Hour.

Continuation of Wind Symphony IV. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission by audition. Corequisite: Lab component. Prerequisite: Two semesters of MUEN 4461. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4691. Wind Ensemble IV. 1 Hour.

Continuation of Wind Ensemble III. Large ensemble setting performing orchestral wind and symphonic band literature with emphasis on high performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4711. Flute Ensemble IV. 1 Hour.

Continuation of Flute Ensemble III. Study and performance of music for multiple flutes, including trios, quartets, quintets, and the flute choir. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4721. Clarinet Ensemble IV. 1 Hour.

Continuation of Clarinet Ensemble III. Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4731. Saxophone Ensemble IV. 1 Hour.

Continuation of Saxophone Ensemble III. Study and performance of music for multiple saxophones, including trios, quartets, quintets, and saxophone choir. Rehearsal 3 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4751. Trumpet Ensemble IV. 1 Hour.

Continuation of Trumpet Ensemble III. Study and performance of music for multiple trumpets, including trios, quartets, quintets, and trumpet choir. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4761. New Music Ensemble IV. 1 Hour.

Continuation of New Music Ensemble III. Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4771. Trombone Ensemble IV. 1 Hour.

Continuation of Trombone Ensemble III. Study and performance of music for multiple trombones, including trios, quartets, quintets, and trombone choir. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 4781. Tuba Ensemble IV. 1 Hour.

Continuation of Tuba Ensemble III. Study and performance of music for multiple combinations of tuba and euphonium, including trios, quartets, quintets, and low brass choir. Rehearsal 2 hours per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4801. Chamber Music V. 1 Hour.

Continuation of Chamber Music IV. Performance of small ensemble music for any combination of instruments and/or voice. Rehearsal 3 hours per week. Prerequisite: Two semesters of MUEN 4501. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4811. Symphonic Band V. 1 Hour.

Continuation of Symphonic Band IV. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public are required. Admission is by audition or special approval. Prerequisite: Two semesters of MUEN 4511 and director's consent. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4821. Woodwind Quintet V. 1 Hour.

Continuation of Woodwind Quintet IV. Study and performance of music for woodwind quintet. Weekly coaching will emphasize intonation, blend, stylistic awareness, and ensemble precision. Repertoire ranges from the 18th to the 20th centuries. 3 hours of rehearsals weekly. Prerequisite: Two semesters of MUEN 4521. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4831. Concert Band V. 1 Hour.

Continuation of Concert Band IV. Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. Prerequisite: Two semesters of MUEN 4491. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4841. Accompanying V. 1 Hour.

Continuation of Accompanying IV. Piano accompanying of vocal and instrumental soloists. Rehearsal 2 hours per week. Prerequisite: Two semesters of MUEN 4541. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4851. Percussion Ensemble V. 1 Hour.

Continuation of Percussion Ensemble IV. Study and performance of ensemble music for multiple percussion instruments. Rehearsal 2 hours per week. Prerequisite: Two semesters of MUEN 4551. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4861. Wind Ensemble V. 1 Hour.

Continuation of Wind Ensemble IV. Large ensemble setting performing orchestral wind and symphonic band literature with emphasis on high performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition. Prerequisite: Two semesters of MUEN 4691. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4881. Chamber Choir V. 1 Hour.

Continuation of Chamber Choir IV. Study and performance of vocal chamber music. Rehearsal 2 hours per week for 1 hour of credit. Prerequisite: Two semesters of MUEN 4581. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4891. Women's Chorus V. 1 Hour.

Continuation of Women's Chorus IV. Select performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater treble chorus canon. Admission by audition or director's consent. Prerequisite: Two semesters of MUEN 4591. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4911. Flute Ensemble V. 1 Hour.

Continuation of Flute Ensemble IV. Study and performance of music for multiple flutes, including trios, quartets, quintets, and flute choir. Rehearsal 2 hours per week. Prerequisite: Two semesters of MUEN 4711. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4921. Clarinet Ensemble V. 1 Hour.

Continuation of Clarinet Ensemble IV. Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. Prerequisite: Two semesters of MUEN 4721. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4931. Saxophone Ensemble V. 1 Hour.

Continuation of Saxophone Ensemble IV. Study and performance of music for multiple saxophones, including trios, quartets, quintets, and saxophone choir. Rehearsal 3 hours per week. Prerequisite: Two semesters of MUEN 4731. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4941. Marching Band V. 1 Hour.

Continuation of Marching Band IV. Large ensemble performs at football games. Emphasis on high performance standards and a variety of performing styles. Rehearsal 8 hours per week. Prerequisite: Two semesters of MUEN 4441. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUEN 4951. Trumpet Ensemble V. 1 Hour.

Continuation of Trumpet Ensemble IV. Study and performance of music for multiple trumpets, including trios, quartets, quintets, and trumpet choir. Rehearsal 2 hours per week. Prerequisite: Two semesters of MUEN 4751. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4961. New Music Ensemble V. 1 Hour.

Continuation of New Music Ensemble IV. Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. Prerequisite: Two semesters of MUEN 4761. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4971. Trombone Ensemble V. 1 Hour.

Continuation of Trombone Ensemble IV. Study and performance of music for multiple trombones, including trios, quartets, quintets, and trombone choir. Rehearsal 2 hours per week. Prerequisite: Two semesters of MUEN 4771. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 4981. Tuba Ensemble V. 1 Hour.

Continuation of Tuba Ensemble IV. Study and performance of music for multiple combinations of tuba and euphonium, including trios, quartets, quintets, and low brass choir. Rehearsal 2 hours per week. Prerequisite: Two semesters of MUEN 4781. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5401. Opera Theatre. 1 Hour.

Study of opera through performances of scenes, chamber and major operatic production. Admission with director's approval. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5411. Men's Chorus. 1 Hour.

Performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater men's chorus canon. Admission is open to any male student on campus. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5421. Inspirational Chorale. 1 Hour.

Performance of African-American literature with particular emphasis on Negro spirituals, traditional/contemporary gospel music and sacred world music. Rehearsal 3 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5431. Symphony Orchestra. 1 Hour.

Rehearsal 3 hours per week with extra rehearsals at director's discretion. Admission with director's approval. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5441. Marching Band. 1 Hour.

Rehearsal 8 hours per week. Admission with director's approval. (Typically offered: Fall) May be repeated for degree credit.

MUEN 5451. Schola Cantorum. 1 Hour.

Vocal ensemble limited to the more experienced singers. Rehearsal 5 hours per week. Admission with director's approval. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5461. Wind Symphony. 1 Hour.

Rehearsal 3 to 5 hours per week. Admission by audition and approval of the conductor. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5471. Jazz Performance Laboratory. 1 Hour.

Training in the various styles of jazz and popular music. Rehearsal 3 hours per week. Admission by audition. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5481. Campus Band. 1 Hour.

Rehearsal 3 hours per week. Admission by audition and approval of the conductor. (Typically offered: Spring) May be repeated for degree credit.

MUEN 5491. Concert Band. 1 Hour.

Large ensemble setting with emphasis on performing wind band literature and enhancing the musicianship of members. Focus on performance standards through style and interpretation. Concerts of artistic merit which serve the campus community and general public may be required. Admission is by audition or special approval. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5501. Chamber Music. 1 Hour.

Performance of small ensemble music for any combination of instruments and/or voice. Rehearsal 3 hours per week. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5511. Symphonic Band. 1 Hour.

Rehearsal 3 hours per week. Admission by audition and approval of the conductor. (Typically offered: Spring) May be repeated for degree credit.

MUEN 5521. Woodwind Quintet. 1 Hour.

Study and performance of music for woodwind quintet. Weekly coaching will emphasize intonation, blend, stylistic awareness, and ensemble precision. Repertoire ranges from the 18th to the 20th centuries. 3 hours of rehearsals weekly. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5541. Accompanying. 1 Hour.

Piano accompanying of vocal and instrumental soloists. Rehearsal 2 hours per week. Pre- or Corequisite: MUAP 510V. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5551. Percussion Ensemble. 1 Hour.

Study and performance of ensemble music for multiple percussion instruments. Rehearsal 2 hours per week. (Typically offered: Spring and Summer) May be repeated for degree credit.

MUEN 5561. Musical Theater Orchestra. 1 Hour.

Instrumental ensemble with focus on the preparation and performance of musical theater pit orchestra music, in conjunction with UA Theater's mainstage musical. Admission by audition or director's approval. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

MUEN 5591. Women's Chorus. 1 Hour.

Select performance-based choral ensemble designed to improve individual and collective vocal skills, develop sight-reading skills, improve the individual's grasp of the essential elements of music, and expose students to repertory of the greater treble chorus canon. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5691. Wind Ensemble. 1 Hour.

Large ensemble setting performing orchestral wind and symphonic band literature with emphasis on high performance standards through style and interpretation. Concerts of high artistic merit which serve the campus community and general public are required. Admission is by audition. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUEN 5711. Flute Ensemble. 1 Hour.

Study and performance of music for multiple flutes, including trios, quartets, quintets, and flute choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5721. Clarinet Ensemble. 1 Hour.

Study and performance of music for multiple clarinets, including trios, quartets, quintets, and clarinet choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5731. Saxophone Ensemble. 1 Hour.

Study and performance of music for multiple saxophones, including trios, quartets, quintets, and saxophone choir. Rehearsal 3 hours per week. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5751. Trumpet Ensemble. 1 Hour.

Study and performance of music for multiple trumpets, including trios, quartets, quintets, and trumpet choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5761. New Music Ensemble. 1 Hour.

Small, select ensemble with emphasis on music written in the last hundred years, especially by important living composers. Focus on audience engagement through high performance standards, unconventional settings, and programs unique to the region. Off-campus appearances and outreach activities are required. Admission by consent. (Typically offered: Fall and Spring)

MUEN 5771. Trombone Ensemble. 1 Hour.

Study and performance of music for multiple trombones, including trios, quartets, quintets, and trombone choir. Rehearsal 2 hours per week. (Typically offered: Irregular) May be repeated for degree credit.

MUEN 5781. Tuba Ensemble. 1 Hour.

Study and performance of music for multiple combinations of tuba and euphonium, including trios, quartets, quintets, and low brass choir. Rehearsal 2 hours per week. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUEN 5881. Chamber Choir. 1 Hour.

Continuation of Chamber Choir V for graduate students. Study and performance of vocal chamber music. Rehearsal 2 hours per week for 1 hour of credit. (Typically offered: Fall and Spring)

Music History (MUHS)

Courses

MUHS 3503. Jazz History. 3 Hours.

This course includes overviews of major jazz styles, significant musicians, related historical events, and critical approaches in the field of jazz studies. Students will build skills in active listening, transcription, and academic reading and writing while expanding their familiarity with musical techniques and the cultural history of jazz. Prerequisite: MLIT 1013 or MLIT 1013H. (Typically offered: Fall)

MUHS 3703. History of Music to 1750. 3 Hours.

Survey of history of music in western culture from ancient Greece to 1750. Lecture 3 hours, listening/quiz laboratory 1 hour per week. Corequisite: Lab component. Prerequisite: MLIT 1013 or MLIT 1013H and MUTH 2603; Music major pursuing a degree of Bachelor of Arts or Honors Bachelor of Arts or Bachelor of Music or Honors Bachelor of Music or Music minors or with instructor's consent. (Typically offered: Fall)

MUHS 3713. History of Music from 1750 to Present. 3 Hours.

Survey of the history of music in western culture from 1750 to present. Lecture 3 hours, listening/quiz laboratory 1 hour per week. Corequisite: Lab component. Prerequisite: MLIT 1013 or MLIT 1013H and MUTH 2603 and MUHS 3703; Music major pursuing a degree of Bachelor of Arts or Honors Bachelor of Arts or a degree of Bachelor of Music or Honors Bachelor of Music or Music minors or with instructor's consent. (Typically offered: Spring)

MUHS 398VH. Honors Independent Studies. 1-2 Hour.

Independent projects in music history and literature. One hour credit per semester. Open to undergraduates in honors. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

MUHS 4253. Special Topics in Music History. 3 Hours.

Specialized topics not extensively covered in MUHS 3703 or MUHS 3713. Satisfactory completion of the term paper in this class will fulfill the Fulbright College writing requirement. Prerequisite: MUHS 3703 and MUHS 3713. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUHS 4623. Music History Review. 3 Hours.

Review of the central data and concepts of music history, with emphasis on individual periods as needed by students enrolled. Credit in this course may not count toward the Master of Music or Master of Education degree. (Typically offered: Fall)

MUHS 4703. Survey of String Literature. 3 Hours.

A survey of solo and chamber music literature involving stringed instruments. Prerequisite: MUAP 110V and MUTH 3613. (Typically offered: Fall Even Years)

MUHS 4733. Survey of Symphonic Literature. 3 Hours.

A survey of the symphonic literature from its beginning to the present. (Typically offered: Spring Even Years)

MUHS 4763. Survey of Vocal Literature I. 3 Hours.

A survey of concert literature for the solo voice. (Typically offered: Fall Even Years)

MUHS 4773. Survey of Vocal Literature II. 3 Hours.

A survey of concert literature for the solo voice. Prerequisite: MUHS 4763. (Typically offered: Spring Odd Years)

MUHS 4793. Band Literature. 3 Hours.

A study of literature written for performance by concert band, symphonic band, and wind ensemble, representative of the following five periods in Music History: Renaissance (1420-1600), Baroque (1600-1750), Classical (1750-1820), Romantic (1820-1900), and Contemporary (1900-present). (Typically offered: Irregular)

MUHS 4803. Survey of Keyboard Literature I. 3 Hours.

A survey of the piano works of outstanding composers. Prerequisite: MUAP 110V. (Typically offered: Fall Even Years)

MUHS 4813. Survey of Keyboard Literature II. 3 Hours.

A survey of the piano works of outstanding composers. Prerequisite: MUHS 4803. (Typically offered: Spring Odd Years)

MUHS 489V. Seminar in Music History. 1-4 Hour.

Subject matter not covered in other courses. With permission, may be repeated for credit if topics are different. (Typically offered: Irregular) May be repeated for degree credit.

MUHS 498V. Senior Thesis. 1-6 Hour.

Senior Thesis. (Typically offered: Fall, Spring and Summer)

MUHS 5253. Special Topics in Music History. 3 Hours.

(Formerly MUHS 4253.) Specialized topics not extensively covered in MUHS 3703 or MUHS 3713. Satisfactory completion of the term paper in this class will fulfill the Fulbright College writing requirement. Graduate degree credit will not be given for both MUHS 4253 and MUHS 5253. Prerequisite: MUHS 3703 and MUHS 3713. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUHS 5563. Collaborative Piano Literature I, Woodwind and Brass Repertoire. 3 Hours.

Survey of collaborative literature for piano and wind or brass instruments. Focus on music for the collaborative duo (instrument and piano) including sonatas and concerti. (Typically offered: Fall Even Years)

MUHS 5573. Collaborative Piano Literature II, String Repertoire. 3 Hours.

Survey of collaborative literature for the piano. Focus on the repertoire of sonatas, concerti and concert works for the piano and instrument (violin, viola, cello, and double bass). (Typically offered: Spring Odd Years)

MUHS 5633. Survey of Symphonic Literature. 3 Hours.

(Formerly MUHS 4733.) A survey of the symphonic literature from its beginning to the present. Graduate degree credit will not be given for both MUHS 4733 and MUHS 5633. (Typically offered: Spring Even Years)

MUHS 5673. Survey of Vocal Literature II. 3 Hours.

(Formerly MUHS 4773.) A survey of concert literature for the solo voice. Graduate degree credit will not be given for both MUHS 4773 and MUHS 5673. Prerequisite: MUHS 4763. (Typically offered: Spring Odd Years)

MUHS 5693. Band Literature. 3 Hours.

(Formerly MUHS 4793.) A study of literature written for performance by concert band, symphonic band, and wind ensemble, representative of the following five periods in Music History: Renaissance (1420-1600), Baroque (1600-1750), Classical (1750-1820), Romantic (1820-1900), and Contemporary (1900-present). Graduate degree credit will not be given for both MUHS 4793 and MUHS 5693. (Typically offered: Irregular)

MUHS 5703. Survey of String Literature. 3 Hours.

(Formerly MUHS 4703.) A survey of solo and chamber music literature involving stringed instruments. Graduate degree credit will not be given for both MUHS 4703 and MUHS 5703. Prerequisite: MUAP 110V and MUTH 3613. (Typically offered: Fall Even Years)

MUHS 5722. Directed Studies in Music Literature I. 2 Hours.

Research in music literature in the performance field of the individual student. (Typically offered: Fall and Spring)

MUHS 5732. Directed Studies in Music Literature II. 2 Hours.

Research in music literature in the performance field of the individual student. Prerequisite: MUHS 5722. (Typically offered: Fall and Spring)

MUHS 5753. Seminar in Medieval & Early Renaissance. 3 Hours.

Intensive studies in music of Western Europe from early Christian times through the 15th century. (Typically offered: Irregular)

MUHS 5763. Survey of Vocal Literature I. 3 Hours.

(Formerly MUHS 4763.) A survey of concert literature for the solo voice. Graduate degree credit will not be given for both MUHS 4763 and MUHS 5763. (Typically offered: Fall Even Years)

MUHS 5773. Seminar in Music of the 18th Century. 3 Hours.

Intensive studies of late Baroque and Classical music. (Typically offered: Irregular)

MUHS 5783. Seminar in Music of the 19th Century. 3 Hours.

Intensive studies in music of the 19th century. (Typically offered: Spring Odd Years)

MUHS 5793. Seminar in Music of the 20th Century. 3 Hours.

Intensive studies in 20th century music. (Typically offered: Fall Even Years)

MUHS 5803. Survey of Keyboard Literature I. 3 Hours.

(Formerly MUHS 4803.) A survey of the piano works of outstanding composers. Graduate degree credit will not be given for both MUHS 4803 and MUHS 5803. Prerequisite: MUAP 110V. (Typically offered: Fall Even Years)

MUHS 5813. Survey of Keyboard Literature II. 3 Hours.

(Formerly MUHS 4813.) A survey of the piano works of outstanding composers. Graduate degree credit will not be given for both MUHS 4813 and MUHS 5813. Prerequisite: MUHS 4803. (Typically offered: Spring Odd Years)

MUHS 589V. Seminar in Music History. 1-4 Hour.

(Formerly MUHS 489V.) Subject matter not covered in other courses. With permission, may be repeated for credit if topics are different. Graduate degree will not be given for both MUHS 489V and MUHS 589V. (Typically offered: Irregular) May be repeated for degree credit.

MUHS 5903. Seminar in Musicology. 3 Hours.

Focuses on specialized topics and repertoires within the history of Western music and introduces students to musicological approaches to these subjects. Prerequisite: MUHS 5973 or instructor consent. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUHS 5943. Seminar in Opera. 3 Hours.

Intensive studies in operatic literature. (Typically offered: Irregular)

MUHS 5952. Choral History and Literature I. 2 Hours.

Detailed study of choral history and literature from Gregorian chant to J.S. Bach. (Typically offered: Irregular)

MUHS 5962. Choral History and Literature II. 2 Hours.

Detailed study of choral history and literature from J.S. Bach to the present. (Typically offered: Irregular)

MUHS 5973. Seminar in Bibliography and Methods of Research. 3 Hours.

A survey of the methods and materials of musical research, including bibliography, methods of analysis, and style in the presentation of research results. Open to graduate students and to juniors in Honors. (Typically offered: Fall)

MUHS 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Music Literature (MLIT)

Courses

MLIT 1003. Experiencing Music (ACTS Equivalency = MUSC 1003). 3 Hours.

Examines how music reflects and impacts culture while familiarizing students with various musical styles, forms and ideas. Develops listening skills and introduces basic music vocabulary and fundamentals. (Typically offered: Fall, Spring and Summer)

MLIT 1003H. Honors Experiencing Music. 3 Hours.

Examines how music reflects and impacts culture while familiarizing students with various musical styles, forms and ideas. Develops listening skills and introduces basic music vocabulary and fundamentals. (Typically offered: Fall and Spring)
This course is equivalent to MLIT 1003.

MLIT 1013. Music and Society. 3 Hours.

Introduction to academic study of Western art music, jazz, popular music, and world music. Students will gain experience in guided listening and in reading, writing, and critical thinking about musical cultures and their roles in society. Required for music majors. Prerequisite: Music major or music minor or instructor consent. (Typically offered: Fall)

MLIT 1013H. Honors Music and Society. 3 Hours.

Introduction to academic study of Western art music, jazz, popular music, and world music. Students will gain experience in guided listening and in reading, writing, and critical thinking about musical cultures and their roles in society. Required for music majors. Prerequisite: Music major or music minor and honors standing or instructor consent. (Typically offered: Fall)
This course is equivalent to MLIT 1013.

MLIT 1333. Popular Music. 3 Hours.

Covers the history of popular music during the 20th and 21st centuries within its social and cultural contexts. Examines the origins, evolution, and stylistic features of prominent popular genres, such as country, rock, blues, hip hop, and soul. (Typically offered: Fall and Spring)

Music Pedagogy (MUPD)

Courses

MUPD 3801. Conducting I. 1 Hour.

A study of the elementary techniques of conducting instrumental and choral groups. Prerequisite: MUTH 2603. (Typically offered: Fall)

MUPD 3811. Conducting II: Instrumental Music. 1 Hour.

Continuation of study of the technique of conducting instrumental music groups. Prerequisite: MUPD 3801. (Typically offered: Spring)

MUPD 3861. Conducting II: Vocal Music. 1 Hour.

Continuation of study of conducting with emphasis on techniques of choral conducting. Prerequisite: MUPD 3801. (Typically offered: Spring)

MUPD 3871. Reed-Making. 1 Hour.

The making of reeds for oboe, bassoon, or clarinet, including the processing of cane from tubes. (Typically offered: Fall) May be repeated for up to 2 hours of degree credit.

MUPD 3883. Jazz Pedagogy. 3 Hours.

This course will provide future teachers with a sequenced method and resource materials to teach jazz songs, style, and improvisation by ear and from sheet music in instrumental and vocal ensembles. The course will also address ensemble rehearsal techniques and teaching individual students. The teaching content includes a variety of songs from the jazz tradition appropriate for students in middle school, high school, and college, along with tools for assessment of student progress. (Typically offered: Irregular)

MUPD 477V. Special Topics in Pedagogy. 1-6 Hour.

Subject matter not covered in other sources. With permission, may be repeated for credit if topics are different. (Typically offered: Irregular) May be repeated for degree credit.

MUPD 481V. Conducting. 1-4 Hour.

Private lessons of 1/2 hour, and one hour conducting laboratory each week. Development of skills in conducting symphony, opera, oratorio, ballet and band repertoire. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUPD 4863. Piano Pedagogy. 3 Hours.

Analytical study and discussion of the various approaches to piano pedagogy and its application in individual/class instruction. Involves demonstration of principles through actual teaching of beginning, intermediate and upper level students. (Typically offered: Spring Even Years)

MUPD 499V. Special Workshop in Music. 1-2 Hour.

Presented by visiting master artist-teachers in various fields of music performance, teaching and composition. For this level it is expected that the prospective students are professionals in the given field seeking additional knowledge and insights from acknowledged professionals. (Typically offered: Fall, Spring and Summer) May be repeated for up to 2 hours of degree credit.

MUPD 5202. Voice Pedagogy I. 2 Hours.

Graduate-level study of the techniques and materials of teaching voice. (Typically offered: Irregular)

MUPD 5763. Piano Pedagogy. 3 Hours.

(Formerly MUPD 4863.) Analytical study and discussion of the various approaches to piano pedagogy and its application in individual/class instruction. Involves demonstration of principles through actual teaching of beginning, intermediate and upper level students. Graduate degree credit will not be given for both MUPD 4863 and MUPD 5763. (Typically offered: Spring Even Years)

MUPD 577V. Special Topics in Pedagogy. 1-6 Hour.

(Formerly MUPD 477V.) Subject matter not covered in other sources. With permission, may be repeated for credit if topics are different. Graduate degree credit will not be given for both MUPD 477V and MUPD 577V. (Typically offered: Irregular) May be repeated for degree credit.

MUPD 582V. Conducting. 1-4 Hour.

Private lessons of 1/2 hour and 1 hour conducting laboratory each week. Development of skills in conducting symphony, choral, opera, oratorio, ballet, and band repertoire. (Typically offered: Fall and Spring) May be repeated for up to 18 hours of degree credit.

MUPD 584V. Opera Workshop Techniques. 1-2 Hour.

A basic course in every phase of opera production, including staging, set design, music coaching, voice casting, and translation. (Typically offered: Fall and Spring)

MUPD 586V. Woodwind Techniques. 1-2 Hour.

A continuation of the undergraduate courses in techniques and materials for elementary and secondary school music teaching. Prerequisite: One year of similar class instruction in the field on the undergraduate level. (Typically offered: Fall and Spring)

MUPD 587V. Brass Techniques. 1-2 Hour.

A continuation of the undergraduate class brass instrument course. Emphasis is placed on teaching methods, techniques, concepts, and materials. Prerequisite: One year of similar class instruction in the field on the undergraduate level. (Typically offered: Irregular)

MUPD 599V. Special Workshop in Music. 1-6 Hour.

Presented by visiting master artist-teacher in various fields of music performance, teaching and composition. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

Music Theory (MUTH) Courses

MUTH 1003. Basic Musicianship. 3 Hours.

Introductory-level studies in music theory and aural perception for students not prepared for MUTH 1603 or MUTH 1621. Meets 4 days per week. (Typically offered: Fall and Summer)

MUTH 1603. Music Theory I. 3 Hours.

A study of diatonic harmonic practice. Includes part-writing and analysis. Prerequisite: MUTH 1003 or permission of instructor. (Typically offered: Spring)

MUTH 1621. Aural Perception I. 1 Hour.

Development of aural perception through ear training, sight singing, and keyboard harmony. Meets 2 hours per week. (Typically offered: Spring)

MUTH 1631. Aural Perception II. 1 Hour.

Continued development of aural perception through ear training, sight singing, and keyboard harmony. Meets 2 hours per week. Prerequisite: MUTH 1621. (Typically offered: Fall)

MUTH 164V. Composition I. 1-4 Hour.

Private lessons of one-half hour, and one hour of composition laboratory session each week. Development of skills in creative musical expression. Specifically for composition-theory majors. Others admitted by consent. Prerequisite: Music theory or composition major. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUTH 2603. Music Theory II. 3 Hours.

A continuation of MUTH 1603. Also includes chromatic harmony. Prerequisite: MUTH 1603. (Typically offered: Fall)

MUTH 2621. Aural Perception III. 1 Hour.

A continuation of MUTH 1631. Two hours per week, one hour credit. Prerequisite: MUTH 1631. (Typically offered: Spring)

MUTH 2631. Aural Perception IV. 1 Hour.

A continuation of MUTH 2621. Two hours per week, one hour credit. Prerequisite: MUTH 2621. (Typically offered: Fall)

MUTH 264V. Composition II. 1-4 Hour.

Continuation of Composition I. Private lessons of one-half hour, and one hour of composition laboratory session per credit hour each week. Continued development of skills in creative musical expression. Specifically for composition-theory majors. Others admitted by consent. Prerequisite: Two semesters of MUTH 164V with grades of "B" and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUTH 3603. 18th Century Counterpoint. 3 Hours.

A study of 18th century counterpoint. Writing and analysis of inventions, canons, fugues, etc. Three hours per week. Prerequisite: MUTH 2603. (Typically offered: Spring)

MUTH 3613. Form and 20th Century Techniques. 3 Hours.

A study of the harmonic and melodic trends of the 20th century. Three hours per week. Prerequisite: MUTH 2603. (Typically offered: Fall)

MUTH 3623. Music Perception. 3 Hours.

A study of the perception and cognition of music. Prerequisite: MUTH 2603. (Typically offered: Spring Even Years)

MUTH 364V. Composition III. 1-4 Hour.

Continuation of Composition II. Private lessons of one-half hour, and one hour of composition laboratory session per credit hour each week. Continued development of advanced skills in creative musical expression. Specifically for composition-theory majors. Others admitted by consent. Prerequisite: Two semesters of MUTH 264V with grades of B and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUTH 364VH. Honors Composition III. 1-4 Hour.

Continuation of Composition II for honors students. Private lessons of one-half hour, and one hour of composition laboratory session per credit hour each week. Continued development of advanced skills in creative musical expression. Specifically for honors composition-theory majors. Prerequisite: Two semesters of MUTH 264V with grades of "B", recommendation of instructor and honors standing. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

This course is equivalent to MUTH 364V.

MUTH 3723. Jazz Analysis. 3 Hours.

This course is an introduction to jazz analysis. Course content will include lead sheet symbols, jazz progressions, lead sheet analysis, improvisation, phrasing and meter, and aural skills. Prerequisite: MUTH 2603. (Typically offered: Irregular)

MUTH 3733. Functional Jazz Piano. 3 Hours.

This course is intended for both jazz pianists and non-pianists and provides methods for common jazz piano voicings. Through practical applications and drills, the students will be familiar with a variety of common voicings techniques, including (but not limited to): 1) "shell" voicing, 2) two-note critical tone voicings (both with roots and rootless), 3) three-note left-hand voicings, and 4) four-part "drop 2" voicings. Also, this course will provide basic techniques for improvisation. Prerequisite: MUTH 1621 and MUTH 1603. (Typically offered: Irregular)

MUTH 3742. Jazz Arranging. 2 Hours.

This course introduces students to techniques in arranging for small and large jazz ensembles. Students will analyze representative examples of various jazz styles, learn technical features of common jazz instruments, experiment with common approaches to arranging, and write their own arrangements of jazz standards for small ensemble and big band. Prerequisite: MUTH 2603. (Typically offered: Irregular)

MUTH 3923. Music and Mind. 3 Hours.

Examines music from the perspective of cognitive science. Readings and discussions investigate the psychological processes that underlie musical behaviors such as listening and performing while also learning how to adopt empirical methods to study music and make sense of empirical data related to music. Prerequisite: Instructor consent. (Typically offered: Fall)

MUTH 3923H. Honors Music and Mind. 3 Hours.

Examines music from the perspective of cognitive science. Readings and discussions investigate the psychological processes that underlie musical behaviors such as listening and performing while also learning how to adopt empirical methods to study music and make sense of empirical data related to music. (Typically offered: Fall)

This course is equivalent to MUTH 3923.

MUTH 4322. Score Reading. 2 Hours.

A conductor's approach to the technique of score reading and analysis of orchestra, band, and choral scores for the purpose of preparing composition for rehearsal and performance. (Typically offered: Fall)

MUTH 4612. Orchestration. 2 Hours.

A continuation of study of the capabilities of the various orchestral and band instruments and their use in arrangement for ensembles, band, and orchestra. Scoring for orchestra. Prerequisite: MUTH 3613. (Typically offered: Spring)

MUTH 462V. Music Theory Review. 1-3 Hour.

A continuation and intensification of undergraduate music theory. (May not count for credit toward the Master of Music degree.) (Typically offered: Fall)

MUTH 464V. Composition IV. 1-4 Hour.

Continuation of Composition III. Private lessons of one-half hour and one hour of composition laboratory session per credit hour each week. Continued development of advanced skills in creative musical expression. Specifically for composition-theory majors. Others admitted by consent. Prerequisite: Two semesters of MUTH 364V with grades of "B" and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

MUTH 464VH. Honors Composition IV. 1-4 Hour.

Continuation of Composition III. Private lessons of one-half hour and one hour of composition laboratory session per credit hour each week. Continued development of advanced skills in creative musical expression. Specifically for composition-theory majors. Others admitted by consent. Prerequisite: Two semesters of MUTH 364V with grades of B and recommendation of instructor. (Typically offered: Fall and Spring) May be repeated for up to 8 hours of degree credit.

This course is equivalent to MUTH 464V.

MUTH 4703. Writing Music Analysis. 3 Hours.

Analysis of music with an emphasis on analytical writing skills and the use of library source materials. Prerequisite: MUTH 3603. (Typically offered: Spring)

MUTH 477V. Special Topics in Music Theory. 1-4 Hour.

Subject matter not covered in other courses. Prerequisite: Instructor consent. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

MUTH 477VH. Honors Special Topics in Music Theory. 1-4 Hour.

Subject matter not covered in other courses. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

This course is equivalent to MUTH 477V.

MUTH 4923H. Honors Colloquium in Music Theory. 3 Hours.

Covers a special topic or issue, offered as part of the honors program. (Typically offered: Irregular)

MUTH 498V. Senior Thesis. 1-18 Hour.

Senior Thesis. (Typically offered: Fall, Spring and Summer)

MUTH 5322. Score Reading. 2 Hours.

(Formerly MUTH 4322.) A conductor's approach to the technique of score reading and analysis of orchestra, band, and choral scores for the purpose of preparing composition for rehearsal and performance. Graduate degree credit will not be given for both MUTH 4322 and MUTH 5322. (Typically offered: Fall)

MUTH 5343. Analytical Techniques. 3 Hours.

An intensive study of selected works from music literature. Schenkerian analysis, rhythmic analysis, and set theory analytical techniques will be studied and employed in addition to traditional harmonic and formal analysis. Prerequisite: MUTH 3613 or equivalent and graduate standing. (Typically offered: Irregular)

MUTH 5612. Orchestration. 2 Hours.

(Formerly MUTH 4612.) A continuation of study of the capabilities of the various orchestral and band instruments and their use in arrangement for ensembles, band, and orchestra. Scoring for orchestra. Graduate degree credit will not be given for both MUTH 4612 and MUTH 5612. Prerequisite: MUTH 3613. (Typically offered: Spring)

MUTH 5623. Pedagogy of Theory. 3 Hours.

Detailed study of methods of teaching undergraduates courses in music theory and aural perception. Prerequisite: Graduate standing. (Typically offered: Irregular)

MUTH 5631. Music Theory Teaching Practicum. 1 Hour.

Supervised teaching of an undergraduate course in music theory or aural perception, including lesson plan and examination preparation and in-class observation. (Typically offered: Irregular)

MUTH 5643. Analysis of 20th Century Music. 3 Hours.

Study of 20th century music and analytic techniques including pitch class set theory and serial techniques. Prerequisite: Graduate standing. (Typically offered: Irregular)

MUTH 5662. Instrumental Arranging. 2 Hours.

A practical course in arranging for the various small ensembles including keyboard. Review of instrumental ranges and capabilities. Study of current trends in instrumental ranges and arranging. (Typically offered: Irregular)

MUTH 5672. Advanced Orchestration. 2 Hours.

A study of advanced principles of orchestral writing through individual projects in scoring and analysis. Prerequisite: MUTH 4612 or MUTH 5612 (formerly MUTH 4612) or equivalent. (Typically offered: Irregular)

MUTH 568V. Composition. 1-4 Hour.

Private lessons of one-half hour, and one hour of composition laboratory session each week. Development of skills in creative musical expression specifically for composition-theory majors - others admitted by consent. Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for degree credit.

MUTH 5703. Writing Music Analysis. 3 Hours.

(Formerly MUTH 4703.) Analysis of music with an emphasis on analytical writing skills and the use of library source materials. Graduate degree credit will not be given for both MUTH 4703 and MUTH 5703. Prerequisite: MUTH 3603. (Typically offered: Spring)

MUTH 577V. Special Topics in Music Theory. 1-4 Hour.

(Formerly MUTH 477V.) Subject matter not covered in other courses. Graduate degree credit will not be given for both MUTH 477V and MUTH 577V. Prerequisite: Instructor consent. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

MUTH 599V. Independent Study in Music Theory. 1-6 Hour.

Provides students with an opportunity to pursue special study of topics in music theory. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

MUTH 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Nursing (NURS)

Courses

NURS 2012. Nursing Informatics. 2 Hours.

This course focuses on how information technology is used in the health care system. The course describes how nursing informatics is currently being used by healthcare professionals and speculates about future applications. Prerequisite: For pre-nursing and nursing majors only. Must have sophomore standing or above and a GPA of 3.0 or above. (Typically offered: Fall, Spring and Summer)

NURS 2022. Introduction to Professional Nursing Concepts. 2 Hours.

The course presents an overview of theories, principles and concepts essential to professional nursing practice. It includes ethical and legal implications relevant to health care systems. Focus is on the nursing process as the organizing framework for the delivery of care. It also explores the role of the professional nurse. This is a pre-nursing course. Prerequisite: For pre-nursing and nursing majors only. Must have sophomore standing or above and a GPA of 3.0 or above. (Typically offered: Fall, Spring and Summer)

NURS 2032. Therapeutic and Interprofessional Communication. 2 Hours.

Focuses on intrapersonal and interpersonal strategies necessary for effective nurse-client interactions. Introduces a variety of communication techniques skills including group process and dynamics. This is a pre-nursing course. Prerequisite: For pre-nursing and nursing majors only. Must have sophomore standing or above and a GPA of 3.0 and above. (Typically offered: Fall, Spring and Summer)

NURS 217V. Independent Study in Nursing. 1-2 Hour.

A selected learning experience in nursing to enhance knowledge about and/or practice in the profession. Objectives and experiences are designed on an individual basis with a faculty adviser. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

NURS 217VH. Honors Independent Study in Nursing. 1-2 Hour.

A selected learning experience in nursing to exchange knowledge about and/or practice in the profession. Objectives and experiences are designed on an individual basis with a faculty adviser. Prerequisite: Honors candidacy. (Typically offered: Irregular)

This course is equivalent to NURS 217V.

NURS 3111. Clinical Skills for Professional Nurses. 1 Hour.

Students apply nursing concepts and skills in laboratory and clinical settings. Emphasis is on the caregiver role and use of the nursing process. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4323. (Typically offered: Fall and Spring)

NURS 3171. Independent Study Nursing. 1 Hour.

A structured learning experience in nursing to improve knowledge of the science in nursing. Objectives and experiences are designed on an individual basis with a faculty advisor. May be taken with any 3500 level nursing course or above. (Typically offered: Irregular) May be repeated for up to 7 hours of degree credit.

NURS 3302. Older Adult Nursing. 2 Hours.

This course builds on previous nursing knowledge by focusing on gerontologic theories, concepts, and principles as they relate to nursing care of older adults. Students explore socio-cultural context of gerontologic nursing, professional standards of practice, common health concerns, and future considerations. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 3313. Pharmacology in Nursing. 3 Hours.

The use of therapeutic drugs in health care is the focus of the course. Nursing assessment, safety measures and client education related to drug therapy are emphasized. This is a Level I course. Prerequisite: Admission into the BSN professional program. (Typically offered: Fall and Spring)

NURS 3314. Pathophysiology. 4 Hours.

The course focuses on underlying concepts common to pathophysiologic processes across the life span. Factors that contribute to altered physiological functioning and the body's adaptive and compensatory mechanisms are studied. Emphasizes concepts essential for understanding the rationale for preventive and therapeutic nursing interventions in health and illness. This is a Level I course. Prerequisite: Admission into BSN professional program. (Typically offered: Fall and Spring)

NURS 3314H. Honors Pathophysiology. 4 Hours.

The course focuses on underlying concepts common to pathophysiologic processes across the life span. Factors that contribute to altered physiological functioning and the body's adaptive and compensatory mechanisms are studied. Emphasizes understanding the rationale for preventive and therapeutic nursing interventions in health and illness. This is a Level I course. Prerequisite: Admission into BSN professional program. (Typically offered: Fall and Spring)

This course is equivalent to NURS 3314.

NURS 3321L. Health Assessment Practicum. 1 Hour.

The course focuses on the implementation of concepts and principles of health assessment, preparing students to complete a holistic health assessment of the well person. This is a Level I course. Corequisite: NURS 3342. Prerequisite: BIOL 2443, BIOL 2441L, BIOL 2213, BIOL 2211L, and admission to the BSN professional program. (Typically offered: Fall and Spring)

NURS 3332. Adult Health I for Nurses. 2 Hours.

The course focuses on the experience of acute problems across the health-illness continuum. Students learn to utilize the nursing process through care planning and case studies while focusing on the adult population. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 3342. Health Assessment. 2 Hours.

This course focuses on concepts and principles of health assessment in a well person. Health status, environment, physical and psychosocial findings, and medical terminology are emphasized to create a holistic health assessment plan. This is a Level I course. Prerequisite: Admission into the BSN professional program of studies, BIOL 2443, BIOL 2241L, BIOL 2213 and BIOL 2211L. Corequisite: NURS 3321L. (Typically offered: Fall and Spring)

NURS 3402. Nursing Concepts: Older Adult. 2 Hours.

This course focuses on gerontologic theories, concepts, and principles as they relate to nursing care of older adults. Students explore socio-cultural context of gerontologic nursing, professional standards of practice, common health concerns, and future considerations. This is a Level I course. Prerequisite: Admission into the BSN Professional Program of Studies. (Typically offered: Fall and Spring)

NURS 3422. Nursing Concepts: Foundations of Professional Practice. 2 Hours.

Introduction to the nursing process and the scope of basic human needs. The student learns to use nursing diagnoses and care plans in case studies. This is a Level I course. Corequisite: NURS 3424. Prerequisite: Admission to BSN professional program. (Typically offered: Fall and Spring)

NURS 3424. Professional Role Implementation I: Caregiver. 4 Hours.

Students apply basic nursing concepts and skills in laboratory and clinical settings. Emphasis is on the role of nurse as caregiver and use of the nursing process in the delivery of care. This is a Level I course. Pre- or Corequisite: NURS 3422, NURS 3321L, and NURS 3313. Prerequisite: Admission to the BSN program. (Typically offered: Fall and Spring)

NURS 3634. Nursing Concepts: Adult Health and Illness I. 4 Hours.

Focuses on the adult population experiencing acute problems in the health-illness continuum. Utilizing the nursing process, nursing, and medical treatments of selected conditions that will be emphasized in the acute care setting. This is a Level I course. Corequisite: NURS 3644. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, and NURS 3422. (Typically offered: Fall and Spring)

NURS 3644. Professional Role Implementation II: Caregiver. 4 Hours.

Emphasizes the role of caregiver in acute care settings. Course expands on assessment and includes advanced clinical skills. Emphasizes the use of clinical judgment to promote optimal health for adults experiencing illness and/or undergoing surgery. This is a Level I course. Pre- or Corequisite: NURS 3634. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, NURS 3422, and NURS 3424. (Typically offered: Fall and Spring)

NURS 3644H. Honors Professional Role Implementation II: Caregiver. 4 Hours.

Emphasizes the role of caregiver in acute care settings. Course expands on assessment and includes advanced clinical skills. Emphasizes the use of clinical judgment to promote optimal health for adults experiencing illness and/or undergoing surgery. This is a Level I course. Pre- or Corequisite: NURS 3634. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, NURS 3422, and NURS 3424. (Typically offered: Fall and Spring)

This course is equivalent to NURS 3644.

NURS 3742. Nursing Concepts: Mental Health and Illness. 2 Hours.

Presents the basic concepts and theories of mental health and illness. Examines various therapeutic modalities in the care of clients experiencing mental health or psychosocial disorders. This is a Level I course. Corequisite: NURS 3752. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, and NURS 3422. (Typically offered: Fall and Spring)

NURS 3752. Professional Role Implementation III: Caregiver. 2 Hours.

Students work with clients who have mental health problems, observe group process in therapy sessions, and develop interpersonal communication skills. Students apply research-based knowledge in assisting assigned clients to meet mental and other health care needs. The caregiver role is emphasized. This is a Level I course. Pre- or Corequisite: NURS 3742. Prerequisite: NURS 3313, NURS 3314, NURS 3321L, NURS 3402, NURS 3422, and NURS 3424. (Typically offered: Fall and Spring)

NURS 3772. Mental Health Nursing. 2 Hours.

This course presents basic concepts and theories of mental health and illness. Students examine nursing care of clients with various mental health and psychosocial disorders. Therapeutic modalities and their use in a variety of settings are explored. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 3782. Mental Health Practicum. 2 Hours.

Students will apply the theoretical principles learned in the NURS 3772: Mental Health Nursing to the care of clients with mental health disorders in a variety of settings. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 3772. (Typically offered: Fall, Spring and Summer)

NURS 3842. Foundations of Scientific Evidence in Nursing Practice. 2 Hours.

Introduction to the use of scientific evidence in nursing through a comparative analysis of selected studies. Theoretical, methodological, and analytical approaches are explored. Students acquire basic competencies in evaluating, interpreting, and applying evidence-based knowledge for use in professional nursing practice. This is a Level I course. (Typically offered: Fall and Spring)

NURS 3901H. Honors Nursing Thesis Tutorial. 1 Hour.

Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work "one-on-one" exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and NURSBS major. (Typically offered: Fall, Spring and Summer)

NURS 4003. Transition to Professional Nursing Practice. 3 Hours.

This course supports educational mobility building on a core of common knowledge and skill from previous nursing education. The course emphasizes a transition to the professional nursing roles and competencies outlined in the Essentials of Baccalaureate Education in Professions Nursing Practice. Prerequisite: Admission to an online undergraduate BSN professional program, or instructor or departmental consent. (Typically offered: Fall and Spring)

NURS 4013. Informatics for the Professional Nurse. 3 Hours.

This course focuses on how information technology is used in the health care system. The course describes how nursing informatics is currently being used by healthcare professionals, and speculates about future applications. Prerequisite: Admission to an online undergraduate BSN professional program, or instructor or departmental consent. (Typically offered: Fall and Spring)

NURS 4023. Health Promotion Across the Lifespan. 3 Hours.

This course introduces theories and concepts of teaching and learning, health and wellness, and health behavior in the context of health promotion in nursing. The complex relationships that exist among culture, family, community, and health are explored. Students apply evidence-based strategies to assess, implement, and evaluate health promotion interventions for individuals, families, communities, and populations. Prerequisite: NURS 4003, NURS 4013, NURS 4843 and admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4063. Population and Community Health Nursing. 3 Hours.

This course introduces general principles of population and community health nursing to provide a theoretical base for the care of families, aggregates, communities, and populations. Students apply the concepts of disease prevention and assessment to plan, implement, and evaluate interventions to address diverse health care issues across the lifespan. Corequisite: NURS 4073 (for LNBN students only). Prerequisite: NURS 4003, NURS 4843, NURS 4013, (ESRM 2403 or STAT 2303) and admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4073. Population and Community Health Practicum. 3 Hours.

Practicum basis for applying knowledge from public health and nursing theory. Learners utilize evidence-based strategies for disease prevention and health promotion with individuals, families, and populations in a variety of community health settings. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4063. (Typically offered: Fall, Spring and Summer)

NURS 4092. Professional Role Practicum. 2 Hours.

Role Synthesis provides the RN to BSN student with an opportunity to synthesize and apply knowledge of concepts developed throughout the nursing program. Evidence based practice will guide development of a quality improvement project in an area of student's interest. The course provides an opportunity to collaborate with a mentor and reflect professional goals. Requires a total of 75 clinical hours. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. Pre- or Corequisite: NURS 4701. (Typically offered: Fall, Spring and Summer)

NURS 4102. Adult Health II for Nurses. 2 Hours.

Focuses on the adult population experiencing chronic problems in the health-illness continuum. Utilizing the nursing process, nursing and medical treatment of selected conditions will be emphasized across transitional care settings. Prerequisite: NURS 3332, NURS 3302 and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4112. Nursing Concepts: Teaching and Health Promotion. 2 Hours.

The course focuses on teaching/learning and the professional nurse's role in health promotion and disease prevention. A variety of health education and health promotion strategies are presented and evaluated. This is a Level I course. Prerequisite: Admission to the nursing program and completion of NURS 3422 and NURS 3424. (Typically offered: Fall and Spring)

NURS 4124. Child and Family Nursing. 4 Hours.

Students explore theory and evidence-based knowledge regarding holistic nursing care of children and families. Principles of health promotion and health education are utilized throughout the course. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall and Spring)

NURS 4143. Child and Family Practicum. 3 Hours.

Clinical practicum experience for application of evidence-based knowledge and skills in the nursing care of children and families. Prerequisite: NURS 3111, NURS 4323 and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4124. (Typically offered: Fall and Spring)

NURS 4154. Nursing Concepts: Children and Family. 4 Hours.

This course provides theory and research-based knowledge regarding holistic nursing care of children and families. Principles of health promotion and health education for expanding families are integral to this course. This is a Level II course. Corequisite: NURS 4164. Pre- or Corequisite: NURS 4112. (Typically offered: Fall and Spring)

NURS 4164. Professional Role Implementation IV: Teacher. 4 Hours.

Clinical and laboratory experience for application of research-based knowledge and skills in the nursing care of children and families. Emphasis is on teaching role of the nurse. This is a Level II course. Pre- or Corequisite: NURS 4154. Prerequisite: Completion of Level I courses. (Typically offered: Fall and Spring)

NURS 4203. Leadership for Professional Nurses. 3 Hours.

This course introduces theories and principles of management and leadership and the professional nurse's role within the health care system. Social issues, economic policy, and regulatory requirements are used to explore healthcare delivery systems and access, quality improvement, and patient safety. This course includes strategies for monitoring delivery of care, outcomes, and evaluating program effectiveness. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4212. Leadership Practicum. 2 Hours.

Students will apply the theoretical principles learned in NURS 4203 to the delivery of healthcare. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4203. (Typically offered: Fall, Spring and Summer)

NURS 4242. Leadership in Nursing. 2 Hours.

Introduces principles of leadership and the professional nurse's roles in the health care system. Considers the perspectives of management, organization, and change theory. Includes strategies for monitoring delivery of care, outcomes and evaluating program effectiveness. This is a Level II course. (Typically offered: Fall and Spring)

NURS 4252. Professional Role Implementation V: Manager. 2 Hours.

Students will apply the theoretical principles learned in NURS 4242 and NURS 4262 to the delivery of care to adults with chronic conditions across transitions of care settings. The manager will be emphasized. This is a Level II course. Prerequisite: Completion of Level I courses. Pre- or Corequisite: NURS 4242 and NURS 4262. (Typically offered: Fall and Spring)

NURS 4252H. Honors Professional Role Implementation V: Manager. 2 Hours.

Students will apply the theoretical principles learned in NURS 4242 and NURS 4262 to the delivery of care to adults with chronic conditions across transitions of care settings. The manager will be emphasized. This is a Level II course. Prerequisite: Completion of Level I courses. Pre- or Corequisite: NURS 4242 and NURS 4262. (Typically offered: Fall and Spring)
This course is equivalent to NURS 4252.

NURS 4262. Nursing Concepts: Adult Health and Illness II. 2 Hours.

Focuses on the adult population experiencing chronic problems in the health-illness continuum. Utilizing the nursing process, nursing and medical treatment of selected conditions will be emphasized across transitional care settings. This is a Level II course. Prerequisite: Level I courses. (Typically offered: Fall and Spring)

NURS 4313. Pathophysiology in Nursing. 3 Hours.

The course focuses on the study of the underlying concepts of physiological functioning and the body's adaptive and compensatory mechanisms within a systems framework. Learners examine aspects of disease processes including etiology, pathogenesis, and clinical manifestations, as it applies to current nursing practice with diverse clients across the lifespan. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4323. Health Assessment and Clinical Reasoning. 3 Hours.

This 3-credit theory course focuses on increasing knowledge of health assessment skills. Emphasis is placed on strengthening clinical reasoning skills through identifying normal findings, interpreting abnormal findings, and applying principles of evidence-based practice to the health assessment process. The role of documentation of assessment findings to third-party reimbursement is also explored. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4442. Nursing Concepts: Critical Care. 2 Hours.

Focuses on the adult population experiencing multiple or critical illnesses or conditions necessitating admission to a critical care unit. The course emphasizes both nursing and medical treatment of selected conditions. This is a Level II course. Corequisite: NURS 4452. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 4452. Professional Role Implementation VI: Role Synthesis. 2 Hours.

Clinical learning is focused on further developing and refining the knowledge, skills, and attitudes necessary to manage the care of an acutely ill or complex patient and/or family within the context of an inter-professional team. This is a Level II course. Prerequisite or Corequisite: NURS 4442. Prerequisite: Completion of Level I and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 4503. Introduction to Health Care Policy. 3 Hours.

This course provides an overview of health care policy orienting students to the political and social processes impacting the current health care environment. The course provides a basic framework for understanding the role of nursing in advocacy, leadership, economics and ethics associated with influencing health care policy. Recognizing the financing of health care and the impact on quality through policy changes will be discussed. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4542. Critical Care Nursing. 2 Hours.

Focuses on the adult population experiencing multiple or critical illnesses or conditions necessitating admission to a critical care unit. The course emphasizes both nursing and medical treatment of selected conditions. Prerequisite: NURS 3111, NURS 3332, NURS 4102, and admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4552. Critical Care Practicum. 2 Hours.

Clinical learning is focused on further developing and refining the knowledge, skills, and attitudes necessary to manage the care of an acutely ill or complex patient and/or family within the context of an inter-professional team. Prerequisite: Admission to the Online Undergraduate BSN Professional Program or permission by the instructor or department head. Pre- or Corequisite: NURS 4542. (Typically offered: Fall, Spring and Summer)

NURS 4603. Nursing Concepts: Community. 3 Hours.

The course focuses on theories and concepts in community health nursing. Health resources are explored in a variety of settings. This is a Level II course. Corequisite: NURS 4613. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall, Spring and Summer)

NURS 4613. Professional Role Implementation VII: Role Synthesis. 3 Hours.

Application of community health concepts and the nursing process to promote community health and to restore health in a variety of settings. This is a Level II course. Pre- or Corequisite: NURS 4603. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, NURS 4262. (Typically offered: Fall and Spring)

NURS 4613H. Honors Professional Role Implementation VII: Role Synthesis. 3 Hours.

Application of community health concepts and the nursing process to promote community health and to restore health in a variety of settings. This is a Level II course. Pre- or Corequisite: NURS 4603. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, NURS 4262. (Typically offered: Fall and Spring)
This course is equivalent to NURS 4613.

NURS 4701. Professional Nursing Synthesis. 1 Hour.

The course emphasizes reflection, integration, and synthesis of concepts from previous courses. Course enrollment occurs in the last semester of the program. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall, Spring and Summer)

NURS 4712. Seminar in Nursing. 2 Hours.

Focuses on integrating the nursing caregiver, teacher and manager roles. Prepares students to analyze practice issues, trends and future demands. Explores the roles of baccalaureate prepared professional nurses and facilitates students to incorporate those roles as they enter professional practice. Must be taken in the final semester of the Professional Program of Study. This is a Level II course. Corequisite: NURS 4722. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, and NURS 4262. (Typically offered: Fall and Spring)

NURS 4722. Professional Role Implementation VIII: Role Synthesis. 2 Hours.

Clinical immersion experience that approximates the role of a beginning BSN nurse generalist. Corequisite: NURS 4712. Prerequisite: Completion of Level I courses and NURS 4112, NURS 4154, NURS 4164, NURS 4242, NURS 4252, NURS 4262. (Typically offered: Fall and Spring)

NURS 481V. Special Topics in Nursing. 1-6 Hour.

This course is the study of a special topic(s) in nursing. Content varies. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

NURS 481VH. Honors Special Topics in Nursing. 1-6 Hour.

This course is the study of a special topic(s) in nursing. Content varies. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
This course is equivalent to NURS 481V.

NURS 4843. Scientific Foundation for Professional Nursing Practice. 3 Hours.

This course introduces the research process through a comparative analysis of selected studies exemplifying various theoretical, methodological, and analytical approaches. Students acquire the basic competencies to critically read, evaluate and interpret nursing research studies for use in professional nursing practice. Prerequisite: Admission to an online undergraduate BSN professional program or permission by the instructor or department head. (Typically offered: Fall and Spring)

NURS 491V. Independent Study in Nursing. 1-6 Hour.

A selected learning experience in nursing to enhance knowledge and/or practice of the profession. Objectives and experiences are designed on an individual basis with a faculty adviser. May be taken with any 3500-level nursing course or above. (Typically offered: Fall, Spring and Summer)

NURS 491VH. Honors Independent Study in Nursing. 1-6 Hour.

A selected learning experience in nursing to enhance knowledge and/or practice of the profession. Objectives and experiences are designed on an individual basis with a faculty adviser. May be taken with any 3500-level nursing course or above. (Typically offered: Irregular)
This course is equivalent to NURS 491V.

NURS 498VH. Nursing Honors Thesis/Project. 1-3 Hour.

Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work "one-on-one" to complete the honors thesis/project. Prerequisite: Honors candidacy, NURSBS major, and NURS 3901H. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

NURS 5003. Theoretical and Scientific Foundations for Nursing Practice. 3 Hours.

The course utilizes the critical reasoning process to examine the element of nursing knowledge. Emphasis is placed on concept analysis and the evaluation of nursing theories. Identification of the links between theory and empirical indicators is examined. The clinical relevance of mid-range and practice theories is explored. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Fall)

NURS 5033. Scientific Foundations and Role Development in Advanced Practice Nursing. 3 Hours.

Examines development of the advanced practice nursing role and evolution of the Doctor of Nursing Practice (DNP). Concepts include scientific foundations of practice, role development, interdisciplinary collaborative strategies, advanced scope of practice, patient advocacy, and legal/ethical principles in the advanced practice role. Pre- or Corequisite: NURS 5003. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Fall)

NURS 5043. Concepts of Health Promotion Within Diverse Populations. 3 Hours.

Provides a theoretical base for health promotion, risk reduction and disease prevention at the individual, family and community levels. A cross-disciplinary approach to achieve or preserve health is identified. Focuses on holistic plans and interventions that address the behavioral and social factors that contribute to morbidity and mortality in diverse populations. Provides opportunity to develop, implement, and evaluate health promotion interventions for selected clients. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Fall)

NURS 5053. Evidence-Based Practice and Innovation in Nursing. 3 Hours.

Examines models and strategies for leadership in evidence-based practice and innovation, outcomes management, and translational scholarship. The emphasis of this course is on problem identification, information retrieval, critical appraisal, and synthesis of a body of evidence. It provides the student with the foundation for the DNP evidence-based practice project. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Spring)

NURS 5063. Health Care Policy. 3 Hours.

Provides knowledge and understanding needed to participate in policy development analysis and implementation. Provides an overview of the political process, health care policy, advocacy, leadership roles, legislative and regulatory issues, health care financing, and evaluating outcomes. Access, cost, and quality of health care are major foci in this course. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Summer)

NURS 5073. Curriculum Design and Development in Nursing Education. 3 Hours.

This course provides the essential elements that define and operationalize the process of curriculum design and development. Students will examine curriculum theories, models, and concepts from the perspective of nursing education. They will analyze factors that influence program and curriculum development. Historical and philosophical foundations of nursing practice and educational principles are examined. The application and synthesis of curriculum theory and their application to nursing is emphasized. The role of the educator in the dynamic relationship between the practice setting, research, and curriculum is examined. Students will participate in the design of curriculum which reflects professional nursing practice, standards, theory, and research. Prerequisite: Admission to the Graduate Program or departmental consent. Completion of all general and research core classes or approval of the MSN Education Program Coordinator. (Typically offered: Fall and Spring)

NURS 5083. Methods of Assessment and Evaluation in Nursing Education. 3 Hours.

This course is one of four offered in the nursing education concentration in preparation for the role of educator in academic and clinical settings. Students explore theories, models, and evidence for best practice in assessing learning - including constructing exam items and creating tools for assessing writing assignments. Students discuss grading and other concepts related to assessment and evaluation as it relates to nursing education. Pre- or Corequisite: Completion of NURS 5073 or NURS 5093. Prerequisite: Admission to the Masters of Science in Nursing or the Doctor of Nursing Practice Program. (Typically offered: Summer)

NURS 5093. Instructional Design and Delivery in Nursing Education. 3 Hours.

This course is one of four offered in the nursing education concentration in preparation for the role of educator in academic and clinical settings. Students explore teaching and learning theories and other evidence to guide practice in the advanced role of the educator. Students gain competencies in the knowledge and skills necessary for delivering evidence-based teaching and learning strategies in a variety of learning environments. Prerequisite: Admission to the Graduate Program or departmental consent. (Typically offered: Spring)

NURS 5101. Advanced Health Assessment and Diagnostic Reasoning. 1 Hour.

Applies health assessment, physical examination techniques, clinical decision making, and diagnostic reasoning to formulate a culturally-sensitive, individualized plan of care, which includes health promotion and disease prevention. Corequisite: NURS 5112. (Typically offered: Fall)

NURS 5112. Advanced Health Assessment and Diagnostic Reasoning Clinical Practicum. 2 Hours.

Focus is on the application of clinical decision making, diagnostic reasoning, and advanced physical examination techniques to develop differential diagnoses, problem list, and a plan of care for individual clients. Corequisite: NURS 5101. (Typically offered: Fall)

NURS 5123. Pharmacotherapeutics. 3 Hours.

Provides advanced concepts and application of pharmacology for broad categories of agents used in disease management. Establishes the relationship between pharmacologic agents and physiologic/pathologic responses. It assists students with the development of knowledge and skills to prescribe and manage a client's health in a safe, high quality, and cost-effective manner. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Summer)

NURS 5143. Advanced Pathophysiology. 3 Hours.

Provides a comprehensive understanding of normal physiologic and pathologic mechanisms of disease that serves as a foundation for clinical assessment, decision making, and management of individuals. Includes mechanisms of disease, genetic susceptibility, and immune responses in selected disorders. This course includes concepts of pathophysiology across the lifespan. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Spring)

NURS 5272. Clinical Practicum: Interpretive Diagnostic Reasoning. 2 Hours.

Application of principles of pathologic mechanisms of disease, pharmacotherapeutics, and pharmacokinetics to refine and synthesize skills for history taking, physical examination, clinical assessment, diagnostic reasoning, and decision making for adult and geriatric individuals. Pre- or Corequisite: NURS 5101, NURS 5112, NURS 5143 and NURS 5123. (Typically offered: Summer)

NURS 5303. Foundations of Nursing Education. 3 Hours.

Considers the principles, philosophies, theories, and strategies of teaching, learning, and evaluation needed in nursing education. (Typically offered: Fall)

NURS 5313. Curriculum and Evaluation in Nursing Education. 3 Hours.

Considers knowledge and skills needed for curriculum and program development and evaluation for a variety of nursing education settings. (Typically offered: Summer)

NURS 5323. Teaching in Nursing Practicum. 3 Hours.

Supervised experience in the nurse educator role in both classroom and clinical settings. (Typically offered: Fall)

NURS 5332. Common Problems in Acute Care in Adult and Gerontology Populations Clinical Practicum. 2 Hours.

Focuses on the management of adult-gerontology patients with common acute illnesses. Emphasizes the application of principles of pathologic mechanisms of disease, history taking, physical examination, and clinical decision making. Corequisite: NURS 5434. Prerequisite: (Completion of core courses: NURS 5003, NURS 5033, NURS 5043, NURS 5053, NURS 5143, NURS 5063, NURS 5523), and (completion of specialty clinical courses: NURS 5101 and NURS 5112). (Typically offered: Spring)

NURS 5343. Specialty Development I. 3 Hours.

This course will include two foci. There will be readings focused on current topics in a specialty area. A focused field experience will allow student to integrate knowledge and skills in a specialty area of nursing in preparation for the nurse educator role. (Typically offered: Spring)

NURS 5353. Specialty Development II. 3 Hours.

Building on the Independent Study: Specialty Development I, this course will include two foci. There will be readings focused on current topics in a specialty area. A focused field experience will allow student to integrate knowledge and skills in a specialty area of nursing in preparation for the nurse educator role. Prerequisite: NURS 5343. (Typically offered: Fall)

NURS 5403. Scholarly Writing. 3 Hours.

This course will focus on the fundamentals of academic writing at the graduate level with the goal of honing students' critical reading and writing skills. Attention will be given to mechanics, usage, and style, as well as to handling and citing sources. The emphasis throughout is on creative thinking and precise, scholarly writing. Prerequisite: Completion of a baccalaureate degree and acceptance into the graduate program. (Typically offered: Fall and Summer)

NURS 5413. Executive Leadership in Nursing. 3 Hours.

This course focuses on the health care structures and processes, human capital management, health and public policy, communication principles and styles, negotiations, leadership effectiveness, strategic visioning, ethics and advocacy, and innovation. Learning will enable the professional nurse executive to lead complex health care environments applying an advanced skill set in each of the focus areas. Prerequisite: NURS 5403, NURS 5523, NURS 5043, NURS 5053, NURS 5063, MBAD 5241, HRWD 5233, NURS 6233, ESRM 6403. (Typically offered: Spring)

NURS 5423. Health Systems Operations. 3 Hours.

This course focuses on the complex practice environment. Enables the professional nurse leader to demonstrate knowledge of care management and delivery, professional practice environment and models, and quality monitoring and improvement. Professional practice and health care delivery models and settings, role delineation, laws and regulations, accreditation, and professional practice standards will be emphasized. Prerequisite: NURS 5403, NURS 5523, NURS 5043, NURS 5053, NURS 5063, MBAD 5241, HRWD 5233, NURS 6233, ESRM 6403. (Typically offered: Fall)

NURS 5434. Common Problems in Acute Care in Adult and Gerontology Populations. 4 Hours.

Examine principles of pathologic mechanisms of disease, refine skills for history taking, physical examination, and clinical decision making for adult and geriatric individuals with common acute illnesses. Corequisite: NURS 5443. Prerequisite: (Completion of core courses: NURS 5003, NURS 5033, NURS 5043, NURS 5053, NURS 5143, NURS 5063, NURS 5523), and (completion of specialty clinical courses: NURS 5101 and NURS 5112). (Typically offered: Spring)

NURS 5443. Chronic Health Problems in Adult and Gerontology Populations. 3 Hours.

Explores evidence-based models for the management of selected chronic conditions, focusing on assessment and treatment of individuals and families. Utilizes advanced theories, concepts, knowledge, and skill in the care of diverse adult and geriatric populations with complex chronic health problems. Corequisite: NURS 5454. Prerequisite: Completion of NURS 5434, and NURS 5332. (Typically offered: Fall)

NURS 5454. Chronic Health Problems in Adult and Gerontology Populations Clinical Practicum. 4 Hours.

Focuses on the management of adult-gerontology populations with complex, chronic health problems. Emphasis is on the application of theoretical concepts, assessment skills, clinical decision making, and evidence-based standards to formulate diagnoses, clinical impressions, treatment, and evaluation plans in the acute or out-patient setting. Pre- or Corequisite: NURS 6123. Corequisite: NURS 5443. Prerequisite: (Completion of core courses: NURS 5003, NURS 5033, NURS 5043, NURS 5053, NURS 5143, NURS 5063, NURS 5523), and (completion of specialty clinical courses NURS 5101, NURS 5112, NURS 5434, and NURS 5332). (Typically offered: Fall)

NURS 5463. Acute and Critical Illness in Adult and Gerontology Populations. 3 Hours.

Provides an in-depth knowledge of management of acutely and critically ill adults. Emphasis is on the use of evidence-based knowledge to formulate diagnoses, treatment, evaluation plans, and referral for adults who have complex acute or critical health problems, or are at high risk for developing complications. Corequisite: NURS 5475. Prerequisite: NURS 5101, NURS 5112, NURS 5434, NURS 5332, NURS 5443, and NURS 5454. (Typically offered: Spring)

NURS 5475. Acute and Critical Illness in Adult and Gerontology Populations Clinical Practicum. 5 Hours.

Experiences allow the student to apply safe, scientifically sound, cost effective, legal and ethical management strategies to the care of adults with complex acute and critical illness. Emphasis is on the development of advanced clinical skills in acute and critical care settings. Corequisite: NURS 5463. Prerequisite: NURS 5101, NURS 5112, NURS 5423, NURS 5443 and NURS 5454. (Typically offered: Spring)

NURS 5483. Common Problems in Primary Care. 3 Hours.

Examines principles of pathological mechanisms of disease, refines knowledge for thorough history taking, physical examination, and clinical decision-making for men, women, and families with common illnesses treated in primary care. Corequisite: NURS 5495. Prerequisite: NURS 5101, NURS 5112, NURS 5543, and NURS 5683. (Typically offered: Fall)

NURS 5495. Common Problems in Primary Care Clinical Practicum. 5 Hours.

Clinical component to 5483 Common Problems Primary Care. Refines skills for thorough history taking, physical examination, and clinical decision-making for men, women, and families with common illnesses treated in primary care. Pre- or Corequisite: NURS 5483. Prerequisite: NURS 5101, NURS 5112, NURS 5543, and NURS 5683. (Typically offered: Spring)

NURS 5523. Healthcare Informatics. 3 Hours.

Explores standards and principles for selecting, using, and evaluating information systems. Discusses the application of computer programs relevant to nursing administration, education, research, and practice. Assists the student in managing individual and aggregate information, and assessing the efficacy of patient care technology appropriate to a specialized area of nursing practice. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Fall)

NURS 5543. Primary Care of Children. 3 Hours.

Focuses on evidence-based models for the management of children from diverse cultures with common conditions in primary care. Includes anticipatory guidance, health promotion, and disease prevention. Emphasis on application of theoretical concepts, assessment skills, clinical decision-making, and evidence-based standards to formulate differential diagnoses, clinical impressions, treatment, and evaluation plans in primary care. Corequisite: NURS 5683. Prerequisite: NURS 5101 and NURS 5112. (Typically offered: Spring)

NURS 5553. Specialty Development I: Nurse Executive Leader. 3 Hours.

This course will focus on microsystem level operations within the healthcare environment and issues faced by nurse administrators. Learning will enable the professional nurse to participate in operations surrounding the delivery of care in various health care organizations. This course will facilitate the application of learned theories and organizational principles. Prerequisite: NURS 5403, NURS 5523, NURS 5043, NURS 5053, NURS 5063, MBAD 5241, HRWD 5233, NURS 6233, ESRM 6403. (Typically offered: Fall)

NURS 5563. Specialty Development II: Nurse Executive Leader. 3 Hours.

Students will complete a scholarly project or thesis synthesizing knowledge and skills from previous courses in program of study. Applied learning will focus on the development of a systems approach to nurse executive leadership and inquiry. Focus is on public and private health care delivery systems, alliances with internal and external environments, and strategic decision making and implementation in the rapidly evolving global arena of nursing leadership and practice. This course prepares professional nurses to apply leadership and evidence-based practice principles in the evaluation of quality processes encountered across health care industries. 135 contact hours. Corequisite: NURS 579V and NURS 600V. Prerequisite: NURS 5403, NURS 5523, NURS 5043, NURS 5053, NURS 5063, MBAD 5241, HRWD 5233, NURS 6233, ESRM 6403, NURS 5343, NURS 5553, and NURS 5423. (Typically offered: Spring)

NURS 5683. Primary Care of Children Clinical Practicum. 3 Hours.

NURS 5683 is the clinical component to NURS 5543 and focuses on the management of women and children in the clinical setting with emphasis on holistic assessment and treatment of these populations and their families. Students will engage in the assessment, diagnosis and treatment of conditions common to primary practice in women's health and pediatric clinics. This course will consist of 135 contact hours, 80 in the pediatric setting and 55 in the women's health setting. Corequisite: NURS 5543. Prerequisite: NURS 5101 and NURS 5112. (Typically offered: Spring)

NURS 579V. Independent Study. 1-3 Hour.

Independent study designed by student with faculty advisor. May be completed as alternative to thesis. (Typically offered: Fall, Spring and Summer)

NURS 5873. Complex Problems in Primary Care. 3 Hours.

Focuses on application of health promotion and chronic disease management in complex adult patients. Students will utilize evidence-based approaches to health promotion, assessment, differential diagnosis and disease management. Emphasizes clinical decision making, chronic care models, coordination of care, poly-drug therapy and information systems. Corequisite: NURS 5884. Prerequisite: NURS 5101, NURS 5112, NURS 5543, NURS 5683, NURS 5483, and NURS 5495. (Typically offered: Spring)

NURS 5884. Complex Problems in Primary Care Clinical Practicum. 4 Hours.

Clinical component to NURS 5873 Complex Problems in Primary Care. Offers the student an opportunity to exercise critical judgment and implement theoretical knowledge in the management of care of adults experiencing complex health problems. Corequisite: NURS 5873. Prerequisite: NURS 5101, NURS 5112, NURS 5683, NURS 5495, and NURS 5483. (Typically offered: Spring)

NURS 598V. Nursing Special Topics. 1-6 Hour.

Special Topics course to fulfill national accrediting body for Family Nurse Practitioner. Prerequisite: NURSDP major. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

NURS 599V. Seminar. 1-3 Hour.

Selected topics in nursing explored in discussion format. (Typically offered: Irregular)

NURS 600V. Master's Thesis. 1-3 Hour.

Student research to fulfill degree requirement for the MSN. Prerequisite: NURS 5053. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

NURS 6123. Evaluation Methods and Translational Research for Evidence-based Practice. 3 Hours.

The translation of evidence into practice, including theoretical and practical challenges, is analyzed through the use of case studies and proposals. Uses methods of inquiry for systematic appraisal of nursing practice or healthcare programs to identify practice outcomes and create an environment to support and sustain changes. Pre- or Corequisite: ESRM 6403. Prerequisite: NURS 5053. (Typically offered: Fall)

NURS 6224. DNP Clinical Practicum I. 4 Hours.

Provides an opportunity to synthesize advanced knowledge and role behaviors within a specialty concentration. Designed to apply nursing theory, translational research, epidemiologic principles, ethical/legal principles, outcome evaluations, healthcare systems thinking, and economics into a specialized clinical practice role and setting. Depending upon specialty and experience, may require travel to campus. Prerequisite: Completion of NURS 5443, NURS 5454, NURS 5463, and NURS 5475; or by permission of the instructor. (Typically offered: Summer)

NURS 6233. Healthcare Economics and Finance. 3 Hours.

Provides economic, financial, and business knowledge and skills required for a leadership role in financial planning and decision making within healthcare delivery systems. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Spring)

NURS 6244. DNP Clinical Practicum II. 4 Hours.

Allows for the continuation of specialty role development and an advanced approach to care delivery, systems thinking, and leadership. Allows for the total number of practice hours required for certification and/or degree. Prerequisite: NURS 6224. (Typically offered: Fall)

NURS 6263. Organization Management and Systems Leadership. 3 Hours.

Facilitates understanding of how to lead, advocate, and manage innovative responses to organizational needs and challenges. Emphasizes development and evaluation of care delivery models that meet the needs of targeted patient populations by enhancing accountability for effective and efficient healthcare, quality improvement, and patient safety. Prerequisite: Admission to the graduate program or by permission of the instructor. (Typically offered: Summer)

NURS 628V. DNP Clinical Practicum III. 1-8 Hour.

Allows for the continuation of specialty role development and an advanced approach to care delivery, systems thinking, and leadership. Allows for the total number of practice hours required for certification and/or degree. Pre- or Corequisite: NURS 6244. (Typically offered: Spring) May be repeated for up to 8 hours of degree credit.

NURS 6343. Analytic Methods and Epidemiology for Health Care. 3 Hours.

This course will examine the role of epidemiology and statistics in advanced nursing practice. The student will learn how the concepts of epidemiology are used to measure and describe the health of individuals and populations and apply statistical concepts and analytical methods to data encountered in practice. Major topics to be covered include sources of data, study designs, analytical strategies and interpretation of data related to disease causality, risk, and prevalence. Prerequisite: ESRM 5393. (Typically offered: Fall, Spring and Summer)

NURS 7113. Capstone Seminar I. 3 Hours.

Designed to unify and organize the student's field of inquiry for the final Capstone Project. Emphasis is on the application of an evidence-based intervention suitable to their area of focus that involves appropriate methodology and application with the goal for change in practice or outcome analysis. Prerequisite: Completion of NURS 6224 and/or permission of the instructor. (Typically offered: Fall)

NURS 7122. DNP Project Implementation I. 2 Hours.

Provides necessary support and elements for students to begin execution of the Capstone Project in collaboration with the sponsoring site. (Typically offered: Fall)

NURS 7132. Capstone Seminar II. 2 Hours.

Focuses on data exploration and analysis for the organization and refinement of all aspects of Capstone Project, emphasizing implementation and evaluation of the evidence-based intervention. Allows student to finalize the scholarly written and oral report for dissemination of results. Corequisite: NURS 7142. Prerequisite: NURS 7113 and NURS 7122. (Typically offered: Spring)

NURS 7142. DNP Project Implementation II. 2 Hours.

Provides an avenue for students to showcase the Final Capstone Project. Allows students the opportunity to synthesize and demonstrate the ability to employ effective communication and collaboration skills, leadership roles, influence healthcare quality and safety, evaluate practice, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems. Prerequisite: NURS 7122. (Typically offered: Spring)

Nutrition (NUTR)

Courses

NUTR 1201. Introduction to the Dietetic Profession. 1 Hour.

Introduction to profession of dietetics and nutrition including history, scope and future of professionals with emphasis on academic preparation, internships, acquisition of professional credentials, career ladder and career opportunities. Guest speakers will supplement lectures and assignments. Prerequisite: HNHI; HNAD or FNAH majors only or by department consent. (Typically offered: Fall and Spring)

NUTR 1213. Fundamentals of Nutrition. 3 Hours.

The functions of food, body processes, optimum diets in relation to health and physical fitness. (Typically offered: Fall and Spring)

NUTR 1213H. Honors Fundamentals of Nutrition. 3 Hours.

The functions of food, body processes, optimum diets in relation to health and physical fitness. (Typically offered: Fall and Spring)
This course is equivalent to NUTR 1213.

NUTR 2111L. Principles of Foods Laboratory. 1 Hour.

Laboratory exercises and practice applicable of Principles of Foods. Lab 3 hours. Corequisite: NUTR 2113. (Typically offered: Fall and Spring)

NUTR 2113. Principles of Foods. 3 Hours.

Physical and chemical characteristics of foods, organized by food science and nutrition, protein foods, phytochemicals, complex and refined carbohydrates, and fats. Emphasis on food preparation and storage methods and effect on foods. Investigation and practice of food preparation basics, cooking and baking techniques, knife skills, food safety, and sensory evaluation of food. Corequisite: NUTR 2111L. Prerequisite: NUTR 1213, HOSP 2611 and (CHEM 1073, or CHEM 1103, or CHEM 1203), and one of the following programs, minors or concentrations: (HNADBS, FNAHBS, HESCBS, NUTR-M, or CATEBS-FCSE). (Typically offered: Fall and Spring)

NUTR 2203. Sports Nutrition. 3 Hours.

The integration of concepts from nutrition and exercise physiology into an applied multidisciplinary study of how food, beverages and dietary supplements influence physical performance. Prerequisite: NUTR 1213. (Typically offered: Fall and Spring)

NUTR 3003. Nutrition Assessment. 3 Hours.

Principles of nutritional assessment and methodology including anthropometric, biochemical, clinical, and dietary evaluation. Emphasis placed on Nutrition Focused Physical Assessment, the interpretation of indices for all age groups in health and disease for both individuals and groups, and the application of nutrition assessment data in the nutrition care process. Prerequisite: NUTR 3203 and junior standing. (Typically offered: Spring)

NUTR 3101L. Culinary Nutrition Lab. 1 Hour.

Students will explore ways to apply evidence based nutrition research to culinary application. It addresses the fundamental culinary skills and knowledge required to prepare meals that impact the nutritional and sensory appeal of food. Corequisite: NUTR 3103. Prerequisite: NUTR 2113 and NUTR 2111L. (Typically offered: Fall)

NUTR 3103. Culinary Nutrition. 3 Hours.

This course is grounded in a food first approach to health and wellness with an emphasis on disease prevention. Students will study the physical and chemical characteristics of foods that increase nutritional value and will include exploration of the culinary nutrition modification process and application of these concepts to planning nutritionally balanced meals. Corequisite: NUTR 3101L. Prerequisite: NUTR 2113 and NUTR 2111L. (Typically offered: Fall)

NUTR 3203. Human Nutrition. 3 Hours.

Fundamental human nutrition; nutritive value of foods and general functions of nutrients based on concepts derived from inorganic and organic chemistry. Examples relating nutrition to disease used as illustrations to deepen understanding of normal nutrition. Lecture 3 hours per week. Corequisite: CHEM 2613 and CHEM 2611L or CHEM 3603 and CHEM 3601L. Prerequisite: NUTR 1213. (Typically offered: Spring)

NUTR 3213. Nutrition Education and Counseling. 3 Hours.

Introduction to development of communication skills related to educational theory and techniques, development of educational materials, interpersonal communication skills, group dynamics, public speaking, and interviewing techniques. Includes discussion of counseling theory and methods, and how education and counseling are intertwined for nutrition professionals. Includes development of skills in nutrition counseling. Prerequisite: NUTR 1213, and HNAD or FNAH majors only. (Typically offered: Fall)

NUTR 3603. Quantity Foods. 3 Hours.

This course focuses on menu planning for a variety of food service organizations, with consideration of age, special needs, diet type, cultural and ethical parameters. Students will design flavorful and appealing menus that meet current nutrition recommendations, guidelines and budgetary constraints. They will learn recipe standardization, quantity production, and overall quality control. Prerequisite: NUTR 1213 and HNAD or FNAH majors only. (Typically offered: Spring)

NUTR 4001. Nutrition Seminar. 1 Hour.

Presentation and discussion of selected nutrition topics of current interest. Prerequisite: Senior standing and HNHI; HNAD or FNAH majors only. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

NUTR 4101L. Research Methods in Nutrition Lab. 1 Hour.

Application of experimental methods for investigations in nutrition research. Pre- or corequisite: STAT 2303 and HNHI; HNAD or FNAH majors with senior standing only. Corequisite: NUTR 4103. Prerequisite: NUTR 2113 and NUTR 2111L. (Typically offered: Spring)

NUTR 4103. Research Methods in Nutrition. 3 Hours.

This course will cover applications of experimental methods for investigations in nutrition research and cookery. Corequisite: NUTR 4101L. Pre- or Corequisite: STAT 2303. Prerequisite: NUTR 2113, NUTR 2111L and HNHI; HNAD or FHNH majors with senior standing only. (Typically offered: Spring)

NUTR 4213. Advanced Nutrition. 3 Hours.

Normal nutrition with emphasis on utilization of nutrients. Lecture and reports on current literature 3 hours per week. Prerequisite: CHEM 3813 and NUTR 3203. (Typically offered: Fall)

NUTR 4223. Life Cycle Nutrition. 3 Hours.

Study of normal nutrition emphasizing quantitative needs for nutrients as functions of biologic processes that vary during stages of the life cycle. Attention is given to preconception, pregnancy, childhood and older adults. Prerequisite: NUTR 1213 and BIOL 2213 and BIOL 2211L. (Typically offered: Fall)

NUTR 4243. Community Nutrition. 3 Hours.

Identifying, assessing, and developing solutions for nutritional problems encountered at the local, state, federal, and international levels. Lecture 3 hours per week. Prerequisite: NUTR 1213. (Typically offered: Spring)

NUTR 4263. Medical Nutrition Therapy I. 3 Hours.

Principles of medical nutrition therapy with emphasis on the Nutrition Care Process, and the pathophysiology and current standards of practice for diseases and disorders. Pre- or corequisite: NUTR 3213 and NUTR 4213. Prerequisite: BIOL 2213, BIOL 2211L, CHEM 3813 and NUTR 3203. (Typically offered: Fall)

NUTR 4273. Medical Nutrition Therapy II. 3 Hours.

Principles of medical nutrition therapy with emphasis on the Nutrition Care Process, and the pathophysiology and current standards of practice for diseases and disorders. Lecture 3 hours per week. Prerequisite: NUTR 4263. (Typically offered: Spring)

NUTR 4303. Cultural Perspectives on Foods. 3 Hours.

Cultural competence is growing in importance as our population becomes more culturally diverse. This course covers cuisine and culture of various regions for the purpose of promoting respect and understanding for cultural diversity. Students will learn the history of foods, ingredients, flavor profiles, religious based food practices, etiquette, and customs. Corequisite: Junior or senior standing, and HNHI; HNAD; FHNH or HOSP majors only. (Typically offered: Spring)

NUTR 4403. Recipe Modification. 3 Hours.

Students will use existing research to identify foods with preventative and functional properties and apply that information to develop recipes for improved nutritional quality and disease management. They will gather data to modify and refine the product and create an educational tool to promote their product. Prerequisite: NUTR 3103 and NUTR 3101L. (Typically offered: Spring)

NUTR 5113. Advanced Nutrition. 3 Hours.

(Formerly NUTR 4213.) Normal nutrition with emphasis on utilization of nutrients. Lecture and reports on current literature 3 hours per week. Graduate degree credit will not be given for both NUTR 4213 and NUTR 5113. Prerequisite: CHEM 3813 and NUTR 3203. (Typically offered: Fall)

NUTR 521V. Readings in Nutrition. 1-6 Hour.

Seminar and individual study. Prerequisite: Instructor consent. (Typically offered: Irregular)

NUTR 5223. Nutrition During the Life Cycle. 3 Hours.

Study of normal nutrition emphasizing quantitative needs for nutrients as functions of biologic processes that vary during stages of the life cycle. Nutritive needs during pregnancy and childhood are emphasized with some attention to nourishing aging and elderly adults. Factors that affect food choices and eating behavior are also considered. Lecture 3 hours per week. On campus and web-based delivery is offered. Prerequisite: Graduate standing and consent of instructor. (Typically offered: Fall)

NUTR 5243. Community Nutrition. 3 Hours.

(Formerly NUTR 4243.) Identifying, assessing, and developing solutions for nutritional problems encountered at the local, state, federal, and international levels. Lecture 3 hours per week. Graduate degree credit will not be given for both NUTR 4243 and NUTR 5243. (Typically offered: Spring)

NUTR 5263. Medical Nutrition Therapy I. 3 Hours.

Principles of medical nutrition therapy with emphasis on Nutrition Care Process, and the pathophysiology and current standards of practice for diseases and disorders. Lecture 3 hours per week. Prerequisite: Graduate standing and consent of instructor. (Typically offered: Fall)

NUTR 5273. Medical Nutrition Therapy II. 3 Hours.

Principles of medical nutrition therapy with emphasis on the Nutrition Care Process, and the pathophysiology and current standards of practice for diseases and disorders. Lecture 3 hours per week. Prerequisite: NUTR 5263. (Typically offered: Spring)

Operations Management (OMGT) Courses

OMGT 4313. Law and Ethics. 3 Hours.

Analysis of the fundamental legal principles applicable in protecting the rights and interests of individuals and organizations; court systems and litigation processes; constitutional law and legislation, formation and discharge of contracts; agency relationships; torts; labor laws; patents; trademarks; copyrights; unfair competition; ethics; professional relations. Not for graduate credit. (Typically offered: Fall, Spring and Summer)

OMGT 4323. Industrial Cost Analysis. 3 Hours.

Use of accounting information for planning and control from a management viewpoint; principles of cost accounting and other aspects of production costs; budgeting, depreciation, taxes, distribution of profits, securities, sources of corporate capital, and interpretation of financial statements. Not for graduate credit. (Typically offered: Fall, Spring and Summer)

OMGT 4333. Applied Statistics. 3 Hours.

Fundamentals of probability and distribution theory with applications in managerial decision making. Descriptive methods, probability distributions, sampling distributions and hypothesis testing are included. Not for graduate credit. (Typically offered: Fall, Spring and Summer)

OMGT 4853. Introduction to Decision Support Tools in Operations Management. 3 Hours.

This course covers decision support tools used in operations management including spreadsheet applications, introduction to database concepts, and presentation methods. The primary decision support tools covered are Microsoft Office products, specifically Excel, but also Word and PowerPoint. It is not a typical course on Microsoft Office products. This course covers how the Excel functions and capabilities are applied in operations management and in the other OMGT courses. The course introduces Excel Topics used in the OMGT curriculum, while reinforcing other Excel topics with review questions. Most of the course covers the Excel skills and techniques needed in the OMGT core courses, but covers some of the Excel concepts used in the elective courses. Pre- or Corequisite: OMGT 4333 or equivalent or departmental consent. Prerequisite: Program administered proficiency exam or departmental consent. (Typically offered: Fall, Spring and Summer)

OMGT 5003. Introduction to Operations Management. 3 Hours.

Provides an overview of the functional activities necessary for the creation/delivery of goods and services. Topics covered include: productivity; strategy in a global business environment; project management; quality management; location and layout strategies; human resources management; supply chain and inventory management; material requirements planning; JIT; maintenance and reliability; and other subjects relevant to the field. Required course. Pre- or Corequisite: OMGT 4853. Prerequisite: OMGT 4333, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. MSE or MSEM students may take the course with advisor consent. (Typically offered: Fall and Spring)

OMGT 5013. Supply Chain Management for Operations Managers. 3 Hours.

Focuses on the development and application of decision models in supply chains with emphasis on supply chain performance, cost, and metrics; demand forecasting; aggregate planning; inventory management; supply chain design and distribution; transportation modeling and analysis; supply chain coordination; the role of information technology; and sourcing decisions. Spreadsheet tools and techniques will be used to analyze supply chain performance. Prerequisite: OMGT 4333, OMGT 4853 and admitted to OPMGMS, EMGTMS, ENGRME or OMPMGC Graduate Certificate Program, or departmental consent. (Typically offered: Fall, Spring and Summer)

OMGT 5113. Human Resource Management. 3 Hours.

A review of Human Resources Management functions as they apply in today's business setting with specific emphasis on regulatory compliance, total rewards systems, recruitment, training, and employment practices. The course is designed both for HRM professionals and for line managers/professionals who need to understand the roles and responsibilities of HR as a business partner. Prerequisite: OMGT 4313, OMGT 5003 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Fall, Spring and Summer)

OMGT 5123. Finance for Operations Managers. 3 Hours.

Examines the scope and environment of finance for operations managers. Topics include financial markets, interest rates, financial statements, cash flows, and performance evaluation. Valuation of financial assets, using time value of money; the meaning and measurement of risk/return; capital-budgeting, cost of capital, capital structure, dividend policy, and working capital management are also covered. Required course (may substitute OMGT 5463). Pre- or Corequisite: OMGT 5003. Prerequisite: OMGT 4323, OMGT 4853 and admitted to OPMGMS, EMGTMS, ENGRME, or OMPMGC Graduate Certificate Program, or departmental consent. (Typically offered: Fall, Spring and Summer)

OMGT 5133. Operations Management in the Service Sector. 3 Hours.

Review of the role of the operations management in the service sector, e.g., health care systems, banking, municipal services, utilities, and postal service and others. Emphasizes the principles and methodologies applicable to the solution of problems within the service industries. Pre- or Corequisite: OMGT 5003. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5143. Strategic Issues in Human Resource Management. 3 Hours.

Explores the concept of Strategic Human Resource Management with emphasis on effective partnering by various HR functions with all levels of management to support the large-scale, long-range goals of achieving success in the organization's chosen markets. Internal and external impacts on and of HR in all areas will be examined. Students will analyze case studies to build on basic concepts acquired in OMGT 5113. Prerequisite: OMGT 5003, OMGT 4313, OMGT 5113 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5253. Leadership Principles and Practices. 3 Hours.

The course is designed to expose students to multiple approaches to leadership in a wide variety of settings. Leadership styles, the knowledge areas and competencies expected of today's leaders, the challenges leaders face, the historical and philosophical foundations of leadership, the relationships among leadership theory, leadership practice, and the moral-ethical aspects of leadership are among the topics covered in the course. A number of respected regional, national, and international leaders share "lessons learned" in their leadership journeys. Plus, a number of highly regarded leadership books and case studies on leadership are read and discussed. Students may not receive credit for INEG 4253 and INEG 5253/OMGT 5253. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Fall, Spring and Summer)

This course is cross-listed with INEG 5253.

OMGT 5303. Health Care Policies and Issues. 3 Hours.

Explores health care management strategies and policy development with emphasis on health insurance, Medicare, Medicaid and managed care, as well as employee health benefits. The roles of government and business in policy formulation are addressed, as are the problems of financing health care, legal and ethical considerations, current healthcare issues, and quality measures. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5373. Quality Management. 3 Hours.

Introduces students to quality management concepts and their use in enhancing organizational performance and profitability. History of the quality movement, its broad application in key economic sectors, and philosophical perspectives of major quality leaders will be discussed. Focus is on continuous process improvement, using data and information to guide organizational decision-making. The Six Sigma approach and associated statistical tools, supporting process improvement, are also covered. Pre- or Corequisite: OMGT 5003. Prerequisite: OMGT 4333 and OMGT 4853, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5403. Industrial Safety and Health Administration. 3 Hours.

Based on Federal Regulations for Occupational Safety and Health, the course examines current regulations, as well as their commonsense application. Covers various standards, such as those for material handling, personal protective equipment, toxic substances, and machine guarding. Uses case studies and real world scenarios to present topics and demonstrate their application. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5423. Operations Management & Global Competition. 3 Hours.

Studies of principles and cases in business/industrial administration in global competition. Survey of markets, technologies, multi-national corporations, cultures, and customs. Discussion of ethics, professionalism, difference valuing, human relations skills, and other topics relevant to global practice. Pre-or Corequisite: OMGT 5003. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Spring)

OMGT 5433. Cost Estimation Models. 3 Hours.

An examination of the methodologies for estimating and forecasting manufacturing costs. Types of cost recovery systems, work progress functions, product improvement curves, determination of hourly rates, parametric estimating systems, and the development of software for computer-assisted estimating systems. Pre- or Corequisite: OMGT 5003. Prerequisite: INEG 3513 or OMGT 4853, OMGT 4323 and OMGT 4333, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

This course is cross-listed with INEG 5433.

OMGT 5443. Decision Models. 3 Hours.

Focus on quantitative decision models for technical and managerial problems for private and public organizations. Topics include shareholder value, stakeholder value, Value-Focused Thinking, axioms of decision analysis, decision making challenges, decision traps, cognitive biases, decision processes, decision framing, influence diagrams, value hierarchy structuring, designing creative alternatives, single objective models, multiobjective additive value model, swing weights, sensitivity analysis, portfolio decision models with binary linear programming, probability elicitation, Bayes Theorem, decision trees, Monte Carlo simulation, expected value, dominance (deterministic and stochastic), tornado diagrams, value of information, risk preference, utility models, expected utility, and communicating analysis insights. Prerequisite: (OMGT 5003, OMGT 4333, and OMGT 4853) or INEG 2313, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

This course is cross-listed with INEG 5443.

OMGT 5463. Economic Decision Making. 3 Hours.

Principles of economic analysis with emphasis upon discounted cash flow criteria for decision-making. Comparison of criteria such as rate of return, annual cost, and present worth for the evaluation of investment alternatives. Required course (may be substituted by OMGT 5123). Prerequisite: OMGT 5003, OMGT 4323 and OMGT 4853, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5473. Lean Six Sigma. 3 Hours.

This course covers the application of lean principles to manufacturing, service and government processes in order to improve productivity, increase value and eliminate waste as well as the use of the Six Sigma problem solving methodology to reduce variation and improve quality. Students will gain experience with the tools and analysis methods used in both approaches. The topics covered include: methods for creating Lean processes, proven lean problem-solving methodologies, managing a lean transformation, implementing a Six Sigma initiative, and executing the five phases of the Six Sigma DMAIC process, and communicating results to stakeholders and decision-makers. Prerequisite: (OMGT 5003 or departmental consent), and admitted to the (Master of Science in Operations Management Program, or the Project Management Graduate Certificate Program, or be a non-degree seeking graduate student with departmental consent). (Typically offered: Fall, Spring and Summer)

OMGT 5493. Advanced Lean Six Sigma. 3 Hours.

With an emphasis on application, this course builds upon the Lean Six Sigma and Quality Management courses and covers analysis techniques for Lean Six Sigma problem solving in the Analyze, Improve, and Control phases of the DMAIC process. The topics covered include descriptive versus inferential statistics, sampling, Hypothesis Testing with Normal and Non-Normal Data, regression analysis, design of experiments, and control charts. Prerequisite: OMGT 5473 and OMGT 5373. (Typically offered: Fall, Spring and Summer)

OMGT 5503. Maintenance Management. 3 Hours.

Principles and practices of maintenance department organization, prevention procedures, and typical equipment problems. Includes related topics such as plant protection, preventative and plant maintenance. Pre- or Corequisite: OMGT 5003. Prerequisite: OMGT 4333 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5613. Lean Production and Inventory Control. 3 Hours.

Defines analytical methods used to support inventory replenishment for the production of goods and services. Operational problems of production systems are examined, including objective/subjective forecasting methods, aggregate planning of work force and production under seasonal demand; and inventory models of EOQ for known and unknown demand. Supply chain management and lean manufacturing concepts are also discussed. Prerequisite: OMGT 4333 and OMGT 5003, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5623. Strategic Management. 3 Hours.

Examines strategic management, which is defined as the art and science of formulating, implementing, and evaluating cross-functional decisions that enable an organization to achieve its long-term objectives. Principles of strategic management will be covered in conjunction with case studies to provide opportunity for analysis and experience in applying these principles in an operations management environment. Required course. Prerequisite: OMGT 5003 and OMGT 4313, and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5633. Linkages among Technology, Economics and Societal Values. 3 Hours.

Addresses how macro-level change is influenced by the linkages among technology, economics and societal values. Three major course initiatives: 1) Developing a conceptual model for understanding how macro-level change has occurred over history; 2) Examining recorded history in order to develop a contextual appreciation for Society's current situation; and 3) Using statistical data to identify six overriding world trends that are likely to greatly impact society's goal of achieving sustainable prosperity and well being in the foreseeable future. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)
This course is cross-listed with BENG 5633.

OMGT 5653. Introduction to Data Analytics for Operations Managers. 3 Hours.

Introduces data science and data analytics. Provides basic skill instruction in the statistical data analysis programming language R. Provides experience building and interpreting descriptive and predictive data analytics models. Provides operations managers with the skill and tools to use and understand advanced data analytics methods. Provides practice communicating those results to senior stakeholders and decision makers. Prerequisite: OMGT 5003 or EMGT 5033, must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5673. Principles of Operations Research. 3 Hours.

Surveys the mathematical models used to design and analyze operational systems. Includes linear programming models, waiting line models, computer simulation models, and management science. Students will be introduced to applications of operations research and solution methods, using spreadsheet software. Pre- or Corequisite: OMGT 5003 and OMGT 4853. Prerequisite: OMGT 4333 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5733. Human Behavior Analysis. 3 Hours.

Examination of the principal drivers of individual and group behavior in organizations with coverage of practical applications of concepts in organizational behavior for operations managers. In addition to group behavior and organizational processes, the course explores people management challenges that result from external pressures on stakeholders (e.g. competitive, economic, social, political, and regulatory impacts). Pre- or Corequisite: OMGT 5003. Prerequisite: OMGT 4313 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 577V. Special Problems. 1-3 Hour.

Application of previous course work knowledge to problems encountered in military base and civilian operations. Problems are proposed by students according to individual interests and needs. Used for courses in specific concentration, certificate or focus areas with parenthetical titles. Maybe used for courses in development. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

OMGT 5783. Project Management for Operations Managers. 3 Hours.

An introduction to the Critical Path Method and Program Evaluation and Review Technique. Covers project planning and control methods; activity sequencing; time-cost trade-offs; allocation of manpower and equipment resources; scheduling activities and computer systems for PERT/CPM with emphasis on MS project. Case studies include topical issues combining methodologies and project management soft skills, such as conflict management, negotiation, presentations to stakeholders, and team building. Required course. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5793. Risk Management. 3 Hours.

Students will learn to apply tools to identify, assess, communicate and manage risk. Course work includes methods to identify risks, develop risk models, assess risk, and evaluate risk management options. Case studies are used to understand risk management challenges in systems development in complex organizations. Prerequisite: OMTG 5003 or OMTG 5033, must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5823. Information Technology for Operations Managers. 3 Hours.

Information Technology for the management and control of information systems and processes used in operations management. Topics covered include e-Business and e-Commerce Systems, Management Information Systems (MIS), Data Resource Management, Networking, Decision Support, Information Security, Enterprise and Global IT, and IT Strategies and Solutions for Operations Managers. Pre- or Corequisite: OMTG 5003. Prerequisite: OMTG 4853 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5833. Decision Support Application Development for Operations Management. 3 Hours.

Students will utilize Microsoft Excel and will write programming code in Visual Basic for Applications to develop custom solutions to challenging operations management problems. Emphasis will be placed on computing productivity in a spreadsheet-based setting to develop practical, useful decision support applications and computer programs to support operations management. Assumes basic knowledge of programming. Pre- or Corequisite: OMTG 5003. Prerequisite: OMTG 4853 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5873. Organizing for Change. 3 Hours.

Provides an overview of fundamental management functions, organizational decision-making authority, structures and controls to support managing change. Topics include leadership, strategy and ethical perspectives on change management. Pre- or Corequisite: OMTG 5003. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5903. Operations Management of Unmanned Aircraft Systems. 3 Hours.

Course focuses on the fundamentals of UAS operations and the applications of UAS systems in research, government and business applications. Modules covers government compliance, licensing/certification requirements, University Policy and current events in the UAS field. Prepares students to participate in research or UAS operational roles. Discusses policy and process issues in society and considerations for ethical UAS use. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 5933. Cybersecurity for Operations Managers. 3 Hours.

The cybersecurity for operations managers course introduces strategic and tactical processes to implement the National Institute of Standards and Technology (NIST) Risk Management Framework (RMF). Additionally, the Body of Knowledge for the American Society of Industrial Security is applied to each process and procedure. Managers and Leaders responsible for cybersecurity, with or without an IT background, are provided a logical RMF to establish an effective cybersecurity program in their organization. (Typically offered: Fall, Spring and Summer)

OMGT 5983. Advanced Project Management. 3 Hours.

This course builds upon the project management for operations managers' course and offers students an opportunity to apply advanced project management tools to manage troubled projects. Topics include determining the project status using the schedule baseline, cost estimations, and earned value management techniques. Students will learn how to perform a project assessment/audit and will create a troubled project recovery plan. The course includes presentations of case study assignments to gain experience in communicating the status and recovery of failed and troubled projects. Prerequisite: OMTG 5783 and must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Fall, Spring and Summer)

OMGT 5993. Homeland Security for Operations Managers. 3 Hours.

Introduces concepts of Homeland Security in industry and government settings. Covers basic legal and compliance programs and risk management processes. Explains the continuity between critical infrastructure, government and private sector roles. Focuses on system design and understanding of the National Incident Management System protecting the homeland. Introduces cybersecurity and intelligence analysis concepts. Prerequisite: Must be admitted to the Master of Science in Operations Management Program, Project Management Graduate Certificate Program, be a Non-Degree Seeking Graduate Student, or have departmental consent. (Typically offered: Irregular)

OMGT 600V. Master's Thesis. 1-6 Hour.

Master's thesis option for OMTG students. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Philosophy (PHIL)

Courses

PHIL 1003. Critical Reasoning: Discovery, Deduction, and Intellectual Self-Defense. 3 Hours.

This is a practical, "hands-on" course in sound reasoning, critical thinking, and the careful evaluation of evidence and argument. The course will utilize a range of real-world sources (television, Internet, magazines, etc.) and will be informed in content and method by the psychology of human judgment. (Typically offered: Irregular)

PHIL 1503. Special Topics in Philosophy and Culture. 3 Hours.

Exploration of introductory-level special topics of an issue or issues in contemporary culture not otherwise covered in the philosophy curriculum. (Typically offered: Irregular)

PHIL 2003. Introduction to Philosophy (ACTS Equivalency = PHIL 1103). 3 Hours.

An examination of such basic philosophical topics as the existence of God, the nature of the human mind, the relationship between appearance and reality, the forms and limits of human knowledge, freedom of the will, and standards of right and wrong. Includes both historical and contemporary readings. (Typically offered: Fall, Spring and Summer)

PHIL 2003C. Introduction to Philosophy. 3 Hours.

An examination of such basic philosophical topics as the existence of God, the nature of the human mind, the relationship between appearance and reality, the forms and limits of human knowledge, freedom of the will, and standards of right and wrong. Includes both historical and contemporary readings. Corequisite: Drill component. (Typically offered: Fall and Spring)

This course is equivalent to PHIL 2003.

PHIL 2003H. Honors Introduction to Philosophy. 3 Hours.

An examination of such basic philosophical topics as the existence of God, the nature of the human mind, the relationship between appearance and reality, the forms and limits of human knowledge, freedom of the will, and standards of right and wrong. Includes both historical and contemporary readings. (Typically offered: Fall, Spring and Summer)

This course is equivalent to PHIL 2003.

PHIL 2103. Introduction to Ethics (ACTS Equivalency = PHIL 1003). 3 Hours.

Basic concepts of moral philosophy, including historical and contemporary literature concerned with such issues as ethical relativism vs. objectivism, duty, happiness, freedom of the will and responsibility, facts and values, individual liberty and society. Application of theories to substantive questions. (Typically offered: Fall, Spring and Summer)

PHIL 2103C. Introduction to Ethics (ACTS Equivalency = PHIL 1003). 3 Hours.

Basic concepts of moral philosophy, including historical and contemporary literature concerned with such issues as ethical relativism vs. objectivism, duty, happiness, freedom of the will and responsibility, facts and values, individual liberty and society. Application of theories to substantive questions. Corequisite: Drill component. (Typically offered: Irregular)

This course is equivalent to PHIL 2103.

PHIL 2203. Logic (ACTS Equivalency = PHIL 1003). 3 Hours.

Traditional and modern methods of deductive and inductive inference. (Typically offered: Fall, Spring and Summer)

PHIL 2303. Human Nature and the Meaning of Life. 3 Hours.

Examination of important views on human nature, the meaning of human existence, the value and significance of different human activities and projects, and on what philosophy, religion, art, and literature have to teach us on these topics. Reading may be drawn from a variety of philosophical, literary, and religious writings. (Typically offered: Irregular)

PHIL 2503. Philosophical Explorations. 3 Hours.

Explores topics in philosophy that are not currently covered in lower-level philosophy courses. (Typically offered: Irregular)

PHIL 3103. Ethics and the Professions. 3 Hours.

After a survey of the standard theories of moral obligation, justice, and rights, the course focuses on specific moral problems that arise within engineering, business, and the professions. (Typically offered: Fall, Spring and Summer)

PHIL 3113. Environmental Ethics. 3 Hours.

The course addresses ethical questions about nature and the natural environment. Topics of discussion include anthropocentric and biocentric ethics, population control, obligations to future generations, animal rights, moral considerability, Leopold's land ethic, deep ecology, and ecofeminism. (Typically offered: Irregular)

This course is cross-listed with ENSC 3933.

PHIL 3123. Bioethics. 3 Hours.

This course examines ethical dilemmas that arise in biological research, medical research, medical practice, and healthcare policy. Topics may include such things as abortion, assisted reproduction, cloning & genetic engineering, assisted suicide & voluntary euthanasia, organ donation, research ethics, patient autonomy, and healthcare policy. (Typically offered: Irregular)

PHIL 3203. Philosophy and the Christian Faith. 3 Hours.

This course will deal with philosophical issues that arise in Christian theology. Topics to be discussed may include the doctrines of the Incarnation, the Trinity, Atonement, and Hell, as well as the nature of God and the relationship between faith and reason. (Typically offered: Irregular)

PHIL 3443. Animal Minds. 3 Hours.

This course explores questions about thinking, consciousness, emotion, and communication in non-human animals; about the differences between human and non-human animals; and about implications for our treatment of animals. (Typically offered: Irregular)

PHIL 390V. Readings. 1-6 Hour.

Readings on topics of research interested or those not typically offered in regular classes, by arrangement with Professor. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

PHIL 3923H. Honors Colloquium. 3 Hours.

Treats a special topic of issue offered as part of the honors program. Prerequisite: honors candidacy (not restricted to candidacy in philosophy). (Typically offered: Irregular) May be repeated for degree credit.

This course is cross-listed with PHIL 3933.

PHIL 3933. Special Studies. 3 Hours.

A course (not independent study) which covers a topic or a philosopher not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for degree credit.

This course is cross-listed with PHIL 3923H.

PHIL 3943. Philosophy and Physics. 3 Hours.

Examination of the metaphysical and epistemological implications of specific physical theories with an emphasis on twentieth-century physics. Topics covered may include the nature of space and time (particularly as described in relativity theory), the nature of the quantum mechanical world, and the temporal asymmetries found in thermodynamics and other areas of physics. (Typically offered: Irregular)

PHIL 399VH. Honors Course. 1-6 Hour.

Honors course. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

PHIL 4003. Ancient Greek Philosophy. 3 Hours.

Pre-Socratics, Socrates, Plato, and Aristotle. Prerequisite: 3 hours of philosophy. (Typically offered: Fall)

PHIL 4013. Platonism and Origin of Christian Theology. 3 Hours.

The study of Plato, Middle Platonism, and Neoplatonism, including Philo, Plotinus, and Proclus, and the influence of Platonism on the Greek church fathers of the 2nd-5th centuries, principally Origen and Gregory of Nyssa and also Pseudo-Dionysius. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 4023. Medieval Philosophy. 3 Hours.

Includes Augustine, Bonaventure, Aquinas, Scotus, and Ockham. (Typically offered: Irregular)

PHIL 4033. Modern Philosophy-17th and 18th Centuries. 3 Hours.

British and Continental philosophy, including Bacon, Descartes, Spinoza, Leibniz, Hobbes, Locke, Berkeley, Hume, and Kant. (Typically offered: Spring)

PHIL 4043. Nineteenth Century Continental Philosophy. 3 Hours.

Study of major Continental European philosophers of the 19th century including Hegel, Marx, Kierkegaard, Schopenhauer, Nietzsche. Emphasis on the nature of persons, the question of freedom, and the importance of self-expression, as well as views on knowledge, reality, and the nature of philosophy. Prerequisite: 3 hours of Philosophy. (Typically offered: Irregular)

PHIL 4063. Twentieth Century Continental Philosophy. 3 Hours.

Study of major figures (e.g. Husserl, Heidegger, Sartre, Foucault, Derrida) and trends (phenomenology, existentialism, hermeneutics, critical theory, deconstruction) in 20th century French and German thought. Topics include human beings and their place in the world, the role of history and culture, and the possibility of critical reflection. (Typically offered: Irregular)

PHIL 4073. History of Analytic Philosophy. 3 Hours.

From Frege to recent figures, including Russell, Moore, Wittgenstein, Schlick, Carnap, Ayer, Ryle, Strawson, Quine, including a representative sample of works on the logical analysis of language, logical positivism, and ordinary language analysis. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 4093. Special Topics in Philosophy. 3 Hours.

This course will cover subject matter not covered in regularly offered courses. Course cannot be repeated when the topic is the same as one in which the student is previously enrolled. (Typically offered: Irregular) May be repeated for degree credit.

PHIL 4103. Modern Jewish Thought. 3 Hours.

A survey of the main trends in Jewish thought from the seventeenth through the nineteenth century. (Typically offered: Irregular)
This course is cross-listed with JWST 4003.

PHIL 4113. Social and Political Philosophy. 3 Hours.

Selected philosophical theories of society, the state, social justice, and their connections with individuals. (Typically offered: Irregular)

PHIL 4123. Classical Ethical Theory. 3 Hours.

Study of classical texts in the history of philosophical ethics from Plato to Nietzsche. Philosophers covered may include Plato, Aristotle, Butler, Hume, Kant, and Mill. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 4133. Contemporary Ethical Theory. 3 Hours.

A study of contemporary texts in philosophical ethics from G.E. Moore to the present. Philosophers covered may include Moore, Stevenson, Hare, Foot, and Rawls. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 4143. Philosophy of Law. 3 Hours.

A philosophical consideration of the nature of law, theory of adjudication, concepts of legal responsibility, liberty and the limits of law, and selected moral-legal issues (abortion, affirmative action, punishment, etc.). (Typically offered: Irregular)

PHIL 4183. Kant's Critique of Pure Reason. 3 Hours.

In his Critique of Pure Reason, one of the most important works in the history of philosophy, Kant describes how the mind works and claims to solve the major problems of metaphysics. The course is aimed at coming to a basic understanding of Kant's thought and at thinking critically about his claims. (Typically offered: Irregular)

PHIL 4203. Theory of Knowledge. 3 Hours.

An examination of skepticism, the nature and structures of knowledge and epistemic justification, human rationality, and the justification of religious belief. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 4213. Philosophy of Science. 3 Hours.

Examination of issues related to scientific explanation, empirical foundations of science, observation and objectivity, nature of laws and theories, realism and instrumentalism, induction and confirmation, models, causation, and simplicity, beginning with historical survey set in the context of the history of science but emphasizing works from the 1930s to the current period, often including issues in recent physics. (Typically offered: Irregular)

PHIL 4233. Philosophy of Language. 3 Hours.

A survey of mainstream philosophical theories of meaning, reference, truth, and logical form. Attention given to the views of such figures as Frege, Russell, Tarski, Searle, Dummett, and the advocates of possible world's semantics. (Typically offered: Irregular)

PHIL 4253. Symbolic Logic I. 3 Hours.

Rigorous analyses of the concepts of proof, consistency, equivalence, validity, implication, and truth. Full coverage of truth-functional logic and quantification theory (predicate calculus). Discussion of the nature and limits of mechanical procedures (algorithms) for proving theorems in logic and mathematics. Informal accounts of the basic facts about infinite sets. Prerequisite: PHIL 2203 or MATH 2603. (Typically offered: Fall)

This course is cross-listed with MATH 4253.

PHIL 4303. Philosophy of Religion. 3 Hours.

Types of religious belief and critical examination of their possible validity, including traditional arguments and contemporary questions of meaning. (Typically offered: Irregular)

PHIL 4313. Contemporary Jewish Thought. 3 Hours.

A survey of trends in Jewish thought in the twentieth and twenty-first centuries, focusing on the ways in which Jewish thinkers have responded to the events affecting Jews and the conditions of Jewish life from approximately 1900 to the present. (Typically offered: Irregular)

This course is cross-listed with JWST 4013.

PHIL 4403. Philosophy of Art. 3 Hours.

Varieties of truth and value in the arts and aesthetic experience, focusing on the creative process in the art and in other human activities. (Typically offered: Spring)

PHIL 4423. Philosophy of Mind. 3 Hours.

An examination of such topics such as the relationship between mind and body, the mentality of machines, knowledge of other minds, the nature of psychological explanation, the relationships between psychology and the other sciences, mental representation, the nature of the self, and free will and determinism. (Typically offered: Irregular)

PHIL 4603. Metaphysics. 3 Hours.

Theory and critical analysis of such basic metaphysical problems as mind and body, universals and particulars, space and time, determinism and free will, self-identity and individualism, with emphasis on contemporary perspectives. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 4983. Capstone Course for Philosophy Majors. 3 Hours.

An undergraduate seminar to be taken in the student's final spring semester. The content will vary with the instructor. The objective is for the student to sharpen his or her philosophical skills by, e.g., writing short papers, giving class presentations, and writing a substantial final essay. Prerequisite: 21 hours of philosophy. (Typically offered: Spring)

PHIL 5003. Ancient Greek Philosophy. 3 Hours.

(Formerly PHIL 4003.) Pre-Socratics, Socrates, Plato, and Aristotle. Graduate degree credit will not be given for both PHIL 4003 and PHIL 5003. Prerequisite: Three hours of philosophy coursework. (Typically offered: Fall)

PHIL 5013. Platonism and Origin of Christian Theology. 3 Hours.

(Formerly PHIL 4013.) The study of Plato, Middle Platonism, and Neoplatonism, including Philo, Plotinus, and Proclus, and the influence of Platonism on the Greek church fathers of the 2nd-5th centuries, principally Origen and Gregory of Nyssa and also Pseudo-Dionysius. Graduate degree credit will not be given for both PHIL 4013 and PHIL 5013. Prerequisite: Three hours of philosophy coursework. (Typically offered: Irregular)

PHIL 5023. Medieval Philosophy. 3 Hours.

(Formerly PHIL 4023.) Includes Augustine, Bonaventure, Aquinas, Scotus, and Ockham. Graduate degree credit will not be given for both PHIL 4023 and PHIL 5023. (Typically offered: Irregular)

PHIL 5033. Modern Philosophy-17th and 18th Centuries. 3 Hours.

(Formerly PHIL 4033.) British and Continental philosophy, including Bacon, Descartes, Spinoza, Leibniz, Hobbes, Locke, Berkeley, Hume, and Kant. Graduate degree credit will not be given for both PHIL 4033 and PHIL 5033. (Typically offered: Spring)

PHIL 5043. Nineteenth Century Continental Philosophy. 3 Hours.

(Formerly PHIL 4043.) Study of major Continental European philosophers of the 19th century including Hegel, Marx, Kierkegaard, Schopenhauer, Nietzsche. Emphasis on the nature of persons, the question of freedom, and the importance of self-expression, as well as views on knowledge, reality, and the nature of philosophy. Graduate degree credit will not be given for both PHIL 4043 and PHIL 5043. Prerequisite: 3 hours of Philosophy. (Typically offered: Irregular)

PHIL 5063. Twentieth Century Continental Philosophy. 3 Hours.

(Formerly PHIL 4063.) Study of major figures (e.g. Husserl, Heidegger, Sartre, Foucault, Derrida) and trends (phenomenology, existentialism, hermeneutics, critical theory, deconstruction) in 20th century French and German thought. Topics include human beings and their place in the world, the role of history and culture, and the possibility of critical reflection. Graduate degree credit will not be given for both PHIL 4063 and PHIL 5063. (Typically offered: Irregular)

PHIL 5073. History of Analytic Philosophy. 3 Hours.

(Formerly PHIL 4073.) From Frege to recent figures, including Russell, Moore, Wittgenstein, Schlick, Carnap, Ayer, Ryle, Strawson, Quine, including a representative sample of works on the logical analysis of language, logical positivism, and ordinary language analysis. Graduate degree credit will not be given for both PHIL 4073 and PHIL 5073. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 5093. Special Topics in Philosophy. 3 Hours.

(Formerly PHIL 4093.) This course will cover subject matter not covered in regularly offered courses. Graduate degree credit will not be given for both PHIL 4093 and PHIL 5093. Course cannot be repeated when topic is the same as one for which the student has been previously enrolled. (Typically offered: Irregular) May be repeated for degree credit.

PHIL 5103. Modern Jewish Thought. 3 Hours.

(Formerly PHIL 4103.) A survey of the main trends in Jewish thought from the seventeenth through the nineteenth century. Graduate degree credit will not be given for both PHIL 4103 and PHIL 5103. (Typically offered: Irregular)

PHIL 5113. Social and Political Philosophy. 3 Hours.

(Formerly PHIL 4113.) Selected philosophical theories of society, the state, social justice, and their connections with individuals. Graduate degree credit will not be given for both PHIL 4113 and PHIL 5113. (Typically offered: Irregular)

PHIL 5123. Classical Ethical Theory. 3 Hours.

(Formerly PHIL 4123.) Study of classical texts in the history of philosophical ethics from Plato to Nietzsche. Philosophers covered may include Plato, Aristotle, Butler, Hume, Kant, and Mill. Graduate degree credit will not be given for both PHIL 4123 and PHIL 5123. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 5133. Contemporary Ethical Theory. 3 Hours.

(Formerly PHIL 4133.) A study of contemporary texts in philosophical ethics from G.E. Moore to the present. Philosophers covered may include Moore, Stevenson, Hare, Foot, and Rawls. Graduate degree credit will not be given for both PHIL 4133 and PHIL 5133. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 5143. Philosophy of Law. 3 Hours.

(Formerly PHIL 4143.) A philosophical consideration of the nature of law, theory of adjudication, concepts of legal responsibility, liberty and the limits of law, and selected moral-legal issues (abortion, affirmative action, punishment, etc.). Graduate degree credit will not be given for both PHIL 4143 and PHIL 5143. (Typically offered: Irregular)

PHIL 5183. Kant's Critique of Pure Reason. 3 Hours.

(Formerly PHIL 4183.) In his Critique of Pure Reason, one of the most important works in the history of philosophy, Kant describes how the mind works and claims to solve the major problems of metaphysics. The course is aimed at coming to a basic understanding of Kant's thought and at thinking critically about his claims. Graduate degree credit will not be given for both PHIL 4183 and PHIL 5183. (Typically offered: Irregular)

PHIL 5203. Theory of Knowledge. 3 Hours.

(Formerly PHIL 4203.) An examination of skepticism, the nature and structures of knowledge and epistemic justification, human rationality, and the justification of religious belief. Graduate degree credit will not be given for both PHIL 4203 and PHIL 5203. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 5213. Philosophy of Science. 3 Hours.

(Formerly PHIL 4213.) Examination of issues related to scientific explanation, empirical foundations of science, observation and objectivity, nature of laws and theories, realism and instrumentalism, induction and confirmation, models, causation, and simplicity, beginning with historical survey set in the context of the history of science but emphasizing works from the 1930s to the current period, often including issues in recent physics. Graduate degree credit will not be given for both PHIL 4213 and PHIL 5213. (Typically offered: Irregular)

PHIL 5233. Philosophy of Language. 3 Hours.

(Formerly PHIL 4233.) A survey of mainstream philosophical theories of meaning, reference, truth, and logical form. Attention given to the views of such figures as Frege, Russell, Tarski, Searle, Dummett, and the advocates of possible world's semantics. Graduate degree credit will not be given for both PHIL 4233 and PHIL 5233. (Typically offered: Irregular)

PHIL 5253. Symbolic Logic I. 3 Hours.

(Formerly PHIL 4253.) Rigorous analyses of the concepts of proof, consistency, equivalence, validity, implication, and truth. Full coverage of truth-functional logic and quantification theory (predicate calculus). Discussion of the nature and limits of mechanical procedures (algorithms) for proving theorems in logic and mathematics. Informal accounts of the basic facts about infinite sets. Graduate degree credit will not be given for both PHIL 4253 and PHIL 5253. Prerequisite: PHIL 2203 or MATH 2603. (Typically offered: Fall)
This course is cross-listed with MATH 5263.

PHIL 5303. Philosophy of Religion. 3 Hours.

(Formerly PHIL 4303.) Types of religious belief and critical examination of their possible validity, including traditional arguments and contemporary questions of meaning. Graduate degree credit will not be given for both PHIL 4303 and PHIL 5303. (Typically offered: Irregular)

PHIL 5313. Contemporary Jewish Thought. 3 Hours.

(Formerly PHIL 4313.) A survey of trends in Jewish thought in the twentieth and twenty-first centuries, focusing on the ways in which Jewish thinkers have responded to the events affecting Jews and the conditions of Jewish life from approximately 1900 to the present. Graduate degree credit will not be given for both PHIL 4313 and PHIL 5313. (Typically offered: Irregular)

PHIL 5403. Philosophy of Art. 3 Hours.

(Formerly PHIL 4403.) Varieties of truth and value in the arts and aesthetic experience, focusing on the creative process in the art and in other human activities. Graduate degree credit will not be given for both PHIL 4403 and PHIL 5403. (Typically offered: Spring)

PHIL 5423. Philosophy of Mind. 3 Hours.

(Formerly PHIL 4423.) An examination of such topics such as the relationship between mind and body, the mentality of machines, knowledge of other minds, the nature of psychological explanation, the relationships between psychology and the other sciences, mental representation, the nature of the self, and free will and determinism. Graduate degree credit will not be given for both PHIL 4423 and PHIL 5423. (Typically offered: Irregular)

PHIL 5603. Metaphysics. 3 Hours.

(Formerly PHIL 4603.) Theory and critical analysis of such basic metaphysical problems as mind and body, universals and particulars, space and time, determinism and free will, self-identity and individualism, with emphasis on contemporary perspectives. Graduate degree credit will not be given for both PHIL 4603 and PHIL 5603. Prerequisite: 3 hours of philosophy. (Typically offered: Irregular)

PHIL 5823. Seminar: Spinoza. 3 Hours.

Seminar: Spinoza (Typically offered: Irregular)

PHIL 5883. Seminar: Wittgenstein. 3 Hours.

Seminar: Wittgenstein (Typically offered: Irregular)

PHIL 5933. Seminar: Philosophical Theology. 3 Hours.

Seminar: Philosophical Theology (Typically offered: Irregular)

PHIL 5983. Philosophical Seminar. 3 Hours.

Various topics and issues in historical and contemporary philosophy. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

PHIL 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PHIL 690V. Graduate Readings. 1-6 Hour.

Supervised individual readings in historical and contemporary philosophy. (Typically offered: Fall, Spring and Summer)

PHIL 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Physical Education (PHED) Courses

PHED 1003. The Physical Education Profession: An Overview. 3 Hours.

An introduction to the teaching of physical education. (Typically offered: Fall and Spring) May be repeated for degree credit.

PHED 2023. Sport Skills. 3 Hours.

This course is designed to prepare the student to teach sport skills, primarily those taught in grades 5-8. Prerequisite: PHED 1003. (Typically offered: Fall and Spring)

PHED 2373. Elementary Physical Education. 3 Hours.

Program planning and techniques of teaching physical education activities to children; for early childhood, elementary and physical education teachers, supervisors, and principals. Prerequisite: PHED 1003. (Typically offered: Fall and Spring)

PHED 3003. Outdoor Education. 3 Hours.

This course is designed to provide opportunities for the student to acquire the skills, teaching and leadership techniques associated with outdoor and adventure activities. Prerequisite: PHED 1003, junior standing, a cumulative grade point average of 2.5, and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education. (Typically offered: Fall)

PHED 3033. Educational Rhythms and Gymnastics. 3 Hours.

This course is designed to provide opportunities for the student to perform and teach a variety of rhythmical and gymnastic activities. Prerequisite: PHED 1003, junior standing, a cumulative grade point average of 2.5, and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education. (Typically offered: Spring)

PHED 3043. Teaching Fitness. 3 Hours.

Instructional strategies for teaching public school students about fitness concepts. Prerequisite: PHED 1003, junior standing, a cumulative grade point average of 2.5, and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education. (Typically offered: Spring)

PHED 3163. Exercise Physiology: Theory and Application. 3 Hours.

Examination of the changes during childhood and adolescence of physiological responses to exercise. The exploration includes the study of the maturation of the body's functional capacities as it relates to exercise. Designed for Physical Education Teacher Education majors. Prerequisite: BIOL 2443 and BIOL 2441L. (Typically offered: Fall and Spring)

PHED 3163H. Honors Exercise Physiology: Theory and Application. 3 Hours.

Examination of the changes during childhood and adolescence of physiological responses to exercise. The exploration includes the study of the maturation of the body's functional capacities as it relates to exercise. Designed for Physical Education Teacher Education majors. Prerequisite: BIOL 2443 and BIOL 2441L and P-12 or K-12 physical education major. Honors standing. (Typically offered: Fall and Summer)

This course is equivalent to PHED 3163.

PHED 3203. Principles and Problems of Coaching. 3 Hours.

A focus on the various aspects of coaching the athletes in contemporary society through an examination of research findings related to factors affecting performance. Attention to be given to principles, problems and understanding essential to the management of athletic contests. (Typically offered: Fall and Spring)

PHED 3223. Motor Development. 3 Hours.

An overview of contemporary motor development and movement theory, developmental hierarchies, and physiological aspects of development throughout the lifespan. (Typically offered: Fall and Spring)

PHED 3413. Administration in Physical Education. 3 Hours.

An examination of the administrative duties of the physical education teacher. (Typically offered: Spring)

PHED 3573. The School Health Program. 3 Hours.

Studies school health services, the health environment, and health education, as well as the teacher's potential role in each. Prerequisite: PBHL 1103. (Typically offered: Fall)

PHED 3623. Sport Sociology. 3 Hours.

An investigation of the impact of physical education and sport on society. (Typically offered: Spring)

PHED 3903. Physical Education for Special Populations. 3 Hours.

Provides fundamental concepts and skills essential to physical education programming for students with disabilities. Deals with definitions, disabling conditions, developmental and remedial activities, games, and sports. Prerequisite: Junior standing. (Typically offered: Fall)

PHED 3903H. Honors Physical Education for Special Populations. 3 Hours.

Provides fundamental concepts and skills essential to physical education programming for students with disabilities. Deals with definitions, disabling conditions, developmental and remedial activities, games, and sports. Prerequisite: Junior standing. (Typically offered: Fall)

PHED 4001. Coaching Practicum. 1 Hour.

Designed for students who want to add the Coaching Endorsement to the state teaching license. Student serves as a coaching assistant with a local school, University or recreational sports team. Students who serve as a coaching assistant with a local school must successfully complete a criminal background check prior to beginning coaching practicum. Prerequisite: PHED 3203 and proof of current First Aid/CPR/AED certification submitted to instructor of record. (Typically offered: Fall and Spring)

PHED 4023. Class Management. 3 Hours.

This course is designed to provide opportunities for the student to acquire an understanding that emphasizes class management; and includes professional ethics, and school policies related to students, faculty, and programs. Corequisite: PHED 407V and PHED 4733. Prerequisite: (1)Senior status in PHEDBS, (2)have a grade of "C" or better in all KINS/PHED Teacher Education classes: PHED 1003, PHED 2023, PHED 3033, PHED 3043, PHED 3203, PHED 2373, PHED 4703, PHED 4743, PHED 3903, PHED 432V, PHED 3003, PHED 3623 and PHED 3413 (3) must have a cumulative grade point average of 2.7; passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education; and the completed Praxis II content knowledge for Health and Physical Education exam with scores presented to the university internship supervisor by December 1st. (Typically offered: Spring) May be repeated for degree credit.

PHED 407V. Physical Education Teaching Internship. 1-9 Hour.

This internship involves supervised teaching experience in a P-12 setting. Students will be placed under the guidance of a mentor teacher at specific school sites within NW Arkansas. Internship will be done at both the elementary and secondary levels. Successful completion of a criminal background check is required before beginning internship. Corequisite: PHED 4023 and PHED 4733. Prerequisite: Senior status in PHEDBS, a grade of "C" or better in all KINS/PHED Teacher Education classes; PHED 1003, PHED 2023, PHED 3033, PHED 3043, PHED 3203, PHED 2373, PHED 4703, PHED 3743, PHED 3903, PHED 432V, PHED 3003, PHED 3623 and PHED 3413; a cumulative grade point average of 2.7 or greater; passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education; and the completed Praxis II content knowledge for Health and Physical Education exam with scores presented to the university internship supervisor by December 1st. In addition, current Certification in CPR/AED/First Aid should be provided to internship instructor of record. (Typically offered: Fall and Spring)

PHED 432V. Teaching Practicum. 1-2 Hour.

K-12 Kinesiology majors serve as a teaching assistant with a local school physical education teacher. This course should be taken the semester before PHED 407V Internship. Prerequisite: PHEDBS majors, 2.7 cumulative GPA, and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education. (Typically offered: Fall)

PHED 4703. Assessment in Physical Education. 3 Hours.

An examination of the assessment duties required of a physical education teacher. The use of authentic assessment and various grading strategies will be investigated. Prerequisite: PHED 1003, a cumulative grade point average of 2.7 or higher, and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education. (Typically offered: Fall)

PHED 4733. Senior Seminar. 3 Hours.

This capstone class will cover special topics for the Kinesiology P-12 students in preparation for entry into the profession. Resumes, cover letters, teaching philosophy, references, and interview preparation will be included. Students will also review contemporary issues relevant to the physical education teacher. Corequisite: PHED 4023 and PHED 4733. Prerequisite: Senior status in PHEDBS, a grade of "C" or better in all KINS/PHED Teacher Education classes: PHED 1003, PHED 2023, PHED 3033, PHED 3043, PHED 3203, PHED 2373, PHED 4703, PHED 3743, PHED 3903, PHED 432V, PHED 3003, PHED 3623 and PHED 3413; a cumulative grade point average of 2.7 or greater; and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education; and the completed Praxis II content knowledge for Health and Physical Education exam with scores presented to the university internship supervisor by December 1st. (Typically offered: Spring)

PHED 4743. Secondary Physical Education. 3 Hours.

Strategies and curriculum for physical education, grades 7-12. Prerequisite: PHED 1003, a cumulative grade point average of 2.7, and passing scores on approved standardized assessments as listed by the COEHP Office of Teacher Education. (Typically offered: Fall)

PHED 480V. Workshop. 3-6 Hour.

Physical education workshop. Prerequisite: Instructor consent. (Typically offered: Summer)

PHED 5243. Sport Skill Assessment and Instructional Strategies. 3 Hours.

The focus of this course is practical assessment techniques and instructional strategies in the area of sport and physical education activities. (Typically offered: Summer Odd Years)

PHED 5253. The Physical Education Curriculum. 3 Hours.

Principles, problems, procedures, and the influence of educational philosophy on programs in physical education and their application in the construction of a course of study for a specific situation. (Typically offered: Fall Even Years)

PHED 5273. Professional Issues in Physical Education and Sport. 3 Hours.

A review of contemporary research literature informing effective teaching practices in physical education settings. Students gain experience in critically reviewing literature and discussing current issues. (Typically offered: Fall Even Years)

PHED 5313. Risk Management in Physical Education & Athletics. 3 Hours.

This course is designed to provide opportunities for the student to acquire an understanding of how to reduce the risk of injuries and eliminate hazards that may contribute to injuries associated with physical education and athletics. (Typically offered: Summer Even Years)

PHED 5553. Scientific Principles of Movement and Performance. 3 Hours.

This course focuses on theoretical information about sport biomechanics and movement principles, with practical applications to the physical education of coaching profession. (Typically offered: Summer Odd Years)

PHED 5643. Motor Learning. 3 Hours.

Concepts of motor learning and control are presented. Attention is given to an analysis of the literature in movement control, motor behavior, and motor learning. (Typically offered: Fall and Spring)

PHED 5753. Sport Psychology. 3 Hours.

Investigation of historical and contemporary research in sport psychology. (Typically offered: Fall and Summer)

PHED 5803. Measurement Concepts for K-12 Physical Education Teachers. 3 Hours.

This course focuses on techniques that physical education teachers can use to monitor student progress in a K-12 environment. (Typically offered: Summer)

PHED 6363. Supervision in Physical Education. 3 Hours.

The focus of this course is instructional supervision as a set of complex processes in which the supervisor works within accepted guidelines and functions to effectively supervise a teacher's pedagogical development. The Physical Education Instructional Supervision (PEIS) Model will be used to help facilitate this process. (Typically offered: Fall Odd Years)

PHED 6723. Project Implementation and Data Analysis. 3 Hours.

This course is designed to expose students to the rigors of research and will be the culminating experience of their degree program. The students will spend the majority of time developing a research topic. The research topic will be expanded into a complete research study in which the student will seek approval from the University of Arkansas IRB committee to conduct the study and then collect data. The data will be analyzed and presented at the conclusion of the class. (Typically offered: Spring and Summer)

Physical Education Activity (PEAC) Courses

PEAC 1131. Beginning Swimming. 1 Hour.

Includes: essentials of water safety; basic strokes and techniques of swimming; and beginning diving. (Typically offered: Irregular)

PEAC 1221. Beginning Jogging. 1 Hour.

Instruction and participation in jogging. (Typically offered: Irregular)

PEAC 1251. Beginning Racquetball. 1 Hour.

Instruction and participation in racquetball. (Typically offered: Irregular)

PEAC 1351. Beginning Golf. 1 Hour.

Instruction and participation in golf. (Typically offered: Irregular)

PEAC 1391. Fitness Walking. 1 Hour.

Instruction and participation in vigorous walking for cardiovascular development and improvement. (Typically offered: Irregular)

PEAC 1431. Beginning Tennis. 1 Hour.

Instruction and participation in tennis. (Typically offered: Irregular)

PEAC 1471. Beginning Badminton. 1 Hour.

Instruction and participation in badminton. (Typically offered: Irregular)

PEAC 1621. Fitness Concepts. 1 Hour.

Acquaints students with a basic knowledge, understanding, and value of physical activity as related to optimal wellness. (Typically offered: Irregular)

PEAC 1661. Weight Training. 1 Hour.

Instruction and participation in weight training. (Typically offered: Irregular) May be repeated for degree credit.

PEAC 1801. Aerobic Dance I. 1 Hour.

The fundamentals of aerobic dance as a physical fitness program. (Typically offered: Irregular)

PEAC 1831. Beginning Scuba Diving. 1 Hour.

Instruction and participation in scuba diving. Successful completion of this course completes 2 out of the 3 parts needed for open water certification. No open water dives are included in the course, thus students will not be fully certified upon completion of this course. Corequisite: Drill component. (Typically offered: Fall and Spring)

PEAC 1901. Special Topics. 1 Hour.

Instruction and participation in specialized activity. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

Physics (PHYS) Courses

PHYS 100V. Projects. 1-2 Hour.

Independent study in experimental or theoretical physics for lower division undergraduate students. (Typically offered: Irregular) May be repeated for up to 2 hours of degree credit.

PHYS 1021L. Physics and Human Affairs Laboratory. 1 Hour.

Laboratory 2 hours per week. Pre- or Corequisite: PHYS 1023. (Typically offered: Fall, Spring and Summer)

PHYS 1021M. Honors Physics and Human Affairs Laboratory. 1 Hour.

Laboratory 2 hours per week. Pre- or Corequisite: PHYS 1023H. (Typically offered: Fall, Spring and Summer)

This course is equivalent to PHYS 1021L.

PHYS 1023. Physics and Human Affairs. 3 Hours.

The great ideas of physics, together with their philosophical and social impact. Scientific topics include cosmology, relativity, quantum mechanics. Philosophical and social topics include methods and values of science, problems related to energy sources, and implications of modern weapons. Non-mathematical. Designed for non-science majors. Along with PHYS 1021L, can be used to satisfy a 4-year physical science requirement for a B.A. degree. Students who have received credit in PHYS 2013 and PHYS 2033, or PHYS 2054 and PHYS 2074 cannot also receive degree credit in this course. Corequisite: PHYS 1021L. (Typically offered: Fall, Spring and Summer)

PHYS 1023H. Honors Physics and Human Affairs. 3 Hours.

The great ideas of physics, together with their philosophical and social impact. Scientific topics include cosmology, relativity, quantum mechanics. Philosophical and social topics include methods and values of science, problems related to energy sources, and implications of modern weapons. Non-mathematical. Designed for non-science majors. Along with PHYS 1021L, can be used to satisfy a 4-year physical science requirement for a B.A. degree. Students who have received credit in PHYS 2013 and PHYS 2033, or PHYS 2054 and PHYS 2074 cannot also receive degree credit in this course. Corequisite: PHYS 1021M. (Typically offered: Fall, Spring and Summer)

This course is equivalent to PHYS 1023.

PHYS 1034. Physics for Elementary Education Majors. 4 Hours.

For elementary education majors. Physical science concepts based on state frameworks are explored in a mixed lecture/lab environment. The inquiry-based lab activities can be transferable for school classroom use. Topics covered include: scientific inquiry, motion and forces, conservation of energy, heat, light, electricity and simple circuits, and magnetism. Prerequisite: Elementary education major. Corequisite: Lab component. (Typically offered: Spring)

PHYS 1044. Physics for Architects I. 4 Hours.

The relation between the principles of physics and the practice of building and operating structures. Topics include: The behavior of structures under various loads, the statics and dynamics of fluids, thermal storage, thermal expansion, the greenhouse effect, heat transfer, refrigeration, the energy problem, efficiency in the operation of buildings. One underlying theme is that the self-sufficiency of a building is an important part of architecture. Lecture 3 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: Major in architecture or interior design or agricultural education communication & technology. (Typically offered: Fall)

PHYS 1054. Physics for Architects II. 4 Hours.

Acoustics, electricity and magnetism, light, and environmental physics. Topics include resonance, acoustical isolation, interference, reverberation time, electrical circuitry with emphasis on power and efficiency, electrical storage, light sources, reflection, refraction, absorption, transmission, color, astronomy (to give perspective to the use of sunlight in architecture), heat, noise, and radioactivity pollution. Lecture 3 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: PHYS 1044. (Typically offered: Spring)

PHYS 2011L. College Physics I Laboratory (ACTS Equivalency = PHYS 2014 Lab). 1 Hour.

Laboratory 2 hours per week. Corequisite: PHYS 2013. (Typically offered: Fall and Summer)

PHYS 2013. College Physics I (ACTS Equivalency = PHYS 2014 Lecture). 3 Hours.

A non-calculus survey of the principles of physics including mechanics, heat and sound. Lecture 3 hours per week and drill 1 hour per week. Corequisite: Drill component and PHYS 2011L. Prerequisite: (MATH 1203 and MATH 1213) or (MATH 1284C or MATH 2554) or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT, or 620 on the math component of the new SAT. (Typically offered: Fall and Summer)

PHYS 2031L. College Physics II Laboratory (ACTS Equivalency = PHYS 2024 Lab). 1 Hour.

Laboratory 2 hours per week. Corequisite: PHYS 2033. (Typically offered: Summer)

PHYS 2033. College Physics II (ACTS Equivalency = PHYS 2024 Lecture). 3 Hours.

Continuation of PHYS 2013. Topics include electricity and magnetism, light, relativity, quantum mechanics, atomic and nuclear structure. Lecture 3 hours, drill 1 hour per week. Corequisite: Drill component and PHYS 2031L. Prerequisite: PHYS 2013 or PHYS 2054. (Typically offered: Spring and Summer)

PHYS 2054. University Physics I (ACTS Equivalency = PHYS 2034). 4 Hours.

Introduction to the principles of mechanics, wave motion, temperature and heat, with calculus. Lecture three hours per week and practicum two hours a week (included in lab component). Pre- or Corequisite: MATH 2554. Corequisite: Lab component. (Typically offered: Fall, Spring and Summer)

PHYS 2054H. Honors University Physics I. 4 Hours.

Introduction to the principles of mechanics, wave motion, temperature and heat, with calculus. Lecture three hours per week and practicum two hours a week (included in lab component). Pre- or Corequisite: MATH 2554. Corequisite: Lab component. (Typically offered: Fall, Spring and Summer)

This course is equivalent to PHYS 2054.

PHYS 2074. University Physics II (ACTS Equivalency = PHYS 2044 Lecture). 4 Hours.

Continuation of PHYS 2054. Topics covered include electricity, magnetism, light and geometric optics. Lecture three hours per week and practicum two hours per week. Pre- or Corequisite: MATH 2564. Corequisite: Lab component. Prerequisite: PHYS 2054. (Typically offered: Fall, Spring and Summer)

PHYS 2074H. Honors University Physics II. 4 Hours.

Continuation of PHYS 2054H. Topics covered include electricity, magnetism, light and geometric optics. Lecture three hours per week and practicum two hours per week. Pre- or Corequisite: MATH 2564. Corequisite: Lab component. Prerequisite: PHYS 2054 or PHYS 2054H. (Typically offered: Spring)

This course is equivalent to PHYS 2074.

PHYS 2094. University Physics III. 4 Hours.

A continuation of PHYS 2054 and PHYS 2074. Topics include waves, physical optics, thermodynamics, kinetic theory, and an introduction to quantum mechanics. Lecture 3 hours per week and practicum 2 hours per week (included in lab component). Pre- or Corequisite: MATH 2574. Corequisite: Lab component. Prerequisite: PHYS 2074. (Typically offered: Fall)

PHYS 306V. Projects. 1-3 Hour.

Individual experimental or theoretical research problems for advanced undergraduates. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

PHYS 3113. Analytical Mechanics. 3 Hours.

Newton's laws of motion applied to particles, systems of particles, and rigid bodies. Introduction to Hamilton's and Lagrange's equations. Pre- or Corequisite: MATH 2584. (Typically offered: Fall)

PHYS 3213. Electronics in Experimental Physics. 3 Hours.

DC & AC electronics, semiconductors, operational amplifiers, and digital logic circuits with lab applications in experimental physics. Corequisite: Lab component. Prerequisite: PHYS 2094 or instructor consent. (Typically offered: Spring Odd Years)

PHYS 3273. UAteach Research Methods. 3 Hours.

A project-based course for prospective science and mathematics teachers utilizing scientific research methods and inquiry to solve research problems. Corequisite: Drill component. Prerequisite: ARSC 1201 and ARSC 1221. (Typically offered: Spring)

This course is cross-listed with CHEM 3273, BIOL 3273.

PHYS 3273H. Honors UAteach Research Methods. 3 Hours.

A project-based course for prospective science and mathematics teachers utilizing scientific research methods and inquiry to solve research problems. Prerequisite: ARSC 1201 and ARSC 1221, junior standing and honors. (Typically offered: Spring)

This course is cross-listed with PHYS 3273, CHEM 3273, BIOL 3273.

PHYS 3453. Electromagnetic Theory I. 3 Hours.

Basics of Electromagnetic Theory, focusing on statics and introducing Maxwell's equations. Topics covered are: vector calculus and the solution of partial differential equations by separation of variables, electrostatics, dielectric media, electric currents, magnetic fields, magnetic properties of matter, electromagnetic induction, force and energy in electrodynamics, and Maxwell's equations. (Typically offered: Spring)

PHYS 3463. Electromagnetic Theory II. 3 Hours.

Basics of Electromagnetic Theory, focusing on dynamical aspects. Topics to be covered include: Time-varying electric and magnetic fields including propagation of electromagnetic plane waves in vacuum and in matter, reflection, refraction, and guided wave propagation, radiation from point charges and dipoles, and relativity and the relativistic formulation of electrodynamics. (Typically offered: Fall)

PHYS 3544. Optics. 4 Hours.

Elements of geometrical, physical, and quantum optics. Lecture 3 hours, laboratory 2 hours. Corequisite: Lab component. Prerequisite: PHYS 2074 and MATH 2564. (Typically offered: Fall)

PHYS 3603. Introduction to Modern Physics. 3 Hours.

An introduction to the basic ideas of 20th century physics, with an emphasis on those that form the foundations of modern technology: quantum theory and its application to atomic, nuclear, optical and condensed matter physics. No credit is given toward a B.S. degree in physics. Prerequisite: PHYS 2033 and MATH 2043 or MATH 2554. (Typically offered: Fall)

PHYS 360VL. Modern Physics Laboratory. 1-3 Hour.

Experiments illustrating the development and concepts of modern physics. No credit given toward a B.S. major in physics. Prerequisite: PHYS 3603. (Typically offered: Fall)

PHYS 3613. Modern Physics. 3 Hours.

Introduction to special relativity, statistical physics, quantum physics, and a survey of molecules, solids, and statistical physics. Prerequisite: PHYS 2074. (Typically offered: Fall, Spring and Summer)

PHYS 361VL. Modern Physics Laboratory. 1-3 Hour.

Advanced experiments, projects, and techniques in atomic, nuclear, and solid state physics. Pre- or corequisite: PHYS 3613. (Typically offered: Fall) May be repeated for up to 3 hours of degree credit.

PHYS 3923H. Honors Colloquium. 3 Hours.

Covers a special topic or issue, offered as part of the honors program. No more than 3 hours may be offered toward fulfillment of the requirements for the B.S. or B.A. degree in Physics. Prerequisite: Honors candidacy (not restricted to candidacy in physics). (Typically offered: Spring) May be repeated for degree credit.

PHYS 399VH. Honors. 1-6 Hour.

Independent study for physics students enrolled in the honors program. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PHYS 400V. Laboratory and Classroom Practices in Physics. 1-3 Hour.

The pedagogy of curricular materials. Laboratory and demonstration techniques illustrating fundamental concepts acquired through participation in the classroom as an apprentice teacher. Prerequisite: PHYS 3113. (Typically offered: Fall, Spring and Summer)

PHYS 4073. Introduction to Quantum Mechanics. 3 Hours.

A survey of quantum mechanics from the wave mechanical point of view including the application of quantum mechanics to the simple harmonic oscillator, angular momentum, and the hydrogen atom. Required course for B.S. Physics majors. Prerequisite: PHYS 3613, MATH 2574, and MATH 2584. (Typically offered: Fall)

PHYS 4083. Advanced Quantum Mechanics. 3 Hours.

Advanced topics in introductory quantum mechanics including identical particles, approximation methods; time-independent perturbations theory, variational principle, time-dependent perturbations theory, and scattering. Prerequisite: PHYS 4073, MATH 2574, and MATH 2584. (Typically offered: Spring)

PHYS 4103. Physics in Perspective. 3 Hours.

Human implications of physics, including life's place in the universe, the methods of science, human sense perceptions, energy utilization, social impacts of technology, and the effect of physics on modern world views. No credit given toward a B.S. major in Physics. Prerequisite: PHYS 3603 or PHYS 3613. (Typically offered: Irregular)

PHYS 4113. Physics in Perspective. 3 Hours.

Human implications of physics, including life's place in the universe, the methods of science, human sense perceptions, energy utilization, social impacts of technology, and the effect of physics on modern world views. Credit allowed for only one of PHYS 4113 or PHYS 4103. Prerequisite: PHYS 3613. (Typically offered: Irregular)

PHYS 4203. Physics of Devices. 3 Hours.

Principles of physics applied in a selection of technologically important devices in areas including computing, communications, medical imaging, lasers, and energy utilization. Students will utilize technical journals. No credit given toward a B.S. major in Physics. Prerequisite: PHYS 3603 or PHYS 3613. (Typically offered: Irregular)

PHYS 4213. Physics of Devices. 3 Hours.

Principles of physics applied in a selection of technologically important devices in areas including computing, communications, medical imaging, lasers, and energy utilization. Students will utilize technical journals. Credit allowed for only one of PHYS 4203 or PHYS 4213. Prerequisite: PHYS 3613. (Typically offered: Irregular)

PHYS 4333. Thermal Physics. 3 Hours.

Equilibrium thermodynamics, statistical physics, and kinetic energy. Prerequisite: PHYS 3613. (Typically offered: Spring)

PHYS 4613. Introduction to Biophysics and Biophysical Techniques. 3 Hours.

Origins of biophysics, biological polymers and polymer physics, properties of DNA and proteins, techniques to study DNA and proteins, biological membrane and ion channels, biological energy, experimental techniques to study single DNA and proteins. Two experiments are included: (1) DNA Gel electrophoresis; (2) Measurement of double-stranded DNA melting point. Prerequisite: PHYS 3613 and PHYS 4333, or consent. (Typically offered: Spring)

PHYS 4653. Subatomic Physics. 3 Hours.

Nuclear structure and nuclear reactions. Nature and properties of elementary particles and resonances, their interactions and decays. Phenomenological theory and discussion of experimental evidence. Prerequisite: PHYS 3613. (Typically offered: Fall Odd Years)

PHYS 4713. Solid State Physics. 3 Hours.

Crystal structure, diffraction and symmetry. Lattice vibrations, elasticity and optical properties. Electronic structure, band theory, transport and magnetism. Course emphasizes applications and current topics in semiconductors, optics and magnetism. Pre- or Corequisite: PHYS 4073. (Typically offered: Spring Even Years)

PHYS 4734. Introduction to Laser Physics. 4 Hours.

A combined lecture/laboratory course covering the theory of laser operation, laser resonators, propagation of laser beams, specific lasers such as gas, solid state, semiconductor and chemical lasers, and laser applications. Prerequisite: PHYS 3544. (Typically offered: Spring)

PHYS 4773. Introduction to Optical Properties of Materials. 3 Hours.

A course covering crystal symmetry optical transmission and absorption, light scattering (Raman and Brillouin) optical constants, carrier mobility, and polarization effects in semi-conductors, quantum wells, insulators, and other optically important materials. Prerequisite: PHYS 3544. (Typically offered: Spring)

PHYS 4793L. Nanotechnology Laboratory. 3 Hours.

Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564, PHYS 2074, and CHEM 1123. (Typically offered: Fall)
This course is cross-listed with MEEG 4323L, CHEM 4153L.

PHYS 4793M. Honors Nanotechnology Laboratory. 3 Hours.

Provides students with hands-on experience in several major areas of nanotechnology, including nanoscale imaging, synthesis of nanomaterials, nanostructure assembly and manipulation, device and system integration, and performance evaluation. Students can earn credit for only one of the following courses: MEEG 4323L, BENG 4753L, BMEG 4103L, CHEM 4153L, PHYS 4793L. Corequisite: Drill component, junior standing and instructor consent. Prerequisite: MATH 2564, PHYS 2074, and CHEM 1123. (Typically offered: Fall)
This course is cross-listed with MEEG 4323L, CHEM 4153L, PHYS 4793L.

PHYS 4803. Mathematical Physics. 3 Hours.

Development of mathematics used in advanced physics, including tensors, matrices, group theory, special functions and operators. Prerequisite: MATH 2584. (Typically offered: Irregular)

PHYS 498V. Senior Thesis. 1-6 Hour.

Senior Thesis. (Typically offered: Fall, Spring and Summer)

PHYS 4991. Physics Senior Seminar. 1 Hour.

Student mastery of the principles of physics are assessed by means of research paper writing and an examination chosen by the faculty. The research paper may be used to satisfy the Fulbright College writing requirement. (Required of all B.S. and B.A. physics majors in their last year.) (Typically offered: Fall, Spring and Summer)

PHYS 500V. Laboratory and Classroom Practices in Physics. 1-3 Hour.

The pedagogy of curricular materials. Laboratory and demonstration techniques illustrating fundamental concepts acquired through participation in the classroom as an apprentice teacher. (Typically offered: Fall) May be repeated for up to 3 hours of degree credit.

PHYS 5011. Introduction to Current Physics Research Seminar. 1 Hour.

This seminar course introduces new Physics graduate students to the faculty of the Physics department and their current research efforts. In addition, the students will be introduced to scientific ethics, and learn communication skills. (Typically offered: Fall)

PHYS 502V. Individual Study in Advanced Physics. 1-4 Hour.

Guided study in current literature. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

PHYS 5041. Journal Club Seminar. 1 Hour.

In this seminar, the students will present talks based on published research articles. The goal of the course is to develop oral communication skills in the students. Effective literature search techniques will also be covered. (Typically offered: Spring)

PHYS 5073. Mathematical Methods for Physics. 3 Hours.

This course merges the mathematics required in classical mechanics, electrostatics, magnetostatics, and quantum mechanics into a single course. The goal is to develop physics problem-solving skills, a strong mathematical foundation, and a more unified picture of physics. (Typically offered: Fall)

PHYS 5083. Mathematical Methods of Physics II. 3 Hours.

Applications of matrices, tensors, and linear vector spaces to problems in physics. Introduction to groups and their representations, and symmetry principles in modern physics. Prerequisite: PHYS 5073. (Typically offered: Irregular)

PHYS 5093. Applications of Group Theory to Physics. 3 Hours.

Application of group theory to topics in physics, especially to atomic/molecular and solid-state physics. Prerequisite: PHYS 5073. (Typically offered: Irregular)

PHYS 5103. Advanced Mechanics. 3 Hours.

Dynamics of particles and rigid bodies. Hamilton's equations and canonical variables. Canonical transformations. Small oscillations. Prerequisite: PHYS 5073. (Typically offered: Fall)

PHYS 5111. Research Techniques Through Laboratory Rotations. 1 Hour.

Graduate students will be introduced to detailed operational aspects of two Physics research laboratories through extensive observation of those laboratory's operations during a six week rotation through each lab. Planning for starting a research project in the summer will take place in the final three week rotation period. (Typically offered: Spring)

PHYS 5213. Statistical Mechanics. 3 Hours.

Classical and quantum mechanical statistical theories of matter and radiation. Prerequisite: PHYS 5413. (Typically offered: Spring)

PHYS 5263L. Experiment and Data Analysis. 3 Hours.

This course is devoted to learning some of the frequently used experimental techniques and methods by which experimental data are analyzed to extract quantitative information on physical parameters. Students will perform experiments, analyze data, and write lab reports. Pre- or Corequisite: PHYS 5423. Prerequisite: Graduate standing or instructor consent. (Typically offered: Fall)

PHYS 5313. Advanced Electromagnetic Theory I. 3 Hours.

Electrostatics, boundary-value problems in electrostatics, electrostatics in a medium, magnetostatics, and Faraday's Law. (Typically offered: Spring)

PHYS 5323. Advanced Electromagnetic Theory II. 3 Hours.

Maxwell equations, conservation laws, wave propagation, waveguides, radiating systems, scattering, special relativity, and radiation by moving charges. (Typically offered: Fall)

PHYS 5363. Scientific Computation and Numerical Methods. 3 Hours.

An introduction to numerical methods used in solving various problems in engineering and the sciences. May not earn credit for this course and MATH 4353 or MATH 4363. (Typically offered: Fall Even Years)
This course is cross-listed with MATH 5363.

PHYS 5413. Quantum Mechanics I. 3 Hours.

Non-relativistic quantum mechanics; the Schrodinger equation; the Heisenberg matrix representation; operator formalism; transformation theory; spinors and Pauli theory; the Dirac equation; applications to atoms and molecules; collision theory; and semiclassical theory of radiation. (Typically offered: Fall)

PHYS 5423. Quantum Mechanics II. 3 Hours.

Continuation of PHYS 5413 Prerequisite: PHYS 5413. (Typically offered: Spring)

PHYS 5513. Atomic and Molecular Physics. 3 Hours.

Survey of atomic and molecular physics with emphasis on the electronic structure and spectroscopy of 1 and 2 electron atoms and diatomic molecules. Includes fine and hyperfine structure, Zeeman and Stark mixing of states, collision phenomena, radiative lifetimes, and experimental techniques. Prerequisite: PHYS 5413. (Typically offered: Irregular)

PHYS 5523. Theory of Relativity. 3 Hours.

Conceptual and mathematical structure of the special and general theories of relativity with selected applications. Critical analysis of Newtonian mechanics; relativistic mechanics and electrodynamics; tensor analysis; continuous media; and gravitational theory. (Typically offered: Fall Even Years)

PHYS 5613. Introduction to Biophysics and Biophysical Techniques. 3 Hours.

Origins of biophysics, biological polymers and polymer physics, properties of DNA and proteins, techniques to study DNA and proteins, biological membrane and ion channels, biological energy, experimental techniques to study single DNA and proteins. Two experiments are included: (1) DNA Gel electrophoresis; (2) Measurement of double-stranded DNA melting point. (Typically offered: Spring)

PHYS 5653. Subatomic Physics. 3 Hours.

Nuclear structure and nuclear reactions. Nature and properties of elementary particles and resonances, their interactions and decays. Phenomenological theory and discussion of experimental evidence. (Typically offered: Fall Odd Years)

PHYS 5713. Condensed Matter Physics I. 3 Hours.

The course covers the Drude theory and the Sommerfeld theory of metals, crystal lattices, reciprocal lattices, X-ray diffraction, Bloch's theory of electrons in periodic potential, formation of band gap, lattice vibration, and cohesive energy in solids. Prerequisite: PHYS 5413. (Typically offered: Fall)

PHYS 5723. Physics at the Nanoscale. 3 Hours.

This is a cross-disciplinary course that is focused on teaching nanoscience and engineering by studying surface science, the building and analysis of quantum-confined structures, and related nano manufacturing processes. Students will achieve an integrated knowledge of the concepts of surface science, quantum mechanics, nano processing and manipulation, and techniques of materials research. (Typically offered: Irregular)

PHYS 5734. Laser Physics. 4 Hours.

A combined lecture/laboratory course covering the theory of laser operation, laser resonators, propagation of laser beams, specific lasers such as gas, solid state, semiconductor and chemical lasers, and laser applications. (Typically offered: Spring Odd Years)

PHYS 5753. Applied Nonlinear Optics. 3 Hours.

Topics include: practical optical processes, such as electro-optic effects, acousto-optic effects, narrow-band optical filters, second harmonic generation, parametric amplification and oscillation, and other types of nonlinear optical spectroscopy techniques which are finding current practical applications in industry. (Typically offered: Irregular)

PHYS 5763. Experimental Methods for Nanoscience. 3 Hours.

Fundamentals of the selected techniques suitable for characterization on the nanoscale. Focus on diverse methods such as x-ray and neutron spectroscopy, scanning probe microscopies, optical methods, electron diffraction methods and more. (Typically offered: Irregular)

PHYS 5773. Introduction to Optical Properties of Materials. 3 Hours.

This course covers crystal symmetry optical transmission and absorption, light scattering (Raman and Brillouin) optical constants, carrier mobility, and polarization effects in semi-conductors, quantum wells, insulators, and other optically important materials. (Typically offered: Spring Even Years)

PHYS 5783. Physics of 2D Materials. 3 Hours.

Introduction to the structures of all known layered materials, followed by mechanical, electronic, spin, optical, and topological properties of two-dimensional materials. Discussion of theoretical concepts and examination of experimental manifestations of those concepts are interwoven throughout the semester. Knowledge of solid state physics is required. Pre- or Corequisite: PHYS 5413. (Typically offered: Fall Odd Years)

PHYS 588V. Selected Topics in Physics. 1-3 Hour.

Selected topics in experimental or theoretical physics at the advanced level. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

PHYS 600V. Master of Science Thesis. 1-6 Hour.

Master of Science Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PHYS 6413. Quantum Mechanics III. 3 Hours.

Relativistic quantum mechanics, second quantization, with applications to quantizing electromagnetic fields and to many-body theory. Introduction to Feynman diagrams. Prerequisite: PHYS 5423. (Typically offered: Irregular)

PHYS 6513. Theoretical Biophysics. 3 Hours.

Introduction to biology as a complex system, networks and information theory, negative and positive feedback systems, gene regulation, noise, and noise propagation, cell signaling pathways, intercellular interactions, and emergence of cooperativity in biological systems. Prerequisite: PHYS 5613. (Typically offered: Fall Even Years)

PHYS 6613. Quantum Optics. 3 Hours.

Properties of light and its interaction with atoms, particular attention given to the laser and recent experiments. Classical theory of resonance; Optical Bloch Eqs.; 2 level atoms in steady fields; pulse propagation; semiclassical theory of the laser, coherent states and coherent functions; gas, solid, and dye lasers; photon echoes and superradiance; quantum electrodynamics and spontaneous emission. Prerequisite: PHYS 5413 or equivalent. (Typically offered: Irregular)

PHYS 6713. Condensed Matter Physics II. 3 Hours.

The course covers surface physics, physics of homogeneous and inhomogeneous semiconductors, dielectric and ferroelectric physics, defects in crystals, spin interaction and magnetic properties, superconductivity, and band structure calculation. Prerequisite: PHYS 5713 and PHYS 5413. (Typically offered: Spring Even Years)

PHYS 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Plant Pathology (PLPA) Courses

PLPA 3004. Principles of Plant Pathology. 4 Hours.

Examination of the causes and symptoms of plant disease and the genetics of plant disease. Physiology, and ecology of host-pathogen interactions. Spread of disease and principles of disease control. Corequisite: Lab component. (Typically offered: Fall)

This course is cross-listed with BIOL 3004.

PLPA 400V. Research. 1-6 Hour.

Original investigations of assigned problems in plant pathology. Prerequisite: PLPA 3004. (Typically offered: Fall, Spring and Summer)

PLPA 4123. Bacterial Lifestyles. 3 Hours.

The course will introduce students to bacteria as prokaryotic organisms, different from eukaryotes such as plants and animals. Model microbial systems will be studied in more detail to identify unique strategies that bacteria employ to thrive in their respective environment, whether they are causing diseases or establishing beneficial interactions with animal or plants or coexisting with other microorganisms in diverse ecological environments. The course will also cover special adaptations that bacteria have evolved to adapt to harsh environments and how these adaptations can be harnessed to control pollution. Prerequisite: (BIOL 2013 and BIOL 2011L) or BIOL 3123. (Typically offered: Spring Odd Years)

This course is cross-listed with BIOL 4223.

PLPA 4223. Plant Disease Control. 3 Hours.

Principles, methods and mechanics of plant disease control. Emphasis is given to the integration of control measures and epidemiology of plant diseases. Lecture 3 hours per week. Prerequisite: PLPA 3004. (Typically offered: Fall)

This course is cross-listed with BIOL 4133.

PLPA 4304. Applied Plant Disease Management. 4 Hours.

A plant pathology course emphasizing practical understanding of the concepts and principles of agronomic and horticultural crop disease management, including disease diagnosis, monitoring, and using models to forecast disease events.

Prerequisite: PLPA 3004 or instructor consent. (Typically offered: Irregular)

PLPA 4333. Biotechnology in Agriculture. 3 Hours.

Discussion of the techniques, applications, and issues of biotechnology as it is being used in modern agriculture. Coverage includes the basics of molecular biology, production of transgenic plants and animals, and new applications in the agricultural, food, and medical marketplace. Lecture and discussion, 3 hours per week. (Typically offered: Fall)

This course is cross-listed with BIOL 4333.

PLPA 462V. Internship. 1-6 Hour.

Supervised practical work experience in pest management to develop and demonstrate professional competence. A maximum of 6 hours credit per semester or summer session is permitted. Faculty approval of projects proposal prior to enrollment, and written or oral reports are required. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

PLPA 5001. Seminar. 1 Hour.

Review of scientific literature and oral reports on current research in plant pathology. Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

PLPA 502V. Special Problems Research. 1-6 Hour.

Original investigations of assigned problems in plant pathology. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLPA 504V. Special Topics. 1-18 Hour.

Lecture topics of current interest not covered in other courses in plant pathology or other related areas. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

PLPA 5123. Bacterial Lifestyles. 3 Hours.

The course will introduce students to bacteria as prokaryotic organisms, different from eukaryotes such as plants and animals. Model microbial systems will be studied in more detail to identify unique strategies that bacteria employ to thrive in their respective environment, whether they are causing diseases or establishing beneficial interactions with animal or plants or coexisting with other microorganisms in diverse ecological environments. The course will also cover special adaptations that bacteria have evolved to adapt to harsh environments and how these adaptations can be harnessed to control pollution. Prerequisite: (BIOL 2013 and BIOL 2011L) or BIOL 3123. (Typically offered: Spring Odd Years)

This course is cross-listed with BIOL 5223.

PLPA 5223. Plant Disease Control. 3 Hours.

(Formerly PLPA 4223.) Principles, methods and mechanics of plant disease control. Emphasis is given to the integration of control measures and epidemiology of plant diseases. Lecture 3 hours per week. Graduate degree credit will not be given for both PLPA 4223 and PLPA 5223. (Typically offered: Fall)

PLPA 5303. Advanced Plant Pathology: Host-Pathogen Interactions. 3 Hours.

Presentation of important contemporary concepts relative to disease resistance and the physiology, biochemistry, and molecular biology of plant-pathogen interactions. Lecture 3 hours per week. Prerequisite: PLPA 3004 or equivalent and graduate standing. (Typically offered: Spring Odd Years)

PLPA 5313. Advanced Plant Pathology: Ecology and Epidemiology. 3 Hours.

Presentation of important contemporary concepts relative to the ecology and epidemiology of foliar and soil-borne plant pathogens. Lecture 3 hours per week. Prerequisite: PLPA 3004 and graduate standing. (Typically offered: Spring Even Years)

PLPA 5324. Applied Plant Disease Management. 4 Hours.

(Formerly PLPA 4304.) A plant pathology course emphasizing practical understanding of the concepts and principles of agronomic and horticultural crop disease management, including disease diagnosis, monitoring, and using models to forecast disease events. Graduate degree credit will not be given for both PLPA 4304 and PLPA 5324. (Typically offered: Irregular)

PLPA 5333. Biotechnology in Agriculture. 3 Hours.

(Formerly PLPA 4333.) Discussion of the techniques, applications, and issues of biotechnology as it is being used in modern agriculture. Coverage includes the basics of molecular biology, production of transgenic plants and animals, and new applications in the agricultural, food, and medical marketplace. Lecture and discussion, 3 hours per week. Graduate degree credit will not be given for both PLPA 4333 and PLPA 5333. (Typically offered: Fall)

PLPA 5404. Diseases of Economic Crops. 4 Hours.

Diagnosis and management of important diseases of cotton, fruits, rice, trees, soybeans, wheat, and vegetables will be covered in a lecture, laboratory, and field format. Lecture 2 hours, laboratory 4 hours per week. Four 1-day field trips will be involved. Corequisite: Lab component. Prerequisite: PLPA 3004. (Typically offered: Summer)

PLPA 5603. Plant Pathogenic Fungi. 3 Hours.

Plant Pathogenic Fungi is structured as an integrated lecture/laboratory class designed for students that are interested in developing an understanding and appreciation for taxonomy, biology, and ecology of plant pathogenic fungi and related saprophytic fungi. Corequisite: Lab component. Prerequisite: PLPA 3004 or BIOL 4424 or graduate standing. (Typically offered: Fall Odd Years)

PLPA 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PLPA 6203. Plant Virology. 3 Hours.

Lecture emphasizing discussion of recent advances in plant virology. Laboratory concerned with techniques and equipment used in plant virus studies, including transmission of viruses, characterization utilizing ultracentrifugation, spectrophotometry, electrophoresis, electron microscopy, and serology. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Prerequisite: CHEM 5813 or CHEM 5843 or CHEM 6873 or consent of instructor. (Typically offered: Fall Even Years)

PLPA 6303. Plant Nematology. 3 Hours.

Nematodes and their relationship to plant diseases, with consideration of identification, morphology, biology, distribution, association with disease complexes and control. Lecture 2 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: Graduate standing. (Typically offered: Fall Even Years)

PLPA 6503. Plant Bacteriology. 3 Hours.

Current concepts and techniques in plant bacteriology, including taxonomic, ecological and molecular aspects of plant pathogenic bacteria and their interactions with hosts. Lecture 2 hours, laboratory 2 hours per weeks. Corequisite: Lab component. Prerequisite: BIOL 2013 and BIOL 2011L. (Typically offered: Spring Odd Years) May be repeated for up to 3 hours of degree credit.

Plant Sciences (PTSC)

Courses

PTSC 6101. Colloquium in Plant Sciences. 1 Hour.

Advanced discussion of topics in plant science on a participatory basis. Topics in plant pathology, horticulture and forestry will be treated. Prerequisite: Graduate standing. (Typically offered: Spring) May be repeated for up to 2 hours of degree credit.

PTSC 6203. Laboratory Instrumentation in Plant Science. 3 Hours.

Principles, capabilities, and operation of laboratory instrumentation utilized in plant science research. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. (Typically offered: Irregular)

PTSC 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Political Science (PLSC)

Courses

PLSC 1003. Perspectives in Political Science. 3 Hours.

This course takes a topical approach to introducing first-year Political Science students to the academic skills essential to success in college and the methods of the political science discipline. The course emphasizes the transition to the UA and university-level work by addressing topics such as the advising process and civic engagement. Prerequisite: Freshmen Political Science majors only. (Typically offered: Fall and Spring)

PLSC 1003H. Honors Perspectives in Political Science. 3 Hours.

This course takes a topical approach to introducing first-year students to the academic skills essential to success in college and the methods of the political science discipline. The course emphasizes the transition to the UA and university-level work by addressing topics such as the advising process and civic engagement. Prerequisite: Honors standing. (Typically offered: Fall and Spring)
This course is equivalent to PLSC 1003.

PLSC 2003. American National Government (ACTS Equivalency = PLSC 2003). 3 Hours.

Survey of the history, basic ideas, structure, and political processes of the national government of the United States, including the fundamental relationships of the federal system. Required of all political science majors. (Typically offered: Fall, Spring and Summer)

PLSC 2003H. Honors American National Government. 3 Hours.

Survey of the history, basic ideas, structure, and political processes of the national government of the United States, including the fundamental relationships of the federal system. (Typically offered: Fall)
This course is equivalent to PLSC 2003.

PLSC 2013. Introduction to Comparative Politics. 3 Hours.

An introductory survey of comparative political systems. (Typically offered: Fall, Spring and Summer)

PLSC 2203. State and Local Government (ACTS Equivalency = PLSC 2103). 3 Hours.

Organization and functions of state and local governments in the United States, intergovernmental relations, administration, adjudication, and the organization and function of political parties on state and local levels. (Typically offered: Fall Even Years; Summer)

PLSC 2813. Introduction to International Relations. 3 Hours.

Introduction to the international system, theories of international behavior, political economy, conflict and peacemaking, the third world, international law and organizations, and the nature of the post-cold war world. (Typically offered: Fall and Spring)

PLSC 300V. Internship in Public Affairs. 1-3 Hour.

Work experience in a public agency arranged by the student under the guidance of a faculty member. Paper required. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLSC 3103. Public Administration. 3 Hours.

Trends and organization of public administration, dynamics of management; fiscal and personnel management; administrative powers and responsibility. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 3153. Public Policy. 3 Hours.

A study of public policy formulation, implementation, and evaluation at various levels of government. Prerequisite: PLSC 2003. (Typically offered: Fall)

PLSC 3183. Public Personnel Management. 3 Hours.

Development of the merit system in government, career systems, human resource planning and development, labor relations, diversity issues, and the legal dimension of public personnel systems. Prerequisite: PLSC 2003. (Typically offered: Irregular)

PLSC 3203. Introduction to Legal Studies. 3 Hours.

An examination of the legal profession, legal writing, and the substantive areas of law in the U.S. Prerequisite: PLSC 2003. (Typically offered: Fall and Spring)

PLSC 3213. The South and the Law: Race, Gender, and Citizenship. 3 Hours.

Examines the experience of racial and ethnic minorities, as well as women, in the post-Civil War South. Explores legal ramifications and tracks cultural and political legacies of landmark cases and/or legislative acts. (Typically offered: Fall)

PLSC 3223. Arkansas Politics and the Nation. 3 Hours.

An examination of Arkansas Politics including the political process, public policies, social problems, political behavior, governmental structure, and contemporary issues with an emphasis on the historical, regional, and national context. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 3233. The American Congress. 3 Hours.

Thorough examination of the constitutional role of the legislative branch under the Constitution; the internal procedures and personalities of the Senate and House; the central place of Congress in shaping domestic and foreign policy. Prerequisite: PLSC 2003. (Typically offered: Fall)

PLSC 3243. The Judicial Process. 3 Hours.

The structure and operation of the state and national court systems. Emphasis is upon the role of the judiciary in the American political system and the political aspects and consequences of judicial decision-making. Prerequisite: PLSC 2003. (Typically offered: Fall)

PLSC 3253. Urban Politics. 3 Hours.

Analysis of comparative urban systems, including political process, public policy, social problems, governmental structure, and voter behavior. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 3263. Latino Politics. 3 Hours.

An overview of Latino political behavior that analyzes the social, economic, and political issues impacting the Latino/Hispanic community in the United States. The course focuses on understanding relationships of power and interaction within the institutional contexts that shape diverse Latino experiences. (Typically offered: Fall)

PLSC 3283. Civil Rights Policy and Politics. 3 Hours.

This course will draw from linkages between the protest phase of the civil rights and American political institutions. The course explores the institutional impact of the civil rights movement on the presidency, congress, the courts, administrative regulatory agencies, and civil rights advisory organizations. (Typically offered: Spring)
This course is cross-listed with AAST 3283.

PLSC 3293. African American Politics. 3 Hours.

This is a survey course designed to provide students with a comprehensive overview of African American political participation in the United States. In addition to analyzing important events in African American Politics, the course attempts to explain evolving patterns of political participation in Black America. (Typically offered: Fall)
This course is cross-listed with AAST 3293.

PLSC 3303. American Political Development. 3 Hours.

Examines the evolution of the American State and corresponding governmental and political institutions. Topics include models of political change and evolution, American political culture(s), governing institutional structures at the national level, the evolution of federalism, political linkage structures, and public policy. Prerequisite: PLSC 2003. (Typically offered: Irregular)

PLSC 3503. Governments and Politics of East Asia. 3 Hours.

Comparative analysis of structures, processes, and problems of the political systems of the Democratic Republic of Vietnam, Japan, and the Peoples Republic of China. Prerequisite: PLSC 2013. (Typically offered: Fall)

PLSC 3523. Politics of the Middle East. 3 Hours.

Survey of the unity and diversity in the political development of the Middle East, as evident in historical legacies, state formation, civil society, social class, and political identity. (Typically offered: Fall)

PLSC 3553. Western European Politics. 3 Hours.

Comparative analysis of Western European parliamentary systems with special attention to political traditions, constitutional arrangements, socio-economic structure, and the political and legislative processes in countries such as Britain, France, and Germany. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Irregular)

PLSC 3573. Governments and Politics of Latin America. 3 Hours.

Comparative survey of Latin America political forces and institutions with special attention to patterns and problems of political change and development in that area. Prerequisite: PLSC 2013. (Typically offered: Irregular)

PLSC 3593. Politics of Mexico. 3 Hours.

A comparative survey of contemporary Mexican politics emphasizing Mexico's historical-institutional trajectory in relation to the US, North American relations, and the experiences of Mexicans in Greater (Gran) Mexico. Prerequisite: PLSC 2013. (Typically offered: Spring)

PLSC 3603. Scope and Methods of Political Science. 3 Hours.

The basic principles and assumptions of political inquiry (methodology) and research techniques for gathering and analyzing data about political phenomena. Prerequisite: PLSC 2003. (Typically offered: Fall, Spring and Summer)

PLSC 3683. International Conflict and National Security Policy. 3 Hours.

This course examines international conflict and national security policy. The first part of the course analyzes the causes and consequences of international conflict and mechanisms for conflict resolution. The second part examines the formulation and implementation of national security in comparative perspective and U.S. national security policy. Prerequisite: PLSC 2813. (Typically offered: Fall Even Years)

PLSC 3803. International Organization. 3 Hours.

This course is about how state and non-state actors try to organize the international system to help manage crucial issues such as the development and use of force, the efficiency and fairness of markets, and the realization and protection of human rights and environmental health (Typically offered: Spring)

PLSC 3813. International Law. 3 Hours.

Analysis of the traditional principles of public international law including the law of war, the law of sea and air, and the legal nature of statehood; and analysis of selected principles of private international law relevant to such topics as the multinational corporation, international arbitration, commerce with Communist states, and the expropriation of foreign property. Prerequisite: Junior standing. (Typically offered: Fall)

PLSC 3823. Theories of International Relations. 3 Hours.

Analysis of major intellectual traditions in the field of international relations, including realism, liberalism, and social constructivism. Emphasis will be placed on how they help us to understand war, revolution, global capitalism, nationalism, peace, and other significant international phenomena. Prerequisite: PLSC 2003 and PLSC 2013. (Typically offered: Spring)

PLSC 3853. American Foreign Policy. 3 Hours.

The structure and process for making and implementing the foreign policy of the United States, and an evaluation of current policies in the contemporary international milieu. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Fall)

PLSC 390V. Special Topics. 1-3 Hour.

Special topics in political science. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PLSC 3913. American Political Thought Before 1900. 3 Hours.

Major ideas, issues, and arguments in American Political Thought from the colonial period to approximately 1900. (Typically offered: Irregular) May be repeated for degree credit.

PLSC 3923H. Honors Colloquium. 3 Hours.

Covers a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy in political science. (Typically offered: Irregular) May be repeated for degree credit.

PLSC 3933. Contemporary American Political Thought. 3 Hours.

Twentieth century American political thought, including who should participate, expanding concepts of freedom, political economy, equality, feminism, rights, conservatism and liberalism. (Typically offered: Irregular)

PLSC 394V. Readings in Political Science. 1-3 Hour.

For advanced students who wish to study some field of political science beyond the course offering available in that field. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLSC 3983. Politics in Literature. 3 Hours.

Analysis of political theories and issues through extensive reading and discussion of selected works of literature. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Spring)

PLSC 399VH. Honors Course. 1-3 Hour.

Honors course. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

PLSC 400V. Special Topics. 1-3 Hour.

Topics in political science not usually covered in other courses. (Typically offered: Irregular) May be repeated for degree credit.

PLSC 4093. Politics and Policy on Film. 3 Hours.

An examination of the ways in which politics, government, policymakers, and public policy issues are portrayed on film. Selections vary, but may include historic and contemporary works, independent films and blockbusters, fictional works, biopics, and documentaries. Heavy emphasis on independent research and informed discussion, focused on the context in which the works were made and the ways they were received by audiences. (Typically offered: Irregular)

PLSC 4103. Introduction to Urban Planning. 3 Hours.

Reviews the many forms, functions, and purposes of American cities. Covers basic planning theories, surveys the various sub-fields of planning, discusses trends in the planning field, and utilizes computer simulations. (Typically offered: Fall)
This course is cross-listed with PADM 5833.

PLSC 4173. Community Development. 3 Hours.

Encompasses the political, economic, and social issues that shape contemporary communities. This class examines substantive issues in community development, related theories and techniques. A major focus of the course will be on low-income and minority neighborhoods and efforts to create more inclusive communities in the United States and abroad. Prerequisite: Junior standing. (Typically offered: Fall)

PLSC 4193. Administrative Law. 3 Hours.

Legal aspects of the administrative process and the effect of legal principles and processes upon administrative decision-making. Emphasis is given to the limitation of administrative discretion and the judicial review of administrative decision. Prerequisite: PLSC 3103 or PLSC 4253. (Typically offered: Spring)

PLSC 4203. American Political Parties. 3 Hours.

The nature, function, and history of political parties in the United States with emphasis on party membership, organization, campaign techniques, finance and electoral alliances. Prerequisite: PLSC 2003. (Typically offered: Irregular)

PLSC 4213. Campaigns and Elections. 3 Hours.

This course examines the American electoral process. It is an empirical course that provides opportunities for original analysis of survey data and election returns. Emphasis is placed on the most recent federal election. Prerequisite: PLSC 2003 (Typically offered: Irregular)

PLSC 4233. The American Chief Executive. 3 Hours.

Offices and roles of the President and state governors of the United States focusing on the evolution of the offices in terms of responsibilities and political leadership. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 4253. The U.S. Constitution I. 3 Hours.

United States Supreme Court decisions involving the functions and powers of Congress, the Supreme Court, and the President and federalism. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 4263. The U.S. Constitution II. 3 Hours.

United States Supreme Court decisions interpreting the political, economic, and civil rights of individuals and groups. Prerequisite: PLSC 2003. (Typically offered: Irregular)

PLSC 4273. Political Psychology. 3 Hours.

Examines role of the individual in the polity including basic psychological constructs of relevance to political action, the formulation and maintenance of stable political orientations, the patterns linking the individual to the polity, and major modes of inquiry. Prerequisite: PLSC 2003. (Typically offered: Irregular)

PLSC 4283. Federalism and Intergovernmental Relations. 3 Hours.

Analysis of changes in intergovernmental relations in the American federal system. Discussions will focus on political, economic/fiscal and administrative aspects of policy changes of the pre-and post-Reagan eras. (Typically offered: Spring Even Years)

PLSC 4303. History of Political Parties in the U.S. 1789-1896. 3 Hours.

Origin and development of the American party system from the implementation of the Constitution to the election of McKinley. (Typically offered: Fall Even Years)
This course is cross-listed with HIST 4503.

PLSC 4313. History of Political Parties in the United States Since 1896. 3 Hours.

Response of the party system to America's emergence as an industrial nation and world power from the election of 1896 to present. (Typically offered: Spring Odd Years)
This course is cross-listed with HIST 4513.

PLSC 4323. Racial Identity, Politics, and Public Policy. 3 Hours.

Examines how race and perceived racial differences affect political discourse, mobilization, representation, and political outcomes. Prerequisite: PLSC 3293 or AAST 1003 or Junior standing. (Typically offered: Spring Even Years)
This course is cross-listed with AAST 4323.

PLSC 4333. Southern Politics. 3 Hours.

Evaluates the significance of the southern region within the national political scene, as well as discusses the unique political history and workings of the region. Explores the various groups within the region that continue to fight for political influence and power. (Typically offered: Spring)

PLSC 4343. Money and Politics. 3 Hours.

Familiarizes students with the world of money and politics in the United States. Examines the function of money in elections, the legal aspects, and the consequences of the regulatory environment. Provides a means to gain analytic computer skills and a strong foundation for further study of political science. (Typically offered: Fall)

PLSC 4373. Political Communication. 3 Hours.

Study of the nature and function of the communication process as it operates in the political environment. (Typically offered: Spring Even Years)
This course is cross-listed with COMM 4373.

PLSC 4513. Creating Democracies. 3 Hours.

Analyses of the creation of democracies in Europe, South America, Asia, Africa, the Middle East, East Europe, and the former Soviet Union. Prerequisite: PLSC 2013. (Typically offered: Fall Even Years)

PLSC 4523. Introduction to Gender and Politics in the Middle East. 3 Hours.

Introduces the complexities of women's political lives in the Middle East by studying gender roles, relations and how identities are constructed during different political moments. (Typically offered: Fall)

PLSC 4533. China's Foreign Trade and International Order: History, Policy, and Theory. 3 Hours.

This interdisciplinary course explores China's foreign trade and international order by introducing students to the historical context and economic theory necessary for understanding China's role in the international trading system from the ancient past to the contemporary era. (Typically offered: Irregular)

This course is cross-listed with ECON 4533.

PLSC 4563. Government and Politics of Russia. 3 Hours.

Study of Russian and Soviet politics after 1917 and of the democratization of Russia and the other successor states. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Spring Even Years)

PLSC 4573. Gender and Politics. 3 Hours.

Examines the significance of gender in politics. Includes discussion of the women's movement and feminist theory, but emphasizes the content and process of public policy as it relates to women and men. Focus is on the U.S. but final third is devoted to comparative topics. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Irregular)

PLSC 4583. Political Economy of East Asia. 3 Hours.

Development strategies and policies of major economies in East Asia. Topics include theories for East Asia's economic growth, dynamics and process of East Asian political and economic developments, strengths and limits of the East Asian development model, Asian values and their implications for Asian-style democracy, and dynamics of regional cooperation. (Typically offered: Spring)

PLSC 4593. Islam and Politics. 3 Hours.

Compares contemporary Islamist political movements. Seeks to explain causes, debates, agendas, and strategies of Islamists in the political realm. Addresses sovereignty, the rule of law, visions of the good state and society, and relations between nationalism, religion and political development. Focus on Middle East with comparative reference to other cases. (Typically offered: Fall)

PLSC 4613. Social Network Analysis. 3 Hours.

Introduces the fundamentals of Social Network Analysis (SNA), and its applications for research in various social science fields. Prerequisite: SOCI 2013. (Typically offered: Fall)

This course is cross-listed with SOCI 4183.

PLSC 4793. Latino/Hispanic Political Thought. 3 Hours.

A survey course designed to examine the development of Latino/Hispanic political thought from Iberian and Latin American political culture and philosophy to contemporary US political ideology/thought. (Typically offered: Spring)

PLSC 4793H. Honors Latino/Hispanic Political Thought. 3 Hours.

A survey course designed to examine the development of Latino/Hispanic political thought from Iberian and Latin American political culture and philosophy to contemporary US political ideology/thought. Prerequisite: Honors standing. (Typically offered: Spring)

This course is equivalent to PLSC 4793.

PLSC 4803. Foreign Policy Analysis. 3 Hours.

Comparative analysis of foreign policy, with attention paid to explanations at a variety of levels, such as the individual, group, organizational, societal, systemic. (Typically offered: Irregular)

PLSC 4823. Foreign Policy of East Asia. 3 Hours.

This course provides an introduction to the international relations of two major East Asian states, China and Japan. Key topics include: China and Japan's interaction with the world political and economic systems; domestic sources of international behavior and major dimensions of foreign policy in the 1980s and 1990s. (Typically offered: Spring)

PLSC 4833. International Political Economy. 3 Hours.

This course provides an analysis of the interaction between politics and markets in the world economy. Its central objective is to illustrate how political and state actions have shaped and been shaped by the development of the global economy. (Typically offered: Fall)

PLSC 4843. The Middle East in World Affairs. 3 Hours.

An analysis of geo-political and socio-economic characteristics of Middle Eastern societies and their impact on world economic and political order. Special attention to such issues as the Arab-Israeli conflict, the promotion of lasting peace in the region, impact of oil on world politics, the involvement of superpowers, rehabilitation of Palestinian refugees and the role of the United Nations. (Typically offered: Spring)

PLSC 4853. International Norms and Corporate Social Responsibility. 3 Hours.

This course focuses on the interplay between international social expectations and business strategy. How norms prevail and why norms emerge will be observed from a business vantage point. Pre- or corequisite: PLSC 2003 or PLSC 2013. (Typically offered: Spring)

PLSC 4863. Political Psychology and International Relations. 3 Hours.

Examines psychological approaches to international relations and examines how these perspectives advance the study of world politics. (Typically offered: Irregular)

PLSC 4873. Inter-American Politics. 3 Hours.

An analysis of the political themes, regional organization, and hemispheric relations that constitute the inter-American system, with special emphasis on conflict and cooperation in the hemispheric policies of the American republics. Prerequisite: Junior standing. (Typically offered: Irregular)

PLSC 4883. Politics of International Law. 3 Hours.

This course examines the interaction between law and politics in the international system, focusing on international law. (Typically offered: Irregular)

PLSC 4893. International Negotiation and Mediation. 3 Hours.

This course examines international negotiations and mediation. International negotiation refers to the processes and methods by which state and non-state actors reach agreements through persuasion and similar non-violent means. This course analyzes the processes, methods, and mechanisms, and challenges of international negotiations and the growing use of mediation. (Typically offered: Irregular)

This course is cross-listed with INST 4893.

PLSC 4933. African American Political Ideology. 3 Hours.

A survey course designed to identify and examine characteristics and functions of several variants of black political ideology/thought. (Typically offered: Spring Odd Years)

This course is cross-listed with AAST 4933.

PLSC 498V. Senior Thesis. 1-6 Hour.

Senior Thesis. (Typically offered: Fall, Spring and Summer)

PLSC 499VH. Honors Essay. 1-3 Hour.

Not part of the 30 hours requirement for the major. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLSC 500V. Special Topics. 1-3 Hour.

(Formerly PLSC 400V.) Topics in political science not usually covered in other courses. Graduate degree credit will not be given for both PLSC 400V and PLSC 500V. (Typically offered: Irregular) May be repeated for degree credit.

PLSC 5043. The U.S. Constitution I. 3 Hours.

(Formerly PLSC 4253.) United States Supreme Court decisions involving the functions and powers of Congress, the Supreme Court, and the President and federalism. Graduate degree credit will not be given for both PLSC 4253 and PLSC 5043. Prerequisite: PLSC 2003. (Typically offered: Spring)

PLSC 5053. Creating Democracies. 3 Hours.

(Formerly PLSC 4513.) Analyses of the creation of democracies in Europe, South America, Asia, Africa, the Middle East, East Europe, and the former Soviet Union. Graduate degree credit will not be given for both PLSC 4513 and PLSC 5053.

Prerequisite: PLSC 2013. (Typically offered: Fall Even Years)

PLSC 5083. The Middle East in World Affairs. 3 Hours.

An analysis of geo-political and socio-economic characteristics of Middle Eastern societies and their impact on world economic and political order. Special attention to such issues as the Arab-Israeli conflict, the promotion of lasting peace in the region, impact of oil on world politics, the involvement of superpowers, rehabilitation of Palestinian refugees and the role of the United Nations. (Typically offered: Spring)

PLSC 5103. Human Behavior in Complex Organizations. 3 Hours.

Review of the fundamental literature and a systematic analysis of various theories and research focusing on organization and behavior in public administration, including the discussion of organizational development, human motivation, leadership, rationality, efficiency and conflict management in public organizations. Prerequisite: Graduate standing. (Typically offered: Spring Odd Years; Summer)

PLSC 5113. Seminar in Human Resource Management. 3 Hours.

Intensive study of public personnel policies and practices, including legal foundations, classification and compensation plans, recruitment and selection processes, training, employment policies and morale, employee relations and organization. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5123. Public Budgeting and Finance. 3 Hours.

Focuses on the budgeting process and governmental fiscal policy formulation, adoption, and execution. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5133. Nonprofit Management. 3 Hours.

This course provides an overview of the principal management functions in public and nonprofit organizations. Topics include financial management, HR development, program development. The relationships among volunteer boards of trustees, fund raising, public relations, and program personnel are analyzed, and the complex environments with service sector agencies are explored. (Typically offered: Fall)

PLSC 5143. Administrative Law. 3 Hours.

A seminar which examines the constitutional and statutory basis and authority of public organizations. Special attention focuses on the nature of the rule-making and adjudicatory powers of public agencies and on executive, legislative, and judicial restraints on such activities. Also considered are the role, scope, and place of public regulatory activities. Prerequisite: Graduate standing. (Typically offered: Spring)

PLSC 5153. Environmental Politics and Policy. 3 Hours.

Surveys recent patterns of environmentalism in the U.S. and explores the nature of policy making with regard to environmental and economic development issues. Several debates are presented, such as conservation vs. preservation, multiple use vs. sustainability, intergovernmental policy implementation, incentives, and free market environmentalism. (Typically offered: Fall Even Years)

PLSC 5163. Public Policy. 3 Hours.

Seminar examining the study of public policy making in complex organizations. Attention given to different theories and frameworks explaining public policy making. Prerequisite: Graduate standing. (Typically offered: Spring)

PLSC 5173. Community Development. 3 Hours.

Community development encompasses the political, social, and economic issues that shape contemporary communities. The seminar examines substantive issues in community development, related theories, and techniques. A major focus of the course will be on low-income and minority neighborhoods and efforts to create more inclusive communities in the U.S. and abroad. (Typically offered: Fall)

PLSC 5183. Comparative Governance Systems. 3 Hours.

With an emphasis on international policy settings, students are encouraged to test extant policy models and discuss policy innovations that could produce improved policy outcomes. Introduces concepts of institutional logics and how organizations and individual actors experience and respond to the presence of multiple logics prevalent in many policy fields. Prerequisite: Graduate standing. (Typically offered: Spring Odd Years)

PLSC 5193. Seminar in Public Administration. 3 Hours.

Introduction to and synthesis of public administration theory, functions, history, public accountability and management concerns, economic impact of administrative decisions, current problems, and issues in the public sector. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5203. Seminar in American Political Institutions. 3 Hours.

Research seminar dealing with selected aspects of the major governmental institutions in the United States. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5213. Seminar in American Political Behavior. 3 Hours.

Reading seminar surveying major works on representative processes in American national politics, including political opinion, political leadership, political participation, voting behavior, political parties, and interest groups. Prerequisite: Graduate standing. (Typically offered: Spring)

PLSC 5233. The American Chief Executive. 3 Hours.

Study of the origin, background, and evolution of the Office of the President of the United States, with a review of the president's powers in the areas of politics, administration, and legislation. (Typically offered: Spring Odd Years)

PLSC 5243. Seminar in State Politics and Policy. 3 Hours.

Research seminar dealing with selected aspects of state political institutions and politics such as policy diffusion, institutional professionalization, and representation. Prerequisite: Graduate standing. (Typically offered: Fall Even Years)

PLSC 5253. Politics of Race and Ethnicity. 3 Hours.

Reviews identity, political action and concepts of political activity by minority groups, focusing on contemporary political behavior, the incorporation of minority groups into the U.S. political system. (Typically offered: Irregular)

PLSC 5273. The U.S. Constitution I. 3 Hours.

United States Supreme Court Decisions involving the functions and powers of Congress, the Supreme Court and the President and federalism. (Typically offered: Spring)

PLSC 5283. Federalism and Intergovernmental Relations. 3 Hours.

(Formerly PLSC 4283.) Analysis of changes in intergovernmental relations in the American federal system. Discussions will focus on political, economic/fiscal and administrative aspects of policy changes of the pre-and post-Reagan eras. Graduate degree credit will not be given for both PLSC 4283 and PLSC 5283. (Typically offered: Spring Even Years)

PLSC 5343. Money and Politics. 3 Hours.

Familiarizes students with the world of money and politics in the United States. Examines the function of money in elections, the legal aspects, and the consequences of the regulatory environment. Provides a means to gain analytic computer skills and a strong foundation for further study of political science. (Typically offered: Fall)

PLSC 5373. Political Communication. 3 Hours.

(Formerly PLSC 4373.) Study of the nature and function of the communication process as it operates in the political environment. Graduate degree credit will not be given for both PLSC 4373 and PLSC 5373. (Typically offered: Spring Even Years)

PLSC 5383. Seminar in Political Communication. 3 Hours.

Research seminar focusing on selected topics such as candidate imagery, diffusion of political information, or political symbolism. Prerequisite: Graduate standing. (Typically offered: Irregular)

This course is cross-listed with COMM 5383.

PLSC 5503. Comparative Political Analysis. 3 Hours.

A selection of topics to provide the theoretical, conceptual and methodological and foundation for the analysis of contemporary political systems. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5513. Seminar in Politics of the Middle East. 3 Hours.

Explores the major lines of inquiry on the politics of the state and society in the context of endogenous and exogenous forces that have influenced conceptions of power, legitimacy, and identity. Prerequisite: Graduate standing. (Typically offered: Irregular)

PLSC 5563. Government and Politics of Russia. 3 Hours.

(Formerly PLSC 4563.) Study of Russian and Soviet politics after 1917 and of the democratization of Russia and the other successor states. Graduate degree credit will not be given for both PLSC 4563 and PLSC 5563. Prerequisite: PLSC 2003 or PLSC 2013. (Typically offered: Spring Even Years)

PLSC 5583. Political Economy of East Asia. 3 Hours.

(Formerly PLSC 4583.) Development strategies and policies of major economies in East Asia. Topics include theories for East Asia's economic growth, dynamics and process of East Asian political and economic developments, strengths and limits of the East Asian development model, Asian values and their implications for Asian-style democracy, and dynamics of regional cooperation. Graduate degree credit will not be given for both PLSC 4583 and PLSC 5583. (Typically offered: Spring)

PLSC 5593. Islam and Politics. 3 Hours.

Compares contemporary Islamist political movements. Seeks to explain causes, debates, agendas, and strategies of Islamists in the political realm. Addresses sovereignty, the rule of law, visions of the good state and society, and relations between nationalism, religion and political development. Focus on Middle East with comparative reference to other cases. (Typically offered: Fall)

PLSC 5703. Research Design in Political Science and Public Policy. 3 Hours.

This course is designed to introduce graduate students to fundamental research issues in the realm of applied social science while developing the ability to apply basic skills for conducting research. (Typically offered: Fall)

PLSC 5803. Seminar in International Politics. 3 Hours.

Research seminar providing intensive coverage of selected topics in theories of international relations, the comparative study of foreign policy making, and international organizations. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5833. Seminar in Contemporary Problems. 3 Hours.

Seminar with concentrated reading in selected and specialized areas of contemporary international relations. Prerequisite: Graduate standing. (Typically offered: Fall) May be repeated for up to 6 hours of degree credit.

PLSC 5843. International Legal Order. 3 Hours.

Analysis of distinctive characteristics of contemporary international law. Topics include role of legal order in controlling the use of force in international relations and the impact of social and political environment on growth of international law and relations among international political systems. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 5863. Political Psychology and International Relations. 3 Hours.

Examines psychological approaches to international relations and examines how these perspectives advance the study of world politics. (Typically offered: Irregular)

PLSC 5873. Inter-American Politics. 3 Hours.

An analysis of the political themes, regional organization, and hemispheric relations that constitute the inter-American system, with special emphasis on conflict and cooperation in the hemispheric policies of the American republics. (Typically offered: Irregular)

PLSC 5883. Politics of International Law. 3 Hours.

This course examines the interaction between law and politics in the international system, focusing on international law. (Typically offered: Irregular)

PLSC 590V. Directed Readings in Political Science. 1-3 Hour.

Directed readings in Political Science. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLSC 5913. Research Methods in Political Science. 3 Hours.

Methods relevant to research in the various fields of political science. Required of all graduate students in political science. Prerequisite: Graduate standing. (Typically offered: Fall)

PLSC 592V. Internship in Political Science. 1-6 Hour.

Internship in a local, state, regional, or federal agency. Paper required on a significant aspect of internship experience. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

PLSC 593V. Special Topics. 1-3 Hour.

Topics in political science not usually covered in other courses. Prerequisite: Graduate Standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

PLSC 5943. Advanced Research Methods in Political Science. 3 Hours.

Provides a firm theoretical foundation in, and an ability to apply, various multivariate statistical methods that are most commonly used for empirical analysis of politics and policy. Prerequisite: PLSC 5913 or equivalent. (Typically offered: Fall)

PLSC 595V. Research Problems in Political Science. 1-3 Hour.

Research problems in Political Science. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PLSC 5983. Mixed Methods Research Design. 3 Hours.

An advanced overview of a particular type of multi-point research design. Mixed methods research combines quantitative and qualitative research strategies in a single research project. (Typically offered: Spring)

PLSC 5993. African American Political Ideology. 3 Hours.

A survey course designed to identify and examine characteristics and functions of several variants of black political ideology/thought. (Typically offered: Spring Odd Years)

PLSC 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Portuguese (PORT)

Poultry Science (POSC)

Courses

POSC 1002. Introduction to Careers in Poultry Science. 2 Hours.

To introduce the student to the career opportunities in the poultry science industry. Corequisite: Lab component. (Typically offered: Fall)

POSC 1012. Avian Biology. 2 Hours.

Students will be introduced to biological sciences associated with poultry. Topics will include avian origin, anatomy, physiology and behavior. Course will serve as foundation for poultry production courses. Lecture 2 hours. (Typically offered: Spring)

POSC 1062. Sustainable Integrated Small Animal Farming. 2 Hours.

Practical information on small scale animal production, including practical strategies for farm planning, issues of economic and environmental sustainability, best management practices, biosecurity, disease prevention, and farm safety will be presented. (Typically offered: Spring)

This course is cross-listed with ANSC 1062.

POSC 1123. The Animals in our Lives. 3 Hours.

Address the controversies and focus on animal welfare, environmental issues and sustainability. (Typically offered: Summer)

This course is cross-listed with ANSC 1123.

POSC 2343. Poultry Production. 3 Hours.

To develop a basic foundation about the practices utilized to produce broilers and turkeys. Course will highlight hatchery function and management; embryo development and hatching; chick/poultry transportation, preparation and maintenance of facilities for rearing birds, bird environment, nutrition, and health.

Also to be covered are the different roles associated with live production in an integrated company. Corequisite: Lab component. (Typically offered: Fall)

POSC 2353. Poultry Breeder Management. 3 Hours.

Students will be introduced to the management practices used in production of young and adult chickens, turkeys, and other poultry with special emphasis on broiler, breeder, and market egg production. Lecture 2 hours, laboratory 3 hours per week. Corequisite: Lab component. Pre- or Corequisite: POSC 1012. (Typically offered: Spring)

POSC 3013. Exotic Companion Birds. 3 Hours.

Topics include basic care, health, breeding, bird evolution, anatomy, and nutritional management of commonly kept exotic companion birds, including parrots, cockatoos, macaws, finches, canaries, and pigeons. Discussion will include housing and care for individual pet birds and large scale breeding and production. Lecture/discussion 3 hours per week. Prerequisite: BIOL 1543. (Typically offered: Fall Odd Years)

POSC 3032. Animal Physiology I. 2 Hours.

Fundamental aspects of neural/muscle/bone tissues and the cardiovascular system. The normal structure and functions of these systems will be emphasized. Lecture 2 hours per week. Prerequisite: BIOL 1543 and CHEM 1123 or CHEM 1073. (Typically offered: Fall)

This course is cross-listed with ANSC 3032.

POSC 3042. Animal Physiology II. 2 Hours.

Fundamental aspects of renal, respiratory, digestive, and endocrine physiology will be covered. The normal structure and function of these systems will be emphasized. Lecture 2 hours per week. Prerequisite: BIOL 1543 and CHEM 1123 or CHEM 1073. (Typically offered: Spring)

This course is cross-listed with ANSC 3042.

POSC 3123. Principles of Genetics. 3 Hours.

Fundamentals of heredity, with special emphasis on the improvement of farm animals. Lecture 3 hours per week. Prerequisite: BIOL 1543 and MATH 1203 or higher. (Typically offered: Fall)

This course is cross-listed with ANSC 3123.

POSC 3223. Poultry Diseases. 3 Hours.

Common diseases affecting poultry reared under commercial conditions will be covered including diagnosis, therapy and prevention. Immunity, sanitation practices, and chemoprophylaxis will also be covered. Lecture 3 hours per week with some demonstrations, slides and videotapes. Prerequisite: BIOL 2013 and BIOL 2011L and junior standing. (Typically offered: Fall)

POSC 3381. Poultry Judging and Selection. 1 Hour.

Practice in production judging and flock selection. Laboratory 3 hours per week. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

POSC 3513. Current Approaches in Agricultural Laboratory Research. 3 Hours.

A laboratory course to introduce students to current laboratory research techniques used in agricultural and life sciences. Hands-on laboratory exercises will emphasize current cellular and molecular research techniques, laboratory notebook keeping, data interpretation, and presentation of results. Prerequisite: BIOL 1543. (Typically offered: Spring Even Years)

POSC 3513H. Honors Current Approaches in Agricultural Laboratory Research. 3 Hours.

A laboratory course to introduce students to current laboratory research techniques used in agricultural and life sciences. Hands-on laboratory exercises will emphasize current cellular and molecular research techniques, laboratory notebook keeping, data interpretation, and presentation of results. Prerequisite: BIOL 1543. (Typically offered: Spring Even Years)

This course is equivalent to POSC 3513.

POSC 3554. Avian Anatomy. 4 Hours.

Detailed coverage of the external and internal anatomy of poultry, including formation and development of the egg and embryo. Lecture 3 hours, laboratory 2 hours per week. Corequisite: Lab component. Prerequisite: BIOL 1543. (Typically offered: Spring)

POSC 400V. Special Problems. 1-9 Hour.

Special problems in the poultry sciences for advanced students. (Typically offered: Fall, Spring and Summer) May be repeated for up to 9 hours of degree credit.

POSC 401V. Internship in Poultry Science. 1-6 Hour.

Supervised work experience with private or government organizations to introduce students to professional areas of work in poultry science. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 8 hours of degree credit.

POSC 4033. Statistical Process Control in the Food Industry. 3 Hours.

Analysis of processing data related to compliance with regulatory limits, quality & safety limits and internal & external customer specifications. Emphasizes statistical process control chart development, including understanding data and chart selection, calculating statistical limits, and interpreting process performance. Prerequisite: Instructor consent. (Typically offered: Irregular)

POSC 410V. Special Topics in Poultry Science. 1-4 Hour.

Topics not covered in other courses or for a more intensive study of specific topics in poultry science. (Typically offered: Irregular) May be repeated for degree credit.

POSC 4123. Legal Issues in Animal Agriculture. 3 Hours.

An issues-oriented course focusing on the legal issues involved in the production of poultry, swine and livestock. Emphasis will center on the laws, regulations and policy arguments involved in animal confinement, antibiotic use, humane slaughter and veterinary medicine, along with other related issues. The wide range of regulation from local to state to federal, depending on the issue will be studied and discussed. (Typically offered: Spring Odd Years)

This course is cross-listed with AGECE 4123, ANSC 4123.

POSC 4163. Companion Animal Nutrition. 3 Hours.

This course is designed to focus on the digestive anatomy, physiology, and nutrient metabolism of non-herbivorous companion animals, primarily dogs and cats. Topics discussed will also include an overview of the pet food industry, its regulations and commonly utilized ingredients. Students will gain a deeper understanding of nutrition as it relates to life stages and various disease states that can affect both dogs and cats. This course will require a Saturday trip to one or two off campus facilities. Prerequisite: ANSC 3143 or POSC 4343. (Typically offered: Spring)

This course is cross-listed with ANSC 4163.

POSC 4213. Integrated Poultry Management Systems. 3 Hours.

Major managerial systems in the integrated commercial poultry industry. Development of an understanding of the basic decision making processes of poultry companies and the factors influencing those decisions. Prerequisite: POSC 2353 and AGECE 1103 and AGECE 2303. (Typically offered: Spring)

POSC 4233. Value Added Muscle Foods. 3 Hours.

An intense study of muscle structure and how it relates to the development of further processed meat products. Muscle ultrastructure, protein functionality, product development, and quality analysis will be covered. In class hands on activities will also be included to allow students to obtain experience of producing processed meat products. Prerequisite: POSC 4314. (Typically offered: Spring Odd Years)

POSC 4314. Egg and Meat Technology. 4 Hours.

Study of the science and practice of processing poultry meat and egg products; examination of the physical, chemical, functional and microbiological characteristics of value added poultry products; factors affecting consumer acceptance and marketing of poultry products and the efficiency of production. Corequisite: Lab component. Prerequisite: (CHEM 1123 and CHEM 1121L) or (CHEM 1073 and CHEM 1071L) and BIOL 1543 and BIOL 1541L. (Typically offered: Fall)

POSC 4333. Poultry Breeding. 3 Hours.

Application of new developments in poultry breeding for efficient egg and meat production. Not intended for students interested in a career in veterinary sciences. Lecture 3 hours per week. Prerequisite: MATH 1203 or higher and junior standing. (Typically offered: Fall Odd Years)

POSC 4343. Poultry Nutrition. 3 Hours.

Principles of nutrition as applied to the formulation of practical chicken and turkey rations. Lecture 3 hours per week. Prerequisite: CHEM 2613 or CHEM 3603 and junior standing. (Typically offered: Spring)

POSC 4801. Seminar: Research Topics. 1 Hour.

Required by all poultry science majors. Prerequisite: Junior or Senior standing and COMM 1313. (Typically offered: Spring Odd Years)

POSC 4811. Seminar: Professionalism. 1 Hour.

Addressing issues associated with preparation for finding and retaining your first job in the poultry industry. Lecture 1 hour per week. Prerequisite: Junior or Senior standing. (Typically offered: Fall Odd Years)

POSC 4821. Seminar: Problem Solving. 1 Hour.

Real world problem solving of poultry production systems. Lecture 1 hour per week. Prerequisite: Junior/ senior standing. (Typically offered: Spring Even Years)

POSC 4831. Seminar: Processing Regulations. 1 Hour.

Processing plant procedures and regulations with an emphasis on problem solving. Lecture 1 hour per week. Prerequisite: Junior or senior standing. (Typically offered: Fall Even Years)

POSC 4923. Brain and Behavior. 3 Hours.

Covers cellular through neural systems, major brain functions and comparative neuroanatomy. Topics include ion channels, membrane and action potentials, synaptic integration, neurotransmitters, major brain regions of mammals and birds, sensory and autonomic nervous systems, neuroendocrine system, and control by the brain of critical functions and behavior. Lecture 3 hours per week. Prerequisite: (ANSC 3032 or POSC 3032) or (ANSC 3042 or POSC 3042), or PSYC 2003, or BIOL 2213, or BIOL 2443, or BIOL 2533. (Typically offered: Fall)
This course is cross-listed with ANSC 4923.

POSC 500V. Special Problems. 1-6 Hour.

Work in special problems of poultry industry. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

POSC 5033. Statistical Process Control in the Food Industry. 3 Hours.

(Formerly POSC 4033.) Analysis of processing data related to compliance with regulatory limits, quality and safety limits and internal and external customer specifications. Emphasizes statistical process control chart development, including understanding data and chart selection, calculating statistical limits, and interpreting process performance. Graduate degree credit will not be given for both POSC 4033 and POSC 5033. Prerequisite: Instructor consent. (Typically offered: Irregular)

POSC 510V. Special Topics in Poultry Sciences. 1-4 Hour.

Topics not covered in other courses or a more intensive study of specific topics in poultry science. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for degree credit.

POSC 5113. Food Toxicology and Contaminants. 3 Hours.

During this course, the student will learn basic concepts of food toxicology, study the different physiological processes involved in food borne intoxications, and learn about potential health problems associated with exposure to these compounds. Prerequisite: Graduate study. (Typically offered: Irregular)

POSC 5123. Advanced Animal Genetics. 3 Hours.

Specialized study of animal genetics. Lecture 3 hours per week. Prerequisite: POSC 3123 or ANSC 3123. (Typically offered: Fall Even Years)
This course is cross-listed with ANSC 5123.

POSC 5143. Biochemical Nutrition. 3 Hours.

Interrelationship of nutrition and physiological chemistry; structure and metabolism of physiological significant carbohydrates, lipids, and proteins; integration of metabolism with provision of tissue fuels; specie differences in regulatory control of tissue and whole body metabolism of nutrients. Prerequisite: CHEM 3813. (Typically offered: Fall Even Years)
This course is cross-listed with ANSC 5143.

POSC 5152. Protein and Amino Acid Nutrition. 2 Hours.

Students will be introduced to the basic processes of protein digestion, amino acid absorption, transport, metabolism, and utilization along with how biochemical function of proteins and their dynamic state affect nutritional status for animals and man. Prerequisite: CHEM 3813. (Typically offered: Spring Even Years)
This course is cross-listed with ANSC 5152.

POSC 5163. Companion Animal Nutrition. 3 Hours.

This course is designed to focus on the digestive anatomy, physiology, and nutrient metabolism of non-herbivorous companion animals, primarily dogs and cats. Topics discussed will also include an overview of the pet food industry, its regulations and commonly utilized ingredients. Students will gain a deeper understanding of nutrition as it relates to life stages and various disease states that can affect both dogs and cats. This course will require a Saturday trip to one or two off campus facilities. Prerequisite: ANSC 3143 or POSC 4343. (Typically offered: Spring)
This course is cross-listed with ANSC 5163.

POSC 5213. Integrated Poultry Management Systems. 3 Hours.

(Formerly POSC 4213.) Major managerial systems in the integrated commercial poultry industry. Development of an understanding of the basic decision making processes of poultry companies and the factors influencing those decisions. Graduate degree credit will not be given for both POSC 4213 and POSC 5213. Prerequisite: POSC 2353 and AGEC 1103 and AGEC 2303. (Typically offered: Spring)

POSC 5233. Value Added Muscle Foods. 3 Hours.

An intense study of muscle structure and how it relates to the development of further processed meat products. Muscle ultrastructure, protein functionality, product development, and quality analysis will be covered. In class hands on activities will also be included to allow students to obtain experience of producing processed meat products. (Typically offered: Spring Even Years)

POSC 5243. Legal Issues in Animal Agriculture. 3 Hours.

(Formerly POSC 4123.) An issues-oriented course focusing on the legal issues involved in the production of poultry, swine and livestock. Emphasis will center on the laws, regulations and policy arguments involved in animal confinement, antibiotic use, humane slaughter and veterinary medicine, along with other related issues. The wide range of regulation from local to state to federal, depending on the issue will be studied and discussed. Graduate degree credit will not be given for both POSC 4123 and POSC 5243. (Typically offered: Spring Odd Years)

POSC 5254. Egg and Meat Technology. 4 Hours.

(Formerly POSC 4314.) Study of the science and practice of processing poultry meat and egg products; examination of the physical, chemical, functional and microbiological characteristics of value added poultry products; factors affecting consumer acceptance and marketing of poultry products and the efficiency of production. Graduate degree credit will not be given for both POSC 4314 and POSC 5254. Corequisite: Lab component. Prerequisite: (CHEM 1123 and CHEM 1121L) or (CHEM 1073 and CHEM 1071L) and BIOL 1543 and BIOL 1541L. (Typically offered: Fall)

POSC 5313. Domestic Animal Bacteriology. 3 Hours.

A study of bacteria pathogenic for domestic animals. Lecture 3 hours per week. (Typically offered: Fall)

POSC 5333. Poultry Breeding. 3 Hours.

(Formerly POSC 4333.) Application of new developments in poultry breeding for efficient egg and meat production. Not intended for students interested in a career in veterinary sciences. Lecture 3 hours per week. Graduate degree credit will not be given for both POSC 4333 and POSC 5333. (Typically offered: Fall Odd Years)

POSC 5343. Advanced Immunology. 3 Hours.

Aspects of innate, cell-mediated, and humoral immunity in mammalian and avian species. Molecular mechanisms underlying the function of the immune system are emphasized. A course in Basic Immunology prior to enrollment in Advanced Immunology is recommended but not required. Lecture 3 hours per week. (Typically offered: Spring)

This course is cross-listed with BIOL 5343.

POSC 5352L. Immunology in the Laboratory. 2 Hours.

Laboratory course on immune-diagnostic laboratory techniques and uses of antibodies as a research tool. Included are cell isolation and characterization procedures, immunochemistry, flow cytometry, ELISA and cell culture assay systems. Laboratory 6 hours per week. Prerequisite: POSC 5343 or BIOL 5343 or BIOL 4713. (Typically offered: Spring)

This course is cross-listed with BIOL 5352L.

POSC 5443. Poultry Nutrition. 3 Hours.

(Formerly POSC 4343.) Principles of nutrition as applied to the formulation of practical chicken and turkey rations. Lecture 3 hours per week. Graduate degree credit will not be given for both POSC 4343 and POSC 5443. Prerequisite: CHEM 2613 or CHEM 3603. (Typically offered: Spring)

POSC 5742. Advanced Poultry Diseases. 2 Hours.

An in-depth coverage of the most important diseases of poultry with a focus on understanding mechanisms of pathogenesis, diagnostic techniques and principles of prevention. Lecture/discussion 2 hours per week. Prerequisite: POSC 3223. (Typically offered: Spring Odd Years)

POSC 5743L. Advanced Analytical Methods in Animal Sciences Laboratory. 3 Hours.

Introduction into theory and application of current advanced analytical techniques used in animal research. Two 3-hour laboratory periods per week. (Typically offered: Fall)

This course is cross-listed with ANSC 5743L.

POSC 5873. Molecular Analysis of Foodborne Pathogens. 3 Hours.

Course topics will include molecular detection and identification of foodborne pathogens, the molecular response of foodborne pathogens to their environments, functional genomic approaches, and analysis of complex microbial communities. Lecture/discussion 3 hours per week. (Typically offered: Fall)

POSC 5901. Graduate Seminar. 1 Hour.

Critical review of the current scientific literature pertaining to the field of poultry science. Oral reports. Recitation 1 hour per week. Prerequisite: Senior standing. (Typically offered: Fall and Spring)

POSC 5923. Brain and Behavior. 3 Hours.

Covers cellular through neural systems, major brain functions and comparative neuroanatomy. Topics include ion channels, membrane and action potentials, synaptic integration, neurotransmitters, major brain regions of mammals and birds, sensory and autonomic nervous systems, neuroendocrine system, and control by the brain of critical functions and behavior. Lecture 3 hours per week. Prerequisite: ANSC 3032 or POSC 3032 and ANSC 3042 or POSC 3042, or PSYC 2003, or BIOL 2213, or BIOL 2443, or BIOL 2533. (Typically offered: Fall)

This course is cross-listed with ANSC 5923.

POSC 5932. Cardiovascular Physiology of Domestic Animals. 2 Hours.

Cardiovascular physiology, including mechanisms of heart function and excitation, and blood vessel mechanisms associated with the circulatory system in domestic animals and poultry. Lecture 3 hours; drill 1 hour per week (for second 8 weeks of semester). Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: ANSC 3032 or POSC 3032 and ANSC 3042 or POSC 3042. (Typically offered: Fall)

This course is cross-listed with ANSC 5932.

POSC 5942. Endocrine Physiology of Domestic Animals. 2 Hours.

Endocrine physiology, including mechanisms of hormone secretion, function, and regulation. Mechanisms associated with the endocrine system will be discussed for domestic animals and poultry. Lecture 3 hours; drill 1 hour per week (for second 8 weeks of semester). Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: ANSC 3032 or POSC 3032 or POSC 3042. (Typically offered: Fall)

This course is cross-listed with ANSC 5942.

POSC 5952. Respiratory Physiology of Domestic Animals. 2 Hours.

Respiratory physiology, including mechanisms of lung function and gas exchange. Mechanisms associated with the interaction of the respiratory system with other bodily systems in domestic animals and poultry will be discussed. Lecture 3 hours; drill 1 hour per week for first 8 weeks of semester. Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: ANSC 3032 or POSC 3032 and ANSC 3042 or POSC 3042. (Typically offered: Spring)

This course is cross-listed with ANSC 5952.

POSC 5962. Gastrointestinal/Digestive Physiology of Domestic Animals. 2 Hours.

Gastrointestinal and hepatic physiology, including mechanisms of digestion, absorption of nutrients with emphasis on cellular control mechanisms in domestic animals and poultry. Lecture 3 hours; drill 1 hour per week (for second 8 weeks of semester). Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: ANSC 3032 or POSC 3032 and ANSC 3042 or POSC 3042. (Typically offered: Fall)

This course is cross-listed with ANSC 5962.

POSC 5972. Renal Physiology of Domestic Animals. 2 Hours.

Renal physiology, including mechanisms of renal clearance with emphasis on cellular control mechanisms in domestic animals and poultry. Lecture 3 hours; drill 1 hour per week (for second 8 weeks of semester). Pre- or Corequisite: CHEM 3813. Corequisite: Drill component. Prerequisite: ANSC 3032 or POSC 3032 and ANSC 3042 or POSC 3042. (Typically offered: Spring)

This course is cross-listed with ANSC 5972.

POSC 600V. Thesis. 1-6 Hour.

Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

POSC 6123. Advanced Food Animal Wellbeing. 3 Hours.

Advances in fundamentals of animal welfare including animal health, animal handling, food safety and productivity. Prerequisite: ANSC 2213 or BIOL 4833 or instructor consent. (Typically offered: Spring)

This course is cross-listed with ANSC 6123.

POSC 6343. Vitamin Nutrition in Domestic Animals. 3 Hours.

The vitamins required by domestic animals with emphasis upon their role in animal nutrition, physiological functions, and consequences of failure to meet the requirement of the animal. Lecture 3 hours per week. Prerequisite: (ANSC 3143 or POSC 4343) and CHEM 3813. (Typically offered: Spring Even Years)
This course is cross-listed with ANSC 6343.

POSC 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Psychology (PSYC)

Courses

PSYC 2003. General Psychology (ACTS Equivalency = PSYC 1103). 3 Hours.

An introduction to the field of Psychology, including the investigation of the biological bases of behavior; learning and cognitive processes; developmental and social psychology; and personality, psychopathology, and the treatment of psychological disorders. Students will be expected to complete a research requirement. (Typically offered: Fall, Spring and Summer)

PSYC 2003H. Honors General Psychology. 3 Hours.

An introduction to the field of Psychology, including the investigation of the biological bases of behavior; learning and cognitive processes; developmental and social psychology; and personality, psychopathology, and the treatment of psychological disorders. Students will be expected to complete a research requirement. (Typically offered: Fall and Spring)

This course is equivalent to PSYC 2003.

PSYC 2013. Introduction to Statistics for Psychologists. 3 Hours.

Introduction to the descriptive and inferential statistics commonly used by psychologists. A grade of C or better in PSYC 2013 is required as a prerequisite for PSYC 3073. Corequisite: Drill component. Prerequisite: PSYC 2003 and MATH 2043 or MATH 2053 or MATH 2554, with a grade of C or better, and a Psychology major. (Typically offered: Fall, Spring and Summer)

PSYC 206V. Directed Readings. 1-4 Hour.

For undergraduate majors in psychology. Prerequisite: Six hours of psychology; Instructor's permission. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PSYC 207V. Laboratory Experience. 1-4 Hour.

Laboratory experience in psychology obtained by working as part of a faculty member's research team. Prerequisite: PSYC 2003 and Instructor's permission. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PSYC 2173. Research Literacy in Psychological Science. 3 Hours.

Training in critical evaluation of research in psychological science, including understanding statistics and research methods used by psychologists. Prerequisite: PSYC 2003 and a psychology minor. (Typically offered: Fall and Spring)

PSYC 3013. Social Psychology. 3 Hours.

Theories and representative research in social psychology, emphasizing the influence of the social world on human behavior. Introduction to the problems, theories, and experiments of social psychology. Prerequisite: PSYC 2003. (Typically offered: Fall and Spring)

PSYC 3023. Abnormal Psychology. 3 Hours.

Theories and representative research about the causes and treatment of the major forms of abnormal behavior. Prerequisite: PSYC 2003. (Typically offered: Fall and Spring)

PSYC 3073. Research Methods. 3 Hours.

Training in execution and interpretation of experiments using the classical experimental designs. Limited enrollment. Prerequisite: PSYC 2013 and (MATH 2043, or MATH 2053, or MATH 2554) with a grade of "C" or better and a psychology major. (Typically offered: Fall and Spring)

PSYC 3093. Developmental Psychology (ACTS Equivalency = PSYC 2103). 3 Hours.

Theories and representative research in the psychological factors influencing development, including both hereditary and environmental influences, from conception through adolescence. Prerequisite: PSYC 2003. (Typically offered: Fall and Spring)

PSYC 3103. Cognitive Psychology. 3 Hours.

Introduction to theories and research in cognition including memory, language, and problem-solving. Prerequisite: PSYC 2003. (Typically offered: Spring)

PSYC 3923H. Honors Colloquium. 3 Hours.

Treats a special topic or issue, offered as part of the honors program. May be repeated when the content is changed. Prerequisite: honors candidacy (not restricted to candidacy in psychology). (Typically offered: Irregular) May be repeated for degree credit.

PSYC 399VH. Honors Course. 1-6 Hour.

Honors course. Prerequisite: Junior standing and instructor's permission. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

PSYC 4033. Educational Psychology. 3 Hours.

Psychological theories and concepts applied to the educational process. Investigates the learner and instructional variables in a wide range of educational settings. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Irregular)

PSYC 4053. Psychological Tests. 3 Hours.

Nature and theory of individual and group tests of intelligence, personality, interests, and attitudes. Prerequisite: Nine hours of psychology, including a C or better in PSYC 2013. (Typically offered: Irregular)

PSYC 4063. Psychology of Personality. 3 Hours.

Theories and representative research concerning the development and nature of the normal personality. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Irregular)

PSYC 4073. Psychology of Learning. 3 Hours.

Theories and representative research on basic principles of learning and memory in both animals and humans. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Spring)

PSYC 4083. Advanced Research. 3 Hours.

A lecture/laboratory course covering research in a specialized area of psychology. Provides experience with design, conduct, analysis, and presentation of research projects related to class topics. Successful completion of the class, including a formal paper in APA style, with a grade of C or better will fulfill the senior writing requirement. Prerequisite: Eighteen hours of psychology including a grade of at least a C in PSYC 3073 and senior standing. (Typically offered: Fall and Spring)

PSYC 409V. Psychology Seminar. 1-3 Hour.

Provides intensive coverage of specialized psychological topics. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

PSYC 4123. Perception. 3 Hours.

Theories and representative research in the areas of sensation and perception. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Irregular)

PSYC 4143. History and Systems of Psychology. 3 Hours.

Examination of the concepts, methods, and systems which have contributed to the development of modern psychology. Prerequisite: Fifteen hours of psychology and senior standing. (Typically offered: Irregular)

PSYC 4183. Behavioral Neuroscience. 3 Hours.

Examination of the biological basis of behavior. Surveys the anatomy, physiology, and pharmacology of the mammalian brain and examines brain mechanisms underlying a wide range of behaviors and cognitive processes. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Fall)

PSYC 4193. Comparative Psychology. 3 Hours.

Analysis of animal behavior from an evolutionary perspective, with emphasis on the role of the environment and interactions with other animals in shaping the evolution of behavior within a species, and the evolution of differences in behavior between species. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Spring)

PSYC 4283. Advanced Seminar. 3 Hours.

A seminar/discussion class covering research in specialized areas of psychology. Students will read original sources and present their ideas and conclusions several formats. Successful completion of the class, including a formal paper in APA style, with a grade of C or better will fulfill the senior writing requirement. Prerequisite: Eighteen hours of psychology including a grade of at least a C in PSYC 3073; senior standing. (Typically offered: Fall and Spring)

PSYC 5013. Advanced Developmental Psychology. 3 Hours.

Critical examination of the research relevant to the psychological factors influencing the growth processes of the individual from birth to maturity. (Typically offered: Spring)

PSYC 5023. Neuropsychological Assessment. 3 Hours.

Introduction to the principles, techniques, and tools of assessment in clinical neuropsychology. Includes training in the interpretation, integration, and reporting of results. Prerequisite: PSYC 5043 and enrollment in the Psychology graduate program. (Typically offered: Irregular)

PSYC 5033. Psychopathology Theory & Assessment. 3 Hours.

Psychological and somatic factors contributing to pathological behavior. Interrelations of these factors will be analyzed in terms of how they lead to differential abnormal states. Includes guidelines for using structured interviews in the diagnosis and clinical assessment of major psychological disorders. Prerequisite: PSYC 3023 and enrollment in the Graduate Program in Psychology, or instructor consent. (Typically offered: Fall)

PSYC 5043. Assessment of Intellectual and Cognitive Abilities. 3 Hours.

Training in the theory, administration and interpretation of individual tests of intelligence and mental ability. Prerequisite: PSYC 4053 and enrollment in the Psychology Graduate Program. (Typically offered: Fall)

PSYC 5063. Advanced Social Psychology. 3 Hours.

Theory, methodology, and contemporary research in the major areas of social psychology. Topics include attitude theory and measurement, group processes, social and cultural factors. (Typically offered: Spring)

PSYC 5073. Introduction to Clinical Practice: Core Skills and Ethical Guidelines. 3 Hours.

An introduction to clinical practice focusing on a) interview methods and techniques and b) ethical principles and guidelines. Includes an introduction to clinic policies and procedures. Prerequisite: Enrollment in the Psychology graduate program. (Typically offered: Spring)

PSYC 5080. Observational Practicum. 0 Hours.

Observation of senior therapists in the provision of psychodiagnostic and psychotherapeutic techniques. Pre- or Corequisite: Doctoral students only. (Typically offered: Fall, Spring and Summer) May be repeated for up to 0 hours of degree credit.

PSYC 5113. Theories of Learning. 3 Hours.

Major concepts in each of the important theories of learning. (Typically offered: Fall)

PSYC 5123. Cognitive Psychology. 3 Hours.

Contemporary theories and research on human information processing including topics such as memory, language, thinking, and problem solving. (Typically offered: Spring Even Years)

PSYC 5133. Inferential Statistics for Psychology. 3 Hours.

Inferential statistics, including representative parametric tests of significance. Special emphasis on analysis of variance, covariance, and component variance estimators as applied to psychological research. Prerequisite: PSYC 2013. (Typically offered: Fall)

PSYC 5143. Advanced Descriptive Statistics for Psychology. 3 Hours.

Special correlation techniques followed by a survey of representative nonparametric tests of significance. Major emphasis on advanced analysis of variance theory and designs. Prerequisite: PSYC 5133. (Typically offered: Spring)

PSYC 5153. Advanced History and Systems of Psychology. 3 Hours.

Advanced examination of the concepts, methods, and systems which have contributed to the development of modern psychology. (Typically offered: Fall)

PSYC 5163. Personality: Theory & Assessment. 3 Hours.

An introduction to empirically based theories of personality and personality disorders with an emphasis on standardized instruments in the assessment of normative and pathological personality. Includes training in the interpretation, integration, and reporting of results. Pre- or Corequisite: PSYC 5043. Prerequisite: Enrollment in the Psychology graduate program or instructor consent. (Typically offered: Spring)

PSYC 5223. Perception. 3 Hours.

(Formerly PSYC 4123.) Theories and representative research in the areas of sensation and perception. Graduate degree credit will not be given for both PSYC 4123 and PSYC 5223. Prerequisite: Six hours of psychology, not including PSYC 2013. (Typically offered: Irregular)

PSYC 523V. Research Practicum. 1-3 Hour.

Presentation, evaluation, and discussion of on-going research proposals. Required of all experimental graduate students in the first 2 years of their program. (Typically offered: Fall and Spring)

PSYC 5313. Introduction to Clinical Science: Research Design and Ethical Guidelines. 3 Hours.

Provides a) guidelines for designing and conducting empirical research in clinical psychology, b) ethical principles that regulate clinical research, and c) supervised opportunities to develop a clinical research proposal. Prerequisite: Enrollment in the Psychology graduate program. (Typically offered: Fall)

PSYC 5463. Descriptive Linguistics. 3 Hours.

This course aims to approach a scientific study of language with primary emphasis on modern linguistic theory and analysis. Topics include phonology, morphology, syntax, semantics, language acquisition, and historical development of world languages. (Typically offered: Irregular)

This course is cross-listed with WLLC 5463, ANTH 5473, ENGL 5463.

PSYC 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PSYC 602V. Seminar: Teaching Psychology. 1-3 Hour.

Survey of the literature on teaching of psychology in college. Includes: planning the course, method, examining and advising students. Prerequisite: Teaching assistant. (Typically offered: Fall and Spring)

PSYC 607V. Clinical Practicum III. 1-3 Hour.

Provides supervised experience in the application of the more complex and lesser known psychodiagnostic techniques and training and experience in psychotherapeutic techniques with the more severe functional disorders, with special topics in these domains emphasized across sections. Prerequisite: PSYC 5073; Enrollment in the Psychology graduate program. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PSYC 609V. Clinical Graduate Seminar. 1-3 Hour.

Provides intensive coverage of specialized clinical topics. Open to all graduate students. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

PSYC 611V. Individual Research. 1-18 Hour.

Individual research. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

PSYC 6133. Advanced Behavioral Neuroscience. 3 Hours.

Examination of the biological basis of behavior, with emphasis on underlying neural mechanisms. (Typically offered: Fall)

PSYC 6163. Psychotherapy. 3 Hours.

A conceptual overview of psychotherapy, with emphasis on a) common mechanisms, and b) cognitive, affective, and interpersonal approaches. Prerequisite: PSYC 5033. (Typically offered: Fall)

PSYC 6213. Psychotherapy Outcomes. 3 Hours.

Provides a critical evaluation of theory and research on empirically supported programs and interventions for major psychological disorders. Prerequisite: Enrollment in the Psychology graduate program. (Typically offered: Spring)

PSYC 6323. Seminar in Developmental Psychology. 3 Hours.

Discussion of selected topics in the area of human development. Emphasis will be on a review of current theory and empirical research. Topics selected for discussion could range from early development (child psychology), to later development (psychology of adulthood and aging-gerontology), to current attempts to integrate the field (life-span developmental psychology). (Typically offered: Fall Odd Years)

PSYC 6343. Seminar in Quantitative Methods. 3 Hours.

Discussion of selected mathematical approaches to theorizing and research in psychology. Emphasis will be on generalization of a given approach across several content areas of psychology. Hence, while each area must be treated in reasonable depth, current thinking and research spanning more than one content area will be stressed. (Typically offered: Irregular)

PSYC 6353. Seminar in Learning/Memory/Cognition. 3 Hours.

Discussion of selected topics in learning, memory, or cognition. Emphasis on current theory and empirical research. Topics selected for discussion may be in the areas of learning, memory, problem solving, or language. (Typically offered: Spring Odd Years)

PSYC 6373. Seminar in Personality and Social Psychology. 3 Hours.

Discussion of selected topics in social psychology and personality. Current theoretical positions and recent research findings are emphasized. Topics selected for discussion will be in areas of intrapersonal processes, interpersonal processes, group processes or any of various areas of personality. (Typically offered: Fall)

PSYC 6413. Seminar in Physiological Psychology. 3 Hours.

Discussion of selected topics in physiological psychology. Emphasis will be on a review of current theory and empirical research. Each offering of the seminar will examine the biological basis of a specific aspect of behavior, utilizing both animal and human data. (Typically offered: Spring Odd Years)

PSYC 698V. Field Work. 1-3 Hour.

Provides academic credit for field work in multidisciplinary setting, involving supervised experiences in assessment and psychotherapy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PSYC 699V. Clinical Psychology Internship. 1-3 Hour.

Supervised experience in a multidisciplinary setting of assessment and psychotherapy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PSYC 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Public Administration (PADM) Courses

PADM 5803. Quantitative Methods Analysis. 3 Hours.

Data analysis techniques, including descriptive and inferential statistics and packaged computer programs. Prerequisite: Graduate standing. (Typically offered: Fall)

PADM 5813. Managing Information Technologies in Public Affairs. 3 Hours.

Examines digital interactions between citizens, institutions, and political interests from the perspective of analysts, civic leaders, and professional non-technical administrators. Explores timely issues related to public information transactions, ethics and best practices of public information management, and the strategic positioning of public information assets. Prerequisite: Graduate standing. (Typically offered: Spring)

PADM 5823. Grant Writing for the Social Sciences. 3 Hours.

This course will teach students the fundamentals of obtaining grants from local, state and federal agencies. (Typically offered: Irregular)

PADM 5833. Urban Planning. 3 Hours.

Reviews the many forms, functions, and purposes of American cities. Covers basic planning theories, surveys the various sub-fields of planning, discusses trends in the planning field, and utilizes computer simulations. (Typically offered: Fall)
This course is cross-listed with PLSC 4103.

PADM 5853. Performance Measurement in the Public and Nonprofit Sectors. 3 Hours.

Provides a hands-on approach for measuring organizational performance and using performance information of decision making. Addresses components and key issues of performance measurement, such as steps in the measurement process, methods of data gathering, and analysis. Prerequisite: PLSC 5193. (Typically offered: Summer)

PADM 5863. Issues in Public and Nonprofit Management. 3 Hours.

Explores current developments and themes in the theory and practice of public and nonprofit management. Covers a range of contemporary issues in the field, such as managing collaborative networks, e-government, and managing for results. Emerging trends are intensively discussed at the juncture of theory and practice. (Typically offered: Spring)

PADM 587V. Professional Development. 1-6 Hour.

Encompasses internships, professional projects if individual is employed full-time and not eligible for an internship, conference and workshop participation, and other activities conducive to the students development as a public service professional. (Typically offered: Fall, Spring and Summer)

PADM 588V. Directed Readings. 1-3 Hour.

Directed readings. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

PADM 589V. Independent Research. 1-3 Hour.

Independent Research. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

PADM 5903. Risk and Public Policy. 3 Hours.

Examines how concepts of risk serve to justify and shape public policies and risk management practices. (Typically offered: Spring)

PADM 5913. Policy Analysis: Theory and Practice. 3 Hours.

Provides a firm theoretical foundation in, and an ability to apply, the general instruments necessary for professional practice of policy analysis. (Typically offered: Fall)

Public Health (PBHL) Courses

PBHL 1103. Personal Health and Safety. 3 Hours.

Health and safety problems with emphasis on the promotion of individual health and safety. (Typically offered: Fall and Spring)

PBHL 1103H. Honors Personal Health and Safety. 3 Hours.

Health and safety problems with emphasis on the promotion of individual health and safety. Prerequisite: Honors standing. (Typically offered: Fall and Spring)

This course is equivalent to PBHL 1103.

PBHL 1203. Prevention of Drug Abuse. 3 Hours.

Provides an overview of drugs of use and abuse in society. Also assists the student in evaluating drug abuse prevention approaches for public, private, or community settings. (Typically offered: Fall)

PBHL 1303. Introduction to Human Sexuality. 3 Hours.

An examination of human sexuality with a critical analysis of male and female attitudes and values affecting self-understanding and gender identity. (Typically offered: Fall and Spring)

PBHL 1303H. Honors Introduction to Human Sexuality. 3 Hours.

An examination of human sexuality with a critical analysis of male and female attitudes and values affecting self-understanding and gender identity. (Typically offered: Fall and Spring)

This course is equivalent to PBHL 1303.

PBHL 2101. Special Topics. 1 Hour.

Examination and application of health promotion concepts based on individualized health hazard appraisal. (Not to replace content courses leading to teacher certification in health education). (Typically offered: Fall and Spring) May be repeated for up to 5 hours of degree credit.

PBHL 2663. Terminology for the Health Professions. 3 Hours.

Emphasis is on word roots and combined forms of words describing various facets of health and disease. Descriptive definitions with application of practical significance included for the health professional. (Typically offered: Spring)

PBHL 310V. Seminar in Public Health. 1-3 Hour.

Synthesis and critical analysis of current literature in the area of community health promotion. Prerequisite: PBHL majors only. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

PBHL 3202. Health Care and Public Health Policy. 2 Hours.

This course provides an introduction to health care services, inclusive of the characteristics and structure of the U.S. health care delivery system and comparison to other health systems. Aspects of public health policy, laws, ethics, and economics will be examined. Upon completion of the course, students are expected to demonstrate an understanding of the key elements of the health care industry as it pertains to medical care and public health, including an understanding of the roles of health care providers, public and private payers, the role of government, and challenges facing health care systems. Pre- or Corequisite: PBHL 1103 and PBHL 3443. (Typically offered: Spring)

PBHL 3202H. Honors Health Care and Public Health Policy. 2 Hours.

This course provides an introduction to health care services, inclusive of the characteristics and structure of the U.S. health care delivery system and comparison to other health systems. Aspects of public health policy, laws, ethics, and economics will be examined. Upon completion of the course, students are expected to demonstrate an understanding of the key elements of the health care industry as it pertains to medical care and public health, including an understanding of the roles of health care providers, public and private payers, the role of government, and challenges facing health care systems. Pre- or Corequisite: PBHL 1103, PBHL 3443, and honors standing. (Typically offered: Spring)

This course is equivalent to PBHL 3202.

PBHL 333V. Research in Public Health. 1-3 Hour.

This course is intended for undergraduate students who wish to gain research experience under the direction of a faculty mentor. Students will work independently and collaborate with faculty member(s) and fellow students to conduct research in a specified area of interest. The purpose of the course is for the student to develop knowledge in her/his own domain, strengthen her/his research skills, and work collaboratively on research projects. The directed research course places more emphasis on the students' role as a researcher in an academic setting. Prerequisite: Instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

PBHL 333VH. Honors Research in Public Health. 1-3 Hour.

This course is intended for undergraduate students who wish to gain research experience under the direction of a faculty mentor. Students will work independently and collaborate with faculty member(s) and fellow students to conduct research in a specified area of interest. The purpose of the course is for the student to develop knowledge in her/his own domain, strengthen her/his research skills, and work collaboratively on research projects. The directed research course places more emphasis on the students' role as a researcher in an academic setting. Prerequisite: Instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

This course is equivalent to PBHL 333V.

PBHL 3443. Introduction to Public Health. 3 Hours.

This course is intended for undergraduate students and will focus on the foundations of public health as a profession and its future outlook. Public health concepts and practice. Topics include philosophy, purpose, history, organization, functions, tools, activities and results at national, state, and community levels. (Typically offered: Fall and Spring)

This course is equivalent to PBHL 2613.

PBHL 3633. First Responder-First Aid. 3 Hours.

Prepares persons to administer cardiopulmonary resuscitation and emergency aid to victims of serious bleeding, poisoning, shock, fracture, and other forms of injury until emergency medical services personnel arrive at the scene. (Typically offered: Irregular)

PBHL 3643. Public Health Program Planning and Evaluation. 3 Hours.

Emphasis on community analysis; defining and verifying community health problems; establishing program goals; defining and assessing health behaviors; formulating educational goals, objectives, methods, and activities; promoting programs; and designing program evaluation. (Typically offered: Fall)

PBHL 3663. Principles and Practice of Mental Health Promotion. 3 Hours.

Understanding and practicing the principles of sound mental health are key elements in achieving high level wellness. This course encourages students' exploration of the mental dimensions of holistic health and presents strategies to achieve a more healthful balance in life. (Typically offered: Irregular)

PBHL 3683. Health Care Consumerism. 3 Hours.

Study of products and services provided by the health care delivery system; an analysis of those components lacking scientific credibility, yet promoted for the maintenance or restoration of health status. (Typically offered: Irregular)

PBHL 3683H. Honors Health Care Consumerism. 3 Hours.

Study of products and services provided by the health care delivery system; an analysis of those components lacking scientific credibility, yet promoted for the maintenance or restoration of health status. (Typically offered: Spring Even Years)
This course is equivalent to PBHL 3683.

PBHL 3901H. Honors Public Health Thesis Tutorial. 1 Hour.

Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work "one-on-one" exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy and PBHLBS major. (Typically offered: Fall, Spring and Summer)

PBHL 4043. Internship in Public Health. 3 Hours.

Designed to provide the student with an extended work experience in a selected community/public health program. The student works under college supervision with a professional in the health care delivery field. Pre- or Corequisite: PBHL 3643 and PBHL 4603. Prerequisite: Senior standing and successful completion of PBHL 1103. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

PBHL 410V. Global Health: Issues, Concepts and Perspectives. 3-6 Hour.

Emphasis placed on needs assessment, development, implementation, evaluation, and sustainability of public health initiatives designed to improve the health and well-being of community members at all levels of the health continuum; topics of focus will include determinants of health, mental health, environmental health, nutrition, maternal and child health, sexual health, injuries and chronic and infectious diseases. Prerequisite: Approval from Study Abroad to participate in the Community Development Service Learning Program. (Typically offered: Summer)

PBHL 410VH. Honors Global Health: Issues, Concepts and Perspectives. 3-6 Hour.

Emphasis placed on needs assessment, development, implementation, evaluation, and sustainability of public health initiatives designed to improve the health and well-being of community members at all levels of the health continuum; topics of focus will include determinants of health, mental health, environmental health, nutrition, maternal and child health, sexual health, injuries and chronic and infectious diseases. Prerequisite: Approval from Study Abroad to participate in the Community Development Service Learning Program. (Typically offered: Summer)
This course is equivalent to PBHL 410V.

PBHL 4401. Certified Health Education Specialist: Responsibilities and Competencies. 1 Hour.

This course is an overview of the competencies necessary for being a Certified Health Education Specialist (CHES), and also of the concepts and skills required for carrying out effective health education programs in a variety of different settings, including School, Community, Health Care and Worksite settings. Through a combination of self study, seminar discussions, and research projects, a thorough understanding of the competencies and core concepts in the fields of public health and health promotion will be attained. While the emphasis of the course is placed on studying for the CHES examination, the course will also provide a format to further your preparation as a professional health educator. Prerequisite: PBHL major. (Typically offered: Spring Odd Years)

PBHL 4553. Environmental Health. 3 Hours.

This course explores current environmental problems and issues related to public health. Topics include health risk assessment, management, and communication; sources of pollution, environmental and health effects of war, food safety and other environmental health topics. Also discussed are the roles of the environment in human health and disease, the basic principles of environmental health practice, and major environmental health legislation and policy. Format for course will include lecture web based seminars, and small group seminars. (Typically offered: Irregular)

PBHL 4603. Health Behavior: Theories and Application. 3 Hours.

Understanding the reasons for health behavior is vital for the health education professional. It is necessary to assist in the development of services and programs that are likely to move an individual from an unhealthy behavior to one that is more appropriate for a healthy lifestyle. This course surveys the major health behavior theories used in health education and applications of the theories will be used in the class. Prerequisite: PBHL 2613 or PBHL 3443. (Typically offered: Fall)

PBHL 4613. Principles of Epidemiology. 3 Hours.

Distribution and patterns of disease or physiological conditions within populations; an examination of the nature of epidemiological research. (Typically offered: Fall)

PBHL 4623. Human Diseases. 3 Hours.

An examination of the variety, behavior, distribution, and management of both infectious and noninfectious diseases in human populations. Prerequisite: BIOL 1603 (or BIOL 1543 and BIOL 1541L). (Typically offered: Irregular)

PBHL 4643. Multicultural Health. 3 Hours.

Through lecture, discussion, simulations, and case studies, students will develop an appreciation for the cultural traditions and practices of different groups. The importance and implications of these traditions on health outcomes and health status will be examined. Students will also develop skills of cultural competence that are essential for public health practitioners today. Prerequisite: Senior standing or consent. (Typically offered: Spring and Summer)

PBHL 4643H. Honors Multicultural Health. 3 Hours.

Through lecture, discussion, simulations, and case studies, students will develop an appreciation for the cultural traditions and practices of different groups. The importance and implications of these traditions on health outcomes and health status will be examined. Students will also develop skills of cultural competence that are essential for public health practitioners today. Prerequisite: Senior standing or consent. (Typically offered: Spring and Summer)
This course is equivalent to PBHL 4643.

PBHL 498VH. Honors Public Health Thesis/Project. 1-3 Hour.

Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work "one-on-one" to complete the honors thesis/project. Prerequisite: Honors candidacy, PBHLBS major, and PBHL 3901H. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

PBHL 5023. Teaching in Community Health Promotion. 3 Hours.

Examination and practical exposure to the principles and practices of undergraduate teaching in public health. Includes course planning, teaching techniques, assessment strategies, and supervised practice. Prerequisite: Admission to the M.S. or Ph.D. program in Community Health Promotion. (Typically offered: Fall and Spring) May be repeated for up to 3 hours of degree credit.

PBHL 5213. Evaluation of Public Health Programs. 3 Hours.

This seminar style course is designed to provide students with exposure to different types of program evaluation, including needs assessment, formative evaluation, process evaluation, and outcome and impact evaluation. The course covers theoretical frameworks supporting evaluation, ethics in evaluation, methods for data collection, reporting evaluation findings, and strengths and limitations of conducting program evaluation. Prerequisite: PBHL 5563 and HHPR 5353. (Typically offered: Fall)

PBHL 5353. Health Counseling. 3 Hours.

A review of the role and function of the health counselor including a focus on problem solving approaches for coping with daily problems of living, decision making, and life style planning. (Typically offered: Fall Odd Years)

PBHL 5533. Theories of Social and Behavioral Determinants of Health. 3 Hours.

This course will provide a basic foundation in the social and behavioral sciences relevant to public health. Students will learn the role of social and behavioral determinants in the health of individuals and of populations. Then, students will learn models and theories of health behavior, both generally and specifically. Generally, the student will learn how to identify, analyze, and use theoretical constructs and principles with particular attention to the use of theory in professional public health practice. Specifically, the student will learn the constructs and principles of several theories commonly used in public health behavior research and intervention design. The course will cover the four major individual that focus on intrapersonal factors (i.e., Health Belief Model, Transtheoretical Model, Theory of Reasoned Action/Planned Behavior, and Social Cognitive Theory) as well as several social, organizational, and community theories that are beyond the individual level. (Typically offered: Fall)

PBHL 5543. Contemporary Issues in Human Sexuality. 3 Hours.

Indepth analysis of the social, biological, and behavioral factors associated with the development of one's sexuality. (Typically offered: Irregular)

PBHL 5563. Public Health: Practices and Planning. 3 Hours.

Acquaints the student with the structure, functions, and current problems in public health and with the role of education in public health. Prevention and control practices and planning will be emphasized. Prerequisite: PBHL 5573. (Typically offered: Spring)

PBHL 5573. Principles of Health Education. 3 Hours.

Current trends, basic issues, controversial issues, and fundamental principles of health education. (Typically offered: Fall)

PBHL 5613. Epidemiology. 3 Hours.

This course will present principles and practices related to the prevention and control of health-related conditions in the human population. Emphasis will be placed on understanding the concepts of epidemiology, including aspects of disease distribution, epidemiologic methods, risk of disease and injury, descriptive and analytic epidemiologic methods and study designs, and application of epidemiologic data to the prevention and control of disease. Format will include lecture and small group seminars. (Typically offered: Fall)

PBHL 5623. Human Diseases. 3 Hours.

(Formerly PBHL 4623.) An examination of the variety, behavior, distribution, and management of both infectious and noninfectious diseases in human populations. Graduate degree credit will not be given for both PBHL 4623 and PBHL 5623. (Typically offered: Irregular)

PBHL 5633. Health Services Administration. 3 Hours.

Emphasis is on an examination of administrative factors related to health services. Administrative and professional authority, boards, consumers, delivery of services, federal role, and cost containment will also be addressed. (Typically offered: Irregular)

PBHL 5643. Multicultural Health. 3 Hours.

Through lecture, discussion, simulations, and case studies, students will develop an appreciation for the cultural traditions and practices of different groups. The importance and implications of these traditions on health outcomes and health status will be examined. Particular attention will be paid to the role of the public health educator in mediating the impact of health disparities, including advocacy. Students will develop skills of cultural competence that are essential for public health practitioners today. Prerequisite: Graduate standing or consent. (Typically offered: Spring Even Years)

PBHL 574V. Internship. 1-6 Hour.

Internship in health behavior and health promotion. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

PBHL 589V. Independent Research. 1-6 Hour.

Development, implementation, and completion of graduate research project. Prerequisite: M.S. degree in Community Health Promotion and HHPR 5353 and ESRM 5393. (Typically offered: Fall, Spring and Summer)

PBHL 600V. Master's Thesis. 1-6 Hour.

Thesis in health behavior and health promotion. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

PBHL 6013. Advanced Directed Research. 3 Hours.

This course is intended for doctoral students who wish to pursue research under the direction of a faculty member. In this course, doctoral students will work independently and collaborate with faculty member(s) and fellow students to conduct research in a specified area of interest. The purpose of the course is for the student to develop knowledge in her/his own domain, strengthen her/his research skills, and work collaboratively on research projects. The course will aim for students to present research findings at conferences and/or publish research findings in peer reviewed journals. The directed research course places more emphasis on the students' role as a researcher in an academic setting. Prerequisite: Admission to the Ph.D. program in Community Health Promotion. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

PBHL 605V. Independent Study. 1-6 Hour.

Provides students with an opportunity to pursue special study of education problems. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PBHL 6333. Health Behavior Research. 3 Hours.

A review of human behavior and its relationship to health and wellbeing. Focuses on contemporary health behavior research and instrumentation. (Typically offered: Fall Even Years)

PBHL 6553. Environmental Health. 3 Hours.

An analysis and evaluation of the various environmental factors that influence our health. Causes of problem factors are identified and solutions proposed for improving environmental conditions. (Typically offered: Spring)

PBHL 6733. Health and the Aging Process. 3 Hours.

An overview of the health-related issues facing elderly populations with in-depth study of the biological and behavioral changes associated with aging. (Typically offered: Irregular)

PBHL 6803. Health Communication Theory, Research and Practice. 3 Hours.

This course is designed to acquaint you with the role of communication in health education and with basic principles and practices in interpersonal, group, and mass communication. Health communication theory will be discussed in the first part of the semester, followed by important research in the area of health communication, and finally putting to practice the material will be the terminal experience for the course. (Typically offered: Spring Odd Years)

PBHL 6833. Principles of Epidemiology II. 3 Hours.

Provides students with knowledge and skills necessary to design, conduct, and interpret observational epidemiological concepts, sources of data, prospective cohort studies, retrospective cohort studies, case-control studies, cross-sectional studies, methods of sampling, estimating sample size, questionnaire design, and effects of measurement error. Corequisite: ESRM 5393 or ESRM 6403. (Typically offered: Spring and Summer)

PBHL 699V. Seminar. 1-6 Hour.

Discussion of selected topics and review of current literature in community health promotion. Prerequisite: Advanced graduate standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

Public Policy (PUBP) Courses

PUBP 6001. Pro-Seminar. 1 Hour.

An introduction to the field of public policy and to the program. The seminar will address topics such as the meaning of public policy, policy research, the dissertation process, and particular issues of public policy concern. Prerequisite: Admission to program. (Typically offered: Fall)

PUBP 6013. Theories of Public Policy. 3 Hours.

This seminar introduces doctoral students to the major concepts, frameworks, and theories of public policy. Emphasis is on the usefulness and limitations of these frameworks and theories in empirical research. Prerequisite: Graduate standing. (Typically offered: Fall)

PUBP 6023. Law and Public Policy. 3 Hours.

This course focuses on the legal aspects of public policy, with emphasis on the regulatory process and its legal constraints. Also considered are the process of administrative decision making, judicial review, legislative oversight, and public access to government information. (Typically offered: Fall)

PUBP 6033. Community Development Policy and Practice. 3 Hours.

This course examines multiple community development definitions, the community capitals framework as well as theories, conceptual frameworks and processes and how these are linked, both historically and currently, to broad-based US public policy and specifically, housing and workforce development policies. (Typically offered: Summer)

PUBP 604V. Special Topics in Public Policy. 1-6 Hour.

Designed to cover specialized topics not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

PUBP 6103. Policy Planning, Implementation, and Evaluation. 3 Hours.

This interdisciplinary seminar will explore the relationship between policy, public administration, and organizations in the community. Stakeholder groups will be considered as part of the newer approaches to practice-driven scholarship. The class will examine innovative approaches to decision making, strategic management and policy leadership in complex interorganizational and interagency settings. (Typically offered: Irregular)

PUBP 6113. Agenda Setting and Policy Formulation. 3 Hours.

Introduces agenda and policy formation focusing on the classic theoretical and empirical literature. The course is designed to introduce graduate students to a variety of theories typologies, concepts, and ideas relating to the study of public policy. (Typically offered: Fall)

PUBP 612V. Research Problems in Policy. 1-6 Hour.

Research problems. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

PUBP 6134. Capstone Seminar in Public Policy. 4 Hours.

This course is intended to integrate various policy interests in a specific community based project. Prerequisite: Instructor permission required. (Typically offered: Fall and Spring)

PUBP 6143. Mixed Method Research Design. 3 Hours.

Mixed method research is a multi-point research strategy that combines quantitative and qualitative research strategies into a single research project. (Typically offered: Irregular)

PUBP 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Recreation and Sport Management (RESM) Courses

RESM 1003. Professional Foundations of Recreation and Sport Management. 3 Hours.

An analysis of the historical and philosophical development of recreation, sport and leisure. Theories of play, recreation, sport and leisure are studied. Economic, political, technical, and social forces are examined as these influence recreation, sport, parks, and leisure services is examined in context with diverse service delivery systems. Prerequisite: RESM major or RESM minor or instructor consent. (Typically offered: Fall, Spring and Summer)

RESM 1023. Recreation and Natural Resources. 3 Hours.

An examination of the use and management of natural resources for outdoor recreation with consideration of multiple use, environmental ethics, risk management, and other current considerations. Several field visits will be required as part of the class, including a weekend outing. Prerequisite: RESM major or RESM minor or by instructor consent. (Typically offered: Fall, Spring and Summer)

RESM 2011. Recreation and Sport Practicum. 1 Hour.

Students are assigned to assist in leisure-oriented programs for exposure to organizational structure, services, and programming of cooperating recreational and sport agencies. Students may take 1-3 hours per semester; each credit hour is a 45-hour experience. Students must complete 3 different experiences before internship. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

RESM 2063. Commercial Recreation and Sport. 3 Hours.

Examination of the commercial recreation and sport industries. The operational requirement of a wide range of recreation businesses will be studied. Case study and field investigation methods will be emphasized. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 2093. Inclusive and Special Recreation and Sport. 3 Hours.

An introduction to the basic concepts of inclusive and special recreation and sport services integrated with knowledge and skill sets required to provide accessible recreation and leisure programming for people with disabilities. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Spring)

RESM 2813. Recreation and Sport Leadership. 3 Hours.

Development of knowledge related to leadership theory, group dynamics, and face to face leadership techniques. Students gain an understanding of leadership theories as they are applied in a field setting. Pre- or Corequisite: COMM 1313. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 2853. Leisure and Society. 3 Hours.

This course is an examination of leisure and its effect on society. Course content includes identification and exploration of motivating factors related to various traditional and contemporary leisure expressions as it occurs across diverse populations. (Typically offered: Fall, Spring and Summer)

RESM 2853H. Honors Leisure and Society. 3 Hours.

This course is an examination of leisure and its effect on society. Course content includes identification and exploration of motivating factors related to various traditional and contemporary leisure expressions as it occurs across diverse populations. (Typically offered: Fall and Spring)
This course is equivalent to RESM 2853.

RESM 3023. Sport Management Fundamentals. 3 Hours.

This course is designed to present an overview of the fundamentals of sport management in professional and intercollegiate sport, as well as issues facing sport organizations and how management techniques can be applied to solve sport business problems. A description of career opportunities in sport will be presented with special interest in helping the student design a course of study that best meets his/her goals. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Fall)

RESM 3833. Program Planning in Recreation and Sport. 3 Hours.

Development of the fundamentals of program planning using modern techniques of identifying and analyzing program activity areas and community needs. Includes program development and application with a variety of population groups and representative leisure service areas. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Spring)

RESM 3843. Recreation and Sport Facilities. 3 Hours.

Planning concepts, design principles, and maintenance techniques are emphasized. Also, technical design concepts and firsthand experiences in maintenance of facilities are included. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Spring)

RESM 3873. Sport and Recreation Risk Management. 3 Hours.

In-depth look at risk management and related legal issues affecting recreation and sport administration. Pre- or Corequisite: RESM major or RESM minor or by instructor consent. Prerequisite: Junior standing, and RESM 1003 with a grade of C or better. (Typically offered: Fall)

RESM 3883. Marketing and Promotion in Recreation and Sport Management. 3 Hours.

This course provides an overview of the principles and practices of promotions and marketing in the recreation and sport industry. Topics include sport marketing planning, market segmentation and identification of the target market, marketing mix, and sponsorship. Credits: three hours. Prerequisite: RESM 1003 with a grade of C or better, and ECON 2143 or ECON 2013 and ECON 2023. (Typically offered: Fall and Spring)

RESM 3901H. Honors Recreation and Sport Management Thesis Tutorial. 1 Hour.

Designed to provide the foundation for the Honors Thesis/Project. Students and faculty tutors work "one-on-one" exploring a specific topic which has been agreed upon by the student and the professor. Prerequisite: Honors candidacy, RESMBS major, and RESM 1003 with a grade of C or better. (Typically offered: Fall, Spring and Summer)

RESM 4003. Management in Recreation and Sport. 3 Hours.

Management techniques for recreation and sport programs and facilities. Prerequisite: RESM 1003 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 4013. Contemporary Issues in Leisure and Sport. 3 Hours.

Discussion of selected topics and review of current literature in the recreation and sport field. Analysis of current trends and professional issues are emphasized. Certification at the instructor level or higher in at least 2 areas of expertise must be completed before a grade is assigned in this course. Prerequisite: Senior standing and RESM 1003 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 4023. Outdoor Adventure Leadership. 3 Hours.

This course considers the values and scope of outdoor recreation programs, leadership and skill development with practical experience in a wilderness environment. The course will include a canoe trip through the wilderness, and skill training in such areas as orienteering and rock climbing; and leadership development in interpersonal and processing skills. The graduate portion of the class is geared toward leading and trip planning for taking college age and older students into remote areas. (Typically offered: Summer)

RESM 405V. Independent Study in Recreation and Sport. 1-3 Hour.

Provides student an opportunity to pursue special study of research problems. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

RESM 4083. Research in Recreation and Sport. 3 Hours.

An introduction to the applied methods and techniques of research and evaluation in recreation and sport services. General consideration given to research applications such as needs assessment, program evaluation, and marketing studies. Emphasis placed on the logic underlying the research process. Prerequisite: Senior standing and RESM 1003 with a grade of C or better. (Typically offered: Fall and Spring)

RESM 4083H. Honors Research in Recreation and Sport. 3 Hours.

An introduction to the applied methods and techniques of research and evaluation in recreation and sport services. General consideration given to research applications such as needs assessment, program evaluation, and marketing studies. Emphasis placed on the logic underlying the research process. Prerequisite: Honors candidacy and RESM 1003 with a grade of C or better. (Typically offered: Fall and Spring) This course is equivalent to RESM 4083.

RESM 4273. The Intramural Sports Program. 3 Hours.

Historical development, aim and objectives, organization, administration, units of competition, program of activities, schedule making, scoring plans, rules and regulations, awards, and special administrative problems. (Typically offered: Fall Odd Years)

RESM 4283. History and Application of American Sport. 3 Hours.

This survey course will explore the historical development of sport in American culture and the processes of change in American culture and sport from the 15th century to the present. Students will learn how to apply historical concepts to current issues in recreation and sport management. (Typically offered: Irregular)

RESM 440V. Internship. 1-12 Hour.

This experiential based course requires 40 hours per week of work in an approved agency for a full semester. It is recommended that students register for the summer session after completion of their course work. Prerequisite: RESM 3873 and two hours of RESM 2011 with grades of C or better. (Typically offered: Fall, Spring and Summer)

RESM 4411. Pre-Internship Preparation. 1 Hour.

Enables student preparation for internship experiences and eventual employment. Course will assist students in preparation of resumes; provide opportunities for interview practice; the development of job search and application skills, as well as other requisites for entering the professional workforce. Prerequisite: Senior standing and RESM 1003 with a grade of C or better. (Typically offered: Fall)

RESM 480V. Workshop. 1-3 Hour.

Workshop. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

RESM 498VH. Honors Recreation and Sport Management Thesis/Project. 1-3 Hour.

Designed to provide facilitation of the Honors Thesis/Project. Students and faculty work "one-on-one" to complete the honors thesis/project. Prerequisite: Honors candidacy, RESMBS major, and RESM 3901H. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

RESM 5023. Outdoor Adventure Leadership. 3 Hours.

(Formerly RESM 4023.) This course considers the values and scope of outdoor recreation programs, leadership and skill development with practical experience in a wilderness environment. The course will include a canoe trip through the wilderness, and skill training in such areas as orienteering and rock climbing; and leadership development in interpersonal and processing skills. The graduate portion of the class is geared toward leading and trip planning for taking college age and older students into remote areas. Graduate degree credit will not be given for both RESM 4023 and RESM 5023. (Typically offered: Summer)

RESM 5273. The Intramural Sports Program. 3 Hours.

(Formerly RESM 4273.) Historical development, aim and objectives, organization, administration, units of competition, program of activities, schedule making, scoring plans, rules and regulations, awards, and special administrative problems. Graduate degree credit will not be given for both RESM 4273 and RESM 5273. (Typically offered: Fall Odd Years)

RESM 5283. History and Application of American Sport. 3 Hours.

This survey course will explore the historical development of sport in American culture and the processes of change in American culture and sport from the 15th century to the present. Students will learn how to apply historical concepts to current issues in recreation and sport management. (Typically offered: Irregular)

RESM 5293. Athletics and Higher Education. 3 Hours.

This course features an examination of the historical development of athletics within American institutions of higher learning with an emphasis upon concepts and ideals that underlie the developments and the major problems affecting contemporary intercollegiate athletics. The purpose of this course is to teach the learner about the development of intercollegiate athletics from the mid-19th century to today. A second purpose of this course is to examine the major issues facing sport administrators within intercollegiate athletics today. (Typically offered: Spring and Summer)

RESM 5333. Sport Media and Public Relations. 3 Hours.

The course will explore the relationship between media organizations and sport organizations, with an emphasis on the business of media rights, as well as public relations theories such as two-way symmetrical communication and agenda setting. Finally, the course will examine practical communication tactics employed by public relations practitioners such as image repair and crisis communications, and the issues presented by forms of new media. (Typically offered: Fall)

RESM 5463. Sports Facilities Management. 3 Hours.

Considers basic elements and procedures in the planning, design, construction, operation, and maintenance of sport facilities; management considerations in conducting various types of events. (Typically offered: Summer)

RESM 560V. Workshop. 1-3 Hour.

Workshop. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

RESM 574V. Internship. 1-3 Hour.

This experiential-based course requires 135 hours per semester of work in a recreation or sport setting. (Typically offered: Fall, Spring and Summer)

RESM 5813. Social Issues in Sport. 3 Hours.

Using sociological theories and scholarship to examine social and cultural influences on sport and physical activity. Course is based on a social justice framework and a cultural studies perspective. (Typically offered: Fall and Summer)

RESM 5833. Recreation and Sport for Special Populations. 3 Hours.

Skills, knowledge, and concepts within recreation and sport which are appropriate to planning and implementing recreation and sport programs and services for the handicapped. (Typically offered: Irregular)

RESM 5843. Tourism. 3 Hours.

Explores major concepts of tourism to discover what makes tourism work, how tourism is organized, and its social and economic effects. (Typically offered: Spring)

RESM 5853. Capstone in Recreation and Sport Management. 3 Hours.

Capstone course where students utilize program courses to solve administrative issues which may arise in an organization. Attention is given to how departmental organization, administrative practices and policies, strategic planning, personnel management, finances, and legal areas are integrated to create solutions to broad-based contemporary issues. (Typically offered: Spring)

RESM 5873. Leadership in Recreation and Sport Management Services. 3 Hours.

Considers research, theory, and practical applications of leadership principles utilized in the provision of recreation and sport management services. Focus is on motivation, attitude, communication, group dynamics, and problem solving. (Typically offered: Fall and Summer)

RESM 5883. Recreation and Sport Services Promotion. 3 Hours.

Examines specific strategies for promoting recreation and sport programs in the local community. (Typically offered: Summer)

RESM 5893. Public and Private Finance in Recreation and Sport Management. 3 Hours.

Develops an understanding of both public and private finance management for students in public and private management positions. Provides an understanding of the budgeting processes and techniques used in obtaining and controlling funds, including private sector finance problems in areas of credit, pricing, indexing, and debt management. (Typically offered: Fall)

RESM 600V. Master's Thesis. 1-18 Hour.

Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

RESM 605V. Independent Study. 1-3 Hour.

Independent study. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

RESM 612V. Directed Reading in Recreation and Sport. 1-3 Hour.

Critical analysis of literature in the area of recreation and sport. (Typically offered: Fall, Spring and Summer)

RESM 6133. Issues in RESM. 3 Hours.

A review of the significant social, demographic, behavioral, developmental, and technological issues that influence health, kinesiology, and recreation and sport management programs. Pre- or Corequisite: Doctoral level students only. (Typically offered: Irregular)

RESM 6533. Legal and Political Aspects. 3 Hours.

An overview of major legislation affecting recreation and sport management professions; how to operate within these laws; and methods for influencing new legislation. Also discusses political aspects of professions both outside and inside government agencies. (Typically offered: Spring)

RESM 674V. Internship. 1-3 Hour.

Students will learn diverse teaching techniques and implement them in an ongoing undergraduate recreation and sport management class serving as the teaching laboratory. The "what" "when" and "how" relative to integrating various teaching techniques with specific content areas in the class will be explored by both the student and the instructor. (Typically offered: Fall, Spring and Summer)

Rehabilitation Education (RHAB) Courses

RHAB 534V. Supervised Rehabilitation Counseling. 1-3 Hour.

Gives the student practice in counseling under supervision with rehabilitation clients in selected settings and agencies. (Typically offered: Fall, Spring and Summer)

RHAB 5363. Employer Relations and Placement Practicum. 3 Hours.

Students address the placement needs of rehabilitation agencies and their clients by implementing the RehabMark approach to employer development. Prerequisite: RHAB 5493. (Typically offered: Fall, Spring and Summer)

RHAB 5373. Multicultural/Gender Issues in Rehabilitation. 3 Hours.

This course examines multicultural and gender issues of importance to rehabilitation practice and research, including study of women and men with disabilities within different minority cultures. The course uses a power analysis and a minority model of disability as a basis for understanding the relationship between disability, gender, race and ethnicity. (Typically offered: Summer)

RHAB 5383. Theories and Foundations of Addiction. 3 Hours.

This course will introduce students to the field of addictions by defining clinical models of addiction, to include alcohol and other drugs, gambling, food, sex, criminal behavior and other types of addiction. This course will also introduce students to (a) key concepts of pharmacology, assessment, and diagnosis, (b) methods of prevention, intervention, treatment and care, (c) the impact of addiction on the family system, (d) ethics principles, and (e) the 12 core functions of practice for rehabilitation and clinical mental health professionals. (Typically offered: Spring)

RHAB 5493. Vocational Evaluation and Adjustment. 3 Hours.

An in-depth examination of theories and techniques related to evaluation of vocational potential and work adjustment of people with disabilities. (Typically offered: Spring)

RHAB 5513. Professional and Legal Issues in Addiction Counseling. 3 Hours.

This course introduces students to key ethical principles and values within the field of addictions treatment and counseling. The history of the implementation of ethical principles and standards as well as specific professional codes of ethics relevant to the field of addiction (i.e., APA, CRCC, NAADAC) are thoroughly covered. (Typically offered: Irregular)

RHAB 5523. Clinical Assessment and Treatment in Addictions. 3 Hours.

This course introduces students to the process of screening, evaluation/assessment, and treatment processes within the field of addiction. This course will also address special issues related to assessment and treatment such as co-occurring disorders, cultural and gender factors, and pharmacological treatment options. (Typically offered: Irregular)

RHAB 5543. Family Constructs and Addictions Counseling. 3 Hours.

This course analyzes the impact of addictions on the family system and introduces students to the theory of marriage and family approaches used in addictions counseling. Special topics covered in the course include but are not limited to counseling women, employment issues, multicultural issues, ethics, and trauma. (Typically offered: Irregular)

RHAB 574V. Internship. 1-9 Hour.

Internship. (Typically offered: Fall, Spring and Summer)

RHAB 599V. Seminar. 1-18 Hour.

Seminar. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

RHAB 605V. Independent Study. 1-18 Hour.

Independent study. (Typically offered: Fall, Spring and Summer)

RHAB 6243. Advanced Rehabilitation Research. 3 Hours.

An advanced doctoral level course to facilitate the application of scientific values, research skills, and behavior to the generation of rehabilitation knowledge and problem solving. (Typically offered: Spring)

RHAB 625V. Teaching Internship in Rehabilitation. 1-18 Hour.

Graduate teaching experience in the rehabilitation counseling curriculum. Under the supervision of a faculty member, will participate in the development of syllabi, course materials and examinations. Will team teach graduate rehabilitation courses with the faculty member. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

RHAB 6263. Clinical Supervision of Practicum Students. 3 Hours.

The study and practice of supervising master's rehabilitation counseling students in a clinical practicum setting. Prerequisite: Doctoral standing. (Typically offered: Summer)

RHAB 675V. Internship. 1-18 Hour.

Advanced supervised practice in a rehabilitation setting. (Typically offered: Fall, Spring and Summer)

RHAB 699V. Seminar. 1-18 Hour.

Discussion of pertinent topics and issues in the rehabilitation field. Prerequisite: Advanced graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

RHAB 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Rural Sociology (RSOC)

Courses

RSOC 500V. Special Problems. 1-6 Hour.

Gives experience in executing research and in analyzing a sociological problem of agriculture. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

RSOC 5603. Community and Natural Resources. 3 Hours.

Introduction to the breadth of considerations involved in community resource management, including theoretical frameworks, methodological investigations and applied practices to enhance the ability of community development professionals to work with their communities to plan, develop and monitor the conservation and development of natural resources with multiple functions. (Typically offered: Irregular)

RSOC 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

RSOC 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Russian (RUSS)

Courses

RUSS 1003. Elementary Russian I. 3 Hours.

Elementary Russian I. (Typically offered: Fall)

RUSS 1013. Elementary Russian II. 3 Hours.

Elementary courses stress correct pronunciation, aural comprehension, and simple speaking ability, and lead to active mastery of basic grammar and limited reading ability. (Typically offered: Spring)

RUSS 2003. Intermediate Russian I. 3 Hours.

Intermediate courses stress correct pronunciation, aural comprehension, and simple speaking ability, and lead to active mastery of basic grammar and limited reading ability. (Typically offered: Fall)

RUSS 2013. Intermediate Russian II. 3 Hours.

Continued development of basic, speaking comprehension and writing skills and intensive development of reading skills. (Typically offered: Spring)

RUSS 3003. Advanced Russian I. 3 Hours.

Through reading and discussing contemporary political and historical events students advance their speaking, listening, and writing skills. The course builds on and advances the language skills acquired in the 2013 Intermediate course. Prerequisite: RUSS 2013, or equivalent language skills that will be equal to four semesters of language instruction. (Typically offered: Irregular)

RUSS 3013. Introduction to Literature. 3 Hours.

Development of reading skills and introduction to literary analysis. Prerequisite: RUSS 2013 or equivalent. (Typically offered: Irregular)

RUSS 3023. Listening Comprehension. 3 Hours.

Provides intensive practice in listening to recordings taken from such sources as television broadcasts, lectures, and readings of literature. This is supplemented by conversation and by comprehension tests. Prerequisite: RUSS 2003. (Typically offered: Irregular)

RUSS 4123. Survey of Russian Literature from Its Beginning to the 1917 Revolution. 3 Hours.

The instructor will discuss the historical and cultural backgrounds while focusing on major writers and will deal with literature as an outlet for social criticism. There will be textual analysis. It will be taught in English. (Typically offered: Irregular)
This course is cross-listed with WLIT 4123.

RUSS 4133. Survey of Russian Literature Since the 1917 Revolution. 3 Hours.

The instructor will discuss the historical and cultural backgrounds while focusing on major writers and will deal with literature as an outlet for social criticism. There will be textual analysis. It will be taught in English with readings in English. (Typically offered: Irregular)
This course is cross-listed with WLIT 4133.

RUSS 475V. Special Investigations. 1-6 Hour.

Special investigations. (Typically offered: Fall and Spring) May be repeated for degree credit.

RUSS 5123. Survey of Russian Literature from Its Beginning to the 1917 Revolution. 3 Hours.

(Formerly RUSS 4123.) The instructor will discuss the historical and cultural backgrounds while focusing on major writers and will deal with literature as an outlet for social criticism. There will be textual analysis. It will be taught in English. Graduate degree credit will not be given for both RUSS 4123 and RUSS 5123. (Typically offered: Irregular)

RUSS 5133. Survey of Russian Literature Since the 1917 Revolution. 3 Hours.

(Formerly RUSS 4133.) The instructor will discuss the historical and cultural backgrounds while focusing on major writers and will deal with literature as an outlet for social criticism. There will be textual analysis. It will be taught in English with readings in English. Graduate degree credit will not be given for both RUSS 4133 and RUSS 5133. (Typically offered: Irregular)
This course is cross-listed with WLIT 5133.

RUSS 575V. Special Investigations. 1-6 Hour.

Special investigations. (Typically offered: Fall and Spring) May be repeated for degree credit.

STEM Education for Early Childhood (STEM) Courses

STEM 2103. Knowing and Learning in Science and Mathematics. 3 Hours.

This course draws on scholarship in educational psychology to provide a firm foundation for the teaching of science and mathematics by exploring what it means to know and understand in these disciplines, and how that influences instructional methods and assessment. Prerequisite: ARSC 1201 or instructor consent. (Typically offered: Fall and Spring)

STEM 2203. Classroom Interactions. 3 Hours.

This course examines the interplay between teachers, students, and content, and how such interactions enable students to develop deep conceptual understanding of science and mathematics in secondary schools. Students learn a variety of instructional strategies to engage students of diverse backgrounds, acknowledging that quality instruction should reach all learners. Prerequisite: ARSC 1201 and ARSC 1221 (Step 1 and Step 2 courses of the UTeach sequence) or instructor consent. (Typically offered: Fall)

STEM 3303. Project Based Instruction for Secondary Mathematics and Science. 3 Hours.

This teacher preparation course focuses on the integration of mathematics and science concepts in project-based lessons to model ways used by scientists, mathematicians, and engineers in addressing real world problems. Each student team will design and teach a project-based unit and evaluate its effectiveness in a secondary classroom. Prerequisite: STEM 2203 or instructor consent. (Typically offered: Fall)

STEM 4033. Introduction to STEM Education. 3 Hours.

This course provides an introduction to the foundations of STEM education disciplines and the strategies used to deliver integrative STEM education in the elementary and secondary school setting. The nature of STEM education disciplines, STEM pedagogy, teaching strategies, integrative STEM learning, STEM careers, and problem-centered instruction are addressed. (Typically offered: Spring and Summer)

STEM 4043. Creativity and Innovation in STEM Education. 3 Hours.

This course in technology and engineering education focuses on the development and introduction of technology and engineering-based activities to support science and mathematics instruction in the elementary and middle level classroom. Through hands-on, problem based learning challenges, students will develop an understanding of the design process and the integration of science, technology, engineering, and mathematics (STEM) often used to solve real-world problems. Prerequisite: STEM 4033. (Typically offered: Spring)

STEM 4104. Astronomy for Educators. 4 Hours.

Astronomy for Educators splits evenly between the basics of astronomy and practical methods for teaching astronomy effectively to all grade levels. The class is appropriate and effective for elementary, middle school, and secondary educators. Pedagogy focuses on the use of low-cost models that help all students grasp astronomy fundamentals such as phases of the Moon and how our solar system works. Lab activities include building and working with scientific models, evening lab activities give students the opportunity to use telescopes and binoculars to observe the Moon, planets, constellations and more. No prior experience or astronomy knowledge is assumed for this course. (Typically offered: Fall and Spring)

STEM 4333. History and Philosophy of Science for Science Teachers. 3 Hours.

The History and Philosophy of Science for Science Teachers explores knowledge generation in the sciences by referencing the history and philosophy of the sciences. The course prepares future teachers with the background, rationales and strategies necessary to enhance student knowledge and interest in these important foundation areas. (Typically offered: Spring)

STEM 4409. Supervised Clinical Teaching in Science and Mathematics Education. 9 Hours.

Supervised Clinical Teaching is the apprenticeship experience for UTeach students preparing for careers as mathematics and science teachers. Student interns will teach at the secondary level with mentoring provided by university supervisors and experienced classroom educators. The required seminar will address experiences, questions and problems encountered in the field. Prerequisite: ARSC 1201, ARSC 1221, STEM 2103, STEM 2203 and STEM 3303. (Typically offered: Spring)

STEM 5023. Creativity and Innovation in STEM. 3 Hours.

This introductory course in technology and engineering education (TEED) focuses on the development and introduction of TEED activities to support science and mathematics instruction in the elementary classroom. Through hands-on, problem-based learning challenges, students will develop and understanding of the engineering design process and the integration of STEM often used to solve real-world problems. Prerequisite: STEM 4033 or STEM 5033 (formerly STEM 4033). (Typically offered: Fall and Summer)

STEM 5033. Introduction to STEM Education. 3 Hours.

(Formerly STEM 4033.) This course provides an introduction to the foundations of STEM education disciplines and the strategies used to deliver integrative STEM education in the elementary and secondary school setting. The nature of STEM education disciplines, STEM pedagogy, teaching strategies, integrative STEM learning, STEM careers, and problem-centered instruction are addressed. Graduate degree credit will not be given for both STEM 4033 and STEM 5033. (Typically offered: Spring and Summer)

STEM 5104. Astronomy for Educators. 4 Hours.

(Formerly STEM 4104.) Astronomy for Educators splits evenly between the basics of astronomy and practical methods for teaching astronomy effectively to all grade levels. The class is appropriate and effective for elementary, middle school, and secondary educators. Pedagogy focuses on the use of low-cost models that help all students grasp astronomy fundamentals such as phases of the Moon and how our solar system works. Lab activities include building and working with scientific models, evening lab activities give students the opportunity to use telescopes and binoculars to observe the Moon, planets, constellations and more. No prior experience or astronomy knowledge is assumed for this course. Graduate degree credit will not be given for both STEM 4104 and STEM 5104. (Typically offered: Fall and Spring)

STEM 5203. Problem-Based Mathematics. 3 Hours.

This graduate level course focuses on sharing, modeling and practicing strategies to support the meaningful integration of science, technology, engineering and mathematics (STEM) with the emphasis on mathematics in the K-4 classroom. A strong foundation for integrating the STEM disciplines through a problems-based approach within the elementary curriculum will be developed by providing students with theoretical frameworks, research, resources, and methods related to appropriate and effective classroom practice. Prerequisite: CIED 3123. (Typically offered: Irregular)

STEM 5213. Teaching Problem-Based Science in the Elementary Grades. 3 Hours.

This graduate level course focuses on sharing, modeling and practicing strategies to support the meaningful integration of science, technology, engineering and mathematics (STEM) with the emphasis on science in the K-4 classroom. A strong foundation for integrating the STEM disciplines through a problems-based approach within the elementary curriculum will be developed by providing students with theoretical frameworks, research, resources, and methods related to appropriate and effective classroom practice. Prerequisite: CIED 3143 and admission to the M.A.T. program or enrollment in the M. Ed. program. (Typically offered: Spring)

Secondary Education (SEED) Courses

SEED 3282. Teaching Experiences in Education. 2 Hours.

The field experience is an essential component of the Bachelor of Arts in Teaching degree. The field experience allows Teacher Candidates (TC) to make further application of theoretical principles of teaching and learning. Teacher Candidates will be assigned placement in an area school for the length of the fall semester. During this assignment, the TC will both observe and participate in teaching. Prerequisite: Admission to B.A.T. (Typically offered: Fall)

SEED 4022. Classroom Management Concepts. 2 Hours.

A number of different classroom management techniques are studied. It is assumed that a teacher must possess a wide range of knowledge and skills to be an effective classroom manager. Prerequisite: Admission to B.A.T. program. (Typically offered: Fall and Spring)

SEED 4063. Disciplinary and Interdisciplinary Literacies in Education. 3 Hours.

This course teaches the integration of reading, writing, and new literacies within the discipline and across disciplines. Theory and strategy are presented as integrated strands of the language process as presented in the context of instructional principles and suggested teaching practices. A solid research base is emphasized while keeping the focus on practical application. Prerequisite: Admission to B.A.T. program. (Typically offered: Fall and Spring)

SEED 4103. Methods of Teaching Secondary Social Studies I. 3 Hours.

Study of the methods and materials in social studies. Includes philosophical, cognitive, and psychological dimensions of teaching. The planning of instruction, microteaching, and the development of instructional materials are included. Prerequisite: Admission to the B.A.T. program. (Typically offered: Fall and Spring)

SEED 4113. Teaching History, Government and Economics. 3 Hours.

Study of the methods and materials in teaching history, government and economics. Includes philosophical, cognitive, and psychological dimensions of teaching, planning of instruction, microteaching, and the development of instructional materials are included. (Typically offered: Fall and Spring)

SEED 4203. English Language Arts/Speech & Drama Methods of Instruction. 3 Hours.

This course provides an introduction to teaching English language arts (ELA) and speech/drama in the context of elementary, middle and high school settings. The topics, issues, methods, and materials encompassing philosophical, cognitive, and psychological dimensions of teaching the content area provide the major tenets of instruction. Prerequisite: Admission to B.A.T. program leading to licensure. (Typically offered: Fall and Spring)

SEED 4213. Issues and Trends in Literacy. 3 Hours.

This course provides an examination of practices to teaching literacy, broadly defined. The topics, issues, methods, and materials encompassing philosophical, cognitive, and psychological dimensions of teaching provide the major tenets of instruction. Prerequisite: Admission to B.A.T. program leading to licensure. (Typically offered: Fall and Spring)

SEED 4443. Methods of Teaching Foreign Language K-12. 3 Hours.

Study of the methods and materials in the teaching of foreign language in K-12 settings as well as the theories of second language acquisition. Includes philosophical, cognitive, and psychological dimensions of teaching foreign languages. The planning of instruction, microteaching, and the development of instructional materials are included. Prerequisite: Admission to the B.A.T. program. (Typically offered: Fall and Spring)

SEED 4523. Instructional Practices in Teaching Foreign Language. 3 Hours.

A pedagogical studies course based on the theoretical and practical aspects of methods, techniques, and materials for effective teaching of foreign languages in K-12 schools. Prerequisite: Admission to B.A.T. Program leading to licensure. (Typically offered: Fall and Spring)

SEED 5003. Introduction to Teaching Secondary Science. 3 Hours.

Study of the methods and materials for teaching science. Includes philosophical, cognitive, and psychological dimensions of teaching science. The planning of instruction, microteaching, safety and liability issues, and the development of instructional materials are included. Prerequisite: Admission to the M.A.T. program. (Typically offered: Summer) May be repeated for up to 6 hours of degree credit.

SEED 5013. Teaching Secondary Science: Theory to Practice. 3 Hours.

This course is a continuation of SEED 5003, Introduction to Teaching Secondary Science, and is taken concurrently with CIED 528V, Secondary Cohort Teaching Internship. Students will receive instruction in advanced methodologies for teaching science and will reflect on their experiences in their internships. Corequisite: CIED 528V. Prerequisite: SEED 5003. (Typically offered: Fall)

SEED 5022. Secondary Science Seminar. 2 Hours.

This course is a continuation of SEED 5013, Advanced Teaching of Secondary Science, and is taken concurrently with CIED 528V, Secondary Cohort Teaching Internship, in the spring semester of the Secondary Education M.A.T. program. Students will receive instruction in advanced methodologies for teaching science and will reflect on their experiences in their teaching internships. Corequisite: CIED 528V. Prerequisite: SEED 5013. (Typically offered: Spring)

SEED 5103. Methods of Teaching Secondary Social Studies I. 3 Hours.

Study of the methods and materials in social studies. Includes philosophical, cognitive, and psychological dimensions of teaching. The planning of instruction, microteaching, and the development of instructional materials are included. Prerequisite: Admission to the M.A.T. program. (Typically offered: Summer)

SEED 5113. Teaching History, Government and Economics. 3 Hours.

Study of the methods and materials in teaching history, government and economics. Includes philosophical, cognitive, and psychological dimensions of teaching, planning of instruction, microteaching, and the development of instructional materials are included. Prerequisite: Admission to the M.A.T. program. (Typically offered: Fall)

SEED 5122. Teaching Geography, World Cultures, and Religions. 2 Hours.

Study of the methods and materials in teaching geography, world cultures and comparative religion. Includes philosophical, cognitive, and psychological dimensions of teaching, planning of instruction, microteaching, and the development of instructional materials are included. Prerequisite: Admission to the M.A.T. program. (Typically offered: Spring) May be repeated for up to 4 hours of degree credit.

SEED 5222. Seminar: Language, Literacy and Culture. 2 Hours.

This course is designed to examine advanced practices related to teaching English language arts and literacy, broadly defined. Topics, issues, methods, and materials encompassing the philosophical, cognitive, cultural, and social dimensions of teaching English language arts constitute the crux of the course. (Typically offered: Spring)

SEED 528V. Secondary Field Experience. 1-6 Hour.

Student teaching in grades 7-12 to be specific to the fall semester experience of the Secondary Education Master of Arts in Teaching program. Students will practice and master instructional strategies under the supervision of qualified mentor teachers and university faculty members. (Typically offered: Fall) May be repeated for up to 9 hours of degree credit.

SEED 5303. Teaching Secondary Mathematics. 3 Hours.

Study of the methods and materials in teaching middle, junior high, and high school mathematics. Philosophical, cognitive, and psychological dimensions of teaching secondary topics including, but not limited to algebra, geometry, and statistics. The planning of instruction, microteaching, and the development of instructional materials are included. Prerequisite: Admission to the M.A.T. program in Mathematics. (Typically offered: Summer)

SEED 5313. Theories of Learning Mathematics. 3 Hours.

Examination of research results related to student learning and achievement in secondary mathematics in the areas of rational numbers, algebraic reasoning, geometric proof, and data and probability. Prerequisite: SEED 5303. (Typically offered: Fall)

SEED 5322. Integrating Technology and Mathematics. 2 Hours.

Study of methods for integrating technology into secondary mathematics classrooms including but not limited to the use of graphing calculators, geometric software, and spreadsheet. Prerequisite: SEED 5303 and SEED 5313. (Typically offered: Spring)

SEED 5403. Methods of Teaching Foreign Language K-12. 3 Hours.

Study of the theories and methods of teaching foreign language. Includes philosophical, cognitive, and psychological dimensions of teaching, the standards for teaching foreign language, how to plan instruction, microteaching, and the development of instructional materials. Prerequisite: Admission to the M.A.T. program. (Typically offered: Summer) May be repeated for up to 6 hours of degree credit.

SEED 5413. Instructional Practices in Teaching Foreign Language. 3 Hours.

The theoretical and practical aspects of methods, techniques, and materials for effective teaching of foreign/second languages in K-12 schools. Prerequisite: Admission to the M.A.T. program. (Typically offered: Fall)

SEED 5422. Special Issues in Teaching Foreign Language. 2 Hours.

Instructional strategies that address the needs of diverse language learners, special needs students, heritage speakers, and the use of technology to enhance language learning. Prerequisite: Admission to the M.A.T. program. (Typically offered: Spring) May be repeated for up to 4 hours of degree credit.

SEED 5503. Teaching Secondary Mathematics and Science. 3 Hours.

Study of the methods and materials for teaching secondary mathematics and science. Includes the philosophical, cognitive, and psychological dimensions of teaching mathematics and science. The planning of instruction, microteaching, and the development of instructional materials are included. Prerequisite: Admission to the M.A.T. program. (Typically offered: Summer)

SEED 6133. Advanced Methods of Social Studies Instruction. 3 Hours.

Advanced exploration and experimentation with research supported methods of teaching social studies. Intended for practicing teachers or those with teaching experience in any of the social sciences. (Typically offered: Spring Even Years)

Social Work (SCWK) Courses

SCWK 2133. Introduction to Social Work. 3 Hours.

Introduction to social work as a profession and to social welfare institutions from the perspective of the generalist, entry level social worker. Emphasis on empowerment function of social work. (Typically offered: Fall, Spring and Summer)

SCWK 3013. Child Advocacy I: Perspectives on Child Maltreatment and Child Advocacy. 3 Hours.

Introductory course in child advocacy studies training. Covers the history, comparative perspectives, legal framework, responses to child maltreatment, skills necessary to do the work, other pertinent issues pertaining to child maltreatment and child advocacy. (Typically offered: Fall)

SCWK 3163. On Death and Dying. 3 Hours.

Reviews the theory and humanistic importance of the concepts of death and dying in society. An experimental option and interdisciplinary faculty presenters will be part of the format. (Typically offered: Irregular)

This course is cross-listed with HUMN 3163.

SCWK 3193. Human Diversity and Social Work. 3 Hours.

An introduction to information basic concepts related to human diversity and social work. Provides content on differences and similarities in the experiences, needs, and beliefs of people distinguished by race, ethnicity, culture, class, gender, sexual orientation, religion, physical or mental ability, age or national origin. The Live Section of this course is for Social Work Majors and Minors only. The Online Section (901) is open to Non-Social Work Majors. Prerequisite: Social Work major or minor for live sections only. Online sections (901) open to students in other departments. (Typically offered: Fall, Spring and Summer)

SCWK 3233. Contemporary Issues in Juvenile Justice. 3 Hours.

This course is designed as a discussion of contemporary issues in juvenile justice. The focus is on the child and family system, including various theories related to underlying causes for involvement in the juvenile courts. This course will also describe the current workings of the juvenile court system and implications for the future. (Typically offered: Fall, Spring and Summer)

SCWK 3633. Child Welfare: 21st Century Perspectives. 3 Hours.

Study of the needs of deprived children with some attention to methods and standards of care. Cultural competence and family-centered practice are emphasized. (Typically offered: Irregular)

SCWK 399VH. Honors Course. 1-18 Hour.

Honors course. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

SCWK 4013. Child Advocacy II: Professional and System Responses to Child Maltreatment. 3 Hours.

Continuation of Child Advocacy Studies I. Focuses on the responses of professionals to allegations of child maltreatment. Covers competency-based skills training including forensic interviewing and documentation. Prerequisite: SCWK 3013. (Typically offered: Spring)

SCWK 4023. Child Advocacy III: Responding to the Survivor of Child Abuse. 3 Hours.

Continuation of Child Advocacy Studies II. Provides training to recognize the effects of child maltreatment and to develop intervention strategies for children and their families. Outside experiential activities for this course involve court room observations. Prerequisite: SCWK 3013 and SCWK 4013. (Typically offered: Summer)

SCWK 405V. Special Topics in Social Work. 1-6 Hour.

Comprehensive study of various topics of importance in contemporary social welfare and social work practice. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for degree credit.

SCWK 4073. Social Work Research and Technology I. 3 Hours.

An overview of forms and sources of social work research including existing social data, techniques for collecting original social data, and techniques of organization, interpretation, and presentation of data. Students will also become proficient in the use of current technology for social work research and practice. Pre- or Corequisite: One of the following: STAT 2303, SOCI 3303 and SOCI 3301L, PSYC 2013, or ESRM 2403. Prerequisite: SCWK 4093 and SCWK 4153. (Typically offered: Fall and Spring)

SCWK 4093. Human Behavior and the Social Environment I. 3 Hours.

Provides a conceptual framework for knowledge of human behavior and the social environment with a focus on individuals. Social systems, life-course, assets, and resiliency-based approaches are presented. Special attention is given to the impact of discrimination and oppression on the ability to reach or maintain optimal health and well-being. Prerequisite: COMM 1313, PSYC 2003, SOCI 2013, SCWK 2133, and SCWK 3193 and (BIOL 1543 and BIOL 1541L, or ANTH 1013 and ANTH 1011L). (Typically offered: Fall and Spring)

SCWK 4103. Human Behavior and the Social Environment II. 3 Hours.

This course applies the basic framework for creating and organizing knowledge of human behavior and the social environment acquired in HBSE I to the understanding of family, group, organizational, community, and global systems. Attention is given to discrimination, oppression, the impact of technology, and poverty at each system level. Prerequisite: SCWK 4093 and SCWK 4153. (Typically offered: Fall and Spring)

SCWK 4143. Addiction and the Family. 3 Hours.

Introduction to the biophysical basis of chemical and behavior compulsions with special focus on family impacts. Childhood development within addictive families is also examined. Social work intervention with substance abusing families is highlighted. (Typically offered: Irregular)

SCWK 4153. Social Welfare Policy. 3 Hours.

Describes and analyzes the policies and services rendered by local, state, regional, national, and international agencies as well as the policy implications for social work practice. Students prepare to advocate social policy changes designed to improve social conditions, promote social and economic justice, and to empower at-risk populations. Prerequisite: COMM 1313, PLSC 2003, SCWK 2133, and SCWK 3193. (Typically offered: Fall and Spring)

SCWK 4163. African American Perspectives of Trauma, Loss, and Recovery. 3 Hours.

Explores dimensions of trauma, loss, and recovery within the lived experiences of African American individuals, families, and communities in the United States.

Prerequisite: Junior standing or instructor consent. (Typically offered: Fall)

This course is cross-listed with AAST 4163.

SCWK 4173. Social Work with African American Families. 3 Hours.

An overview of historical and contemporary issues of African American families using culturally competent and strengths based frameworks. Focuses on the Black family as a social institution. Covers current trends affecting Black families, historical influences, evaluation of social policies, and programs of today. Prerequisite: Junior standing or instructor consent. (Typically offered: Irregular)

This course is cross-listed with AAST 4173.

SCWK 4183. Social Work With Elders. 3 Hours.

Survey of theories of gerontology, service programs and unmet needs of the aging citizen. (Typically offered: Irregular)

SCWK 4253. Spirituality and Social Work Practice. 3 Hours.

This course prepares students to respond competently and ethically to diverse spiritual and religious perspectives. Utilizing social work ethics and values as a guide, students will develop a comparative, critically reflective approach to practice. Prerequisite: SCWK 3193 or instructor consent. (Typically offered: Fall and Spring)

SCWK 4333. Social Work Practice I. 3 Hours.

This is the first in the sequence of practice courses introducing students to the generalist approach to micro social work. This course focuses on developing a solid foundation for practice with individuals, including learning basic communication and helping skills, values, principles, and the connection of theory to practice. Pre- or Corequisite: SCWK 4103. Prerequisite: SCWK 4093 and SCWK 4153. (Typically offered: Fall and Spring)

SCWK 4343. Social Work Practice II. 3 Hours.

This is the second course in the social work practice sequence, emphasizing theories, models, and techniques related to generalist practice with families and groups. The course elaborates on system theory as it impacts groups and families, and use of experiential teaching methods. Prerequisite: SCWK 4103 and SCWK 4333. (Typically offered: Fall and Spring)

SCWK 4412. Field Seminar I. 2 Hours.

An integrative seminar to assist students in comparing their practice experiences, integrating knowledge acquired in the classroom, and expanding knowledge beyond the scope of the practicum setting. Corequisite: SCWK 4434 and social work majors only. (Typically offered: Fall, Spring and Summer)

SCWK 4422. Field Seminar II. 2 Hours.

An integrative seminar to assist students in comparing their practice experiences, integrating knowledge acquired in the classroom, and expanding knowledge beyond the scope of the practicum setting. Corequisite: SCWK 4444. Prerequisite: SCWK majors only. (Typically offered: Fall, Spring and Summer)

SCWK 4434. Social Work Internship I. 4 Hours.

Arranged in connection with social service agencies. Credit is based on completion of all course objectives, including a minimum of 225 hours of field work under the supervision of a licensed social worker. Corequisite: SCWK 4412. Prerequisite: Social work major, SCWK 4073, SCWK 4103, and SCWK 4333. (Typically offered: Fall, Spring and Summer)

SCWK 4444. Social Work Internship II. 4 Hours.

Arranged in connection with social service agencies. Credit is based on completion of all course objectives, including a minimum of 225 hours of field work under the supervision of a licensed social worker. Corequisite: SCWK 4422. Prerequisite: SCWK majors only, SCWK 4343, SCWK 4733 and SCWK 4434. (Typically offered: Fall, Spring and Summer)

SCWK 4733. Social Work Practice III. 3 Hours.

Students acquire and practice the skills, knowledge, and values necessary for culturally competent generalist social work practice with organizations and communities. Special attention is given to the implications of discrimination and oppression for attaining social and economic justice. Pre- or Corequisite: SCWK 4103 and SCWK 4343. Prerequisite: SCWK 4333. (Typically offered: Fall and Spring)

SCWK 496V. Independent Study. 1-6 Hour.

Independent Study designed to meet the particular needs of individual students. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCWK 5003. Foundations of Culturally Competent Social Work Practice. 3 Hours.

The purpose of this course is the acquisition and demonstration of beginning graduate-level social work values and ethics, knowledge, and skills necessary for cultural competence in work with individuals, families, groups, organizations, communities, and global contexts. A multi-systems life-course conceptual framework is used. Prerequisite: Admission to the two-year or part-time MSW program. (Typically offered: Fall)

SCWK 5013. Bridge Course: Evidenced Based Social Work. 3 Hours.

This course prepares MSW students to transition from the foundation course to the advanced concentration courses. Students will become familiar with the mission and conceptual framework underlying the advanced concentration and develop beginning knowledge of traditional and alternative approaches to client system assessment. Prerequisite: Admission into the advanced standing MSW program or completion of foundation courses. (Typically offered: Summer)

SCWK 505V. Special Topics in Social Work. 1-6 Hour.

(Formerly SCWK 405V.) Comprehensive study of various topics of importance in contemporary social welfare and social work practice. Graduate degree credit will not be given for both SCWK 405V and SCWK 505V. (Typically offered: Irregular) May be repeated for degree credit.

SCWK 5073. Social Work Research and Technology II. 3 Hours.

This course is intended to build the advanced research skills necessary to develop a research proposal and complete a thesis or capstone project. Students will plan the project, collect and analyze data and write a research report of their findings. Projects will focus on systematic evaluation of service delivery and personal professional practice. Corequisite: SCWK 6000L. Prerequisite: Completion of year one for two-year students or summer semester for advanced standing students. (Typically offered: Fall)

SCWK 5083. Social Work With Elders. 3 Hours.

(Formerly SCWK 4183.) Survey of theories of gerontology, service programs and unmet needs of the aging citizen. Graduate degree credit will not be given for both SCWK 4183 and SCWK 5083. (Typically offered: Irregular)

SCWK 5093. Human Behavior and the Social Environment I. 3 Hours.

(Formerly SCWK 4093.) Provides a conceptual framework for knowledge of human behavior and the social environment with a focus on individuals. Social systems, life-course, assets, and resiliency-based approaches are presented. Special attention is given to the impact of discrimination and oppression on the ability to reach or maintain optimal health and well-being. Graduate degree credit will not be given for both SCWK 4093 and SCWK 5093. Prerequisite: COMM 1313, PSYC 2003, SOCI 2013, SCWK 2133, and SCWK 3193 and (BIOL 1543 and BIOL 1541L, or ANTH 1013 and ANTH 1011L). (Typically offered: Fall and Spring)

SCWK 5103. Human Behavior and the Social Environment II. 3 Hours.

(Formerly SCWK 4103.) This course applies the basic framework for creating and organizing knowledge of human behavior and the social environment acquired in HBSE I to the understanding of family, group, organizational, community, and global systems. Attention is given to discrimination, oppression, the impact of technology, and poverty at each system level. Graduate degree credit will not be given for both SCWK 4103 and SCWK 5103. Prerequisite: SCWK 4093 or SCWK 5093 (formerly SCWK 4093) and SCWK 4153 or SCWK 5353 (formerly SCWK 4153). (Typically offered: Fall and Spring)

SCWK 5143. Global Social and Economic Justice and Oppression. 3 Hours.

The role and responsibilities of the social work profession are examined in an international comparative context. Particular emphasis is given to social workers' responsibilities to advance global social and economic justice and reduce human oppression through community, social, economic, and organizational development strategies. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5153. Children, Youth, and Family. 3 Hours.

This course focuses on the development, revision, and impact of policy and practice in children, youth, and family services. Current issues in policy and practice will be examined. Students will interact with community agencies and utilize class assignments to advocate improvements in current policy and practice. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5163. Social Work Management, Administration and Supervision. 3 Hours.

This course develops advanced skills in management, administration, and supervision in social work organizations. Emphasis is placed on developing leadership skills in ethics, budgeting, finance, resource development, information management, evaluation, staff hiring, supervision and development, and the use of technology in organizational leadership, development, and maintenance. Prerequisite: Graduate standing and SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5173. Advanced Practice with Families and Couples. 3 Hours.

The purpose of this course is to provide advanced understanding of the knowledge, skills and values needed to assess and intervene effectively with traditional and non-traditional families and couples. The course will examine social systems and life-course strengths approaches to understand how families and couples function. Students will design interventions. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5183. Advanced Practice with Individuals. 3 Hours.

This course develops advanced skills in social work practice on a micro level. Students learn to analyze and compare practice models. They gain skills in selecting a practice model and integrating multiple models based on client needs. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5193. Advanced Practice and Policy in Aging. 3 Hours.

This course focuses on social work practice with, and policies for, older persons. Current, past, and future practices and policies for older persons across systems and the life course are explored. Emphasis is placed on the influences of personal, social, economic, and cultural diversity on the well-being of older persons. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5213. Advanced Practice in Behavioral and Mental Health. 3 Hours.

This advanced course prepares students to identify mental disorders, plan intervention strategies with clients from a strengths perspective, and understand mental health programs through which services are delivered. Differential diagnosis and the impact of socioeconomic status, gender, race, and sexual orientation on diagnosis and treatment decisions are addressed. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5253. Spirituality and Social Work Practice. 3 Hours.

This course prepares students to respond competently and ethically to diverse spiritual and religious perspectives. Utilizing social work ethics and values as a guide, students will develop a comparative, critically reflective approach to practice. Prerequisite: SCWK 4103 or SCWK 5103 (formerly SCWK 4103) or SCWK 5003 or SCWK 5013. (Typically offered: Fall and Spring)

SCWK 5273. Social Work Research and Technology I. 3 Hours.

(Formerly SCWK 4073.) An overview of forms and sources of social work research including existing social data, techniques for collecting original social data, and techniques of organization, interpretation, and presentation of data. Students will also become proficient in the use of current technology for social work research and practice. Graduate degree credit will not be given for both SCWK 4073 and SCWK 5273. Prerequisite: SCWK 4093 or SCWK 5093 (formerly SCWK 4093) and SCWK 4153 or SCWK 5353 (formerly SCWK 4153). Pre- or Corequisite: One of the following: STAT 2303, SOCI 3303 and SOCI 3301L, PSYC 2013, or ESRM 2403. (Typically offered: Fall and Spring)

SCWK 5333. Social Work Practice I. 3 Hours.

(Formerly SCWK 4333.) This is the first in the sequence of practice courses introducing students to the generalist approach to micro social work. This course focuses on developing a solid foundation for practice with individuals, including learning basic communication and helping skills, values, principles, and the connection of theory to practice. Graduate degree credit will not be given for both SCWK 4333 and SCWK 5333. Prerequisite: SCWK 4093 or SCWK 5093 (formerly SCWK 4093) and SCWK 4153 or SCWK 5353 (formerly SCWK 4153). Pre- or Corequisite: SCWK 4103 or SCWK 5103 (formerly SCWK 4103). (Typically offered: Fall and Spring)

SCWK 5343. Advanced Practice with Groups. 3 Hours.

This course provides advanced knowledge, skills, and values needed to assess and intervene effectively with populations seen in the social work practice of group therapy. This course examines group dynamics, life-course and strengths perspectives, and client-centered assessment of needs and their application in agency settings. Prerequisite: SCWK 5003 or SCWK 5013. (Typically offered: Irregular)

SCWK 5353. Social Welfare Policy. 3 Hours.

(Formerly SCWK 4153.) Describes and analyzes the policies and services rendered by local, state, regional, national, and international agencies as well as the policy implications for social work practice. Students prepare to advocate social policy changes designed to improve social conditions, promote social and economic justice, and to empower at-risk populations. Graduate degree credit will not be given for both SCWK 4153 and SCWK 5353. Prerequisite: COMM 1313, PLSC 2003, SCWK 2133, and SCWK 3193. (Typically offered: Fall and Spring)

SCWK 5412. Foundation Field Seminar. 2 Hours.

A required course for MSW students without an accredited undergraduate degree in social work. The purpose of the seminar is to allow students to integrate classroom content with experiences in the field, to learn peer supervision and consultation, and to learn from the experiences of other students in the field. Corequisite: SCWK 5434. (Typically offered: Spring and Summer)

SCWK 5434. Foundation Field Internship. 4 Hours.

This course is required of all graduate students entering the MSW program without an accredited undergraduate degree in social work. Minimum of 330 clock hours of agency-based professional social work practicum experience, supervised by a licensed MSW, is required. Corequisite: SCWK 5412. Prerequisite: SCWK 5003, SCWK 5333 (formerly SCWK 4333), SCWK 5273 (formerly SCWK 4073), SCWK 5093 (formerly SCWK 4093), and SCWK 5353 (formerly SCWK 4153). (Typically offered: Spring and Summer)

SCWK 5442. Field Seminar III. 2 Hours.

This seminar is required of all graduate students entering the MSW program with advanced standing. Students integrate classroom content with experiences in the field, learn peer supervision and consultation, and learn from the experience of other students in the field. Corequisite: SCWK 5444. Prerequisite: Admission to graduate program with advanced standing. (Typically offered: Summer)

SCWK 5444. Field Internship III. 4 Hours.

This course is required of all graduate students entering the MSW program with advanced standing. A minimum of 240 clock hours of agency-based professional social work practicum experience, supervised by a licensed MSW, is required. Corequisite: SCWK 5442. Prerequisite: Admission to graduate program with advanced standing. (Typically offered: Summer)

SCWK 5543. Social Work Practice II. 3 Hours.

(Formerly SCWK 4343.) This is the second course in the social work practice sequence, emphasizing theories, models, and techniques related to generalist practice with families and groups. The course elaborates on system theory as it impacts groups and families, and use of experiential teaching methods. Graduate degree credit will not be given for both SCWK 4343 and SCWK 5543. Prerequisite: SCWK 4103 or SCWK 5103 (formerly SCWK 4103) and SCWK 4333 or SCWK 5333 (formerly SCWK 4333). (Typically offered: Fall and Spring)

SCWK 5733. Social Work Practice III. 3 Hours.

(Formerly SCWK 4733.) Students acquire and practice the skills, knowledge, and values necessary for culturally competent generalist social work practice with organizations and communities. Special attention is given to the implications of discrimination and oppression for attaining social and economic justice. Graduate degree credit will not be given for both SCWK 4733 and SCWK 5733. Prerequisite: SCWK 4333 or SCWK 5333 (formerly SCWK 4333). Pre- or Corequisite: SCWK 4103 or SCWK 5103 (formerly SCWK 4103) and SCWK 4343 or SCWK 5543 (formerly SCWK 4343). (Typically offered: Fall and Spring)

SCWK 596V. Independent Study. 1-6 Hour.

Independent study designed to meet the particular needs of individual graduate students. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCWK 6000L. Thesis Laboratory. 0 Hours.

This laboratory is required for completion of the thesis, which is developed through components of the graduate Research & Technology sequence. Other courses in the graduate curriculum provide support for the conceptualization and development of the thesis. (Typically offered: Fall and Spring)

SCWK 6003. Advanced Social Work Practice Using the MSLC Perspective. 3 Hours.

Advanced Social Work Practice Using the Multi-Systems Life Course (MSLC) perspective teaches advanced practice behaviors with individuals, families, groups, organizations, and communities. This course focuses on integrating the arenas of advanced theory, research, policy practice, direct practice, required competencies and advanced practice behaviors using the MSLC perspective. Prerequisite: Admission into the advanced standing MSW program or completion of foundation courses. (Typically offered: Fall)

SCWK 6233. Advanced Social Work Practice With Children And Youth Using the MSLC Perspective. 3 Hours.

This course focuses on the development, revision, and impact of practice with children and youth from a Multi-Systems Life Course (MSLC) perspective. Historical trends as well as current practices will be examined with a focus on learning and improving social work practice skills. Prerequisite: SCWK 6003. (Typically offered: Spring)

SCWK 6243. Advanced Social Work Practice With Adults Using the MSLC Perspective. 3 Hours.

This course focuses on the development, revision, and impact of practice with adults from a Multi-Systems Life Course (MSLC) perspective. Historical trends as well as current practices will be examined with a focus on learning and improving social work practice skills. Prerequisite: SCWK 6003. (Typically offered: Spring)

SCWK 6442. Advanced Field Seminar I. 2 Hours.

The first of two advanced field seminars required of all students in the MSW program. The purpose of the seminar is to allow students to integrate classroom content with experiences in the field, to practice peer supervision and consultation, and to learn from the experiences of other students in the field. Corequisite: SCWK 6444. Prerequisite: SCWK 5412 or SCWK 5442. (Typically offered: Fall)

SCWK 6444. Advanced Field Internship I. 4 Hours.

This is the first of two advanced field internships required of all graduate students in the MSW program. A minimum of 330 clock hours of agency-based professional social work practicum experience, supervised by a licensed MSW, is required. Corequisite: SCWK 6442. Prerequisite: SCWK 5434 or SCWK 5444. (Typically offered: Fall)

SCWK 6452. Advanced Field Seminar II. 2 Hours.

This is the second of two advanced field seminars required of all students in the MSW program. The purpose of the seminar is to allow students to integrate classroom content with experiences in the field, to demonstrate peer supervision and consultation, and to learn from the experiences of other students in the field. Corequisite: SCWK 6454. Prerequisite: SCWK 6442. (Typically offered: Spring)

SCWK 6454. Advanced Field Internship II. 4 Hours.

This is the second of two advanced Field Internship courses required of all graduate students in the MSW program. A minimum of 330 clock hours of agency-based professional social work practicum experience supervised by a licensed MSW is required. Corequisite: SCWK 6452. Prerequisite: SCWK 6442. (Typically offered: Spring)

Sociology (SOCI) Courses

SOCI 2013. General Sociology (ACTS Equivalency = SOCI 1013). 3 Hours.

Applies a sociological perspective and develops critical thinking. Focuses on culture, identity, race, ethnicity, gender, class inequality, crime, deviance, globalization, social change, and social institutions. Overview of sociological theories and methods for systematic understanding of society. (Typically offered: Fall, Spring and Summer)

SOCI 2013H. Honors General Sociology. 3 Hours.

Develops critical thinking, writing, and research skills by applying a sociological perspective. Focuses on culture, identity, race, ethnicity, gender, class inequality, collective behavior, crime, deviance, globalization, social change, and social institutions. Overview of sociological theories and methods for systematic understanding of society. (Typically offered: Fall, Spring and Summer)
This course is equivalent to SOCI 2013.

SOCI 2033. Social Problems (ACTS Equivalency = SOCI 2013). 3 Hours.

Sociological analysis of major social problems, with emphasis placed on social justice, poverty and economic inequality, racial and ethnic relations, gender, crime, education, and other contemporary issues. Develops critical thinking. (Typically offered: Irregular)

SOCI 3001L. Social Science Data Analytics Lab. 1 Hour.

Provides opportunities to implement social science data analytics skills through completing a series of data modules. The course prepares students to interpret data meaningfully within a variety of future employment fields. Students gain familiarity working with a number of marketable datasets, such as those generated by big data. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

SOCI 3023. Criminological Theory. 3 Hours.

Advanced survey of theories of crime causation. Examines broad sociological paradigms, as well as both individual and aggregate-level explanations of crime causation. Applies criminological theories to contemporary issues associated with crime and criminal justice. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

This course is equivalent to CRIM 3023.

SOCI 3023H. Honors Criminological Theory. 3 Hours.

Advanced survey of theories of crime causation. Examines broad sociological paradigms, as well as both individual and aggregate-level explanations of crime causation. Applies criminological theories to contemporary issues associated with crime and criminal justice. Prerequisite: SOCI 2013, honors and junior standing. (Typically offered: Fall and Spring)

This course is equivalent to CRIM 3023.

SOCI 3053. Serial Crime. 3 Hours.

Exploration of the historical development of criminal profiling related to serial homicide, serial sex crimes, serial stalking, and serial arson. Examination of behavioral and criminological theories, focusing on different profiling techniques and their strengths and challenges. Case studies and published research on serial crime will be used whenever possible. Prerequisite: SOCI 2013. (Typically offered: Irregular)

This course is cross-listed with CRIM 3053.

SOCI 3063. Victimology. 3 Hours.

Introduction to the scientific study of victimization. Examines conceptual boundaries of victimology research, covers theories, statistics and trends relevant to victimology; reviews the victim blaming and defending perspectives; explores practical applications of victimology, and evaluates the social, legal, and criminological issues that stem from concern over victims. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

This course is cross-listed with CRIM 3063.

SOCI 3103. Religion and Society. 3 Hours.

Theories and research on: religious symbols and rituals, becoming and staying religious, the formation and maintenance of religious organizations, religion and social inequality, religion and social change, and globalization. (Typically offered: Irregular)

SOCI 3153. Urban Sociology. 3 Hours.

Examines growth of cities, urban inequalities, politics, social movements, built environment, ecology, sustainability, cultural identity, global cities, and immigration. Implications considered for policy and planning. Prerequisite: SOCI 2013. (Typically offered: Irregular)

SOCI 3173. Latinos, Migration, and the U.S. South. 3 Hours.

Examines social, economic, and population changes in the U.S. South, including shift of Latinos' settlement patterns, actions taken by policy makers to adapt to new demographic context, and mechanisms immigrants use to facilitate their induction into the southern community. Prerequisite: SOCI 2013. (Typically offered: Fall)

SOCI 3193. Race, Class, and Gender in America. 3 Hours.

A critical examination of the layers of the U.S. society that shape and construct social inequalities. Overview of sociological theories and research on how race, class, and gender function separately and in tandem to organize systems of inequality. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

SOCI 3193H. Honors Race, Class, and Gender in America. 3 Hours.

A critical examination of the layers of the U.S. society that shape and construct social inequalities. Overview of sociological theories and research on how race, class, and gender function separately and in tandem to organize systems of inequality. Prerequisite: Honors candidacy, SOCI 2013 or SOCI 2013H and junior standing. (Typically offered: Fall and Spring)

This course is equivalent to SOCI 3193.

SOCI 3203. Corrections and Social Control. 3 Hours.

Overview of correctional systems and punishment. Focuses on theories of correctional philosophies, practices, and procedures, along with the historical development and modern practices of corrections, sentencing, facilities, and issues facing correctional populations. Also examines principles and practices of treatment and rehabilitation in correctional settings. Prerequisite: CRIM 2003. (Typically offered: Fall and Spring)

This course is cross-listed with CRIM 3203.

SOCI 3223. Social Psychology. 3 Hours.

A sociological approach to the study of the interaction between society and the self with an emphasis upon reference groups such as the family, friends, work, lifestyle, and deviance. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

SOCI 3263. Families and Social Change. 3 Hours.

A sociological analysis of the diversity and inequality that exists among families, and the ways in which families have and continue to change over time. Topics discussed include sex, gender, and sexuality, race, ethnicity, and immigration, class and economic transformations. Prerequisite: SOCI 2013. (Typically offered: Spring)

SOCI 3273. Sociology of China. 3 Hours.

Examines many aspects of Chinese people, their cultures, and practices, and also looks at Chinese Americans in the U.S. both historically and currently. Prerequisite: SOCI 2013. (Typically offered: Irregular)

SOCI 3301L. Social Data and Analysis Laboratory. 1 Hour.

The lab is an extension of the lecture in SOCI 3303. Using a variety of computer packages, the lab provides practical experience in managing and analyzing social data. Corequisite: SOCI 3303. (Typically offered: Fall and Spring)

SOCI 3301M. Honors Social Data and Analysis Laboratory. 1 Hour.

The lab is an extension of the lecture in SOCI 3303. Using a variety of computer packages, the lab provides practical experience in managing and analyzing social data. Corequisite: SOCI 3303H. Prerequisite: Honors candidacy. (Typically offered: Fall and Spring)

This course is equivalent to SOCI 3301L.

SOCI 3303. Social Data and Analysis. 3 Hours.

Introduction to descriptive and inferential statistics, with special emphasis on common techniques in social research. Course focuses on the practical usage of data and application to real-world issues. Corequisite: SOCI 3301L. Prerequisite: SOCI 2013 and junior standing. (Typically offered: Fall and Spring)

SOCI 3303H. Honors Social Data and Analysis. 3 Hours.

Introduction to descriptive and inferential statistics, with special emphasis on common techniques in social research. Course focuses on the practical usage of data and application to real-world issues. Corequisite: SOCI 3301L. Prerequisite: Honors candidacy, SOCI 2013 and junior standing. (Typically offered: Fall and Spring)

This course is equivalent to SOCI 3303.

SOCI 3313. Social Research. 3 Hours.

Study and experience in implementing a methodological "toolbox," including theorizing, designing, measuring, sampling, collecting, interpreting, and reporting empirical results for real-world social research applications. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

SOCI 3313H. Honors Social Research. 3 Hours.

Study and experience in implementing a methodological "toolbox," including theorizing, designing, measuring, sampling, collecting, interpreting, and reporting empirical results for real-world social research applications. Prerequisite: Honors candidacy, SOCI 2013 and junior standing. (Typically offered: Fall and Spring)

This course is equivalent to SOCI 3313.

SOCI 3413. Special Topics. 3 Hours.

Offerings vary; check for particular course topics offered. Designed to cover specialized topics in greater depth than regular survey courses provide. Prerequisite: SOCI 2013. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SOCI 3413H. Honors Special Topics. 3 Hours.

Offerings vary; check for particular course topics offered. Designed to cover specialized topics in greater depth than regular survey courses provide. Prerequisite: Honors candidacy and SOCI 2013 or SOCI 2013H. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

This course is equivalent to SOCI 3413.

SOCI 3423. Social Theory. 3 Hours.

Examines the philosophical underpinnings of sociology; introduces notable classical and contemporary social theorists; develops an appreciation for the ways classical works continue to form the basis for contemporary social thought. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

SOCI 3423H. Honors Social Theory. 3 Hours.

Examines the philosophical underpinnings of sociology; introduces notable classical and contemporary social theorists; develops an appreciation for the ways classical works continue to form the basis for contemporary social thought. Prerequisite: Honors standing, junior standing and SOCI 2013. (Typically offered: Fall and Spring)

This course is equivalent to SOCI 3423.

SOCI 3513. Criminal Evidence. 3 Hours.

Examination of how evidence is collected, processed, and presented in court, with an emphasis on the competing interests of crime control and individual liberties. Prerequisite: CRIM 2003. (Typically offered: Fall)

SOCI 3723. Deviant Behavior. 3 Hours.

Sociological overview of disconcerting conduct: its definition, theoretical understandings and research. Specific topics may include: interpersonal violence, self-destructive disorders, controversial lifestyles, substance abuse, as well as the relationship between inequality and disturbing acts. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring)

This course is cross-listed with CRIM 3723.

SOCI 399VH. Honors Course. 1-6 Hour.

Honors. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

SOCI 4003. Internship in Sociology. 3 Hours.

(Formerly SOCI 4006) Supervised experience in municipal, county, or state agencies, or any other agency which is approved by the instructor. Prerequisite: SOCI 2013. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

SOCI 4013. Special Topics in Sociology. 3 Hours.

Offerings vary; check for particular course topics offered. Designed to cover specialized topics in greater depth than regular survey courses provide. Prerequisite: SOCI 2013. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

SOCI 4013H. Honors Special Topics in Sociology. 3 Hours.

Offerings vary; check for particular course topics offered. Designed to cover specialized topics in greater depth than regular survey courses provide. Prerequisite: Honors candidacy and SOCI 2013 or SOCI 2013H. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

This course is equivalent to SOCI 4013.

SOCI 403V. Individual Study in Sociology. 1-3 Hour.

In-depth individual or group study with a faculty member on advanced sociological readings and/or participation in supervised research as an experience-based course. Faculty permission required in advance of enrollment. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

SOCI 4043. Seminar in Sociology. 3 Hours.

Capstone course in sociology. Prerequisite: Senior standing. (Typically offered: Fall and Spring)

SOCI 4063. Organizations in Society. 3 Hours.

Review of literature on work and organizations, with focus on race, class, gender inequalities, and interactions between society and organizations; discussion of topics related to white collar crime and deviant behavior inside modern corporations. Prerequisite: SOCI 2013. (Typically offered: Spring)

SOCI 4113. Terrorism and Social Control. 3 Hours.

Examines the evolution of modern terrorism, efforts to counter its growth, temporal and spatial patterns of precursor conduct, and the investigation, indictment, prosecution, and punishment of terrorists in federal courts. Focuses primarily upon American terrorist groups (ideologies, motives, group characteristics, and tactics). Prerequisite: CRIM 2003. (Typically offered: Spring)
This course is cross-listed with CRIM 4113.

SOCI 4143. Juvenile Justice. 3 Hours.

Examination of juvenile justice system and juvenile crime, including historical development of the system and treatment of juvenile delinquents along with legal, correctional, and treatment processes and philosophies. Emphasis on current issues facing delinquents, the system, and delinquency prevention in addition to trends in juvenile crime. Prerequisite: CRIM 2003. (Typically offered: Fall and Spring)
This course is cross-listed with CRIM 4143.

SOCI 4153. Race and Society. 3 Hours.

Sociological study of race within the U.S., with an emphasis on understanding how race operates within contemporary social institutions. Critical engagement and discussion of topics relating to race will be encouraged. Prerequisite: SOCI 2013 or AAST 1003 or AAST 2023. (Typically offered: Fall)
This course is cross-listed with AAST 4153.

SOCI 4183. Social Network Analysis. 3 Hours.

Introduces the fundamentals of Social Network Analysis (SNA), and its applications for research in various social science fields. Prerequisite: SOCI 2013. (Typically offered: Fall)
This course is cross-listed with PLSC 4613.

SOCI 4253. Social Impact of Data Analytics. 3 Hours.

Teaches students to assess social science data by raising awareness regarding the social impacts of data analytics. Particular attention is paid to the ethical issues involved in the potential benefits and risks across each of the four phases of the data cycle: data collection, consolidation, analytics, and use. Prerequisite: SOCI 2013. (Typically offered: Spring)

SOCI 4603. Environmental Sociology. 3 Hours.

The course provides a social perspective on environmental issues. It examines the linkage between society, ecological systems and the physical environment. It provides conceptual framework(s) for analyzing environmental issues, considers the role of humans in environmental issues, and enhances understanding the complexity of the relationship between societal organization and environmental change. Prerequisite: Junior or above standing. (Typically offered: Spring)
This course is cross-listed with HDFS 4603, SUST 4603.

SOCI 5001. Proseminar. 1 Hour.

An informal forum for graduate students and faculty to present and discuss ongoing research interests as well as the current state of the discipline. Prerequisite: Graduate standing. (Typically offered: Fall)

SOCI 500V. Advanced Problems in Sociology. 1-3 Hour.

Individual research on problems or problem areas. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

SOCI 5013. Advanced Social Research. 3 Hours.

An examination of experimental and quasi-experimental designs used in the analysis of sociological data with focus upon appropriate units of analysis and design selection, sampling, interview techniques, and questionnaire construction. Prerequisite: Graduate standing or instructor consent. (Typically offered: Fall)

SOCI 503V. Special Topics. 1-6 Hour.

Designed to cover specialized topics not usually presented in depth in regular courses. Prerequisite: Graduate Standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SOCI 5043. Public Policy, Children and Families. 3 Hours.

The study of the impact of public policy on children and families, and the ways in which policies are created, modified, and changed. Includes the history of public policy concerning children and families. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5083. Applied Qualitative Research. 3 Hours.

An introduction to research strategies including intensive interviewing, participant observational fieldwork, content analysis, historical analysis, and comparative research. Emphasis on the practical aspects of designing and executive research involving multiple methods of data gathering and analysis. Prerequisite: Graduate standing. (Typically offered: Fall)

SOCI 5113. Seminar in Social Inequality. 3 Hours.

Major theories of stratification; types of stratification systems, comparisons of modern and traditional systems; emergent trends. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5133. The Community. 3 Hours.

A sociological analysis of the theory, methods and materials used in the study of the community. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5153. Sociological Perspective on Social Psychology. 3 Hours.

Principles, concepts and methods used in analyzing effects of social structures and processes on the self and interaction. Topics include exchange theory, role analysis, symbolic interactionism, social construction of reality, socialization, interpersonal competence, organizational and leadership development, social dislocation, and stress. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5233. Theories of Deviance. 3 Hours.

A survey of major theories-classical, developmental, ecological, functionalist, conflict, subcultural, control, and phenomenological-explaining morally condemned differences in society. Particular emphasis is on practical implications of each perspective for policy and social control. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5253. Classical Social Theory. 3 Hours.

A survey of social theory up to the late 20th century. An introduction to the classical sociological themes that continue to inform research, analysis, and policy formation. Major issues will include the relationship between the individual and the community, and the sources of stability, conflict, and change. Prerequisite: Graduate standing. (Typically offered: Fall)

SOCI 5263. Contemporary Social Theory. 3 Hours.

Analysis of contemporary social theories & major theoretical debates. Emphasis is on critical evaluation & application of theoretical perspectives to current social issues affecting families and communities. Prerequisite: Graduate standing. (Typically offered: Spring)

SOCI 5311L. Applied Data Analysis Laboratory. 1 Hour.

Provides instruction for data transformations required for the advanced statistical procedures used in the Statistical Package for the Social Sciences (SPSS). Also provides instruction in the use of advanced statistical procedures covered in SOCI 5313. Prerequisite: Graduate standing. (Typically offered: Spring)

SOCI 5313. Applied Data Analysis. 3 Hours.

Covers basic concepts and applications of the general linear model to a variety of sociological research issues and problems. Also provides an introduction to binary dependent and multivariate categorical data analysis for sociological research.

Prerequisite: Graduate standing. Familiarity with statistical computer programs is assumed. (Typically offered: Spring)

SOCI 5413. Seminar in Criminological Theory. 3 Hours.

An examination of the causation of crime, focusing primarily on sociological theories.

Prerequisite: Graduate standing. (Typically offered: Spring)

SOCI 5423. Research in Criminology. 3 Hours.

Examination of empirical research in criminology, focusing on methodological problems, strategies, and findings. Prerequisite: Graduate standing. (Typically offered: Fall)

SOCI 5433. Victimization. 3 Hours.

Study of the causes, correlates, and consequences of victimization, focusing on theories of victimization and the role of victims in the criminal justice system.

Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5443. Seminar in Terrorism. 3 Hours.

Examination of the causes and consequences of terrorism. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5453. Social Control. 3 Hours.

Study of sociological theories and research on formal social control, primarily institutional responses to criminal behavior. Prerequisite: Graduate standing.

(Typically offered: Irregular)

SOCI 5463. White Collar Crime. 3 Hours.

Study of the nature of white collar, professional, and corporate crime. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5473. Crime and Community. 3 Hours.

Examination of how neighborhood structural characteristics and social organization affect crime, as well as how the presence of crime and disorder in a community can affect neighborhood social organization. Prerequisite: Graduate standing. (Typically offered: Irregular)

SOCI 5503. Research Internship. 3 Hours.

Supervised research experience. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer)

SOCI 5603. Environmental Sociology. 3 Hours.

(Formerly SOCI 4603.) The course provides a social perspective on environmental issues. It examines the linkage between society, ecological systems and the physical environment. It provides conceptual framework(s) for analyzing environmental issues, considers the role of humans in environmental issues, and enhances understanding the complexity of the relationship between societal organization and environmental change. Graduate degree credit will not be given for both SOCI 4603 and SOCI 5603. (Typically offered: Spring)

This course is cross-listed with HDFS 5603.

SOCI 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Southern Studies (SOST) Courses

SOST 2003. Introduction to Southern Studies. 3 Hours.

A three credit hour interdisciplinary course that explores the history, politics, literature, and culture of the U.S. South from the colonial era to the present. Students who minor in Southern Studies will be required to take Introduction to Southern Studies. (Typically offered: Fall Odd Years)

SOST 399V. Special Topics in Southern Studies. 1-3 Hour.

Topics that explore the American South which are not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Space and Planetary Sciences (SPAC) Courses

SPAC 300V. Space & Planetary Sciences Research. 1-3 Hour.

This course covers research in space and planetary sciences performed by undergraduate students in the University. Prerequisite: Junior Standing and Instructor Consent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SPAC 3923H. Honors Colloquium. 3 Hours.

Covers special topics in the space and planetary sciences. Not restricted to any particular major. Prerequisite: Honors candidacy or permission of the instructor. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SPAC 5033. Astrophysics I: Stars and Planetary Systems. 3 Hours.

Stellar structure and evolution, the properties of the solar system, and extrasolar planetary systems. (Typically offered: Fall Odd Years)

This course is cross-listed with ASTR 5033.

SPAC 5111L. Space and Planetary Lab. 1 Hour.

Laboratory course in space and planetary sciences consisting of experiments in the five major areas of space and planetary sciences: planetary astronomy, planetary geology, planetary atmospheres, origin and evolution of life and orbital mechanics and astronautics. Intended for students enrolled in the graduate programs in space and planetary sciences. (Typically offered: Fall)

SPAC 5123. Internship. 3 Hours.

Internship for graduate students in the space and planetary sciences graduate degree programs and concentrations in the graduate programs in physics, biology, geosciences and mechanical engineering. Students conduct a phase of their research, normally for one month, at a national or industrial laboratory in North America or overseas. (Typically offered: Fall and Spring)

SPAC 5161. Seminar. 1 Hour.

Seminars organized by the Arkansas-Oklahoma Center for Space and Planetary Sciences covering topics on the cutting edge of research in the field for graduate students conducting research with a faculty member in the space and planetary sciences as part of their graduate degree programs or concentrations in the graduate programs in physics, biology, geology, geography and mechanical engineering. (Typically offered: Fall and Spring)

SPAC 5211. SPAC Proseminar. 1 Hour.

Introductory course consisting of discourses and case studies in ethics, communications and public policy in the administration of space and planetary sciences. Prerequisite: Admission to program or instructor consent. (Typically offered: Spring)

SPAC 5313. Planetary Atmospheres. 3 Hours.

Origins of planetary atmospheres, structures of atmospheres, climate evolution, dynamics of atmospheres, levels in the atmosphere, the upper atmosphere, escape of atmospheres, and comparative planetology of atmospheres. (Typically offered: Irregular)

SPAC 5413. Planetary Geology. 3 Hours.

Exploration of the solar system, geology and stratigraphy, meteorite impacts, planetary surfaces, planetary crusts, basaltic volcanism, planetary interiors, chemical composition of the planets, origin and evolution of the Moon and planets. (Typically offered: Spring Even Years)

SPAC 5513. Biochemical Evolution. 3 Hours.

Abiotic synthesis of biomolecules on Earth, the origin of cells; genetic information, origin of life on Earth and elsewhere, evolution and diversity, ecological niches, bacteria, archaea, and eukaryotic, novel metabolic reshaping of the environment, life being reshaped by the environment, molecular data, and evolution. Prerequisite: CHEM 5813. (Typically offered: Spring Odd Years)

SPAC 5553. Astrobiology. 3 Hours.

Discusses the scientific basis for the possible existence of extraterrestrial life. Includes origin and evolution of life on Earth, possibility of life elsewhere in the solar system (including Mars), and the possibility of life on planets around other stars. Prerequisite: Instructor consent. (Typically offered: Spring Even Years)
This course is cross-listed with BIOL 5553.

SPAC 5613. Astronautics. 3 Hours.

Study of spacecraft design and operations. Prerequisite: Admission to program or instructor consent. (Typically offered: Irregular)

SPAC 600V. Master's Thesis. 1-10 Hour.

Master's thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

SPAC 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Spanish (SPAN) Courses

SPAN 1003. Elementary Spanish I (ACTS Equivalency = SPAN 1013). 3 Hours.

A first introduction of Spanish for true beginners--pronunciation, aural comprehension, speaking and reading in Spanish--with an objective towards active mastery of basic grammatical structures. (Typically offered: Fall and Spring)

SPAN 1013. Elementary Spanish II (ACTS Equivalency SPAN 1023). 3 Hours.

Elementary courses stress pronunciation, aural comprehension, and simple speaking ability, and lead to active mastery basic grammar and limited reading ability. (Typically offered: Fall and Spring)

SPAN 2003. Intermediate Spanish I (ACTS Equivalency = SPAN 2013). 3 Hours.

Intermediate courses lead to greater facility in spoken language and to more advanced reading skills. (Typically offered: Fall and Spring)

SPAN 2013. Intermediate Spanish II (ACTS Equivalency = SPAN 2023). 3 Hours.

Continued development of basic speaking comprehension and writing skills and intensive development of reading skills. (Typically offered: Fall and Spring)

SPAN 2013H. Honors Intermediate Spanish II. 3 Hours.

Continued development of basic speaking comprehension and writing skills and intensive development of reading skills. (Typically offered: Fall and Spring)
This course is equivalent to SPAN 2013.

SPAN 2123. Spanish for Heritage Speakers I. 3 Hours.

Designed for students from a Spanish-speaking background with limited to no formal study of the language. Literacy development in Spanish with emphasis on building vocabulary, plus reading and writing skills. Prerequisite: Students who have taken one year or less of Spanish. Placement by exam or by Spanish Advisor. (Typically offered: Irregular)

SPAN 3003. Advanced Spanish. 3 Hours.

Further intensive practice to strengthen written and oral expression. Includes a review of the essentials of Spanish grammar. Prerequisite: SPAN 2013 or equivalent. (Typically offered: Fall and Spring)

SPAN 3033. Conversation and Composition. 3 Hours.

Three hours per week of guided conversation (oral) and composition (written) practice for the post-intermediate student. Prerequisite: SPAN 3003. (Typically offered: Fall and Spring)

SPAN 3063. Spanish Reading for Advanced Research. 3 Hours.

This course is designed for graduate students working toward reading proficiency for academic research in the target language. Students acquire skills for effective and efficient reading, including recognition of major syntactical structures and the proper use of reference tools. While this course has no prerequisites, 1-2 years of prior instruction in the language is recommended as a minimum. Successful completion fulfills graduate student reading proficiency requirement in many departments. No credit by advanced placement for lower level Spanish courses is awarded, and this course cannot be counted for credit towards an undergraduate minor or major in Spanish or a world language requirement. (Typically offered: Irregular)

SPAN 3103. Cultural Readings. 3 Hours.

A course designed to build vocabulary and to strengthen reading skills and oral expression through extensive practice with culturally authentic materials. Prerequisite: SPAN 2013 or equivalent. (Typically offered: Fall and Spring)

SPAN 3113. Introduction to Literature. 3 Hours.

Further development of reading skills and introduction to literary commentary and analysis. Prerequisite: (Both SPAN 3003 and SPAN 3103 or only SPAN 3123), or equivalent. (Typically offered: Fall and Spring)

SPAN 3113H. Honors Introduction to Literature. 3 Hours.

Further development of reading skills and introduction to literary commentary and analysis. Prerequisite: Honors standing, both SPAN 3003 and SPAN 3103 or only 3123. (Typically offered: Irregular)

This course is equivalent to SPAN 3113.

SPAN 3123. Spanish for Heritage Speakers II. 3 Hours.

Designed for students from a Spanish-speaking background with some formal training in Spanish and/or the ability to read and write in the language. Continue developing language skills, plus introduction to the U.S. Latino literature and culture. Prerequisite: Students who have taken two years of Spanish in High School, SPAN 2123 or placement exam. (Typically offered: Fall and Spring)

SPAN 3883. Translation and Interpretation I: Spa/Eng - Eng/Spa. 3 Hours.

Designed for learners who want to improve their proficiency in both Spanish and English while introducing translation and interpretation theory with hands-on practice. Prerequisite: Both SPAN 3003 and SPAN 3103, or only SPAN 3123, or instructor consent. (Typically offered: Irregular)

SPAN 399VH. Honors Spanish Course. 1-6 Hour.

Honors Spanish course. Prerequisite: Junior standing. (Typically offered: Fall and Spring) May be repeated for up to 12 hours of degree credit.

SPAN 4003. Advanced Grammar. 3 Hours.

For majors and advanced students covering the problematic areas of Spanish syntax and usage. Prerequisite: SPAN 3003 and SPAN 3103. (Typically offered: Fall)

SPAN 4073. Introduction to Hispanic Linguistics. 3 Hours.

Deepens students' knowledge of the Spanish language through an introduction to the discipline of Linguistics, which is the field of science that studies human language. Areas of Hispanic linguistics that will be covered include phonology (sound system), morphology (word structure), and syntax (sentence structure). Prerequisite: SPAN 4003. (Typically offered: Irregular)

SPAN 4103. Monuments of Spanish Literature I. 3 Hours.

Monuments of the major works of Spanish literature from El Cid through the 17th century. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4113. Monuments of Spanish Literature II. 3 Hours.

Monuments of Spanish literature from the 18th century to the present. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4123. Spanish for Heritage Speakers III. 3 Hours.

Continued development and expansion of Spanish writing skills. Special emphasis given to active grammar, textual production, and critical thinking for writing in academic and professional settings. Students' work involves research, reading, composing, delivering presentations, writing and proofreading different types of essays. Prerequisite: Students who have taken three or more years of Spanish in high school, AP Spanish, SPAN 3123 or placement exam. (Typically offered: Irregular)

SPAN 4133. Survey of Spanish-American Literature I. 3 Hours.

Survey of Spanish-American literature from the Colonial period to mid-19th Century, including pre-Hispanic Indigenous Literatures. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4193. Survey of Spanish-American Literature II. 3 Hours.

Survey of Spanish-American literature from Modernism to the present. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4213. Spanish Civilization. 3 Hours.

A wide-ranging exploration of Spanish history and culture from the Middle Ages to the present. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4223. Latin American Civilization. 3 Hours.

Latin American civilization. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4243. Literature and Culture in the Hispanic United States. 3 Hours.

An exploration of the history and culture, art and politics of the major Hispanic groups in the United States. Focus on contemporary attitudes and issues. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4253. Latin American Cinema and Society. 3 Hours.

This course examines key issues in Latin American culture and history through films, documentaries, and literary and cultural texts. Topics included are: Human Rights, Ethnicity, Gender, Revisions of the past. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 4333. Business Spanish I. 3 Hours.

Enhances ability to interact in Spanish-language business environments by providing a solid foundation in vocabulary and structure in functional business areas such as company structure, banking and accounting, capital investment, goods and services, marketing, finance, and import-export. Students commit to 15 hours during the semester to work on business-related projects with the Spanish-speaking community of Northwest Arkansas. Prerequisite: (SPAN 3003 and SPAN 3103) or SPAN 3123. (Typically offered: Fall and Spring)

SPAN 4563. Latino Youth Bilingual Service Learning Project. 3 Hours.

The Latino Youth Bilingual Project is a service learning course for students in Spanish and Latin American and Latino Studies. Readings on Latino education policies and challenges, bilingualism, and the immigrant experience. Students commit from 15 to 30 hours of mentoring Latino youth at local schools during the semester (in addition to class meeting times) and complete a research project on Latino education. Prerequisite: SPAN 3113 or SPAN 3123 or instructor consent. (Typically offered: Irregular)

SPAN 4583. Advanced Spanish for Health Professions. 3 Hours.

Advanced Spanish for Health Professions is an upper level service learning course for students in Spanish and Latin American and Latino Studies. Development of Spanish language for healthcare providers. Readings on the state of Latino health care in Arkansas and in the United States. Students will work 30 hours during the semester on health related projects with the Spanish speaking community of NWA. Prerequisite: SPAN 3003 and SPAN 3103 or SPAN 3123. (Typically offered: Irregular)

SPAN 4623. Advanced Proficiency in Spanish. 3 Hours.

Work in translation and composition, oral proficiency, and phonetics and pronunciation for students who still seek further practice in skills development to extend their fluency and proficiency in the second language. Suitable for non-native speaking students considering becoming teachers of Spanish. Prerequisite: SPAN 4003 or instructor consent. (Typically offered: Irregular)

SPAN 470V. Special Topics. 1-3 Hour.

May be offered in a topic not specifically covered by courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SPAN 475V. Special Investigations. 1-6 Hour.

Special investigations. (Typically offered: Fall and Spring) May be repeated for degree credit.

SPAN 4883. Indigenous Literatures of Mesoamerica, the Andes and the Amazon. 3 Hours.

A study of native oral narratives, literary texts and other writing forms in the Americas, from ancient times to the present, including the Andean Khipus, Mesoamerican Codices, and Amazonian mythic narratives. Prerequisite: SPAN 3113. (Typically offered: Irregular)

SPAN 5073. Introduction to Hispanic Linguistics. 3 Hours.

Deepens students' knowledge of the Spanish language through an introduction to the discipline of Linguistics, which is the field of science that studies human language. Areas of Hispanic linguistics that will be covered include phonology (sound system), morphology (word structure), and syntax (sentence structure). (Typically offered: Irregular)

SPAN 5203. Medieval Spanish Literature. 3 Hours.

From the 'Jarchas' to the Celestina. (Typically offered: Irregular)

SPAN 5233. Golden Age Novel. 3 Hours.

Major works of Spanish prose fiction from the 16th and 17th centuries, with close reading of major works. (Typically offered: Irregular)

SPAN 5243. Golden Age Poetry and Drama. 3 Hours.

History and development of those genres in the 16th and 17th centuries, with close reading of major works. (Typically offered: Irregular)

SPAN 5253. Colonial Literature and Culture. 3 Hours.

An introductory course to the history, culture and literature of colonial Spanish America from 1492 until 1810. The course will cover representative colonial and indigenous texts and their contexts including Renaissance, Baroque, and travel literature of the Eighteenth Century. The course will be taught in Spanish. (Typically offered: Irregular)

SPAN 5273. Survey of 19th Century Spanish Literature. 3 Hours.

A graduate-level survey of Spanish literature from Neoclassicism to the Generation of 1898. (Typically offered: Irregular)

SPAN 5283. Survey of Contemporary Spanish Literature. 3 Hours.

A graduate-level survey of Spanish literature from the Transition to the present. (Typically offered: Irregular)

SPAN 5343. Survey of 20th Century Spanish Literature. 3 Hours.

A graduate-level survey of Spanish literature from the Generation of 1898 to the Transition. Prerequisite: Graduate standing. (Typically offered: Irregular)

SPAN 5393. 19th Century Spanish American Literature. 3 Hours.

Study of representative literary works from Independence (1810) to 1900's. The course covers Neoclassicism, Romanticism, Realism/Naturalism, and Modernism and the role of literature in the nation-building process. The course will be taught in Spanish. (Typically offered: Irregular)

SPAN 5403. Spanish American Theatre. 3 Hours.

Historical examination of the theatre in Spanish America, with close analysis particularly of representative works and movements in the 20th century. (Typically offered: Irregular)

SPAN 5433. Cervantes: Don Quijote. 3 Hours.

A close reading of Spain's greatest literary masterpiece. (Typically offered: Irregular)

SPAN 5453. Cinema and Literature. 3 Hours.

This course examines several Latin American and Spanish texts and their film adaptations as well as the main film making trends in the Hispanic world. (Typically offered: Irregular)

SPAN 5463. 20th Century Spanish American Literature. 3 Hours.

Critical survey of major movements and outstanding and representative works in 20th century prose and poetry, from the Mexican Revolution and the avant-garde to the contemporary boom and post-boom. (Typically offered: Irregular)

SPAN 5563. Latino Youth Biliteracy Service Learning Project. 3 Hours.

The Latino Youth Biliteracy Project is a service learning course for students in Spanish and Latin American and Latino Studies. Readings on Latino education policies and challenges, bilingualism, and the immigrant experience. Students commit from 15 to 30 hours of mentoring Latino youth at local schools during the semester (in addition to class meeting times) and complete a research project on Latino education. Prerequisite: Graduate standing. (Typically offered: Irregular)

SPAN 5703. Special Topics. 3 Hours.

May be offered in a subject not specifically covered by the courses otherwise listed. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SPAN 575V. Special Investigations. 1-6 Hour.

Special investigations. (Typically offered: Irregular) May be repeated for degree credit.

SPAN 5773. Indigenismo Literature. 3 Hours.

A study of 'indigenismo', an intellectual and literary tradition in Latin America examining the history of exploitation and marginalization of indigenous peoples. Readings include texts by Mariategui, Icaza, Andrade, Asturias, Arguedas, Castellanos, and also 'indigenista' works in music and the plastic arts. (Typically offered: Irregular)

SPAN 5883. Indigenous Literatures. 3 Hours.

A study of native oral narratives, literary texts and other writing forms in the Americas, from ancient times to the present, including the Andean Khipus, Mesoamerican Codices, and Amazonian mythic narratives. (Typically offered: Irregular)

SPAN 5943. U.S. Latino/a Literatures and Cultures. 3 Hours.

Explores the construction and negotiation of Latino/a identities through the study of literary and filmic texts. Theoretical concepts (e.g. latinidad, latinization, intra-latino, cultural remittances) will also be studied. Topics of discussion may include: transnationalism, bilingualism, and interactions between different Latino groups. Taught in Spanish. Prerequisite: Graduate standing. (Typically offered: Irregular)

Special Education (SPED) Courses

SPED 3843. Introduction to Learning and Behavior Analysis. 3 Hours.

This course provides information on: (a) the philosophical assumptions and principles of behavior analysis; (b) systems, processes, and concepts of the experimental and applied behavior analysis; and (c) the ethical and legal issues in its use. (Typically offered: Fall)

SPED 3863. Applications of Behavior Change Procedures. 3 Hours.

Course content includes (a) information on behavior change procedures; (b) activities designed to acquire skill in developing and evaluating behavioral change programs; and (c) information and activities designed to acquire skills in providing and monitoring persons and systems providing support. Legal and ethical standards will be reviewed and applied to the course content. Prerequisite: SPED 3843. (Typically offered: Spring)

SPED 3893. Field Experience in Applied Behavior Analysis. 3 Hours.

Supervised field experience in program, schools, and other settings using the methodology of applied behavior analysis. Prerequisite: SPED 3843. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

SPED 411V. Mentoring Students with Special Needs. 1-6 Hour.

This course provides students an opportunity to mentor students with special needs. Students spend from 3 - 9 hours weekly providing academic and social supports to students with special needs. Prerequisite: Consent of instructor. (Typically offered: Fall and Spring) May be repeated for up to 9 hours of degree credit.

SPED 4173. Introduction to Dyslexia: Literacy Development and Structure of Language. 3 Hours.

This course focuses on the assessment of students with disabilities, literacy development, skills & intervention. Students will utilize foundational concepts of oral and written language including the structure of language to assess student's difficulties and plan appropriate instruction. Techniques discussed include informal observation, miscue analysis, multisensory teaching, and portfolio assessment. Prerequisite: Admission to SPED program. (Typically offered: Fall, Spring and Summer)

SPED 4413. ABA and Classroom Management for Teachers. 3 Hours.

Students in this course will develop an understanding of the basic principles of Applied Behavior Analysis (ABA) and learn how to implement these principles across a Positive Behavior Support Model. Intervention plans include development of individual supports, classroom management supports, and whole school behavior supports. (Typically offered: Fall)

SPED 4423. Technology for the Inclusive Classroom. 3 Hours.

A study of the use of instructional and assistive/augmentative technology for students with learning differences and special learning needs. (Typically offered: Fall)

SPED 4433. Curriculum Development and Instructional Planning. 3 Hours.

Study of the research base for the design and adaptation of curriculum and instructional strategies for students with disabilities in general and special classrooms. (Typically offered: Fall)

SPED 4443. Career Development and Transition Planning for Students with Disabilities. 3 Hours.

A study of career development theory and the research-based strategies for evaluating, planning, and implementing transition programs for students with disabilities. (Typically offered: Fall)

SPED 4453. Assessment of Students with Disabilities. 3 Hours.

A study of the methods and techniques of the assessment of children in all areas of exceptionality with emphasis on diagnosis, classification, and tracking progress. (Typically offered: Fall)

SPED 4463. Teaching Students with Significant Disabilities. 3 Hours.

A study of methods and materials for teaching students (K-12) with severe disabilities, including severe mental retardation, serious emotional disturbance, other health impairments, multiple disabilities, and severe physical disabilities. (Typically offered: Spring)

SPED 4473. Teaching Students with Disabilities in Math and Science. 3 Hours.

A study of content, methods, and materials for teaching mathematics and science to students with diverse learning needs and how to adapt curriculum to meet diverse needs. (Typically offered: Spring)

SPED 4483. Teaching Literacy Skills to Students with Disabilities. 3 Hours.

This course will offer a detailed study of how to systematically and explicitly teach essential reading skills to students with disabilities or those at-risk for learning difficulties. (Typically offered: Spring)

SPED 4493. Introduction to Students with Autism Spectrum Disorder. 3 Hours.

The purpose of this course is to develop an understanding of autism spectrum disorders, understand the unique characteristics as they apply to the context of the classroom, be able to design an appropriate classroom setting, and use evidence based teaching practices for students with autism spectrum disorders. (Typically offered: Spring)

SPED 4538. Special Education Internship - Kindergarten through 6th Grade. 8 Hours.

Provides the opportunity to focus demonstrating and refining teaching skills through a teaching internship in special education grades K-6 grades while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4543. Corequisite: SPED 4543. (Typically offered: Fall)

SPED 4543. Special Education Seminar - Kindergarten through 6th Grade. 3 Hours.

Provides the opportunity to focus on issues encountered in the teaching internship in special education grades kindergarten through sixth grades while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4538. Corequisite: SPED 4538. (Typically offered: Fall)

SPED 4553. Special Education Research - Kindergarten through 6th Grade. 3 Hours.

Designing, conducting and applying research to improve classroom instruction in special education (K-6). (Typically offered: Fall)

SPED 4568. Special Education Teaching Internship - 7th through 12th Grade. 8 Hours.

Provides the opportunity to focus demonstrating and refining teaching skills through a teaching internship in special education grades 7-12 grades while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4573. Corequisite: SPED 4573. (Typically offered: Spring)

SPED 4573. Special Education Seminar - 7th through 12th Grade. 3 Hours.

Provides the opportunity to focus on issues encountered in the teaching internship in special education grades seventh through twelfth grades while simultaneously developing a professional portfolio. Must be taken concurrently with SPED 4568. Corequisite: SPED 4568. (Typically offered: Spring)

SPED 4583. Special Education Research - 7th through 12th Grade. 3 Hours.

Designing, conducting and applying research to improve classroom instruction in special education (7-12). (Typically offered: Spring)

SPED 5143. Teaching Communication Skills to Persons with Autism. 3 Hours.

This course focuses on classroom and teaching strategies for the development of communication skills with students who have autism spectrum disorders. Students will learn the characteristics of typical language development, atypical language development in autism, functional communication training and behavior analytic approaches to teaching communication. Prerequisite: Admission to the Graduate School. (Typically offered: Summer)

SPED 5173. Introduction to Dyslexia: Literacy Development & Structure of Language. 3 Hours.

This course focuses on the assessment of students with disabilities, literacy development, skills and intervention. Students will utilize foundational concepts of oral and written language including the structure of language to assess students' difficulties and plan appropriate instruction. Techniques discussed include informal observation, miscue analysis, multisensory teaching, and portfolio assessment. Prerequisite: Admission to graduate school. (Typically offered: Spring)

SPED 532V. Practicum in Special Education. 1-6 Hour.

Supervised field experiences in special education programs, schools, institutions, and other facilities for exceptional children. (Typically offered: Irregular)

SPED 5343. Analysis of Behavior for Teachers. 3 Hours.

An advanced course in managing behaviors in students with exceptionalities. Students are provided with experiences in applying theoretical bases of classroom management through identifying, assessing graphing, and analyzing behavioral data and implementing management plans. Ethical issues in the use of functional analysis are addressed. (Typically offered: Fall)

SPED 5413. ABA and Classroom Management for Teachers. 3 Hours.

(Formerly SPED 4413.) Students in this course will develop an understanding of the basic principles of Applied Behavior Analysis (ABA) and learn how to implement these principles across a Positive Behavior Support Model. Intervention plans include development of individual supports, classroom management supports, and whole school behavior supports. Graduate degree credit will not be given for both SPED 4413 and SPED 5413. (Typically offered: Fall)

SPED 5423. Technology for the Inclusive Classroom. 3 Hours.

(Formerly SPED 4423.) A study of the use of instructional and assistive/ augmentative technology for students with learning differences and special learning needs. Graduate degree credit will not be given for both SPED 4423 and SPED 5423. (Typically offered: Fall)

SPED 5433. Curriculum Development and Instructional Planning. 3 Hours.

(Formerly SPED 4433.) Study of the research base for the design and adaptation of curriculum and instructional strategies for students with disabilities in general and special classrooms. Graduate degree credit will not be given for both SPED 4433 and SPED 5433. (Typically offered: Fall)

SPED 5443. Career Development and Transition Planning for Students with Disabilities. 3 Hours.

(Formerly SPED 4443.) A study of career development theory and the research-based strategies for evaluating, planning, and implementing transition programs for students with disabilities. Graduate degree credit will not be given for both SPED 4443 and SPED 5443. (Typically offered: Fall)

SPED 5463. Teaching Students with Significant Disabilities. 3 Hours.

(Formerly SPED 4463.) A study of methods and materials for teaching students (K-12) with severe disabilities, including severe mental retardation, serious emotional disturbance, other health impairments, multiple disabilities, and severe physical disabilities. Graduate degree credit will not be given for both SPED 4463 and SPED 5463. (Typically offered: Spring)

SPED 5483. Teaching Literacy Skills to Students with Disabilities. 3 Hours.

(Formerly SPED 4483.) This course will offer a detailed study of how to systematically and explicitly teach essential reading skills to students with disabilities or those at-risk for learning difficulties. Graduate degree credit will not be given for both SPED 4483 and SPED 5483. (Typically offered: Spring)

SPED 5493. Introduction to Students with Autism Spectrum Disorder. 3 Hours.

(Formerly SPED 4493.) The purpose of this course is to develop an understanding of autism spectrum disorders, understand the unique characteristics as they apply to the context of the classroom, be able to design an appropriate classroom setting, and use evidence based teaching practices for students with autism spectrum disorders. Graduate degree credit will not be given for both SPED 4493 and SPED 5493. (Typically offered: Spring)

SPED 5543. Dyslexia Teaching Practicum. 3 Hours.

Provides the opportunity to demonstrate and refine teaching skills with dyslexic students and others with literacy learning disabilities through case studies and structured multi-sensory teaching of reading and writing skills with grades k-12 while simultaneously developing a professional portfolio. A minimum of 82 hours of field experiences with dyslexic students is required. (Typically offered: Spring)

SPED 5633. Curriculum Development and Instructional Planning. 3 Hours.

Study of the research base for the design and adaptation of curriculum and instructional strategies for students with disabilities in general and special classrooms. (Typically offered: Irregular)

SPED 5643. Individual Diagnostic Testing. 3 Hours.

A study of various individual diagnostic tests used to identify students with disabilities and develop individual educational programs. Prerequisite: Admission to Graduate School. (Typically offered: Irregular)

SPED 5653. Individual Intelligence Testing. 3 Hours.

A study of various individual intelligence tests, including the Wechsler series, and their use in schools to identify students with disabilities. Prerequisite: Admission to Graduate School. (Typically offered: Irregular)

SPED 5663. Teaching Science and Math to Students with Disabilities. 3 Hours.

A study of content, methods, and materials for teaching science and math courses to students with diverse learning needs and how to adapt curriculum to meet diverse needs. Prerequisite: Admission to graduate school. (Typically offered: Irregular)

SPED 5673. Teaching Students with Disabilities in the Content Areas. 3 Hours.

A study of content, methods, and materials for teaching content courses to students with diverse learning needs (K-12). (Typically offered: Irregular)

SPED 5683. Teaching Literacy Skills to Students with Disabilities. 3 Hours.

This course will offer a detailed study of how to systematically and explicitly teach essential reading skills to students with disabilities or those at-risk for learning difficulties. (Typically offered: Irregular)

SPED 5713. Career Development and Transition for People with Disabilities. 3 Hours.

This is an advanced course at the master's level in the specialty studies. The Scholar Practitioner model at this level will pursue an in-depth study of the transition process for students with disabilities including transition plan development, work based learning opportunities, developing skills in self-advocacy and self-determination using evidence based practices, family engagement, collaborative program planning and evaluation. (Typically offered: Fall)

SPED 5733. Inclusive Practices for Diverse Populations. 3 Hours.

An advanced study of the characteristics of persons with exceptional learning needs and the provision of appropriate instruction in the general education classroom including the use of current technologies including instructional media, social networking, and other educational technologies. Prerequisite: Graduate standing. (Typically offered: Summer)

SPED 5743. Teaching Persons With Physical and Health Disabilities. 3 Hours.

This course is an advanced course at the master's level in the specialty studies. The Scholar Practitioner model at this level will pursue an in-depth study of the characteristics, needs, and methods for teaching of persons with physical and health disabilities while emphasizing advance learning in the specialty studies and the social and behavioral studies in the substantive areas. Prerequisite: Graduate standing. (Typically offered: Spring)

SPED 5753. Nature and Needs of Persons with Serious Emotional Disorders. 3 Hours.

A survey of the educational, psychological, and social characteristics of individuals with serious emotional disorders. Four major categories of behaviors (personality disorders, pervasive developmental disorders, and learning/behavior disorders) are reviewed in relationship to identification, assessment, and program intervention within the public school setting. Prerequisite: CIED 3023. (Typically offered: Irregular)

SPED 5763. Teaching Individuals with Severe Disabilities. 3 Hours.

Methods and materials for teaching students with severe disabilities, including severe mental retardation, serious emotional disturbance, and severe physical disabilities. (Typically offered: Spring)

SPED 5773. Methods for Young Children with Disabilities. 3 Hours.

This course is one of the substantive core courses required of all students being recommended for the P-4 Instructional Specialist license. The Scholar-Practitioner Model at this level provides an introduction to the education of young children with special learning needs and a foundation for the developing professional. (Typically offered: Irregular)

SPED 5783. Professional and Family Partnerships. 3 Hours.

This course is an advanced course at the master's level in the specialty studies. The Scholar Practitioner model at this level will pursue an in-depth study of family-school partnerships from early childhood through the transition to adulthood while emphasizing advance learning in the specialty studies and the social and behavioral studies in the substantive areas. Prerequisite: Admission to graduate school. (Typically offered: Fall)

SPED 5873. Assessment and Programming for Students with Disabilities. 3 Hours.

Methods and techniques of assessment of children in all areas of exceptionality with emphasis on diagnosis and classification. (Typically offered: Fall)

SPED 5883. Research in Inclusive Education. 3 Hours.

Review of research in inclusive education including all areas of exceptionality and English language learners with emphasis on research-based practices. (Typically offered: Fall)

SPED 5893. Organization, Administration and Supervision of Special Education. 3 Hours.

Procedures, responsibilities and problems of organization, administration, and supervision of special education programs. (Typically offered: Irregular)

SPED 599V. Special Topics. 1-6 Hour.

Discussion and readings on selected topics in special education. Special focus on recent and emerging topics in special education. Prerequisite: Admission to Graduate School and Special Education graduate program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SPED 605V. Independent Study. 1-6 Hour.

Advanced studies on potential research topics for graduate students in special education. Prerequisite: Admission to the Graduate School and instructor consent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SPED 6403. Emerging Issues in Special Education. 3 Hours.

A study in the complex issues with which professionals in the field of special education must be familiar and prepared to address. (Typically offered: Irregular)

SPED 641V. Special Topics in Special Education. 1-3 Hour.

Discussion and advanced studies on select topics in special education. Specific focus will include evidence-based and emerging practices in special education. (Typically offered: Irregular)

SPED 6423. Philosophical and Sociological Bases of Special Education. 3 Hours.

A study of the basic philosophical and sociological bases for current practices in special education. (Typically offered: Irregular)

SPED 6433. Legal Aspects of Special Education. 3 Hours.

A study of litigation and legislation in special education, federal and state laws and court cases, and due process hearings. (Typically offered: Irregular)
This course is cross-listed with EDLE 6433.

SPED 6453. Human Performance Improvement. 3 Hours.

This course is an introduction to Human Performance Technology, a rapidly growing field that applies the principles, methods, and empirical generalizations of Behavior Analysis to improving human performance in organizations. Working from a theoretical basis, students will learn how to diagnose performance discrepancies in organizational settings, design and evaluate appropriate behavior-based solutions. (Typically offered: Spring)

SPED 6803. Teaching Students with Autism Spectrum Disorders. 3 Hours.

This course provide students with an understanding of individuals who have been diagnosed with autism spectrum disorders. The course provides a life-span perspective by focusing on preschoolers, school-aged children, and adults. Students will study the characteristics of these individuals and general educational strategies for their education. (Typically offered: Fall)

SPED 6813. Characteristics and Assessment of Persons with ASD. 3 Hours.

This course provides an in-depth study of the characteristics and assessment of persons with autism spectrum disorders. It includes formal and informal assessment measures used to assist in the identification of students with ASD, as well as provide information for program development for this group of students. (Typically offered: Spring)

SPED 6823. Instructional Methods for Students with Autism Spectrum Disorders. 3 Hours.

This course is designed to assist professional educators in planning and implementing instructional and support services for students with autism spectrum disorders. Students will learn how to participate in collaborative family, school, and community partnerships. (Typically offered: Fall)

SPED 6833. Practicum in Autism Spectrum Disorders. 3 Hours.

Supervised field experiences in programs, schools, and other settings for children with autism spectrum disorders. (Typically offered: Fall, Spring and Summer)

SPED 6843. Basic Principles of ABA. 3 Hours.

Course provides information on: (a) the philosophical assumptions and principles of behavior analysis; (b) basic principles, processes, and concepts of applied behavior analysis; and (c) ethical and legal issues involved in its use. (Typically offered: Fall)

SPED 6853. Behavioral Assessment in ABA. 3 Hours.

Course content includes information on effective methods and the development of skills: (a) assessing, organizing, and interpreting behavior; (b) conducting task analysis and selecting intervention goals and strategies; (c) displaying data; and (d) making evidence-based decisions. Legal and ethical standards will be reviewed and applied to behavioral change procedures used. (Typically offered: Summer)

SPED 6863. Behavior Change Procedures and Supports. 3 Hours.

Course content includes (a) information on behavior change procedures; (b) activities designed to acquire skill in developing and evaluating behavioral change programs; and (c) information and activities designed to acquire skills in providing and monitoring persons and systems providing support. Legal and ethical standards will be reviewed and applied to the course content. (Typically offered: Spring)

SPED 6873. Measurement and Experimental Design. 3 Hours.

Course content includes information on and the development of skills in: (a) the measurement of the multiple dimensions of behaviors; (b) the use of methods of measuring behavior; (c) the experimental evaluation of interventions; and (d) the multiple methods of displaying and interpreting behavioral data. Legal and ethical standards will be reviewed and applied to the course content. (Typically offered: Fall)

SPED 6883. ABA Ethical, Professional, and Legal Standards. 3 Hours.

Course content includes information on the ethical, professional and legal standards in special education and, specifically, the area of applied behavior analysis. (Typically offered: Summer)

SPED 6893. Practicum in Applied Behavioral Analysis. 3 Hours.

This course is a supervised practicum that provides students with experience in applying the knowledge, skills, and dispositions by teaching individuals using Applied Behavior Analysis. Instructor approval needed for enrolling in the course. (Typically offered: Fall and Spring) May be repeated for up to 18 hours of degree credit.

Statistics (STAT) Courses

STAT 2023. Biostatistics. 3 Hours.

An introductory course in biostatistics emphasizing methods for collecting, graphing, and understanding data. Special emphasis is placed upon available methods for both exploratory and confirmatory data analysis. Particular attention is given to statistical methods for data sets with discrete variables. Pre- or Corequisite: MATH 2554. Corequisite: Lab component. (Typically offered: Spring)

STAT 2303. Principles of Statistics (ACTS Equivalency = MATH 2103). 3 Hours.

A problem-oriented course with applications from many fields. Emphasis on understanding the nature of statistical orderliness implied by probability laws. Statistical analysis is treated as a means of decision making in the face of uncertainty. Prerequisite: MATH 1203 or MATH 1204 each with a grade of C or better, or MATH 1313 with a grade of C or better, or a score of at least 50 on the Math Placement Test, or a score of at least 26 on the math component of the ACT exam, or a score of at least 600 on the math component of the old SAT or 620 on the math component of the new SAT. (Typically offered: Fall, Spring and Summer)

STAT 3013. Introduction to Probability. 3 Hours.

A calculus-based introduction to probability. Discrete probability spaces and counting techniques, discrete and continuous probability distributions, random variables, random samples, law of large numbers, central limit theorem. Prerequisite: MATH 2564. (Typically offered: Fall, Spring and Summer)

This course is cross-listed with MATH 3013.

STAT 3113. Introduction to Mathematical Statistics. 3 Hours.

A calculus-based introduction to mathematical statistics, revolving around estimation, hypothesis testing, and Bayesian inference. Emphasis is given to the unifying mathematical and decision-theoretical principles that provide a justification to different estimation and testing procedures. Prerequisite: STAT 3013 or departmental consent. (Typically offered: Spring)

STAT 4001L. Statistics Methods Laboratory. 1 Hour.

Introduction to the statistical software SAS, including its use for common statistical analyses. A practical complement to the statistical methodology covered in STAT 4003. (Typically offered: Fall and Spring)

STAT 4003. Statistical Methods. 3 Hours.

Describing Data, Basic Probability, Random variables, Uniform, Normal and Binomial Distributions, Sampling Distributions, Confidence Intervals, Hypothesis testing, Correlation and Regression, Contingency table, Comparing two populations, ANOVA. Prerequisite: MATH 2554 or MATH 2554C. (Typically offered: Fall and Spring)

STAT 4033. Nonparametric Statistical Methods. 3 Hours.

Chi square tests. Kolmogorov-Smirnov goodness-of-fit tests, the Mann-Whitney and Wilcoxon 2-sampling tests, and various nonparametric measures of association. Prerequisite: STAT 2303 or STAT 2023 or departmental consent. (Typically offered: Fall, Spring and Summer)

STAT 4043. Sampling Techniques. 3 Hours.

Considers optimum techniques of simple random, stratified random, cluster, systematic and multistage sampling from finite populations subject to cost precision constraints. Wide range of applications. Prerequisite: STAT 4003. (Typically offered: Fall, Spring and Summer)

STAT 405V. Internship in Professional Practice. 1-3 Hour.

Professional work experience involving significant use of mathematics or statistics in business, industry or government. Prerequisite: Departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

STAT 4101L. Introduction to R. 1 Hour.

A hands-on introduction to R software, a free and open-source computing environment used for data manipulation and analysis across a broad spectrum of subject areas. Intended for new users. Content begins with simple data manipulation, then complex data structures and common statistical procedures are covered. (Typically offered: Fall)

STAT 4333. Analysis of Categorical Responses. 3 Hours.

Statistical tools to analyze univariate and multivariate categorical responses. Emphasis is given to Generalized Linear Models, including logistic regression and loglinear models. Prerequisite: STAT 4003 or departmental consent. (Typically offered: Spring)

STAT 4373. Experimental Design. 3 Hours.

Topics in the design and analysis of planned experiments, including randomized block, Latin square, split plot, and BIB designs, use of fractional factorial replication, and repeated measures. Prerequisite: STAT 4003. (Typically offered: Spring)

STAT 5001L. Statistics Methods Laboratory. 1 Hour.

(Formerly STAT 4001L.) Introduction to the statistical software SAS, including its use for common statistical analyses. A practical complement to the statistical methodology covered in STAT 4003. Graduate degree credit will not be given for both STAT 4001L and STAT 5001L. (Typically offered: Fall and Spring)

STAT 5003. Statistical Methods. 3 Hours.

(Formerly STAT 4003.) Describing Data, Basic Probability, Random variables, Uniform, Normal and Binomial Distributions, Sampling Distributions, Confidence Intervals, Hypothesis testing, Correlation and Regression, Contingency table, Comparing two populations, ANOVA. Graduate degree credit will not be given for both STAT 4003 and STAT 5003. (Typically offered: Fall and Spring)

STAT 5033. Nonparametric Statistical Methods. 3 Hours.

(Formerly STAT 4033.) Chi square tests. Kolmogorov-Smirnov goodness-of-fit tests, the Mann-Whitney and Wilcoxon 2-sampling tests, and various nonparametric measures of association. Graduate degree credit will not be given for both STAT 4033 and STAT 5033. (Typically offered: Fall, Spring and Summer)

STAT 5043. Sampling Techniques. 3 Hours.

(Formerly STAT 4043.) Considers optimum techniques of simple random, stratified random, cluster, systematic and multistage sampling from finite populations subject to cost precision constraints. Wide range of applications. Graduate degree credit will not be given for both STAT 4043 and STAT 5043. Prerequisite: STAT 4003. (Typically offered: Fall, Spring and Summer)

STAT 505V. Internship in Professional Practice. 1-3 Hour.

(Formerly STAT 405V.) Professional work experience involving significant use of mathematics or statistics in business, industry or government. Graduate degree credit will not be given for both STAT 405V and STAT 505V. Prerequisite: Departmental consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

STAT 5103. Introduction to Probability Theory. 3 Hours.

Fundamentals of probability, distribution theory, and random variables; expected value, moments, and generating functions; classic parametric families of distributions; central limit theorems, inequalities, and laws of large numbers. Prerequisite: MATH 2574 and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)

STAT 5113. Statistical Inference. 3 Hours.

Statistical theory of estimation and testing hypothesis. Prerequisite: STAT 5103 and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring)

STAT 5121L. Introduction to R. 1 Hour.

(Formerly STAT 4101L.) A hands-on introduction to R software, a free and open-source computing environment used for data manipulation and analysis across a broad spectrum of subject areas. Intended for new users. Content begins with simple data manipulation, then complex data structures and common statistical procedures are covered. Graduate degree credit will not be given for both STAT 4101L or STAT 5121L. (Typically offered: Fall)

STAT 5313. Regression Analysis. 3 Hours.

Review of matrix algebra, parameter estimation in linear models, regression diagnostics, collinearity, variable selection, nonparametric regression, Bayesian regression. Prerequisite: STAT 4003 or departmental consent. (Typically offered: Spring)

STAT 5333. Analysis of Categorical Responses. 3 Hours.

Statistical tools to analyze univariate and multivariate categorical responses. Emphasis is given to Generalized Linear Models, including logistic regression and loglinear models. Prerequisite: STAT 4003 or departmental consent. (Typically offered: Spring)

STAT 5343. Stochastic Processes. 3 Hours.

Markov chains, branching processes, birth-death processes, queueing theory with application. Prerequisite: STAT 5103, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall, Spring and Summer)

STAT 5353. Methods of Multivariate Analysis. 3 Hours.

Statistical tools to analyze multivariate datasets. Topics include the multivariate linear model, principal component analysis, factor analysis, linear discriminant analysis, clustering, classification and regression trees, support vector machines, nonlinear dimensionality reduction. Prerequisite: STAT 5313, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Spring)

STAT 5373. Experimental Design. 3 Hours.

(Formerly STAT 4373.) Topics in the design and analysis of planned experiments, including randomized block, Latin square, split plot, and BIB designs, use of fractional factorial replication, and repeated measures. Graduate degree credit will not be given for both STAT 4373 and STAT 5373. Prerequisite: STAT 4003. (Typically offered: Spring)

STAT 5383. Time Series Analysis. 3 Hours.

Identification, estimation and forecasting of time series. Spectral analysis including the fast Fourier transform computational aspects are emphasized. Prerequisite: STAT 5103, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall, Spring and Summer)

STAT 5413. Spatial Statistics. 3 Hours.

Applied spatial statistics, covering univariate spatial modeling (kriging), multivariate spatial modeling (cokriging), methods of estimation and inference, and spatial sampling designs. Special relevance to remote sensing. Prerequisite: STAT 5313, and graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Fall)

STAT 5443. Computational Statistics. 3 Hours.

In-depth introduction to computer-based algorithms used for inference and forecasting. Course content may vary by semester. Possible algorithms covered could include: resampling methods (bootstrap), Markov chain Monte Carlo, variable selection in high-dimensional regression (LASSO and LARS), artificial neural networks, ensemble methods (boosting, bagging, random forests), and kernel methods. Prerequisite: STAT 5113 or departmental consent. (Typically offered: Spring)

STAT 550V. Statistical Consulting. 1-3 Hour.

Designed to give students a statistical consulting practicum. Students meet with clients, analyze data and prepare reports for the clients. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

STAT 610V. Research in Statistics. 1-4 Hour.

Research in statistics. Prerequisite: Graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Irregular)

STAT 639V. Topics in Statistics. 1-3 Hour.

Current state of the art on methodology in one of the topics: multivariate analysis, time series analysis, sequential analysis, factor analysis, or biostatistics. Prerequisite: Graduate standing in mathematics or statistics, or departmental consent. (Typically offered: Irregular) May be repeated for degree credit.

Statistics and Analytics (STAN) Courses

STAN 501V. Special Topics in Statistics and Analytics. 1-6 Hour.

Designed to cover specialized topics not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

STAN 502V. Research Problems in Statistics and Analytics. 1-6 Hour.

Designed to allow focused study into student's research area. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

STAN 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Supply Chain Management (SCMT) Courses

SCMT 2103. Introduction to Supply Chain Management. 3 Hours.

An introduction to supply chain management. All functional areas of supply chain management are explored to provide students an end-to-end view of supply chain management processes. Prerequisite: ACCT 2013 and WCOB 1033 each with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 2103H. Honors Introduction to Supply Chain Management. 3 Hours.

An introduction to supply chain management. All functional areas of supply chain management are explored to provide students an end-to-end view of supply chain management processes. Prerequisite: ACCT 2013 and WCOB 1033 each with a grade of C or better. (Typically offered: Fall and Spring)

This course is equivalent to SCMT 2103.

SCMT 3443. Transportation and Distribution Management. 3 Hours.

Examines modes of freight transportation and institutional factors that influence transportation decisions; regulation, public policy, other governmental variables reviewed in detail. Additionally, distribution aspects of the logistics function within the firm such as warehousing, cross-docking, and distribution center management are explored. Prerequisite: ((ECON 2013 and ECON 2023) or ECON 2143) and SCMT 2103 with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 3613. Supply Management. 3 Hours.

Management of tactical and strategic sourcing relationships including supply aspects of the logistics function within the firm such as purchasing, procurement, forecasting, inventory control, quality, sustainability and negotiation. Prerequisite: ((ECON 2013 and ECON 2023) or ECON 2143) and SCMT 2103 with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 3623. Inventory and Forecasting Analytics. 3 Hours.

The intent of this course is to rigorously examine two key elements of logistics: inventory control and forecasting. Coverage of the former topic specifically focuses on inventory control methods for stochastic demand and lead times. Besides a review of the associated theoretical bases, the implementation of such policies in Excel is a central component of the course. Forecasting topics covered in this course include a review of a variety of forecasting techniques and forecast error measurement. Moreover, the linkage between forecasting and inventory control is discussed. As with inventory control, students will learn how to implement various forecasting techniques in Excel. Prerequisite: ((ECON 2013 and ECON 2023) or ECON 2143) and SCMT 2103 with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 3633. Behavioral Supply Chain Management. 3 Hours.

Effective supply chain management requires an understanding of people who make supply chain decisions. This course will expose students to behavioral issues in supply chain and logistics. Readings will be assigned weekly, with a focus on practical implications. There will be an emphasis on experiential learning and teams of students will work on course projects in the area of the retail supply chain, broadly defined. Prerequisite: SCMT 3613. (Typically offered: Irregular)

SCMT 3643. International Logistics. 3 Hours.

Logistics activities in international business with special emphasis on international sourcing and distribution channels, international transportation, import and export procedures, international sale and payment terms, and documentation. Special emphasis is placed on current events and their effect on the management of operations of U.S.-based organizations. Prerequisite: ((ECON 2013 and ECON 2023), or ECON 2143) and SCMT 2103 with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 3653. Retail Supply Chain Analysis. 3 Hours.

This course examines the various function components of retail supply chain management and focuses on analysis and metrics required to effectively manage a retail supply chain. The purpose of this course is to introduce students to the various aspects of retail supply chain management. In this course, the students will learn to speak of the "language" of retailing and acquire the skills to effectively analyze the performance of retail supply chains. Prerequisite: (ECON 2013 and ECON 2023) or ECON 2143. (Typically offered: Fall and Spring)

SCMT 3663. MAKE: Supply Chain Process Improvement. 3 Hours.

The course focuses on the fundamental concepts, techniques, and tools for managing production and improving business processes across the supply chain, in both manufacturing and service contexts. Philosophies, principles, approaches, and techniques students will learn and experience in this course include Lean, Total Quality Management, Theory of Constraints, Practical Scientific Thinking, and Toyota Kata. Prerequisite: SCMT 2103 with a grade of C or better. (Typically offered: Fall and Spring)

SCMT 4003H. Honors Supply Chain Management Colloquium. 3 Hours.

Explores events, concepts and/or new developments in the field of Supply Chain Management. Prerequisite: Junior standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 4103. Special Topics in Supply Chain Management. 3 Hours.

Special topics in supply chain management not available in other courses. Topics are selected by the supply chain faculty for each semester each course is offered. Prerequisite: Junior standing. (Typically offered: Irregular)

SCMT 4123. Sustainable Logistics and Supply Chain Management. 3 Hours.

Explores key sustainability concepts across supply chain functions of supply management, operations, and distribution. Course topics include values-based leadership, globalizing sustainability, marketing sustainability, voluntary product standards and governance, stakeholder engagement, reverse logistics, humanitarian logistics, and transportation. Overall, we will consider the feasibility and role of firms in producing sustainability in global supply chains. (Typically offered: Irregular)

SCMT 4633. Transportation Analytics. 3 Hours.

Reviews special management techniques and analytical framework available for solving problems associated with companies whose core competencies include distribution and transportation modes of truck, rail, air, water, pipeline and intermodal. Prerequisite: SCMT 3443. (Typically offered: Fall and Spring)

SCMT 4653. Supply Chain Strategy. 3 Hours.

Design and management of supply chain systems for firms of varying size and different supply and market conditions. This capstone course relies heavily on computer assisted cases and lectures from visiting executives. Prerequisite: SCMT 3443, SCMT 3613 and SCMT 3623. (Typically offered: Fall and Spring)

SCMT 466V. Independent Study in Supply Chain Management. 1-3 Hour.

Permits students to explore selected topics in supply chain management, logistics and transportation. (Typically offered: Fall and Spring)

SCMT 4853. Cross-Sector Collaboration for Sustainability. 3 Hours.

This course explores how organizations in the three sectors of society work together in value creation by addressing social and environmental problems manifest in global supply chains. Focusing on business and nonprofit organizations, we investigate the forces that bring about and influence these collaborations from practical and theoretical perspectives. Prerequisite: Junior Standing. (Typically offered: Spring)

SCMT 5123. Sustainable Logistics and Supply Chain Management. 3 Hours.

Explores key sustainability concepts across supply chain functions of supply management, operations, and distribution. Course topics include values-based leadership, globalizing sustainability, marketing sustainability, voluntary product standards and governance, stakeholder engagement, reverse logistics, humanitarian logistics, and transportation. Overall, we will consider the feasibility and role of firms in producing sustainability in global supply chains. (Typically offered: Irregular)

SCMT 5133. Quantitative Methods and Decision Making. 3 Hours.

Utilization of information, quantitative techniques, and computer application in decision making and problem solving for managers. (Typically offered: Fall)
This course is cross-listed with ISYS 5403.

SCMT 560V. Special Topics in Logistics. 1-6 Hour.

Explores current events, concepts, and new developments in the field of logistics and transportation. Topics are selected by the Marketing and Transportation faculty for each semester the course is offered. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 5623. Supply Chain Innovation and Technology. 3 Hours.

This course explores innovation as a strategy to improve existing and/or invent new supply chain processes which ultimately create and/or maintain competitive advantage. Open, reverse, disruptive, incremental and breakthrough innovation concepts are explored. Design thinking is utilized to facilitate critical customer centric thinking about supply chains resulting in innovative solutions by inventing new or improving on existing processes, intellectual property, technologies, and systems. Leadership assessment techniques will be utilized to create diverse and inclusive cross-functional teams focused on current industry projects. (Typically offered: Fall and Spring)

SCMT 5633. Introduction to Supply Chain Management. 3 Hours.

Supply chain management is the integration of key business processes from end user through suppliers. The focus of this course is on the core processes that must be linked throughout the supply chain with an emphasis on logistics processes. Foundational topics in logistics and supply chain management will be covered. (Typically offered: Fall and Spring)

SCMT 5643. Transportation Strategies in the Supply Chain. 3 Hours.

This course focuses on the setting of objectives and the design of optimal transportation strategy and alternative means of implementing transportation strategies within different types of organizations. (Typically offered: Fall)

SCMT 5653. Global Logistics and Supply Management. 3 Hours.

This course examines the planning and management of logistics, but emphasizes supplier selection and development, logistics options, strategic alliances, and performance measurement. Emphasis is placed on the integration of purchasing, materials management, and multi-firm logistics planning. International logistics is also addressed within each of these topics. Prerequisite: SCMT 5633. (Typically offered: Irregular)

SCMT 5663. Retail and CPG Supply Chain Management. 3 Hours.

This course examines the planning and management of supply chain activities including supplier selection and development, demand management, quick response, vendor managed inventory, logistics options, strategic alliances, and performance measurement. Emphasis is placed on the integration of purchasing, materials management, and multi-firm logistics planning. (Typically offered: Fall and Spring)

SCMT 5673. Modeling Retail & Consumer Products Logistics. 3 Hours.

This is a more quantitative approach to measuring logistics performance, modeling tradeoffs and making decisions. Topics include forecasting, inventory management, network optimization, and transportation routing. Prerequisite: SCMT 5633. (Typically offered: Irregular)

SCMT 5683. Supply Chain Management in Global Business. 3 Hours.

Logistics management is that part of supply chain management that plans, implements, and controls the efficient, effective forward and reverse flow and storage of goods, services and related information between the point of origin and the point of consumption in order to meet customers' requirements. To achieve its objectives, logistics management requires the integration of business processes within and across organizations in a supply chain. Using hands on projects and class discussions based on case studies and current press articles, this course will expose participants to logistics management challenges faced by member organizations of retail supply chains competing in an omni-channel environment transformed by radical changes in consumer behavior, technology, and globalization. Prerequisite: SCMT 5663. (Typically offered: Spring)

SCMT 5693. Predictive Supply Chain Analytics. 3 Hours.

This course will introduce students to the variety and sources of data available from different technology-enabled sources, and through cases, expose them to innovative ways in which firms are using this data to improve supply chain management processes. The course will survey standard and advanced analytical techniques used to transform this data into actionable business intelligence and students will gain hands-on experience with these techniques. They will gain an understanding of the practical considerations that arise in real-world applications by means of projects. (Typically offered: Fall)

SCMT 601V. Graduate Colloquium. 1-6 Hour.

This course familiarizes students with academic and professional issues in the discipline of supply chain management with exposure to current research and contemporary research practices, current industry trends, the publication process, professional service opportunities, and pedagogical issues. Prerequisite: Admission to the PhD program in Supply Chain Management. (Typically offered: Fall and Spring)

SCMT 636V. Special Topics in Supply Chain Management. 1-6 Hour.

Independent reading and investigation in supply chain management. Prerequisite: Doctoral standing. (Typically offered: Fall, Spring and Summer)

SCMT 6413. Fundamentals of Logistics and Supply Chain Management. 3 Hours.

Introduces students to the key substantive areas of logistics and supply chain management. Offers a combination of lectures covering topics such as inventory control and forecasting and seminars discussing associated academic literature. Prerequisite: Admission to doctoral program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 6423. Seminar in Structural Equation Modeling. 3 Hours.

The seminar focuses on data analysis using structural equation modeling methodologies. The course will concentrate on four basic methodologies: exploratory factor analysis, confirmatory factor analysis, path analysis, structural equations modeling with latent variables and their applications in empirical research. Prerequisite: Graduate Standing and MKTG 6433 or ISYS 5623 or ISYS 5723 or PSYC 6343 or equivalent. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

This course is cross-listed with ISYS 6423.

SCMT 6433. Supply Chain Management Research. 3 Hours.

Introduces students to major streams of SCM research and discusses the interest and merit of the research question(s), the appropriateness of the theoretical framework and/or hypothesis development, the adequacy of the research design, including data collection, measurement, and analysis (methodology), the accuracy of the discussion of the results. Prerequisite: Admission to doctoral program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 6443. Theory in Supply Chain Management. 3 Hours.

Provides an overview of theories from fields such as strategic management and marketing and explores applications of these theories to supply chain management research. Emphasis is placed on the development of theoretically grounded testable hypotheses in the context of a broad range of SCM research areas. Prerequisite: Admission to doctoral program. (Typically offered: Irregular)

SCMT 6453. Behavioral Supply Chain Management. 3 Hours.

Focuses on human behavior in supply chain management. Topics may include but will not be restricted to behavior in inventory and ordering processes, in retail store execution, in global supply chain management, in the face of adversity and catastrophic supply chain risk, and in supply chain relationships. Prerequisite: Admission to doctoral program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 6463. Research in Retail Supply Chain Management. 3 Hours.

Focuses on retail-related supply chain management research. Seminar topics may include but will not be restricted to retail sales and order forecasting, inventory management, and store execution issues. Prerequisite: Admission to doctoral program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 6473. Emerging Topics in Supply Chain Management. 3 Hours.

Covers various emerging topics, such as information technology applications in the supply chain, humanitarian logistics, supply chain security, and individual-level decision-making in the supply chain. Prerequisite: Admission to doctoral program. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SCMT 6483. Supply Chain Economics. 3 Hours.

This course familiarizes students with economic concepts and philosophies underlying the organization of economic activity in the discipline of supply chain management. Enables students to evaluate, critique, and judge the quality of scholarly supply chain research that is grounded on economic principles and ideas. Provides training in developing supply chain research grounded in economic principles and ideas into an academic paper. Prerequisite: Admission to PhD program in Supply Chain Management. (Typically offered: Fall and Spring)

SCMT 700V. Doctoral Dissertation. 1-18 Hour.

Dissertation studies in supply chain management. Prerequisite: Candidacy. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

Sustainability (SUST) Courses

SUST 1103. Foundations of Sustainability. 3 Hours.

Foundations of Sustainability is an interdisciplinary course to introduce concepts and theories of sustainability at global, regional, and local levels. Emphasis is on four thematic areas of sustainability; social, natural, built and managed systems. The aim is to increase environmental literacy for engagement of sustainability into students' own disciplines. (Typically offered: Spring)

SUST 1103H. Honors Foundations of Sustainability. 3 Hours.

Foundations of Sustainability is an interdisciplinary course to introduce concepts and theories of sustainability at global, regional, and local levels. Emphasis is on four thematic areas of sustainability; social, natural, built and managed systems. The aim is to increase environmental literacy for engagement of sustainability into students' own disciplines. Corequisite: Drill component. (Typically offered: Spring)
This course is equivalent to SUST 1103.

SUST 2103. Applications of Sustainability. 3 Hours.

Applications of Sustainability is an interdisciplinary course introducing data gathering, data analysis or interpretation, and synthesis of data applied to problems in sustainability. Students engage in hands-on, inquiry-based investigation of sustainability issues across four thematic areas: social systems, natural systems, built systems (Architecture & Engineering), and managed systems (Agriculture & Business). Prerequisite: SUST 1103 or instructor consent. (Typically offered: Fall)

SUST 2103H. Honors Applications of Sustainability. 3 Hours.

Applications of Sustainability is an interdisciplinary course introducing data gathering, data analysis or interpretation, and synthesis of data applied to problems in sustainability. Students engage in hands-on, inquiry-based investigation of sustainability issues across four thematic areas: social systems, natural systems, built systems (Architecture & Engineering), and managed systems (Agriculture & Business). Corequisite: Drill component. Prerequisite: SUST 1103 or instructor consent. (Typically offered: Fall)
This course is equivalent to SUST 2103.

SUST 390V. Special Problems in Sustainability. 1-6 Hour.

Special Problems is intended to fulfill a need in the sustainability curriculum to offer one-time pilot course work in any semester prior to the formal curriculum approval process, offer seminars on unusual but timely topics in sustainability on a one-time basis, or independent study for students seeking additional expertise in sustainability research and scholarship. Prerequisite: SUST 1103 and SUST 2103 or instructor permission. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

SUST 4103. Capstone Experience in Sustainability. 3 Hours.

A capstone experience focused on service learning, research learning, or internship in sustainability. Student engagement in community service, research, or relevant work on sustainability through a summer internship or equivalent experience provides opportunities for students to apply sustainability theories and principles learned from prior course work toward advancing sustainability across society. Prerequisite: SUST 1103 and SUST 2103. (Typically offered: Spring)

SUST 4603. Environmental Sociology. 3 Hours.

The course provides a social perspective on environmental issues. It examines the linkage between society, ecological systems and the physical environment. It provides conceptual framework(s) for analyzing environmental issues, considers the role of humans in environmental issues, and enhances understanding the complexity of the relationship between societal organization and environmental change. Prerequisite: Junior or senior standing. (Typically offered: Fall)
This course is cross-listed with HDFS 4603, SOCI 4603.

SUST 4693. Environmental Justice. 3 Hours.

This course deals with the ethical, environmental, legal, economic, and social implications of society's treatment of the poor, the disenfranchised, and minorities who live in the less desirable, deteriorating neighborhoods, communities, and niches of our country. The class integrates science with philosophy, politics, economics, policy, and law, drawing on award-winning films, current news, and case studies. (Typically offered: Spring)
This course is equivalent to GEOS 4693.

SUST 5103. Analysis and Design of Resilient Systems. 3 Hours.

Introduces students to complex systems theory, change theory, systems analysis and modeling, and design theory for resilient systems. This course draws theory and heuristics from multiple disciplines, including but not limited to engineering, architecture, ecology, risk assessment, management, social sciences, political sciences, the arts and the humanities. (Typically offered: Fall)

SUST 5203. Decision Making, Analysis and Synthesis in Sustainability. 3 Hours.

Provides an applied framework for analyzing decision dynamics, supporting and promoting more sustainable decisions, and measuring the sustainability of systems. The course applies theories of change, institutional decision theory, social and institutional constructs of sustainability, indicator and metric development across social, ecological, and economic domains, and communication strategies. (Typically offered: Spring)

SUST 5303. Sustainable Global Food, Energy and Water Systems. 3 Hours.

Provides a detailed review of the existing global food production/distribution and water systems, with an emphasis on scarcity, equity, management and challenges from changing global systems. This course explores the inputs and efficiencies of existing agricultural production systems, and examines equity and value in these systems. (Typically offered: Fall)

SUST 590V. Special Problems in Sustainability. 1-6 Hour.

Special Problems is intended to fulfill a need in the sustainability curriculum to offer one-time pilot course work in any semester prior to the formal curriculum approval process, offer seminars on unusual but timely topics in sustainability on a one-time basis, or independent study for students seeking additional expertise in sustainability research and scholarship. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

Swahili (SWAH)

Courses

SWAH 1003. Elementary Swahili I. 3 Hours.

Stresses correct pronunciation, aural comprehension, simple speaking ability, and leads to mastery of basic grammar and limited reading ability. (Typically offered: Irregular)

SWAH 1013. Elementary Swahili II. 3 Hours.

Continues to stress correct pronunciation, aural comprehension, and speaking ability and continues to build mastery of basic grammar and limited reading ability. Prerequisite: SWAH 1003 (Typically offered: Irregular)

SWAH 1116. Intensive Swahili I. 6 Hours.

Equivalent to SWAH 1003 and SWAH 1013. Stresses correct pronunciation, aural comprehension, and simple speaking ability, and leads to mastery of basic grammar and limited reading ability. (Typically offered: Irregular)

SWAH 2003. Intermediate Swahili I. 3 Hours.

Leads to greater facility in spoken language and develops more advanced reading and writing skills. Prerequisite: SWAH 1003 and SWAH 1013. (Typically offered: Irregular)

SWAH 2013. Intermediate Swahili II. 3 Hours.

Leads to greater facility in spoken language and develops more advanced reading and writing skills. Prerequisite: SWAH 1003, SWAH 1013 and SWAH 2003. (Typically offered: Irregular)

SWAH 2116. Intensive Swahili II. 6 Hours.

Equivalent to SWAH 2003 and SWAH 2013. Leads to greater facility in speaking, comprehension, and writing skills and intensive development of reading skills. Prerequisite: SWAH 1116 or SWAH 1003 and SWAH 1013. (Typically offered: Irregular)

Technology Education (TEED)

Courses

TEED 1103. The Nature of Technology. 3 Hours.

Foundational study of the close relationship between nature, emerging technologies, and technological literacy throughout history. (Typically offered: Spring)

TEED 1203. CAD Technology I. 3 Hours.

Use and care of instruments; lettering, sketching, applied geometry, pictorial drawing, and orthographic projection. Introduction to computer-aided drafting. (Typically offered: Spring)

TEED 1603. Industrial Safety. 3 Hours.

Study of accidents, causes, the cost of accidents, appraising safety performance, safety inspection, planning and maintaining a safe environment, and organization and operation of school laboratories and industrial accident prevention programs. (Typically offered: Irregular)

TEED 2103. Technology and Society. 3 Hours.

An examination of the complex relationships between society, values, and technological development in developed and under-developed nations. (Typically offered: Fall)

TEED 3103. Frameworks for Resolving Technological Challenges. 3 Hours.

Foundational concepts of engineering and design, including analysis and use of technology problem solving tools of research, experimentation and trouble-shooting. (Typically offered: Spring Even Years)

TEED 3203. The Technology of Communicating. 3 Hours.

Conceptual foundations and methodologies for teaching information and communications technology. (Typically offered: Irregular)

TEED 3303. The Technologies of Energy and Movement. 3 Hours.

Conceptual foundations and methodologies for teaching energy, power, and transportation technologies at the secondary level. Prerequisite: TEED 1103 or TEED 2103. (Typically offered: Irregular)

TEED 4103. Engineering Design for Technology Education Capstone. 3 Hours.

Analysis of engineering design, focus on design processes, physical and computer modeling, and materials processing. Prerequisite: TEED 1103 and TEED 3103. (Typically offered: Irregular)

TEED 459V. Industrial Internship. 1-12 Hour.

In an actual industrial setting, the student will study managerial functions, organizational practices, product design, production fabrication, routing, quality control, work schedules, industrial relations, and related activities of American industrial society. (Typically offered: Fall, Spring and Summer) May be repeated for up to 15 hours of degree credit.

Theatre (THTR)

Courses

THTR 1003. Basic Course in the Arts: Theatre Appreciation (ACTS Equivalency = DRAM 1003). 3 Hours.

Introduction to theatre arts; playwriting, directing, acting, and design. For the general student. May not be presented towards satisfaction of the B.A. in fine arts requirement by theatre majors. (Typically offered: Fall, Spring and Summer)

THTR 1003H. Honors Basic Course in the Arts: Theatre Appreciation. 3 Hours.

Introduction to theatre arts; playwriting, directing, acting, and design. For the general student. May not be presented towards satisfaction of the B.A. in fine arts requirement by theatre majors. (Typically offered: Fall and Spring)
This course is equivalent to THTR 1003.

THTR 1013. Musical Theatre Appreciation. 3 Hours.

An introduction to musical theatre literature, history, process and artists. Includes guided listening, and reading, viewing, and critically thinking about this quintessentially American art form and its role in society. (Typically offered: Fall and Spring)

THTR 1223. Introduction to Theatre. 3 Hours.

Examination of the various elements that make up the theatre art form. Provides hands-on experience in the artistic and technical aspects of theatre. Playwriting, directing, acting and design principles are discussed. Covers dramatic history, literature, theory, and the role of the theatre in society. Course culminates in collaborative group projects. Prerequisite: Theatre major or minor. (Typically offered: Fall)

This course is equivalent to THTR 1003.

THTR 1311L. Stage Technology I Laboratory: Costume and Makeup. 1 Hour.

Practical application of costume technology and makeup skills. Students will participate in projects involving the construction and preparation of costumes and makeup designs associated with departmental productions. Production running crew positions will also be assigned. Corequisite: THTR 1313. (Typically offered: Fall and Spring)

THTR 1313. Stage Technology I: Costumes and Makeup. 3 Hours.

Fundamentals of basic costume construction with an emphasis on techniques, materials, planning and process. Training in the basic principles of theatrical makeup application. Prerequisite: Theatre major or instructor consent. Corequisite: THTR 1311L. (Typically offered: Fall and Spring)

THTR 1321L. Stage Technology II Laboratory: Scenery and Lighting. 1 Hour.

Practical application of principles of scenery and lighting technology. Students will participate in projects involving the construction and preparation of scenery, stage properties, and lighting associated with departmental productions. Production running crew positions will also be assigned. Corequisite: THTR 1323. (Typically offered: Fall and Spring)

THTR 1323. Stage Technology II: Scenery and Lighting. 3 Hours.

Fundamentals of scenery and lighting technology with emphasis on theatre tools, equipment, and basic drafting. Training in basic principles and skills of stage carpentry, lighting technology and rigging. Pre- or Corequisite: Theatre or Drama major or instructor consent. Corequisite: THTR 1321L. (Typically offered: Fall and Spring)

THTR 1423. Script Analysis. 3 Hours.

Investigation of the dramatic forms and structures of play texts - from the classical era to the present - with special emphasis on how actors, directors, and designers encounter and realize texts in the production process. Prerequisite: THTR 1223. (Typically offered: Spring)

THTR 1423H. Honors Script Analysis. 3 Hours.

Investigation of the dramatic forms and structures of play texts - from the classical era to the present - with special emphasis on how actors, directors, and designers encounter and realize texts in the production process. Prerequisite: THTR 1223 and honors candidacy. (Typically offered: Spring)
This course is equivalent to THTR 1423.

THTR 1683. Acting I. 3 Hours.

An analytical approach to the actor's art with emphasis on the techniques of characterization. (Typically offered: Fall and Spring)

THTR 1883. Acting I for Theatre Majors. 3 Hours.

An introductory acting studio course for theatre majors, exploring the physical, vocal, and imaginative processes required for performance of dramatic texts, and building a vocabulary and technique for acting through exercises and scene-work that will build a foundation for theatre classes within the major. Pre- or Corequisite: Theatre major or minor. Prerequisite: THTR 1223. (Typically offered: Spring)

THTR 2313. Fundamentals of Theatrical Design. 3 Hours.

Principles and practices of theatre design including the elements of design and the fundamental principles of art and its application to the areas of set, costume, lighting and sound design. This course studies the designer's role in the production process, design requirements, and aesthetics. Emphasis on the basic principles of two-dimensional art and graphic forms through the use of various media. (Typically offered: Fall)

THTR 2461. Alexander Technique Lessons. 1 Hour.

Students will become aware of habitual patterns of tension and how these patterns interfere with performance, learning, and overall health. The Technique offers practical skills for improving coordination and for re-gaining a sense of ease of movement in all activities. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

THTR 2483. Stage Movement for the Actor. 3 Hours.

Instruction incorporates physical warm-up strategies and exercises designed to improve relaxation; develop flexibility, alignment, strength, kinesthetic awareness, and appreciation of mind/body unity; and to connect stage movement to imagination, character development, and text. Techniques covered include Alexander training, Michael Chekhov work, dance, theater games and gentle yoga practice. Prerequisite: THTR 1223 and (THTR 1683 or THTR 1883). (Typically offered: Fall)

THTR 2513. Drafting for the Theatre. 3 Hours.

Covers basic technical drawing and graphic skills necessary to communicate design ideas to fellow artisans. Both production and design-oriented drafting will be explored using both hand drafting and computer techniques. Prerequisite: THTR 1323 and THTR 1321L or instructor consent. (Typically offered: Fall Even Years)

THTR 2683. Acting II. 3 Hours.

An acting studio course deepening the exploration of techniques introduced in Acting I, including expanded work on characterization and script analysis through exercises, scene-work and monologue performance. Prerequisite: THTR 1223 or THTR 1003 or THTR 1003H and (THTR 1683 or THTR 1883). (Typically offered: Fall and Spring)

THTR 3001. Production Practicum. 1 Hour.

Credit for participation in technical assignments related to mainstage or faculty-directed productions: one (1) credit hour per production. Assignments shall be determined by the faculty. Credit will be awarded only after completion of assignments and only with faculty approval. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

THTR 3011. Performance Practicum. 1 Hour.

Credit for performance in faculty directed productions; one credit hour per production. Assignments shall be determined by the faculty. Credit will be awarded only after satisfactory completion of assignment and with faculty approval. (Typically offered: Fall and Spring) May be repeated for up to 2 hours of degree credit.

THTR 3213. Costume Design. 3 Hours.

Study of the art and practice of stage costume design. Emphasis on the expression of character through costume. Development of rendering and research skills. Prerequisite: THTR 2313. (Typically offered: Fall Even Years)

THTR 3243. Costume Technology. 3 Hours.

Advanced methods of costume construction techniques and the exploration of theatrical pattern drafting will be practiced through projects. Prerequisite: THTR 1313 and THTR 1311L. (Typically offered: Irregular)

THTR 3433. Stage Speech. 3 Hours.

An introduction to the basic skills of speech, voice production and communication for performance and broadcasting. Special focus on General American speech and the characteristics of speech regionalisms. The course will explore breath control, resonance, articulation, pitch, volume, voice quality and stress management. Prerequisite: THTR 1223 and either THTR 1683 or THTR 1883. (Typically offered: Fall and Spring)

THTR 3463. Introduction to the Alexander Technique. 3 Hours.

The Alexander Technique helps us to become aware of habits of tension and how these patterns interfere with performance, learning, and overall health. The technique offers a systematic process of re-learning how to move with more ease and coordination in all activities. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

THTR 3653. Directing I. 3 Hours.

Basic principles and techniques of play direction, including play analysis, audition and rehearsal organization, staging and collaborating with actors. Pre- or Corequisite: Theatre major and junior or senior standing, or instructor consent. Prerequisite: THTR 1223 or THTR 1003 or THTR 1003H, and THTR 1313, THTR 1311L THTR 1323, THTR 1321L and THTR 2683. (Typically offered: Fall and Spring)

THTR 3663. Acting III. 3 Hours.

An advanced acting studio building on techniques introduced in Acting I and II. Intensive work on script analysis, emotional preparation, awakening the imagination, characterization, partner work and playing action. Prerequisite: THTR 1683 or THTR 1883 and THTR 2683. (Typically offered: Spring)

THTR 3673. Auditioning for the Theatre. 3 Hours.

An advanced acting course, focusing on theatrical monologues and developing the actor's confidence and ability in theatre auditioning. In simulated auditions, students develop and explore contrasting monologues, including contemporary and classical pieces, comedy, and drama. Students practice slating techniques, cold and prepared callbacks, musical auditions, video submissions, and resume preparation. Prerequisite: (THTR 1683 or THTR 1883) and THTR 2683. (Typically offered: Irregular)

THTR 3683. Stage Management. 3 Hours.

Principles of stage management in the context of academic and professional theatre production. Issues of theatre management and producing are addressed as they relate to play production activities. Prerequisite: THTR 1223 or THTR 1003 or THTR 1003H and THTR 1313, THTR 1311L, THTR 1323 and THTR 1321L. (Typically offered: Fall)

THTR 3733. Lighting Design. 3 Hours.

The study of the practical application and technology of stage lighting including history, electricity, conventional and moving lighting instruments, dimming systems, consoles and control systems and related paperwork. Ten lab hours to coincide with departmental productions is required. Prerequisite: THTR 1323, THTR 1321L, and THTR 2313. (Typically offered: Spring Odd Years)

THTR 3903. Theatrical Makeup. 3 Hours.

The techniques and skills of theatrical makeup and design involved in the creation and execution of character makeup for the stage. Prerequisite: THTR 1313 and THTR 1311L. (Typically offered: Spring Odd Years) May be repeated for up to 6 hours of degree credit.

THTR 3923H. Honors Colloquium. 3 Hours.

Treats a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in THTR). (Typically offered: Irregular) May be repeated for degree credit.

THTR 399VH. Honors Thesis. 1-6 Hour.

The Honor student will complete a thesis. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

THTR 4063. Playwriting. 3 Hours.

A beginning workshop in the fundamentals of playwriting which culminates in the completion of an original play. Exercises in dialogue, character development, conflict and structure will be an essential part of the course. Prerequisite: THTR 1223 or THTR 1003 or THTR 1003H. (Typically offered: Spring)

THTR 4123. Rendering for the Theatre. 3 Hours.

Provides the fundamentals of visual communication for theatre in a variety of media and techniques. Investigation of traditional drawing and painting methods and materials used by theatrical designers. Application of computer technology and software training in creating documents necessary to the theatrical process. Prerequisite: THTR 2313. (Typically offered: Spring Even Years)

THTR 4141. Singing for Musical Theatre. 1 Hour.

Private study of the singing voice focusing on musical theatre vocal technique and repertoire. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

THTR 4153. Musical Theatre Performance. 3 Hours.

Principles and techniques of performing a singing role for the theatre. Examines the relationship between score and text. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

THTR 4161. Musical Theatre Orchestra. 1 Hour.

A music ensemble class made up of students from all majors who will rehearse together and perform as the pit orchestra for the musical produced by the Department of Theatre. Instrumentation and musical styles vary from show to show. (Typically offered: Irregular) May be repeated for up to 3 hours of degree credit.

THTR 4233. History of the Theatre I. 3 Hours.

A survey of dramatic literature, theatre practices and cultural contexts for dramatic presentation from classical Greece through the Restoration. Prerequisite: THTR 1223 or THTR 1003 or THTR 1003H. (Typically offered: Fall)

THTR 4333. History of the Theatre II. 3 Hours.

A survey of dramatic literature, theatre practices and cultural contexts for dramatic presentation from the 18th century to the mid-20th century. Emphasis is given to Western theatre practices. Prerequisite: THTR 1223 or THTR 1003 or THTR 1003H. (Typically offered: Spring)

THTR 4463. African American Theatre History -- 1950 to Present. 3 Hours.

A chronological examination of African-American theatre history from 1950 to the present through the study of African-American plays and political/social conditions. Upon completion of this course the student should be familiar with the major works of African-American theatre and have a deeper understanding of American History. (Typically offered: Spring)

THTR 4483. Meisner I. 3 Hours.

This course introduces students to the Sanford Meisner approach to acting. A progressive series of exercises focus on listening, concentration, imagination, working from impulse, and actively connecting to given circumstances. This class is the first in a two course sequence of Meisner study. Prerequisite: THTR 2683. (Typically offered: Fall)

THTR 4493. Meisner II. 3 Hours.

Continuation of Beginning Meisner Technique. A progressive series of exercises focus on emotional preparation, connection to impulse, and living fully under imaginative circumstances. Prerequisite: THTR 4483. (Typically offered: Spring)

THTR 4653. Scene Design. 3 Hours.

Theory and practice in the art of scenic design, including historical and contemporary styles and procedures. Prerequisite: THTR 1323, THTR 1321L, THTR 2313 and THTR 2513. (Typically offered: Fall Odd Years)

THTR 4683. Acting IV - Shakespeare Performance. 3 Hours.

An acting studio course exploring the performance of Shakespearean texts, with focus on scansion, verse and prose, poetry, characterization and voice and articulation. Prerequisite: THTR 1683 or THTR 1883, and THTR 2683, THTR 3663 and THTR 3433. (Typically offered: Fall)

THTR 4833. Scene Painting. 3 Hours.

A studio class in painting techniques for the theatre. Exercises in color, textures, styles, and execution. Prerequisite: THTR 1323, THTR 1321L and THTR 2313. (Typically offered: Spring Odd Years) May be repeated for up to 6 hours of degree credit.

THTR 490V. Independent Study. 1-3 Hour.

Individually designed and conducted programs of reading and reporting under the guidance of a faculty member. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

THTR 491V. Special Topics. 1-3 Hour.

Classes not listed in the regular curriculum, offered on demand on the basis of student needs and changes within the profession. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

THTR 492V. Internship. 1-12 Hour.

A practical, experiential approach to performance and production using the internship program to provide training and experience more advanced than that provided during the normal school year. Students will outline a contract of specific requirements based upon that individual's needs, goals, and skills. Prerequisite: Instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 12 hours of degree credit.

THTR 4953. Theatre Study in Britain. 3 Hours.

Study of the components of stage production through attending and critiquing a wide variety of classical, modern, and avant garde theatre productions in England; includes tours of London and historical British sites and seminars with British theatre artists. (Typically offered: Summer)

THTR 5123. Theatrical Design Rendering Techniques. 3 Hours.

Investigation of drawing and painting methods and materials useful to theatrical designers. Integration of graphic communication with overall production conceptualization will be explored through examination of various theatre styles and periods. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

THTR 5133. Design Portfolio Development. 3 Hours.

Exploration and practice of the skills and techniques used to prepare and present a professional design portfolio and materials in order to successfully interview for a career in the theatre. Prerequisite: Graduate Standing in Theatre or by instructor permission. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

THTR 5143. History of Decor for the Stage. 3 Hours.

An overview of architectural decoration and its application to theatrical design from the Predynastic Period (4400-3200 B.C.) through the Art Deco period with references to contemporary decor. Prerequisite: Graduate standing. (Typically offered: Irregular)

THTR 5161. Musical Theatre Orchestra. 1 Hour.

A music ensemble class made up of students from all majors who will rehearse together and perform as the pit orchestra for the musical produced by the Department of Theatre. Instrumentation and musical styles vary from show to show. (Typically offered: Irregular) May be repeated for up to 4 hours of degree credit.

THTR 5173. Drafting for the Designer. 3 Hours.

Focuses on industry standard practices of drafting. Students will study and execute design drafting packages for the theatre, including but not limited to Designer Drawings, Painter's Elevations, Props Packages, Lighting Plots and Sections. Prerequisite: Graduate Standing in Theatre or by instructor permission. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

THTR 5183. Scene Design Studio. 3 Hours.

Individual and advanced projects in designing scenery for various theatrical genres as well as non-theatrical applications with emphasis on the design process involving playscript analysis, text analysis, and research. Collaboration skills and advanced rendering techniques will be explored. Contributes to on-going portfolio development. Prerequisite: THTR 4653 or THTR 5653 (formerly THTR 4653) or instructor consent. (Typically offered: Fall) May be repeated for up to 6 hours of degree credit.

THTR 5193. Scene Technology Studio. 3 Hours.

Individual and advanced projects in scenic techniques with emphasis on scene painting, drafting, rendering, properties design, or scenic crafts as determined by student need. Contributes to on-going portfolio development. Prerequisite: Graduate standing or instructor consent. (Typically offered: Spring) May be repeated for up to 9 hours of degree credit.

THTR 5213. Costume Design. 3 Hours.

Advanced study of the art and practice of stage costume design. Emphasis on the expression of character through costume. Development of rendering and research skills. Portfolio development. (Typically offered: Irregular)

THTR 5283. Costume Design Studio. 3 Hours.

Individual and advanced projects in designing costumes for various theatrical genres with emphasis on the design process involving text interpretation, character analysis, and research. Collaboration skills and advanced rendering techniques will be explored. Contributes to on-going portfolio development. Prerequisite: THTR 3213 or THTR 5213 or instructor consent. (Typically offered: Fall) May be repeated for up to 9 hours of degree credit.

THTR 5293. Costume Technology Studio. 3 Hours.

Individual and advanced projects in costume construction and techniques with emphasis on flat pattern, draping, corsetry, tailoring or costume crafts as determined by student need. Contributes to on-going portfolio development. Prerequisite: Graduate standing or instructor consent. (Typically offered: Spring) May be repeated for up to 9 hours of degree credit.

THTR 5353. Stage Lighting Technology. 3 Hours.

The thorough examination of the technology of equipment that supports the art of stage lighting design: theory, operating principles and specification of lamps, fixtures, control systems and special effect hardware will be explored. Prerequisite: Graduate standing. (Typically offered: Irregular)

THTR 5383. Lighting Technology Studio. 3 Hours.

Individual and advanced projects in lighting technology with emphasis on light sources, lighting control, equipment design and specification and the mechanics of lighting. Contributes to on-going portfolio development. Prerequisite: Graduate standing or instructor consent. (Typically offered: Spring) May be repeated for up to 9 hours of degree credit.

THTR 5393. Lighting Design Studio. 3 Hours.

Individual projects in lighting design with emphasis on the design process involving script interpretation, design aesthetics and research. Lighting design applications to a variety of venues will be studied. Contributes to on-going portfolio development. Prerequisite: Graduate standing or instructor consent. (Typically offered: Fall) May be repeated for up to 6 hours of degree credit.

THTR 5413. African American Theatre History -- 1950 to Present. 3 Hours.

(Formerly THTR 4463.) A chronological examination of African-American theatre history from 1950 to the present through the study of African-American plays and political/social conditions. Upon completion of this course the student should be familiar with the major works of African-American theatre and have a deeper understanding of American History. Graduate degree credit will not be given for both THTR 4463 and THTR 5413. (Typically offered: Spring)

THTR 542V. Graduate Acting Studio. 1-3 Hour.

Provides actors with intensive opportunities to explore specific aspects of their craft. Sample topics include characterization, Chekhov, Pinter, Brecht, improvisation and mask work. Topics vary each semester. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular) May be repeated for up to 18 hours of degree credit.

THTR 5432. Graduate Voice and Speech I. 2 Hours.

Teaches how to build clear vocal production using proper breath support, grounded in the Alexander technique. Emphasis on the connection between breath and thought, learning to undo inadequate vocal habits, and vocal hygiene. Prerequisite: Graduate standing in Theatre. (Typically offered: Fall) May be repeated for up to 4 hours of degree credit.

THTR 5443. Graduate Acting: Period Styles. 3 Hours.

Styles of acting in relation to French and English Dramatic Literature (16th-19th Centuries). This course also examines the historical and cultural influences that shaped each genre. A period dance component is included. Prerequisite: Graduate standing in Theatre. (Typically offered: Spring)

THTR 545V. Musical Theatre Performance. 1-3 Hour.

Theory and techniques of performing a singing role for the theatre. Integrates acting and vocal techniques and examines the relationship between score and text. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 5463. Audition Techniques. 3 Hours.

A thorough study and practical application of audition skills and techniques. This course will equip the student with prepared audition pieces and experience in cold reading, on-camera work, and improvisation. The course also explores the practical needs of the actor; from how to get an audition to how to prepare a resume. Prerequisite: Graduate standing in Theatre. (Typically offered: Fall, Spring and Summer)

THTR 5473. Graduate Acting: Shakespeare. 3 Hours.

Analysis of Shakespeare for performance. Work will include the plays of Shakespeare and his contemporaries, including cultural and theatrical contexts required for understanding the scripts. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 548V. Meisner Technique I. 1-3 Hour.

Acting theory and exercises of Sanford Meisner, including repetition work, connecting with partner, three moment game, activities, and emotional preparation. (Typically offered: Irregular)

THTR 549V. Meisner Technique II. 1-3 Hour.

Continuation of Meisner Technique I. Incorporation of theory and advanced exercises of the Meisner Technique into the playing of text. Prerequisite: THTR 548V. (Typically offered: Irregular)

THTR 5511. Alexander Technique Lessons. 1 Hour.

Students will become aware of habitual patterns of tension and how these patterns interfere with performance, learning, and overall health. The Technique offers practical skills for improving coordination and for re-gaining a sense of ease of movement in all activities. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

THTR 5523. Writing for Television and Screen. 3 Hours.

Advanced study and practice in writing for the small and big screen, with focus on writing for television. This writing workshop is an investigation into the form, structure, and vocabulary of writing for television, designed to give students tools, strategies, and practice in writing for television. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

THTR 5533. Graduate Playwriting: Special Projects. 3 Hours.

Advanced study and practice in the area of playwriting. The area of concentration will be determined by the student's specific writing project(s). Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for up to 18 hours of degree credit.

THTR 5543. Creating a One-Person Show. 3 Hours.

Actors learn to use compelling personal experiences and interests in the creation of a unique one-person show. Includes exploration in characterization, staging and playwriting. Culminates in the public presentation of a short one-person show. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 5552. Graduate Voice and Speech II. 2 Hours.

A continuation of Graduate Voice and Speech I, exploring more closely the connection between breath support and volume, pitch, range, resonance and articulation. Prerequisite: THTR 5432. (Typically offered: Spring)

THTR 5562. Graduate Voice and Speech III. 2 Hours.

Continuation of Graduate Voice and Speech II, focusing on the classification of vowels and consonants according to the International Phonetic Alphabet (IPA). Prerequisite: THTR 5552. (Typically offered: Irregular)

THTR 5572. Graduate Voice and Speech IV. 2 Hours.

Continuation of Graduate Voice and Speech III. Extension of the application of the IPA to the analysis of different accents of individuals for whom English is a second language. Approximately eight dialects of English will be examined. Prerequisite: THTR 5562. (Typically offered: Irregular)

THTR 5593. Acting and Directing Absurdist Theatre. 3 Hours.

This course focuses on a particular dramatic style that developed following World War II: Absurdism. In scene presentation projects, students will grapple with the unusual challenges acting and directing these plays, as well as explore the cultural contexts, philosophies and theatrical traditions that led to their invention. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 5613. Graduate Directing Principles. 3 Hours.

Theory and technique of directing realistic drama: script analysis; spatial considerations of composition and picturization; development in production of the Aristotelian concepts of plot, character, thought, diction, music (sound), and spectacle. Prerequisite: Graduate standing. (Typically offered: Irregular)

THTR 5643. Devised Theatre. 3 Hours.

Explores performer-created works developed through group dynamics, with emphasis on innovative source materials and inventive theatrical approaches. (Typically offered: Irregular)

THTR 5653. Scene Design. 3 Hours.

(Formerly THTR 4653.) Theory and practice in the art of scenic design, including historical and contemporary styles and procedures. Graduate degree credit will not be given for both THTR 4653 and THTR 5653. Prerequisite: THTR 1323, THTR 1321L, THTR 2313 and THTR 2513. (Typically offered: Fall Odd Years)

THTR 5663. Directing Modern Drama. 3 Hours.

Studio course exploring the challenges of directing post-19th Century dramatic literature. Individual projects in collaboration with actors. Sample dramatic literature includes styles such as Realism, Expressionism, Absurdism, post-Modernism and Epic Theatre. Topics vary each semester. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

THTR 5673. Adapting and Directing Non-Theatrical Texts. 3 Hours.

Offers directors practice in the adaptation and staging of non-theatrical prose, poetry and current events. Individual projects in collaboration with actors. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 5683. Directing Studio. 3 Hours.

Hands-on exploration into the direction of historical and contemporary texts and styles, including Greek, Roman, Shakespeare, Realism, American and international scripts and the adaptation of non-theatrical material. Topics vary each semester. Includes discussion and investigation of the theatrical arts and collaborative and production processes. Prerequisite: MFA Directing student or instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

THTR 5691. Scene Study for Directing Studio. 1 Hour.

Participation as an actor in scenes presented for the graduate Directing Studio course. Varying historical and contemporary texts and styles each semester. Class meets one hour each week, plus outside rehearsals, depending on casting. Prerequisite: Instructor consent. (Typically offered: Fall and Spring) May be repeated for up to 4 hours of degree credit.

THTR 5713. Directing Classics. 3 Hours.

Explores the challenges of directing classic texts. Individual projects in collaboration with actors on a wide variety of pre-20th Century dramatic literature. Topics vary each semester. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

THTR 5723. History of the Theatre I. 3 Hours.

A comprehensive study of the theatre in different cultures and ages, as an institution, as an art, and as a vision of life. (Typically offered: Fall)

THTR 5733. History of the Theatre II. 3 Hours.

A continuation of THTR 5723. (Typically offered: Spring)

THTR 5763. Dramatic Criticism. 3 Hours.

Analysis of critical theories from Aristotle to the present; interrelationships of theatre disciplines as well as the influence of the church, state, and press on dramatic criticism. Prerequisite: Senior or graduate standing. (Typically offered: Irregular)

THTR 5773. Script Analysis. 3 Hours.

Introduces the fundamentals of dramatic structure, in plays from the classical era to the present, with emphasis on how a dramatic work conveys cultural meaning and how it informs the production approaches of actors, directors, and designers. (Typically offered: Irregular)

THTR 5783. Viewpoints. 3 Hours.

Exploration and application of the Viewpoints movement technique. Prerequisite: Graduate standing in Theatre. (Typically offered: Irregular)

THTR 5833. Scene Painting. 3 Hours.

(Formerly THTR 4833.) A studio class in painting techniques for the theatre. Exercises in color, textures, styles, and execution. Graduate degree credit will not be given for both THTR 4833 and THTR 5833. Prerequisite: THTR 1323, THTR 1321L and THTR 2313. (Typically offered: Spring Odd Years) May be repeated for up to 6 hours of degree credit.

THTR 590V. Independent Study. 1-18 Hour.

Individually designed and conducted programs of reading and reporting under guidance of a faculty member. (Typically offered: Fall, Spring and Summer) May be repeated for up to 18 hours of degree credit.

THTR 591V. Special Topics. 1-3 Hour.

Classes not listed in the regular curriculum, offered on demand on the basis of student needs and changes within the profession. Prerequisite: Graduate standing in Theatre or Instructor consent required. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

THTR 592V. Internship. 1-6 Hour.

Supervised practice in the various arts and crafts of the theatre (e.g. full design responsibility for a production; box office management; actor apprenticeship in a professional company). (Typically offered: Irregular)

THTR 5953. Theatre Study in Britain. 3 Hours.

(Formerly THTR 4953.) Study of the components of stage production through attending and critiquing a wide variety of classical, modern, and avant garde theatre productions in England; includes tours of London and historical British sites and seminars with British theatre artists. Graduate degree credit will not be given for both THTR 4953 and THTR 5953. (Typically offered: Summer)

THTR 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. Prerequisite: Graduate standing. (Typically offered: Fall and Spring) May be repeated for degree credit.

U A Clinton School (UACS)

Courses

UACS 501V. Special Topics in Public Service. 1-3 Hour.

Designed to cover specialized topics not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

UACS 502V. Advanced Problems in Public Service. 1-3 Hour.

Provides an opportunity for individual study. (Typically offered: Irregular)

UACS 5101. Ethical and Legal Dimensions of Public Service. 1 Hour.

This course will provide an overview of the primary ethical principles and legal concepts that guide difficult decisions in the public realm. Traditional academic study of ethical and legal theory will be combined with practical approaches to problem solving. Students will explore issues of economic, political, and social justice through case studies of current issues. Students will construct cases that are relevant to their own fields and present them to the class, identifying ethical and legal constraints on decision-making and implementation. (Typically offered: Irregular)

UACS 5303. Communication Processes and Conflict Transformation. 3 Hours.

The course is designed to increase the student's personal communication effectiveness as a leader and public servant, and to enable students to understand the application of communication processes in the public arena. (Typically offered: Irregular)

UACS 5313. Dynamics of Social Change. 3 Hours.

The course deals with the elements of social change in a democratic society, and how these intersect with and are affected by economic and political forces. A critical examination of the various justifications for promoting or discouraging social change will be undertaken, and the inherent strengths and weaknesses of these various approaches will be analyzed. Real-world cases will be used, and a culminating exercise will be a strategic assessment of the Lower Mississippi Delta. (Typically offered: Irregular)

UACS 5323. Leadership in Public Service. 3 Hours.

This course is designed to increase students' knowledge of leadership concepts and best practices, provide opportunities and experiences that improve leadership skills and techniques, and enhance capabilities in organizational management. Students will assess their leadership strengths and weaknesses, as well as develop an action plan to match their career goals. They will improve knowledge and skills in building diverse teams, in initiating/managing change, in addressing uncertainty, and in leading non-governmental organizations. At the end of the course, students should be able to design leadership strategies to successfully address a spectrum of issues in public service and in promoting the community good. (Typically offered: Irregular)

UACS 5333. Analysis for Decision Making In Public Service. 3 Hours.

This course is intended to provide students with analytical tools that enhance their skills in diagnosing problems and formulating solutions within organizations and communities. Instruction will focus on evaluating community assets as a balance to assessing community need. Underlying values of social justice and collaborative problem-solving provide a benchmark for these activities. Students, working in teams, will be challenged to apply their skills to cases related to affordable housing and homelessness. (Typically offered: Irregular)

University (UNIV)

Courses

UNIV 1001. University Perspectives. 1 Hour.

A first-year "student success" course, this class will be taught with both an online component and classroom activities. The course is designed to teach/encourage critical thinking and civic engagement. Additionally, this class will explore strategies for dealing with stress and time management to promote solutions for maintaining a physically and mentally healthy body, and to develop communication and leadership skills to benefit students in their education and their careers. Corequisite: Drill component. (Typically offered: Fall and Spring)

UNIV 1001H. Honors University Perspectives. 1 Hour.

A first-year "student success" course, this class will be taught with both an online component and classroom activities. The course is designed to teach/encourage critical thinking and civic engagement. Additionally, this class will explore strategies for dealing with stress and time management to promote solutions for maintaining a physically and mentally healthy body, and to develop communication and leadership skills to benefit students in their education and their careers. (Typically offered: Fall, Spring and Summer)

This course is equivalent to UNIV 1001.

UNIV 1011. Writing with Integrity for the Academic World. 1 Hour.

An exploration of the principles and skills of writing with academic integrity in a collegiate setting. Aimed at preparing students to recognize the intellectual property of others and distinguish it from their own in the research and writing process with attention to the reading, research and writing processes, ethical decision making, and the nature and significance of intellectual property. (Typically offered: Fall and Spring)

UNIV 1021. College Learning II. 1 Hour.

UNIV 1021 complements EDUC 1012 by focusing on additional topics leading to student success, such as setting goals and implementing action plans, assessing interests and skills, investigating career possibilities, and developing financial literacy. (Typically offered: Fall, Spring and Summer)

UNIV 1031. Math Study Skills. 1 Hour.

Eight-week course designed for students experiencing difficulty in studying and learning the cognitive and behavioral dimensions of learning mathematics and includes topics such as memory and mathematics, translating mathematics, and math anxiety. Also recommended for math education majors. (Typically offered: Fall, Spring and Summer)

UNIV 110V. Independent Study. 1-3 Hour.

Allows students to explore selected topics on an individual basis. (Typically offered: Irregular)

UNIV 1401. Classroom to Career. 1 Hour.

This course gives students the tools to prepare for a career or graduate school upon college graduation. Students will graduate from the nationally recognized Career Track Razorbacks program offered by the Career Development Center in an 8-week session as opposed to the traditional non-course option. Coursework will consist of the completion of seven modules including Self-Awareness, Career Exploration, Work and Leadership Experience, Job Search Strategies, Resume/Cover Letter Writing, Interview Skills, and Professional Networking. (Typically offered: Fall and Spring)

UNIV 210V. Peer Mentoring Experience. 1-2 Hour.

The UNIV 210V Peer Mentoring Experience is an independent study course open to students selected as a mentor through the the required selection process. Student-mentors enrolled in this course will serve for the semester as a mentor for one or more UNIV 1001 University Perspectives course(s); meet with University Perspectives students who may need additional guidance; engage in required leadership development and training opportunities; read related research on leadership, development, peer mentoring, and first-year experience programs; and provide feedback on their experience as a mentor. Prerequisite: UNIV 1001 and instructor consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 4 hours of degree credit.

UNIV 3401. Career Planning and Professional Development for Juniors and Seniors. 1 Hour.

This course examines the career planning process of self-assessment, exploring career opportunities in the world of work and learning assertive job search strategies that result in the development of a "Life after College" career plan. (Typically offered: Irregular)

University Connections Program (UCPG)

Courses

UCPG 0005. University Connections Intensive English. 5 Hours.

This class is part of the Intensive English Program designed for students who are in their first semester of the University Connections three-semester program. Not for degree credit. Prerequisite: Language assessment required. (Typically offered: Fall, Spring and Summer)

Walton College of Business (WCOB)

Courses

WCOB 1023H. Honors Business Foundations. 3 Hours.

Surveys the areas of business and presents business processes that are common to most enterprises through a hands-on, interactive business experience. Also develops the double-entry accounting framework that captures and reports information about business process performance. Topics include: analysis and recording of transactions, accounting cycle, and preparation of financial statements. Prerequisite: COMM 1313 with grade of C or better and ISYS 1120; and (WCOB 1111 with a grade of C or better for Walton College majors). (Typically offered: Spring)

This course is equivalent to WCOB 1023.

WCOB 1033. Data Analysis and Interpretation. 3 Hours.

This is an introductory level course covering topics involving estimation of population characteristics, research design and hypothesis testing, as well as measuring and predicting relationships. The course should enable the students to develop an understanding regarding the application and interpretation of basic data analysis techniques with an emphasis on statistical applications. Prerequisite: (MATH 2053 or MATH 2554, each with a grade of C or better) and (ISYS 1120 or (ISYS 1123 with a grade of C or better)). (Typically offered: Fall, Spring and Summer)

WCOB 1033H. Honors Data Analysis and Interpretation. 3 Hours.

This is an introductory level course covering topics involving estimation of population characteristics, research design and hypothesis testing, as well as measuring and predicting relationships. The course should enable the students to develop an understanding regarding the application and interpretation of basic data analysis techniques with an emphasis on statistical applications. Prerequisite: (MATH 2053 or MATH 2554, each with a grade of C or better) and (ISYS 1120 or (ISYS 1123 with a grade of C or better)). (Typically offered: Irregular)

This course is equivalent to WCOB 1033.

WCOB 1111. Freshman Business Connection. 1 Hour.

Development of personal development skills, including time management; stress management and academic planning, necessary for success; introduction to business career options and opportunities. (Typically offered: Fall)

WCOB 1111H. Honors Freshman Business Connection. 1 Hour.

Development of personal development skills, including time management; stress management and academic planning, necessary for success; introduction to business career options and opportunities. Prerequisite: Honors standing. (Typically offered: Irregular)

This course is equivalent to WCOB 1111.

WCOB 1600. Undergraduate Research Assistant. 0 Hours.

Undergraduate research. (Typically offered: Fall, Spring and Summer)

WCOB 2063. Workplace Competencies. 3 Hours.

This online course identifies the skills necessary to be successful as a professional in the workforce. Employers expect new college graduates to possess certain competencies. This course identifies and creates opportunities for the development of the skills most often valued in the workplace, including working in a team structure; goal setting; decision making and problem solving; planning, organizing and prioritizing work; power, persuasion and oral communication; obtaining and processing relevant data; technical skills evaluation; written communications skills; workplace image and attitude; corporate values and workplace ethics; and influencing others at a new job. (Typically offered: Irregular)

WCOB 210V. Special Topics in Business. 1-6 Hour.

Special topics of an interdisciplinary nature. (Typically offered: Spring) May be repeated for up to 6 hours of degree credit.

WCOB 230V. Walton College Study Abroad. 3-6 Hour.

Open to undergraduate students studying abroad in officially sanctioned programs in Walton College. Topics vary by location of study abroad opportunities. Prerequisite: Departmental consent. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

WCOB 230VH. Honors Walton College Study Abroad. 3-6 Hour.

Open to undergraduate students studying abroad in officially sanctioned programs in Walton College. Topics vary by location of study abroad opportunities. Prerequisite: Honors standing and departmental consent. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.
This course is equivalent to WCOB 230V.

WCOB 2600. Undergraduate Research Assistant. 0 Hours.

Undergraduate research. (Typically offered: Fall, Spring and Summer)

WCOB 3003H. Honors College Colloquium. 3 Hours.

An inter-disciplinary course exploring events, concepts, and/or new developments in the field of business administration. Prerequisite: Junior or senior standing. (Typically offered: Fall and Spring) May be repeated for up to 6 hours of degree credit.

WCOB 3016. Business Strategy and Planning. 6 Hours.

Integrative study of the managerial decisions; introduces students to an understanding of strategic competitiveness and the way in which business strategy is formulated and implemented; uses a combination of theoretical and experiential approaches to designing business plans for key decisions, implementing these decisions, and monitoring their effects. Prerequisite: A business student must complete the pre-business requirements before enrolling for this course. WCOB 2013, WCOB 2023, WCOB 2033, and WCOB 2043 must each be completed with a grade of "C" or better. This course is restricted to Walton College students. (Typically offered: Fall and Spring)

WCOB 3016H. Honors Business Strategy and Planning. 6 Hours.

Integrative study of the managerial decisions; introduces students to an understanding of strategic competitiveness and the way in which business strategy is formulated and implemented; uses a combination of theoretical and experiential approaches to designing business plans for key decisions, implementing these decisions, and monitoring their effects. Prerequisite: a business student must complete the pre-business requirements before enrolling for this course. WCOB 2013, WCOB 2023, WCOB 2033, and WCOB 2043 must each be completed with a grade of "C" or better. This course is restricted to Walton College students. (Typically offered: Fall)
This course is equivalent to WCOB 3016.

WCOB 3023. Sustainability in Business. 3 Hours.

The course focuses on theoretical and practical bases for pursuing sustainability in business and society. Students learn four definitions of sustainability, measured on four axes expressed by: 1987 UN Brundtland Report (intergenerational equity), Triple-play (people, planet, profits), resource sustainability, and economic justice (fair global system of rules, fairly enforced). Prerequisite: Junior standing. (Typically offered: Irregular)

WCOB 3033. The African American Experience in Business. 3 Hours.

This course is designed to provide the student with a comprehensive and critical analysis of the history of the African American experience as a member of the business sector of the United States economics. The course will review information that includes and demonstrates activities prior to slavery, during, and after slavery. (Typically offered: Irregular)
This course is cross-listed with AAST 3033.

WCOB 3043. From Books to Boardrooms. 3 Hours.

Examines career choices and skills necessary to be successful as a professional in the workforce. Self-assessment and career exploration strategies are examined using career development theories. Incorporates career path management principles to include exploring occupations, networking, enhancing business communications, job searching, workplace success skills, and college to work transition. Business majors may not use course towards upper level business credit, but may be used toward non-business elective credit. Prerequisite: Junior standing. (Typically offered: Fall, Spring and Summer)

WCOB 3053. Diversity in the Workforce. 3 Hours.

This course is designed to engage students in discussions and to increase their awareness and knowledge about barriers and contributions of underrepresented groups. This course will cover race, class, gender, sexuality, ethnicity, nationality, and physical differences that impacts underrepresented groups and how this information can influence that work environment. The course involves weekly discussion, critical evaluation, and reflection of the subjects that are covered in the assignments. Prerequisite: Junior Standing. (Typically offered: Spring Odd Years)

WCOB 310V. Cooperative Education. 1-3 Hour.

Co-op allows students to earn one or two hours of credit per semester for work related to their major. Accumulated credit may not exceed six hours. Eligibility requires: 1) junior standing in the college, 2) completion of the pre-business core and 3) the prescribed GPA. See catalog for details. Prerequisite: Junior standing and completion of pre-business core. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

WCOB 320V. International Internship. 1-3 Hour.

The International Internship allows students to work overseas with a pre-approved employer. Students must have a faculty supervisor who will work with their employer to monitor their work experience and progress. Students are responsible for finding a faculty supervisor, and the Global Engagement Office will work with both the student and faculty member to facilitate the employer relationship and expectations. Students will receive one to three hours of credit per semester based on hours worked and length of time abroad. Students may receive up to three hours of credit. Prerequisite: Junior Standing, 3.0 cumulative GPA, and Department Consent. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

WCOB 330V. Walton College Study Abroad. 3-6 Hour.

Open to undergraduate students studying abroad in officially sanctioned programs in the Walton College. Topics vary by location of study abroad opportunities. To be eligible for credit, students must have junior standing and Walton College majors must have completed all pre-business requirements prior to studying abroad. Prerequisite: Departmental consent, completion of 30 hours, ENGL 1013, (MATH 2053 or MATH 2554), ECON 2013, ECON 2023, (ISYS 1120 or ISYS 1123), WCOB 1111 and ACCT 2013. (Typically offered: Irregular) May be repeated for up to 12 hours of degree credit.

WCOB 330VH. Honors Walton College Study Abroad. 3-6 Hour.

Open to undergraduate students studying abroad in officially sanctioned programs in the Walton College. Topics vary by location of study abroad opportunities. To be eligible for credit, students must have junior standing and Walton College majors must have completed all pre-business requirements prior to studying abroad. Prerequisite: Honors standing, departmental consent, completion of 30 hours, ENGL 1013, (MATH 2053 or MATH 2554), ECON 2013, ECON 2023, (ISYS 1120 or ISYS 1123), WCOB 1111 and ACCT 2013. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.
This course is equivalent to WCOB 330V.

WCOB 3600. Undergraduate Research Assistant. 0 Hours.

Undergraduate research. (Typically offered: Fall, Spring and Summer)

WCOB 410V. Special Topics in Business. 1-6 Hour.

Special business topics of an interdisciplinary nature. Prerequisite: Junior standing. (Typically offered: Fall) May be repeated for up to 6 hours of degree credit.

WCOB 410VH. Honors Special Topics in Business. 1-6 Hour.

Special business topics of an interdisciplinary nature. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit. This course is equivalent to WCOB 410V.

WCOB 455V. Service Learning Practicum. 1-3 Hour.

Through participation in this practicum, students learn while providing services that benefit the community. The goal is for students to learn, practice, and teach the principles of free enterprise. The students assess community needs and design service projects that enable them to apply course content knowledge while developing organizational, communication, time-management, and leadership skills. (Typically offered: Fall, Spring and Summer) May be repeated for up to 6 hours of degree credit.

WCOB 4600. Undergraduate Research Assistant. 0 Hours.

Undergraduate research. (Typically offered: Fall, Spring and Summer)

WCOB 499VH. Honors Thesis. 1-3 Hour.

Provides Honors Students with an opportunity to explore a business topic in depth through an independent research project. Prerequisite: Good standing in the Walton College Honors Program. (Typically offered: Fall, Spring and Summer) May be repeated for up to 3 hours of degree credit.

WCOB 5023. Sustainability in Business. 3 Hours.

The course focuses on theoretical and practical bases for pursuing sustainability in business and society. (Typically offered: Fall and Spring)

WCOB 510V. Special Topics in Business. 1-3 Hour.

Special business topics of an interdisciplinary nature. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

WCOB 5843. Cross-Sector Collaboration for Sustainability. 3 Hours.

This course explores how organizations in the three sectors of society work together in value creation by addressing social and environmental problems. Focusing on business and nonprofit organizations, we investigate the forces that bring about and influence these collaborations from practical and theoretical perspectives, and managerial responses to collaboration challenges. Prerequisite: Graduate Status. (Typically offered: Irregular)

WCOB 6111. Seminar in Business Administration Teaching I. 1 Hour.

This course in college level teaching is designed for graduate students and new college teachers with specific emphasis on the Business Administration learning and classroom management. The purpose of this course is to introduce graduate students to principles of teaching and learning and to prepare these future teachers to lifelong learners in the classroom as teachers. Prerequisite: Graduate standing. (Typically offered: Fall)

World Languages, Literatures and Cultures (WLLC)

Courses

WLLC 2413. Migrant Experiences in Multicultural Europe. 3 Hours.

Introduction to the great diversity of Europe. Through three five-week units, students will participate in discussions regarding the identity of the inhabitants of France, Germany, and Italy. The course is team taught by faculty in French, German, and Italian. Does not count toward the foreign language requirement. (Typically offered: Irregular)

WLLC 3173. Introduction to Linguistics. 3 Hours.

Introduction to language study with stress upon modern linguistic theory and analysis. Data drawn from various languages reveal linguistic universals as well as phonological, syntactic, and semantic systems of individual languages. Related topics: language history, dialectology, language and its relation to culture and society, the history of linguistic scholarship. Prerequisite: Junior standing. (Typically offered: Irregular)

This course is cross-listed with ANTH 3173, COMM 3173, ENGL 3173.

WLLC 3923H. Honors Colloquium. 3 Hours.

Covers a special topic or issue, offered as part of the honors program. Prerequisite: Honors candidacy (not restricted to candidacy in foreign languages). (Typically offered: Irregular) May be repeated for degree credit.

WLLC 398V. Special Studies. 1-6 Hour.

A course (not independent study) which covers a topic or author not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for degree credit.

WLLC 398VH. Honors Special Studies. 1-6 Hour.

A course (not independent study) which covers a topic or author not usually presented in depth in regular courses. (Typically offered: Irregular) May be repeated for degree credit.

This course is equivalent to WLLC 398V.

WLLC 4013. Native American Languages and Cultures. 3 Hours.

Focuses on one of the major Native American groups from the southeast and midwest including the Quapaws, the Choctaws, the Caddos, and the Osages. Introduces the selected Native American group's language, culture, history and literature. Content varies each semester. (Typically offered: Fall) May be repeated for up to 6 hours of degree credit.

WLLC 4023. Languages, Cultures, and Teaching with Technology. 3 Hours.

This course provides senior level undergraduate and graduate students with innovative ways to teach and communicate through the use of modern technologies as applied to second languages. Topics of discussion include instructional systems design, Web 2.0 technologies, presentation technologies, online facilitation, and pedagogical strategies for using technological tools in language and culture courses. Prerequisite: Senior standing. (Typically offered: Irregular)

WLLC 4023H. Honors Language, Culture and Web 2.0 Technologies. 3 Hours.

This course provides senior level undergraduate and graduate students with innovative ways to teach and communicate through the use of Web 2.0 technologies as applied to second languages. Topics of discussion include instructional systems design, Web 2.0 technologies (blogs, wikis, Facebook, and other interactive tools), presentation technologies, online facilitation, and effective utilization of technological tools in language and culture courses. Prerequisite: Senior standing. (Typically offered: Spring)

This course is equivalent to WLLC 4023.

WLLC 4033. Languages, Cultures and Teaching with Video. 3 Hours.

This course provides senior level undergraduates and graduate students with the knowledge and skills needed to teach and communicate through the use of video as applied to second languages. Topics of discussion include instructional systems design, development of strong pedagogical strategies for teaching with film, analysis of research focused on subtitling, learning strategies, mental effort, and language and culture development, as well as some videotaping and editing. Prerequisite: Senior standing. (Typically offered: Irregular)

WLLC 4033H. Honors Language, Culture and Video Development. 3 Hours.

This course provides senior level undergraduates and graduate students with the knowledge and skills needed to teach and communicate through the use of video as applied to second languages. Topics of discussion include instructional systems design, videotaping, editing and development for internet and DVD delivery, and effective utilization of video in teaching and communication. Prerequisite: Senior standing. (Typically offered: Irregular)

This course is equivalent to WLLC 4033.

WLLC 4043. The Early French in North America. 3 Hours.

This course focuses on French exploration in North America from 1508 until 1698. Activities for both French and non-French speaking students provide a rich environment to discuss first encounters, cultural differences, and colonization struggles throughout New France by indigenous peoples, missionaries, military and colonists alike. This course strongly familiarizes students with historic events leading up to beginnings of Colonial French Arkansas and Lower Mississippi Valley. Prerequisite: FREN 2013 or equivalent. (Typically offered: Fall)

WLLC 4053. The Colonial French in the Mississippi Valley. 3 Hours.

This course focuses on the French Colonial Mississippi Valley from 1698 until 1763. Activities for both French and non-French speaking students provide a rich environment to discuss encounters, subsistence strategies, and warfare faced by native peoples, missionaries, explorers, and colonists alike. Students will examine primary handwritten, transcribed, or translated sources. (Typically offered: Spring) This course is cross-listed with WLLC 4053H, HIST 4593.

WLLC 4053H. Honors The Colonial French in the Mississippi Valley. 3 Hours.

This course focuses on the French Colonial Mississippi Valley from 1698 until 1763. Activities for both French and non-French speaking students provide a rich environment to discuss encounters, subsistence strategies, and warfare faced by native peoples, missionaries, explorers, and colonists alike. Students will examine primary handwritten, transcribed, or translated sources. Prerequisite: FREN 2013 or equivalent. (Typically offered: Spring) This course is cross-listed with WLLC 4053, HIST 4593.

WLLC 4073. African Sociolinguistics. 3 Hours.

Explores how language use intersects, constructs, and reflects social life in Africa. Covers key topics in sociolinguistics as they apply to current sociolinguistic issues on the African continent today. (Typically offered: Irregular) This course is cross-listed with AAST 4073, ANTH 4073.

WLLC 423V. Culture and Civilization: Field Studies. 1-18 Hour.

May be taken by students participating in overseas work study programs approved by the department. (Typically offered: Irregular) May be repeated for degree credit.

WLLC 423VH. Honors Culture and Civilization: Field Studies. 1-18 Hour.

May be taken by students participating in overseas work study programs approved by the department. (Typically offered: Irregular) May be repeated for degree credit. This course is equivalent to WLLC 423V.

WLLC 5023. Languages, Cultures, and Teaching with Technology. 3 Hours.

This course provides graduate students with innovative ways to teach and communicate through the use of modern technologies as applied to second languages. Topics of discussion include instructional systems design, Web 2.0 technologies, presentation technologies, online facilitation, and pedagogical strategies for using technological tools in language and culture courses. Prerequisite: Graduate standing. (Typically offered: Fall)

WLLC 5033. Languages, Cultures and Teaching with Video. 3 Hours.

This course provides graduate students with the knowledge and skills needed to teach and communicate through the use of video as applied to second languages. Topics of discussion include instructional systems design, development of strong pedagogical strategies for teaching with film, analysis of research focused on subtitling, learning strategies, mental effort, and language and culture development, as well as some videotaping and editing. (Typically offered: Spring)

WLLC 504V. Translation Workshop. 1-6 Hour.

Problems of translation and the role of the translator as both scholar and creative writer; involves primarily the discussion in workshop of the translations of poetry, drama, and fiction done by the students, some emphasis upon comparative studies of existing translations of well-known works. Primary material will vary. Prerequisite: Reading knowledge of a foreign language. (Typically offered: Irregular) This course is cross-listed with ENGL 5043.

WLLC 5063. Teaching Foreign Languages on the College Level. 3 Hours.

Focus on basic methodological concepts and their practical application to college foreign language instruction. (Typically offered: Irregular)

WLLC 5463. Descriptive Linguistics. 3 Hours.

A scientific study of language with primary emphasis on modern linguistic theory and analysis. Topics include phonology, morphology, syntax, semantics, language acquisition, and historical development of world languages. (Typically offered: Fall) This course is cross-listed with ANTH 5473, ENGL 5463.

WLLC 5723. Language Learning Research and Theory. 3 Hours.

Introduces research and theory in the field of second language learning and acquisition. Develops the ability to critically read and assess published research, while connecting with current theories of how languages are learned. Also introduces the process of carrying out research in language learning. A research project proposal is required. (Typically offered: Irregular)

WLLC 575V. Special Investigations. 1-6 Hour.

Special investigations in world languages, literatures and cultures. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

WLLC 6553. Applied Linguistics Seminar. 3 Hours.

Research and discussion in areas of applied linguistics ranging from discourse analysis, literacy, language pedagogy, and language planning to translation theory. Subject matter changes depending on student interest and faculty expertise. Prerequisite: WLLC 5463 or equivalent introduction to linguistics. (Typically offered: Irregular) May be repeated for up to 9 hours of degree credit.

World Literature (WLIT) Courses

WLIT 1113. World Literature I (ACTS Equivalency = ENGL 2113). 3 Hours.

An introduction to literature from the beginning of civilization to about 1650. (Typically offered: Fall, Spring and Summer)

WLIT 1113H. Honors World Literature I. 3 Hours.

Introduction to the study of both western and non-western literature. Prerequisite: Participation in Fulbright College Scholars Program or English ACT score of 28 or above. (Typically offered: Fall, Spring and Summer) This course is equivalent to WLIT 1113.

WLIT 1123. World Literature II (ACTS Equivalency = ENGL 2123). 3 Hours.

An introduction to literature from 1650 to the present. (Typically offered: Fall, Spring and Summer)

WLIT 1123H. Honors World Literature II. 3 Hours.

A continuation of the study of literary masterpieces of the world. Prerequisite: Participation in the Fulbright College Scholars Program or English ACT score of 28 or above. (Typically offered: Fall, Spring and Summer) This course is equivalent to WLIT 1123.

WLIT 3523. The Quran as Literature. 3 Hours.

The Quran as literary text, its style and form, historical context, translation issues, communities of interpretation, and comparative perspectives. Course's integrated approach includes translations of literature originally in Arabic. All readings in English; students with reading abilities in Arabic encouraged to read original text. (Typically offered: Irregular)

WLIT 3623. The Bible as Literature. 3 Hours.

The several translations of the Bible; its qualities as great literature; its influence upon literature in English; types of literary forms. (Typically offered: Irregular) This course is cross-listed with ENGL 3623.

WLIT 3713. Literature of Spain. 3 Hours.

Examines the multiple cultural traditions of Spain between 711 and 1615 C.E. Course's integrated approach includes translation of literature originally in Arabic (50%+ of course content), Hebrew, Spanish, and French. All readings in English; students with reading abilities in original languages encouraged to read original text. (Typically offered: Irregular)

WLIT 3723. Classical Arabic Literature. 3 Hours.

Arabic literature from the 1) pre-Islamic era; 2) dawn of Islam, 610-661 C.E.; 3) Umayyad era, 661-750; Abbasid era, peaking in the ninth and tenth centuries. May include selected post-classical but pre-modern works. No Arabic required; students with Arabic encouraged to engage original text. (Typically offered: Irregular)

WLIT 3723H. Honors Classical Arabic Literature. 3 Hours.

Arabic literature from the 1) pre-Islamic era; 2) dawn of Islam, 610-661 C.E.; 3) Umayyad era, 661-750; Abbasid era, peaking in the ninth and tenth centuries. May include selected post-classical but pre-modern works. No Arabic required; students with Arabic encouraged to engage original text. (Typically offered: Irregular)
This course is equivalent to WLIT 3723.

WLIT 3983. Special Studies. 3 Hours.

Covers a topic not usually presented in depth in regular courses. Not an independent study. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

WLIT 4123. Survey of Russian Literature from Its Beginning to the 1917 Revolution. 3 Hours.

The instructor will discuss the historical and cultural backgrounds while focusing on major writers and will deal with literature as an outlet for social criticism. There will be textual analysis. It will be taught in English. (Typically offered: Irregular)
This course is cross-listed with RUSS 4123.

WLIT 4133. Survey of Russian Literature Since the 1917 Revolution. 3 Hours.

The instructor will discuss the historical and cultural backgrounds while focusing on major writers and will deal with literature as an outlet for social criticism. There will be textual analysis. It will be taught in English with readings in English. (Typically offered: Irregular)
This course is cross-listed with RUSS 4133.

WLIT 4923. Modern World Drama. 3 Hours.

Drama from Ibsen to the 1930s. (Typically offered: Irregular)

WLIT 4993. African Literature. 3 Hours.

A study of modern African fiction, drama, poetry, and film from various parts of Africa in their cultural context. Works are in English or English translation. (Typically offered: Irregular)

WLIT 5123. Survey of Russian Literature from Its Beginning to the 1917 Revolution. 3 Hours.

(Formerly WLIT 4123.) The instructor will discuss the historical and cultural backgrounds while focusing on major writers and will deal with literature as an outlet for social criticism. There will be textual analysis. It will be taught in English. Graduate degree credit will not be given for both WLIT 4123 and WLIT 5123. (Typically offered: Irregular)

WLIT 5133. Survey of Russian Literature Since the 1917 Revolution. 3 Hours.

(Formerly WLIT 4133.) The instructor will discuss the historical and cultural backgrounds while focusing on major writers and will deal with literature as an outlet for social criticism. There will be textual analysis. It will be taught in English with readings in English. Graduate degree credit will not be given for both WLIT 4133 and WLIT 5133. (Typically offered: Irregular)
This course is cross-listed with RUSS 5133.

WLIT 5193. Introduction to Comparative Literature. 3 Hours.

Literary theory, genres, movements, and influences. (Typically offered: Irregular)

WLIT 5523. The Quran as Literature. 3 Hours.

The Quran as literary text: its style and form, historical context, translation, issues, communities of interpretation, and comparative perspectives. Course's integrated approach includes translations of literature originally in Arabic. All readings in English; students with reading abilities in Arabic encouraged to read original text. (Typically offered: Irregular)

WLIT 5623. The Bible as Literature. 3 Hours.

The several translations of the Bible; its qualities as great literature; its influence upon literature in English; types of literary forms. (Typically offered: Irregular)
This course is cross-listed with ENGL 5623.

WLIT 575V. Special Investigations on World Literatures and Cultures. 1-6 Hour.

Independent study of a special topic in world literatures and cultures. Prerequisite: Graduate standing. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

WLIT 5993. African Literature. 3 Hours.

(Formerly WLIT 4993.) A study of modern African fiction, drama, poetry, and film from various parts of Africa in their cultural context. Works are in English or English translation. Graduate credit will not be given for both WLIT 4993 and WLIT 5993. (Typically offered: Irregular)

WLIT 600V. Master's Thesis. 1-6 Hour.

Master's Thesis. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.

WLIT 603V. Special Studies in Comparative Literature. 1-6 Hour.

Special studies in comparative literature. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

WLIT 6703. Psychoanalysis and Culture. 3 Hours.

Readings of key texts in Psychoanalytic thought and cultural criticism including Freud, Lacan, Kristeva, Certeau, Zizek, and others. Selections of Psychoanalytic approaches to literature, film and gender and trauma studies. (Typically offered: Irregular)

WLIT 6713. Literature of Spain, 711-1615 C.E.. 3 Hours.

Examines the multiple cultural traditions of Spain between 711-1615 C.E. and train to produce scholarship pertinent to the field. Integrated approach includes English translations of literature originally in Arabic (50%+ of content), Hebrew, Spanish, French. Students with reading abilities in original languages encouraged to read original text. (Typically offered: Irregular)

WLIT 6803. Postcolonial Theory and Subaltern Studies. 3 Hours.

Seminar examining the geopolitical (imperial, colonial and national) implications of knowledge and culture. Selected readings of early postcolonial texts by Césaire, Fanon, and Fernandez Retamar, as well as more recent texts by Said, Spivak, Bhabha, Mignolo, Beverly and Chakrabarty among others. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

WLIT 690V. Seminar. 1-6 Hour.

Seminar. (Typically offered: Irregular) May be repeated for up to 6 hours of degree credit.

WLIT 700V. Doctoral Dissertation. 1-18 Hour.

Doctoral Dissertation. (Typically offered: Fall, Spring and Summer) May be repeated for degree credit.
